Subject: RE: Flint Stairways

Mr. Pratt,

Your message was received and understood. Also we are having an increase in our visitor totals for the next 14 days. With the water situation in Flint the DHHS department is giving out the free water filters and this has doubled our daily visitors totals. We are in need of more visitors labels as soon as we can get them.

Thanks,
Melvin

Subject: Flint Lobby and Entrance Cameras

Steve,

Could you please have the operators monitor the Flint Lobby and entrance cameras for the next two weeks? DHHS is distributing water filters for the next two weeks. Given the lobby limits imposed by the renovations I would like to make certain we are properly managing the influx of visitors. Yesterday saw a daily increase of 500 visitors. Please have staff alert me if they observe unsafe conditions, suspicious activity and/or disturbances.

Thanks,

Jeff

Sometimes CSC gets called for security related issues/emergencies surrounding the buildings or complex. It just seems if we are announcing that MSP and DTMB are monitoring the event, we should give out CC's number.

No big deal, just a suggestion.

Contact:

For emergencies: Central Control 517-373-0190

Brody,

For your situational awareness

I was just notified that Dr. Eden Wells will be presenting on the Flint Water crises at the State Board of Education meeting tomorrow morning. They are unaware of any protest/unplanned activity associated with the meeting or Dr. Wells presentation at this time. I am waiting on a response as to whether or not a security presences is desired. I will advise.

Thanks,

Jeff

To: Doll, Jeanette (DTMB) <dollj@michigan.gov>; Christensen, Chris (DTMB) <christensenc4@michigan.gov>
Subject: RE: Armed Guard Deployment - Second Flint warehouse

Jeanette,

The CS138 is required in cases like this as the agency requesting the service must demonstrate the cost effectiveness to contract the services as opposed to meeting the need with an FTE. So it relates to a position and does not really take into consideration geographic location.

Hope this helps. Let me know if you still have questions.

Thanks,

Jeff

Chris –

MSP Capitol Post does not have jurisdiction outside of Lansing, so do they still need to go through Civil Service?

Denice

Thanks for handling the CS138 issues for both of the Flint guard requests.

Copied folks so that they all know services should have an initial 1 month emergency PO.

Subject: RE: Armed Guard Deployment - Second Flint warehouse

Because we have State employees working as armed guards (MSP), we are required to get approval from the Civil Service Commission to hire outside of the State Classified Service. I can justify a one month emergency purchase order based on short term/temporary/intermittent needs as long as we stay under 832 hours. For a longer term, we need to show a cost savings for contracting the service, otherwise Civil Service will deny our request.

Rebecca - We will handle the immediate request as an emergency purchase order. But we have CS138 issues with guard service.

Jeff – There is no pricing mentioned in this request. I need a cost estimate for the first month of service so I can enter an emergency CS138 ASAP.

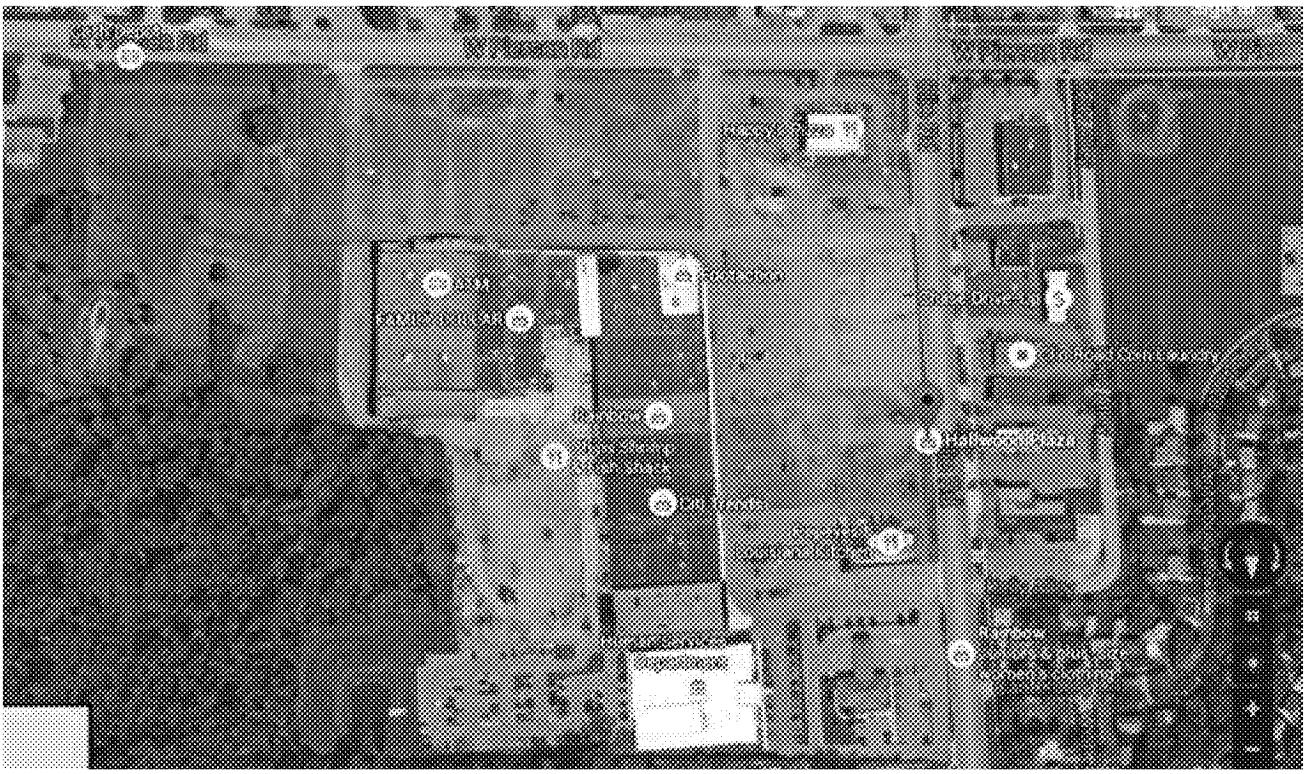
Do you plan on executing this as an emergency purchase order? Or do you want us to research the possibility of whether it can be added to a current contract?

Will you be working with DK to negotiate rates again? Hopefully $43/hr or lower.



Please let me know if you have questions.
Thank you.

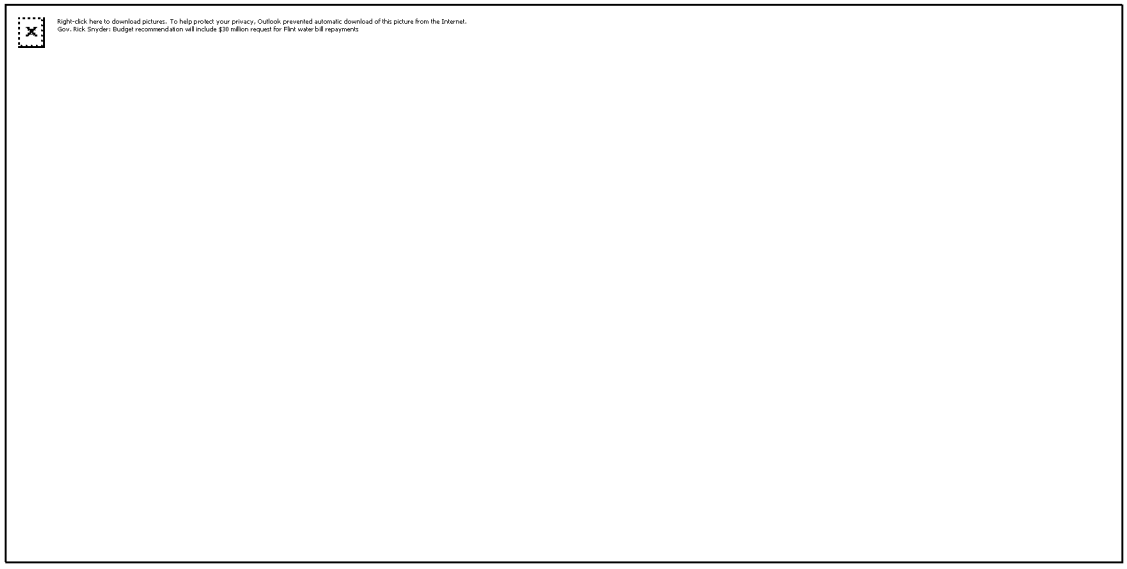
Importance: High

Matt,

Request was received today to deploy an armed security guard for a second warehouse facility in the Flint region. Could you please coordinate deployment of an armed guard as per the following details? Advise if you have any questions or require any additional details. Please confirm assignment at your earliest opportunity.

Start date/time: Mon. 2/8/16 1900hr
Hours of Operation: 1900 – 0700hrs Sun – Sat.
Duration: Month-to-month
Location: Former Kroger store in Hallwood Plaza Northwest corner, 2629 W. Pierson Rd
Post Order: Patrol warehouse interior to deter, detect and report suspicious and/or criminal activity.
Post Confirmation: Call made to DK Command Center start/end of shift and hourly while on duty
Incident Reporting: suspicious/criminal activity - 911
Uniform & Equipment: Standard uniform, side arm, cellphone and flash light (Maglite Baton type 600 Lumens min. or equal).



Thanks,

Jeff

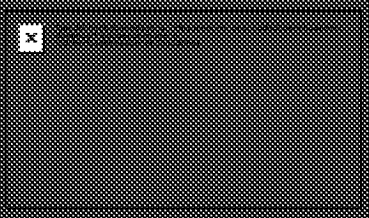
Subject: "Flint residents should not have to pay for water they cannot drink"

Budget recommendation will include $30 million request for Flint water bill repayments

When Governor Rick Snyder presents his budget recommendation next Wednesday, Feb. 10, he will include a $30 million request for the residents of Flint to keep their water service on and eliminate the need to pay for water they cannot completely trust to drink.



Under the governor's ask, the funding would enable the city of Flint to apply credits for customers on future bills. Estimates show water is roughly 47 percent of billing and sewer costs are around 53 percent. The credit would be applied to consumption usage (roughly 65 percent) of a resident's water portion of the bill, such as for bathing, drinking, cooking,

and washing your hands. Residents still would be responsible for paying the sewer portion of their water bills.

Professor Marc Edwards of Virginia Tech said, "This essentially refunds all the money associated with consumption or consumer use. I think it's an amazing gesture of common sense and good will and it corrects an injustice. I don't think there's a precedent for this. I feel so encouraged by the direction this is going."

Click here to learn more about the budget request.

We spoke with Staff Sgt. Thomas Vega about the critical resources they're providing to Flint families every day. He also encouraged residents to pick up and return their water testing kits to Flint fire stations. Test results will be posted online at www.mi.gov/flintwater. **Click here to watch the video.**

Subject: Water fund 2016

All,

It appears that we all must be drinking a lot more water than the previous year (along with losing some of the extra people that had been contributing the previous year when the audit staff was here!!) Therefore, we are going to go back to the monthly fee of **$5.00**. If at the end of the year there is a high balance again, we can reduce the cost back down. You can pay the $60 in one lump sum or $5.00 a month either way is fine.

Just a reminder, water fund is due monthly on the first pay period of the month!! January's payment is due 1/14/16!

In addition, it has been decided that we are going to switch the company that we utilize for water. Currently the water company we use is located in Flint!!!! (YIKES!) The cost of the water is slightly more per bottle (rental fee is less), but at least we know we are not drinking lead ;)

Please make sure that anything that is still owed for this year is paid asap.

Thank you. If you have any questions, please let me know.

Subject: Volunteer Opportunity in Flint

The State Emergency Operations Center (SEOC) is coordinating a response to the ongoing health and safety issues in the city of Flint's drinking water. Teams from the Michigan State Police, Genesee County Sheriff's Department, Michigan Department of Health and Human Services, and volunteer organizations have been delivering bottled water, water filters, replacement cartridges and water testing kits at homes in the city of Flint since Tuesday.

To help with this critical work, the SEOC is looking for volunteers to expand this effort and continue this distribution during the upcoming holiday weekend. Teams are being assembled for shifts on Saturday, January 16; Sunday, January 17; and Monday, January 18, 2016. If you are interested in volunteering your time for this critical work, please complete the information in one of the attached surveys (depending on which day you are volunteering).

To volunteer on Saturday, January 16, https://www.surveymonkey.com/r/28NVJBL

To volunteer on Sunday, January 17, https://www.surveymonkey.com/r/26NMJKK

To volunteer on Monday, January 18, https://www.surveymonkey.com/r/26P7P5G

Volunteers will begin their assignment at the Local Emergency Operations Center located in the Genesee County Administration Building located at 1101 Beach St, Flint at 9 a.m. and end by 4 p.m. Parking is available at the corner of Beach Street and 8th Street. Lunch will be provided. This is strictly a volunteer effort, as all three days will be unpaid. Volunteers are responsible for their own transportation; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

This opportunity is for state employees and their immediate family members 16 years of age or older only, others looking to assist should volunteer through the American Red Cross in Flint. The volunteer coordination center for the Red Cross is located at 1401 S. Grand Traverse, Flint, MI. They are open from 9 a.m. to 7 p.m.

For more information on the state's response efforts, visit www.michigan.gov/flintwater.

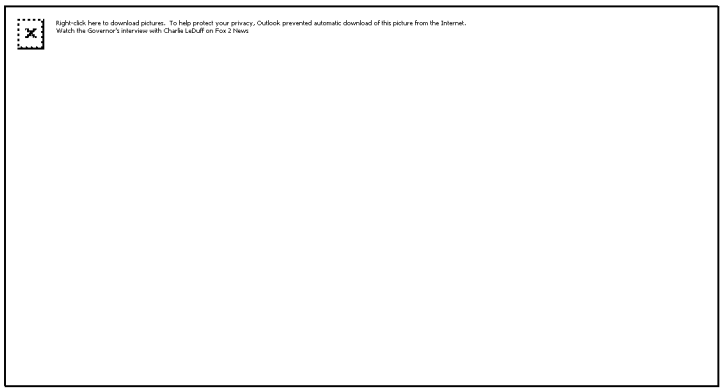
How we are fixing the Flint water crsis

Governor Rick Snyder has committed to spending the rest of his time as Governor to fixing the Flint water crisis. Over the last few days, he has sat down to explain what happened and how we're fixing the Flint water crisis. Watch the interviews below and be sure to read the Governor's Op-Ed in the USA Today.

Governor Snyder on Morning Joe

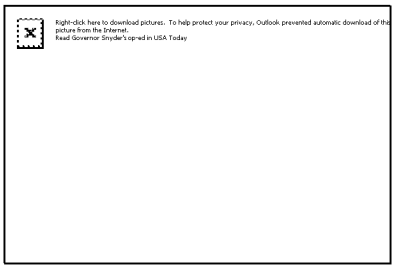


"What is so frustrating and what makes you so angry is you have a handful of experts who were career civil servants that made terrible decisions, in my view. We have to live with the consequences, and they worked for me, so I accept that responsibility. We are going to fix this problem." Watch Governor Snyder address how we are fixing the Flint water crisis on Morning Joe.

Governor Snyder with Charlie LeDuff on Fox 2 Detroit

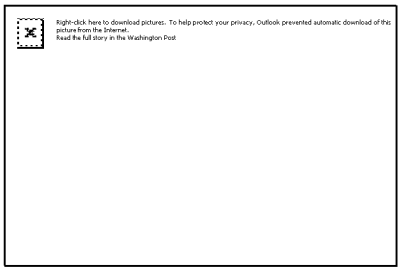
"I feel awful about this. These are people. They've been harmed. You can't feel good about that. The people of Flint have been harmed and a major influence of that harm

came from people who worked for me, and I feel responsible for that. But I am committed to solving the problem and addressing the damage as much as possible for the rest of the time I'm Governor." Watch Governor Snyder address the Flint water crisis with Charlie LeDuff on Fox 2 News.



Governor Snyder's 2016 State of the State

"Michiganders don't quit, we don't give up, instead we will work with even more passion and commitment to truly improve our state. For everyone who's chosen to make Michigan their home, this is more than a promise, this is my commitment." Watch Governor Snyder's full closing statement from his 2016 State of the State address.



Governor in USA Today: "I will fix this, and I mean it."

"Residents in one of Michigan's proud cities cannot drink their water. That's unacceptable. The crisis in Flint arose from missteps at all levels of government — local, state and federal. But as governor, I take responsibility for what these families are going through, and I'm holding people in my administration accountable for their failures." Click here to read the Governor's full op-ed.

Washington Post: "Michigan Gov. Rick Snyder is in a tough spot, but he's his own best spokesman"

Snyder has born the brunt of criticism in the local health crisis that has turned into a national scandal. But unlike many other politicians facing crises of leadership, Snyder may also be his own best counter-programming. Click here to read the full story in the Washington Post.

Subject: Flint Volunteer Efforts

Dear State Employees,

Gov. Rick Snyder and I want to thank everyone who donated their time during the holiday weekend to deliver bottled water, water filters, replacement cartridges and water testing kits to families in the city of Flint. We are working hard to ensure all residents are provided with the safe water resources they need, and each donation and hour of your time volunteered goes a long way.

For employees who would like to help the residents of Flint, there are several opportunities to do so. Please visit www.helpforflint.com to learn how you can help.

For additional information and updates, visit www.michigan.gov/flintwater.

Again, thank you for all your support.

Sincerely, Mike Zimmer
Office of Good Government Director
Dept. of Licensing and Regulatory Affairs Director

From: Dept. Technology, Management & Budget <dtmb@govsubscriptions.michigan.gov>
Sent: Tuesday, January 26, 2016 8:39 AM
To: Ragla, Beth (DTMB)
Subject: Contributing time, muscle and money

During this month's Martin Luther King Jr. holiday weekend, some state employees turned their "day off" into a "day on" in Flint. There, they delivered bottled water, water filters, replacement cartridges and water testing kits to families. The volunteers joined other Michiganders, turning Dr. King's birthday observance into a day of service.

Mike Zimmer, director of the Office of Good Government and the Department of Licensing and Regulatory Affairs, has shared a link – www.helpforflint.com – that offers other opportunities to contribute time, muscle and money to bring clean drinking water to the community.Here in DTMB, some of our employees didn't wait for an invitation to lend a hand. Office of Retirement Services staff contributed funds that were used to buy 31 cases and 23 gallons of water, which a local organization transported to Flint.

Autumn Hubbard, Ambrea Mack and Sarah Esquivel, who are in the photo at the left, nearly emptied the shelves at their local grocery store. Thanks for your efforts.

everyone.

Now work.

Last week, I signed a new policy that formalizes the annual employee review process and sets expectations for employees and managers. Administrative Policy 200.37 establishes consistent standards for implementing performance plans and reviews. Some of the standards are practices we have followed for years. Others are new. Some of particular note include:

- The mandatory use of HRMN
- A standard Feb. 1-Jan. 31 rating period for all employees
- An Individual Development Plan that specifies training or development programs for each employee
- Competencies and objectives that align to DTMB goals or scorecard metrics
- Consequences for managers and supervisors who do not complete the review process as required

A fundamental role of each DTMB manager or supervisor is to provide employees with direction and feedback on their performance. Employees also are expected to take an active role in pursuing professional development opportunities and achieving their competencies and objectives. I encourage you to review the new policy and talk with your manager or supervisor if you have questions. Of course, I welcome your questions and input as well. Please send your comments and ideas to me at behend@michigan.gov.

I know these have been busy weeks for many of you as you take on additional responsibilities and work hard to provide resources and services for our customers and citizens across the state. Please know that your hard work has not gone unnoticed. Thank you for everything you do, every day.

Have a great week,

David

Sent: Friday, January 29, 2016 9:54 AM
To: Ragla, Beth (DTMB)
Subject: Thank you for your service

THANK YOU!

Fellow employees,

Each day, more than 46,000 state of Michigan employees come to work with the confidence and commitment to make Michigan a better place to live, work and play. I appreciate the way you care about the citizens we serve, and how it is reflected in the work that you do.

As you have heard from me and the media, our reputation and trust can be severely impacted when people do not make good decisions, or use good judgment in solving problems. That principle is universal, but never more so than when public health is at stake. What happened in Flint can never be allowed to happen again anywhere in our state.

I know that you want to work in a place where employee input is valued, efforts are recognized, and teams are always striving for continuous improvement. That's why we introduced employee surveys, Bureaucracy Busters and other reinvention initiatives. We want and deserve a culture of innovation, continuous improvement and employee engagement at every level. We can never take for granted how important the people are who depend on us to do our jobs, and I am asking you not to let the situation in Flint negatively impact your motivation to excel every day.

Many of you have taken an interest in helping the citizens of Flint on your own time, and I'd like to take this opportunity to recognize and thank those who have volunteered over the last couple of weekends. You have worked tirelessly to deliver cases of bottled water, water filters, replacement cartridges and water testing kits to the families in need. I appreciate you donating your time to help our fellow Michiganders. To date, more than 37,000 homes have been visited by one of our water resource teams.

For employees who would like to further help the people of Flint, please visit www.HelpForFlint.com to learn how you can do so. For additional information and to sign up for daily updates, please visit www.mi.gov/FlintWater. I am committed to ensuring that all residents have access to safe and clean water.

Again, I'd like to express my gratitude for the work you do every day to continuously improve our state and earn the trust of those you serve. You make a real difference.

Thanks,

Governor Rick Snyder

VTS GARAGE ACTIVITIES

January 2016

- The VTS Garage loaded a cube truck full of surplus plastics and delivered to Louis Padnos for recycling.

- Beginning January 13th, VTS Garage employees John Lance, Kevin Moe and John Patterson assisted water delivery efforts in Flint. Their primary mission was to transport pallets of bottled water from a central warehouse to various fire departments.

2	12/5/2009	Adhoc	Allow saved reports to be shared with other user		Wheels		9/29: talked with Stratford about adding the capability into future CQT enhancements.
3	2/18/2009	Vehicle Repair Detail	Allow users the ability to download total repair history for individual vehicles. When viewing vehicles on "Vehicle Information Summary" page.		Wheels		Some development has already occurred in this area within the Violations portion of "Vehicle and Drivers". A webcast was held with Dan/Joel/Roy/Dave and Herb/Jen from Wheels. We reviewed the functionality and determined that it would meet the state's needs once it rolls out. Added to the list of IT projects reviewed every 6 months until scheduled for development. 9/1: Want to view by vehicle specific all MAP PO & fuel details
4	10/19/2010	Format 350 for State Excise tax on WEX feed	There is an IT fix on feed for State to exempt State excise tax (as of Jan 2010). WEX indicated they would support current process until IT complete process, however, there appears to be excise tax on file. Finance/IT is reviewing to determine if credit provided to State		Wheels	10/2011	IT fix almost completed, going through last review, QA to production
5	10/25/2010	Fleetveiw Report	Add a FV report as Fleet management service summary by billing ID (besides the current report: Fleet management service summary by driver ID)		Wheels		Provided customized fleet service summary by billing ID on FTP site.

	A	B	C	D	E
1	*Priority should rank A, B and C with A as highest priority*				
2	*Champion: Wheels &/or SOM*				
3	*Status is a running update with dates of each update to track history*				
4					
5	**Date Identified**	**Action Item Category**	**Action Item Description**	**Priority**	**Champion (s)**
6	3/22/2007	Towing ETA	Quarterly report of towing response times.		Pennington
7	09/03/10	Oil changes	GM mandated 2011 vehicles require Dexos specific oil. Therefore estimated average cost is going up ($65 - $80)	A	Wheels
8	11/23/2009	MAP	Explanation of Non-MAP P.O. charges	A	SOM
9	2/18/2009	Invoices with tax	An issue with rejected Pos and delays with national vendor billing causes issues with the State of Michigan in having their drivers trust the reports they are receiving. A total of 3 invoices came in over 90 days. Will the service be recorded into the system even if the PO is not paid?	A	Wheels
10	2/18/2009		Consistent odometer readings in Fleetview in all areas. Accident, MAP, oil changes electronic differences in odometer	A	Wheels
11	1027/2010	Map Passports	Police vehicles are to have specialized passport with different mileage parameters in regards to maintenance (i.e. oil changes). The passports for the 2010 Ford Crown Vic & Dodge Charger vehicles were sent with the normal scheuled maintenance due to an update in the model number and our system not catching this.	A	Wheels
12	5/27/2010	UDF Bill Code	State no longer uses the UDF Bill Code field, but data still resides for some vehicles. VTS requires access to files with billing ID field on numerous reports.	A	Wheels/SOM
13	11/23/2009	Quotes - GVWR	Quotes must contain vehicle GVW and all VTS required options on page one.	A	Wheels

5	Targeted Close Date	Status	
6	9/30/2010	Topic to be moved to performance metrics project: Quarterly Metrics. 9/30: do not need to include in metrics. Will address if it becomes an issue.	
7	Sep 2010		
8	10/2010	I have not received the script yet and have a call into marketing this week. Hope to close by week of 8/30/10. 9/1/2010: Script Sent	
9	10/2010	9/1: MAP process NA PO with "T0XXX" means tax exempt. PO service from driver passport (their limit is $75) could reject (due to tax). 10/15: Will the service be recorded? A: Passport transactions are created by the system when the file is loaded. If the vendor charges tax on an invoice we delete the entire record. If vendor does not return invoice w/o tax then PO is not in the system. This will eliminate duplicate PO & will ensure that all PO "open" are closed.	
10	10/2010	MAP & Collision have a process in place to ensure accurate odometer. 8/31: MAP process: Advisor repair history (review the last PO). If they enter a mileage less than any in history - given a warning to confirm. Advisor has the ability to override the odometer but cannot go lower than the last PO recorded. 9/1: Collision process: takes a picture of odometer and system alerts if odometer is incorrect.	
11	Nov-10	Jeff/Tom working with IT to get the system updated prior to 2011 orders being placed. Also working with the Passport Group to get new ones printed and will send over night once completed. 12/28: Dodge Charger - investigator cars, different template. Going forward a report will be utilized and review process with Mike Wonn to identify the special passports. 11/17: sent to Mike last week for specilized passport..going forward AE will inform Scott B with MY change to ensure specialize passports are issued	
12	Nov 2010	Files are good, request 2 additional reports: PO Detail report with BillingID (on FTP site 10/22) & Fleet management service summary by driver ID to Fleet management service summary by billing ID. 11/8: more test files on FTP site for Dan to review. Files approved by SOM.	
13	Nov 2010	We have a fix in place for Chrysler to have this added to the first page of the template. One potential problem would be if there is an upgrade to the vehicle engine, this would cause the GVWR to no longer be available on the first page. GVWR will not be able to be added for Ford quotes (templates). 8/31 Model numbers from the 2010 model year are being supplied to our Purchasing Dept to have the GVWR appear on the first page. 9/1: fix are in place (GVW) but want to check this MY to verify. 11/17: Wheels (AE/Trucks) will manually provide GVW for Ford vehicles	

	A	B	C	D	E
14	8/26/2009	Adhoc	Add "DiversionPointNumber" and "VehicleVLONumber" to Adhoc reporting tool. "	B	Wheels
15	11/17/2010	Incentive Process	Developed written process of how State receives incentives	A	Wheels
16	10/27/2010	ER	State wants to present a fleet review to new boss prior to administration change.	A	Wheels
17	10/28/2008	Vehicle Addresses	Eliminate validation through USPS address database so all driver information is updated. When a vehicle moves with bad address it won't update correctly therefore it does not move correctly	A	SOM
18	10/22/2010	Chrysler Vehicles	78 Police Sedans-Dodge Chargers. 114 Grand Caravans---Most will be passenger some will be cargo style.	A	Wheels
19	11/17/2010	Template display	FV template displayed used to have the following information but doesn't now: Model #, & engine , transmission & tire readily available to view	A	Wheels
20	5/27/2010	Quarterly metrics	We stopped reviewing quarterly metrics in 2007 due to issues with mileage skewing the data and no replacement solution was ever found	A	Wheels
21	5/27/2010	Truck Department	Display vehicle options missing from paper VLO ordered vehicles	A	Wheels
22	5/21/2010	Truck Engineering	Set up a meeting to discuss issues with Truck Engineering & document the process of ordering between Truck Ops & VTS.	B	Wheels
23	9/10/2010	GGT Electric Vehicles	SOM ordered 3 van and 3 trucks from "Green Go Tek", MI. Wheels paid $60k on 3 Pickups. Vans already for pickup. SOM doesn't want to pay for the van (Wheels have not paid yet).	A	SOM

	F	G	H
14	Nov 2010	VLO number is currently developed as an additional field and is being tested. Expected to roll out into the Custom Query Tool by the end of July, 2010. Diversion Point Number is not currently loaded within the Data Warehouse, which feeds the Custom Query Tool. A review will be conducted to judge the feasibility of adding the field to the Data Warehouse and included within the Work Order 20/20 project, projected to go live the spring of 2011.	
15	Nov-10	Sent email Nov 29 on process	
16	Dec 2010	Dec 9 1 - 5 followed by holiday dinner. Scott, Jeff, Kathy & maybe Laura will attend. Tina Richardson (Deputy, Facility & Business Services Administration FBSA) Michael Gilliland CFO, Ron Foss Chief, Accountant, Roy, Dave, Joyce)	
17	Nov 2010	10/15: client BDC setup looked incorrect to Maks, he indicated that the setup should contain a blank in the field First Logic Address correction. Ginny updated the setup so the addresses should not be validated in the next run. 10/25: Worked with IT an apply fix 10/28: Next wk will be reviewed/cleansed by Jeff Olson and Tom Halpin. Addresses will be updated in system. Dan sent truly exceptions (blank fields or division mismatches). 11/17:Jeff/Tom rec'd exception report to verify by next week	
18	Dec 2010	Chrysler incentive of orders placed prior to 12/31/2010. 200 orders; SOM ordered 193 by Dec 31; sent check $38,600	
19	12/1/2010 Closed	All items (model #, engine, tire, transmission) will be adjusted and visible in our Dec rollout of improvements. Complete by Feb 20	
20	Nov 2010	10/17: sent metrics. Kathy will talk Roy Nov 4.	
21	Feb-11	The 10 core standard options will be on display in Fleetview going forward starting with the 2011 model year. Per Roy's request, keep open until late winter until SOM has seen some paper VLOs come through. 2/3: Ronda checked Fleetview on some of the non-template VLO orders that have been place and they are displaying options as we had requested before and discussed today	
22	Mar-11	This will be kept open into the order cycle to see how the process is working. 9/1: on hold to determine this ordering cycle 11/17: Review questionnaire for proper ordering procedures on vehicle needs with Truck Ops. 2/13: Process is complete will send for SOM review and approval. 2/17: sent Roy copy of process. 3/3: Joyce to review.	
23	Mar-11	1st vehicle almost complete; taking long than expected. GGT is recommending spray in bed liner at $750. Other vehicles should be quicker. Roy: No bed liner (SOM will do it); do only the items on warranty list & one visit when all is done (1hr away). 3/16: Vehicles are complete. VTS needs to inspect before being transport back to Lansing. VTS believes it has completed most of the deficiencies; spray in liner will address other issues. Inspect vehicles 3/28	

	A	B	C	D	E
24	4/19/2011	ABS System on 10 HD motorcycles	2010 HD quote; ABS was not included in price. However the specs used for the quote, ABS was specified, but missed during the quote process. Harley will not ship them the ABS brake control module.	A	Wheels
25	4/19/2011	Visit to Wheels for 1/4 Review	10 people to visit Wheels for quarterly review May 19 -20	A	Wheels
26	4/19/2011	Vehicles not at upfitter	5 units (S0892, S0893, S1023, and S106, S0951) missed the ship through and been delivered to VTSD prior to going to Canfield.driver communication	A	Wheels
27	1/27/2011	GM arriving to SOM without VIN & no passport/fuel card	Vehicles are arriving to SOM without passport & fuel card. There are 205 vehicles on order.	A	Wheels
28	2/15/2010	Keycodes	Ford Key code different from tags on vehicle keys and Fleetview. Key code was wrong in Fleetview. Another issue with Chrysler: vehicles arrive to SOM with wrong keycodes	A	Wheels
29	11/23/2009	Certification Letter	Finalize the $20 million in spend move for the previous extension. (extended Dec 1, 2009)	A	Wheels
30	1/1/2007	Product Transaction Codes with Fuel Card	Add product controls to WEX fuel card to allow car washes (general merchandise) at stand-alone vendors. Need to add oil & fluids w/ low limit (windshield wiper fluid) to implement	A	Wheels/SOM
31	9/8/2010	Fuel Card Replacement	Current cards expire Jun 2011; need to rollout new card mid May. Fuel group begin 2d week March.	A	SOM
32	5/17/2011	Batch Data file from Wheels	File generally arrives on 1st day of month; SOM did not receive a file for May 2011	A	Wheels
33	5/19/2011	VISIT: Message to toll free #	Add message to toll free # in an effort to change driver behavior	A	Wheels

	F	G	H
24	May-11	Harley will not ship them the ABS brake control module. HD build new bikes (late Jun) swap the equipment & pay $500 for ABS. Dealer expense selling old bikes & absorb the loss, transportation & delivery. Wheels cost to swap equipment/tanks ($600) between the bikes. 5/5: SOM agreed to order 2011 HD vehicles and return 2010 HD motorcycles	
25	May-11	Rooms at Glen Club: confirmed. Sent agenda.	
26	Apr-11	Reason: Allied Truck work stoppage forced Chrysler to recruit alternate truck carriers to get units to and from upfitters, ramps, and dealers. Unfortunately, the new carriers are not completely familiar with Chrysler's transport guidelines and these were shipped to the dealer instead of the upfitter. 5/5: All vehicles are back at Canfield for upfitting	
27	May-11	2/11: Submitted an IT request to change when passport is produced. Current process is at assigned status. Request passport to be produce at built or subsequent manu status and with a VIN. Also changed mailing of current passport to 2nd day Fed Ex. IT fix will take 4 -5 weeks to complete; ETA April 2011. Passport generation changed to same status as fuel (at "built").	
28	May-11	Issue closed for now, but the team decided to keep it on the register until after the Fall order cycle. 3/3: Ford vehicles are arriving and SOM is checking for key codes. 4/14: Chrysler indicated a quality issue which has been fixed. 4/28: Some of Fords are arriving and keycodes seem to match FV. Chrysler was a "one off" issue & is fixed.	
29	May-11	Joyce to review with the Audit team to figure out what method is necessary to notate the spend change. SOM to update. 11/17: Debate auditors, VTS request Wheels to write State management letter to "agree to spend $20 million in the State for the extension" signed by Jim. Scott said done and sent to Joyce	
30	Jun-11	Oil & Fluids: windshield wiper & oil (top off) - yes authorization limit $15 to start (& can revisit if needed) & 2d transaction $10. We have all PTC and authorization limits. No adjustment to current contract needed. Next step: MI communications to, vendors & internal customers. 11/17: Developed communication scripts. 01/05: Open another PTC; will review program in 30 days. 2/3: Dave not heard of anything. 2/14: Open parts & services to accommodate windshield wiper fluid at Speedway (a few complaints); will review in 30 days. A couple transactions about $30 limit - Natasha is investigating "why". 3/18: Internally we feel PTC is working fine; Dave indicated no complaints from drivers. Agreed to review in Jun. 5/6: Met internally and talked with Dave.PTC seem to working well.	
31	Jun-11	Jennifer working with color scheme & approved. 3/9: Wheels has everything we need until we get the list of mailing locations from the state at the end of this month. 4/14: recommend we not complete during ordering cycle/spring to moving parts. Next 9/2014.	
32	Jun-11	Jeff & Tom fixed	
33	Jun-11	6/2: Send process Joyce/Deb Stevens. Message with Telecon. Estimated completion end of Jun.	

	A	B	C	D	E
34	7/13/2009	Fuel - Reporting (Business case for new fuel readers)	Integrate SOM fuel tank data with Wheels fuel for reporting purposes. 12 -14 fuel stations at SOM is involved.	A	SOM
35	5/19/2011	VISIT: Truck Escalation memo	Escalation process (for one off, out of ordinary request) developed need signature	A	SOM
36	7/7/2011	Sync Database	SOM driver.prn sync 2 systems of vehicle location & addresses. Txt file on FTP site	A	Wheels
37	7/18/2011	Damaged motorcycles	Town & Country discoved damage on 2 bikes: #S0251 ($923.34) & #S0254 ($322.99) which will affect the sale of the bikes.	A	SOM
38	11/17/2010	Rate Review	Task team to review the rates charged to State agencies for vehicles	A	Wheels/SOM
39	12/6/2010	Meter Errors	2 occurrences of a meter in the MS1fuel files that don't match the data on Fleetview. Is there more incidents where this doesn't match?	A	Wheels
40	4/9/2011	MSP Motorcycles	Ten 2010 Motorcycles did not have ABS brakes therefore MSP will not use. ABS was included in the specs but not on the order	A	Wheels
41	5/19/2011	VISIT: Extend replacement parameters	current parameters are: Sedan: 72/100k SUV: 96/125k. Should they stay?	A	Wheels
42	10/13/2010	State Excise Tax: SOM is exempted for State Excise tax	There is a disconnect on the amount of State excise tax. 1) IT/Finance reviewing if State received an excise tax credit; if not credit will be given. 2) IT needs put fix in place to prevent reconciliation next year. Suspense Oct for prior fiscal year ending in Sep.	A	Wheels
43	10/11/2011	Tax Credit for propane powered vehicles	Federal tax credit available for propane powered vehicles	A	Wheels
44	7/7/2011	MY 2012	940 projections by vehicle type. Working letters to manufactures for bid & incentive; giving manufacture til Sep 1.	A	SOM
45	2/17/2011	Driver Email Listing	SOM driver rec'd a collision email; State was unaware of communication. They would like a list of all driver communication	A	Wheels

	F	G	H
34	Jul-11	11/17: Dave talked with WEX and may have a solution (18 tanks capped off 9/10 tanks left). Intent 9 tanks license VTS + 6 correctional tanks. 2/3: Dave is requesting to replace fuel card readers (14 readers) and would like to integrate this data into Wheels (include as part of justification). Appx 13 readers 2/14: conf call 3/3. 3/16: Fuel gallons collected charged $0.02 like all fuel galloons; no rebate since Wheels doesn't pay for the bulk fuel; need 6 weeks for IT develop WEX cost ($0.35/transaction) into Wheels system. 7/7: SOM will not buy any new readers at this time	
35	Jul-11	Signed, scan to SOM & Wheels	
36	Jul-11	Tom & Jeff spoke to Jessica Drake and we have this resolved this issue. We have communicated with Dan/Roy at the State the issue and resolution	
37	Jul-11	SOM has decided to repair bike before selling	
38	Jul-11	Send currently process for review; Arrange for Visit Mar to review rate 2/7: internal meeting scheduled 2/18. Joyce reviewed & waiting to send. 3/15: Begun the process. John Bauer involved. Expected to compete in July. 4/27: We can set the SOM maintenance facility up as a vendor in the MAP system. 7/20: rolling 12 months, breakout fuel as allocated cost, continue with current methodology (complicated process). No direct bill affect dept significantly and no cost sharing. Rolling data takes into affect current expenses and changes into the allocation of same costs. SOM will provide document	
39	Aug-11	Replaced adjusted with actual so SOM is ok.	
40	Sep-11	Bikes are completed	
41	Sep-11	6/22: sent Dave feedback from John - Most fleets have extended replacement parameters over the last couple of years. Generally replacement parameters for sedans are about 85,000 miles. 7/7: SOM is taking a different approach by Anson concluded to extending mileage (based on Impala in the fleet); will send it us for JB review, Keep as is.	
42	Oct-11		**Closed**
43	Nov-11	Are state government agencies are treated differently regarding federal tax credits?	
44	Nov-11	Complete	
45	Jan-12	4/14: Jeff has talked with Roy separately aware of status for listing of driver communication (working with Joe McDonald). Roy & Jeff Discussed	

	A	B	C	D	E
46	5/19/2011	VISIT: Fleet Education	Joyce mentioned there are new administrators that need to understand fleet particularly since the contract is coming due.	A	Wheels/SOM
47	8/18/2011	Firstone Tire Deal	SOM has a government rate with Firestone, however Firestone is not able/willing to make the same billing arrangements as Goodyear	A	SOM
48	1/5/2012	MSP Patrol MAP interval	Want 4000 miles for all patrol vehicles on passport. AE verify that the passport states 4,000 miles: Chargers & Tahoes	A	Wheels
49	1/30/2012	Order Confirmation	Ronda is placing orders in FV but Pam is not receiving order confirmations	A	Wheels
50	2/15/2012	Quotes w/o discounts	Ford quotes w/o new 2013 incentive	A	Wheels
51	2/15/2012	No key codes: Ford sedans	Ford vehicles arriving w/no key codes in FV; 7 escorts in particular	A	Wheels
52	2/15/2012	Muskegan Garage	Setup as a vendor and get payment	A	Wheels
53	9/15/2011	Unmarked DHS vehicles	600 + door decal and change license plate	A	Wheels
54	1/5/2012	Focus Veh # M6657	Started on fire; maintenance good, VTS could not determine why it started on fire. Ford involved in the incident; wants documents from us.	A	Wheels
55	2/15/2012	Vehicle arrive VTS w/no passport or fuel card	Same problem as earlier: vehicles arrive at VTS but passport and fuel card arriving later. We changed the passport generation to "built" status which is the same as fuel. Passports sent 2 day mailing to VTS.	A	Wheels
56	02/15/2011 & 2/15/2012	Advance Notification	Advance notification did not print and send to SOM on 6 vehicles. Units show on the IT report when the site event reaches "D" - Received At Dealer. Document generates at "assignment" and mailed to the SOM. This document triggers the SOM to contact the dealer.	A	Wheels
57	2/15/2012	MAP schedules for ICAR	Want a list of maintenance service for ICAR vehicles	A	Wheels

	F	G	H
46	Dec 2011	Executive Review Nov 15 to Phil Jeffrey	
47	Jan-12	Firestone is checking about billing government rate to Wheels. It'll take IT development on both sides. Roy is checking with local firestone rep. Roy: no contract and or change in billing so purchase on credit card through SOM. Goodyear is only preferred contract.	
48	Feb-12	All MSP vehicles are at 4000 miles	
49	Feb-12	2/6: confirmations are going Pam and Roy is no longer receiving	
50	Feb-12	2/9: Sent Taurus/Explorer to Don for incentive. Our mistake as VOA is working the incentive with Ford. Should have the amount next week.	
51	Feb-12	Issue with file from Ford (Feb 7 -8) after vehicle was built. 24 vehicle w/o key codes are updated. Additionally Ask Enhancement team to determine root cause. Ford sends separate file. Working an exception file to ensure the file is loaded. Chrysler & GM send key code with invoice.	
52		Setup as a vendor and garage setup as vendor	
53	Mar-12	10/27: test complete. MAP has pre approvals in place; list of vendors to the SOM. Action ongoing. Monitoring to see how the process & pricing going. Some DHS didn't want to unmark vehicles but some did (VTS worked with Deputy Dir, DHS). Result: some vehicle remain marked. Some billing to SOM and not to Wheels & send to us. Address with Service/System Issues	
54		Ford agreed to $4300 per my instruction of SOM to reimburse for all expenses since the fire (book value + expenses). A letter needs to be signed by SOM. It'll take about 45 days to complete once memo is signed. SOM will not sign the letter; Joyce said SOM will let the money go. Ford has agreed to accept one signature (Wheels). Paperwork submitted for reimbursement. Jeff arranging to "term" the vehicle.	
55	Mar-12	SOM did not get the documents on Chrysler 200. We did not receive a "built" status so documents were not generated. Solution: 1) Review process to generate passport & fuel card based on VIN not status from manufacture. Means documents could be printed 6 or more days prior to "built" status &/or delivery. 2) Immediate solution: send documents with VIN (no built status). On Service/System Issues log.	
56		Working with IT to provide and discover what happen and how to fix & prevent from occurring again. Jeff sends a report of arriving vehicles; Ronda needs for vehicle notification. AE working alternative/automated process to achieve advance notification. 3/3: AE is sending (email) advance notification. 2/15/2012: AE goes into internal system on daily basis pull advance notification that ran the day before and download to pdf. In this case vehicles did not have the advance notification generated thus it was not send to client. Solution: IT reviewing if pull and send when VIN is provided. On Service/System Issues Log	
57	Mar-12	On Service/System Issues log	

	A	B	C	D	E
58	2/20/2012	Titles at VTS	VTS is receiving titles at their location	A	Wheels
59	3/1/2012	Seasonal Vehicles	Create a seasonal profile with lower limits each year - what's the best option	A	Wheels
60	11/29/2011	VLO mailing	process within VTS and would like the VLOs delivered via email rather than by US Postal service.	A	Wheels
61	2/15/2012	No key codes: Chysler vehicle	SOM has vehicles with no key codes for Chrysler: Chrysler & GM send key code with invoice.	A	Wheels
62	2/21/2012	Pollack as glass preferred vendor	Joyce working with Scott about referring Pollack Glass under Safelite	A	Wheels
63	2/29/2012	Tax Exempt: MAP	State of Michigan to provide a signed statement stating MAP Inc/Wheels Inc is acting as an agent for the State of Michigan and is tax exempt	A	Wheels
64	3/14/2012	CNG Conference	Morning conference in GRR on Mar 22	A	Wheels
65	5/19/2011	VISIT: Profile Review	Review MAP/Collision profile	A	SOM
66	8/18/2011	Fuel PIN #	Issue relating duplicate PIN; active PIN becomes inactive then new employee has same PIN but not considered "reactivation PIN". 6 incidents this happened. 6 digit PIN Fuel number	A	SOM
67	3/13/2012	MS1 HR and Structure Files	SOM error on file pertaining to " Last name is a required field. (1049)"	A	Wheels
68	9/15/2011	Keycode issues	Ford F150 discrepancy on key code	A	Wheels
69	3/13/2012	Delivery Dates	What's the process of populating delivery dates in FV?	A	Wheels

	F	G	H
58	Feb-12	Wheels is re-titling some existing vehicles in Wheels LT (from Wheels Inc). This change will have no impact on day to day fleet operations with the state (the letter will be the only indication of a change), but we are required by the contract to notify them of the change. The application to DMV requested name change with our address. However, it appears the titles are changing but with State's address. We'll go back to DMV for address change. 1800 titles changed, 400 titles left on the project. Scott talked with Joyce about this issue.	
59		SOM to determine and alert us of seasonal vehicles	
60	Apr-12	Created truck electronic VLO. All other orders are through FV. Can we close this action?	
61	Apr-12	2/21/2012: GM and Chrysler: Key codes are provided on factory invoice. Exception report created to identify any missed keycodes. Acquistions is managing process. Also bypassing certain events in order to update keycodes in system earlier.	
62	Apr-12	Scott working with Joyce. Pollack is set as vendor and has received referrals. Unable to determine if referred through Safelite.	
63	Apr-12	03/14/2012 Accounts Payable conducted audit of MAP P.O.'s. Review findings with State of MI. On-going Accounts Payable will be conducting weekly audits - State of MI is tax exempt.	
64	Apr-12	SOM was informative - an option in future if they put infrastructure inplace	
65	Apr-12	MAP profile complete; Roy will review and approve. Collision next. 4/16: AE indicated it is closed.	
66	May-12	Resolution: IT logic rewrite scrip to ensure "active PIN". SOM working programming. 10/27: 3 incidents this of a problem. These are duplicate PINs. The current logic doesn't capture duplicate. SOM has program/script, will test and let me know. 2/21: 1) SOM will provide list to fuel for reactivation (name & PIN) - weekly update to fuel dept 2) "996" PIN to universities for new employee, contract worker & undercover w/data entry & "never updated". Still open another week of two. 4/13: list of active PINs from WEX and cleaning up backlog. 5/8: Dave says it is closed	
67	May-12	3/14/2012 Working with Dan it would require time and effort on the State of MI's side to change their program to enter info. in the last name field in their batch process. . Wheels is escalating this matter for further review and next steps to determine options. Tom is working with BDC - ETA April. 5/8: Testing ongoing but should be closed within next couple of weeks. IT fixed the last name issue.	
68	closed	Ford Keycodes: Discrepancy identified from Ford - file contained some inaccurate keycodes due to a training issue. Escalated to Ford management. Chrysler and GM: Acquistions is managing an Exception report to identify missed keycodes. Also bypassing certain events to update keycodes earlier in the invoice process (keycodes are listed on the invoice).	
69	Oct-12	Wheels is reviewing the process to provide ensure accurate, timely and reportable delivery dates. At the end we will provide a reference for determining delivery dates. In the meantime, we have a manual process for establishing delivery dates for upfitted vehicles, Delivery date = body ship date. Keep in mind we rely on "status" from upfitter to enter a delivery date. Discuss with Ronda as part of MY 2013 plan	

	A	B	C	D	E
70	9/27/2012	Resale Credits	During Remarketing reconcillations discovered vehicle sold for $2501.00 but the sale was mistakenly processed for $0 - this was the 2nd incident		
71					
72	02/21/2012 & 10/3/2012	Pollack as glass preferred vendor	Joyce working with Scott about referring Pollack Glass under Safelite	A	Wheels
73	12/19/2012	Contact Role & Vehicle Designation during ordering	Agreed to populate "assigned" "driver"	A	Wheels
74	12/18/2012	GVWR on Trucks	SOM wanted the GVWR included in the Ford Truck quotes	A	Wheels
75	12/19/2012	John Deere Incentive Program	The State's MiDeal procurement department does not recognize Wheels as an eligible member.	A	Wheels
76	02/15/2011 & 12/18/2012	Advance Notification	This document triggers the SOM to contact the dealer. 12/18 we missed 10 out of 26 notifications	A	Wheels
77	1/31/2013	Hi Rail on Suburban	Veh # S3642. Hi rail cannot be added to 2013 Suburban. And order can't be cancel	A	Wheels
78	2/12/2013	Tahoe & special paint	Paint available week of April 29th so we want all orders in the system. We should 39 vehicles o/o	A	Wheels
79	2/20/2013	Road America Assistance	4 issues in the last 2 months; need an action plan to improve support	A	Wheels
80	1/30/2013	2010 Freightliner Sprinter Engine Failure	Engine replacement on vehicle with 113,765 miles; BV $25,267.44	A	Wheels
81	5/27/2010	Contract Matrix	Review all aspects of the contract to identify and update all requirements and their completion	B	Wheels/SOM
82	11/23/2007	Biodiesel	Implement new convenience store fuel reporting system to capture biodiesel and ethanol purchases.	B	Wheels
83	4/245/2013	Safelitte	2 questions: 1) Radius in place to refer drivers to VTS for stone chip repairs 2) Challenges: Safelite has incidient referred to VTS but driver did not want to go there so there is no alternative or referred driver to VTS so VTS called Safelitte to handle the issue.	A	Wheels/SOM

	F	G	H
70	Oct-12	Both vehicles were corrected. Remarketing review all sales over last 12 months and all we recorded correctly. Going forward, remarketing will conduct a monthly audit of State of Michigan vehicles to ensure all vehicles are credited correctly.	
71			
72	Oct-12	10/19: VTS Garage will email work requests to local Safelite with no need for a phone call in the future. Will drop Pollack and use safelite going forward.	
73	Dec-12		
74		Provided it manually; will include as data point for MY 2013	
75	Jan-13	Roy had John Deere on hold. SOM ordering other equipment from vendors. Nothing pending at this time. Will have to push the issue with State price if needed.	
76	Jan-13	Identified as manual process but automated Aug 2012. Issue: is occurring due to long running batch run times in other processes causing the ADN print job to run over midnight which is causing 2 sets of files instead of the 1 we expected. Likely change processing time to prevent missing a file.	
77	Mar-13	Found a dealer to accept the vehicle; no charge to SOM	
78	Mar-13	SOM is aware so they will place orders to get special paint	
79	Mar-13	Monthly reporting of previous events (VTS likes the report) VTS will spot checks some drivers. Responses good to incident	
80	Apr-13	Unit Fixed but no warranty monies given	
81	Apr-13	Wheels to build a new matrix for analyzing this as the one the State was using does not encompass all areas. Should have an idea on lay out in August of 2010. 9/1: Matrix of services (talk to Joe) 11/17: Deliverable & pricing items/update and actionable items	
82	Apr-13	This project to split into two sub projects:: - Wheels marketing to reach out to WEX and discuss feed opportunities - Wheels IT to review the code we are receiving from WEX to determine if any categorizations may be leaving out details that could be included Call scheduled on 8/23 to get updates on both projects internally 9/1: Rate setting is based on Billing ID but there is no reporting on this field (EDI on FTP site) 9/2: Yes WEX direct has this available and Wheels offer it too but the SOM is unable to view it. J. Fout is researching	
83		Keith joined the call: There is a hard code radius (radius 10 miles) so Associates don't have to make a call. Alternative plan if driver doesn't want to go to VTS or VTS ask Safelitte to handle the problem. Roy: **1st option to VTS, if driver doesn't want to go VTS Safelitte can do the service. If VTS can't accomodate repair, Safelitte can make the repair**. Keith will discuss with Safelitte with added guidance.	

	A	B	C	D	E
84	5/27/2010	Dropship Dealers for upfitters	Upfit status is NOT updating timely and being reflected in Fleetview.	A	Wheels
85	10/12/2012	2nd Stage MSO	Needing 2nd stage MSO on 3 units (2011 units M5926, S0517 and S1274)	A	SOM
86	4/24/2013	PATROL/IC Passports	ICAR rcvd the PATROL passports. PATROL passport are custom; IC to follow manufacturers recommendations.	A	Wheels
87	6/7/2013	MY 2014 Ford Orders	Bid process for Ford dealer for 2014 orders. Joyce expressed concern about the process.	A	Wheels
88	6/7/2013	Surplus Sales	Partner with Wheels to establish "floor amounts" to ensure VTS is getting highest resale return	A	Wheels/SOM
89	6/7/2013	OON Shops	Over 500 shops; select shops to attempt to recruit in network. FYI: OON charges	A	SOM
90	7/15/2013	Contract	Took effect May but executed as IT is working configuration	A	Wheels
91	6/7/2013	Nokian Tires: MSP	Replace patrol vehicles with Nokian tires		
92	8/28/2013	Ford Incentives	2014 Bid about the same as last year with some higher/others not	A	Wheels
93	6/7/2013	MAP Profile-detailing	Change profile: o Current instructions in profile require approval by April Goecke	A	Wheels
94	9/12/2013	Fuel Cards not being used	Consultants reviewing low/no fuel card utilitzation to decide if they should keep	A	SOM
95	11/19/2013	Ford Incentive	Want more incentive money from Ford	A	Wheels
96	9/16/2013	M8097 Tow Issues	Driver stranded in Lansing: 5 hour wait for roadside assistance. Set up a warranty (through GM/Chev) jump start for the vehicle. Multiple delays and challenges getting this vehicle to safe location.	A	Wheels
97	9/12/2013	Network Expansion	SOM request 20 additional vendors be asked to join the network	A	Wheels

	F	G	H
84	Apr-13	5/3: Manufacture Relations will examine all the current Body Upfit Statuses for the State of MI for accuracy and timeliness. IT changed submitted last year said – if a Ship-To Body Company and there is a Body Shipped date, add 3 days and populate an Arrived at Dealer status. The SAR is flawed causing errors in reporting: Jan Freund is working with IT to change the process. Roy: appears to working well; no issues yet. Truck is working special equipments, VOA getting more regular reporting.	
85	May-13	All complete	
86	May-13	Sent out new passports; add to MY 14 have correct MAP parameters.	
87	Jun-13	Scott & Joyce discussed. Scott expressed that Wheels does business with in Michigan, however we are not doing business with dealers who want us to fail. This should have no impact on their pricing because our bid to VTS is in the contract.	
88	Aug-13	SOM is happy with current process and feels there is not much value to be added to the process	
89	Aug-13	Top 30 vendors by PO count and a hand full of others. 15 we would not charge OON because we don't have network solution within 5 miles. 26 vendors with adequate coverage; however, SOM has negogiated a deal so the deal + 10% maybe better than network price. Assumption is SOM will use Wheels Collision shops, correct?	
90	Aug-13	CD Fees & pricing changes	
91	Sep-14	9/12: we updated the profile	
92	Oct-12	Sent analysis to Roy for review. Wheels working with Ford for more $$ on some models waiting Edge Cmax trying to get more	
93	Oct-13	profile updated	
94	Nov-13	List reducition slightly; SOM wants LD vehicles to keep in case on road vehicles but off road will not keep fuel cards (but will use on site fuel). Going forward, on speciality vehicles Ronda indicate if they "need fuel card".	
95	Dec-13	VOA talked with Ford; how much $$ does SOM want & how many Ford police vehicles will SOM lease. 12/4: Ford Police Interceptor from $2,800 to $4,800 but no increase on Ford Utility	
96	Nov-13	Jeff Whiteside & Karen Todd involvement 10/17: sent Downtime with towing included 10/18: % of calls to manu vendor	
97	Dec-13	Vendor management reviewing some locations, not good response; Crown Lift said yes; working others - 12/18: some indicated interest but did provide package we needed. Closed out; if they show interest in the future; we will pursue.	

	A	B	C	D	E
98	8/28/2013	CDB	Create 2 databases for SOM; rolled out in Dec.	A	Wheels
99	9/26/2013	CD fees	Vendor Mgt with Gaylord Ford to reduce the rate to $175 - $200 (from $400)	A	Wheels
100	12/27/2013	Remarketing	SOM wants state surplus vehicles sold from drop-ship dealer lots; wha't the process & handling the titles?	A	Wheels/SOM
101	1/15/2014	Order Confirmation	Consultants are not receiving confirmation of order once placed. Beth & Vince are experiencing this issue	A	Wheels
102	1/15/2014	SOM designed fuel & Maintenance passport	Updating documents with Wheels branding	A	SOM
103	8/28/2013	Metrics for VTS	Track items of benefit to VTS	A	Wheels
104	4/24/2013	ICAR/ Undercover Fuel Cards	Fuel cards not sent to drivers in ICAR. When ICAR is ordering the plate information is submitted to trigger the type of card & now it doesn't work.	A	Wheels
105	12/19/2013	Dropship Dealers	SOM wants new dropship dealers for delivery of vehicles	A	Wheels
106	2/13/2014	Dealer Network	Can SOM use any/all dealers from dropdown list vs selected group dropship dealers. Challenge is calling all dealers & ensuring the understand & follow SOM guidance for delivery	A	Wheels
107	12/17/2013	Fleetview responsiveness	SOM/Ronda mention problems with overall performance in FleetView. Awhile back we had IT involved about the speed to navigate through FV; I suggest we do another analysis	A	Wheels/SOM
108	3/27/2014	2 Jeep vehicles with upfitting ordered wrong (to UP MI) ICARS	We ordered FWD & should have been AWD -	A	Wheels
109	6/7/2013	IT: Electronic MOD	Setup similar to Advance notifications	A	Wheels
110	4/25/2014	Canfield Transportation Changes	Jim / Noelle Contacted Roy for approval to use UPS Logistics for transporation vehicles (driven)_	A	Wheels
111	6/7/2013	Vehicle Replacement	Extend life cycle	A	Wheels

	F	G	H
98	Dec-13	12/16: Roll out is complete, however, SOM expressed concern on the way CDB was rolled out, trained during ordering season. Consultants felt they didn't have a choice and "bam" here is CDB and "you will like this type of thing."Believed it was bad timing on Wheels part to roll-out training and then instantly give them CDB without saying "here SOM use this for a few weeks and we will get back to you to turn it officially on…." They wanted to test it after they were trained. 12/18: training and communication was issue; Ronda had an issue but feel now it is good.	
99	Dec-13	Gaylord will not lower CD fee; Roy will call him. 11/20: Merge network vendors with CD vendors. 12/4: provided possible solutions for Gaylord Ford 12/5: If VTS decide to change dealer will let Wheels know to call dealer (VTS process).	
100	Jan-14	1/20: process is not changing except location for the vehicle	
101	Jan-14	It appears emails are being sent but not received at SOM; Vince and Dave not getting confirmation; emails going to "junk" emails; been corrected.	
102	Jan-14	1/15: sent for review 1/22: SOM is ok with it.	
103	Mar-14	Presented, SOM will discuss with Joyce; proceed with metrics until hear differently	
104	Mar-14	1/22/14: orders have been placed and report reflects "I" and fuel has been ordering the uncover fuel cards & SOM has been receiving the fuel cards; still a few orders to be placed. 2/13: done ordering; vehicles begin arriving Mar - May; keep open	
105	Mar-14	1/22/14: AE talked with 8 dealerships about the paperwork they will receive. Keep open until dealers start receiving vehicles. 2/27: dealer expansion SOM to assist with communication and suggest we target dealers . If cosidering any dealer, suggest decals are added as part of production for consistency & quality.	
106	Mar-14	Address in MY 2015; review the list of dealers used & discuss	
107	Mar-14	1/28: appears 1st load of orders are slower (up to 10 sec) to return the vehicle; thereafter we'll see 3 sec return of information. Lets discuss in detail on a conf call. 2/13: Beth ordered 22 vehicles yesterday; took 4 hours thought it was slow. 2/21: IT made some improvements to the dealer selection area to reduce time in the dealer pricing calculation	
108		Options Factory order or OOS. Roy will see if can use internally - 4/25 vehicles will be used internally / two additional orders placed	
109	Keep open for MY 2014	9/10: Ready for testing - 4/25 - request completed and Roy agreed to close	
110	May-14	4/25 - Issues with current haller Canfield is using and Wheels was not aware of this change proposed by Canfield to Roy to use UPS logistics. Roy's concern is who during transport is the "owner of the vehicle" Wheels / VTS. Liability coverage included. Jeff/Frank talked with Jim Gibson. Jim reassured the process is the same with Canfield & UPS Logistics.	
111	May-14	Sent presentation - May 8 at 2:00	

	A	B	C	D	E
112	3/27/2014	BDC File & CDB	Veh # is lookup key. With CDB, vehicle info is ok. Contact side has problems: person listed mulitple times & updating a vehicle with multiple addressess	A	Wheels

119	6/7/2013	IT: Vendor network	Link to our network on site for VTS and rollout mobile apps	A	Wheels
120	5/8/2014	Fuel Cards	New cards due in August. Working with Natasha/ Patty Freeman. AE will ensure accurate mailing; working with VTS who will provide a spreadsheet with addresses + special undercover cards	A	Wheels
121	8/27/2014	Recall Program	Program to assist fleets with alerts and reporting on recalls	A	Wheels
122	9/4/2014	MDOT minivan S1955	Vehicle went to the dealer for cruise control recall. However when vehicle was returned additional mileage was on a vehicle while at a shop (dealer)	A	Wheels
123	5/8/2014	Fuel Cards	New cards due in August. Working with Natasha/ Patty Freeman. AE will ensure accurate mailing; working with VTS who will provide a spreadsheet with addresses + special undercover cards	A	Wheels
124	9/30/2014	Canfield Meeting	Review and discuss processess in support of SOM fleet (MSP & DNR)	A	Wheels/SOM/Canfield

	F	G	H
112		Shut off update contact address temporary - can only have one address for contact. Use VTS address for contact. 4/25 - setup sepearate meeting with Roy to discuss. 5/8; We will do a one time update with address & drivers. During BDC the file will update the contact and address remains at VTS. AE will handle exceptions. BDC file is sent every other week; will keep open until next BDC file.	
113		IT working with MAPQUEST to change mapping of zip code - 4/25 IT confirmed that MapQuest Customer Support is still researching this issue and unfortunately do not have a date of when this will be resolved. 5/8: An issue with MAPQUEST & they must resolve	
114		4/25 - Provides VTS garage with access to Ford's Maintenance Services program by login - Allow VTS with 1 connection (33 connections available) - VTS to access at $0 charge - Subscription is approximately $2500 per year - emailed Jan Freund to look into. Meeting set up for implementation in MY 2015. Jan is working it. - 7/17 - Ford said there will be a charge to implement and is interested in executing for the VTS garage	
115			
116		Top Fleet at Expo	
117	Aug-14	4/25 - Wheels to recreate new EVLO in Excel format similar to Wheels - Email EVLO to Roy to review for approval. 7/17 - Rcvd sample copy Lindsey and Jeff to review-provide to SOM for final approval	
118	Aug-14	Charges are showing $0 due to manufacturer tow and VTS tows; AE to contact DART to remove VTS tows, report only to show wheels tow charges	
119	Aug-14	12/5: 3 prong approach: 1) mobile apps for drivers - info sent to SOM; adding statement for using VTS Garage - **Done but use DV** 2) listing of network vendors on FV for fleet contacts - **(done)** 3) Reporting to SOM on PO assessed OON fee where a driver could have used a network vendor - **Working** . 4) add vendors to network (**done**).	
120	Aug-14	Plan established to implement. 7/17 - VTS sent m4 file to the departments to review the address listed, report is due back to VTS on 8/1, Fuel Department to mail fuel cards to address in the report; need to triple check no d-mail is setup and cards are sent to the correct addresses. Vehicle at VTS or on order will be mailed drirectly to VTS and included in the spreadsheet. VTS in beg / mid sept to confirm with departments if cards were rcvd and working. Fuel cards will be cut off end of sept.	
121	Aug-14		
122	Oct-14	9/11: Bob is involved there was unauthorized miles with process to ensure it won't happen again 9/25: Jeff working with Dave and MDOT. GM contacted MDOT rep about mileage descrpancies. MDOT was satisfied with feedback from dealership	
123	Oct-14	Cards mailed; some in multiple packages; have they all arrived 9/11: very few problems. ICAR cards issue - wrong card sent to these drivers (not the ICAR unique fuel card). Going forward at time of renewal, we'll discuss and handle ICAR cards separately.	
124	10/1/2014	Meeting set Oct 16; Frank & Jeff will attend. Product preview, procedural change	

	A	B	C	D	E
125	9/11/2014	10 passenger Vans S4552 and S4553	Can't use 10 passenger; ordered didn't realize no front passenger seat up front; 44 miles each; need to resale	A	Wheels
126	10/21/2014	Metrics	Collision rate minus MSP & OON usage are on the rise	A	Wheels
127	11/3/2014	Fuel RFP	SOM is going through fuel RFP; based on guidance of cutting number of contracts at State level.	A	SOM
128	6/7/2013	Oil changes with Fuel card	Oil changes included on fuel card (not passport) so it appears driver is overdue when he isn't	A	Wheels
129	11/3/2014	Adding Drop ship dealers	AE provided a list of current drop ship dealers and all courtesy dealers in the state of MI.	A	SOM
130	4/17/2014	DHS Veh # S0696 - Tow Issue	Waited 4 hours for assistance after requesting a tow (stuck in mud in the woods). Wheels referred tow issue to Chevrolet Roadside Assistance	A	Wheels
131	8/25/2014	Recall Program	Visibilty on FV & alerts; need to sign an amendent before using	A	Wheels
132	12/18/2014	Remarketing	Phil is asking for Remarketing expenses associated with selling with vehicles. Objective is compare the cost with Surplus Sales	A	Wheels/SOM
133	12/18/2014	Tahoe Wheel Bearing	Being handled internally through SOM garage & local rep	A	Wheels/SOM
134	1/21/2015	Quarterly Metric - MAP PO	Over 1400 vehicles with no MAP for 6+ months	A	Wheels/SOM
135	11/20/2014	Snow Tires	MAP requested approval on snow tires for MSP. Profile should state MSP is automatically approved	A	Wheels
136	2/25/2014	Discontinue Impala Production	GM is indicating cancelled over 200 Impala due to part shortage	A	Wheels
137	2/20/2015	Missing fuel cards	VIN triggers fuel cards but it did not happen. We are investigating why it broke & fuel cards were not generated	A	Wheels
138	2/20/2015	Missing fuel cards	VIN triggers fuel cards but it did not happen. We are investigating why it broke & fuel cards were not generated	A	Wheels

	F	G	H
125	Oct-14	10/23: Both sold S4552 sold for $25,300 (BV $24,549) & S4553. Resale above BV.	
126	11/1/2014		
127	12/1/2014	Dec: Done - SOM hiring consultant to evaluate programs	
128	Dec-14	ETA completed by Oct 31 2014. We load the account data from WEX into our system so it could state general maintenance (vs Oil Change). SOM runs report from FV, WEX fuel, & M4 before going to the driver. Added other account codes to upload the maintenance. 12/4: Lindsey has it and will send to SOM; likely close out before next CC. 12/18: Process established. Roy wants PTC for Quick lube to stay open. It is at $75 with little activity.	
129	Dec-14	12/3: Add dealers back from DNU list: Ed Schmid Ford- under new ownership (**SETUP**) & Riverside Chev, Escanaba - dealers mgt is checking - their lack of response is a reason we don't do business with them.	
130	Dec-14	Wheels transferred her to the manufacturer assistance program, verified they can assist her and then transferred the call. Recommendation add these tow services to the monthly report for "Towing, Roadside, Jumpstart, and Lockout Report" - 4/25 DART to add a column in the report to show if Road America / Manufacturer Warrany towed vehicle - Issues reoccurring with no resolution and need recommendations on how to resolve - meeting will be setup with Mark Stahl (Driver Services Manager) and Jeff Whiteside (MAP). Conference call to discuss in detatils May 8 at 3. 7-17 - No change in towing profile per Roy	
131	Jan-15	SOM won't sign the recall because of indemnification so they are not able to use recall program	
132	Dec-14	Provided expenses on for a sample group of vehicles	
133	Dec-14	12/18: Roy will check how we get this information into our system so Wheels can work through our channels.	
134	Jan-15	Roy indicated most are waiting for Surplus sales. There is about 200 that need to have a Maintenance; consultant will address with business unit	
135	Feb-15	11/21: Profile appears to be confusing; rewording the profile for clarity and will send reminder to MAP advisor and DS Associates about snow tire profile.	
136	Mar-15	SOM is willing to wait until July for 1st production and 2015 pricing	
137	Mar-15	3/13: Request SOM BDC file has "I" enter UDF #5 for undercover fuel card (black); otherwise a regular fuel card will be issued.	
138	Mar-15	3/13: Request SOM BDC file has "I" enter UDF #5 for undercover fuel card (black); otherwise a regular fuel card will be issued.	

	A	B	C	D	E
139	4/1/2015	Credits MD Trucks	Ford did not pay incentive (HB + Floor plan) up front. They had to be re-invoiced, and the funds collected from our Vendor Courtesy Ford. These vehicles are on billing currently. Total amount $52,376.00	A	Wheels/SOM
140	2/25/2014	Discontinue Impala Production	GM is indicating cancelled over 200 2015 Impala due to part shortage	A	Wheels
141	4/13/2015	Onstar Activation	Need to activate onstar on GM vehicles.	A	Wheels
142	4/16/2015	Tow Issue: S1917	Driver merged onto the highway, the gas pedal stuck and started to accelerate up to high speeds. Apparently this is not the first incident. Concern is why a tow incident took over 2+ hours on a day without weather issues and assigned to a provider 20+ miles away when driver was in Grand Rapids?	A	Wheels
143	12/13/2010	Changes in Accounting Rules for Leases	Leases will likely need to be accounted for on balance sheet .	C	Wheels

ALL ABOUT US

OUR MONTHLY REPORTS

DTMB

HELP. CONNECT. SOLVE.

SAVINGS REALIZED BY MAILING SERVICES CUSTOMERS when mail is pre-sorted and batched FYTD:

- Presort Letters - $2,075,013
- Presort 2nd Ounce Letters - $585,630
- Presort Flats - $104,269*
- Total Presort Savings- $2,764,912
- Consulting Savings - $64,301

* presorted flat-size mail has not been presorted since Jan. 13. The vendor (Bell & Howell) is working to correct this issue with additional testing.

State Surplus MiBid Results

- Posted 119 auctions
- Sold 68 vehicles
- Sales of $367,439
- Retained Revenue MiBid - $103,096

Federal Surplus

- Two new applications for federal program
- Two Federal Surplus Donations
- Retained Revenue from donations - $451

Delivery Services

- Revenue – January FY 2016: $191,216 on 174 work orders
- Revenue from move jobs – January FY16: $36,084

OSS Steps Up to Assist in Flint Water Crisis

- Printing Services staff have printed over 1.2 million palm cards and 1 million water testing forms, in English, Spanish and Arabic. These jobs were all quick turnaround – sometimes a matter of hours! Staff stepped up to the challenge! Special thanks to **Mark Miller, Todd Martin, Arnie Castillo, Brad Schumann, Shay Cooper, Tina Luna, Scott Barclay, Dan Chipman, Tom Cooley and William Banks** for going above and beyond in providing excellent customer service!

- The Federal Surplus Property Program received help from the National Association of State Agencies for Surplus Property (NASAP) obtaining bottled water from the South Carolina Surplus Program. South Carolina had an entire warehouse full of bottled water that was left over from a flooding emergency. With the help of Scott Pepperman, of NASASP, MISASP was able to arrange shipping for the water to be delivered to Flint and distributed throughout the city. Approximately 175,000 bottles (92 pallets) of water were successfully delivered to Flint to assist with the water crisis.

- Employees from the Delivery Services Team have been working tirelessly helping out with the Flint Water Crisis since Jan. 9, 2016. They have done a fantastic job and it has been greatly appreciated. Please join me in thanking **Brent Thelen, Jim Thomas, Jeff Bailey, Sam Putmon, Sean Dennison, Brian Cardwell and Steven Kesson**.

- Beginning Jan. 13, VTS Garage employees **John Lance, Kevin Moe and John Patterson** have worked many hours, seven days a week, while putting their family and VTS duties second, assisting with water delivery efforts in Flint. Their primary mission has been to transport pallets of bottled water from a central warehouse to various fire departments. We thank them for their efforts along with their dedication to helping the people of Flint.

Great Examples of Teamwork!

Records Management Services

- DHHS is moving its employees who are currently working in the Capitol View building to the building that MSP is moving out of. The Senate will be moving into Capitol View, and MSP is moving out to the Secondary Complex. DHHS hired a consultant to coordinate the move, and the consultant contacted RMS for help with records management issues. RMS was asked to provide training to the affected employees. RMS taught 4 classes, and 84 people registered to attend the classes. The classes addressed how to identify records that need to be kept, Retention and Disposal Schedules, storage issues, and tips for moving.
- Records Management Services held meetings with local offices in Wayne County from the Department of Health and Human Services to discuss the transition from Iron Mountain to Royal Oak Storage for the storage of its boxes of closed case files. 74 boxes from the Western Wayne County office are scheduled to be picked up and delivered to Royal Oak Storage on February 5, which marks the first boxes sent to the new storage vendor. Approximately 95,000 boxes will be moved from Iron Mountain to Royal Oak.

Records Manager Projects (formerly TRIM)

- The Department of State Human Resources office, already a Records Manager customer, intends to expand its use to its Labor Relations section, using the same configuration already in use by Department of Health & Human Services Labor Relations section. Records Management Services (RMS) will host a meeting with multiple HR offices using Records Manager to go over the labor relations configuration and establish a standardized configuration for use by any HR Labor Relations section.
- The Michigan Department of Transportation (MDOT) signed a charter to use Records Manager for its Human Resources office, leveraging the standardized structure made available through previous HR projects with DHS, MDOS, DTMB, and Quality of Life (DEQ/DNR/MDARD). A training has been scheduled for February 22, 2016, to give the implementation team hands on experience with generic records as part of the standardized structure.

Delivery Services Thanked

- 1/28/2016

  Just wanted to say thank you. The crew was extremely nice, polite and waited patiently to be told where to put file cabinets. They also, didn't get full use of the dock at the Grand Tower because of the semi they had to use. So they had more work than usual moving items from the truck to their destination.

  Just thought I'd pass this along, thank you!

  Michelle Holloway, Project Manager, Bureau of Organizational Services

MDHHS
Michigan Department of Health & Human Services

New Staff

The ID Mail area welcomed another new employee to their team on Jan. 4, 2016. Colleen Rupert has taken the position of Motor Vehicle Operator 6 (MVO6). Please welcome Colleen to our team.

Are You Reviewing Your Old Email?

The implementation of the DTMB policy on Email Management has been postponed until March 13, 2016, in order to give staff more time to properly file their email records.

Mailing Services

- Logistics & Operations Support (LOS) is currently working with Michigan Department of State (MDOS) on updating the Service Level Agreement (SLA) for the renewal by mail program. Copies of the current SLA have been shared with MDOS and the re-write process will soon begin.
- Mailing Services presented to the IT Assets servicing Treasury regarding the sunset of Optical Mark Recognition (OMR) technology used to match multi page document sets for mailing letters. LOS is working on identifying all Treasury applications using OMR and statistical data outlining the benefits of using a higher integrity code to minimize data breaches in the mailing process.
- A joint project has been started to link all Michigan Department of Health and Human Services (MDHHS) Business Reply Mail (BRM) accounts to DTMB's United States Postal Services (USPS) Central Account Processing System (CAPS) to centralize all service payments and cost monitoring. Mailing Services currently has linked 42 BRM accounts for MDHHS. Linking the remaining offices will simplify the process by making direct payments to the postal service for individual account activity. Locally managed accounts will benefit by not having to maintain a fund balance with the serving post office, ensuring mail will not be held for the lack of funds, and eliminate the need for local self-monitoring of fund balances statewide. Mailing Services has enlisted the help of the Postal Service to link the remaining identified MDHHS accounts into DTMB's CAPS system.
- Mailing and Financial Services met with the Sigma development group to finalize the design of the MS Order System. Clarification of content, updates of Sigma department coding, contact personnel on the order system, and user direction have been updated for the Sigma designer to be placed in the system.
- LOS is progressing with the EFI/PACE/Storefront implementation. Discussions related to non-state mailing account coding are under advisement with financial services. The reason being, the current coding of non-state accounts are not compatible with EFI/PACE requirements. Financial Services is reviewing the code changes requested for PACE to ensure these will not adversely affect the current billing data base process.
- In line with Executive direction, Mailing Services conducted Action Plan Update meetings with all of our staff. An advance copy of the current Action Plan was provided to each employee so as to gather input regarding updates they may have to offer to the current plan. During the sessions with staff, an in-depth review of current actions and expected outcomes were discussed so staff could help in identifying gaps that can be measured in the new plan.
- Mailing Services has established a rate committee to identify and accurately define service rates with DTMB Financial Services. The committee meetings, now scheduled bi-monthly, have been invaluable in bringing understanding to the process and gathering data to accurately determine service rates going forward. Outcomes for the meetings include; accurately identifying and placing costs, building an annual rate setting worksheet, assigning responsibilities to provide accurate data, monitor and provide a mailing trend analysis and cost projection reviews as a committee.
-

Thank You Notes

- *To: Tom Goodine*

  Thanks Tom. You are always Mr. Dependable, and pretty darn fast too.

  Deanna Anderson, MSHDA

- *To: Mike Armstrong*

  Thank you for the update as well as your hard work and promptness with this project! It's greatly appreciated!

  Autumn Spitzley, Graphic Arts Designer, DNR Wildlife

- *To: Tom Goodine & Shelly Millimaki*

  Thanks, Tom. I almost CC to you and thank you Shelly for forwarding the message. I will let my LAW person know. Thank you both for your help!

  Jennifer Sochor, DNR

Vehicle and Travel Services

- VTS consultants met with GM Fleet Account Executive Connie Scarpelli and GM Sales Support and Police Vehicle Specialist Todd Little to discuss the delay of the Impala Limited and Chevrolet truck issues. The production of the fleet Impala Limited was delayed from Dec. 10 through Jan. 14 with final vehicle orders being excepted through mid-January.
- Staff from the VTS Garage and Canfield Equipment worked together in an effort to save costs on beacons and hood signs for MSP vehicles. Canfield Equipment picked up a large quantity of used beacons and hood signs from VTS that have been removed from retired MSP vehicles. These used beacons and hood signs will be reconditioned and reused on new MSP vehicles. MSP is not required to purchase all new parts for their patrol vehicles, and recycling these items saves money.
- A number of VTS staff attended the 2016 North American International Auto Show held at the Cobo Center in Detroit. This is an opportunity to preview the new model vehicles on display and talk with company representatives about current and future product offerings. Vince Reynolds and Ronda Greko also had the opportunity to attend the "Pre-Show" Product Preview" and talk one-on-one with Ford and Chrysler Representatives along with Company Executives, Engineers and Designers.
- GPS Telematics Update: VTS Consultants working with their Telematics Vendors and participating departments continue to meet and discuss reporting options, what works and what doesn't, and any issues that come up. Vince Reynolds attended a high level meeting with MDARD Deputy Director, Division Directors, Supervisors, and Managers who met with GPSInsight Representatives. GPSInsight demonstrated the overall capabilities and limitations of the system. They also showed some of the reporting functions. This presentation was scheduled to determine what educational opportunities might be used with the pilot participants. The presentation was received very highly by the MDARD staff and online, follow-up sessions were scheduled for the following week so that the attendees could observe the system function in real time.
- VTS Garage staff loaded a cube truck full of surplus plastics and delivered to Louis Padnos for recycling.

Printing Services in High Gear

- January was a huge "tax" month for Printing Services.
    - Completed development and printing of the annual DTMB OFM 1099 statement. There were a total of 58,521 images printed.
    - Completed development and printing of the annual DTMB OFM W2 statement. There were a total of 61,208 images printed.
    - Completed development and printing of the annual MDHHS W2 statement. There were a total of 64,118 images printed.
    - CPC successfully completed the MDHHS CHAMPS 1095B printing project. There were a total of 279 print files, each file consisting of 40,000 images. The entire project resulted in 11,160,000 printed images.
    - Completed development and printing of the annual MSHDA 1099 statement. There were a total of 11,052 images printed.
    - Completed development and printing of the annual MSHDA 1099G statement. There were a total of 682 images printed.
    - Completed development and printing of the annual ORS 1099 statement. There were a total of 286,576 images printed.
- Printing Services completed a rush project for Treasury in less than 4 hours! Treasury contacted us with a request to print 70 copies of a document on light green paper. The order was received at 4:00 p.m. but the specifications were much different! The quantity was still 70, but the paper and bindery requirements had changed. Despite the changes, the job was still able to be completed and delivered before noon! Great teamwork by Printing Services staff to meet our customer needs!
- The Pace implementation is on-going. EFI will be on-site the week of Feb.1, to implement the Fiery Central (which will allow our Xerox printers to communicate with Pace) and the update to our online ordering system.
- Printing Services completed the quarterly Voya printing. The statements consisted of over 1.1 million images. In addition, newsletters, seminar schedules and performance numbers were produced as well. This quarter's printing also included the MPSERS Pension Plus and DC statements and inserts, which are completed twice a year.
- CPC finalized our responses to the findings from the August IRS Safeguarding Audit. The outstanding issue with Xerox on a security patch for the IRS overlay on the Nuvera controllers has been resolved. Printing Services is now 100% compliant.
- Printing services was contacted by DTMB Building Operations who were need of an emergency sign for their GOB construction site. Electrical inspectors had threatened to shut down their construction if an electrical sign wasn't installed. **Molly Perry** was able to produce a sign for them within a few hours, which allowed Building Operations to continue to work! Great job, Molly!

Printing Services Now in Con Hall

- DTMB Office of Performance Management graciously allowed Printing Services consultants to occupy a vacant office in their area in Constitution Hall. We moved into that space on Jan. 20. It is on the 1st floor of Constitution Hall in the northwest tower.

Warehouse Services

- The on-going project to move Depot Logistics into the General Services Building is still on track to hit our April timeline. In January, we began preparing the building for the move by making some adjustments to racking, cleared an area where Printing Services will have a new rack installed, and cleared some racking at the current Depot location that will be brought over to GSB.

- The next phase of work will include having a vendor move some racking from Depot to GSB, as well as constructing cubicles, setting up data and power lines, and final configurations of the Depot layout.

Appreciation to Printing Services

- ***From:*** *Khouri, Claire (GOV)* ***Sent:*** *Monday, January 18, 2016 3:39 PM*
  To: *Monroe, Jerry (DTMB) <monroej1@michigan.gov>*
  Subject: *RE: SOTS Materials-- Program*

I think we might be all set and not need any additional copies printed of new materials… Again, thank you so much for your help this year! As always you have been amazing to work with and the service you provide is exceptional!

Subject: What this year's budget means for Michigan...

VIDEO: What Governor Snyder's FY17 budget means for Michigan

Gov. Rick Snyder's FY 2017 budget calls for critical investments for the Flint water crisis, statewide infrastructure and the Detroit Public Schools. The governor's recommendation also addresses the skyrocketing costs of specialty medications that Michigan residents depend on for better health outcomes.

This budget also stays committed to the Governor's core statewide priorities of education, talent and economic development, health and human services, and public safety.

The proposed FY 2017 budget makes key investments to strengthen the state for all of

Michigan's families. Click here to learn more about the top 6 takeaways from the Governor's FY 2017 state budget.

Click a tweet to tweet it out:

The #MIBudget @OneToughNerd proposed yesterday makes key investments to strengthen Michigan for all families --> www.mi.gov/MIBudget

--> @OneToughNerd's #MIBudget includes $72 million a year for Detroit Public Schools. It is time to act now -- > www.mi.gov/MIBudget

--> @onetoughnerd's significant investment in #Flint families is the right thing to do. #FlintFWD #MIBudget www.mi.gov/MIBudget

VIDEO: How volunteers are helping Flint

Volunteers at the Food Bank of Eastern Michigan are working hard to collect donations in order to help the families of Flint. Last Thursday, Governor Snyder visited with the many dedicated volunteers and helped sort cans of food.

Good nutrition is critically important for Flint's children. Foods that are high in calcium, vitamin C, and iron can help limit the effects of lead exposure. To donate or volunteer at the Food Bank of Eastern Michigan, visit www.fbem.org.

Click here to watch the video and learn more about how the Food Bank of Eastern Michigan is helping Flint's families.

LISTEN IN: Governor Snyder's tele-town hall with Flint residents

Governor Snyder hosted his third town hall with Flint residents on Thursday, Feb. 11, answering their questions directly. *Click here to listen to the call.*

Sent: Wednesday, February 17, 2016 10:10 AM
To: Ragla, Beth (DTMB)
Subject: The Gov. Snyder's Budget Proposal

Good morning everyone. I hope everyone had a great holiday weekend.

I had the good fortune to travel to Marquette on Monday with Chad Laidlaw, DTMB's policy and planning analyst, to meet with city, business and university leaders and to address the Economic Club of Marquette. I told them about the many things DTMB does, placing special emphasis on our work in mobility and cybersecurity. Marquette is really developing and making its mark as an innovative and entrepreneurial community.

Now work.

The executive budget Gov. Snyder presented last week outlined his investment plan for Michigan. Yes, the proposal for fiscal year 2017-18 outlined a strategy to address the critical challenges of addressing the Flint water crisis and turning around Detroit's Public Schools, but the $54.9 billion plan also includes investment in four key areas:

- **Education.** The budget increases investment to K-12 schools, community colleges and the state's public universities. Additional funds are proposed to expand career, technical, science, technology, engineering and math programs.
- **Protecting the Public.** The governor's plan expands the Secure Cities program, which has reduced violent crime in four major Michigan cities. Funds also would support an additional trooper recruit school and an academy to train corrections officers, among other initiatives.
- **Putting People First.** The governor recommends continued expansion of the Healthy Kids Dental Program and funding efforts to ensure residents have access to affordable health care. His proposal boosts funds to help cover new higher cost specialty medications to treat conditions such as hepatitis C and cystic fibrosis, among others.
- **Investing in Infrastructure.** The proposal allocates $1.2 billion to maintain and repair Michigan roads, bridges and other critical infrastructure.

The budget proposal also includes FY 2017-18 funding recommendations for DTMB. Gov. Snyder recommends ongoing funding of $1.3 billion for department operations and a one-time allocation of $32.4 million.

A few highlights include:

- $502 million for information technology support for all state agencies and $132.8 million for 14 high-priority IT projects in seven agencies. He recommends increasing the Information Technology Investment Fund by $7 million, from $65 million to $72 million. This fund supports several major multiyear IT projects and upgrades, including the replacement of outdated legacy systems.
- An additional $5 million to support cybersecurity improvements to safeguard citizens' personal information and protect critical infrastructure and government services.
- IT support of $6.5 million to modernize the Office of Retirement Services' systems and enhance customer service for more than 530,000 current and future retirees.

You can see the full executive budget recommendations, which are posted on the Budget Office website. Details of DTMB's proposed budget begin on page B-75.

We can expect to see many changes before the budgets are signed and become effective Oct. 1. The executive budget will be used by the House and Senate Appropriations Committees as they work on their own budgets and hold committee hearings on the proposals. I'll keep you posted as the process moves ahead.

As always, I welcome your notes, whether about the budget process or any other topic. Please send them to me at behend@michigan.gov.

Thank you again for all the good work you do. I hope you have a great week ahead.

David

Subject: Flint Volunteer Efforts

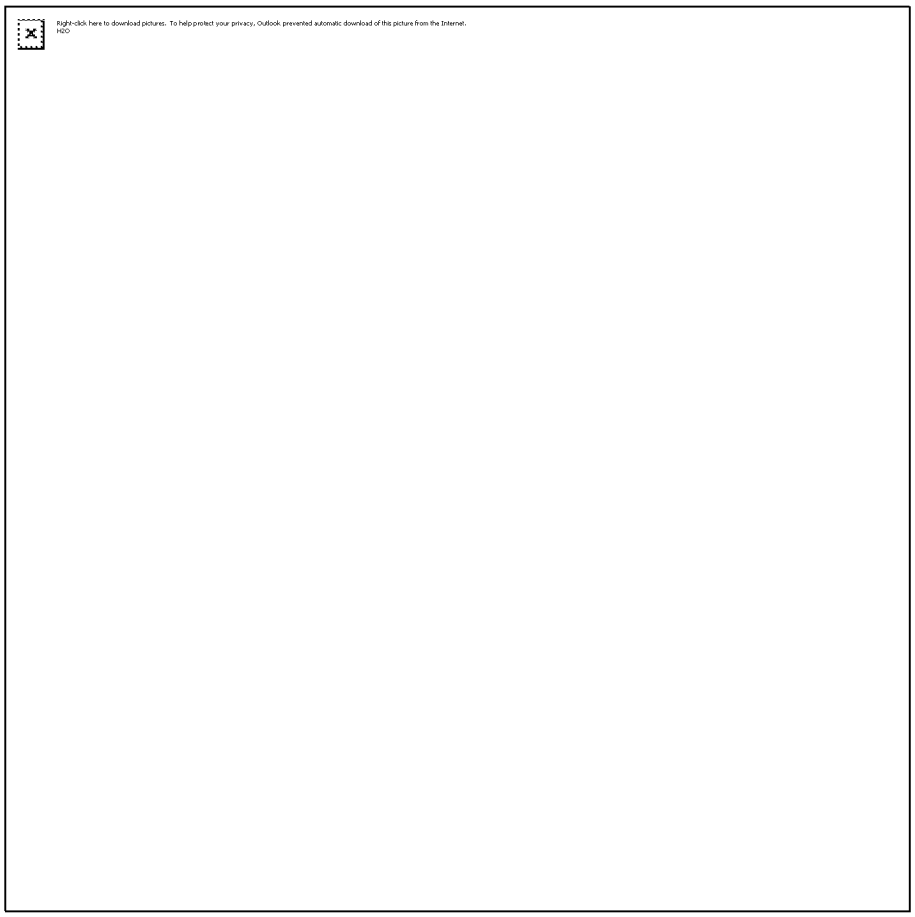
Dear State Employees,

Gov. Rick Snyder and I want to thank everyone who donated their time during the holiday weekend to deliver bottled water, water filters, replacement cartridges and water testing kits to families in the city of Flint. We are working hard to ensure all residents are provided with the safe water resources they need, and each donation and hour of your time volunteered goes a long way.

For employees who would like to help the residents of Flint, there are several opportunities to do so. Please visit www.helpforflint.com to learn how you can help.

For additional information and updates, visit www.michigan.gov/flintwater.

Again, thank you for all your support.



Sincerely, Mike Zimmer
Office of Good Government Director
Dept. of Licensing and Regulatory Affairs Director

Sent: Tuesday, January 26, 2016 8:39 AM
To: Riddering, Eric (DTMB)
Subject: Contributing time, muscle and money

During this month's Martin Luther King Jr. holiday weekend, some state employees turned their "day off" into a "day on" in Flint. There, they delivered bottled water, water filters, replacement cartridges and water testing kits to families. The volunteers joined other Michiganders, turning Dr. King's birthday observance into a day of service.

Mike Zimmer, director of the Office of Good Government and the Department of Licensing and Regulatory Affairs, has shared a link – www.helpforflint.com – that offers other opportunities to contribute time, muscle and money to bring clean drinking water to the community.Here in DTMB, some of our employees didn't wait for an invitation to lend a hand. Office of Retirement Services staff contributed funds that were used to buy 31 cases and 23 gallons of water, which a local organization transported to Flint.

Autumn Hubbard, Ambrea Mack and Sarah Esquivel, who are in the photo at the left, nearly emptied the shelves at their local grocery store. Thanks for your efforts.

everyone.

Now work.

Last week, I signed a new policy that formalizes the annual employee review process and sets expectations for employees and managers. Administrative Policy 200.37 establishes consistent standards for implementing performance plans and reviews. Some of the standards are practices we have followed for years. Others are new. Some of particular note include:

- The mandatory use of HRMN
- A standard Feb. 1-Jan. 31 rating period for all employees
- An Individual Development Plan that specifies training or development programs for each employee
- Competencies and objectives that align to DTMB goals or scorecard metrics
- Consequences for managers and supervisors who do not complete the review process as required

A fundamental role of each DTMB manager or supervisor is to provide employees with direction and feedback on their performance. Employees also are expected to take an active role in pursuing professional development opportunities and achieving their competencies and objectives. I encourage you to review the new policy and talk with your manager or supervisor if you have questions. Of course, I welcome your questions and input as well. Please send your comments and ideas to me at behend@michigan.gov.

I know these have been busy weeks for many of you as you take on additional responsibilities and work hard to provide resources and services for our customers and citizens across the state. Please know that your hard work has not gone unnoticed. Thank you for everything you do, every day.

Have a great week,

David

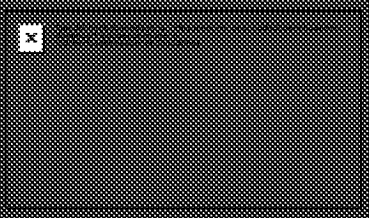
Subject: "Flint residents should not have to pay for water they cannot drink"

Budget recommendation will include $30 million request for Flint water bill repayments

When Governor Rick Snyder presents his budget recommendation next Wednesday, Feb. 10, he will include a $30 million request for the residents of Flint to keep their water service on and eliminate the need to pay for water they cannot completely trust to drink.



Under the governor's ask, the funding would enable the city of Flint to apply credits for customers on future bills. Estimates show water is roughly 47 percent of billing and sewer costs are around 53 percent. The credit would be applied to consumption usage (roughly 65 percent) of a resident's water portion of the bill, such as for bathing, drinking, cooking,

and washing your hands. Residents still would be responsible for paying the sewer portion of their water bills.

Professor Marc Edwards of Virginia Tech said, "This essentially refunds all the money associated with consumption or consumer use. I think it's an amazing gesture of common sense and good will and it corrects an injustice. I don't think there's a precedent for this. I feel so encouraged by the direction this is going."

Click here to learn more about the budget request.

We spoke with Staff Sgt. Thomas Vega about the critical resources they're providing to Flint families every day. He also encouraged residents to pick up and return their water testing kits to Flint fire stations. Test results will be posted online at www.mi.gov/flintwater. **Click here to watch the video.**

VIDEO: What Governor Snyder's FY17 budget means for Michigan

Gov. Rick Snyder's FY 2017 budget calls for critical investments for the Flint water crisis, statewide infrastructure and the Detroit Public Schools. The governor's recommendation also addresses the skyrocketing costs of specialty medications that Michigan residents depend on for better health outcomes.

This budget also stays committed to the Governor's core statewide priorities of education, talent and economic development, health and human services, and public safety.

The proposed FY 2017 budget makes key investments to strengthen the state for all of

Michigan's families. Click here to learn more about the top 6 takeaways from the Governor's FY 2017 state budget.

VIDEO: How volunteers are helping Flint

Volunteers at the Food Bank of Eastern Michigan are working hard to collect donations in order to help the families of Flint. Last Thursday, Governor Snyder visited with the many dedicated volunteers and helped sort cans of food.

Good nutrition is critically important for Flint's children. Foods that are high in calcium, vitamin C, and iron can help limit the effects of lead exposure. To donate or volunteer at the Food Bank of Eastern Michigan, visit www.fbem.org.

Subject: Volunteer Opportunity in Flint

The State Emergency Operations Center (SEOC) is coordinating a response to the ongoing health and safety issues in the city of Flint's drinking water. Teams from the Michigan State Police, Genesee County Sheriff's Department, Michigan Department of Health and Human Services, and volunteer organizations have been delivering bottled water, water filters, replacement cartridges and water testing kits at homes in the city of Flint since Tuesday.

To help with this critical work, the SEOC is looking for volunteers to expand this effort and continue this distribution during the upcoming holiday weekend. Teams are being assembled for shifts on Saturday, January 16; Sunday, January 17; and Monday, January 18, 2016. If you are interested in volunteering your time for this critical work, please complete the information in one of the attached surveys (depending on which day you are volunteering).

To volunteer on Saturday, January 16, https://www.surveymonkey.com/r/28NVJBL

To volunteer on Sunday, January 17, https://www.surveymonkey.com/r/26NMJKK

To volunteer on Monday, January 18, https://www.surveymonkey.com/r/26P7P5G

Volunteers will begin their assignment at the Local Emergency Operations Center located in the Genesee County Administration Building located at 1101 Beach St, Flint at 9 a.m. and end by 4 p.m. Parking is available at the corner of Beach Street and 8th Street. Lunch will be provided. This is strictly a volunteer effort, as all three days will be unpaid. Volunteers are responsible for their own transportation; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

This opportunity is for state employees and their immediate family members 16 years of age or older only, others looking to assist should volunteer through the American Red Cross in Flint. The volunteer coordination center for the Red Cross is located at 1401 S. Grand Traverse, Flint, MI. They are open from 9 a.m. to 7 p.m.

For more information on the state's response efforts, visit www.michigan.gov/flintwater.

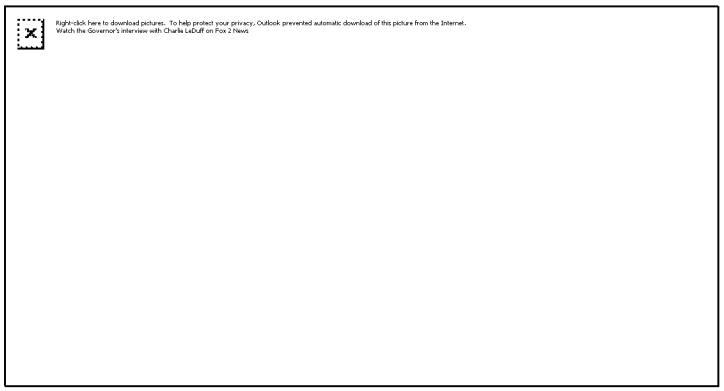
How we are fixing the Flint water crsis

Governor Rick Snyder has committed to spending the rest of his time as Governor to fixing the Flint water crisis. Over the last few days, he has sat down to explain what happened and how we're fixing the Flint water crisis. Watch the interviews below and be sure to read the Governor's Op-Ed in the USA Today.

Governor Snyder on Morning Joe

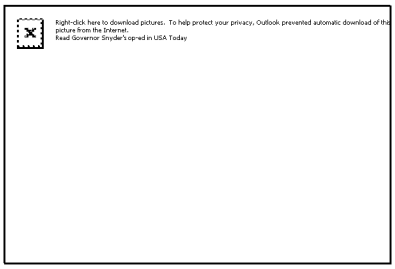


"What is so frustrating and what makes you so angry is you have a handful of experts who were career civil servants that made terrible decisions, in my view. We have to live with the consequences, and they worked for me, so I accept that responsibility. We are going to fix this problem." Watch Governor Snyder address how we are fixing the Flint water crisis on Morning Joe.

Governor Snyder with Charlie LeDuff on Fox 2 Detroit

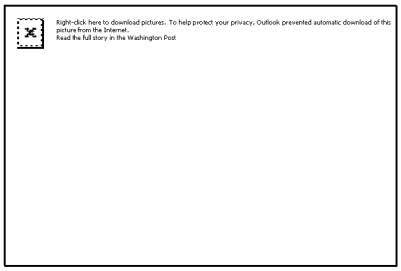
"I feel awful about this. These are people. They've been harmed. You can't feel good about that. The people of Flint have been harmed and a major influence of that harm

came from people who worked for me, and I feel responsible for that. But I am committed to solving the problem and addressing the damage as much as possible for the rest of the time I'm Governor." Watch Governor Snyder address the Flint water crisis with Charlie LeDuff on Fox 2 News.



Governor Snyder's 2016 State of the State

"Michiganders don't quit, we don't give up, instead we will work with even more passion and commitment to truly improve our state. For everyone who's chosen to make Michigan their home, this is more than a promise, this is my commitment." Watch Governor Snyder's full closing statement from his 2016 State of the State address.



Governor in USA Today: "I will fix this, and I mean it."

"Residents in one of Michigan's proud cities cannot drink their water. That's unacceptable. The crisis in Flint arose from missteps at all levels of government — local, state and federal. But as governor, I take responsibility for what these families are going through, and I'm holding people in my administration accountable for their failures." Click here to read the Governor's full op-ed.

Washington Post: "Michigan Gov. Rick Snyder is in a tough spot, but he's his own best spokesman"

Snyder has born the brunt of criticism in the local health crisis that has turned into a national scandal. But unlike many other politicians facing crises of leadership, Snyder may also be his own best counter-programming. Click here to read the full story in the Washington Post.

Subject: Thank you for your service

THANK YOU!

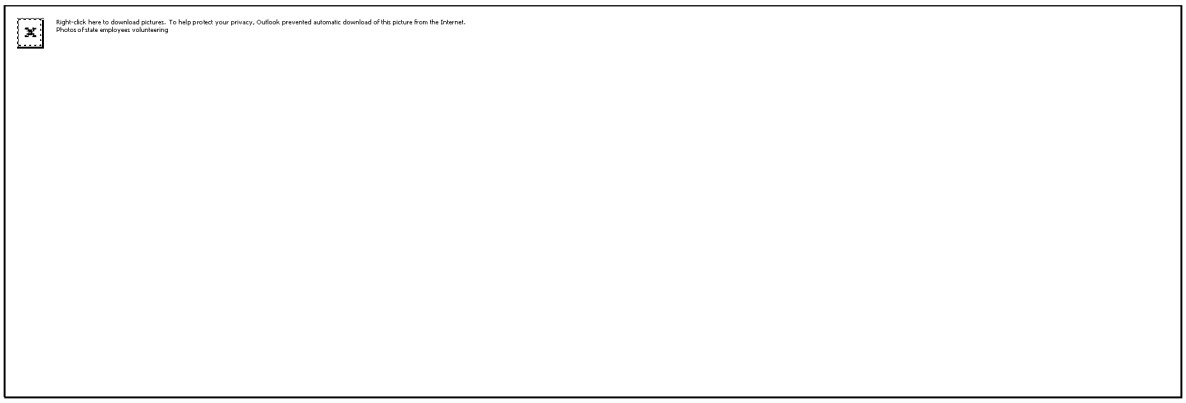
Fellow employees,

Each day, more than 46,000 state of Michigan employees come to work with the confidence and commitment to make Michigan a better place to live, work and play. I appreciate the way you care about the citizens we serve, and how it is reflected in the work that you do.

As you have heard from me and the media, our reputation and trust can be severely impacted when people do not make good decisions, or use good judgment in solving problems. That principle is universal, but never more so than when public health is at stake. What happened in Flint can never be allowed to happen again anywhere in our state.

I know that you want to work in a place where employee input is valued, efforts are recognized, and teams are always striving for continuous improvement. That's why we introduced employee surveys, Bureaucracy Busters and other reinvention initiatives. We want and deserve a culture of innovation, continuous improvement and employee engagement at every level. We can never take for granted how important the people are who depend on us to do our jobs, and I am asking you not to let the situation in Flint negatively impact your motivation to excel every day.

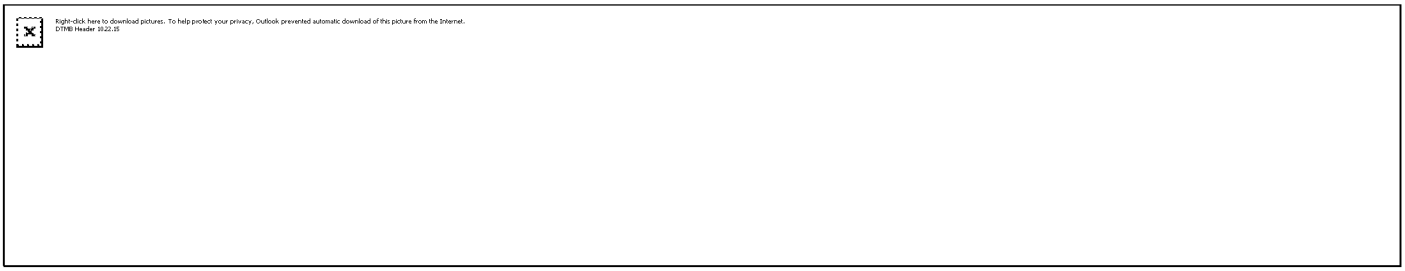
Many of you have taken an interest in helping the citizens of Flint on your own time, and I'd like to take this opportunity to recognize and thank those who have volunteered over the last couple of weekends. You have worked tirelessly to deliver cases of bottled water, water filters, replacement cartridges and water testing kits to the families in need. I appreciate you donating your time to help our fellow Michiganders. To date, more than 37,000 homes have been visited by one of our water resource teams.



For employees who would like to further help the people of Flint, please visit www.HelpForFlint.com to learn how you can do so. For additional information and to sign up for daily updates, please visit www.mi.gov/FlintWater. I am committed to ensuring that all residents have access to safe and clean water.

Again, I'd like to express my gratitude for the work you do every day to continuously improve our state and earn the trust of those you serve. You make a real difference.

Thanks,



Governor Rick Snyder

Sent: Wednesday, February 17, 2016 10:10 AM
To: Riddering, Eric (DTMB)
Subject: The Gov. Snyder's Budget Proposal

Good morning everyone. I hope everyone had a great holiday weekend.

I had the good fortune to travel to Marquette on Monday with Chad Laidlaw, DTMB's policy and planning analyst, to meet with city, business and university leaders and to address the Economic Club of Marquette. I told them about the many things DTMB does, placing special emphasis on our work in mobility and cybersecurity. Marquette is really developing and making its mark as an innovative and entrepreneurial community.

Now work.

The executive budget Gov. Snyder presented last week outlined his investment plan for Michigan. Yes, the proposal for fiscal year 2017-18 outlined a strategy to address the critical challenges of addressing the Flint water crisis and turning around Detroit's Public Schools, but the $54.9 billion plan also includes investment in four key areas:

- **Education.** The budget increases investment to K-12 schools, community colleges and the state's public universities. Additional funds are proposed to expand career, technical, science, technology, engineering and math programs.
- **Protecting the Public.** The governor's plan expands the Secure Cities program, which has reduced violent crime in four major Michigan cities. Funds also would support an additional trooper recruit school and an academy to train corrections officers, among other initiatives.
- **Putting People First.** The governor recommends continued expansion of the Healthy Kids Dental Program and funding efforts to ensure residents have access to affordable health care. His proposal boosts funds to help cover new higher cost specialty medications to treat conditions such as hepatitis C and cystic fibrosis, among others.
- **Investing in Infrastructure.** The proposal allocates $1.2 billion to maintain and repair Michigan roads, bridges and other critical infrastructure.

The budget proposal also includes FY 2017-18 funding recommendations for DTMB. Gov. Snyder recommends ongoing funding of $1.3 billion for department operations and a one-time allocation of $32.4 million.

A few highlights include:

- $502 million for information technology support for all state agencies and $132.8 million for 14 high-priority IT projects in seven agencies. He recommends increasing the Information Technology Investment Fund by $7 million, from $65 million to $72 million. This fund supports several major multiyear IT projects and upgrades, including the replacement of outdated legacy systems.
- An additional $5 million to support cybersecurity improvements to safeguard citizens' personal information and protect critical infrastructure and government services.
- IT support of $6.5 million to modernize the Office of Retirement Services' systems and enhance customer service for more than 530,000 current and future retirees.

You can see the full executive budget recommendations, which are posted on the Budget Office website. Details of DTMB's proposed budget begin on page B-75.

We can expect to see many changes before the budgets are signed and become effective Oct. 1. The executive budget will be used by the House and Senate Appropriations Committees as they work on their own budgets and hold committee hearings on the proposals. I'll keep you posted as the process moves ahead.

As always, I welcome your notes, whether about the budget process or any other topic. Please send them to me at behend@michigan.gov.

Thank you again for all the good work you do. I hope you have a great week ahead.

David

Cher, Moore Call For Criminal Sanctions On Snyder For Flint Water Crisis

Activist and film maker Michael Moore posted a petition seeking federal prosecution for Governor Rick Snyder in response to his handling of the Flint water crisis a day after singer Cher called for him to be jailed and executed for his performance in the crisis.

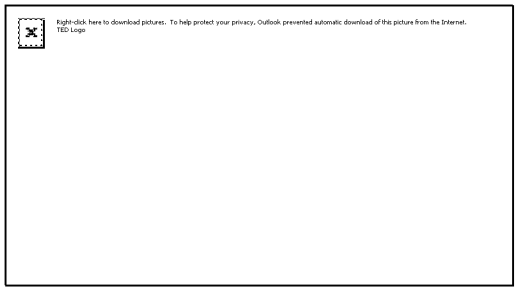
Mr. Moore wrote an open letter to Mr. Snyder calling his and his administration's actions criminal and urging readers to sign the attached petition seeking his resignation and arrest by federal authorities.

"Thanks to you, sir, and the premeditated actions of your administrators, you have effectively poisoned, not just some, but apparently ALL of the children in my hometown of Flint, Michigan," Mr. Moore said. "And for that, you have to go to jail."

Cher, in Twitter posts on Tuesday night, called for Mr. Snyder to be punished for the crisis as well.

In a first post, she called for "#JAILFORRICK".But in a later post, she included the hashtag, "#FIRINGSQUADWORKSFORME".

Cher chastised Mr. Snyder, and others, for acting in their own self-interest. "WTF IS GOING ON W/POWER MAD,GREED DRIVEN,KILLER, INCOMPETENT,POLITICIANS?THEY R CRIMNALS!!" she said in one post.



Wednesday, when some criticized her tweets, Cher indignantly questioned whether they understood satire.

Dave Murray, spokesperson for Mr. Snyder, said the comments by both celebrities ignore the efforts under way to correct the problem.

"It's unfortunate that someone would use such rhetoric at a time when Governor Snyder is working so closely with Flint's leaders on coordinated efforts to protect the health and welfare of people in the city and across our state," he said.

Colleagues,

Yesterday you all received a request to volunteer in Flint over the long weekend. It's seldom we are asked to help a city and its residents facing such a situation. I hope you will consider joining me in giving a day of your time. Below is the request and the information on how and where to sign up.

Thank you,

Steve Arwood

To volunteer on Saturday, January 16, https://www.surveymonkey.com/r/28NVJBL

To volunteer on Sunday, January 17, https://www.surveymonkey.com/r/26NMJKK

To volunteer on Monday, January 18, https://www.surveymonkey.com/r/26P7P5G

Volunteers will begin their assignment at the Local Emergency Operations Center located in the Genesee County Administration Building located at 1101 Beach St, Flint at 9 a.m. and end by 4 p.m. Parking is available at the corner of Beach Street and 8th Street. Lunch will be provided. This is strictly a volunteer effort, as all three days will be unpaid. Volunteers are responsible for their own transportation; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

This opportunity is for state employees and their immediate family members 16 years of age or older only, others looking to assist should volunteer through the American Red Cross in Flint. The volunteer coordination center for the Red Cross is located at 1401 S. Grand Traverse, Flint, MI. They are open from 9 a.m. to 7 p.m.

For more information on the state's response efforts, visit www.michigan.gov/flintwater.

Subject: State of the State Address

Dear Colleague:

Gov. Rick Snyder delivered the annual State of the State address last night and his remarks underscore the critical work of our Talent Investment Agency.

The governor laid out an action plan to help the city of Flint rebound from its drinking water contamination crisis. I'm proud to say that our agency will be an active and enthusiastic partner in these ongoing efforts. Our specific involvement will be more clearly defined in the coming weeks as we determine which of our existing programs are best suited to address the economic, talent development, educational and self-sufficiency needs of the community and its families. One great example, which was cited in the governor's remarks, is our Community Ventures program. The program has been working with Flint and other economically distressed cities since 2013, and the results are impressive.

The governor also called for:

- An immediate financial fix for Detroit Public Schools
- The creation of three commissions: one on 21st century education, which will issue a report by year's end on how to improve the performance of the state's educational system; a second one to focus on Michigan's long-term infrastructure needs; and a third to concentrate on building the state's 21st century economy
- Creating an American Center for Mobility at Willow Run Airport. This will be a 300-acre campus focused on "intelligent" vehicles, such as self-driving cars

We can all take great pride in knowing that our daily work is integral to Michigan's future, and that our mission remains one of the governor's highest priorities.

I look forward to working with you in the months ahead as we implement the governor's vision for the benefit of families across our state.

Sincerely,
Stephanie C.

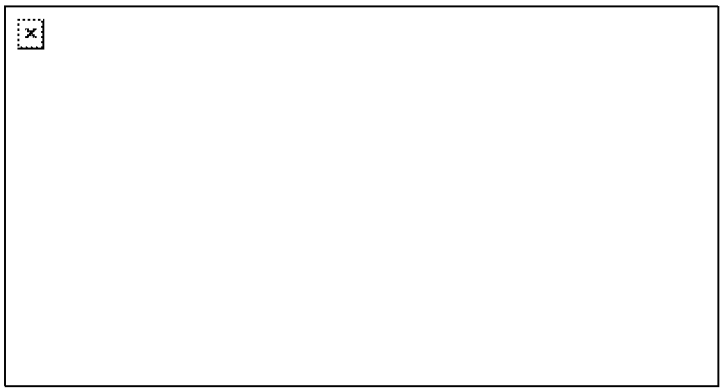
How we are fixing the Flint water crsis

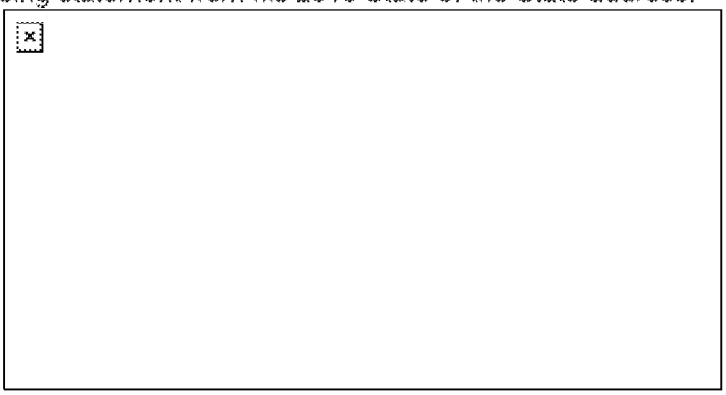
Governor Rick Snyder has committed to spending the rest of his time as Governor to fixing the Flint water crisis. Over the last few days, he has sat down to explain what happened and how we're fixing the Flint water crisis. Watch the interviews below and be sure to read the Governor's Op-Ed in the USA Today.



Governor Snyder on Morning Joe

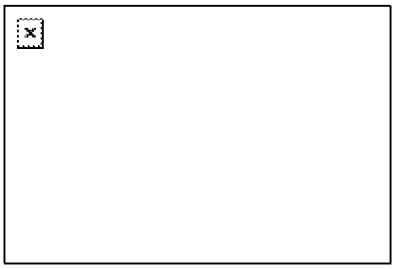
"What is so frustrating and what makes you so angry is you have a handful of experts who were career civil servants that made terrible decisions, in my view. We have to live with the consequences, and they worked for me, so I accept that responsibility. We are going to fix this problem." Watch Governor Snyder address how we are fixing the Flint water crisis on Morning Joe.

Governor Snyder with Charlie LeDuff on Fox 2 Detroit



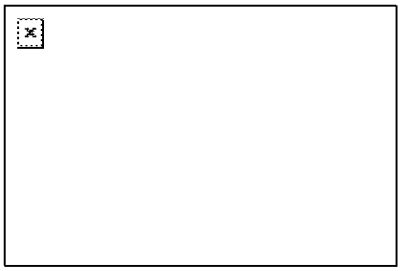
"I feel awful about this. These are people. They've been harmed. You can't feel good about that. The people of Flint have been harmed and a major influence of that harm

came from people who worked for me, and I feel responsible for that. But I am committed to solving the problem and addressing the damage as much as possible for the rest of the time I'm Governor." Watch Governor Snyder address the Flint water crisis with Charlie LeDuff on Fox 2 News.



Governor Snyder's 2016 State of the State

"Michiganders don't quit, we don't give up, instead we will work with even more passion and commitment to truly improve our state. For everyone who's chosen to make Michigan their home, this is more than a promise, this is my commitment." Watch Governor Snyder's full closing statement from his 2016 State of the State address.



Governor in USA Today: "I will fix this, and I mean it."

"Residents in one of Michigan's proud cities cannot drink their water. That's unacceptable. The crisis in Flint arose from missteps at all levels of government — local, state and federal. But as governor, I take responsibility for what these families are going through, and I'm holding people in my administration accountable for their failures." Click here to read the Governor's full op-ed.

Washington Post: "Michigan Gov. Rick Snyder is in a tough spot, but he's his own best spokesman"

Snyder has born the brunt of criticism in the local health crisis that has turned into a national scandal. But unlike many other politicians facing crises of leadership, Snyder may also be his own best counter-programming. Click here to read the full story in the Washington Post.

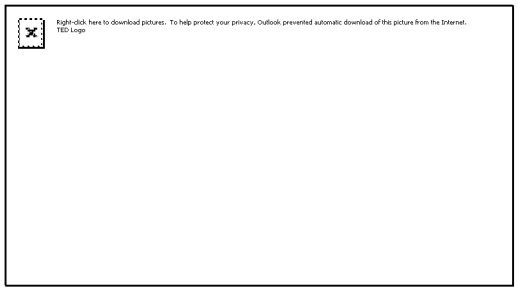
Subject: Flint Volunteer Efforts

Dear State Employees,

Gov. Rick Snyder and I want to thank everyone who donated their time during the holiday weekend to deliver bottled water, water filters, replacement cartridges and water testing kits to families in the city of Flint. We are working hard to ensure all residents are provided with the safe water resources they need, and each donation and hour of your time volunteered goes a long way.

For employees who would like to help the residents of Flint, there are several opportunities to do so. Please visit www.helpforflint.com to learn how you can help.



For additional information and updates, visit www.michigan.gov/flintwater.

Again, thank you for all your support.

Sincerely, Mike Zimmer

Subject: Update on Flint

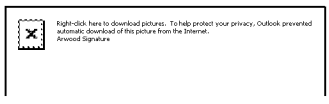
Colleagues,

Regarding the Flint water crisis, the Department of Talent & Economic Development is engaged with the Governor's continuing efforts to address this situation.

Directors Arwood, Comai, Elsenheimer and staff have been on the ground in Flint assisting with water distribution efforts and talking with Flint officials on our ability to assist with the needs in the community to provide safe, clean drinking water.

The MSHDA team has been working to ensure that all MSHDA housing have appropriate filters and water resources.

The MEDC is currently focused on discussions with local officials on how we can assist in the immediate infrastructure needs of the City of Flint.



The TIA team has been helping in Flint already and is eager to enter into an even closer partnership with enhancing the economy of the community and the self-sufficiency of its families through numerous programs and initiatives, including the Community Ventures program that assists Flint residents to find good paying jobs.

Through Travel Michigan, TED continues to promote the cultural, historical and natural assets of the area, and is working collaboratively with the community to showcase the positive stories coming out of Flint.

In addition to these efforts, the TED team is exploring any and all other options for TED to assist the residents of Flint both on addressing their immediate water issues, and long term economic and community development needs.

I am thankful for those that have taken time to volunteer to assist the residents of Flint. If you are interested in helping with these efforts, you can find more information at www.helpforflint.com. Additional information on the Flint water crisis is available at www.mi.gov/flintwater.

Thank you,

Steve Arwood

Subject: Thank you for your service

THANK YOU!

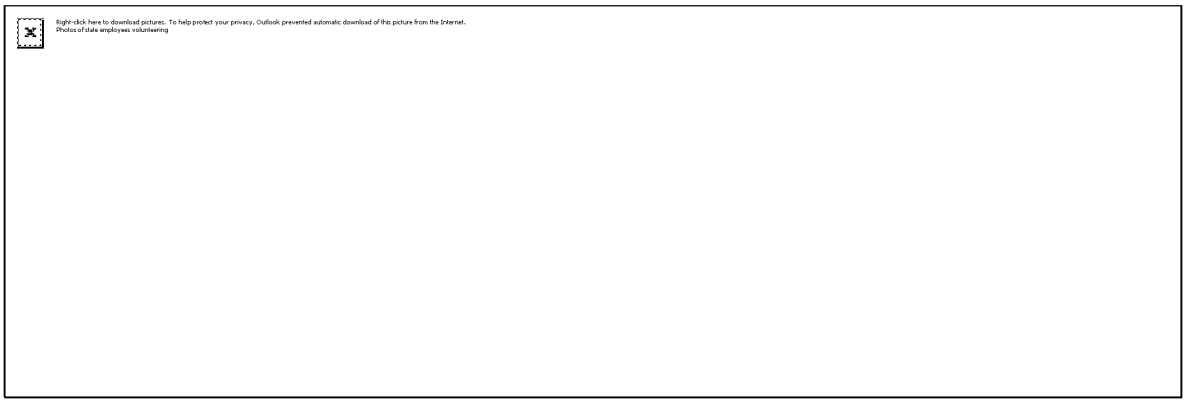
Fellow employees,

Each day, more than 46,000 state of Michigan employees come to work with the confidence and commitment to make Michigan a better place to live, work and play. I appreciate the way you care about the citizens we serve, and how it is reflected in the work that you do.

As you have heard from me and the media, our reputation and trust can be severely impacted when people do not make good decisions, or use good judgment in solving problems. That principle is universal, but never more so than when public health is at stake. What happened in Flint can never be allowed to happen again anywhere in our state.

I know that you want to work in a place where employee input is valued, efforts are recognized, and teams are always striving for continuous improvement. That's why we introduced employee surveys, Bureaucracy Busters and other reinvention initiatives. We want and deserve a culture of innovation, continuous improvement and employee engagement at every level. We can never take for granted how important the people are who depend on us to do our jobs, and I am asking you not to let the situation in Flint negatively impact your motivation to excel every day.

Many of you have taken an interest in helping the citizens of Flint on your own time, and I'd like to take this opportunity to recognize and thank those who have volunteered over the last couple of weekends. You have worked tirelessly to deliver cases of bottled water, water filters, replacement cartridges and water testing kits to the families in need. I appreciate you donating your time to help our fellow Michiganders. To date, more than 37,000 homes have been visited by one of our water resource teams.



For employees who would like to further help the people of Flint, please visit www.HelpForFlint.com to learn how you can do so. For additional information and to sign up for daily updates, please visit www.mi.gov/FlintWater. I am committed to ensuring that all residents have access to safe and clean water.

Again, I'd like to express my gratitude for the work you do every day to continuously improve our state and earn the trust of those you serve. You make a real difference.

Thanks,

Governor Rick Snyder

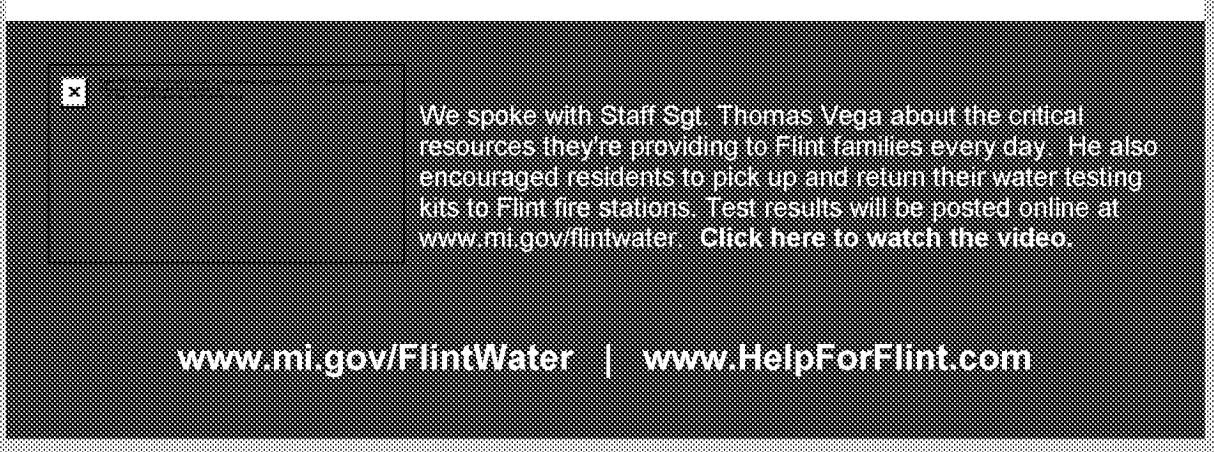
Subject: "Flint residents should not have to pay for water they cannot drink"

Budget recommendation will include $30 million request for Flint water bill repayments

When Governor Rick Snyder presents his budget recommendation next Wednesday, Feb. 10, he will include a $30 million request for the residents of Flint to keep their water service on and eliminate the need to pay for water they cannot completely trust to drink.



Under the governor's ask, the funding would enable the city of Flint to apply credits for customers on future bills. Estimates show water is roughly 47 percent of billing and sewer costs are around 53 percent. The credit would be applied to consumption usage (roughly

65 percent) of a resident's water portion of the bill, such as for bathing, drinking, cooking, and washing your hands. Residents still would be responsible for paying the sewer portion of their water bills.

Professor Marc Edwards of Virginia Tech said, "This essentially refunds all the money associated with consumption or consumer use. I think it's an amazing gesture of common sense and good will and it corrects an injustice. I don't think there's a precedent for this. I feel so encouraged by the direction this is going."

Click here to learn more about the budget request.

Good afternoon,

Attached is the Flint Emergency Purchasing Procedures Jeff spoke about this afternoon.

Heather

STATE OF MICHIGAN

RICK SNYDER
GOVERNOR

DEPARTMENT OF TECHNOLOGY, MANAGEMENT & BUDGET
LANSING

DAVID B. BEHEN
DIRECTOR

February 2, 2016

TO: State of Michigan Procurement Leadership

FROM: DTMB Procurement

SUBJECT: Genesee County Water Emergency Response - Purchasing Guidance

Thank you to all who are working to support the State of Michigan's Genesee County, City of Flint water emergency response.

Given the complexity and variety of the needs of this emergency effort, the purchasing support required is complex as well. Purchasing protocols have some differences under this declared state of emergency, and meticulous tracking of expenditures is imperative.

The Michigan State Police (MSP) is the lead agency overseeing the situation and managing the State Emergency Operations Center (SEOC). Flint related purchases must first be routed through the appropriate SEOC contact (see attached for an agency roster) to include the SEOC State Director. This is required for all Flint- related purchases without exception. The SEOC financial team is responsible for tracking all expenditures in connection with the emergency efforts.

Each agency is responsible for its own purchasing transactions. This includes p-card transactions and purchase orders, the tracking of all such transactions, and reporting of those transactions to the appropriate SEOC representative. Failure to properly inform the SEOC financial team of any transaction may result in a forfeiture of any potential reimbursement anticipated by the agency.

Agency purchasing managers are responsible to supply their agency's SEOC representative with a 24/7 phone number for agency purchasing staff support and request that the SEOC representative involves them in every purchase. (Note: SEOC hours are 8 am to 8 pm, seven days a week at this time.)

Emergency Purchasing Procedure:
Public Act 431 of 1984 provides an exception to competitive bidding during a state of emergency. However, responsible purchasing procedures are still the expectation for all procurement professionals (agency purchasing staff).

In addition to the notification and reporting expectations set forth above, transactions should be conducted and/or overseen by procurement professionals, with rare exception, in accordance with the following:

- Each agency makes their own determination when an emergency purchase order is required, and is then responsible for the supporting documentation
- Utilize existing State contracts where possible. Contact DTMB Procurement for help negotiating bulk rates or expedited shipments if needed, and for any concerns related to availability of funds on a contract

- Obtain three quotes whenever reasonably practicable
- Post bids online to the extent practicable
- Please escalate any questions to DTMB Procurement before executing a buy
- DTMB Procurement will assist any agency upon request to address supply chain issues (e.g. working with a national supplier to ensure a high volume supply of water filters are available)
- DTMB-Financial Services is not responsible for issuing emergency purchase orders on behalf of agencies with the exception of information technology related goods and services
- Maintain documentation supporting all transactions. Establish internal protocols to support this such as a single spreadsheet to track agency-wide transactions. Report your agency's expenses to the SEOC Finance team via your SEOC representative.

Questions, concerns, or comments should be directed to:

Subject: What this year's budget means for Michigan...

VIDEO: What Governor Snyder's FY17 budget means for Michigan

Gov. Rick Snyder's FY 2017 budget calls for critical investments for the Flint water crisis, statewide infrastructure and the Detroit Public Schools. The governor's recommendation also addresses the skyrocketing costs of specialty medications that Michigan residents depend on for better health outcomes.

This budget also stays committed to the Governor's core statewide priorities of education, talent and economic development, health and human services, and public safety.

The proposed FY 2017 budget makes key investments to strengthen the state for all of

Michigan's families. Click here to learn more about the top 6 takeaways from the Governor's FY 2017 state budget.

Click a tweet to tweet it out:

The #MIBudget @OneToughNerd proposed yesterday makes key investments to strengthen Michigan for all families --> www.mi.gov/MIBudget

--> @OneToughNerd's #MIBudget includes $72 million a year for Detroit Public Schools. It is time to act now.-- > www.mi.gov/MIBudget

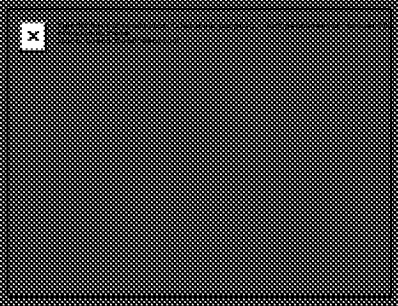
VIDEO: How volunteers are helping Flint



Volunteers at the Food Bank of Eastern Michigan are working hard to collect donations in order to help the families of Flint. Last Thursday, Governor Snyder visited with the many dedicated volunteers and helped sort cans of food.

Good nutrition is critically important for Flint's children. Foods that are high in calcium, vitamin C, and iron can help limit the effects of lead exposure. To donate or volunteer at the Food Bank of Eastern Michigan, visit www.fbem.org.

GRACE PROJECT

GIS/T Resources & Applications for Career Education

(The GRACE video, http://resourcecenters2015.videohall.com/posters/555)

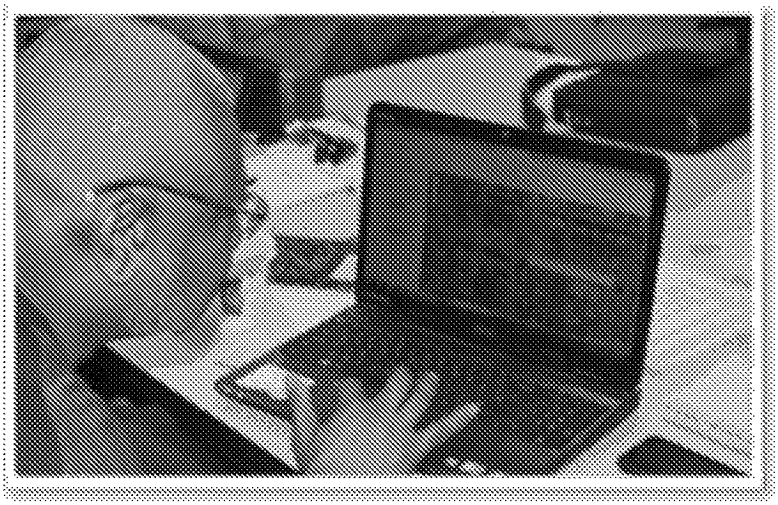
Teacher Benefits

Attend a two-day intensive institute to begin your GIS/T education experience ($250 stipend)

- **Flint, MI**
  September 25 – 26

Attend 18 hours of PD - blended (face-to-face and online) ($250 stipend)

Attend 30 hours of PD during a 5-day workshop ($300 stipend)



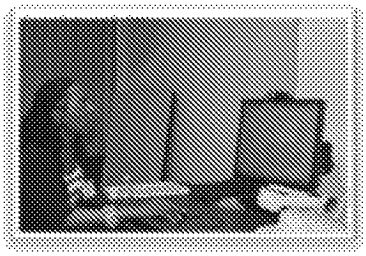
Receive 30 insertable GIS-enabled adaptable lessons (40-50 minutes each) that are easily integrated into STEM classes. Implement 10 of these lessons in classrooms ($300 stipend)

Receive 60 Professional Development Credits

Option to enroll for 4 graduate credits from Eastern Michigan University

Tech support from GIS/T professional mentors and pedagogy support from GIS Ed-community

Sponsor High School Interns as needed!



Opportunities for All Students

The GRACE project brings geospatial tools to classroom teachers and students. Geospatial technologies (GIS, GPS - global positioning system, and RS - remote sensing), and the analytical tools for using these systems wisely, now play a fundamental role in the provision of emergency services, transportation and urban planning, environmental hazard management, resource exploitation, military operations, and the conduct of relief operations. In the future, geographical tools and techniques will be of vital importance to the effort to monitor, analyze, and confront the unprecedented changes that are unfolding on Earth's surface. Because the uses for GIS/T are so widespread, the market is growing almost 35 percent annually, with the commercial subsection expanding at the rate of 100 percent each year.

Who to contact:
MMSCN Co-PI: Mary Starr: mary@starrscience.com
EMU Co-PI: Yichun Xie: yxie@emich.edu

Teacher Responsibility

Integrate 10 GIS-enabled lessons in classrooms in two years!

Why integrate GIS?

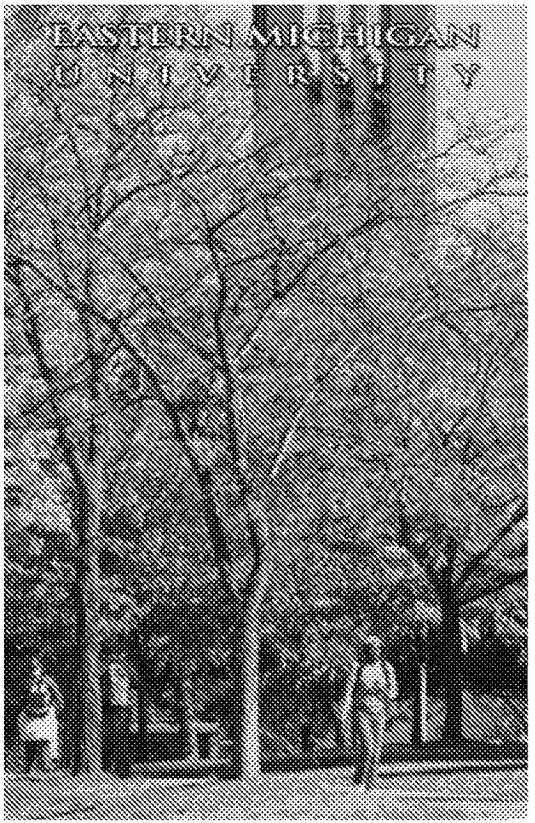
SCIENCE: The Next Generation Science Standards (NGSS) advocate that science education integrates the science and engineering practices, disciplinary core ideas (DCIs), and crosscutting concepts of science and engineering in a three-dimensional fashion across the K-12 years. **The integration of GIS/T tools in STEM education provides a perfect environment for creating the three-dimensional learning opportunities.**

INTEGRATION ACROSS CONTENT AREAS: Instructionally, GIS/T has been recognized as an interdisciplinary educational technology, supporting high-level thinking and spatial reasoning. Additionally, spatial reasoning and visualization have been demonstrated to be foundational to science, engineering and mathematics.

What is GRACE?

GIS/T Resources and Applications for **C**areer **E**ducation! GRACE is a "SPrEaD" **S**uccessful **P**roject **E**xpansion and **D**issemination project building upon an earlier successful ITEST project: Mayor's Youth Technology Corps "MYTC&NSF DRL 0737589. MYTC developed a model of purposeful applications of technology based educations using **G**eographic **I**nformation **S**ystem and related geospatial technologies" working on Community Based Problem Solving activities in their communities. GRACE will take the MYTC model to a large number of students and teachers in grades 8-12 across the State of Michigan by following a three stage learning process from Explorers to Investigators to Interns. Interns will work in collaboration with GIS professionals in their communities.

Three Levels of GIS Experience



The Explorer level introduces students to GIS/T through the ArcGIS Online Portal and through demonstrations developed with online GIS/T tools to build students' basic understanding of GIS/T as well as pique student curiosity.

The Investigator level leverages students' curiosity and interest and prepares them to work with GIS/T lesson modules that are designed to enhance science and engineering practices and align with the Next Generation Science Standards.

The Intern level provides students with professional GIS/T training and opportunities to gain work experiences in local organizations as Interns. Students apply the skills they've acquired through the first two phases, working within their communities to gain job skills and solve authentic problems. The professional development activities for teachers are tightly integrated with this progressive learning process so that adequate instructional and technical mentoring and support will be provided to support students at each level.

Participating Organizations

GIS/T Resources & Applications for Career Education (GRACE)

Presentation (Draft) for

Michigan Department of Technology, Management and Budget - DTMB

At Eastern Michigan University

August 10, 2015

Presentation Topics

1. What is GRACE – A short video?
2. Who is GRACE – the Partnership?
3. How does GRACE train students for INTERNSHIP – STEM Careers?
4. What are the successful experiences of supporting INTERNS?
5. What incentives will GRACE provide to INTERNS?
6. What ADDITIONAL incentives does GRACE need in order to have a successful INTERNSHIP program?

1. Introduction: WHAT IS The GRACE Project

GRACE 3-minute Video: http://resourcecenters2015.videohall.com/posters/555

Collaborative Project: GIS/T Resources and Applications for Career Education (GRACE) is a NSF SPrEaD (Successful Project Expansion and Dissemination) project building upon **an earlier successful ITEST project: Mayor's Youth Technology Corps (MYTC–NSF DRL-0737589).** MYTC developed a model of *purposeful applications of technology (geographic information system and technology (GIS/T) -based education for STEM careers in the workplace* that enabled youth in economically disadvantaged communities to have opportunities for determining their own futures. GRACE will take the MYTC model to a large number of students and teachers in grades 8-12 across the State of Michigan by following a three-stage learning process from ***Explorers*** to ***Investigators*** and to ***Interns***.

*The **ITEST (Innovative Technology Experiences for Students and Teachers)** program was established by the National Science Foundation in direct response to the concern about shortages of information technology workers in the United States. The funding came from H-1B visa application fees.*

GRACE Implementation Goal

The goal is to recruit a minimum of 40 schools, 120 teachers, and 5000 students in grades 8-12 to start a three-tiered learning process.

The *Explorer* level introduces 5000 students to GIS/T through the ArcGIS Online Portal and through demonstrations developed with online GIS/T tools to build the students basic understanding of GIS/T as well as pique student curiosity.

The *Investigator* level leverages 2500 students curiosity and interest and prepares them to work with GIS/T lesson modules that are designed to enhance science and engineering practices and align with the Next Generation Science Standards.

The *Intern* level provides 500 students with professional and intensive GIS/T training (Virtual Campus Courses) – *internship candidates* and *300 students* with opportunities to gain work experiences in local organizations as *Interns*.

What Has been Accomplished by GRACE

- From the launch of the NSF GRACE Program in September of 2014, GRACE has recruited 30 teachers in Cohort 1 and 40 teachers in Cohort 2.
- For Cohort 1, GRACE successfully completed 30 hours Phase 1 Professional Development – PD (Explorer Training) and Phase 2 Summer Institute (Investigator Training) in the last week of July 2015.
- Cohort 1 GRACE teachers will start recruiting students through the courses they are teaching in September 2015. GRACE expects to have the 1st group students ready for Internship in Summer 2016.
- For Cohort 2, GRACE finished 2-day intensive PD in Iron Mountain July 13-14 and in Allendale July 16-17. GRACE will conduct another PD in Flint September 25-26 and then combine three groups to finish Phase 1 PD in Winter 2016.
- We will complete Cohort 2 Summer Institute and recruit 50 – 60 teachers for Cohort 3 in Summer 2016.

Michigan Communities Association of Mapping Professionals

Michigan Earth Science Teachers Association (MESTA)

EMU Institute for Geospatial Research and Education (*IGRE*) has a long history as an EMU research center (previously CEITA – the Center for Environmental Information Technology and Application) for developing innovative research methods, technologies and applications in GIS and remote sensing to address emerging challenges.

IGRE has **three unique strengths** that no other university GIS/RS centers or institutes in Michigan can match:

(1) GIS software development and application customization, **for example,**

a) ***Development of 3d Modeling Tools and the FIELDS System - Fully Integrated Environmental Location Decision Support***, $300,000, USEPA-Region 5.

b) ***WebPolis Consortium,*** $250,000, funded by United States Department of Commerce Technology Opportunity Program.

c) ***Regional Urban Tree Canopy Assessment and Implementation***, $163,381, funded by USDA Forest Service.

d) ***RAPIDS (Regional Air Pollutants Inventory & Database System)* 3.0 *Coding, Testing and Implementation***, $197,680, funded by Great Lakes Commission.

e) ***Design and Development of the CAROL Web Portal***, $117,680, funded by Great Lakes Commission.

f) *GPS/GIS SMART Vehicle Management Integration Development*, $150,000, funded by Detroit Public Schools.

g) *iTRACK* (Automatic Vehicle Locating and Tracking System), $50,000, funded by Eletro-Comm Michigan.

h) ***Detroit's Integrated Sidewalk Management System (ISMS),*** $ 110,000, funded by City of Detroit Engineering Department.

i) *Dynamic Telecommunications Infrastructure Planning System (DTIPS)*, $110,000, funded by MERIT Network, Inc. and Heart of Michigan Planning Group.

j) *GIS Mapping System for Activity One B: Statewide Education Network for the 22i Technology Readiness Infrastructure*, $48,000, funded by Michigan Department of Education.

k) ***ENvironmental Disaster Urban REcovery (ENDURE) Model*,** $50,000, funded by US Department of Defense - Pacific Disaster Center.

(2) GIS & remote sensing in Science, Technology, Engineering & Mathematics education, **for example,**

a) *The Collaborative Project: GIS/T Resources and Applications for Career Education – GRACE* (DRL-1433712, 2014 – 2018, $1,560,000), funded by NSF Innovative Technology Experience for Students and Teachers Program.

b) *Investigating Climate Change and Remote Sensing (ICCARS*), 2010-2013, $773,624.80, funded by NASA Office of Education (NASA Cooperative Agreement Notice 0102).

c) *Mayor's Youth Technology Corps - Creating Safe Communities through Information Technology Training in Homeland Security Applications* (DRL-0737589, 2008-2011, $889,753), funded by NSF Innovative Technology Experience for Students and Teachers Program.

d) *VISIT: Virtual Immersion in Science Inquiry for Teachers,* 2001-2005, $1,240,000, funded by NSF Teacher Enhancement Program.

e) *Digital Community and Collections for Science and Mathematics,* 2000-2002, $800,000, funded by NSF Digital Library Program.

f) *Work/Site Alliance: Community-Based GIS Education*, 1997-2000, $1,200,000, funded by NSF ATE (Advanced Technology Education) Program.

(3) Technology components of the STEM education projects have reinforced IGRE's capacity of software development

School Administration GIS Applications

- School Redistricting & School Planning
- Feeder Spatial Pattern Analysis
- School Attendance Boundary
- Student Enrollment Eligibility Query
- Enrolled Student Spatial Pattern Analysis
- Create School Bus Transportation Eligible Area/Streets
- Determine School Bus Stops with GIS
- Find Closest Bus Stop for Student with Address
- School Bus Routing and Scheduling

Comprehensive School Bus Routing and Scheduling Software

Notebook

No bus, no fuss

EMU's Institute for Geospatial Research and Education links satellites and software to solve problems for area governments

By John A. Rhodes

Each morning, thousands of parents in Detroit place their children on a bus with the reasonable expectation that their child will arrive safe, sound and on time at one of the district's 260 schools. Yet traffic, weather, human error or other variables can conspire to keep that from happening.

The Detroit Public Schools' Office of Student Transportation is in the process of installing a $1.5 million Global Positioning System (GPS) and Geographic Information System (GIS) to track the whereabouts of its 500-bus fleet. Eastern Michigan University's Institute for Geospatial Research and Education (IGRE) is designing the cutting-edge software applications to run the systems, analyze the data and ensure that students are where they need to be when they need to be there.

"Having a computer program that analyzes GPS data is unique," said Dale Goby, executive director of the DPS Office of Transportation. "We are now on the cutting edge and EMU is helping us do that."

"They can tell us what they want to do with the data, and we tailor it to the needs of DPS," Yichun Xie said.

IGRE director, Yichun Xie (pronounced She), is the co-coordinator of the project and is writing software specifically to support the district's threefold mission of on-time arrival, safety and efficiency.

"If a parent calls and says, 'I've been waiting here a half an hour, where's the bus?', we can check with the scheduling software and know that bus 110 is supposed to be there at 9:10 and it's 9:30," Xie said. At that point, as part of Xie's innovative design, a GPS base station at one of the district's bus terminals will launch a wireless signal to a modem on the bus for sending back its locational data, which shows up on a map. "So, we can determine whether it's traffic or if the driver is driving too slowly," Xie said.

Although the district has two-way communication with bus drivers, this new system goes beyond simple locational tracking and does everything from analyzing routes to determining driver and traffic patterns.

IGRE has designed GIS systems and provided training in its use for a number of municipalities around the state. For example, in Van Buren Township just east of Ypsilanti, the institute designed an application to inventory the geographic location of open spaces.

Global positioning satellite dishes make it possible to track vehicles as well as perform land planning and analysis for local and state governmental customers.

Goby, who has been involved in pupil transportation for more than 30 years, said IGRE's reputation in the field of geographic information systems technology is well known and well regarded. "EMU has been heavily involved in GPS and we were well aware of them." In fact, EMU has a variety of partnerships with Detroit Public Schools.

The short-term goal of this current project is to put tracking and locator devices on all DPS buses, allowing the district to monitor and examine on-time rates as well as determine the best routes. The next

Slides from MVU, MMSCN and MiCAMP about the organizational introduction and roles in the GRACE project will be inserted here.

Michigan Virtual University

- *MVU®*, a non-profit 501c3 organization, working in partnership with Michigan schools, is committed to providing cost-effective, technology-based solutions that strengthen teaching and learning.
- The Michigan Virtual School, Michigan LearnPort®, and Michigan Virtual Learning Research InstituteTM are the core divisions of MVU
- MVS Accredited through AdvancED.

Vision

Michigan's digital learning leader advancing personalized education for all learners.

Mission

Advancing K-12 education through digital learning, research, innovation, policy and partnerships

MVU Roles & Responsibilities in the GRACE Project

- ✓ Lesson module development
- ✓ Teacher Professional Development
- ✓ Online Facilitation
- ✓ Social Networking
- ✓ Project Dissemination and Sustainability

Michigan Communities Association of Mapping Professionals

- Grassroots, non-profit organization founded in 1995
- Headed by a volunteer board of professionals for 20 years
- Serving as a platform for local governments, regional agencies, State agencies, Federal agencies, and private companies to share and disseminate GIS techniques and technologies.

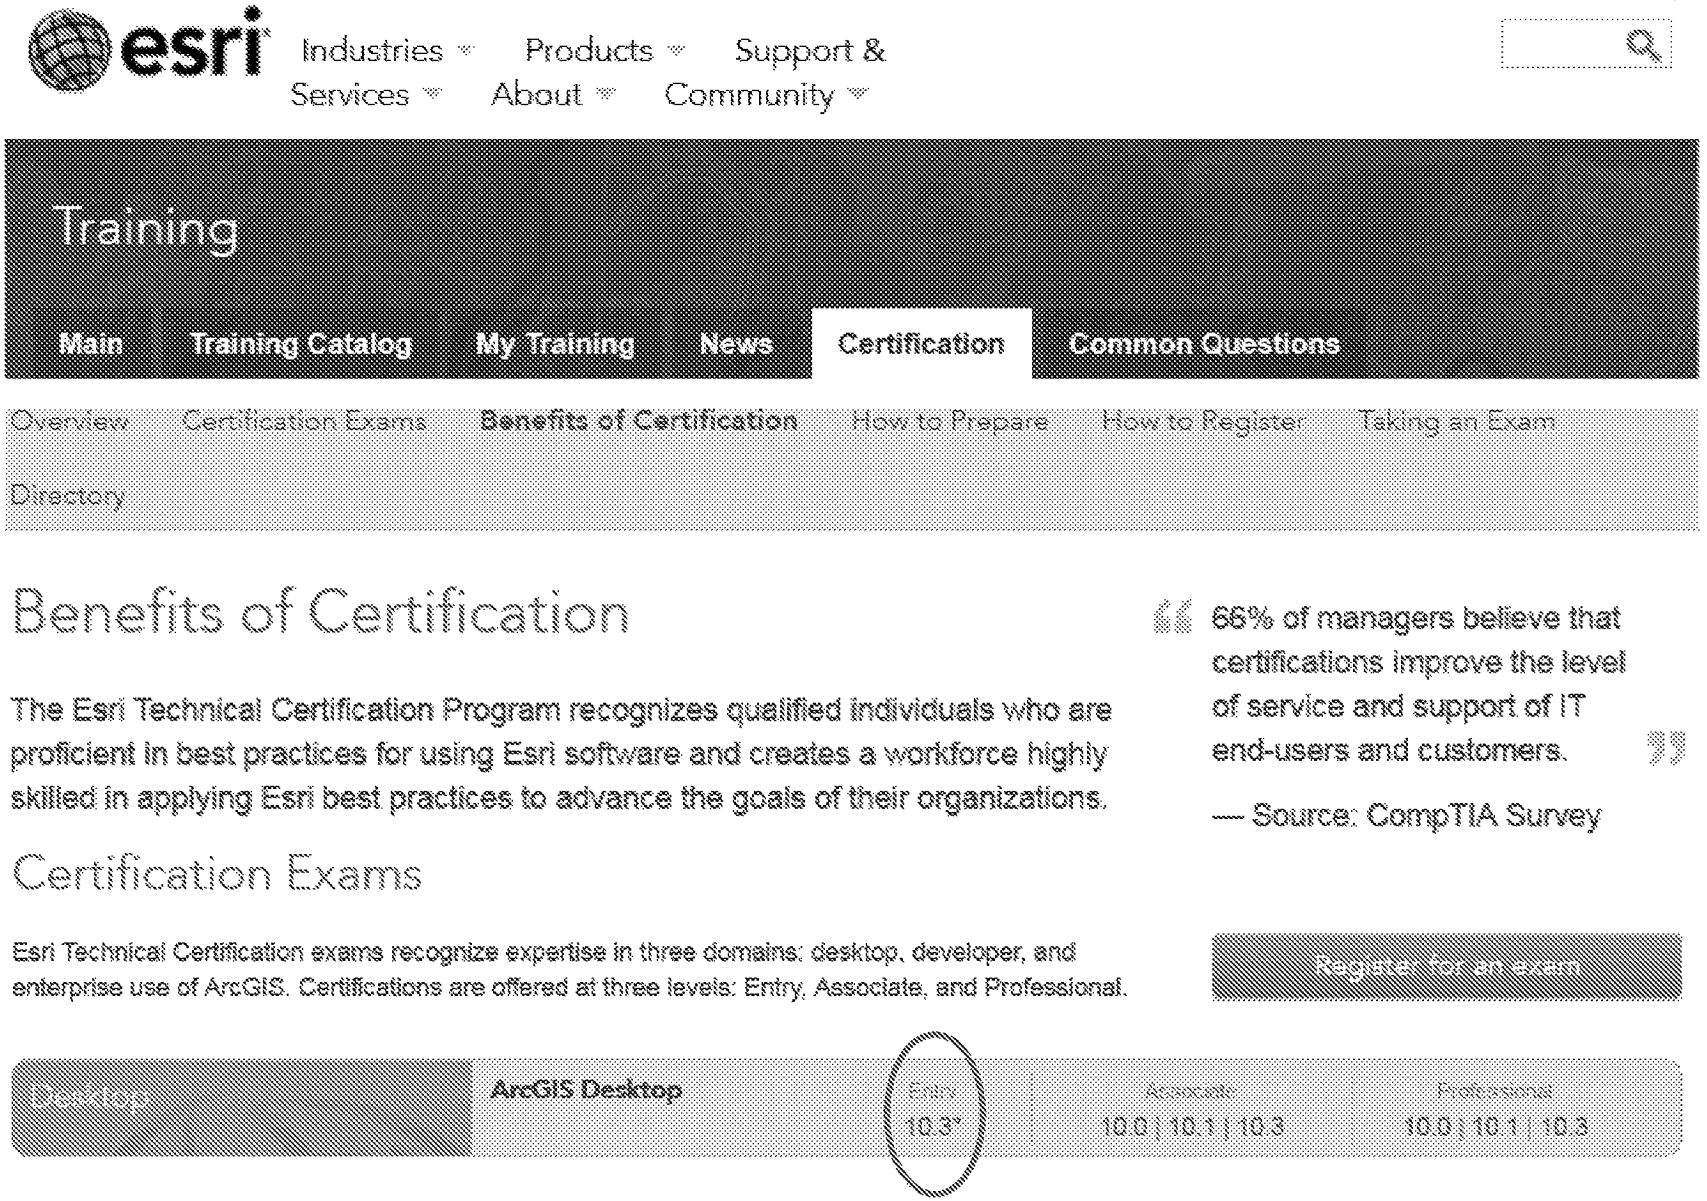
Mission

To encourage cost-effective and efficient local government through the coordinated practical development and utilization of geographic information systems and related technologies. MiCAMP provides a forum for sharing ideas and experiences amongst all communities in Michigan.

MiCAMP's Roles & Responsibilities in the GRACE Project

- ✓ Connect GIS professionals with educators and students for geo-mentoring
- ✓ Assist in the establishment of regional learning clusters
- ✓ Identify internship candidates through evaluation of qualifications
- ✓ Arrange internship opportunities and placement

3. How does GRACE train students for internship



- ✓ *Students* with at least three ArcGIS modules completed will be qualified as *Explorers;*

- ✓ *Explorers*, after successfully completing a minimum of five additional in-depth ArcGIS lesson modules and case studies, grow into *Investigators*;

- ✓ *Investigators*, after successfully completing a sequence of seven ESRI Virtual Campus technical courses (grades higher than 80% required for all seven courses), meet the requirements as *Internship Candidates*;

- ✓ *Internship candidates*, after being placed in a community or company and finishing 6-8 weeks of GIS assignment, are called *Interns*.

Industrial Standard: ESRI Desktop ArcGIS Entry Certificate

ArcGIS Desktop Entry 10.3 Certification Qualifications

An ESRI ArcGIS Desktop Entry candidate is an ArcGIS end user with less than two years broad experience using ArcGIS. A qualified candidate is capable of performing basic GIS tasks associated with ArcGIS for Desktop including ArcGIS Online.

A qualified candidate should be able to:

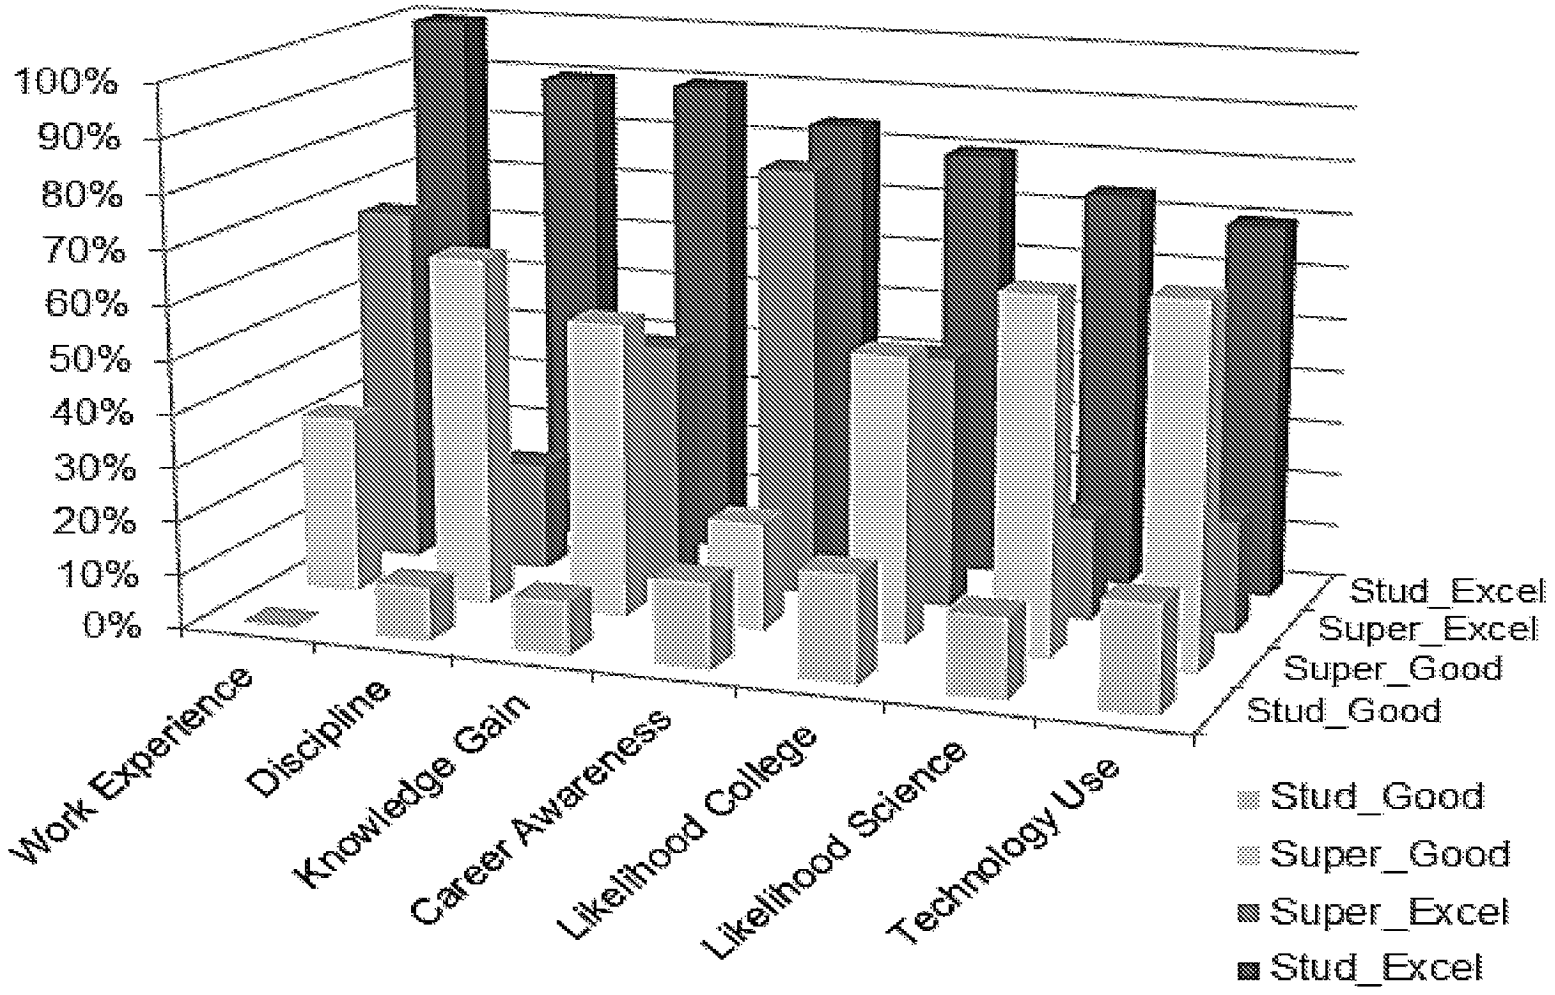
- Construct a map using available datasets (local and online)
- Select the datasets by attribute or location
- Add a toolbar
- Create a new feature class or shapefile
- Create a new file geodatabase and perform basic geodata management
- Find or view data properties
- Perform basic data editing (e.g. manipulation of points, lines, polygons and attributes)
- Author and share an online map
- Demonstrate operations within a table
- Describe the difference between geographic and projected coordinate systems
- Define the purpose of geocoding
- Set basic layer properties (e.g., symbology, visibility, transparency, labeling)
- Symbology using categories and quantities
- Find an address or x,y coordinate pair on a map

- Understand and create item descriptions
- Build a simple definition query
- Describe the difference between small and large scale
- Add basic map elements
- Export maps using ArcMap

A qualified candidate should be familiar with tools such as:

- Core extensions
- Basic ArcGIS toolbars
- Analysis tools (i.e. Intersect, Buffer, Clip, and Union)
- Field data collection applications
- Broad uses and purposes of ArcMap, ArcCatalog, and ArcGIS Online
- Navigating within a map (i.e. Bookmarks, Zoom to location, ArcGIS Pro, 3D, view)
- Awareness of automated processing
- Understand the difference between small and large scale

In short, the GRACE interns will have rigorous technical training designed by the leading GIS software developer, ESRI, to meet the cutting-edge industrial standards, to perform real tasks at the hiring agencies/companies and to be competitive in job market.



4. What are the successful experiences of supporting INTERNS?

The foundation of the GRACE Project is The Mayor's Youth Technology Corps (MYTC) - Creating Safe Communities through Information Technology Training in Homeland Security Applications (2008-2011), which had a successful internship program in City of Detroit.

Table 1 The summary of MYTC project activities and participations

Activities / Participation	Cohort 1		Cohort 2	Sub-total
	Year 1	Year 2	Year 3	
	Student Participation (Total 814)[2]			
Summer Institutes	53	59	50	162
Afterschool Programs	53	197	68	318
In-classroom Sessions	0	250	84	334
	Student Completion (Total 464)[3]			
Summer Institutes (40 hours)	53	59	50	162
Information Assurance (100 hours)	0	0	84	84
GIS Training (100 hours)	0	52	68	120
Internships (120 hours)	0	41	57	98
College Experience [1]	53			
Teacher Leaders & Trainers	3	13	4	20

Figure. 1 The general reflections of the internship program from the participating students and agency supervisors (Xie, 2014, page 53)

Xie, Y., 2014. Advancing STEM Career and Learning through Civic Engagement. *Journal of Technology Education*, 26(1): 47 - 63.

Why Successful: Four considerations and five implementation actions

1. Four considerations for successfully engaging students in underserved rural and urban communities for STEM career pathways are (*Xie, 2014, page 48*),

1) Demonstrating to the high school students that there were bright career opportunities in information technology and, in particular, geographic information systems;
2) Engaging them with real tasks that were in great demand in their own communities;
3) Enabling them to have workplace experiences by providing them with paid internships; and
4) Motivating their interests in learning STEM in schools and seeking STEM career in future.

Xie, Y., 2014. Advancing STEM Career and Learning through Civic Engagement. *Journal of Technology Education*, 26(1): 47 - 63.

Five implementation actions for successfully placing urban youth interns include (*Xie, 2014; and Xie Reider, 2014*)

1) The MYTC team and Detroit Public Schools designated A. Philip Randolph Career/Technical Center (CTC) as the manager of the MYTC internship program, selecting trainees, teaching trainees with workplace ethics, processing paper work (including the MYTC Internship Agreement, Internship Application Form, Employment Authorization Form, W-9 Form, Parents Consent Form, Liability Release Form, and Intern Transportation Request Form), and monitoring internship timesheets;

2) Eastern Michigan University and the MYTC team prepared the MYTC trainees with adequate GIS and information technology skills through in-class sessions, afterschool trainings, and online virtual courses, and provide technical support to MYTC interns at workplace if needed;

Journal of Technology Education | *Vol. 26 No. 1, Fall 2014*

Advancing STEM Career and Learning Through Civic Engagement

3) The MYTC team and the NSF ITEST program paid $1,200 per internship for MYTC interns who had adequate GIS skills and workplace ethics and successfully completed workplace assignments of 120 hours;

4) City of Detroit appointed a liaison between the MYTC team and the City of Detroit departments and organizations to place interns in City of Detroit;

5) City of Detroit designated a group of Internship Coordinators in its departments that received a large number of interns to give internship assignments, oversee the interns, provide the intern with a letter of completion for future job applications upon an intern's successful completion of the workplace assignments, and, at its discretion, arrange continued employment in a city department or organization.

Xie, Y. & Reider, D., 2014. Integration of Innovative Technologies for Enhancing Students' Motivation for Science Learning and Career. *Journal of Science Education and Technology*, 23:370-380.

Integration of Innovative Technologies for Enhancing Students' Motivation for Science Learning and Career

Yichun Xie & David Reider

VOLUME 23, NUMBER 3 JUNE 2014
23(3) 299–460 (2014)
ISSN 1059-0145

Journal of Science Education and Technology

5. What incentives will GRACE provide to INTERNS?

1) Technology Training: THREE instructor-led GIS-introduction lessons– *Explorer;* FIVE instructor-led GIS-intensive lessons – *Investigator;* and Seven virtual campus technical courses offered by the leading GIS/T company, **ESRI Desktop ArcGIS Entry Certification** – *Technology Competency*

2) Customized Training: the GRACE project can provide "customized GIS training" if an agency or industry has a specific GIS application need – *Contributing to Communities*

3) GIS professional mentoring from GIS/T professionals and community leaders through MiCAMP – *Professional and Cultural Readiness*

4) Offering $300 per intern for the orientation or logistic support – *Intern Start-up Funds*

5) Expecting an intern to get meaningful workplace experience through a minimum 6-8 weeks internship by using GIS technology in an agency, community, or industry- *Interns*

6. What ADDITIONAL incentives does GRACE need in order to have a successful INTERNSHIP program?

1) Intern Stipend (120/160 hours / $1,200/$1,600 per intern): We hope the GRACE interns could be assigned with real-world GIS projects, which can support them financially. For instance, we are exploring with City of Detroit for an inclusion of GRACE Interns into City of Detroit Summer Employee Program; we are meeting with Michigan Department of Technology, Management and Budgeting for possible solutions in other locations.

2) Financial Support to Regional Learning Clusters:

- The GRACE team, through MiCAMP and MMSCN, will organize the participating teachers and interested GIS professional mentors and organizations that are geographically located "nearby" into **regional learning clusters**.
- Each learning cluster consists of one Math & Science Center (MSC), one regional university, 8 – 20 teachers, 2 – 6 GIS mentors and GIS user groups or organizations.
- West Michigan Learning Cluster is a perfect example. This cluster includes Grand Valley State University (GVSU) Regional Math and Science Center, GVSU Department of Geography, several county GIS user groups (MiCAMP members) and a dozen of teachers.

- The MSC will organize and host professional development (PD) events for teachers.

- The GIS user communities will invite volunteers as GIS mentors to provide technical support to the participating teachers and students and will provide GIS internship opportunities for the students based on real-world needs within the communities.

- Therefore ,the regional learning cluster will enable the GRACE team to execute the concept of coaching and mentoring from professionals to foster students' interests in STEM learning and career.

- The learning cluster also helps the GRACE team implement the strategy of bringing in the community resources into the STEM education.

- The GRACE project is planning to have 5 Regional Learning Clusters :

    i. Allendale GVSU MSC – serving West Michigan
    ii. Iron Mountain MSC - serving UP
    iii. Flint MSC – serving East Michigan
    iv. Midland School District – serving Central Michigan
    v. Wayne RESA MSC (serving City of Detroit and Southeast Michigan)

However, not much NSF funding is available to the learning cluster. Many GIS user communities are over-stretched. As a result, the progress of establishing learning clusters is low.

Hence, innovative ways of allocating more resources to the learning clusters and affiliated organizations are critical to the success of the GRACE project student internship program.

Suggested solution 1 …

…….

…….

We strongly believe that possible solutions are closely related to our agreement on **why GIS and Geospatial Technologies Important!**

Why are GIS and Geospatial Technologies Important?

- GIS provides the backbone for a myriad of industries
  - Emergency services
  - High-tech agriculture
  - Industrial and commercial commerce
  - Outdoor and recreational activates
  - Government workings ranging from voter registration to postal delivery

- Digital infrastructure for 21st century

- Expected by the citizens, but not equally disseminated in the State

- Delivers great returns on investments
  - King County, WA - $200 million investment in 18 years with up to $1.7 billion return
  - IndianaMap Project – 34:1 return on investment in less than 3 years
  - New York State Orthoimagery Project – 711% return on investment

- Where quality authoritative data originates
  - Cities, townships, counties, regional agencies, state agencies

Quality Authoritative Data - Barriers, Solutions, and Potential Outcomes

- *Barriers*
  - Funding - start up and ongoing
  - Software and hardware
  - Lack of collaborative efforts – redundancy due to "isolation" mentality
    - Ex. Road centerline data, address point data, parcel data
  - Professionals in offices working – many GIS offices in Michigan have a single employee

- *Solutions*
  - Small funding can go a long way – many rural GIS offices operate on less than $70k
  - Resource collaboration between organizations and agencies
  - Internships could potentially fill gaps in office work – important "backburner" projects get completed

- *Potential Outcomes*
  - With small input, State CSS could become inundated with high quality, up-to-date data
  - De-facto data standardization – with incentive to share comes standards
  - SoM (again) becomes exemplar of GIS usage and dissemination
  - Overall increased productivity and economic benefits

How the GRACE Project Contributes to Solution

- *Contributions to Solutions*

  - Strengthens students' knowledge of GIS & geospatial technologies and applications for a future in a high-tech industry

  - Interns have access to Esri suite of professional programs and software licenses

  - Professionals participating in the Program can focus on common goals and projects
    i.e. small scale, high precision local datasets aggregated into large scale, high precision statewide datasets

  - Citizens and private industries benefit from increased access to quality geospatial digital infrastructure

Scott Sowers

Objective:

To secure a position as a valuable member of a GIS utilizing team that leverages my skills, ability, and achievements while creating a GIS career.

Education:

2005-2007 St. Clair County Community College, Port Huron, MI
Associate Degree in Liberal Arts

2007-2010 University of Michigan-Flint, Flint, MI

2011-2012 Lake Superior State University, Sault Ste. Marie, MI
Bachelors Degree in Applied Geographic Information Science

Qualifications:

Knowledge in GIS, mostly ArcGIS 10.0, and GPS technologies. Able to use and analyze spatial data, write GIS research in an understandable method, and present research in a professional manner. A hard working individual that is extremely interested in GIS. Looking to expand knowledge and experience in the real world.

Knowledge consists, but not limited to: GPS, computer programming (C#, Python), database applications, ArcGIS, MultiSpec, strong geography background as well as various math and statistical courses. ArcGIS experience with wide range of tools and scripts. Senior project of spatial analysis using ArcMap presented to LSSU education community as well as poster presentation.

Can work exceptionally well with others in teamwork situations. Ability to learn and adapt to different working environments. Punctual, cheerful, and dedicated. Strong writing and oral communication skills.

Work Experience:

2011-2012 St. Clair County Information Technology Department, Port Huron, MI
GIS Intern

* Worked alongside with Department of Emergency Management for establishing 'first in nation' pilot program, Virtual City, using IDV Solutions software.
* Create procedures for importing CAD condominium plans into ArcGIS 10.0 for raster mosaic.
* Georeferenced multiple condo plats within ArcGIS 10.0.

Subject:	Detroit and southeast Michigan - moving forward for 2015 ortho flight / re: 2015 flight
Attachments:	2015_flight_cost.xls; Letter_of_Intent.doc

Ann,

Thanks for "cc-ing" me with the message (next) that SEMCOG is moving forward with plans for a 2015 imagery flight that will include Detroit and southeast Michigan. This is great news.

I will forward this on to our urban imagery contact at the National Geospatial-Intelligence Agency (Bill Nellist at NGA) in anticipation of an NGA contribution to the effort. I will also "cc" USGS ortho experts.

Please keep us informed as you are able to expand the flight beyond the SEMCOG boundary
< http://www.semcog.org/WhatIsSEMCOG.aspx >
to include adjacent counties and move beyond 5,000 square miles to achieve best cost. We hope to also get Flint and Lansing urban areas in 2015, so may be able to work with Everett and with additional counties to expand on your footprint.

Best regards,
Charley

Hi All,

I got the 'ok' from my boss to move forward with a 2015 flight.

Attached is the Letter of intent that I will need to have from each partner, as well as the estimate of cost breakdown. There was an error in the last table I sent out, which when corrected, makes the County cost better!

Please modify the Letter of Intent to meet your needs.

I will schedule a meeting within the next few weeks to discuss questions & answers from Everett. Specifically we need to discuss the boundary of this flight. The current price breakdown does not take into account any extent beyond the region's boundary. There are also a few other items which may increase the cost, such as delivery in 2 different projections, etc.

I plan to reach out to adjacent counties so that we have a total of 5000 squares miles and receive the 17% discount.

Please let me know if you have any questions.

Thanks,

Ann

-----Original Message-----
From: Geographic Information System User Group [mailto:GISUSERS@LISTSERV.MICHIGAN.GOV] On Behalf Of Root, Everett (DTMB)
Sent: Thursday, January 24, 2013 3:59 PM
To: GISUSERS@LISTSERV.MICHIGAN.GOV
Subject: State of MI - new program for imagery, lidar & data as a service

Greetings to the list,
The Center for Shared Solutions (CSS) has successfully completed the RFP process for a new imagery program and has selected the Sanborn Map Co to work with us over the next several years.
This new contract will include:

* Acquisition and processing of orthophotography and LiDAR as well as a data hosting solution

* 3 years with 2 additional option years

* Partnership opportunities

If you are considering acquiring orthophotography or LiDAR in the spring of 2013, please contact me directly (root@michigan.gov<mailto:root@michigan.gov>, 517-373-7910) as soon as possible to discuss pricing and scheduling details.
Product specifications and pricing details will be posted to the CSS website soon

If your community has an interest in participating as a partner, or if you'd just like to learn more, there will be an excellent opportunity at the February 7th MI GIS Users meeting in Lansing.
Krysia Sapeta and Brad Arshat, Sanborn project leaders, will be here to co-present with me the details of the new program during the afternoon segment of the meeting, 1 - 3 PM.
This presentation will:

* Cover the details of the program: pricing, specs, options

* Introduce the Sanborn Map Co. and the project leaders: Krysia and Brad

* Outline the State's acquisition plan for spring 2013

* Answer questions, take comments, and discuss the opportunity for future acquisitions

Meeting and agenda details are at the CSS website:
http://www.michigan.gov/cgi/0,4548,7-158-52927_53037_12761_15235---,00.html

Again, if you plan to fly this spring, please contact me directly as soon as possible.
Any other questions, please let me know.
Hope you can join us on the 7th.

Best regards,

Everett Root
Center for Shared Solutions

Attachments: Metadata 1999 GRW DEM.txt

Hi Everett,

In my mind, I think it is a combination of factors, but primarily the realities faced by today's county GIS coordinators, nature of the request and the growing policy issues faced by GIS data owners. The typical county GIS coordinator gets daily/weekly requests for information from the general public, private sector, local units of government, other departments, schools, emergency service providers, non-profit organizations, other counties, planning regions, state agencies and the federal govt. There is really no buffer between a coutny GIS operation and these requests, they continue to increase as the utility of GIS data is discovered by more people, and reqests from the feds take last place in the line and to me rank somewhere with industry surveys and telemarketers.

And frankly, I think that outside of contributing funds to desired data acquisition projects, there may be a real question among county coordinators of how useful federal projects are to them. I think that without explaining how the NOAA Digital Coast website is going to benefit a county or its citizens (assuming there is some direct benefit), the typical county coordinator isn't going to give this request any attention. Rather they are going to focus their limited resources on and pursue partnerships and opportunities that have a more tangible benefit in order to justify spending time on it. Unfortunately, I don't think many of the federal projects fall into this category.

In addition, since most counties don't have the resources to maintain detailed metadata making meaningful information about data sets is somewhat difficult to share.

While I recognize that NOAA wasn't asking for actual data, the growing number of requests for free data from different levels of gov't is also an issue and I don't think counties have a good grasp of how to deal with it outside of just saying no. For example, just in the last month, some division of MDOT asked for a copy of our address points so that they could better geocode businesses in the county and build a better travel demand model. A week later, a division of the DNRE called wanting a copy of our elevation to better map out surficial geology. In december we got a call from the Regional Planning Commission wanting future land use data for a DEQ Coastal Management Study. In november, we got a call from UofM Flint wanting our parcels to map out PA116 ag lands for an MDA project.

In some cases like the PA116, there was a tangible return in that we got a relatively accurate and up-to-date copy of a county-wide PA116 layer that has some utility to local units of govt. and potential use in various planning activites. I'm not sure what the tangible benefit of an improved surficial geology layer or a Coastal Management Study would be for the county or its citizens. None of these requestors have funds to pay for any of the data, not even the cost of processing and distributing the request. We are trying to figure out from a policy perspective how we protect ourselves from becoming a free-for-all data depot while fairly distributing free data. Once you have given it to one agency, how do you justify not giving it to others? At least with the state requests, I have a perception that there will be some tangible benefit to the citizens down the line and absent our data contribution, the state agency needs to complete the project anyway and will do it with the best available data and somewhat inferior results if that is what it comes to. Unfortunately, in most cases, it will result in increased state efficiencies that will not be translated into resumed revenue sharing to counties and local government. If you could tie those two together, then data sharing could really take off. In reality counties are maintaining GIS data for their internal needs and there is no real "cost" to sharing it outside the labor of managing the request.

One thought going forward, if agencies need/want local data, I think they must connect it to a tangible benefit to the data provider or the citizens of that community, possibly in written form. Essentially, they would almost have to spell it out in written format as if they are requesting grant funding except that they are asking for data instead of dollars. Perhaps counties need to develop a data request template to send to the requestor asking them to address all of the issues or how it is going to be used, who are the partners, recognition and local benefit much the way that grant proposals are structured. Then I, as a county coordinator at least have something with which to justify giving the data and can articulate the benefits to the county powers that be as a win-win. It would obviously be a pain in the rear for the

requestor, but spending an hour or two filling out the request could save many hours in gained efficiency, if they knew with a fair degree of certainty that the data would be forthcoming. It would also help weed out fishing expeditions.

Hopefully, no one is irritated with you personally. You come accross as modest, humble and sincere so I don't know how anyone could have a beef.

Fnally, attached is the the metadata for our 1999 DEM so now you have 2!

Regards,
Valdis

Subject: Elevation data inventory

Valdis & Scott,

As County GIS professionals and leaders within the two GIS professional organizations in Michigan, I would like to get your input on a recent request I sent out via the MI-GIS Users email list and the lack of response to that request.

To give you the background on this request, NSGIC was asked by NOAA to assist in organizing a conference call with representatives of MN, WI, and MI to discuss an upcoming NOAA project to acquire topographic and bathymetric LiDAR for the Lake Superior shoreline. NOAA wanted states input on projects pending or underway that could use the collected data. In addition, they asked for help in inventorying available elevation data, either public or proprietary, for inclusion in NOAAs Digital Coast website. They aren't asking for the data, just information about the data.

Since Rob is the Michigan contact for NSGIC, he was initially contacted and Matt Warner from DNRE and I participated. Matt took on the job of providing project locations for using the data, I took on the inventory request.

I sent an initial email to the list on 2/3 with a follow-up on 2/8 and to date, I have 1 response. My request was very simple, send me your contact information and I would bundle them up and forward on to NOAA.
Now I know there is elevation data at many counties. Is the county GIS community irritated with me or the State or the Feds, or all of us? Are they just ambivalent, maybe tired of these requests for information?
I really thought that the efforts of MICAMP and IMAGIN over these many years was bridging the gap between levels of government and educating us all on the benefits of sharing and working together. Are we not as far along as I thought?

Any insights you can provide will be greatly appreciated.

Have a good weekend.

Subject: RE: Elevation data inventory
Attachments: Allegan County Data Request Form.doc

No problem - attached is a word document that I threw together last week in response to the MDOT and MDEQ requests we recevied. It is kind of like asking them to submit a little grant request. In order to justify the data sharing, I think most counties need to have the benefit clearly spelled out. Unfortunately, this will vary from program to program and agency to agency depending on how the county GIS data are being used making a global sharing agreement a bit more difficult to structure. On the other hand, this level of detail may form a set of case studies to build a broader argument for more formalized or even "mandated" and "funded" data maintenance and sharing between counties and the state. If I get any of these back I will forward them to you.

If this gets expanded to a more global data sharing agreement, the issue of FOIA also needs to be addressed with something to the extent that if the data are provided to the state under a county enhanced access policy and exempt from FOIA. I think the imagery partnerships already have some of this language.

Regards,
Valdis

Valdis,

Thanks for the insights, I really appreciate you taking the time to detail the issues that you encounter. I had a pretty good idea the job of a county coordinator is pretty complex, but I didn't realize it was quite to this extent.

I've shared this with Rob. I believe we should discuss internally what the opportunities might be to involve ourselves in the State/County GIS data request process. We are currently working with a county to develop a single State data sharing agreement that applies to the data that the county wants to share and all State agencies that might want to use it. The agency would still go to the county to make the request and it would have to meet county approval, but we would have a copy of the data and process the request.

Thanks again, I'll let you know how/if things progress.

Have a good weekend.

Subject: RE: Elevation data inventory

Hi Everett,

In my mind, I think it is a combination of factors, but primarily the realities faced by today's county GIS coordinators, nature of the request and the growing policy issues faced by GIS data owners. The typical county GIS coordinator gets daily/weekly requests for information from the general public, private sector, local units of government, other departments, schools, emergency service providers, non-profit organizations, other counties, planning regions, state agencies and the federal govt. There is really no buffer between a coutny GIS operation and these requests, they continue to increase as the utility of GIS data is discovered by more people, and reqests from the feds take last place in the line and to me rank somewhere with industry surveys and telemarketers.

And frankly, I think that outside of contributing funds to desired data acquisition projects, there may be a real question among county coordinators of how useful federal projects are to them. I think that without explaining how the NOAA Digital Coast website is going to benefit a county or its citizens (assuming there is some direct benefit), the typical county coordinator isn't going to give this request any attention. Rather they are going to focus their limited resources on and pursue partnerships and opportunities that have a more tangible benefit in order to justify spending time on it. Unfortunately, I don't think many of the federal projects fall into this category.

In addition, since most counties don't have the resources to maintain detailed metadata making meaningful information about data sets is somewhat difficult to share.

While I recognize that NOAA wasn't asking for actual data, the growing number of requests for free data from different levels of gov't is also an issue and I don't think counties have a good grasp of how to deal with it outside of just saying no. For example, just in the last month, some division of MDOT asked for a copy of our address points so that they could better geocode businesses in the county and build a better travel demand model. A week later, a division of the DNRE called wanting a copy of our elevation to better map out surficial geology. In december we got a call from the Regional Planning Commission wanting future land use data for a DEQ Coastal Management Study. In november, we got a call from UofM Flint wanting our parcels to map out PA116 ag lands for an MDA project.

In some cases like the PA116, there was a tangible return in that we got a relatively accurate and up-to-date copy of a county-wide PA116 layer that has some utility to local units of govt. and potential use in various planning activites. I'm not sure what the tangible benefit of an improved surficial geology layer or a Coastal Management Study would be for the county or its citizens. None of these requestors have funds to pay for any of the data, not even the cost of processing and distributing the request. We are trying to figure out from a policy perspective how we protect ourselves from becoming a free-for-all data depot while fairly distributing free data. Once you have given it to one agency, how do you justify not giving it to others? At least with the state requests, I have a perception that there will be some tangible benefit to the citizens down the line and absent our data contribution, the state agency needs to complete the project anyway and will do it with the best available data and somewhat inferior results if that is what it comes to. Unfortunately, in most cases, it will result in increased state efficiencies that will not be translated into resumed revenue sharing to counties and local government. If you could tie those two together, then data sharing could really take off. In reality counties are maintaining GIS data for their internal needs and there is no real "cost" to sharing it outside the labor of managing the request.

One thought going forward, if agencies need/want local data, I think they must connect it to a tangible benefit to the data provider or the citizens of that community, possibly in written form. Essentially, they would almost have to spell it out in written format as if they are requesting grant funding except that they are asking for data instead of dollars. Perhaps counties need to develop a data request template to send to the requestor asking them to address all of the issues or how it is going to be used, who are the partners, recognition and local benefit much the way that grant proposals are structured. Then I, as a county coordinator at least have something with which to justify giving the data and

can articulate the benefits to the county powers that be as a win-win. It would obviously be a pain in the rear for the requestor, but spending an hour or two filling out the request could save many hours in gained efficiency, if they knew with a fair degree of certainty that the data would be forthcoming. It would also help weed out fishing expeditions.

Hopefully, no one is irritated with you personally. You come accross as modest, humble and sincere so I don't know how anyone could have a beef.

Fnally, attached is the the metadata for our 1999 DEM so now you have 2!

Regards,
Valdis

Subject: Elevation data inventory

Valdis & Scott,

As County GIS professionals and leaders within the two GIS professional organizations in Michigan, I would like to get your input on a recent request I sent out via the MI-GIS Users email list and the lack of response to that request.

To give you the background on this request, NSGIC was asked by NOAA to assist in organizing a conference call with representatives of MN, WI, and MI to discuss an upcoming NOAA project to acquire topographic and bathymetric LiDAR for the Lake Superior shoreline. NOAA wanted states input on projects pending or underway that could use the collected data. In addition, they asked for help in inventorying available elevation data, either public or proprietary, for inclusion in NOAAs Digital Coast website. They aren't asking for the data, just information about the data.

Since Rob is the Michigan contact for NSGIC, he was initially contacted and Matt Warner from DNRE and I participated. Matt took on the job of providing project locations for using the data, I took on the inventory request.

I sent an initial email to the list on 2/3 with a follow-up on 2/8 and to date, I have 1 response. My request was very simple, send me your contact information and I would bundle them up and forward on to NOAA.
Now I know there is elevation data at many counties. Is the county GIS community irritated with me or the State or the Feds, or all of us? Are they just ambivalent, maybe tired of these requests for information?
I really thought that the efforts of MICAMP and IMAGIN over these many years was bridging the gap between levels of government and educating us all on the benefits of sharing and working together. Are we not as far along as I thought?

Any insights you can provide will be greatly appreciated.

Have a good weekend.

Good morning,
I plan to reach out to Ken Koleda from Genesee County (Flint) and Dan Dillinger from Tri-County planning (Lansing area) to find out their level of interest in flying in 2015. They are aware of the program and if funding is available, I'm sure they would like to know more about it to help them in their planning.
I've also already received a positive response from Eaton County MI which is west of Lansing and part of Tri-County planning and they are very interested in 2015.
We also need to discuss available funds for Grand Rapids in 2014 as they are very interested.

Charley - let me know if we need to tag team these folks via a conference call.

Appreciate the news on SEMCOG.

Best,

Everett Root

Charley:

I finally have a chance to respond to this!

Good on SEMCOG, but how are Lansing Flint thinking about this? My thought is that this might be an opportunity to get a good deal, as all these areas would be contiguous.

Ann,

Thanks for "cc-ing" me with the message (next) that SEMCOG is moving forward with plans for a 2015 imagery flight that will include Detroit and southeast Michigan. This is great news.

I will forward this on to our urban imagery contact at the National Geospatial-Intelligence Agency (Bill Nellist at NGA) in anticipation of an NGA contribution to the effort. I will also "cc" USGS ortho experts.

Please keep us informed as you are able to expand the flight beyond the SEMCOG boundary < http://www.semcog.org/WhatIsSEMCOG.aspx >
to include adjacent counties and move beyond 5,000 square miles to achieve best cost. We hope to also get Flint and Lansing urban areas in 2015, so may be able to work with Everett and with additional counties to expand on your footprint.

Best regards,
Charley

Hi All,

I got the 'ok' from my boss to move forward with a 2015 flight.

Attached is the Letter of intent that I will need to have from each partner, as well as the estimate of cost breakdown. There was an error in the last table I sent out, which when corrected, makes the County cost better!

Please modify the Letter of Intent to meet your needs.

I will schedule a meeting within the next few weeks to discuss questions & answers from Everett. Specifically we need to discuss the boundary of this flight. The current price breakdown does not take into account any extent beyond the region's boundary. There are also a few other items which may increase the cost, such as delivery in 2 different projections, etc.

I plan to reach out to adjacent counties so that we have a total of 5000 squares miles and receive the 17% discount.

Please let me know if you have any questions.

Thanks,

Ann

Sent: Thursday, January 24, 2013 3:59 PM
To: GISUSERS@LISTSERV.MICHIGAN.GOV
Subject: State of MI - new program for imagery, lidar & data as a service

Greetings to the list,
The Center for Shared Solutions (CSS) has successfully completed the RFP process for a new imagery program and has selected the Sanborn Map Co to work with us over the next several years.
This new contract will include:

* Acquisition and processing of orthophotography and LiDAR as well as a data hosting solution

* 3 years with 2 additional option years

* Partnership opportunities

If you are considering acquiring orthophotography or LiDAR in the spring of 2013, please contact me directly (roote@michigan.gov<mailto:roote@michigan.gov>, 517-373-7910) as soon as possible to discuss pricing and scheduling details.
Product specifications and pricing details will be posted to the CSS website soon

If your community has an interest in participating as a partner, or if you'd just like to learn more, there will be an excellent opportunity at the February 7th MI GIS Users meeting in Lansing.
Krysia Sapeta and Brad Arshat, Sanborn project leaders, will be here to co-present with me the details of the new program during the afternoon segment of the meeting, 1 - 3 PM.
This presentation will:

* Cover the details of the program: pricing, specs, options

* Introduce the Sanborn Map Co. and the project leaders: Krysia and Brad

* Outline the State's acquisition plan for spring 2013

* Answer questions, take comments, and discuss the opportunity for future acquisitions

Meeting and agenda details are at the CSS website:
http://www.michigan.gov/cgi/0,4548,7-158-52927_53037_12761_15235---,00.html

Again, if you plan to fly this spring, please contact me directly as soon as possible.
Any other questions, please let me know.
Hope you can join us on the 7th.

Best regards,

Everett Root

UAIP - Urban Area Imagery Partnership

[See page two at http://www.fgdc.gov/iftn/factsheet]

The USGS-National Geospatial Intelligence Agency (NGA) Urban Area Imagery Partnership (UAIP) is the foundation of the high-resolution (1' or better) program for IFTN. The project is seeking to broaden the requirements and planning process to allow for greater coordination and to potentially increase leveraging of funds and the amount of coverage of imagery data that are acquired.

(UAIP is a component of IFTN, along with NAIP.)

Subject: RE: Lidar

Hi Pete,
I can't add too much to what you've already researched.
I don't think it's an expectation of QL4 Lidar to support 2' contours. I'm sure they can be created but what is the stated vertical accuracy?
Not sure when you need this data but there is a pretty good chance that some of the counties in the Flint River watershed may be acquired in 2016 if that helps.

Subject: RE: Lidar

Thanks for connecting with me Everett,

I got an inquiry from EPA on whether or not LIDAR data and associated DEMS exist for the Kearsley and Swartz Creek watersheds. These watersheds are in are Lapeer, Oakland and Genesee County. I did check the NOAA website you sent but I questioned some of the information, for example I thought Oakland had LIDAR data from 2010 and the site indicated 2008.

I know Oakland has LIDAR and a DEM but not sure what specs they used (QL1 etc.). Stephanie Taylor from SEMCOG sent metadata and I'll try to determine quality level from that, unless you know off the top of your head.

The website, and Ken from Genesee, said they had LIDAR data and the product was 2 ft. contours. Not sure of specs on this either, site says QL4?? Ken also indicated they took the x/y/z from the LIDAR data and did a point to raster

conversion and they feel that it is similar to a DEM, is that true? Ken also said they had ½ a township into Lapeer, this would cover those watersheds in Lapeer. Talked with Lapeer and they said they have no LIDAR data. Any insight you can add would be appreciated., hoping all is well, Pete.

Subject: RE: FEMA contract

Byron, Obviously the first task is to wrap up the two last counties in UP from the 2014 list. Once that is accomplished the FEMA priority on 2015 counties would move production by watershed starting with the three in the St. Joseph watershed; these are Cass, St. Joseph and Kalamazoo Counties. Then move up to Flint and get the other 3-county group: Shiawassee, Genesee and Lapeer. That would leave then the 8-county group up in the Muskegon River region for last.

Not sure, but I believe that leaf-off conditions may give you a different priority --- likely starting in the Muskegon River watershed and moving south. If there is a radical difference in leaf off north-to-south please give me a shout.

Thanks!
Ken

Good afternoon Linda, Byron,

Sanborn planes and crews will be in the UP to start collecting Lidar this weekend if conditions allow.
They've asked if there is interest in collection in the lower peninsula this fall.

Please let me know if/where Ken would like to collect so ground control and flight planning can commence.

Thanks, Everett

The FEMA FY15 scope of work and funding for LiDAR collection is final (even if the paperwork isn't complete quite yet), and that's what I've told MDARD.

MDARD hasn't asked for my/FEMA's permission to inform the six counties of anything; unless and until they do, I'm going to let them decide on their own what and when to tell them.

Linda

Thanks Linda.
I propose we take last year's MOU and edit appropriately. Then send it around for signatures again.

Has MDARD been given the okay to inform counties that FEMA is acquiring them and they won't need to be a part of the USGS 3DEP grant?
The last time I checked, there were 6 counties on the FEMA list that are also part of the MDARD project.

MEMORANDUM OF UNDERSTANDING
BETWEEN THE
MICHIGAN DEPARTMENT OF TECHNOLOGY, MANAGEMENT, AND BUDGET
AND THE
MICHIGAN DEPARTMENT OF ENVIRONMENTAL QUALITY

FEMA COUNTY-WIDE LIDAR ELEVATION DATA

This Memorandum of Understanding (MOU) is made between the Michigan Department of Technology, Management, and Budget (MDTMB)/Center for Shared Solutions and the Michigan Department of Environmental Quality (MDEQ). The purpose of this MOU is to delineate the respective roles of each department in contracting an aerial survey by LiDAR, post-processing of data, quality control and quality assurance, and providing the required deliverables to the Federal Emergency Management Agency (FEMA).

Attachment A, Cooperating Technical Partners Flood Risk Project – LIDAR, Mapping Activity Statement (MAS) No. 15-03, is the contract agreement between FEMA and the MDEQ. Attachment A is also part of this MOU.

FEMA standards and requirements are described in Attachment B, Standards for Flood Risk Analysis and Mapping (FP 204-078-1, Rev. 2), November 2014, (and its Appendix A). Also in Appendix B are a Master Index to the FEMA standards document, and a list of additional FEMA technical references and guidance documents referenced in the FEMA standards. Attachment B and the FEMA documents referenced therein are part of this MOU.

This MOU is subject to the terms and conditions specified below.

Project Description and Purpose:

As a FEMA Cooperating Technical Partner (CTP), the MDEQ's Water Resources Division (WRD) has signed a master contract with FEMA. The scope of work performed under the master contract is described in a series of agreements titled Mapping Activity Statements (MAS). FEMA wishes to expedite the collection of elevation data in several Michigan counties by negotiating a MAS with the MDEQ, with the knowledge and expectation that the work will be performed by the MDTMB and its subcontractor.

The parties agree to the following:

The cost to perform the scope of work described below will not exceed $1,690,599 and will be complete within 24 months of notice to proceed, which is expected on or about December 1, 2014.

A. The MDTMB will be responsible for:

1. Performing the scope of work as follows: Development of LiDAR terrain data and preparing deliverables as described in Attachment A for the Michigan counties listed in Attachment C.

2. Providing the required deliverables to the MDEQ.

3. Performing the Quality Assurance / Quality Control tasks and making submittals as required.

4. Providing monthly progress updates to the MDEQ project manager on or before the third week of the calendar month. Updates can be provided via phone call or email and will include the status, by county, of the following:

    - the status, by county, of the flights scheduled and completed,
    - the status, by county, of the development of terrain data and submittals to DTMB by the subcontractor
    - the status, by county, of independent QA/QA
    - the status, by county, of preparation of deliverables
    - an estimate of costs and expenses (including subcontractor invoices received) incurred during the month, and
    - notice of any real or potential problems or delays that will impact the project schedule or cost.

B. The MDEQ's WRD will be responsible for:

    1. Preparing monthly progress reports for FEMA's Project Manager.
    2. Updating cost, schedule, and progress information in FEMA's project management system.
    3. Preparing and submitting quarterly progress reports and the final project report.
    4. The MDEQ will provide $1,466,500 to the MDTMB, to be paid in quarterly installments as a percent of the total cost, based on the reported percent complete multiplied by the estimated costs shown in Attachment C. The cost per county is not limited to the amount shown, as long as the total contract limit is not exceeded. Requests for payment will be submitted on an inter-account bill by the MDTMB to the MDEQ. When request for payment is submitted, a breakdown of cost by task and county shall be transmitted to Linda Burke (see contact information below) on Attachment D or a similar worksheet. Copies of subcontractor invoices and a brief summary of work completed during the previous quarter shall be attached to the request for payment.

For the MDEQ's WRD, the program manager for the MOU is Linda Burke, BurkeL4@michigan.gov, 517-284-5577; and the financial contact is Pam Green, GreenP3@michigan.gov, 517-284-5477. For the MDTMB, the program manager is Everett Root, RootE@michigan.gov 517-373-7910; and the financial contact is Michelle Beckwith, BeckwithM1@michigan.gov, 517-373-7910.

Eric – I'm part of a group along with DEQ assigned to the Flint issue. In meetings with Flint, it was discussed that they are currently undertaking a project with UM-Flint to assist with the mapping of their lead lines using the property cards and GIS. This is a heavy lift. At the meeting I suggested that maybe the State could assist and therefore the reason for my phone call on Monday and email today to you. Would you have time yet this week to reach out to Howard Croft, Director of Public Works to discuss this issue? He is working with a Dr. Marty Koffman at UM. Howard can be reached at 810-766-7135 ext 2043 or hcroft@cityofflint.com. It may be that there is not anything the State can do but I thought with your expertise in GIS, it would be at least worth asking. As you may know, this assistance to Flint is a priority for the Governor.

Please don't hesitate to contact me if you have additional questions.

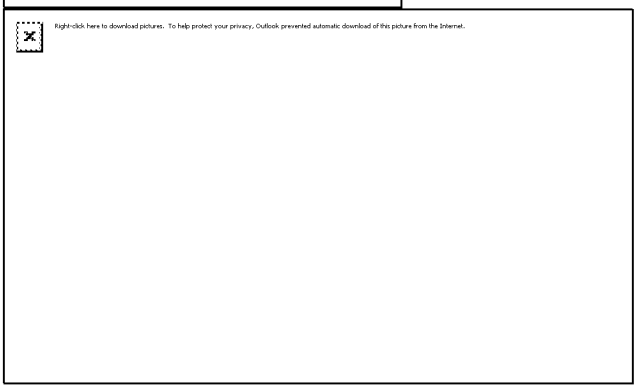
Hi Everett,

Linda Burke at MDEQ provided me with your contact information. I am working on a project with MDEQ and FEMA to identify mapping and mitigation needs in the Flint River Watershed. We have had several discussion with communities.

We are now working on a report and I wanted to include a brief paragraph about the ongoing LiDAR county projects in the watershed. Linda told me that you would be the right person to reach out to regarding Saginaw. I have the note below from discussion with others but if you could add a few details or a status update, I would very much appreciate it:



Saginaw County has a LiDAR project underway as January 2016 and once completed, the LiDAR will be incorporated into countywide the Flood Insurance Rate Map (FIRM).

Thanks very much.

To: Root, Everett (DTMB)
Subject: RE: Misc LiDAR information
Attachments: Mich_2016_LiDAR_funding.pdf

Everett, I just accepted the meeting invitation you sent. Other than the spreadsheets I sent to you, is there anything I should bring, or anything I should prepare for our meeting?

I think I sent you the wrong drawing last time regarding FEMA's Michigan LiDAR funding -- I have about ten different versions throughout the several years we've been discussing the project. ☹

The current map, attached, shows Baraga County, the three Flint River watershed counties, and the three new St. Joe River watershed counties as within FEMA's scope of work; some of them were originally planned to be funded by another agency so they are shown as "duplicate funding" counties (see Legend and note at bottom of map).

All counties in FEMA's scope of work will be flown by FEMA; agencies who originally included these counties in their grant funding plans will map other counties instead. These counties are labeled on the attached map as "duplicate FEMA & MDARD", with the symbology for both.

Linda

Good morning Linda,
The status of the USGS/MDARD counties is very much up in the air but should come to some conclusion in the next 10 days. I'll keep you posted.

We won't be able to meet today and Jessica and Michelle are unavailable.
I'm out next week so will schedule a time for the 4 of us during the week of 2/29.

Thank you and have a good weekend,

Everett Root, GISP

Everett,

Thanks for catching the missing counties on my map. These counties were covered by duplicated funding, and different colors, so when I prepared by version of the map, I just missed them. I'll send you a revised map for your use.

I don't have a final list of USGS / MDARD (which should read MiSAIL, I think?) counties -- the ones shown here where the "final preliminary" counties who applied and were likely to be awarded. They may or may not include NRCS-funded counties.

My schedule is open for the next few days if you'd like to schedule a meeting. My normal hours are 7:30 am to 4:00 pm. Please let me know what time is good for you --
Linda

Subject: RE: Misc LiDAR information

Hi Linda,
Thank you for the update.
I look forward to hearing from Ken. The sooner a decision is made on adding counties, the sooner Sanborn can start planning.

A comment on the map
~ Baraga, Osceola, Genesee, and Lapeer should be included in FEMA projects.

In regards to the invoice tracking, the values shown in our tracking spreadsheet only reflect Sanborn's task.
Because we have some inner-office tracking of the QA/QC hours (which we'll be converting to dollars), we may have a separate process to receive those funds from DEQ.

With your permission, I'd like to schedule a meeting with you and the staff here, Michelle Beckwith and Jessica Grubb (note CC) to discuss that process in detail.

Thanks again,

Everett Root, GISP

Subject: Misc LiDAR information

Everett –

1) I reviewed your cost summary info submitted February 1, 2016.

   My calculations show that for the percentages you provided, the current invoice should be $ 934,391.45, instead of $ 917,339 shown on your cost summary.

   In addition, your cost summary has to break down the costs between "Develop Topographic Data" (Sanborn's task) and "Independent QA/QC" (DTMB's task).

   I'm attaching two revised cost summary spreadsheets that include a way to break down the cost by task and county. One spreadsheet covers the two previous invoices (through the 2nd qtr 2015), and the second covers the current invoice. The revised spreadsheet also includes the scope of work under our FY15 contract.

   It's possible I've made an error in my spreadsheet – if I have, please let me know.

2) FYI, I've attached a version of our MOU that was revised in response to review comments by management. The multitude of attachments have been replaced by a list of documents in tables (along with URLs where available).

3) Finally, the following is a copy of an email I sent to Ken Hinterlong and Sarah Hayman last Wednesday regarding adding counties to our FY15 scope of work. The attachments are "MI county LiDAR status.pdf", and ""Add to scope of work.xlsx", attached. I'll let you know what I hear back.

   "Ken and Sarah -

   Everett contacted me to let me know that we will a budget excess of $171,422 due to lower unit pricing by Sanborn, applied to the remaining counties in this year's contract (those in the Muskegon River watershed). This amount could be used to obtain LiDAR elevation data for an additional 1300 square miles in Michigan, which could mean adding one or two additional counties to our current scope of work.

   There are quite a few counties being flown this year under other Federal grant programs, and also under Michigan's MiSAIL grant program. The attached pdf file is a map of Michigan counties illustrating the current status of LiDAR funding under existing grant programs. This is expected to change in the near future as all the grant programs benefit from the same lower unit pricing and add to their scope of work as well.

   I've also attached a spreadsheet with cost estimates to obtain LiDAR elevation data for the Michigan counties presently without grant funding. Ontonagon and Chippewa counties, in the UP, are too large to include with the excess funds presently available. All the remaining counties are within the available

budget; in fact, two counties (selected from those shown in bold in the spreadsheet attachment) may be completed with the funds available).

Please review the attached information and let me know your thoughts as to which counties you'd like to add to our scope. For what it's worth, the counties adjacent to those already in our scope (the Muskegon River watershed counties), including those on the Lake Michigan shoreline, might be flown concurrently, resulting in a faster data turnaround and perhaps even slightly lower unit pricing, compared to non-contiguous counties that would require separate flight planning and scheduling.

Almost all the counties on the attached list, as well as those already funded, are on the Department's "wish list" developed by our district floodplain engineers, so regardless of which counties you select, you will likely make a few of our staff very happy! ☺

Thank you for your time,

Linda"

Subject: Volunteer Opportunity in Flint

The State Emergency Operations Center (SEOC) is coordinating a response to the ongoing health and safety issues in the city of Flint's drinking water. Teams from the Michigan State Police, Genesee County Sheriff's Department, Michigan Department of Health and Human Services, and volunteer organizations have been delivering bottled water, water filters, replacement cartridges and water testing kits at homes in the city of Flint since Tuesday.

To help with this critical work, the SEOC is looking for volunteers to expand this effort and continue this distribution during the upcoming holiday weekend. Teams are being assembled for shifts on Saturday, January 16; Sunday, January 17; and Monday, January 18, 2016. If you are interested in volunteering your time for this critical work, please complete the information in one of the attached surveys (depending on which day you are volunteering).

To volunteer on Saturday, January 16, https://www.surveymonkey.com/r/28NVJBL

To volunteer on Sunday, January 17, https://www.surveymonkey.com/r/26NMJKK

To volunteer on Monday, January 18, https://www.surveymonkey.com/r/26P7P5G

Volunteers will begin their assignment at the Local Emergency Operations Center located in the Genesee County Administration Building located at 1101 Beach St, Flint at 9 a.m. and end by 4 p.m. Parking is available at the corner of Beach Street and 8th Street. Lunch will be provided. This is strictly a volunteer effort, as all three days will be unpaid. Volunteers are responsible for their own transportation; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

This opportunity is for state employees and their immediate family members 16 years of age or older only, others looking to assist should volunteer through the American Red Cross in Flint. The volunteer coordination center for the Red Cross is located at 1401 S. Grand Traverse, Flint, MI. They are open from 9 a.m. to 7 p.m.

For more information on the state's response efforts, visit www.michigan.gov/flintwater.

FOR IMMEDIATE RELEASE
January 15, 2016

Schuette to Investigate Flint Water Crisis

Investigation will determine if any Michigan laws were violated

LANSING – Michigan Attorney General Bill Schuette announced today that he will investigate the water crisis currently affecting the City of Flint. The purpose of the investigation is to determine what, if any, Michigan laws were violated in the process that resulted in the contamination crisis currently forcing Flint residents to rely on bottled water for drinking, cooking and bathing as they fear for their health.

"As attorney general, I will investigate this situation to determine if any Michigan laws have been broken," said Schuette. "Without fear or favor, I will carry out my responsibility to enforce the laws meant to protect Michigan families, and represent the citizens of Flint.

"The situation in Flint is a human tragedy in which families are struggling with even the most basic parts of daily life. While everyone acknowledges that mistakes were made, my duty as attorney general requires that I conduct this investigation.

"As a husband and father I greatly empathize with the fears of Flint parents and family members, who are rightly concerned for their health. In 21st century America, no one

should have to fear something as basic as turning on the kitchen faucet. I look forward to working with federal, state and local officials, community leaders and Flint residents as we seek answers regarding state law and hope through the process we can help restore some of the trust in our government while helping families move forward," concluded Schuette.

Schuette said that the process for moving forward with the investigation will begin immediately. While office policy generally precludes the confirmation of investigations, in this situation Schuette said that the people of Flint and throughout Michigan are rightly concerned and worried about this situation.

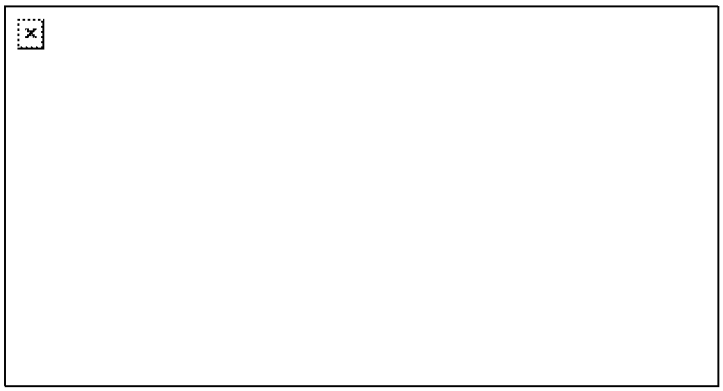
How we are fixing the Flint water crsis

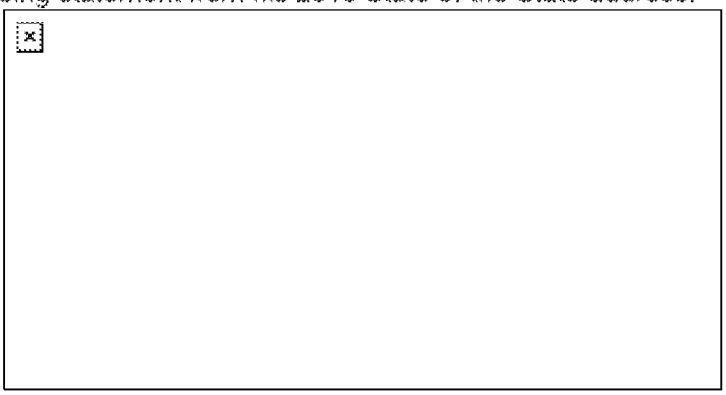
Governor Rick Snyder has committed to spending the rest of his time as Governor to fixing the Flint water crisis. Over the last few days, he has sat down to explain what happened and how we're fixing the Flint water crisis. Watch the interviews below and be sure to read the Governor's Op-Ed in the USA Today.



Governor Snyder on Morning Joe

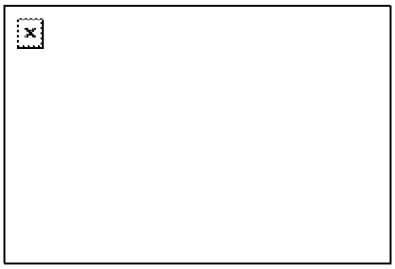
"What is so frustrating and what makes you so angry is you have a handful of experts who were career civil servants that made terrible decisions, in my view. We have to live with the consequences, and they worked for me, so I accept that responsibility. We are going to fix this problem." Watch Governor Snyder address how we are fixing the Flint water crisis on Morning Joe.

Governor Snyder with Charlie LeDuff on Fox 2 Detroit



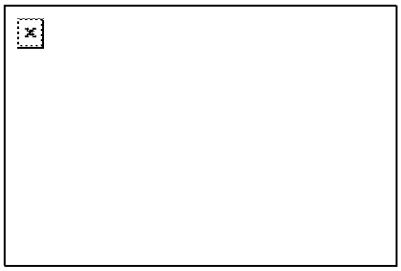
"I feel awful about this. These are people. They've been harmed. You can't feel good about that. The people of Flint have been harmed and a major influence of that harm

came from people who worked for me, and I feel responsible for that. But I am committed to solving the problem and addressing the damage as much as possible for the rest of the time I'm Governor." Watch Governor Snyder address the Flint water crisis with Charlie LeDuff on Fox 2 News.



Governor Snyder's 2016 State of the State

"Michiganders don't quit, we don't give up, instead we will work with even more passion and commitment to truly improve our state. For everyone who's chosen to make Michigan their home, this is more than a promise, this is my commitment." Watch Governor Snyder's full closing statement from his 2016 State of the State address.



Governor in USA Today: "I will fix this, and I mean it."

"Residents in one of Michigan's proud cities cannot drink their water. That's unacceptable. The crisis in Flint arose from missteps at all levels of government — local, state and federal. But as governor, I take responsibility for what these families are going through, and I'm holding people in my administration accountable for their failures." Click here to read the Governor's full op-ed.

Washington Post: "Michigan Gov. Rick Snyder is in a tough spot, but he's his own best spokesman"

Snyder has born the brunt of criticism in the local health crisis that has turned into a national scandal. But unlike many other politicians facing crises of leadership, Snyder may also be his own best counter-programming. Click here to read the full story in the Washington Post.

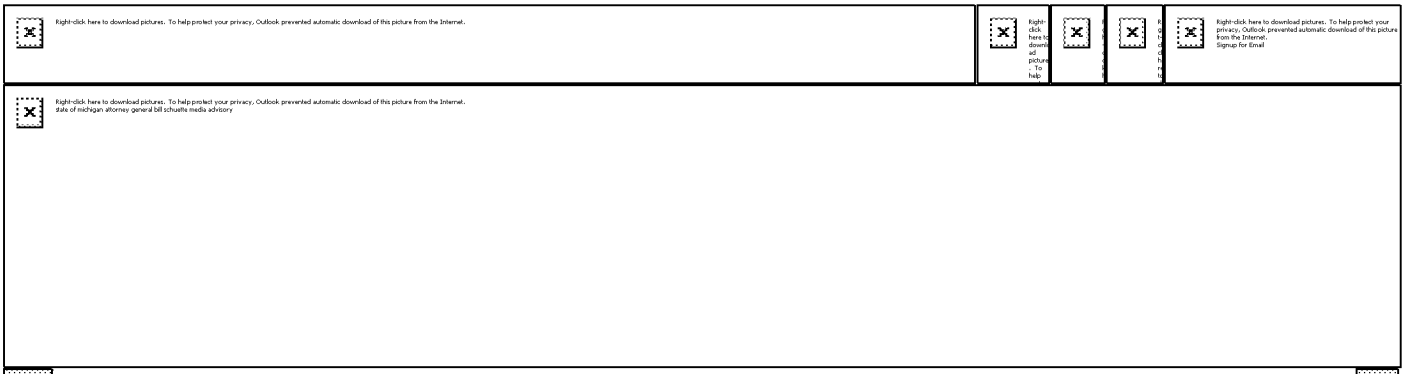
Subject: Flint Volunteer Efforts

Dear State Employees,

Gov. Rick Snyder and I want to thank everyone who donated their time during the holiday weekend to deliver bottled water, water filters, replacement cartridges and water testing kits to families in the city of Flint. We are working hard to ensure all residents are provided with the safe water resources they need, and each donation and hour of your time volunteered goes a long way.

For employees who would like to help the residents of Flint, there are several opportunities to do so. Please visit www.helpforflint.com to learn how you can help.



For additional information and updates, visit www.michigan.gov/flintwater.

Again, thank you for all your support.

Sincerely, Mike Zimmer

FOR IMMEDIATE RELEASE
January 25, 2016

Schuette Adds Special Counsel & Ex-FBI Chief to Flint Water Probe

Former prosecutor Todd Flood and retired FBI chief Andrew Arena to join Schuette as investigation continues forward

LANSING – Michigan Attorney General Bill Schuette today announced he has named former prosecutor Todd Flood as Special Counsel in his probe of the Flint water crisis and that retired Detroit FBI chief Andrew Arena will also join the investigation into whether any Michigan laws were violated in the process that created a major public health crisis for Flint residents.

Special Counsel Flood will spearhead Schuette's investigation and be joined by Arena. Both will report to Schuette.

Because the Department of Attorney General has a dual responsibility to represent the people of Michigan and defend the State of Michigan when sued, Schuette is following the decades-long practice of Michigan attorneys general by establishing an ethics-based conflict wall between him and his investigation team, and the team defending the governor and state departments against Flint water-related law suits.

"We will do our job thoroughly and let the chips fall where they may," said Schuette. "I have every confidence in Todd Flood, Andrew Arena and our team to work with me on this independent investigation. This investigation is about beginning the road back, to rebuild, regain

and restore trust in government."

"This independent investigation will be exhaustive and thorough. Without fear or favor, I will carry out my responsibility to enforce the laws and protect the families and citizens of Flint."

Flood is a former assistant prosecutor who served Michigan residents for a decade in the Wayne County Prosecutor's Office, the state's largest county and home to the City of Detroit. As a prosecutor, Flood worked in the homicide, drug house and trial units. He is now a private practice attorney based in southeastern Michigan who specializes in both civil and criminal litigation.

"Attorney General Bill Schuette is doing the right thing by conducting an investigation into this crisis of public health and public trust in their government," said Flood. "It is a privilege to have this opportunity to serve and to provide Michigan residents with an impartial answer to the question of whether any state laws were broken."

Arena was the Special Agent in Charge of the Federal Bureau of Investigation's Detroit Field Office from 2007 - 2012. Arena served the FBI in several capacities in a law enforcement career spanning more than two decades. He has led the Detroit Crime Commission, a non-profit organization aimed at reducing criminal activity, since 2012.

"I am honored to return to public service on a case so important to the public trust," said Arena. "We will enter the investigation with open eyes and follow the facts, whatever the outcome, and Flint families and Michigan families will receive a full and independent report of our investigation."

Lawsuits filed against the governor and the State of Michigan will be supervised by Chief Deputy Attorney General Carol Isaacs and Chief Legal Counsel Matthew Schneider. An example of a previous "conflict wall" case includes the Detroit bankruptcy, in which Attorney General Schuette fulfilled his responsibility as defender of Michigan citizens by protecting the pensions of City of Detroit police and firefighters, while a separate legal team in his office represented the governor and other departments of Michigan government. Many other such cases have taken place over the past 54 years during the service of Michigan's last four attorneys general.

Subject: Contributing time, muscle and money

During this month's Martin Luther King Jr. holiday weekend, some state employees turned their "day off" into a "day on" in Flint. There, they delivered bottled water, water filters, replacement cartridges and water testing kits to families. The volunteers joined other Michiganders, turning Dr. King's birthday observance into a day of service.

Mike Zimmer, director of the Office of Good Government and the Department of Licensing and Regulatory Affairs, has shared a link – www.helpforflint.com – that offers other opportunities to contribute time, muscle and money to bring clean drinking water to the community.Here in DTMB, some of our employees didn't wait for an invitation to lend a hand. Office of Retirement Services staff contributed funds that were used to buy 31 cases and 23 gallons of water, which a local organization transported to Flint.

Autumn Hubbard, Ambrea Mack and Sarah Esquivel, who are in the photo at the left, nearly emptied the shelves at their local grocery store. Thanks for your efforts.

everyone.

Now work.

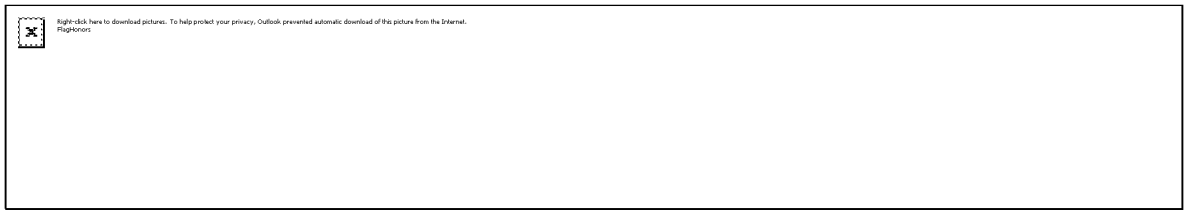
Last week, I signed a new policy that formalizes the annual employee review process and sets expectations for employees and managers. Administrative Policy 200.37 establishes consistent standards for implementing performance plans and reviews. Some of the standards are practices we have followed for years. Others are new. Some of particular note include:

- The mandatory use of HRMN
- A standard Feb. 1-Jan. 31 rating period for all employees
- An Individual Development Plan that specifies training or development programs for each employee
- Competencies and objectives that align to DTMB goals or scorecard metrics
- Consequences for managers and supervisors who do not complete the review process as required

A fundamental role of each DTMB manager or supervisor is to provide employees with direction and feedback on their performance. Employees also are expected to take an active role in pursuing professional development opportunities and achieving their competencies and objectives. I encourage you to review the new policy and talk with your manager or supervisor if you have questions. Of course, I welcome your questions and input as well. Please send your comments and ideas to me at behend@michigan.gov.

I know these have been busy weeks for many of you as you take on additional responsibilities and work hard to provide resources and services for our customers and citizens across the state. Please know that your hard work has not gone unnoticed. Thank you for everything you do, every day.

Have a great week,



David

Subject: Thank you for your service

THANK YOU!

Fellow employees,

Each day, more than 46,000 state of Michigan employees come to work with the confidence and commitment to make Michigan a better place to live, work and play. I appreciate the way you care about the citizens we serve, and how it is reflected in the work that you do.

As you have heard from me and the media, our reputation and trust can be severely impacted when people do not make good decisions, or use good judgment in solving problems. That principle is universal, but never more so than when public health is at stake. What happened in Flint can never be allowed to happen again anywhere in our state.

I know that you want to work in a place where employee input is valued, efforts are recognized, and teams are always striving for continuous improvement. That's why we introduced employee surveys, Bureaucracy Busters and other reinvention initiatives. We want and deserve a culture of innovation, continuous improvement and employee engagement at every level. We can never take for granted how important the people are who depend on us to do our jobs, and I am asking you not to let the situation in Flint negatively impact your motivation to excel every day.

Many of you have taken an interest in helping the citizens of Flint on your own time, and I'd like to take this opportunity to recognize and thank those who have volunteered over the last couple of weekends. You have worked tirelessly to deliver cases of bottled water, water filters, replacement cartridges and water testing kits to the families in need. I appreciate you donating your time to help our fellow Michiganders. To date, more than 37,000 homes have been visited by one of our water resource teams.

For employees who would like to further help the people of Flint, please visit www.HelpForFlint.com to learn how you can do so. For additional information and to sign up for daily updates, please visit www.mi.gov/FlintWater. I am committed to ensuring that all residents have access to safe and clean water.

Again, I'd like to express my gratitude for the work you do every day to continuously improve our state and earn the trust of those you serve. You make a real difference.

Thanks,

Governor Rick Snyder

JANUARY 30, 2016

Welcome to a special Saturday edition of GovTech Today, where we recap our best stories of the week — just in case you missed them. Thanks for spending a little bit of your weekend with us.

Anonymous Activates #OpFlint: According to the hacker group, OpFlint promises online attacks directed toward Michigan Gov. Rick Snyder's administration in response to the Flint water emergency, which has dominated national headlines recently. Though Vocativ.com says the video doesn't explain any specifics of Anonymous' attack plan, it does assure to those affected by the water crisis that, "We will amplify your voice where the mainstream media will surely fail you, as it has in the past." See what Michigan officials had to say about the threat.

Speed Up by Slowing Down: It's becoming increasingly difficult to stay current with emerging technologies while mitigating security vulnerabilities. So what can be done to keep up? Surprisingly, it may be best to slow down, look around and catch your breath. That's right — if you want to speed up innovation, many experts suggest slowing down first.

Emerging Tech Affects Jobs: A new study has some worrisome revelations for the future of the global job market: By 2020, more than 5 million jobs could disappear in the wake of advancing technology. And those in the public sector are not immune.

SF's Startup in Residence: Building on a program from 2014, the San Francisco Mayor's Office of Civic Innovation announced during a Jan. 28 press conference the 2016 Startup in Residence program that includes a regional partnership with the neighboring cities of Oakland, San Leandro and West Sacramento. The ultimate goal? To build toward an international program.

Most Popular

Creative Mapping: As government data collection expands, and as more of that data becomes publicly available, more people are looking to maps as a means of expressing the information. Depending on the type of application, a map can be useful for both the government and its constituents. Here are 7 ways local governments have gotten creative in mapping open data.

Editor's Choice

Civic Innovation's Next Phase: The public-sector technology market has evolved to be broader and more robust. Now known as the GovTech market, it has come into its own, emerging as a stand-alone industry composed of hundreds of startup companies even after no fewer than 23 acquisitions, and having attracted $1 billion in private capital investment. Our GovTech100 is a list of the top 100 companies focused on government customers.

FOR IMMEDIATE RELEASE
February 02, 2016

Schuette: Flint Residents Should Be Aware Of Potential Water Crisis Scams

Schuette praises the response of volunteers and charitable giving during the Flint water crisis but says families and seniors should be on the lookout for scammers

LANSING –Michigan Attorney General Bill Schuette today offered praise and thanks for the overwhelming outpouring of assistance offered to Flint residents as they deal with the hardships caused by the tragic and unthinkable contamination of their drinking water, but noted that crises like these can also create opportunities for scam artists targeting families, senior citizens and small businesses.

As a result, Schuette's Consumer Protection Division released a consumer alert to help Flint residents protect themselves, their families and neighbors by being aware of common scams attempted during crisis situations. The consumer alert offers tips on avoiding scam artists and criminals who may attempt to exploit emergency situations like the one in Flint.

"The outpouring of support and volunteerism in Flint is a reassuring sign of the warmth and compassion Michiganders have for one another, especially during a crisis, and I strongly encourage those in need to seek help," said Schuette. "But, even in these times of generosity

and need, we must be aware of the common scams that could further hurt Flint families and those attempting to assist them. That can be done with a few simple steps before taking action."

Schuette said two common scams involve charitable giving and home and business repairs. While Michigan residents and small businesses are always at risk of these scams, this crisis may draw the attention of more scam artists than usual. Schuette cautions home and small business owners to remain on guard and to be thorough in asking questions of any unannounced visitors or salespeople during the continuing water crisis.

Charitable Giving Scams

To help ensure the most of your charitable contribution is used to help Flint residents, take a minute to review the following steps:

- **Be cautious of requests for donations by unfamiliar organizations or people.**
- **Beware of unsolicited phone calls, and text and email appeals on social media sites such as Facebook and Twitter.**
- **Crowdfunding and other types of internet giving can be tools of tremendous good, but as with any type of giving it can be abused, so it's important to proceed with caution when donating online.** A Consumer alert with additional information and advice on crowdfunding is available here.
- **Continue to reach out and help Flint residents but be sure to choose established charitable organizations with a history of helping those in need. The Michigan charitable giving database can be searched at http://www.ag.state.mi.us/CharitableTrust/.**

Door-to-Door Sales and Repair Scams

While not wanting to interfere with legitimate services or visits from governmental entities to your home or business, Schuette noted that another common scam is door-to-door sales of services such as home or business repair, or scammers imitating government workers, such as inspection services seeking to gain entrance to your home or business. For example, scam artists could approach a home owner with promises of repairing plumbing or restoring clean water service to a home. To avoid falling victim to con artists, make sure to take following precautions:

- **Beware of door-to-door solicitors.** Be cautious when someone appears at your door without a previous connection to you or without you having contacted the business in question beforehand.
- **Don't make any rushed decisions.** Do your homework and check out any contractor before you pay them anything or sign any contracts. Do not feel pressured into signing any documents at your door. A legitimate business will give you time to consider a proposal.
- **Ask to see the ID of anyone who wants to enter your home or business.** It is completely appropriate to check them out by calling the governmental authority or the company they claim to represent.
- **Do not let anyone remove your water meter, and do not pay anyone for promising "alternative" water services involving your home plumbing.** Under the Flint City Code of Ordinances, unauthorized parties who tamper with city water system equipment may be guilty of a misdemeanor.

- **Check the company's complaint history** by calling the Attorney General's Consumer Protection Division (toll free) at 1-877-765-8388.

A consumer alert with additional information and advice on choosing a building contractor or company for home remodeling and repair is available here.

To File a Complaint

Complaints against a licensed builder may be filed with the Michigan Department of Licensing & Regulatory Affairs, Bureau of Commercial Services, Enforcement Division. Complaint filing instructions and complaint form available at online at: http://www.michigan.gov/lara/0,4601,7-154-35299---,00.html.

Those who suspect fraud are also encouraged to report it to the FEMA Disaster Fraud Hotline at 1-866-720-5721.

Other complaints may be filed with the Attorney General's Consumer Protection Division:

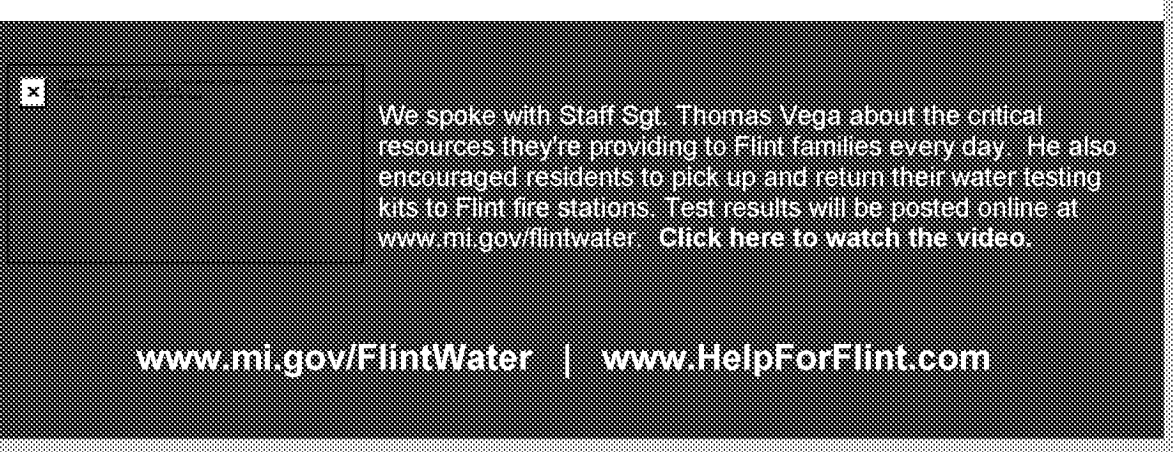
Subject: "Flint residents should not have to pay for water they cannot drink"

Budget recommendation will include $30 million request for Flint water bill repayments

When Governor Rick Snyder presents his budget recommendation next Wednesday, Feb. 10, he will include a $30 million request for the residents of Flint to keep their water service on and eliminate the need to pay for water they cannot completely trust to drink.



Under the governor's ask, the funding would enable the city of Flint to apply credits for customers on future bills. Estimates show water is roughly 47 percent of billing and sewer costs are around 53 percent. The credit would be applied to consumption usage (roughly

65 percent) of a resident's water portion of the bill, such as for bathing, drinking, cooking, and washing your hands. Residents still would be responsible for paying the sewer portion of their water bills.

Professor Marc Edwards of Virginia Tech said, "This essentially refunds all the money associated with consumption or consumer use. I think it's an amazing gesture of common sense and good will and it corrects an injustice. I don't think there's a precedent for this. I feel so encouraged by the direction this is going."

Click here to learn more about the budget request.

FOR IMMEDIATE RELEASE
February 04, 2016

Schuette Warns FlintWater.com of Potential Charitable Solicitation Violations

Attorney General credits Senator Jim Ananich for alerting his office to this latest potential scam

LANSING – As a follow up to this week's consumer alert, Michigan Attorney General Bill Schuette issued a warning to the website FlintWater.com and its owner Daniel Price, of Waterford, due to potential charitable solicitation violations. The warning addressed the website's unauthorized use of the logos of established charities and organizations. Schuette also said the website must account for all funds raised in the names of these charities.

"I would like to thank Senator Jim Ananich of Flint and the United Way for alerting me and making it possible for my office to take quick action," said Schuette.

The website displayed the logos of the United Way, Pure Michigan, Flint Water Response Team and the American Red Cross without permission from the organizations or even notifying them of use. As of this time, the logos have been taken down. But, Schuette said this is an example of what he warned consumers about earlier in the week in regarding online contributions being solely used for donors intended purposes.

While he strongly encourages financial contributions and volunteerism, including many helpful uses of crowdfunding and websites, to assist Flint residents, it is important to be sure that funds reach well establish organizations that have the ability to truly help. Donors shouldn't have to

wonder if the website they are contributing truly represents the charitable names they know and trust.

The Michigan Solicitations Act prohibits representing or implying sponsorship as well as the use of a charity's logo without permission from the charity. Violations of this law are subject to fines of up to $10,000 per violation.

"My priority is to protect Flint residents, especially while they are in a vulnerable situation through no fault of their own," said Schuette.

Charitable Giving Scams

To help ensure the most of your charitable contribution is used to help Flint residents, take a minute to review the following steps:

- **Be cautious of requests for donations by unfamiliar organizations or people.**
- **Beware of unsolicited phone calls, and text and email appeals on social media sites such as Facebook and Twitter.**

FOR IMMEDIATE RELEASE
February 8, 2016

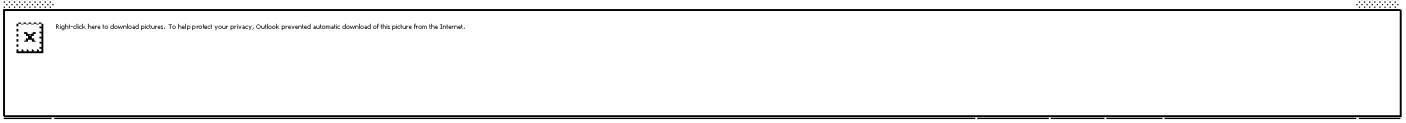
MEDIA ADVISORY

Schuette to Hold Flint Water Investigation Roundtable

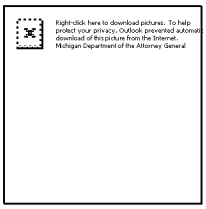
WHO: Michigan Attorney General Bill Schuette, Special Counsel Todd Flood, Chief Investigator Andy Arena, and Deputy Chief Investigator Ellis Stafford.

WHAT: Attorney General Schuette and the investigative team will provide a brief update on the investigation into the Flint water crisis.

WHEN: Tuesday, February 9, 2016 at 11:00 AM



WHERE: The Office of Attorney General Bill Schuette, 7th Floor
G. Mennen Williams Building
525 W. Ottawa St.
Lansing, MI 48909



NOTE: Only accredited members of the media who RSVP will be admitted.

BACKGROUND: Michigan Attorney General Bill Schuette announced on Monday, January 25, 2016 that former prosecutor Todd Flood will serve as Special Counsel in the probe of the Flint water crisis and that retired Michigan FBI chief Andrew Arena will investigate the water crisis currently affecting the City of Flint. The purpose of the investigation is to determine what, if any, Michigan laws were violated in the process that resulted in the contamination crisis currently forcing Flint residents to rely on bottled water for drinking, cooking and bathing as they fear for

their health.

From: DTMB Director and CIO David Behen <dtmb@govsubscriptions.michigan.gov>
Sent: Wednesday, February 17, 2016 10:10 AM
To: Root, Everett (DTMB)
Subject: The Gov. Snyder's Budget Proposal

Good morning everyone. I hope everyone had a great holiday weekend.

I had the good fortune to travel to Marquette on Monday with Chad Laidlaw, DTMB's policy and planning analyst, to meet with city, business and university leaders and to address the Economic Club of Marquette. I told them about the many things DTMB does, placing special emphasis on our work in mobility and cybersecurity. Marquette is really developing and making its mark as an innovative and entrepreneurial community.

Now work.

The executive budget Gov. Snyder presented last week outlined his investment plan for Michigan. Yes, the proposal for fiscal year 2017-18 outlined a strategy to address the critical challenges of addressing the Flint water crisis and turning around Detroit's Public Schools, but the $54.9 billion plan also includes investment in four key areas:

- **Education.** The budget increases investment to K-12 schools, community colleges and the state's public universities. Additional funds are proposed to expand career, technical, science, technology, engineering and math programs.
- **Protecting the Public.** The governor's plan expands the Secure Cities program, which has reduced violent crime in four major Michigan cities. Funds also would support an additional trooper recruit school and an academy to train corrections officers, among other initiatives.
- **Putting People First.** The governor recommends continued expansion of the Healthy Kids Dental Program and funding efforts to ensure residents have access to affordable health care. His proposal boosts funds to help cover new higher cost specialty medications to treat conditions such as hepatitis C and cystic fibrosis, among others.
- **Investing in Infrastructure.** The proposal allocates $1.2 billion to maintain and repair Michigan roads, bridges and other critical infrastructure.

The budget proposal also includes FY 2017-18 funding recommendations for DTMB. Gov. Snyder recommends ongoing funding of $1.3 billion for department operations and a one-time allocation of $32.4 million.

A few highlights include:

- $502 million for information technology support for all state agencies and $132.8 million for 14 high-priority IT projects in seven agencies. He recommends increasing the Information Technology Investment Fund by $7 million, from $65 million to $72 million. This fund supports several major multiyear IT projects and upgrades, including the replacement of outdated legacy systems.
- An additional $5 million to support cybersecurity improvements to safeguard citizens' personal information and protect critical infrastructure and government services.
- IT support of $6.5 million to modernize the Office of Retirement Services' systems and enhance customer service for more than 530,000 current and future retirees.

You can see the full executive budget recommendations, which are posted on the Budget Office website. Details of DTMB's proposed budget begin on page B-75.

We can expect to see many changes before the budgets are signed and become effective Oct. 1. The executive budget will be used by the House and Senate Appropriations Committees as they work on their own budgets and hold committee hearings on the proposals. I'll keep you posted as the process moves ahead.

As always, I welcome your notes, whether about the budget process or any other topic. Please send them to me at behend@michigan.gov.

Thank you again for all the good work you do. I hope you have a great week ahead.

David

To: Surber, Rob (DTMB)
Subject: FW: Elevation data inventory

FYI from Valdis regarding my inquiry as to the lack of response to my request for elevation data information.

He brings up many good points. Perhaps we should discuss opportunities to organize/streamline State/County relationships. The arrangement proposed with Oakland county that sets up a State data sharing agreement might be expanded. Counties deliver data to us and we handle all requests. Puts some burden on us but also adds another service to the enterprise.

From: Valdis Kalnins [mailto:VKalnins@ALLEGANCOUNTY.ORG]
Sent: Monday, February 22, 2010 10:11 AM
To: Root, Everett (MDIT); Scott Ambs
Cc: Jeroen Wagendorp
Subject: RE: Elevation data inventory

Hi Everett,

In my mind, I think it is a combination of factors, but primarily the realities faced by today's county GIS coordinators, nature of the request and the growing policy issues faced by GIS data owners. The typical county GIS coordinator gets daily/weekly requests for information from the general public, private sector, local units of government, other departments, schools, emergency service providers, non-profit organizations, other counties, planning regions, state agencies and the federal govt. There is really no buffer between a coutny GIS operation and these requests, they continue to increase as the utility of GIS data is discovered by more people, and reqests from the feds take last place in the line and to me rank somewhere with industry surveys and telemarketers.

And frankly, I think that outside of contributing funds to desired data acquisition projects, there may be a real question among county coordinators of how useful federal projects are to them. I think that without explaining how the NOAA Digital Coast website is going to benefit a county or its citizens (assuming there is some direct benefit), the typical county coordinator isn't going to give this request any attention. Rather they are going to focus their limited resources on and pursue partnerships and opportunities that have a more tangible benefit in order to justify spending time on it. Unfortunately, I don't think many of the federal projects fall into this category.

In addition, since most counties don't have the resources to maintain detailed metadata making meaningful information about data sets is somewhat difficult to share.

While I recognize that NOAA wasn't asking for actual data, the growing number of requests for free data from different levels of gov't is also an issue and I don't think counties have a good grasp of how to deal with it outside of just saying no. For example, just in the last month, some division of MDOT asked for a copy of our address points so that they could better geocode businesses in the county and build a better travel demand model. A week later, a division of the DNRE called wanting a copy of our elevation to better map out surficial geology. In december we got a call from the Regional Planning Commission wanting future land use data for a DEQ Coastal Management Study. In november, we got a call from UofM Flint wanting our parcels to map out PA116 ag lands for an MDA project.

In some cases like the PA116, there was a tangible return in that we got a relatively accurate and up-to-date copy of a county-wide PA116 layer that has some utility to local units of govt. and potential use in various planning activites. I'm not sure what the tangible benefit of an improved surficial geology layer or a Coastal Management Study would be for the county or its citizens. None of these requestors have funds to pay for any of the data, not even the cost of processing and distributing the request. We are trying to figure out from a policy perspective how we protect ourselves from becoming a free-for-all data depot while fairly distributing free data. Once you have given it to one agency, how do you justify not giving it to others? At least with the state requests, I have a perception that there will be some tangible benefit to the

citizens down the line and absent our data contribution, the state agency needs to complete the project anyway and will do it with the best available data and somewhat inferior results if that is what it comes to. Unfortunately, in most cases, it will result in increased state efficiencies that will not be translated into resumed revenue sharing to counties and local government. If you could tie those two together, then data sharing could really take off. In reality counties are maintaining GIS data for their internal needs and there is no real "cost" to sharing it outside the labor of managing the request.

One thought going forward, if agencies need/want local data, I think they must connect it to a tangible benefit to the data provider or the citizens of that community, possibly in written form. Essentially, they would almost have to spell it out in written format as if they are requesting grant funding except that they are asking for data instead of dollars. Perhaps counties need to develop a data request template to send to the requestor asking them to address all of the issues or how it is going to be used, who are the partners, recognition and local benefit much the way that grant proposals are structured. Then I, as a county coordinator at least have something with which to justify giving the data and can articulate the benefits to the county powers that be as a win-win. It would obviously be a pain in the rear for the requestor, but spending an hour or two filling out the request could save many hours in gained efficiency, if they knew with a fair degree of certainty that the data would be forthcoming. It would also help weed out fishing expeditions.

Hopefully, no one is irritated with you personally. You come accross as modest, humble and sincere so I don't know how anyone could have a beef.

Fnally, attached is the the metadata for our 1999 DEM so now you have 2!

Regards,
Valdis

Subject: Elevation data inventory

Valdis & Scott,

As County GIS professionals and leaders within the two GIS professional organizations in Michigan, I would like to get your input on a recent request I sent out via the MI-GIS Users email list and the lack of response to that request.

To give you the background on this request, NSGIC was asked by NOAA to assist in organizing a conference call with representatives of MN, WI, and MI to discuss an upcoming NOAA project to acquire topographic and bathymetric LiDAR for the Lake Superior shoreline. NOAA wanted states input on projects pending or underway that could use the collected data. In addition, they asked for help in inventorying available elevation data, either public or proprietary, for inclusion in NOAAs Digital Coast website. They aren't asking for the data, just information about the data.

Since Rob is the Michigan contact for NSGIC, he was initially contacted and Matt Warner from DNRE and I participated. Matt took on the job of providing project locations for using the data, I took on the inventory request.

I sent an initial email to the list on 2/3 with a follow-up on 2/8 and to date, I have 1 response. My request was very simple, send me your contact information and I would bundle them up and forward on to NOAA.
Now I know there is elevation data at many counties. Is the county GIS community irritated with me or the State or the Feds, or all of us? Are they just ambivalent, maybe tired of these requests for information?
I really thought that the efforts of MICAMP and IMAGIN over these many years was bridging the gap between levels of government and educating us all on the benefits of sharing and working together. Are we not as far along as I thought?

Any insights you can provide will be greatly appreciated.

Have a good weekend.

Valdis,

Thanks for the insights, I really appreciate you taking the time to detail the issues that you encounter. I had a pretty good idea the job of a county coordinator is pretty complex, but I didn't realize it was quite to this extent.

I've shared this with Rob. I believe we should discuss internally what the opportunities might be to involve ourselves in the State/County GIS data request process. We are currently working with a county to develop a single State data sharing agreement that applies to the data that the county wants to share and all State agencies that might want to use it. The agency would still go to the county to make the request and it would have to meet county approval, but we would have a copy of the data and process the request.

Thanks again, I'll let you know how/if things progress.

Have a good weekend.

Subject: RE: Elevation data inventory

Hi Everett,

In my mind, I think it is a combination of factors, but primarily the realities faced by today's county GIS coordinators, nature of the request and the growing policy issues faced by GIS data owners. The typical county GIS coordinator gets daily/weekly requests for information from the general public, private sector, local units of government, other departments, schools, emergency service providers, non-profit organizations, other counties, planning regions, state agencies and the federal govt. There is really no buffer between a coutny GIS operation and these requests, they continue to increase as the utility of GIS data is discovered by more people, and reqests from the feds take last place in the line and to me rank somewhere with industry surveys and telemarketers.

And frankly, I think that outside of contributing funds to desired data acquisition projects, there may be a real question among county coordinators of how useful federal projects are to them. I think that without explaining how the NOAA

Digital Coast website is going to benefit a county or its citizens (assuming there is some direct benefit), the typical county coordinator isn't going to give this request any attention. Rather they are going to focus their limited resources on and pursue partnerships and opportunities that have a more tangible benefit in order to justify spending time on it. Unfortunately, I don't think many of the federal projects fall into this category.

In addition, since most counties don't have the resources to maintain detailed metadata making meaningful information about data sets is somewhat difficult to share.

While I recognize that NOAA wasn't asking for actual data, the growing number of requests for free data from different levels of gov't is also an issue and I don't think counties have a good grasp of how to deal with it outside of just saying no. For example, just in the last month, some division of MDOT asked for a copy of our address points so that they could better geocode businesses in the county and build a better travel demand model. A week later, a division of the DNRE called wanting a copy of our elevation to better map out surficial geology. In december we got a call from the Regional Planning Commission wanting future land use data for a DEQ Coastal Management Study. In november, we got a call from UofM Flint wanting our parcels to map out PA116 ag lands for an MDA project.

In some cases like the PA116, there was a tangible return in that we got a relatively accurate and up-to-date copy of a county-wide PA116 layer that has some utility to local units of govt. and potential use in various planning activites. Good morning,
I plan to reach out to Ken Koleda from Genesee County (Flint) and Dan Dillinger from Tri-County planning (Lansing area) to find out their level of interest in flying in 2015. They are aware of the program and if funding is available, I'm sure they would like to know more about it to help them in their planning.
I've also already received a positive response from Eaton County MI which is west of Lansing and part of Tri-County planning and they are very interested in 2015.
We also need to discuss available funds for Grand Rapids in 2014 as they are very interested.

Charley - let me know if we need to tag team these folks via a conference call.

Appreciate the news on SEMCOG.

Best,

Ann,

Thanks for "cc-ing" me with the message (next) that SEMCOG is moving forward with plans for a 2015 imagery flight that will include Detroit and southeast Michigan. This is great news.

I will forward this on to our urban imagery contact at the National Geospatial-Intelligence Agency (Bill Nellist at NGA) in anticipation of an NGA contribution to the effort. I will also "cc" USGS ortho experts.

Please keep us informed as you are able to expand the flight beyond the SEMCOG boundary < http://www.semcog.org/WhatIsSEMCOG.aspx >
to include adjacent counties and move beyond 5,000 square miles to achieve best cost. We hope to also get Flint and Lansing urban areas in 2015, so may be able to work with Everett and with additional counties to expand on your footprint.

Best regards,
Charley

Hi All,

I got the 'ok' from my boss to move forward with a 2015 flight.

Attached is the Letter of intent that I will need to have from each partner, as well as the estimate of cost breakdown. There was an error in the last table I sent out, which when corrected, makes the County cost better!

Please modify the Letter of Intent to meet your needs.

I will schedule a meeting within the next few weeks to discuss questions & answers from Everett. Specifically we need to discuss the boundary of this flight. The current price breakdown does not take into account any extent beyond the region's boundary. There are also a few other items which may increase the cost, such as delivery in 2 different projections, etc.

I plan to reach out to adjacent counties so that we have a total of 5000 squares miles and receive the 17% discount.

Please let me know if you have any questions.

Thanks,

Ann

Sent: Thursday, January 24, 2013 3:59 PM
To: GISUSERS@LISTSERV.MICHIGAN.GOV
Subject: State of MI - new program for imagery, lidar & data as a service

Greetings to the list,
The Center for Shared Solutions (CSS) has successfully completed the RFP process for a new imagery program and has selected the Sanborn Map Co to work with us over the next several years.
This new contract will include:

* Acquisition and processing of orthophotography and LiDAR as well as a data hosting solution

* 3 years with 2 additional option years

* Partnership opportunities

If you are considering acquiring orthophotography or LiDAR in the spring of 2013, please contact me directly (roote@michigan.gov<mailto:roote@michigan.gov>, 517-373-7910) as soon as possible to discuss pricing and scheduling details.
Product specifications and pricing details will be posted to the CSS website soon

If your community has an interest in participating as a partner, or if you'd just like to learn more, there will be an excellent opportunity at the February 7th MI GIS Users meeting in Lansing.
Krysia Sapeta and Brad Arshat, Sanborn project leaders, will be here to co-present with me the details of the new program during the afternoon segment of the meeting, 1 - 3 PM.
This presentation will:

* Cover the details of the program: pricing, specs, options

* Introduce the Sanborn Map Co. and the project leaders: Krysia and Brad

* Outline the State's acquisition plan for spring 2013

* Answer questions, take comments, and discuss the opportunity for future acquisitions

Meeting and agenda details are at the CSS website:
http://www.michigan.gov/cgi/0,4548,7-158-52927_53037_12761_15235---,00.html

Again, if you plan to fly this spring, please contact me directly as soon as possible.
Any other questions, please let me know.
Hope you can join us on the 7th.

Best regards,

Everett Root

UAIP - Urban Area Imagery Partnership

[See page two at http://www.fgdc.gov/iftn/factsheet]

The USGS-National Geospatial Intelligence Agency (NGA) Urban Area Imagery Partnership (UAIP) is the foundation of the high-resolution (1' or better) program for IFTN. The project is seeking to broaden the requirements and planning process to allow for greater coordination and to potentially increase leveraging of funds and the amount of coverage of imagery data that are acquired.

(UAIP is a component of IFTN, along with NAIP.)

Cc: Harrington, Braden (MDARD);Eyde, Jennifer (MDARD);Moy, Jessica (DTMB)
Subject: RE: FEMA Contact

Good afternoon all,

Thank you Jim for the email introduction.

Some of your email addresses are familiar to me. For those of you who I've not met, I work for the State of Michigan and will be the point of contact for the FEMA Lidar acquisition. FEMA has entered into an agreement with the State to acquire Lidar under the MiSAIL (Michigan Statewide Authoritative Imagery & LiDAR) program which I manage.
We are currently under contract with the Sanborn Map Company.
For more information on MiSAIL, including the LiDAR specifications document, please visit our webpage:
http://www.michigan.gov/cgi/0,4548,7-158-52927_53037_12699_63834---,00.html

FEMA has identified 14 Michigan counties (approximately 9,000 square miles) within the Saint Joseph, Flint, and Muskegon River watersheds as their 2016 priorities. In an effort to jump start the project, we will be attempting to fly 6 of those that are within the Saint Joseph and Flint River watersheds this fall.
These are Cass, Kalamazoo, St. Joseph, Genesee, Lapeer, and Shiawassee.
This is our second project with FEMA of this nature. In 2014/2015 we were contracted to do 13 Michigan counties covering almost 11,000 square miles.

Conditions to fly LiDAR require leaf off, no snow, rivers/streams within their normal banks, reflective surfaces (roads) need to be dry, no clouds/fog between the plane and the ground.
LiDAR can be flown day or night.
If these conditions can be met, we're hopeful we can collect all 6 counties this fall. If not, areas not collected will be done in the spring.

Accurate LiDAR collection requires the collection of a large number of ground control points. Survey crews will be traversing the areas in the coming weeks to do that work. They will have a letter from this office explaining this project in case they are asked.

Once the data is acquired, it takes approximately 4-6 months for the vendor to create the deliverables. The State receives a copy and we run QA/QC processes to ensure everything is as ordered.
We then provide a copy to FEMA to meet our contractual obligations.
We also send a copy to USGS for incorporation into their system and posting to the National Map Viewer.
http://viewer.nationalmap.gov/viewer/
This is the website from which copies can be acquired by the public. The timing for this process is dependent on USGS resources and priorities, and can take several months.

As stated, flying LiDAR is dependent on several environmental conditions. I may be reaching out to you individually to find out the leaf conditions in your area. It will also be helpful to know if any flooding occurs in your community so please let me know.

We look forward to a successful completion of the project.
If I can provide any additional information, please feel free to contact me.

Best,

Subject: Geoserve Cache

Hi Everett,

As most of the ortho data (except Macomb) is now fully delivered and accepted, is it OK for us to take down Geoserve sites for the accepted datasets? The cache size is in the tens of TB… taking it off will allow us to some breathing room as we are getting ready for the new acquisition/production season. Please let us know.

Thanks

Hi Linda,
I don't think there is anything else you'll need to bring.
We just want to talk through the invoicing plan, make sure we're all on the same page, and set it up so you get the information you need in the correct format and time.

Everett

Everett, I just accepted the meeting invitation you sent. Other than the spreadsheets I sent to you, is there anything I should bring, or anything I should prepare for our meeting?

I think I sent you the wrong drawing last time regarding FEMA's Michigan LiDAR funding -- I have about ten different versions throughout the several years we've been discussing the project. ☹

The current map, attached, shows Baraga County, the three Flint River watershed counties, and the three new St. Joe River watershed counties as within FEMA's scope of work; some of them were originally planned to be funded by another agency so they are shown as "duplicate funding" counties (see Legend and note at bottom of map).

All counties in FEMA's scope of work will be flown by FEMA; agencies who originally included these counties in their grant funding plans will map other counties instead. These counties are labeled on the attached map as "duplicate FEMA & MDARD", with the symbology for both.

Good morning Linda,
The status of the USGS/MDARD counties is very much up in the air but should come to some conclusion in the next 10 days. I'll keep you posted.

We won't be able to meet today and Jessica and Michelle are unavailable.
I'm out next week so will schedule a time for the 4 of us during the week of 2/29.

Thank you and have a good weekend,

Subject: RE: Misc LiDAR information

Everett,

Thanks for catching the missing counties on my map. These counties were covered by duplicated funding, and different colors, so when I prepared by version of the map, I just missed them. I'll send you a revised map for your use.

I don't have a final list of USGS / MDARD (which should read MiSAIL, I think?) counties – the ones shown here where the "final preliminary" counties who applied and were likely to be awarded. They may or may not include NRCS-funded counties.

My schedule is open for the next few days if you'd like to schedule a meeting. My normal hours are 7:30 am to 4:00 pm. Please let me know what time is good for you –
Linda

Subject: RE: Misc LiDAR information

Hi Linda,
Thank you for the update.
I look forward to hearing from Ken. The sooner a decision is made on adding counties, the sooner Sanborn can start planning.

A comment on the map

~ Baraga, Osceola, Genesee, and Lapeer should be included in FEMA projects.

In regards to the invoice tracking, the values shown in our tracking spreadsheet only reflect Sanborn's task. Because we have some inner-office tracking of the QA/QC hours (which we'll be converting to dollars), we may have a separate process to receive those funds from DEQ.

With your permission, I'd like to schedule a meeting with you and the staff here, Michelle Beckwith and Jessica Grubb (note CC) to discuss that process in detail.

Thanks again,

Subject: Misc LiDAR information

Everett –

1) I reviewed your cost summary info submitted February 1, 2016.

   My calculations show that for the percentages you provided, the current invoice should be $ 934,391.45, instead of $ 917,339 shown on your cost summary.

   In addition, your cost summary has to break down the costs between "Develop Topographic Data" (Sanborn's task) and "Independent QA/QC" (DTMB's task).

   I'm attaching two revised cost summary spreadsheets that include a way to break down the cost by task and county. One spreadsheet covers the two previous invoices (through the 2nd qtr 2015), and the second covers the current invoice. The revised spreadsheet also includes the scope of work under our FY15 contract.

   It's possible I've made an error in my spreadsheet – if I have, please let me know.

2) FYI, I've attached a version of our MOU that was revised in response to review comments by management. The multitude of attachments have been replaced by a list of documents in tables (along with URLs where available).

3) Finally, the following is a copy of an email I sent to Ken Hinterlong and Sarah Hayman last Wednesday regarding adding counties to our FY15 scope of work. The attachments are "MI county LiDAR status.pdf", and ""Add to scope of work.xlsx", attached. I'll let you know what I hear back.

   "Ken and Sarah -

   Everett contacted me to let me know that we will a budget excess of $171,422 due to lower unit pricing by Sanborn, applied to the remaining counties in this year's contract (those in the Muskegon River

watershed). This amount could be used to obtain LiDAR elevation data for an additional 1300 square miles in Michigan, which could mean adding one or two additional counties to our current scope of work.

There are quite a few counties being flown this year under other Federal grant programs, and also under Michigan's MiSAIL grant program. The attached pdf file is a map of Michigan counties illustrating the current status of LiDAR funding under existing grant programs. This is expected to change in the near future as all the grant programs benefit from the same lower unit pricing and add to their scope of work as well.

I've also attached a spreadsheet with cost estimates to obtain LiDAR elevation data for the Michigan counties presently without grant funding. Ontonagon and Chippewa counties, in the UP, are too large to include with the excess funds presently available. All the remaining counties are within the available budget; in fact, two counties (selected from those shown in bold in the spreadsheet attachment) may be completed with the funds available).

Please review the attached information and let me know your thoughts as to which counties you'd like to add to our scope. For what it's worth, the counties adjacent to those already in our scope (the Muskegon River watershed counties), including those on the Lake Michigan shoreline, might be flown concurrently, resulting in a faster data turnaround and perhaps even slightly lower unit pricing, compared to non-contiguous counties that would require separate flight planning and scheduling.

Almost all the counties on the attached list, as well as those already funded, are on the Department's "wish list" developed by our district floodplain engineers, so regardless of which counties you select, you will likely make a few of our staff very happy! ☺

Thank you for your time,

Linda"

breakfast burritos are a no go

darnet

Orellana, Benyair (DTMB) 9:10 AM:

where you get them again?

Seckelman, Joe (DTMB) 9:10 AM:

does your place have a cafeteria shop thing

Orellana, Benyair (DTMB) 9:10 AM:

nop

Seckelman, Joe (DTMB) 9:10 AM:

well was hoping the little place in building was going to have them

Orellana, Benyair (DTMB) 9:10 AM:

we have nothing

just a kitchen

Seckelman, Joe (DTMB) 9:10 AM:

he said he would yesterday

SO he didn't

Orellana, Benyair (DTMB) 9:11 AM:

that stunks

Seckelman, Joe (DTMB) 9:11 AM:

yea

thinking he could make a killing

if gets a system for that stuffs

like a day

when its breakfast burrito day

have lines out the door

get a helper that day

Orellana, Benyair (DTMB) 9:11 AM:

is this like a food cart?

Seckelman, Joe (DTMB) 9:12 AM:

nah like a mini 7 11

Orellana, Benyair (DTMB) 9:12 AM:

ah

Seckelman, Joe (DTMB) 9:12 AM:

but space to do liike a opperation

prep bacon

potatos

eggs

Cheese for those who like it

Bam

Money makers

Orellana, Benyair (DTMB) 9:13 AM:

hmm

Seckelman, Joe (DTMB) 9:13 AM:

3-5 a pop

Orellana, Benyair (DTMB) 9:13 AM:

what do they normally have? hotdogs?

Seckelman, Joe (DTMB) 9:13 AM:

nah

nothing

some times have a lunch thing

nothign for mornings

man a vision of proper mexican food

in my head haha

haha

could use charizo

too

Orellana, Benyair (DTMB) 9:16 AM:

i got some of that at home

Seckelman, Joe (DTMB) 9:16 AM:

yea, its yummy but always gives me a tummy ache

but still yummy

Seckelman, Joe (DTMB) 9:20 AM:

how do ya all keep track of time

do ya have to use change point?

Orellana, Benyair (DTMB) 9:21 AM:

change point and state time sheets

or DCDS

Seckelman, Joe (DTMB) 9:22 AM:

Ahh heard about that program

the dcds

Orellana, Benyair (DTMB) 9:22 AM:

think it must only be for state employees

Seckelman, Joe (DTMB) 9:23 AM:

yea

i use a thing called acro

how they track contractors

and changepoint

for internal usage

Orellana, Benyair (DTMB) 9:24 AM:

intresting

Seckelman, Joe (DTMB) 9:24 AM:

meh

im ready for lunch

haha

Orellana, Benyair (DTMB) 9:24 AM:

ha

Seckelman, Joe (DTMB) 10:59 AM:

does it feel like a friday that you really don't wanna work?

Orellana, Benyair (DTMB) 11:07 AM:

i was feelin that on monday

MEH MEH

Seckelman, Joe (DTMB) 11:13 AM:

well, its friday now...

haha

im going to make a phone app

one of these weekends

Orellana, Benyair (DTMB) 11:18 AM:

u dudes have any lunch plans?

Seckelman, Joe (DTMB) 11:19 AM:

yea a contractors lunch

well teksystems is taking the people who work in this area out

to tap and thing

Orellana, Benyair (DTMB) 11:19 AM:

oh that's right

Seckelman, Joe (DTMB) 11:19 AM:

that place you were tlking about

Orellana, Benyair (DTMB) 11:19 AM:

tell Allison i said hi

Seckelman, Joe (DTMB) 11:19 AM:

I will

you ever meet her?

Orellana, Benyair (DTMB) 11:19 AM:

just over the phone

Seckelman, Joe (DTMB) 11:19 AM:

i have no idea what she looks like

yea

Orellana, Benyair (DTMB) 11:20 AM:

oh and i think i did at some career fair they had at Davenport once

when i was lookin for a jobby job

Seckelman, Joe (DTMB) 11:20 AM:

Ahh

the jobby job

Orellana, Benyair (DTMB) 11:21 AM:

dont they say that out in SoCal?

Seckelman, Joe (DTMB) 11:21 AM:

yea, i think im going to brew beer with my old jobby job boss

they say yob

haha

Orellana, Benyair (DTMB) 11:21 AM:

right, my fellow latinos

Seckelman, Joe (DTMB) 11:21 AM:

haha

just like "jaja"

Seckelman, Joe (DTMB) 11:26 AM:

kinda crazy here with the flint water stuff

having to some site stuff to get their page and docs all in order

Orellana, Benyair (DTMB) 11:26 AM:

uh yda

ya

Seckelman, Joe (DTMB) 11:27 AM:

a coworker is camped out at the emergency center for ...blah blah too

not doing much but there in case

Orellana, Benyair (DTMB) 11:27 AM:

well its a pretty big deal

Seckelman, Joe (DTMB) 11:27 AM:

not saying its not but

not sure how much the web people have to do with it

haha

not fixing the pipes or getting medical care out here

there

its also fixing pipes and setting up long term health care to mitigate the lead poisoning

anywho

just interesting how the sop is

Hey John—

Can we make it live around 1? Or early this afternoon? It won't have all of the content up yet for the pages (that stuff will be added at 7), but it would still be nice for it to be live soon to show the livestream video player.

Above or below the video player, can we also add in small bolded font: "This video is provided by the Michigan House of Representatives. It is also being broadcasted on public television."

Thanks!

Josh

Thanks, Joe!

1) Yes- I will add the pages content between 6 and 7 and then clear the body cache for that page and the three pages.
2) Thanks—we can chat tomorrow when we're ready to embed the YouTube video
3) Thanks!

So what time do you think this updated page will be able to go live today?

Subject: RE: State of the State 2016 preview

Greetings,

1:
That sounds okay. So to confirm then, the three boxes will be links to the pages content Page which you will add between 6 and 7 and then clear the body cache for that page and the three pages that it would be getting linked to.
2:
Okay that sounds good too…for the Youtube there are some things we may wanna add to made sure it looks nice on a smaller device too – similar to how Im making the feed resize nicely with the right proportions.
3:
I will add that bit of text on it as well below the boxes to indicate when the link is active and usable.

Let me know your thoughts – I will be in and out of meetings so my response time to emails maybe delayed but this is the top priority today.

Kind Regards,
Joe Seckelman

Subject: RE: State of the State 2016 preview

Hey Joe—

1) Those three links should go to new pages. All that will be on the new pages is text with a graphic at the top.
2) The key speech page will have tonight just key quotes from the Governor's speech. Tomorrow, we will be adding YouTube videos of key quotes from his speech.
3) Good idea-- aan we add something like "Click here during the Governor's speech for more information." Or something like that?

Thanks

Josh

Greetings Josh,

I am curious about a couple parts.
1: the Detroit Public School link is that meant to be this one… http://www.michigan.gov/snyder/0,4668,7-277-57577_60279-353475--,00.html if not let me know what link you are thinking of.
2: What type of content would the key speech page have on it?
3: I have a method for you to edit those content items in the boxes after 6pm and then once your ready you would clear the cache on that pages body. I would say if this is going to be the plan though – some additional text go up saying the links are not active until 7pm… or something to that effect and then when you are done and ready you can remove that little bit of text and clear the cache on the page.

Let me know your thoughts.

Kind Regards,
Joe Seckelman

Hey Joe--

If those boxes could not be links before 7 PM, that would be great. And then at 7 pm we would turn those into links, which would lead to a DPS page, Flint page, and speech summary.

Would there be a way for me to add our content though before 7 PM, so that at 7 the links would be set to go live?

Best

Josh

Greetings Josh,

Thanks for the updates. I am just getting in this morning and will start looking at the email more in depth.
I may have some quick questions about your updates.

Really quick though, the three boxes below they could not be links if you don't want them to be and then at 7pm we turn them into links? And on that thread the links those would be going to the Flint water page, DPS, and a new page that is the speech summary – does that sound right?

Let me know your thoughts. And talk to you soon.

Subject: RE: State of the State 2016 preview

Hey Joe—

Thank you for your help with this site.

It's going to be a little hectic with this site and getting it ready for tomorrow, so I want to apologize in advance if we need last minute changes.

We want the updated site live at 6 PM tomorrow.

We have new graphics for those three boxes. They're attached. The order should be 1) Flint 2) Detroit Schools 3) Key Speech Moments

For the text under those boxes:

1) Flint
a. We are committed to ensuring every Flint resident has access to clean and safe drinking water. = Click here for more information about improving the water situation in Flint.
2) Detroit schools
a. Detroit Public Schools are in need of transformational changes to ensure that our students are prepared for a successful and rewarding life. Click here for more information about fixing DPS.
3) Key speech moments
a. Click here for key moments from Governor Snyder's sixth State of the State address

When visitors click on those boxes, when it takes them to the new page, for the time being, can the new page just say "Check back here at 7 PM tonight after Governor Snyder begins his 2016 State of the State address"?

I'd like to populate our documents and information onto the site between 6 and 7 pm tomorrow, and then when the speech starts at 7 PM, we can make everything live.

Also, we will be directing people to watch the live stream at www.mi.gov/StateOfTheState. So thank you for helping us get the livestream up!

Please let me know if you have questions.

Thank you again for your help!

Josh

Subject: State of the State 2016 preview

Greetings Josh Paciorek,

My name is Joe Seckelman and new with the eMichigan Team. I have set up a Preview page for the State of the state this year with the video feed right in there.
Attached is a screen shot of the look.
Link to the page: http://www.michigan.gov/snyder/0,4668,7-277-74857_75128---,00.html

If you could test the video player from your phone that would be nice.
To note: the house.michigan.gov/htv.asp feed doesn't work with windows phones.

Let me know your thoughts.

Kind Regards,
Joe Seckelman

Hi Josh,

Can we have you guys break the file up into files that are under 10MB a piece. If we place one 38MB file on the site and a lot of people try downloading it at the same time it will bring the portal to a crawl and the file will eventually become unavailable because too many people are trying to access that one file.

If we break it up into to smaller files it will spread the load across multiple files and lessen the risk.

Thanks,
John Thompson

Hi Joe—

It's a PDF and we'd like to keep it as a PDF just because it's highly anticipated and people should be able to access it easily.

We're still waiting for a couple of pages to be added. It is on the shared drive on the network, so if you can access that, you can grab it off there. I'll let you know when it is finished. We would like it to be an asset on a statement that will be posting to the mi.gov/Snyder site shortly.

Thanks!

Josh

Greetings,
What is the file type? Ideally this would be compressed into a ZIP if possible.
Where is this currently located? On the network where we can get it? OR maybe we can bring a flash drive down to you to get it and then we can manually upload it to the CMA. This is a special case given the file size and the inability to email that size of a file and the fact that because its size we would need to manually upload this to a media server.

Let me know your thoughts.

Kind Regards,
Joe Seckelman

Hey John—

Can we make it live around 1? Or early this afternoon? It won't have all of the content up yet for the pages (that stuff will be added at 7), but it would still be nice for it to be live soon to show the livestream video player.

Above or below the video player, can we also add in small bolded font: "This video is provided by the Michigan House of Representatives. It is also being broadcasted on public television."

Thanks!

Josh

Thanks, Joe!

1) Yes- I will add the pages content between 6 and 7 and then clear the body cache for that page and the three pages.
2) Thanks—we can chat tomorrow when we're ready to embed the YouTube video
3) Thanks!

So what time do you think this updated page will be able to go live today?

Greetings,

1:
That sounds okay. So to confirm then, the three boxes will be links to the pages content Page which you will add between 6 and 7 and then clear the body cache for that page and the three pages that it would be getting linked to.
2:
Okay that sounds good too…for the Youtube there are some things we may wanna add to made sure it looks nice on a smaller device too – similar to how Im making the feed resize nicely with the right proportions.
3:
I will add that bit of text on it as well below the boxes to indicate when the link is active and usable.

Let me know your thoughts – I will be in and out of meetings so my response time to emails maybe delayed but this is the top priority today.

Kind Regards,
Joe Seckelman

Hey Joe—

1) Those three links should go to new pages. All that will be on the new pages is text with a graphic at the top.
2) The key speech page will have tonight just key quotes from the Governor's speech. Tomorrow, we will be adding YouTube videos of key quotes from his speech.
3) Good idea-- aan we add something like "Click here during the Governor's speech for more information." Or something like that?

Thanks

Josh

Greetings Josh,

I am curious about a couple parts.
1: the Detroit Public School link is that meant to be this one… http://www.michigan.gov/snyder/0,4668,7-277-57577_60279-353475--,00.html if not let me know what link you are thinking of.
2: What type of content would the key speech page have on it?
3: I have a method for you to edit those content items in the boxes after 6pm and then once your ready you would clear the cache on that pages body. I would say if this is going to be the plan though – some additional text go up saying the links are not active until 7pm… or something to that effect and then when you are done and ready you can remove that little bit of text and clear the cache on the page.

Let me know your thoughts.

Hey Joe--

If those boxes could not be links before 7 PM, that would be great. And then at 7 pm we would turn those into links, which would lead to a DPS page, Flint page, and speech summary.

Would there be a way for me to add our content though before 7 PM, so that at 7 the links would be set to go live?

Best

Josh

Greetings Josh,

Thanks for the updates. I am just getting in this morning and will start looking at the email more in depth.
I may have some quick questions about your updates.

Really quick though, the three boxes below they could not be links if you don't want them to be and then at 7pm we turn them into links? And on that thread the links those would be going to the Flint water page, DPS, and a new page that is the speech summary – does that sound right?

Let me know your thoughts. And talk to you soon.

Subject: Volunteer Opportunity in Flint

The State Emergency Operations Center (SEOC) is coordinating a response to the ongoing health and safety issues in the city of Flint's drinking water. Teams from the Michigan State Police, Genesee County Sheriff's Department, Michigan Department of Health and Human Services, and volunteer organizations have been delivering bottled water, water filters, replacement cartridges and water testing kits at homes in the city of Flint since Tuesday.

To help with this critical work, the SEOC is looking for volunteers to expand this effort and continue this distribution during the upcoming holiday weekend. Teams are being assembled for shifts on Saturday, January 16; Sunday, January 17; and Monday, January 18, 2016. If you are interested in volunteering your time for this critical work, please complete the information in one of the attached surveys (depending on which day you are volunteering).

To volunteer on Saturday, January 16, https://www.surveymonkey.com/r/28NVJBL

To volunteer on Sunday, January 17, https://www.surveymonkey.com/r/26NMJKK

To volunteer on Monday, January 18, https://www.surveymonkey.com/r/26P7P5G

Volunteers will begin their assignment at the Local Emergency Operations Center located in the Genesee County Administration Building located at 1101 Beach St, Flint at 9 a.m. and end by 4 p.m. Parking is available at the corner of Beach Street and 8th Street. Lunch will be provided. This is strictly a volunteer effort, as all three days will be unpaid. Volunteers are responsible for their own transportation; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

This opportunity is for state employees and their immediate family members 16 years of age or older only, others looking to assist should volunteer through the American Red Cross in Flint. The volunteer coordination center for the Red Cross is located at 1401 S. Grand Traverse, Flint, MI. They are open from 9 a.m. to 7 p.m.

For more information on the state's response efforts, visit www.michigan.gov/flintwater.

Subject: Flint Volunteer Efforts

Dear State Employees,

Gov. Rick Snyder and I want to thank everyone who donated their time during the holiday weekend to deliver bottled water, water filters, replacement cartridges and water testing kits to families in the city of Flint. We are working hard to ensure all residents are provided with the safe water resources they need, and each donation and hour of your time volunteered goes a long way.

For employees who would like to help the residents of Flint, there are several opportunities to do so. Please visit www.helpforflint.com to learn how you can help.

For additional information and updates, visit www.michigan.gov/flintwater.

Again, thank you for all your support.

Sincerely, Mike Zimmer
Office of Good Government Director
Dept. of Licensing and Regulatory Affairs Director

Greetings Josh,

Thanks for the updates. I am just getting in this morning and will start looking at the email more in depth.
I may have some quick questions about your updates.

Really quick though, the three boxes below they could not be links if you don't want them to be and then at 7pm we turn them into links? And on that thread the links those would be going to the Flint water page, DPS, and a new page that is the speech summary -- does that sound right?

Let me know your thoughts. And talk to you soon.

Kind Regards,
Joe Seckelman

Hey Joe—

Thank you for your help with this site.

It's going to be a little hectic with this site and getting it ready for tomorrow, so I want to apologize in advance if we need last minute changes.

We want the updated site live at 6 PM tomorrow.

We have new graphics for those three boxes. They're attached. The order should be 1) Flint 2) Detroit Schools 3) Key Speech Moments

For the text under those boxes:

1) Flint
    a. We are committed to ensuring every Flint resident has access to clean and safe drinking water. = Click here for more information about improving the water situation in Flint.
2) Detroit schools
    a. Detroit Public Schools are in need of transformational changes to ensure that our students are prepared for a successful and rewarding life. Click here for more information about fixing DPS.
3) Key speech moments
    a. Click here for key moments from Governor Snyder's sixth State of the State address

When visitors click on those boxes, when it takes them to the new page, for the time being, can the new page just say "Check back here at 7 PM tonight after Governor Snyder begins his 2016 State of the State address"?

I'd like to populate our documents and information onto the site between 6 and 7 pm tomorrow, and then when the speech starts at 7 PM, we can make everything live.

Also, we will be directing people to watch the live stream at www.mi.gov/StateOfTheState. So thank you for helping us get the livestream up!

Please let me know if you have questions.

Thank you again for your help!

Josh

Greetings,

I am new to the eMichigan Team, so let me explore the best route to make that possible during those two points of time for you to add content and data to the summary page.
I will get back to you shortly about the details to accomplish that.

I am finishing the text and image changes currently.

Kind Regards,
Joe Seckelman

Greetings Josh,

I am curious about a couple parts.
1: the Detroit Public School link is that meant to be this one... http://www.michigan.gov/snyder/0,4668,7-277-57577_60279-353475--,00.html if not let me know what link you are thinking of.
2: What type of content would the key speech page have on it?
3: I have a method for you to edit those content items in the boxes after 6pm and then once your ready you would clear the cache on that pages body. I would say if this is going to be the plan though – some additional text go up saying the links are not active until 7pm... or something to that effect and then when you are done and ready you can remove that little bit of text and clear the cache on the page.

Let me know your thoughts.

Kind Regards,
Joe Seckelman

Subject: RE: State of the State 2016 preview

Greetings,

1:
That sounds okay. So to confirm then, the three boxes will be links to the pages content Page which you will add between 6 and 7 and then clear the body cache for that page and the three pages that it would be getting linked to.
2:
Okay that sounds good too...for the Youtube there are some things we may wanna add to made sure it looks nice on a smaller device too -- similar to how Im making the feed resize nicely with the right proportions.
3:
I will add that bit of text on it as well below the boxes to indicate when the link is active and usable.

Let me know your thoughts -- I will be in and out of meetings so my response time to emails maybe delayed but this is the top priority today.

Kind Regards,
Joe Seckelman

Hey Joe----

1) Those three links should go to new pages. All that will be on the new pages is text with a graphic at the top.
2) The key speech page will have tonight just key quotes from the Governor's speech. Tomorrow, we will be adding YouTube videos of key quotes from his speech.
3) Good idea-- aan we add something like "Click here during the Governor's speech for more information." Or something like that?

Thanks

Josh

Subject: RE: State of the State 2016 preview

Greetings Josh,

That shouldn't be a problem. I am working on some of those changes and going to move the Previiew/dev elements to the live page and when they are all in place I'll clear the cache on that page so that the page is live.

Would you like me to send you a quick email before I do the move and push it live so it can get a final proof? We will naturally be testing it out here to ensure the feed and such look good as well.

Let me know your thoughts.

Kind Regards,
Joe Seckelman

Hey John----

Can we make it live around 1? Or early this afternoon? It won't have all of the content up yet for the pages (that stuff will be added at 7), but it would still be nice for it to be live soon to show the livestream video player.

Above or below the video player, can we also add in small bolded font: "**This video is provided by the Michigan House of Representatives. It is also being broadcasted on public television.**"

Thanks!

Josh

Thanks, Joe!

1) Yes- I will add the pages content between 6 and 7 and then clear the body cache for that page and the three pages.
2) Thanks---we can chat tomorrow when we're ready to embed the YouTube video
3) Thanks!

So what time do you think this updated page will be able to go live today?

Greetings,

1:
That sounds okay. So to confirm then, the three boxes will be links to the pages content Page which you will add between 6 and 7 and then clear the body cache for that page and the three pages that it would be getting linked to.
2:
Okay that sounds good too...for the Youtube there are some things we may wanna add to made sure it looks nice on a smaller device too – similar to how Im making the feed resize nicely with the right proportions.
3:
I will add that bit of text on it as well below the boxes to indicate when the link is active and usable.

Let me know your thoughts – I will be in and out of meetings so my response time to emails maybe delayed but this is the top priority today.

Kind Regards,
Joe Seckelman

Subject: RE: State of the State 2016 preview

Hey Joe---

1) Those three links should go to new pages. All that will be on the new pages is text with a graphic at the top.
2) The key speech page will have tonight just key quotes from the Governor's speech. Tomorrow, we will be adding YouTube videos of key quotes from his speech.

3) Good idea-- aan we add something like "Click here during the Governor's speech for more information." Or something like that?

Thanks

Josh

Greetings Josh,

I am curious about a couple parts.
1: the Detroit Public School link is that meant to be this one... http://www.michigan.gov/snyder/0,4668,7-277-57577_60279-353475--,00.html if not let me know what link you are thinking of.
2: What type of content would the key speech page have on it?
3: I have a method for you to edit those content items in the boxes after 6pm and then once your ready you would clear the cache on that pages body. I would say if this is going to be the plan though -- some additional text go up saying the links are not active until 7pm... or something to that effect and then when you are done and ready you can remove that little bit of text and clear the cache on the page.

Let me know your thoughts.

Kind Regards,
Joe Seckelman

Hey Joe--

If those boxes could not be links before 7 PM, that would be great. And then at 7 pm we would turn those into links, which would lead to a DPS page, Flint page, and speech summary.

Would there be a way for me to add our content though before 7 PM, so that at 7 the links would be set to go live?

Best

Josh

We want the updated site live at 6 PM tomorrow.

We have new graphics for those three boxes. They're attached. The order should be 1) Flint 2) Detroit Schools 3) Key Speech Moments

For the text under those boxes:

1) Flint
    a. We are committed to ensuring every Flint resident has access to clean and safe drinking water. = Click here for more information about improving the water situation in Flint.
2) Detroit schools
    a. Detroit Public Schools are in need of transformational changes to ensure that our students are prepared for a successful and rewarding life. Click here for more information about fixing DPS.
3) Key speech moments
    a. Click here for key moments from Governor Snyder's sixth State of the State address

When visitors click on those boxes, when it takes them to the new page, for the time being, can the new page just say "Check back here at 7 PM tonight after Governor Snyder begins his 2016 State of the State address"?

I'd like to populate our documents and information onto the site between 6 and 7 pm tomorrow, and then when the speech starts at 7 PM, we can make everything live.

Also, we will be directing people to watch the live stream at www.mi.gov/StateOfTheState. So thank you for helping us get the livestream up!

Please let me know if you have questions.

Thank you again for your help!

Josh

Subject: State of the State 2016 preview

Greetings Josh Paciorek,

My name is Joe Seckelman and new with the eMichigan Team. I have set up a Preview page for the State of the state this year with the video feed right in there.
Attached is a screen shot of the look.
Link to the page: http://www.michigan.gov/snyder/0,4668,7-277-74857_75128---,00.html

If you could test the video player from your phone that would be nice.
To note: the house.michigan.gov/htv.asp feed doesn't work with windows phones.

Let me know your thoughts.

Kind Regards,
Joe Seckelman

Hey John—

Can we make it live around 1? Or early this afternoon? It won't have all of the content up yet for the pages (that stuff will be added at 7), but it would still be nice for it to be live soon to show the livestream video player.

Above or below the video player, can we also add in small bolded font: "**This video is provided by the Michigan House of Representatives. It is also being broadcasted on public television.**"

Thanks!

Josh

Greetings Josh,

I am curious about a couple parts.
1: the Detroit Public School link is that meant to be this one... http://www.michigan.gov/snyder/0,4668,7-277-57577_60279-353475--,00.html if not let me know what link you are thinking of.
2: What type of content would the key speech page have on it?
3: I have a method for you to edit those content items in the boxes after 6pm and then once your ready you would clear the cache on that pages body. I would say if this is going to be the plan though -- some additional text go up saying the links are not active until 7pm... or something to that effect and then when you are done and ready you can remove that little bit of text and clear the cache on the page.

Let me know your thoughts.

Kind Regards,
Joe Seckelman

Really quick though, the three boxes below they could not be links if you don't want them to be and then at 7pm we turn them into links? And on that thread the links those would be going to the Flint water page, DPS, and a new page that is the speech summary -- does that sound right?

Let me know your thoughts. And talk to you soon.

Kind Regards,
Joe Seckelman

Hey Joe---

Thank you for your help with this site.

It's going to be a little hectic with this site and getting it ready for tomorrow, so I want to apologize in advance if we need last minute changes.

We want the updated site live at 6 PM tomorrow.

We have new graphics for those three boxes. They're attached. The order should be 1) Flint 2) Detroit Schools 3) Key Speech Moments

For the text under those boxes:

1) Flint
    a. We are committed to ensuring every Flint resident has access to clean and safe drinking water. = Click here for more information about improving the water situation in Flint.
2) Detroit schools
    a. Detroit Public Schools are in need of transformational changes to ensure that our students are prepared for a successful and rewarding life. Click here for more information about fixing DPS.
3) Key speech moments
    a. Click here for key moments from Governor Snyder's sixth State of the State address

When visitors click on those boxes, when it takes them to the new page, for the time being, can the new page just say "Check back here at 7 PM tonight after Governor Snyder begins his 2016 State of the State address"?

I'd like to populate our documents and information onto the site between 6 and 7 pm tomorrow, and then when the speech starts at 7 PM, we can make everything live.

Also, we will be directing people to watch the live stream at www.mi.gov/StateOfTheState. So thank you for helping us get the livestream up!

Please let me know if you have questions.

Thank you again for your help!

Josh

Greetings Josh Paciorek,

My name is Joe Seckelman and new with the eMichigan Team. I have set up a Preview page for the State of the state this year with the video feed right in there.
Attached is a screen shot of the look.
Link to the page: http://www.michigan.gov/snyder/0,4668,7-277-74857_75128---,00.html

If you could test the video player from your phone that would be nice.
To note: the house.michigan.gov/htv.asp feed doesn't work with windows phones.

Let me know your thoughts.

Kind Regards,
Joe Seckelman

Thanks, Joe!

1) Yes- I will add the pages content between 6 and 7 and then clear the body cache for that page and the three pages.
2) Thanks— we can chat tomorrow when we're ready to embed the YouTube video
3) Thanks!

So what time do you think this updated page will be able to go live today?

Subject: RE: State of the State 2016 preview

Greetings,

1:
That sounds okay. So to confirm then, the three boxes will be links to the pages content Page which you will add between 6 and 7 and then clear the body cache for that page and the three pages that it would be getting linked to.
2:
Okay that sounds good too…for the Youtube there are some things we may wanna add to made sure it looks nice on a smaller device too – similar to how Im making the feed resize nicely with the right proportions.
3:
I will add that bit of text on it as well below the boxes to indicate when the link is active and usable.

Let me know your thoughts – I will be in and out of meetings so my response time to emails maybe delayed but this is the top priority today.

Kind Regards,
Joe Seckelman

Hey Joe—

1) Those three links should go to new pages. All that will be on the new pages is text with a graphic at the top.
2) The key speech page will have tonight just key quotes from the Governor's speech. Tomorrow, we will be adding YouTube videos of key quotes from his speech.
3) Good idea— aan we add something like "Click here during the Governor's speech for more information." Or something like that?

Thanks

Josh

Greetings Josh,

I am not sure how comfortable you are with editing the content but those blocks are set up so that you can add content to the Main body of them and the image will become a link to the page.

I cc'd rick so you have his email handy. On that note – I think you are able to edit the content without an issue and then clear the body cache for that page once it looks as you would like. I f you are in w3.mi.gov mode you would be able to readily take care of that.

With that said – Rick is on call and would be ready and able to help you out.

Let me know if you have any questions or want to run through some aspects ahead of time to go over some questions or concerns.

Kind Regards,
Joe Seckelman

Thanks, Joe!

1) Yes- I will add the pages content between 6 and 7 and then clear the body cache for that page and the three pages.
2) Thanks—we can chat tomorrow when we're ready to embed the YouTube video
3) Thanks!

So what time do you think this updated page will be able to go live today?

Subject: RE: State of the State 2016 preview

Greetings,

1:

That sounds okay. So to confirm then, the three boxes will be links to the pages content Page which you will add between 6 and 7 and then clear the body cache for that page and the three pages that it would be getting linked to.
2:
Okay that sounds good too...for the Youtube there are some things we may wanna add to made sure it looks nice on a smaller device too -- similar to how Im making the feed resize nicely with the right proportions.
3:
I will add that bit of text on it as well below the boxes to indicate when the link is active and usable.

Let me know your thoughts -- I will be in and out of meetings so my response time to emails maybe delayed but this is the top priority today.

Kind Regards,
Joe Seckelman

Subject: RE: State of the State 2016 preview

Hey Joe----

1) Those three links should go to new pages. All that will be on the new pages is text with a graphic at the top.
2) The key speech page will have tonight just key quotes from the Governor's speech. Tomorrow, we will be adding YouTube videos of key quotes from his speech.
3) Good idea--- aan we add something like "Click here during the Governor's speech for more information." Or something like that?

Thanks

Josh

Greetings Josh,

I am curious about a couple parts.
1: the Detroit Public School link is that meant to be this one...
http://www.michigan.gov/snyder/0,4668,7-277-57577_60279-353475--,00.html if not let me know what link you are thinking of.
2: What type of content would the key speech page have on it?
3: I have a method for you to edit those content items in the boxes after 6pm and then once your ready you would clear the cache on that pages body. I would say if this is going to be the plan though -- some additional text go up saying the links are not active until 7pm... or something to that effect and then when you are done and ready you can remove that little bit of text and clear the cache on the page.

Let me know your thoughts.

Kind Regards,
Joe Seckelman

Greetings Josh,

Thanks for the updates. I am just getting in this morning and will start looking at the email more in depth.
I may have some quick questions about your updates.

Really quick though, the three boxes below they could not be links if you don't want them to be and then at 7pm we turn them into links? And on that thread the links those would be going to the Flint water page, DPS, and a new page that is the speech summary – does that sound right?

Let me know your thoughts. And talk to you soon.

Kind Regards,
Joe Seckelman

Hey Joe—

Thank you for your help with this site.

It's going to be a little hectic with this site and getting it ready for tomorrow, so I want to apologize in advance if we need last minute changes.

We want the updated site live at 6 PM tomorrow.

We have new graphics for those three boxes. They're attached. The order should be 1) Flint 2) Detroit Schools 3) Key Speech Moments

For the text under those boxes:

1) Flint
    a. We are committed to ensuring every Flint resident has access to clean and safe drinking water. = Click here for more information about improving the water situation in Flint.
2) Detroit schools
    a. Detroit Public Schools are in need of transformational changes to ensure that our students are prepared for a successful and rewarding life. Click here for more information about fixing DPS.

3) Key speech moments
    a. Click here for key moments from Governor Snyder's sixth State of the State address

When visitors click on those boxes, when it takes them to the new page, for the time being, can the new page just say "Check back here at 7 PM tonight after Governor Snyder begins his 2016 State of the State address"?

I'd like to populate our documents and information onto the site between 6 and 7 pm tomorrow, and then when the speech starts at 7 PM, we can make everything live.

Also, we will be directing people to watch the live stream at www.mi.gov/StateOfTheState. So thank you for helping us get the livestream up!

Please let me know if you have questions.

Thank you again for your help!

Josh

Greetings Josh Paciorek,

My name is Joe Seckelman and new with the eMichigan Team. I have set up a Preview page for the State of the state this year with the video feed right in there.
Attached is a screen shot of the look.
Link to the page: http://www.michigan.gov/snyder/0,4668,7-277-74857_75128---,00.html

If you could test the video player from your phone that would be nice.
To note: the house.michigan.gov/htv.asp feed doesn't work with windows phones.

Let me know your thoughts.

Kind Regards,
Joe Seckelman

Greetings,

What is the file type? Ideally this would be compressed into a ZIP if possible.
Where is this currently located? On the network where we can get it? OR maybe we can bring a flash drive down to you to get it and then we can manually upload it to the CMA. This is a special case given the file size and the inability to email that size of a file and the fact that because its size we would need to manually upload this to a media server.

Let me know your thoughts.

Kind Regards,
Joe Seckelman

Subject: RE: State of the State 2016 preview

Greetings,

1:
That sounds okay. So to confirm then, the three boxes will be links to the pages content Page which you will add between 6 and 7 and then clear the body cache for that page and the three pages that it would be getting linked to.
2:
Okay that sounds good too…for the Youtube there are some things we may wanna add to made sure it looks nice on a smaller device too – similar to how Im making the feed resize nicely with the right proportions.
3:
I will add that bit of text on it as well below the boxes to indicate when the link is active and usable.

Let me know your thoughts – I will be in and out of meetings so my response time to emails maybe delayed but this is the top priority today.

Kind Regards,
Joe Seckelman

Subject: RE: State of the State 2016 preview

Hey Joe----

1) Those three links should go to new pages. All that will be on the new pages is text with a graphic at the top.
2) The key speech page will have tonight just key quotes from the Governor's speech. Tomorrow, we will be adding YouTube videos of key quotes from his speech.
3) Good idea-- aan we add something like "Click here during the Governor's speech for more information." Or something like that?

Thanks

Josh

Subject: RE: State of the State 2016 preview

Greetings Josh,

I am curious about a couple parts.
1: the Detroit Public School link is that meant to be this one… http://www.michigan.gov/snyder/0,4668,7-277-57577_60279-353475--,00.html if not let me know what link you are thinking of.
2: What type of content would the key speech page have on it?
3: I have a method for you to edit those content items in the boxes after 6pm and then once your ready you would clear the cache on that pages body. I would say if this is going to be the plan though – some additional text go up saying the links are not active until 7pm… or something to that effect and then when you are done and ready you can remove that little bit of text and clear the cache on the page.

Let me know your thoughts.

Kind Regards,
Joe Seckelman

that thread the links those would be going to the Flint water page, DPS, and a new page that is the speech summary -- does that sound right?

Let me know your thoughts. And talk to you soon.

Subject: RE: State of the State 2016 preview

Hey Joe---

Thank you for your help with this site.

It's going to be a little hectic with this site and getting it ready for tomorrow, so I want to apologize in advance if we need last minute changes.

We want the updated site live at 6 PM tomorrow.

We have new graphics for those three boxes. They're attached. The order should be 1) Flint 2) Detroit Schools 3) Key Speech Moments

For the text under those boxes:

1) Flint
    a. We are committed to ensuring every Flint resident has access to clean and safe drinking water. = Click here for more information about improving the water situation in Flint.
2) Detroit schools
    a. Detroit Public Schools are in need of transformational changes to ensure that our students are prepared for a successful and rewarding life. Click here for more information about fixing DPS.
3) Key speech moments
    a. Click here for key moments from Governor Snyder's sixth State of the State address

When visitors click on those boxes, when it takes them to the new page, for the time being, can the new page just say "Check back here at 7 PM tonight after Governor Snyder begins his 2016 State of the State address"?

I'd like to populate our documents and information onto the site between 6 and 7 pm tomorrow, and then when the speech starts at 7 PM, we can make everything live.

Also, we will be directing people to watch the live stream at www.mi.gov/StateOfTheState. So thank you for helping us get the livestream up!

Please let me know if you have questions.

Thank you again for your help!

Josh

Subject: State of the State 2016 preview

Greetings Josh Paciorek,

My name is Joe Seckelman and new with the eMichigan Team. I have set up a Preview page for the State of the state this year with the video feed right in there.
Attached is a screen shot of the look.
Link to the page: http://www.michigan.gov/snyder/0,4668,7-277-74857_75128---,00.html

If you could test the video player from your phone that would be nice.
To note: the house.michigan.gov/hiv.asp feed doesn't work with windows phones.

Let me know your thoughts.

Kind Regards,
Joe Seckelman

Hi Joe—

It's a PDF and we'd like to keep it as a PDF just because it's highly anticipated and people should be able to access it easily.

We're still waiting for a couple of pages to be added. It is on the shared drive on the network, so if you can access that, you can grab it off there. I'll let you know when it is finished. We would like it to be an asset on a statement that will be posting to the mi.gov/Snyder site shortly.

Thanks!

Josh

Greetings,

What is the file type? Ideally this would be compressed into a ZIP if possible.

Where is this currently located? On the network where we can get it? OR maybe we can bring a flash drive down to you to get it and then we can manually upload it to the CMA. This is a special case given the file size and the inability to email that size of a file and the fact that because its size we would need to manually upload this to a media server.

Let me know your thoughts.

Kind Regards,
Joe Seckelman

Hey Joe--

If those boxes could not be links before 7 PM, that would be great. And then at 7 pm we would turn those into links, which would lead to a DPS page, Flint page, and speech summary.

Would there be a way for me to add our content though before 7 PM, so that at 7 the links would be set to go live?

Best

Josh

> Thank you for your help with this site.

It's going to be a little hectic with this site and getting it ready for tomorrow, so I want to apologize in advance if we need last minute changes.

We want the updated site live at 6 PM tomorrow.

We have new graphics for those three boxes. They're attached. The order should be 1) Flint 2) Detroit Schools 3) Key Speech Moments

For the text under those boxes:

1) Flint
    a. We are committed to ensuring every Flint resident has access to clean and safe drinking water. = Click here for more information about improving the water situation in Flint.
2) Detroit schools
    a. Detroit Public Schools are in need of transformational changes to ensure that our students are prepared for a successful and rewarding life. Click here for more information about fixing DPS.
3) Key speech moments
    a. Click here for key moments from Governor Snyder's sixth State of the State address

When visitors click on those boxes, when it takes them to the new page, for the time being, can the new page just say "Check back here at 7 PM tonight after Governor Snyder begins his 2016 State of the State address"?

I'd like to populate our documents and information onto the site between 6 and 7 pm tomorrow, and then when the speech starts at 7 PM, we can make everything live.

Also, we will be directing people to watch the live stream at www.mi.gov/StateOfTheState. So thank you for helping us get the livestream up!

Please let me know if you have questions.

Thank you again for your help!

Josh

Subject: State of the State 2016 preview

Greetings Josh Paciorek,

My name is Joe Seckelman and new with the eMichigan Team. I have set up a Preview page for the State of the state this year with the video feed right in there.
Attached is a screen shot of the look.
Link to the page: http://www.michigan.gov/snyder/0,4668,7-277-74857_75128---,00.html

If you could test the video player from your phone that would be nice.
To note: the house.michigan.gov/htv.asp feed doesn't work with windows phones.

Let me know your thoughts.

Kind Regards,
Joe Seckelman

Subject: RE: State of the State 2016 preview

Hi Josh,

Can we have you guys break the file up into files that are under 10MB a piece. If we place one 38MB file on the site and a lot of people try downloading it at the same time it will bring the portal to a crawl and the file will eventually become unavailable because too many people are trying to access that one file.

If we break it up into to smaller files it will spread the load across multiple files and lessen the risk.

Thanks,
John Thompson

Hi Joe—

It's a PDF and we'd like to keep it as a PDF just because it's highly anticipated and people should be able to access it easily.

We're still waiting for a couple of pages to be added. It is on the shared drive on the network, so if you can access that, you can grab it off there. I'll let you know when it is finished. We would like it to be an asset on a statement that will be posting to the mi.gov/Snyder site shortly.

Thanks!

Josh

Subject: RE: State of the State 2016 preview

Greetings,

What is the file type? Ideally this would be compressed into a ZIP if possible.
Where is this currently located? On the network where we can get it? OR maybe we can bring a flash drive down to you to get it and then we can manually upload it to the CMA. This is a special case given the file size and the inability to email that size of a file and the fact that because its size we would need to manually upload this to a media server.

Let me know your thoughts.

Kind Regards,
Joe Seckelman

Looks great, Joe!

For the text under "State of the State," can you change it to be:

"At 7 PM on January 19, 2016, Governor Snyder will deliver his sixth State of the State address. Watch the speech live here as the Governor addresses how—together-- Michigan can solve its most significant challenges.

Join the conversation online using the hashtag #MISOTS16."

Then I'm good with making it Live. Thank you!

Subject: RE: State of the State 2016 preview

Hey John—

Can we make it live around 1? Or early this afternoon? It won't have all of the content up yet for the pages (that stuff will be added at 7), but it would still be nice for it to be live soon to show the livestream video player.

Above or below the video player, can we also add in small bolded font: **"This video is provided by the Michigan House of Representatives. It is also being broadcasted on public television."**

Thanks!

Josh

Subject: State of the State 2016 preview

Greetings Josh Paciorek,

My name is Joe Seckelman and new with the eMichigan Team. I have set up a Preview page for the State of the state this year with the video feed right in there.
Attached is a screen shot of the look.
Link to the page: http://www.michigan.gov/snyder/0,4668,7-277-74857_75128---,00.html

If you could test the video player from your phone that would be nice.
To note: the house.michigan.gov/hiv.asp feed doesn't work with windows phones.

Let me know your thoughts.

Kind Regards,
Joe Seckelman

Roy,

We have John Lance John Patterson and Kevin Moe driving trucks up in Flint. Here in the garage we had Pat Miller, Steve Kline, Dan McCarthy, Brian Coffman, Mike Reeves, Bob Rupert, Scott Martin, Todd Kunze, Cletus Dahl, Scott Numeric, Brent Thompson, and Gary Shaw got 13 minivans ready to go to Flint. Cletus Dahl drove one of the minivans up to Flint. Mike Wonn coordinated getting large trucks and minivans ready and up to Flint and also getting some repairs done and one truck swapped out at the rental company to keep them running while up in Flint.

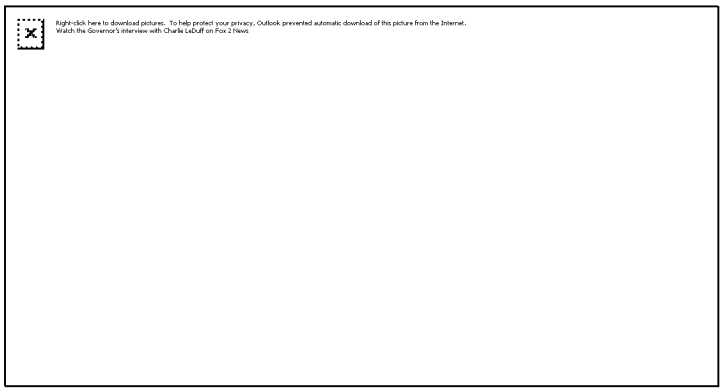
How we are fixing the Flint water crsis

Governor Rick Snyder has committed to spending the rest of his time as Governor to fixing the Flint water crisis. Over the last few days, he has sat down to explain what happened and how we're fixing the Flint water crisis. Watch the interviews below and be sure to read the Governor's Op-Ed in the USA Today.

Governor Snyder on Morning Joe

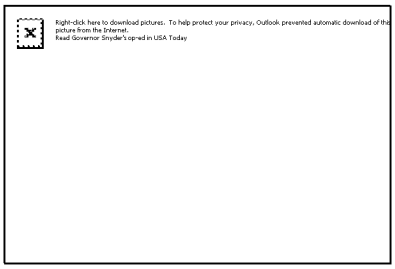


"What is so frustrating and what makes you so angry is you have a handful of experts who were career civil servants that made terrible decisions, in my view. We have to live with the consequences, and they worked for me, so I accept that responsibility. We are going to fix this problem." Watch Governor Snyder address how we are fixing the Flint water crisis on Morning Joe.

Governor Snyder with Charlie LeDuff on Fox 2 Detroit

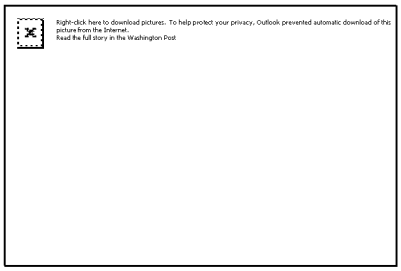
"I feel awful about this. These are people. They've been harmed. You can't feel good about that. The people of Flint have been harmed and a major influence of that harm

came from people who worked for me, and I feel responsible for that. But I am committed to solving the problem and addressing the damage as much as possible for the rest of the time I'm Governor." Watch Governor Snyder address the Flint water crisis with Charlie LeDuff on Fox 2 News.



Governor Snyder's 2016 State of the State

"Michiganders don't quit, we don't give up, instead we will work with even more passion and commitment to truly improve our state. For everyone who's chosen to make Michigan their home, this is more than a promise, this is my commitment." Watch Governor Snyder's full closing statement from his 2016 State of the State address.



Governor in USA Today: "I will fix this, and I mean it."

"Residents in one of Michigan's proud cities cannot drink their water. That's unacceptable. The crisis in Flint arose from missteps at all levels of government — local, state and federal. But as governor, I take responsibility for what these families are going through, and I'm holding people in my administration accountable for their failures." Click here to read the Governor's full op-ed.

Washington Post: "Michigan Gov. Rick Snyder is in a tough spot, but he's his own best spokesman"

Snyder has born the brunt of criticism in the local health crisis that has turned into a national scandal. But unlike many other politicians facing crises of leadership, Snyder may also be his own best counter-programming. Click here to read the full story in the Washington Post.

Subject: Thank you for your service

THANK YOU!

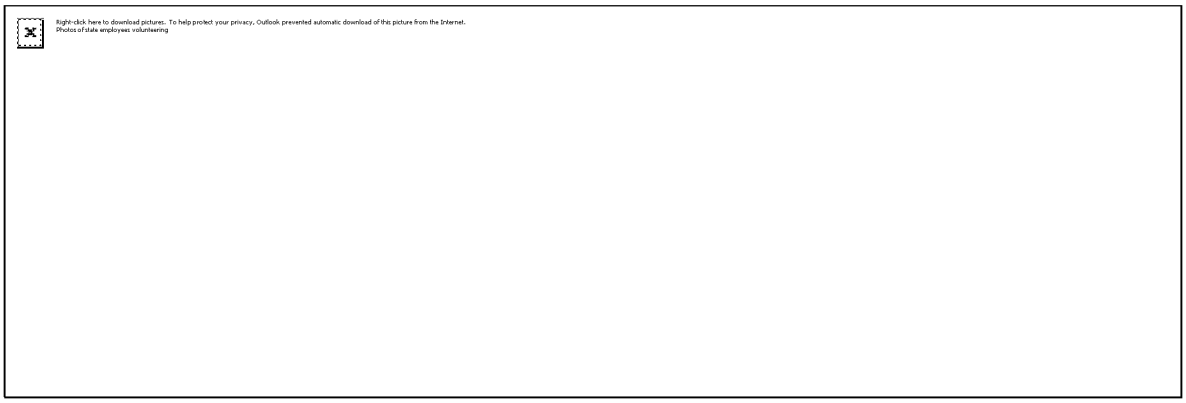
Fellow employees,

Each day, more than 46,000 state of Michigan employees come to work with the confidence and commitment to make Michigan a better place to live, work and play. I appreciate the way you care about the citizens we serve, and how it is reflected in the work that you do.

As you have heard from me and the media, our reputation and trust can be severely impacted when people do not make good decisions, or use good judgment in solving problems. That principle is universal, but never more so than when public health is at stake. What happened in Flint can never be allowed to happen again anywhere in our state.

I know that you want to work in a place where employee input is valued, efforts are recognized, and teams are always striving for continuous improvement. That's why we introduced employee surveys, Bureaucracy Busters and other reinvention initiatives. We want and deserve a culture of innovation, continuous improvement and employee engagement at every level. We can never take for granted how important the people are who depend on us to do our jobs, and I am asking you not to let the situation in Flint negatively impact your motivation to excel every day.

Many of you have taken an interest in helping the citizens of Flint on your own time, and I'd like to take this opportunity to recognize and thank those who have volunteered over the last couple of weekends. You have worked tirelessly to deliver cases of bottled water, water filters, replacement cartridges and water testing kits to the families in need. I appreciate you donating your time to help our fellow Michiganders. To date, more than 37,000 homes have been visited by one of our water resource teams.



For employees who would like to further help the people of Flint, please visit www.HelpForFlint.com to learn how you can do so. For additional information and to sign up for daily updates, please visit www.mi.gov/FlintWater. I am committed to ensuring that all residents have access to safe and clean water.

Again, I'd like to express my gratitude for the work you do every day to continuously improve our state and earn the trust of those you serve. You make a real difference.

Thanks,

Governor Rick Snyder

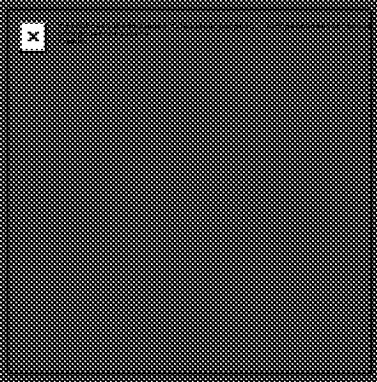
VIDEO: What Governor Snyder's FY17 budget means for Michigan

Gov. Rick Snyder's FY 2017 budget calls for critical investments for the Flint water crisis, statewide infrastructure and the Detroit Public Schools. The governor's recommendation also addresses the skyrocketing costs of specialty medications that Michigan residents depend on for better health outcomes.



This budget also stays committed to the Governor's core statewide priorities of education, talent and economic development, health and human services, and public safety.

The proposed FY 2017 budget makes key investments to strengthen the state for all of

Michigan's families. Click here to learn more about the top 6 takeaways from the Governor's FY 2017 state budget.

Click a tweet to tweet it out:

The #MIBudget @OneToughNerd proposed yesterday makes key investments to strengthen Michigan for all families --> www.mi.gov/MIBudget

--> @OneToughNerd's #MIBudget includes $72 million a year for Detroit Public Schools. It is time to act now -- > www.mi.gov/MIBudget

From: DTMB Director and CIO David Behen <dtmb@govsubscriptions.michigan.gov>
Sent: Wednesday, February 17, 2016 10:10 AM
To: Shaw, Gary (DTMB)
Subject: The Gov. Snyder's Budget Proposal

Good morning everyone. I hope everyone had a great holiday weekend.

I had the good fortune to travel to Marquette on Monday with Chad Laidlaw, DTMB's policy and planning analyst, to meet with city, business and university leaders and to address the Economic Club of Marquette. I told them about the many things DTMB does, placing special emphasis on our work in mobility and cybersecurity. Marquette is really developing and making its mark as an innovative and entrepreneurial community.

Now work.

The executive budget Gov. Snyder presented last week outlined his investment plan for Michigan. Yes, the proposal for fiscal year 2017-18 outlined a strategy to address the critical challenges of addressing the Flint water crisis and turning around Detroit's Public Schools, but the $54.9 billion plan also includes investment in four key areas:

- **Education.** The budget increases investment to K-12 schools, community colleges and the state's public universities. Additional funds are proposed to expand career, technical, science, technology, engineering and math programs.
- **Protecting the Public.** The governor's plan expands the Secure Cities program, which has reduced violent crime in four major Michigan cities. Funds also would support an additional trooper recruit school and an academy to train corrections officers, among other initiatives.
- **Putting People First.** The governor recommends continued expansion of the Healthy Kids Dental Program and funding efforts to ensure residents have access to affordable health care. His proposal boosts funds to help cover new higher cost specialty medications to treat conditions such as hepatitis C and cystic fibrosis, among others.
- **Investing in Infrastructure.** The proposal allocates $1.2 billion to maintain and repair Michigan roads, bridges and other critical infrastructure.

The budget proposal also includes FY 2017-18 funding recommendations for DTMB. Gov. Snyder recommends ongoing funding of $1.3 billion for department operations and a one-time allocation of $32.4 million.

A few highlights include:

- $502 million for information technology support for all state agencies and $132.8 million for 14 high-priority IT projects in seven agencies. He recommends increasing the Information Technology Investment Fund by $7 million, from $65 million to $72 million. This fund supports several major multiyear IT projects and upgrades, including the replacement of outdated legacy systems.
- An additional $5 million to support cybersecurity improvements to safeguard citizens' personal information and protect critical infrastructure and government services.
- IT support of $6.5 million to modernize the Office of Retirement Services' systems and enhance customer service for more than 530,000 current and future retirees.

You can see the full executive budget recommendations, which are posted on the Budget Office website. Details of DTMB's proposed budget begin on page B-75.

We can expect to see many changes before the budgets are signed and become effective Oct. 1. The executive budget will be used by the House and Senate Appropriations Committees as they work on their own budgets and hold committee hearings on the proposals. I'll keep you posted as the process moves ahead.

As always, I welcome your notes, whether about the budget process or any other topic. Please send them to me at behend@michigan.gov.

Thank you again for all the good work you do. I hope you have a great week ahead.

David

Delivery Services

- Revenue – January FY 2016: $191,216 on 174 work orders
- Revenue from move jobs – January FY16: $36,084

OSS Steps Up to Assist in Flint Water Crisis

- Printing Services staff have printed over 1.2 million palm cards and 1 million water testing forms, in English, Spanish and Arabic. These jobs were all quick turnaround – sometimes a matter of hours! Staff stepped up to the challenge! Special thanks to **Mark Miller, Todd Martin, Arnie Castillo, Brad Schumann, Shay Cooper, Tina Luna, Scott Barclay, Dan Chipman, Tom Cooley and William Banks** for going above and beyond in providing excellent customer service!

- The Federal Surplus Property Program received help from the National Association of State Agencies for Surplus Property (NASAP) obtaining bottled water from the South Carolina Surplus Program. South Carolina had an entire warehouse full of bottled water that was left over from a flooding emergency. With the help of Scott Pepperman, of NASASP, MISASP was able to arrange shipping for the water to be delivered to Flint and distributed throughout the city. Approximately 175,000 bottles (92 pallets) of water were successfully delivered to Flint to assist with the water crisis.

- Employees from the Delivery Services Team have been working tirelessly helping out with the Flint Water Crisis since Jan. 9, 2016. They have done a fantastic job and it has been greatly appreciated. Please join me in thanking **Brent Thelen, Jim Thomas, Jeff Bailey, Sam Putmon, Sean Dennison, Brian Cardwell and Steven Kesson**.

- Beginning Jan. 13, VTS Garage employees **John Lance, Kevin Moe and John Patterson** have worked many hours, seven days a week, while putting their family and VTS duties second, assisting with water delivery efforts in Flint. Their primary mission has been to transport pallets of bottled water from a central warehouse to various fire departments. We thank them for their efforts along with their dedication to helping the people of Flint.

Great Examples of Teamwork!

Records Management Services

- DHHS is moving its employees who are currently working in the Capitol View building to the building that MSP is moving out of. The Senate will be moving into Capitol View, and MSP is moving out to the Secondary Complex. DHHS hired a consultant to coordinate the move, and the consultant contacted RMS for help with records management issues. RMS was asked to provide training to the affected employees. RMS taught 4 classes, and 84 people registered to attend the classes. The classes addressed how to identify records that need to be kept, Retention and Disposal Schedules, storage issues, and tips for moving.
- Records Management Services held meetings with local offices in Wayne County from the Department of Health and Human Services to discuss the transition from Iron Mountain to Royal Oak Storage for the storage of its boxes of closed case files. 74 boxes from the Western Wayne County office are scheduled to be picked up and delivered to Royal Oak Storage on February 5, which marks the first boxes sent to the new storage vendor. Approximately 95,000 boxes will be moved from Iron Mountain to Royal Oak.

Records Manager Projects (formerly TRIM)

- The Department of State Human Resources office, already a Records Manager customer, intends to expand its use to its Labor Relations section, using the same configuration already in use by Department of Health & Human Services Labor Relations section. Records Management Services (RMS) will host a meeting with multiple HR offices using Records Manager to go over the labor relations configuration and establish a standardized configuration for use by any HR Labor Relations section.
- The Michigan Department of Transportation (MDOT) signed a charter to use Records Manager for its Human Resources office, leveraging the standardized structure made available through previous HR projects with DHS, MDOS, DTMB, and Quality of Life (DEQ/DNR/MDARD). A training has been scheduled for February 22, 2016, to give the implementation team hands on experience with generic records as part of the standardized structure.

Delivery Services Thanked

- 1/28/2016

  Just wanted to say thank you. The crew was extremely nice, polite and waited patiently to be told where to put file cabinets. They also, didn't get full use of the dock at the Grand Tower because of the semi they had to use. So they had more work than usual moving items from the truck to their destination.

  Just thought I'd pass this along, thank you!

  Michelle Holloway, Project Manager, Bureau of Organizational Services

MDHHS
Michigan Department of Health & Human Services

New Staff

The ID Mail area welcomed another new employee to their team on Jan. 4, 2016. Colleen Rupert has taken the position of Motor Vehicle Operator 6 (MVO6). Please welcome Colleen to our team.

Are You Reviewing Your Old Email?

The implementation of the DTMB policy on Email Management has been postponed until March 13, 2016, in order to give staff more time to properly file their email records.

Mailing Services

- Logistics & Operations Support (LOS) is currently working with Michigan Department of State (MDOS) on updating the Service Level Agreement (SLA) for the renewal by mail program. Copies of the current SLA have been shared with MDOS and the re-write process will soon begin.
- Mailing Services presented to the IT Assets servicing Treasury regarding the sunset of Optical Mark Recognition (OMR) technology used to match multi page document sets for mailing letters. LOS is working on identifying all Treasury applications using OMR and statistical data outlining the benefits of using a higher integrity code to minimize data breaches in the mailing process.
- A joint project has been started to link all Michigan Department of Health and Human Services (MDHHS) Business Reply Mail (BRM) accounts to DTMB's United States Postal Services (USPS) Central Account Processing System (CAPS) to centralize all service payments and cost monitoring. Mailing Services currently has linked 42 BRM accounts for MDHHS. Linking the remaining offices will simplify the process by making direct payments to the postal service for individual account activity. Locally managed accounts will benefit by not having to maintain a fund balance with the serving post office, ensuring mail will not be held for the lack of funds, and eliminate the need for local self-monitoring of fund balances statewide. Mailing Services has enlisted the help of the Postal Service to link the remaining identified MDHHS accounts into DTMB's CAPS system.
- Mailing and Financial Services met with the Sigma development group to finalize the design of the MS Order System. Clarification of content, updates of Sigma department coding, contact personnel on the order system, and user direction have been updated for the Sigma designer to be placed in the system.
- LOS is progressing with the EFI/PACE/Storefront implementation. Discussions related to non-state mailing account coding are under advisement with financial services. The reason being, the current coding of non-state accounts are not compatible with EFI/PACE requirements. Financial Services is reviewing the code changes requested for PACE to ensure these will not adversely affect the current billing data base process.
- In line with Executive direction, Mailing Services conducted Action Plan Update meetings with all of our staff. An advance copy of the current Action Plan was provided to each employee so as to gather input regarding updates they may have to offer to the current plan. During the sessions with staff, an in-depth review of current actions and expected outcomes were discussed so staff could help in identifying gaps that can be measured in the new plan.
- Mailing Services has established a rate committee to identify and accurately define service rates with DTMB Financial Services. The committee meetings, now scheduled bi-monthly, have been invaluable in bringing understanding to the process and gathering data to accurately determine service rates going forward. Outcomes for the meetings include; accurately identifying and placing costs, building an annual rate setting worksheet, assigning responsibilities to provide accurate data, monitor and provide a mailing trend analysis and cost projection reviews as a committee.
-

Thank You Notes

- *To: Tom Goodine*

  Thanks Tom. You are always Mr. Dependable, and pretty darn fast too.

  Deanna Anderson, MSHDA

- *To: Mike Armstrong*

  Thank you for the update as well as your hard work and promptness with this project! It's greatly appreciated!

  Autumn Spitzley, Graphic Arts Designer, DNR Wildlife

- *To: Tom Goodine & Shelly Millimaki*

  Thanks, Tom. I almost CC to you and thank you Shelly for forwarding the message. I will let my LAW person know. Thank you both for your help!

  Jennifer Sochor, DNR

Vehicle and Travel Services

- VTS consultants met with GM Fleet Account Executive Connie Scarpelli and GM Sales Support and Police Vehicle Specialist Todd Little to discuss the delay of the Impala Limited and Chevrolet truck issues. The production of the fleet Impala Limited was delayed from Dec. 10 through Jan. 14 with final vehicle orders being excepted through mid-January.
- Staff from the VTS Garage and Canfield Equipment worked together in an effort to save costs on beacons and hood signs for MSP vehicles. Canfield Equipment picked up a large quantity of used beacons and hood signs from VTS that have been removed from retired MSP vehicles. These used beacons and hood signs will be reconditioned and reused on new MSP vehicles. MSP is not required to purchase all new parts for their patrol vehicles, and recycling these items saves money.
- A number of VTS staff attended the 2016 North American International Auto Show held at the Cobo Center in Detroit. This is an opportunity to preview the new model vehicles on display and talk with company representatives about current and future product offerings. Vince Reynolds and Ronda Greko also had the opportunity to attend the "Pre-Show" Product Preview" and talk one-on-one with Ford and Chrysler Representatives along with Company Executives, Engineers and Designers.
- GPS Telematics Update: VTS Consultants working with their Telematics Vendors and participating departments continue to meet and discuss reporting options, what works and what doesn't, and any issues that come up. Vince Reynolds attended a high level meeting with MDARD Deputy Director, Division Directors, Supervisors, and Managers who met with GPSInsight Representatives. GPSInsight demonstrated the overall capabilities and limitations of the system. They also showed some of the reporting functions. This presentation was scheduled to determine what educational opportunities might be used with the pilot participants. The presentation was received very highly by the MDARD staff and online, follow-up sessions were scheduled for the following week so that the attendees could observe the system function in real time.
- VTS Garage staff loaded a cube truck full of surplus plastics and delivered to Louis Padnos for recycling.

Printing Services in High Gear

- January was a huge "tax" month for Printing Services.
    - Completed development and printing of the annual DTMB OFM 1099 statement. There were a total of 58,521 images printed.
    - Completed development and printing of the annual DTMB OFM W2 statement. There were a total of 61,208 images printed.
    - Completed development and printing of the annual MDHHS W2 statement. There were a total of 64,118 images printed.
    - CPC successfully completed the MDHHS CHAMPS 1095B printing project. There were a total of 279 print files, each file consisting of 40,000 images. The entire project resulted in 11,160,000 printed images.
    - Completed development and printing of the annual MSHDA 1099 statement. There were a total of 11,052 images printed.
    - Completed development and printing of the annual MSHDA 1099G statement. There were a total of 682 images printed.
    - Completed development and printing of the annual ORS 1099 statement. There were a total of 286,576 images printed.
- Printing Services completed a rush project for Treasury in less than 4 hours! Treasury contacted us with a request to print 70 copies of a document on light green paper. The order was received at 4:00 p.m. but the specifications were much different! The quantity was still 70, but the paper and bindery requirements had changed. Despite the changes, the job was still able to be completed and delivered before noon! Great teamwork by Printing Services staff to meet our customer needs!
- The Pace implementation is on-going. EFI will be on-site the week of Feb.1, to implement the Fiery Central (which will allow our Xerox printers to communicate with Pace) and the update to our online ordering system.
- Printing Services completed the quarterly Voya printing. The statements consisted of over 1.1 million images. In addition, newsletters, seminar schedules and performance numbers were produced as well. This quarter's printing also included the MPSERS Pension Plus and DC statements and inserts, which are completed twice a year.
- CPC finalized our responses to the findings from the August IRS Safeguarding Audit. The outstanding issue with Xerox on a security patch for the IRS overlay on the Nuvera controllers has been resolved. Printing Services is now 100% compliant.
- Printing services was contacted by DTMB Building Operations who were need of an emergency sign for their GOB construction site. Electrical inspectors had threatened to shut down their construction if an electrical sign wasn't installed. **Molly Perry** was able to produce a sign for them within a few hours, which allowed Building Operations to continue to work! Great job, Molly!

Printing Services Now in Con Hall

- DTMB Office of Performance Management graciously allowed Printing Services consultants to occupy a vacant office in their area in Constitution Hall. We moved into that space on Jan. 20. It is on the 1st floor of Constitution Hall in the northwest tower.

Warehouse Services

- The on-going project to move Depot Logistics into the General Services Building is still on track to hit our April timeline. In January, we began preparing the building for the move by making some adjustments to racking, cleared an area where Printing Services will have a new rack installed, and cleared some racking at the current Depot location that will be brought over to GSB.

- The next phase of work will include having a vendor move some racking from Depot to GSB, as well as constructing cubicles, setting up data and power lines, and final configurations of the Depot layout.

Appreciation to Printing Services

MICHIGAN DEPARTMENT OF
DTMB TECHNOLOGY, MANAGEMENT AND BUDGET

HELP. CONNECT. SOLVE.

Next week, DTMB employees are invited to an open house to learn more about the hard work the Data Center Operations team does on a daily basis. Join fellow employees on Wednesday, Feb. 17, from 11:00 a.m. to 2:00 p.m. at the Secretary of State Building, 7064 Crowner Drive, State Secondary Complex. A self-guided tour will give you the opportunity to speak with data center staff and learn about:

- Data Center Operations Facilities
- Disaster Recovery
- Enterprise Monitoring
- Enterprise Platforms
- Imaging and Scheduling
- Michigan Configuration Management Data Base (MiCMDB)
- Service Management
- Tape Library

Please bring your State of Michigan ID and your Driver's License or another picture ID to check in with data

center security.

Subject: Volunteer Opportunity in Flint

The State Emergency Operations Center (SEOC) is coordinating a response to the ongoing health and safety issues in the city of Flint's drinking water. Teams from the Michigan State Police, Genesee County Sheriff's Department, Michigan Department of Health and Human Services, and volunteer organizations have been delivering bottled water, water filters, replacement cartridges and water testing kits at homes in the city of Flint since Tuesday.

To help with this critical work, the SEOC is looking for volunteers to expand this effort and continue this distribution during the upcoming holiday weekend. Teams are being assembled for shifts on Saturday, January 16; Sunday, January 17; and Monday, January 18, 2016. If you are interested in volunteering your time for this critical work, please complete the information in one of the attached surveys (depending on which day you are volunteering).

To volunteer on Saturday, January 16, https://www.surveymonkey.com/r/28NVJBL

To volunteer on Sunday, January 17, https://www.surveymonkey.com/r/26NMJKK

To volunteer on Monday, January 18, https://www.surveymonkey.com/r/26P7P5G

Volunteers will begin their assignment at the Local Emergency Operations Center located in the Genesee County Administration Building located at 1101 Beach St, Flint at 9 a.m. and end by 4 p.m. Parking is available at the corner of Beach Street and 8th Street. Lunch will be provided. This is strictly a volunteer effort, as all three days will be unpaid. Volunteers are responsible for their own transportation; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

This opportunity is for state employees and their immediate family members 16 years of age or older only, others looking to assist should volunteer through the American Red Cross in Flint. The volunteer coordination center for the Red Cross is located at 1401 S. Grand Traverse, Flint, MI. They are open from 9 a.m. to 7 p.m.

For more information on the state's response efforts, visit www.michigan.gov/flintwater.

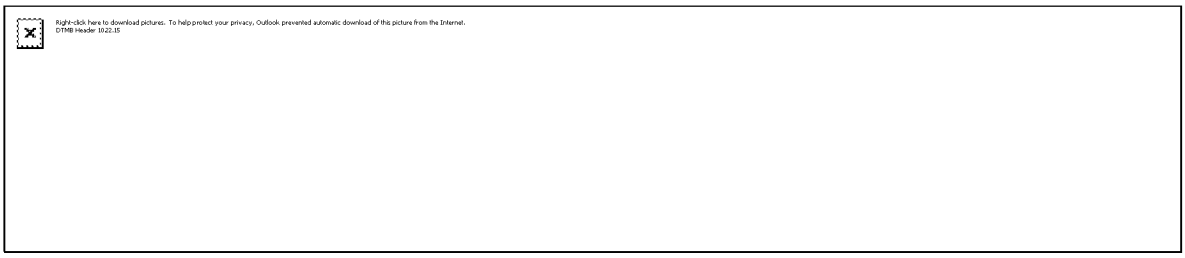
Subject: Flint Volunteer Efforts

Dear State Employees,

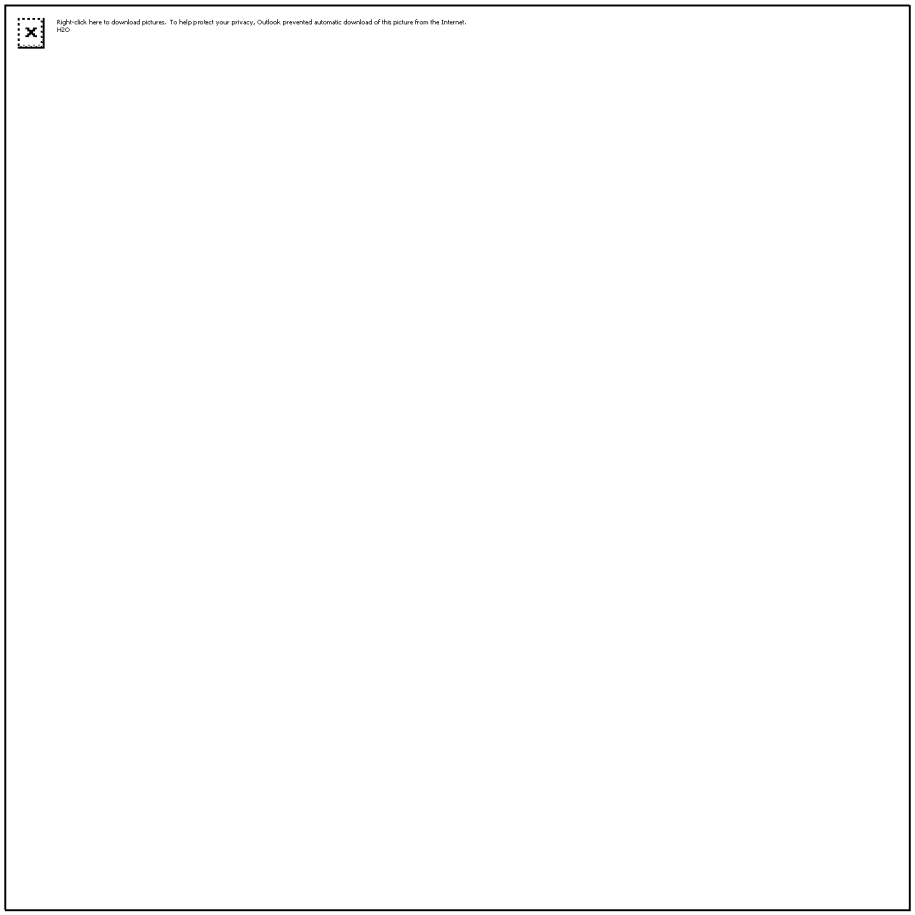
Gov. Rick Snyder and I want to thank everyone who donated their time during the holiday weekend to deliver bottled water, water filters, replacement cartridges and water testing kits to families in the city of Flint. We are working hard to ensure all residents are provided with the safe water resources they need, and each donation and hour of your time volunteered goes a long way.

For employees who would like to help the residents of Flint, there are several opportunities to do so. Please visit www.helpforflint.com to learn how you can help.



For additional information and updates, visit www.michigan.gov/flintwater.

Again, thank you for all your support.



Sincerely, Mike Zimmer
Office of Good Government Director

Sent: Tuesday, January 26, 2016 8:39 AM
To: Shaw, Gary (DTMB)
Subject: Contributing time, muscle and money

During this month's Martin Luther King Jr. holiday weekend, some state employees turned their "day off" into a "day on" in Flint. There, they delivered bottled water, water filters, replacement cartridges and water testing kits to families. The volunteers joined other Michiganders, turning Dr. King's birthday observance into a day of service.

Mike Zimmer, director of the Office of Good Government and the Department of Licensing and Regulatory Affairs, has shared a link – www.helpforflint.com – that offers other opportunities to contribute time, muscle and money to bring clean drinking water to the community.Here in DTMB, some of our employees didn't wait for an invitation to lend a hand. Office of Retirement Services staff contributed funds that were used to buy 31 cases and 23 gallons of water, which a local organization transported to Flint.

Autumn Hubbard, Ambrea Mack and Sarah Esquivel, who are in the photo at the left, nearly emptied the shelves at their local grocery store. Thanks for your efforts.

everyone.

Now work.

Last week, I signed a new policy that formalizes the annual employee review process and sets expectations for employees and managers. Administrative Policy 200.37 establishes consistent standards for implementing performance plans and reviews. Some of the standards are practices we have followed for years. Others are new. Some of particular note include:

- The mandatory use of HRMN
- A standard Feb. 1-Jan. 31 rating period for all employees
- An Individual Development Plan that specifies training or development programs for each employee
- Competencies and objectives that align to DTMB goals or scorecard metrics
- Consequences for managers and supervisors who do not complete the review process as required

A fundamental role of each DTMB manager or supervisor is to provide employees with direction and feedback on their performance. Employees also are expected to take an active role in pursuing professional development opportunities and achieving their competencies and objectives. I encourage you to review the new policy and talk with your manager or supervisor if you have questions. Of course, I welcome your questions and input as well. Please send your comments and ideas to me at behend@michigan.gov.

I know these have been busy weeks for many of you as you take on additional responsibilities and work hard to provide resources and services for our customers and citizens across the state. Please know that your hard work has not gone unnoticed. Thank you for everything you do, every day.

Have a great week,

David

Trucking Companies Rally to Provide Water to Flint Residents

Several trucking companies and large retailers on Jan. 26 announced plans to donate and truck in tens of thousands of bottles of water for residents and schoolchildren of Flint, Michigan, to assist the community that is experiencing a drinking water crisis.

National Diesel Average Falls to $2.071, Down 4.1¢

The U.S. retail diesel average fell for the 11th consecutive week, dropping 4.1 cents a gallon to $2.071, while in two regions of the country average prices dropped below $2 a

gallon, the Department of Energy reported Jan. 25.

New Mexico Proposes Plan to Recover Millions From Tax-Dodging Truckers

The New Mexico Department of Transportation is asking lawmakers to change how weigh stations are managed in an effort to capture as much as $56 million a year that analysts estimate the state is losing to truckers who don't pay fees to haul their loads across New Mexico roads.

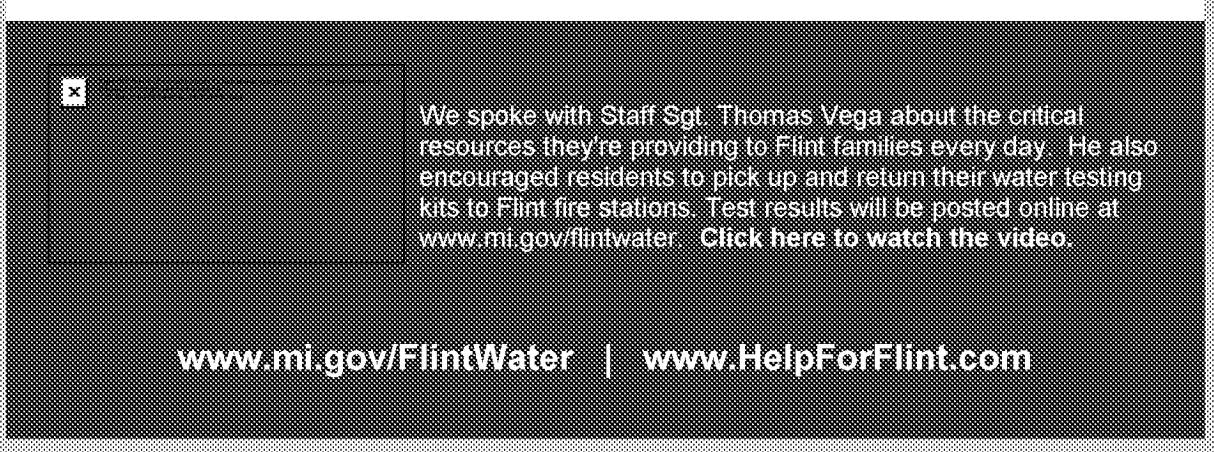
Subject: "Flint residents should not have to pay for water they cannot drink"

Budget recommendation will include $30 million request for Flint water bill repayments

When Governor Rick Snyder presents his budget recommendation next Wednesday, Feb. 10, he will include a $30 million request for the residents of Flint to keep their water service on and eliminate the need to pay for water they cannot completely trust to drink.



Under the governor's ask, the funding would enable the city of Flint to apply credits for customers on future bills. Estimates show water is roughly 47 percent of billing and sewer costs are around 53 percent. The credit would be applied to consumption usage (roughly

65 percent) of a resident's water portion of the bill, such as for bathing, drinking, cooking, and washing your hands. Residents still would be responsible for paying the sewer portion of their water bills.

Professor Marc Edwards of Virginia Tech said, "This essentially refunds all the money associated with consumption or consumer use. I think it's an amazing gesture of common sense and good will and it corrects an injustice. I don't think there's a precedent for this. I feel so encouraged by the direction this is going."

VIDEO: How volunteers are helping Flint

Volunteers at the Food Bank of Eastern Michigan are working hard to collect donations in order to help the families of Flint. Last Thursday, Governor Snyder visited with the many dedicated volunteers and helped sort cans of food.

Good nutrition is critically important for Flint's children. Foods that are high in calcium, vitamin C, and iron can help limit the effects of lead exposure. To donate or volunteer at the Food Bank of Eastern Michigan, visit www.fbem.org.

Click here to watch the video and learn more about how the Food Bank of Eastern Michigan is helping Flint's families.

LISTEN IN: Governor Snyder's tele-town hall with Flint residents

Governor Snyder hosted his third town hall with Flint residents on Thursday, Feb. 11, answering their questions directly. *Click here to listen to the call.*

Roy,

We have John Lance John Patterson and Kevin Moe driving trucks up in Flint. Here in the garage we had Pat Miller, Steve Kline, Dan McCarthy, Brian Coffman, Mike Reeves, Bob Rupert, Scott Martin, Todd Kunze, Cletus Dahl, Scott Numeric, Brent Thompson, and Gary Shaw got 13 minivans ready to go to Flint. Cletus Dahl drove one of the minivans up to Flint. Mike Wonn coordinated getting large trucks and minivans ready and up to Flint and also getting some repairs done and one truck swapped out at the rental company to keep them running while up in Flint.

Subject: FW: LOS celebration - Quarterly Accomplishments

Can you create a poster with this information for our celebration next week? It is on Wednesday, February 24th.

January accomplishments

- 6,194,804 letters inserted
- 8,418,420 Letters Processed for Edoc validations
- 20,447 Trays of Mail Scanned for Full Service compliance
- 380 Skids of Mail wrapped and scanned for Full Service compliance
- $981,472.86 in postal cost avoidance
- CPC printed 16,811,213 images
- PGS shipped 1,330 jobs
- As a result of the Flint water crisis, Printing Services staff have printed over 1.2 million palm cards, 1 million water testing forms, in English, Spanish and Arabic, as well as thousands of flyers, door hangers, decals and stickers.
- Delivery Services has been helping in Flint by delivering water to fire stations and churches since January 9.

1st Quarter Accomplishments

- Doubled the use of HP Records Manager each year since it has been in production
- Reduced the labor effort for Records Center destruction by 33%
- Developed 6 new online Records Management training courses
- Developed 5 new online Records Management guides
- Implemented a new contract for off-site storage services in the Detroit Metro area
- Revised the DTMB E-mail Management Policy
- Completed the Voya 3rd quarter and 4th quarter printing and mailing of statements and inserts.
- Provided tours of our operations for all DTMB employees to learn our service offerings!

Subject: Volunteer Opportunity in Flint

The State Emergency Operations Center (SEOC) is coordinating a response to the ongoing health and safety issues in the city of Flint's drinking water. Teams from the Michigan State Police, Genesee County Sheriff's Department, Michigan Department of Health and Human Services, and volunteer organizations have been delivering bottled water, water filters, replacement cartridges and water testing kits at homes in the city of Flint since Tuesday.

To help with this critical work, the SEOC is looking for volunteers to expand this effort and continue this distribution during the upcoming holiday weekend. Teams are being assembled for shifts on Saturday, January 16; Sunday, January 17; and Monday, January 18, 2016. If you are interested in volunteering your time for this critical work, please complete the information in one of the attached surveys (depending on which day you are volunteering).

To volunteer on Saturday, January 16, https://www.surveymonkey.com/r/28NVJBL

To volunteer on Sunday, January 17, https://www.surveymonkey.com/r/26NMJKK

To volunteer on Monday, January 18, https://www.surveymonkey.com/r/26P7P5G

Volunteers will begin their assignment at the Local Emergency Operations Center located in the Genesee County Administration Building located at 1101 Beach St, Flint at 9 a.m. and end by 4 p.m. Parking is available at the corner of Beach Street and 8th Street. Lunch will be provided. This is strictly a volunteer effort, as all three days will be unpaid. Volunteers are responsible for their own transportation; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

This opportunity is for state employees and their immediate family members 16 years of age or older only, others looking to assist should volunteer through the American Red Cross in Flint. The volunteer coordination center for the Red Cross is located at 1401 S. Grand Traverse, Flint, MI. They are open from 9 a.m. to 7 p.m.

For more information on the state's response efforts, visit www.michigan.gov/flintwater.

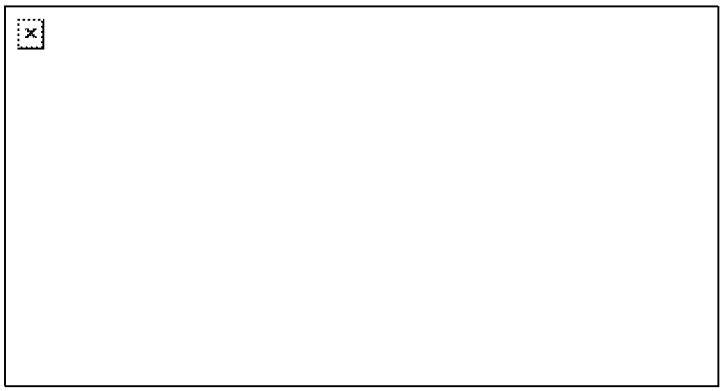
How we are fixing the Flint water crsis

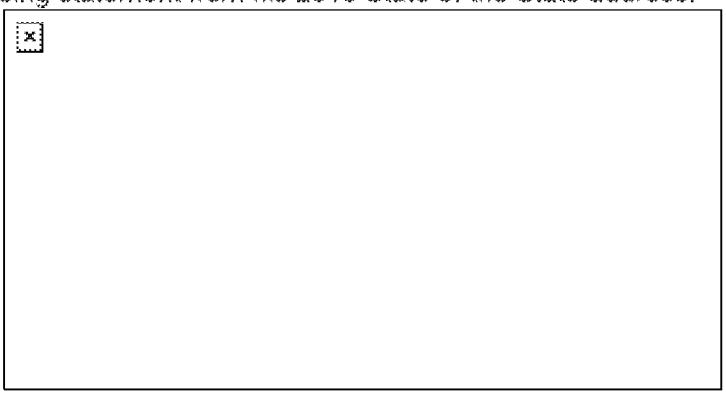
Governor Rick Snyder has committed to spending the rest of his time as Governor to fixing the Flint water crisis. Over the last few days, he has sat down to explain what happened and how we're fixing the Flint water crisis. Watch the interviews below and be sure to read the Governor's Op-Ed in the USA Today.



Governor Snyder on Morning Joe

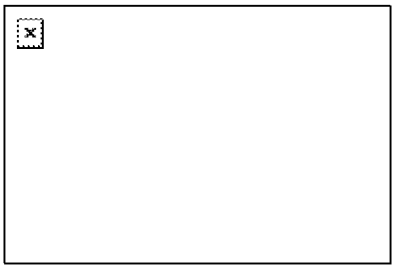
"What is so frustrating and what makes you so angry is you have a handful of experts who were career civil servants that made terrible decisions, in my view. We have to live with the consequences, and they worked for me, so I accept that responsibility. We are going to fix this problem." Watch Governor Snyder address how we are fixing the Flint water crisis on Morning Joe.

Governor Snyder with Charlie LeDuff on Fox 2 Detroit



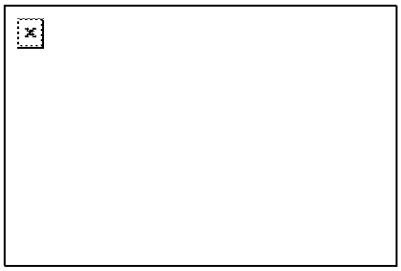
"I feel awful about this. These are people. They've been harmed. You can't feel good about that. The people of Flint have been harmed and a major influence of that harm

came from people who worked for me, and I feel responsible for that. But I am committed to solving the problem and addressing the damage as much as possible for the rest of the time I'm Governor." Watch Governor Snyder address the Flint water crisis with Charlie LeDuff on Fox 2 News.



Governor Snyder's 2016 State of the State

"Michiganders don't quit, we don't give up, instead we will work with even more passion and commitment to truly improve our state. For everyone who's chosen to make Michigan their home, this is more than a promise, this is my commitment." Watch Governor Snyder's full closing statement from his 2016 State of the State address.



Governor in USA Today: "I will fix this, and I mean it."

"Residents in one of Michigan's proud cities cannot drink their water. That's unacceptable. The crisis in Flint arose from missteps at all levels of government — local, state and federal. But as governor, I take responsibility for what these families are going through, and I'm holding people in my administration accountable for their failures." Click here to read the Governor's full op-ed.

Washington Post: "Michigan Gov. Rick Snyder is in a tough spot, but he's his own best spokesman"

Snyder has born the brunt of criticism in the local health crisis that has turned into a national scandal. But unlike many other politicians facing crises of leadership, Snyder may also be his own best counter-programming. Click here to read the full story in the Washington Post.

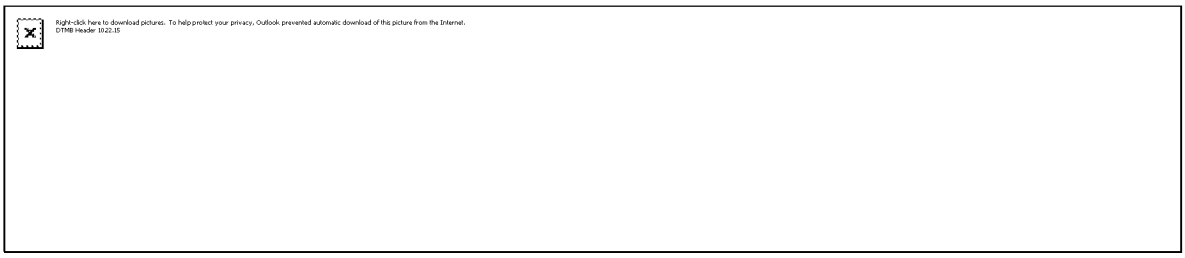
Dear State Employees,

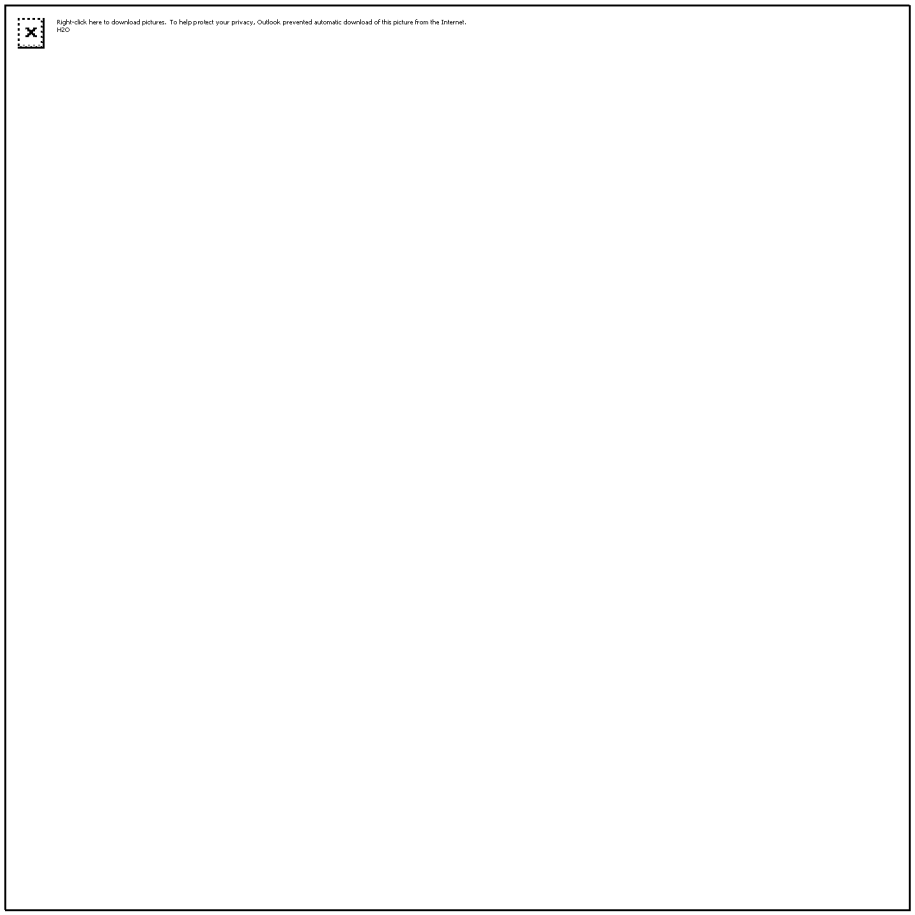
Gov. Rick Snyder and I want to thank everyone who donated their time during the holiday weekend to deliver bottled water, water filters, replacement cartridges and water testing kits to families in the city of Flint. We are working hard to ensure all residents are provided with the safe water resources they need, and each donation and hour of your time volunteered goes a long way.

For employees who would like to help the residents of Flint, there are several opportunities to do so. Please visit www.helpforflint.com to learn how you can help.



For additional information and updates, visit www.michigan.gov/flintwater.

Again, thank you for all your support.



Sincerely, Mike Zimmer
Office of Good Government Director
Dept. of Licensing and Regulatory Affairs Director

Subject: Contributing time, muscle and money

During this month's Martin Luther King Jr. holiday weekend, some state employees turned their "day off" into a "day on" in Flint. There, they delivered bottled water, water filters, replacement cartridges and water testing kits to families. The volunteers joined other Michiganders, turning Dr. King's birthday observance into a day of service.

Mike Zimmer, director of the Office of Good Government and the Department of Licensing and Regulatory Affairs, has shared a link – www.helpforflint.com – that offers other opportunities to contribute time, muscle and money to bring clean drinking water to the community.Here in DTMB, some of our employees didn't wait for an invitation to lend a hand. Office of Retirement Services staff contributed funds that were used to buy 31 cases and 23 gallons of water, which a local organization transported to Flint.

Autumn Hubbard, Ambrea Mack and Sarah Esquivel, who are in the photo at the left, nearly emptied the shelves at their local grocery store. Thanks for your efforts.

everyone.

Now work.

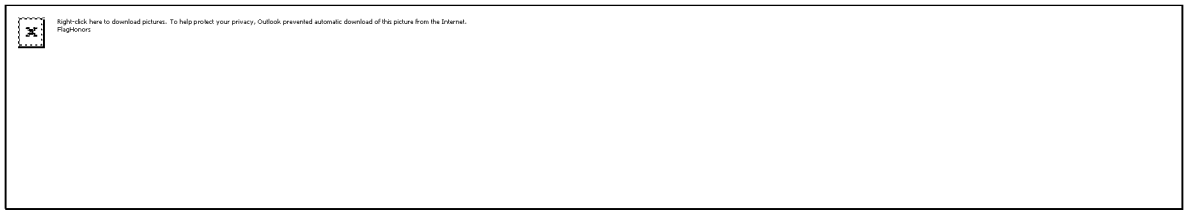
Last week, I signed a new policy that formalizes the annual employee review process and sets expectations for employees and managers. Administrative Policy 200.37 establishes consistent standards for implementing performance plans and reviews. Some of the standards are practices we have followed for years. Others are new. Some of particular note include:

- The mandatory use of HRMN
- A standard Feb. 1-Jan. 31 rating period for all employees
- An Individual Development Plan that specifies training or development programs for each employee
- Competencies and objectives that align to DTMB goals or scorecard metrics
- Consequences for managers and supervisors who do not complete the review process as required

A fundamental role of each DTMB manager or supervisor is to provide employees with direction and feedback on their performance. Employees also are expected to take an active role in pursuing professional development opportunities and achieving their competencies and objectives. I encourage you to review the new policy and talk with your manager or supervisor if you have questions. Of course, I welcome your questions and input as well. Please send your comments and ideas to me at behend@michigan.gov.

I know these have been busy weeks for many of you as you take on additional responsibilities and work hard to provide resources and services for our customers and citizens across the state. Please know that your hard work has not gone unnoticed. Thank you for everything you do, every day.

Have a great week,



David

Subject: Thank you for your service

THANK YOU!

Fellow employees,

Each day, more than 46,000 state of Michigan employees come to work with the confidence and commitment to make Michigan a better place to live, work and play. I appreciate the way you care about the citizens we serve, and how it is reflected in the work that you do.

As you have heard from me and the media, our reputation and trust can be severely impacted when people do not make good decisions, or use good judgment in solving problems. That principle is universal, but never more so than when public health is at stake. What happened in Flint can never be allowed to happen again anywhere in our state.

I know that you want to work in a place where employee input is valued, efforts are recognized, and teams are always striving for continuous improvement. That's why we introduced employee surveys, Bureaucracy Busters and other reinvention initiatives. We want and deserve a culture of innovation, continuous improvement and employee engagement at every level. We can never take for granted how important the people are who depend on us to do our jobs, and I am asking you not to let the situation in Flint negatively impact your motivation to excel every day.

Many of you have taken an interest in helping the citizens of Flint on your own time, and I'd like to take this opportunity to recognize and thank those who have volunteered over the last couple of weekends. You have worked tirelessly to deliver cases of bottled water, water filters, replacement cartridges and water testing kits to the families in need. I appreciate you donating your time to help our fellow Michiganders. To date, more than 37,000 homes have been visited by one of our water resource teams.

For employees who would like to further help the people of Flint, please visit www.HelpForFlint.com to learn how you can do so. For additional information and to sign up for daily updates, please visit www.mi.gov/FlintWater. I am committed to ensuring that all residents have access to safe and clean water.

Again, I'd like to express my gratitude for the work you do every day to continuously improve our state and earn the trust of those you serve. You make a real difference.

Thanks,

Governor Rick Snyder

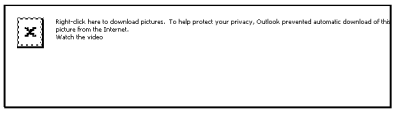
> **Subject:** What this year's budget means for Michigan...



Gov. Rick Snyder's FY 2017 budget calls for critical investments for the Flint water crisis, statewide infrastructure and the Detroit Public Schools. The governor's recommendation also addresses the skyrocketing costs of specialty medications that Michigan residents depend on for better health outcomes.

This budget also stays committed to the Governor's core statewide priorities of education, talent and economic development, health and human services, and public safety.

The proposed FY 2017 budget makes key investments to strengthen the state for all of Michigan's families. Click here to learn more about the top 6 takeaways from the Governor's FY 2017 state budget.

VIDEO: How volunteers are helping Flint

Volunteers at the Food Bank of Eastern Michigan are working hard to collect donations in order to help the families of Flint. Last Thursday, Governor Snyder visited with the many dedicated volunteers and helped sort cans of food.

Good nutrition is critically important for Flint's children. Foods that are high in calcium, vitamin C, and iron can help limit the effects of lead exposure. To donate or volunteer at the Food Bank of Eastern Michigan, visit www.fbem.org.

Subject: The Gov. Snyder's Budget Proposal

Good morning everyone. I hope everyone had a great holiday weekend.

I had the good fortune to travel to Marquette on Monday with Chad Laidlaw, DTMB's policy and planning analyst, to meet with city, business and university leaders and to address the Economic Club of Marquette. I told them about the many things DTMB does, placing special emphasis on our work in mobility and cybersecurity. Marquette is really developing and making its mark as an innovative and entrepreneurial community.

Now work.

The executive budget Gov. Snyder presented last week outlined his investment plan for Michigan. Yes, the proposal for fiscal year 2017-18 outlined a strategy to address the critical challenges of addressing the Flint water crisis and turning around Detroit's Public Schools, but the $54.9 billion plan also includes investment in four key areas:

- **Education.** The budget increases investment to K-12 schools, community colleges and the state's public universities. Additional funds are proposed to expand career, technical, science, technology, engineering and math programs.
- **Protecting the Public.** The governor's plan expands the Secure Cities program, which has reduced violent crime in four major Michigan cities. Funds also would support an additional trooper recruit school and an academy to train corrections officers, among other initiatives.
- **Putting People First.** The governor recommends continued expansion of the Healthy Kids Dental Program and funding efforts to ensure residents have access to affordable health care. His proposal boosts funds to help cover new higher cost specialty medications to treat conditions such as hepatitis C and cystic fibrosis, among others.
- **Investing in Infrastructure.** The proposal allocates $1.2 billion to maintain and repair Michigan roads, bridges and other critical infrastructure.

The budget proposal also includes FY 2017-18 funding recommendations for DTMB. Gov. Snyder recommends ongoing funding of $1.3 billion for department operations and a one-time allocation of $32.4 million.

A few highlights include:

- $502 million for information technology support for all state agencies and $132.8 million for 14 high-priority IT projects in seven agencies. He recommends increasing the Information Technology Investment Fund by $7 million, from $65 million to $72 million. This fund supports several major multiyear IT projects and upgrades, including the replacement of outdated legacy systems.
- An additional $5 million to support cybersecurity improvements to safeguard citizens' personal information and protect critical infrastructure and government services.
- IT support of $6.5 million to modernize the Office of Retirement Services' systems and enhance customer service for more than 530,000 current and future retirees.

You can see the full executive budget recommendations, which are posted on the Budget Office website. Details of DTMB's proposed budget begin on page B-75.

We can expect to see many changes before the budgets are signed and become effective Oct. 1. The executive budget will be used by the House and Senate Appropriations Committees as they work on their own budgets and hold committee hearings on the proposals. I'll keep you posted as the process moves ahead.

As always, I welcome your notes, whether about the budget process or any other topic. Please send them to me at behend@michigan.gov.

Thank you again for all the good work you do. I hope you have a great week ahead.

David

Can you create a poster with this information for our celebration next week? It is on Wednesday, February 24th.

January accomplishments

- 6,194,804 letters inserted
- 8,418,420 Letters Processed for Edoc validations
- 20,447 Trays of Mail Scanned for Full Service compliance
- 380 Skids of Mail wrapped and scanned for Full Service compliance
- $981,472.86 in postal cost avoidance
- CPC printed 16,811,213 images
- PGS shipped 1,330 jobs
- As a result of the Flint water crisis, Printing Services staff have printed over 1.2 million palm cards, 1 million water testing forms, in English, Spanish and Arabic, as well as thousands of flyers, door hangers, decals and stickers.
- Delivery Services has been helping in Flint by delivering water to fire stations and churches since January 9.

1st Quarter Accomplishments

- Doubled the use of HP Records Manager each year since it has been in production
- Reduced the labor effort for Records Center destruction by 33%
- Developed 6 new online Records Management training courses
- Developed 5 new online Records Management guides
- Implemented a new contract for off-site storage services in the Detroit Metro area
- Revised the DTMB E-mail Management Policy
- Completed the Voya 3rd quarter and 4th quarter printing and mailing of statements and inserts.
- Provided tours of our operations for all DTMB employees to learn our service offerings!

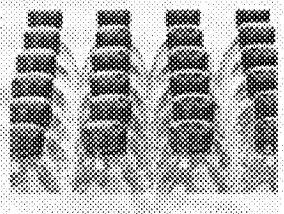
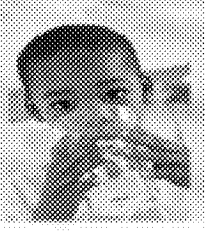
Subject: Safe Water For Flint Campaign

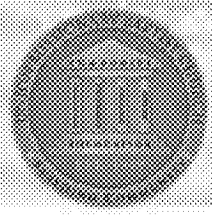
Imagine giving this to your baby?



In recent months, children of Flint, MI have been diagnosed with high blood lead levels because of the city's lead contaminated water system. The problem is so severe, a state of emergency has been declared in the City of Flint. There is a great need for safe drinking water in Flint.

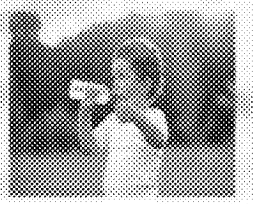


On Sunday January 10, 2016 through Sunday January 31, 2016, Union Missionary Baptist Church (UMBC) will begin a Safe H2O Campaign to provide the children of Flint with bottled water. For the next four weeks UMBC will accept donations of bottled water. Anyone may purchase a case of water or make a financial contribution for the purchase of bottled water.



Cases of water may be dropped off at the church located at 500 S. Martin Luther King Jr Blvd, Lansing, MI 48915. Phone (517) 485-2205)

Monday-Thursday	9:00 pm – 7:00 pm
Friday	10:00 am – 3:00 pm
Saturday	8:30 am – 12 noon
Sunday	7:30 am – 1:00 pm



If you wish to make a financial donation to the Safe H2O Campaign, please indicate on your offering envelope in the 'Other' section "Water" or "H2O". For personal checks to made out to UMBC, please write "Water" or "H2O" on the line that indicates 'Memo.'

County voices needed to bring on repeal of unacceptable election restrictions

With county leaders already facing restrictions to their work to inform voters in the March 8 election, it is vital that county leaders reach out to their local legislators and tell them to adopt an immediate, full repeal of the changes wrought in Section 57 by Gov. Rick Snyder and the Legislature in recent weeks.

Sen. Dale Zorn (R-Monroe) has filed just such a repeal measure (SB 703) and MAC urges strong support of it and plans by Rep. Andy Schor (D-Ingham) for a similar measure in the House.

Immediate action is required since at least 14 counties around the state, ranging from Washtenaw to Iron, Arenac to Dickinson, have ballot measures before their voters on March 8; measures that now cannot be properly explained due to the restrictions imposed by the new law.

Please use the information below to contact your representative and senator and tell them that repeal is needed now.

Mostly positive news from state revenue conference for FY17

In the first step of the annual appropriations process, the Consensus Revenue Estimating Conference met this week to agree upon the dollar amount that can be used by the State for the fiscal 2016-17 budget. Generally speaking, the news was positive; revenues are up, but with the caveat that the rate of growth is slowing.

For the upcoming fiscal year, the conference estimated total revenues at $22.7 billion, an increase of $724.7 million over 2015-16, which includes $575 million in one-time additional funding due to a surplus in revenues from 2015 and budget lapses. The School Aid Fund is expected to total $12.5 billion, a $354.5 million increase from 2015-16.

State revenue targets were set at a meeting in Lansing on Thursday.

Additional budget pressures that may be taken into consideration by the governor and Legislature are roads, and possibly relief for the Flint water crisis and Detroit Public Schools.

Gov. Rick Snyder is scheduled to provide his budget recommendations on Feb. 10. MAC will keep you apprised of appropriations issues that are relevant to the important work of the counties.

For more details regarding the revenue agreement, visit the House Fiscal Agency website.

President vetoes resolution to block 'Waters of the U.S.' rule

President Obama vetoed a resolution approved this week by the U.S. House of Representatives to nullify the "Waters of the U.S." rule established by the federal Environmental Protection Agency (EPA). The resolution, previously approved by the Senate, also would have prevented any similar rules from being established in the future.

Attention now turns to the federal courts, since the implementation of the rule has been put on hold due to a stay issued by a federal appeals court as litigation continues.

For more information on this issue, please contact Casey Steffee, steffee@micounties.org or 517-372-5374.

Back to top

Federal PILT program gets full funding for FY16

As part of the recently passed and signed federal spending bill, the Payments in Lieu of Taxes (PILT) program will be fully funded for FY16. The total amount will stay at $452 million, with approximately $4 million going to Michigan counties.

For FY15, as a part of the baseline for sequestration reduction, $37 million was withheld until September, when the president signed legislation authorizing its distribution. Those payments were made by the Department of Interior at the end of October.

MAC applauds the decision of Congress and the President to fully fund the PILT program and will continue efforts, in conjunction with the National Association of Counties (NACo), to ensure full funding for the future.

For more information on federal PILT, visit NACo's website.

Treasury offers tips on using revamped website, ESA issues

The Michigan Treasury has created tips in response to questions from around the state regarding the Essential Service Assessment (ESA).

The ESA is a state-specific tax on eligible personal property owned by, leased to or in the possession of an eligible claimant who has claimed the eligible manufacturing personal property (EMPP) tax exemption. Certain EMPP subject to extended PA 198 (IFT) or PA 328 (New Personal Property) exemptions are also subject to the ESA.

See the department's web tips and a detailed explanation of ESA issues.

Also, on Jan. 11, Treasury activated its new Michigan Taxpayer Online (MTO) portal to "conduct Sales, Use, and Withholding transactions more efficiently." Those who had MTO profiles prior to Jan. 8, 2016, may use their existing access pass to use the new portal; those who created a profile on or after Jan. 11 should use the profile and password they created then.

For assistance, visit the Treasury's support site.

MAC Legislative Update

Jan. 22, 2016

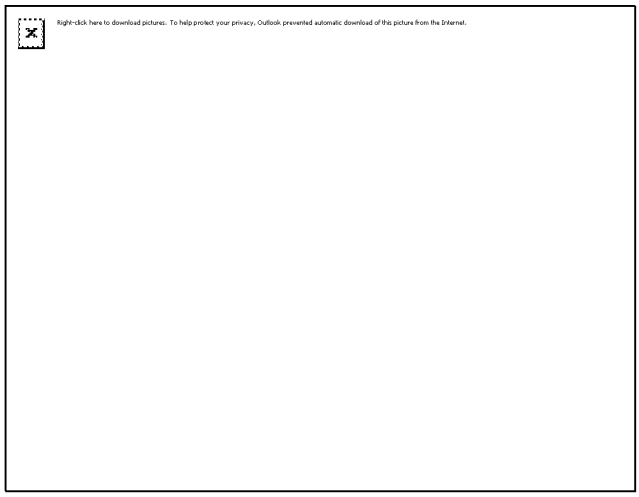
IN THIS ISSUE

State of State Address passes over county issues
Investor service issues warning about election 'gag order' law as MAC, local groups work for repeal
Court assignments bill clears Senate committee
Bill would let local units revoke PPT exemptions in some cases
Bay County testifies on Budget Stabilization Fund bill
Medicaid, online taxes among NACo legislative priorities for 2016
Veteran grants awarded to 19 counties

Gov. Rick Snyder addresses the Legislature on Tuesday.

State of State Address passes over county issues

In a State of the State Address that focused heavily on the crisis with Flint's water and the needs of the Detroit Public Schools, Gov. Rick Snyder said little pertaining to MAC's legislative priorities, such as full revenue sharing and reform on unfunded mandates.



The governor did say he was creating a task force to examine infrastructure needs around Michigan. This panel would form recommendations regarding water and sewer infrastructure, utility networks and upgrading the Soo Locks.

MAC is eager to work with the governor, his team and the Legislature in advancing some of Snyder's previously stated goals, such as full revenue sharing for counties each year and a fiscal note process to determine the true cost of legislation on local governments to help prevent future unfunded mandates.

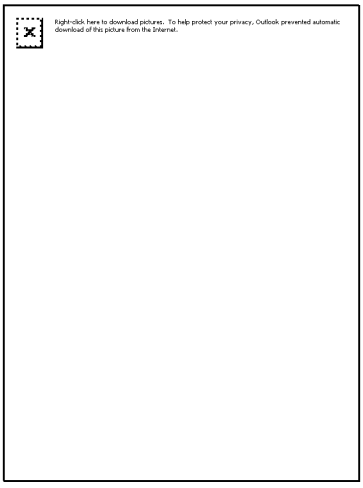
MAC's Governmental Affairs team also will be pushing hard in 2016 for action on tax capture reform, closure of the Dark Stores property valuation loophole and a prudent, long-term investment in criminal justice reform.

Back to top

Credit service issues warning about election 'gag order ' law as MAC, local groups work for repeal

An array of local government and school officials expressed opposition Wednesday to House Bill 5219 by Rep. Lisa Lyons (R-Kent), which she touts as a "fix" to the problems in the recently enacted Public Act 269 that silences local officials on local ballot questions.

Lyons bill would make minor changes to the language from PA 269, but still leave local officials without the ability to properly inform their constituents about local ballot measures in the 60 days prior to an election.



"Our position continues to be that the only fix to the restrictions on local officials briefing voters in the 60 days prior to an election is a repeal of the relevant changes adopted via PA 269," explained MAC Deputy Director Steve Currie. "We have Senate Bill 703 by Sen. Dale Zorn (R-Lenawee) and House Bill 5221 by Rep. Andy Schor (D-Ingham), which are simple, straightforward repeals of the problem language. That's where our focus is right now."

The importance of repeal was emphasized on Friday when the Moody's Investors Service said PA 269 is a "credit negative" on school districts and warned of the potential for harm to local governments, including counties.

For more information on this issue, contact Steve Currie, scurrie@micounties.org or 517-372-5374.

Back to top

Court assignments bill clears Senate committee

A measure to reorganize court assignments around that state due to changing caseloads was reported out of the Senate Judiciary Committee this week. Senate Bill 709 by Sen. Rick Jones (R-Eaton) would alter the probate, district and circuit court ranks.

The counties explicitly affected by the measure are: Baraga, Berrien, Delta, Houghton, Ingham, Keweenaw, Macomb, Monroe, Oakland Saginaw, St. Clair and Wayne.

A Senate Fiscal Agency analysis says the bill would have a positive, though indeterminate, fiscal effect on local governments.

MAC is neutral on this legislation.

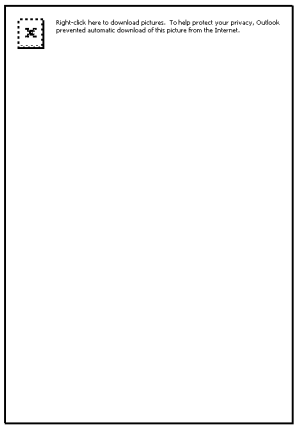
For more information on this issue, contact Dana Gill, gill@micounties.org or 517-372-5374.

Back to top

Bill would let local units revoke PPT exemptions in some cases

The House Tax Policy Committee heard testimony on Wednesday on House Bill 4580, sponsored by Rep. Andy Schor (D-Ingham), which would allow a local "assessing district" to revoke personal property tax exemptions in certain instances.

House Bill 4580 provides that if the holder of the exemption fails to abide by the original terms of the tax exemption agreement, or fails to meet the criteria that permitted the original tax break determined by the local assessing district, then the tax exemption may be revoked. The bill refers to tax exemptions granted to particular corporations or developers, as specified in the bill.



This legislation is in response to a situation in Ingham County involving Niowave. The company was given certain tax abatements to improve its facility, however, Niowave was deemed to not have adhered to its part of the agreement. As such, a unanimous Lansing City Council voted to rescind the tax abatement. However, under existing law, that decision had no authority. This bill is not retroactive, but designed to allow for revocations in future situations.

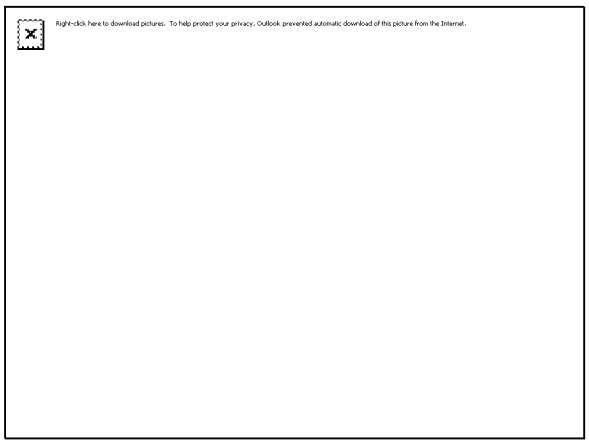
For more information on this issue, contact Elizabeth Gorz, gorz@micounties.org or 517-372-5374.

Back to top

Bay County testifies on Budget Stabilization Fund bill

On Tuesday, Bay County Executive Tom Hickner testified on MAC's behalf in support of Senate Bill 569, sponsored by Sen. Mike Nofs (R-Calhoun), which would increase the cap on the amount of eligible dollars to be set aside in budget stabilization accounts. At present, counties and other local units of government cannot exceed 15 percent of the most recent general fund budget or 15 percent of the average of the five most recent general fund budgets, whichever is less. SB 569 would increase the cap to 20 percent.

Tom Hickner



A vote was not taken on the bill, but MAC will continue to monitor the progress and keep you informed.

For more information on this issue, contact Casey Steffee, steffee@micounties.org or 517-372-5374.

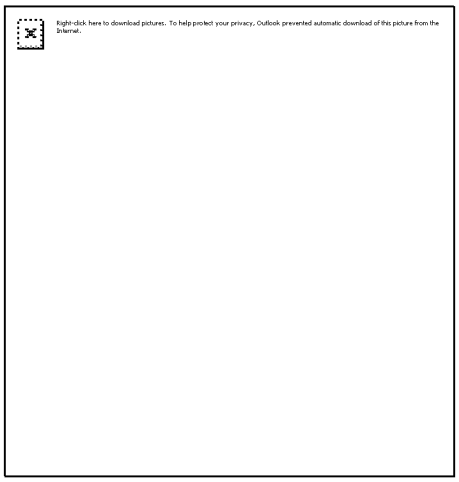
Medicaid, online taxes among NACo legislative priorities for 2016

Strengthening Medicaid and enactment of the Marketplace Fairness Act are among the top legislative priorities for 2016, the National Association of Counties (NACo) announced this week. "Counties continue to be concerned about measures that would limit the ability of states to direct supplemental payments county providers, curtail the ability of counties to contribute local funds to match federal dollars or otherwise shift federal and state Medicaid costs to counties including cuts, caps or block grants," NACo stated.



In support of the Marketplace Fairness Act, NACo notes that $26.1 billion is going uncollected -- dollars that could be funding stronger and broader local services.

To see all of the priorities, you can review the NACo list in the members section of the MAC website. If you are not a registered member, use these instructions to quickly sign up.

Veteran grants awarded to 19 counties

The State of Michigan announced it will dole out $250,000 to counties to help them serve veterans this year, and so far $198,000 has been distributed to 19 county veterans services offices, the MIRS News Service reported.

County Incentive Grants are awarded by the Michigan Veterans Affairs Agency (MVAA) to counties looking to create local departments of veterans affairs, hire additional accredited benefits counselors or upgrade or invest in new technology.

The list of counties and grant totals are available here.

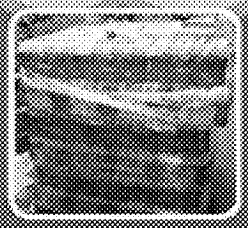
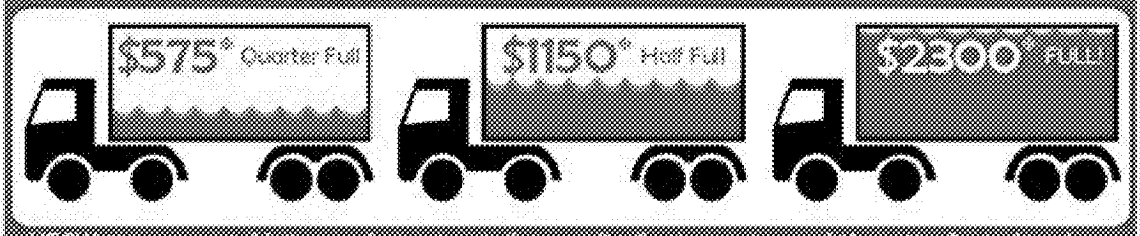
Subject: Flint Water Purchase Program Update



THANK YOU for your support for the people of Flint during this water crisis. Because of your donations, the UFCW 951 program was very successful and they delivered dozens of truckloads of water. Please note that due to such demand, they had to switch to different size packs of water to maximize and provide even more water at a discounted price with a slight increase. Thank you to United Food And Commercial Workers Local 951 for making it easier for us to help our friends in Flint. Please continue your support.



UFCW 951 & MEIJER: FLINT WATER PURCHASE PROGRAM

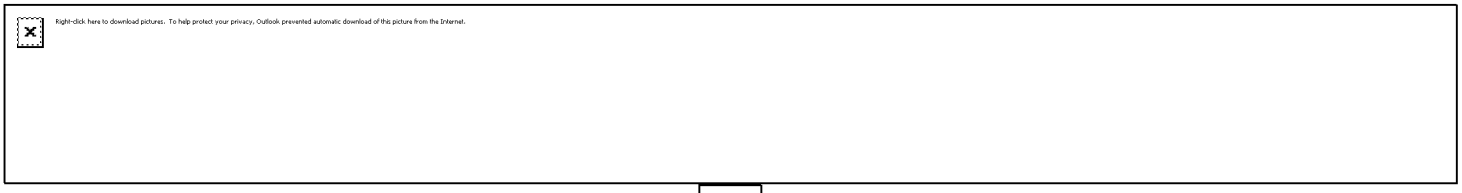
UFCW 951 has arranged for a discounted rate with Meijer for any organization that would like to purchase large quantities of water for Flint. Donating water through Meijer is convenient, and your participation in the lifting, pulling and loading of water isn't necessary.

Your organization can reserve your own truck loads, or UFCW 951 will assist those who can purchase a portion of a truck load by combining your contributions with other organizations in order to have full trucks delivered to the residents of Flint.

THE COSTS ARE AS FOLLOWS:

UFCW 951 represents Meijer employees in retail stores, distribution centers and the entire fleet of truck drivers. All water will be loaded by UFCW 951 members at the distribution centers and then driven by a UFCW 951 driver, to the Flint area food bank warehouse for distribution to the residents of Flint.

TO RESERVE YOUR TRUCKS OF WATER, OR FOR MORE DETAILS, CONTACT TODD REGIS WITH UFCW 951 AT 1-800-999-0951 EXT. 113



*NOTE: Due to heavy demand, trucks carrying 35-packs of bottled water are no longer available. Therefore, prices have changed since the beginning of this project. Manufacturers are now filling trucks with 24-packs, so the trucks can hold more water. These are the new prices, with a full truck holding over 36,000 bottles of water.

FROM THE DESK OF DAVE LORENZ

As the Pure Michigan Snow Day promotion continues, it's been great to see so many in the travel industry send in their snow day dance videos and share their "snow day" adventures via social media. On Monday, we hosted a #PureMichiganSnowDay Twitter chat discussing ways to take a Pure Michigan Snow Day – a special thank you to everyone who participated and especially to Shanty Creek and Stormy Kromer for offering our fans terrific giveaway items.

If interested in re-living the chat and seeing comments and reactions from our fans, check out posts from January 25 on the Pure Michigan twitter page from noon – 1 p.m.

I've had the opportunity to be in northern Michigan for several meetings the past two weeks and although I haven't yet had time to throw on the skis myself, it's been rewarding to see the buzz of activity at our resorts. We're hopeful the pent-up demand that was created by a slow to develop winter will drive travel to ski, snowmobile and do all of the other things we love to do at this time of year.

The big challenge we are dealing with right now is the water contamination issue in Flint. I know you are as concerned as I am for all of those who have been affected by the situation. I can only say that I'm confident that everything that can be done to find solutions, will be done.

For those of us in the travel industry – we can do our part to help by doing what we do best. Let's stay positive promoting the great State of Michigan as a premier place to visit, four seasons of the year. By doing so we'll continue to positively impact our economy, generating jobs and revenue, which can be used to benefit our entire society.

This state has faced many challenges over the years and we have always come together in unity to resolve our issues. Let's hang tough and support Flint and everyone working to make things right. For more information on what is happening in Flint visit www.michigan.gov/flintwater and to find out how you can help visit www.helpforflint.com.

Last, but not least, Happy 179th Statehood Day Michigan! Hear what folks love most about Pure Michigan in this statehood video.

Sincerely,

Dave Lorenz, Vice President Travel Michigan

Subject: Thank you for your service

THANK YOU!

Fellow employees,

Each day, more than 46,000 state of Michigan employees come to work with the confidence and commitment to make Michigan a better place to live, work and play. I appreciate the way you care about the citizens we serve, and how it is reflected in the work that you do.

As you have heard from me and the media, our reputation and trust can be severely impacted when people do not make good decisions, or use good judgment in solving problems. That principle is universal, but never more so than when public health is at stake. What happened in Flint can never be allowed to happen again anywhere in our state.

I know that you want to work in a place where employee input is valued, efforts are recognized, and teams are always striving for continuous improvement. That's why we introduced employee surveys, Bureaucracy Busters and other reinvention initiatives. We want and deserve a culture of innovation, continuous improvement and employee engagement at every level. We can never take for granted how important the people are who depend on us to do our jobs, and I am asking you not to let the situation in Flint negatively impact your motivation to excel every day.

Many of you have taken an interest in helping the citizens of Flint on your own time, and I'd like to take this opportunity to recognize and thank those who have volunteered over the last couple of weekends. You have worked tirelessly to deliver cases of bottled water, water filters, replacement cartridges and water testing kits to the families in need. I appreciate you donating your time to help our fellow Michiganders. To date, more than 37,000 homes have been visited by one of our water resource teams.

For employees who would like to further help the people of Flint, please visit www.HelpForFlint.com to learn how you can do so. For additional information and to sign up for daily updates, please visit www.mi.gov/FlintWater. I am committed to ensuring that all residents have access to safe and clean water.

Again, I'd like to express my gratitude for the work you do every day to continuously improve our state and earn the trust of those you serve. You make a real difference.

Thanks,

Governor Rick Snyder

Federal Power Grab Continues

The Good News From Iowa

Whatever else it may portend, Ted Cruz's success in the Republican caucus in Iowa suggests that the era of federal ethanol subsidies and mandates may be coming to an end-and that is good news both economically and for the environment, as Reason's Jacob Sullum points out.

What Really Happened in Flint?

The residents of Flint, Michigan are the victims of an ill-conceived plan. Not a plan, as some commentators have claimed, to cut government spending. Rather the opposite, as Reason Foundation's Shikha Dalmia notes, "the debacle is the result of [Governor] Snyder's efforts to stimulate the local economy." Dalmia explains:

The whole mess occurred because Flint decided against renewing its 30-year contract with the Detroit Water and Sewage Department (DWSD) and switched instead to Karengondi Water Authority (KWA). KWA was planning to build its own hugely expensive pipeline, parallel to DWSD's, to harness water from Lake Huron and service the Genesee County area where Flint is located. This left the city in the lurch for a few years when its contract with DWSD ended but the new facility had not yet gone online, prompting it to reopen a local mothballed facility that relied on the toxic Flint River as its source (more on the rank stupidity of this decision later).

The rationale for the original decision to switch Flint's water providers was that, in the long run, KWA would generate substantial savings for the cash-strapped city. Not only was this false but Snyder had very good reasons at that time to believe that this was false.

Nor were Flint's problems the result of "privatization" as some have claimed. In fact, the entities responsible for the debacle are all governmental. Among other things that means they are likely immune from prosecution. And they had perverse incentives to avoid even identifying the problem, as Marc Edwards, the Virginia Tech engineer who discovered the problems in Flint points out in an interview in the Chronicle of Higher Education, "In Flint the agencies paid to protect these people weren't solving the problem. They were the problem."

By contrast, as Dalmia notes in a column for The Week, had the responsible parties been private companies they would far more likely be held accountable and forced to pay adequate compensation to those affected. Indeed, as Reason Foundation's Adrian Moore points out, privatization might well be the best solution for Flint.

Who Should Control the Western Range?

On January 26, state troopers shot and killed Robert "LaVoy" Finicum, one of a group of protesters who had occupied the Malheur National Wildlife Refuge in Oregon for nearly a month. Other members of the group, including the leader Ammon Bundy, were arrested. The occupation was itself a response to the convictions in October of Dwight and Steven Hammond, who were each sentenced to serve five years in prison for starting a series of fires on federal land, including one on the Malheur Refuge.

While the fires may have been set for good reason, they were undoubtedly illegal and should in no way be condoned (at the very least, the Hammonds should have sought to coordinate with the federal agency that manages the land- as Randal O'Toole argues). Nevertheless, the sentences were, as Reason's Jacob Sullum points out , unreasonably harsh-a result of mandatory minimums imposed by the federal government and treating the fires as acts of terrorism-in yet another example of over-criminalization. (The original trial judge had meted out much shorter sentences but he was overruled by the Court of Appeal, which required the lower court to apply the federally mandated minimum term.)

The fact that such a large number of people felt moved to occupy the Malheur Wildlife Refuge in response to the Hammonds' convictions is in part a result of the deep dissatisfaction many who live in rural communities in the West feel about the way the federal government manages the land it controls. And the federal government controls a lot of land. As Reason's Brian Seasholes wrote in the Daily Caller:

Most Americans are probably unaware the federal government owns almost one-third of the United States, or 640 million acres. This enormous amount of federal land has profound impacts on the ability of many states, municipalities and communities to govern themselves effectively, raise taxes necessary for basic services, such as police, fire and schools, conserve the environment, and maintain viable economies that can provide living wages for ordinary people.

Federal ownership entails federal control and that means many decisions must be made by the federal government. Decisions such as how much to spend on fire management, how much to charge for leases (such as those held by the Hammonds), whether to cut trees or to permit the salvaging of wood from a forest fire, and about who should have access to water for their cattle. Of course, many of those decisions are delegated to local managers, but those managers must operate within rules and guidelines set at the center.

Unfortunately, people in the center - that is, in Washington, DC - have little knowledge of the situation on the ground. So their decisions may not - and often do not - fit well with those whom they affect. Worse, as PERC's Terry Anderson points out, decisions made in Washington are more often driven be special interests than by what would be best for all.

In the case of fire management, this has had tragic consequences, as I have documented. And as Randal O'Toole points out, the Forest Service itself is one of the most powerful special interests-and is apparently more concerned with expanding its budget than with ensuring the forests are well managed.
The solution is to decentralize decision-making closer to those who are affected by the decisions.

Devolving ownership and control to the states would seem to be the logical way to do this. The American Lands Council is pursuing just such a strategy.

Can Hunting Help Conservation ... and Does the Endangered Species Act Hurt it?

The killing of Cecil the lion last July sparked outrage. But in a recent paper, several leading conservation biologists-Enrico Di Minin, Nigel Leader-Williams and Corey Bradshaw-argue that while the killing of Cecil was likely illegal and the hunt violated the "ethical norms of well-managed trophy hunts," it would be a mistake to ban trophy hunting. Indeed, the authors argue that banning such hunting would be harmful to the conservation of biodiversity.

For people in poor countries who share their land with wild animals, the ability to sell hunting rights and offer accommodation and ancillary services can create strong incentives to conserve habitat and animals, as the experience of the Community Areas Management Program for Indigenous Resources (CAMPFIRE) in Zimbabwe and the Community Conservancy program in Namibia have demonstrated.
But it's not just in Africa that hunting can help conservation. As documented in recent Reason TV video, conservation of the American alligator has relied heavily on hunters and other commercial activities.

Yet, for half a century, pressure groups have argued that hunting and trade in wildlife is harmful to conservation. In response, governments have enacted legislation and signed treaties imposing restrictions on such activities, often with counterproductive results.

The Endangered Species Act is a good example: instead of encouraging sustainable use, the Act effectively prohibits any use of species listed as endangered and imposes severe restrictions on use of land or water that provides or might provide habitat for such species. It thereby incentivizes landowners to remove species that are or might be listed, lest they be discovered by authorities, and to destroy habitat.

A 2014 Reason Foundation working paper by Brian Seasholes shows that-contrary to claims made by proponents of the Endangered Species Act-the American alligator was never endangered; its population had been growing since long before it was listed as "endangered" in 1973, suggesting that the ESA listing had little to do with its success. Indeed, listing likely did more harm than good by restricting hunting and trade and by stymieing long-standing and highly successful state-based conservation and research programs with red tape. Fortunately,

the commercial activities that had begun before listing-in part as a result of the deregulation of wildlife trade-had ensured sufficient growth in the population that the federal government subsequently delisted the alligator and it was able once again to thrive.

As Seasholes notes in a piece for the Daily Caller, "Even the Endangered Species Act's staunchest supporters acknowledge the Act is counterproductive." He quotes Michael Bean, who was then at Environmental Defense Fund and is now a senior official at the Department of the Interior:

> *There is, however, increasing evidence that at least some private landowners are actively managing their land so as avoid potential endangered species problems...Now it's important to recognize that all of these actions that landowners are either taking or threatening to take are not the result of malice toward the red-cockaded woodpecker, not the result of malice toward the environment. Rather, they're fairly rational decisions motivated by a desire to avoid potentially significant economic constraints. In short, they're really nothing more than a predictable response to the familiar perverse incentives that sometimes accompany regulatory programs.*

Addressing the Problems Created by the ESA: What States Can Do

Seasholes argues that to address these perverse incentives, the Endangered Species Act should be transformed from a penalty-based system to an incentive-based system, with landowners rewarded for investing in conservation-rather than punished for so doing. One approach along these lines is the U.S. Department of Agriculture's Conservation Reserve Program.

Texas adopted a similar approach and other states are doing likewise. Seasholes is advising legislators in several states, and is looking for others who are interested in pursuing this approach.

For more information, email: brian.seasholes@reason.org

Federal Power Grab Continues

As I have noted previously, the Clean Power Plan is-contrary to claims made by the White House-a centralized plan for electricity generation in the United States that is likely to harm public health, increase energy bills for households and businesses, destroy American jobs, and cause blackouts in communities across the country.

Unsurprisingly, many states, power companies, unions and others were not happy with the Clean Power Plan and launched a series of lawsuits against the EPA, claiming that the Plan exceeds its constitutional authority. But an attempt to delay the implementation of the Plan was rejected by the D.C. Circuit Court of Appeal on January 21. In response, 29 states and state agencies petitioned the Supreme Court on January 26 to request a stay. This was followed, on January 27, by a group of mining and energy companies and two unions petitioning the Supreme Court with the same request.

But the Clean Power Plan may be just the first step in an attempted federal takeover of the way energy is produced and consumed in America. The second step came with the Paris Agreement, which a group of lawyers recently claimed offers a new means for the EPA to expand its powers . Specifically, the group asserts that the Paris Agreement justifies the use of Section 115 of the Clean Air Act to introduce more comprehensive plans for carbon control,

as the executive summary of its report makes clear:

> *The success of the recent climate negotiations in Paris provides a strong basis for invoking a powerful tool available to help achieve the country's climate change goals: Section 115 of the Clean Air Act, titled "International Air Pollution." This provision authorizes EPA to require states to address emissions that contribute to air pollution endangering public health or welfare in other countries, if the other countries provide the U.S. with reciprocal protections. The language of Section 115 does not limit the agency to regulating a particular source-type, or a given industrial or economic sector. Rather, it grants EPA and the states broad latitude to address international air pollution comprehensively through the Clean Air Act's State Implementation Plan process ...*

It seems that the prediction made by the late Aaron Wildavsky almost a quarter century ago (in the foreword to Bob Balling's book, The Heated Debate) is finally coming true:

> *Global warming is the mother of all environmental scares. In the scope and consequences for life on planet Earth and the immense size of its remedies, global warming dwarfs all the environmental and safety scares of our time put together. Warming (and warming alone), through its primary antidote of withdrawing carbon from production and consumption, is capable of realizing the environmentalist's dream of an egalitarian society based on rejection of economic growth in favor of a smaller population eating lower on the food chain, consuming a lot less, and sharing a much lower level of resources much more equally.*

The good news is that it may still be possible for Congress to reject the Paris Agreement. Although the Agreement primarily consists of non-binding voluntary commitments, it contains procedural elements-including a compliance mechanism-that arguably render it a "treaty" within the meaning of the U.S. Constitution, thereby requiring ratification by the Senate before it is implemented.

360 Perspective

Fighting through the cold

Ugh. I avoided it for a long time. Then it hit me – the turtle flu. What's the turtle flu you ask? It's what a bunch of my colleagues call the crud that's going around the office, otherwise known as the common cold. It's not a real affliction by any means, just a nickname that stuck. Last year, when a colleague came down with a nasty cold, somehow she said something about liking turtles and somehow that morphed into catching her cold from a turtle, and that morphed into the turtle flu and it stuck. I blame the fact that most of us were on cold medicine at the time.

VIDEO: What Governor Snyder's FY17 budget means for Michigan

Gov. Rick Snyder's FY 2017 budget calls for critical investments for the Flint water crisis, statewide infrastructure and the Detroit Public Schools. The governor's recommendation also addresses the skyrocketing costs of specialty medications that Michigan residents depend on for better health outcomes.

This budget also stays committed to the Governor's core statewide priorities of education, talent and economic development, health and human services, and public safety.

The proposed FY 2017 budget makes key investments to strengthen the state for all of

Michigan's families. Click here to learn more about the top 6 takeaways from the Governor's FY 2017 state budget.

THIS WEEK IN POLITICS

Top Officials at Risk and Unresolved 2016 Election Maps

BY ALAN GREENBLATT

Statewide Officials Find Themselves at Risk

Executive branch jobs are generally more stable than legislative positions. But some didn't seem too secure this week.

In Michigan, the drumbeat of complaints about Republican Gov. Rick Snyder just keep getting louder. On Monday, the Board of State Canvassers approved one of many recall petitions, which gives Snyder's critics a green light to collect signatures to put a recall measure on the November ballot. The approved petition has to do with education, but any recall campaign will focus squarely on how Snyder has handled the Flint water crisis.

In Indiana, Republican Gov. Mike Pence, who is up for re-election this fall, picked a new running mate this week after his quit. Lt. Gov. Sue Ellspermann is up for a job running a community college system, so Pence turned to Eric Holcomb, a former chair of the state GOP, to shore up his ties with party activists.

"By selecting Holcomb as his running mate, Pence sent a clear message about how endangered his political career is," wrote Matthew Tully, a columnist with the *Indianapolis Star*.

Pence is being challenged by Democrat John Gregg, a former House speaker.

Governor's FY 17 budget marked by full revenue sharing, 'drastic' change in community mental health system

Gov. Rick Snyder has proposed a $10 billion General Fund budget for Michigan for fiscal year 2017 that focuses additional state spending on Flint's water system and the Detroit Public Schools, thereby leaving a tight situation for other public initiatives.

For Michigan's counties, still recovering from the lost decade of state revenue sharing in the '00s, **Snyder proposes full county revenue sharing.** He would distribute $215.2 million to the 78 counties now back in the revenue sharing program. If enacted by the Legislature, Snyder's plan would be the third consecutive year for full revenue sharing.

By contrast, this budget takes a new approach to how Medicaid dollars would be managed in the community mental health system, a change the Michigan Association of Community Mental Health Boards (MACHMB) calls "drastic" and a "privatization" of the Medicaid system for behavioral health.

Legislative review of the budget begins in both chambers in coming weeks as lawmakers start working on individual budget bills for the state's departments.

The budget, however, won't be finalized until after the May State Revenue Estimating Conference determines the actual amount of money available for appropriation.

Below are quick reviews of budgetary programs affecting county governments and services:

Back to top

Department of Treasury

The Payment in Lieu of Taxes program (PILT) is increased $1.3 million to $25 million. (The PILT

program provides funds to counties in an effort to offset losses in tax revenues due to the presence of tax-exempt state-owned land in their jurisdictions.)

For more information on this issue, contact Elizabeth Gorz, gorz@micounties.org or 517-372-5374.

Back to top

Department of Transportation

The governor calls for $533 million. Most of that amount will come from the increase in registration fees and the motor vehicle fuel tax that begin on Jan. 1 2017.

-- The recommendation includes $283 million going to local roads ($189 million to counties) and $189 million going to state roads.

-- The federal government reauthorized the Fixing American's Surface Transportation (FAST) Act, which leads to $57.5 million going to highways and transit.

-- The aviation fuels tax package will yield $13.5 million in new revenue.

-- Mass transit programs would receive $51.4 million.

For more information on this issue, contact Steve Currie, scurrie@micounties.org or 517-372-5374.

Back to top

Department of Health and Human Services

The Department of Community Health and the Department of Human Services merged last year to become the Department of Health and Human Services, now overseeing one large budget. Savings for the merger of the departments are again assumed in the governor's budget, which also includes Medicaid cost increases for traditional Medicaid programs and Medicaid expansion the Healthy Michigan Plan.

Mental Health
A major concern for MAC and the community mental health field is the proposed shift of dollars from the CMH system to Medicaid health plans to provide services to Medicaid recipients -- in effect, a privatization of the community mental health system. Based on the higher administrative overhead in Medicaid health plans vs. the traditional public system, MACHMB estimates this policy shift would reduce the funding for actual services by $300 million.

The budget does not include general fund increases for mental health or substance use disorders that would allow community mental health providers to deliver more community services and jail diversion programming.

MAC will advocate for appropriate community mental health service delivery and funding in this budget process. The governor and Legislature have declared their intent to make corrections

systems changes, including "Raise the Age" and other juvenile justice and adult criminal justice reforms in the upcoming year. Without adequate funding of the mental health and substance use disorder system, we cannot tackle one of the root causes of criminal behavior and recidivism.

Senior Services

-- Medicaid Provider Rates are upheld.

Healthy Kids Dental

-- Funding is provided to expand Healthy Kids Dental to all children under 21 in all 83 counties.

Public Health

-- Funding is maintained for Essential Local Public Health Services.

Children's Services

-- A major issue to resolve in this budget process will be the payment by the State of a $3 increase to private agencies for their administrative rates. The governor's budget cut the payment to providers, and puts into question "hold harmless" language for counties.

For more information on this issue, contact Dana Gill, gill@micounties.org or 517-372-5374.

Back to top

Judiciary

-- Funding is maintained for drug treatment courts, with the additions of $500,000 to serve 50 to 75 additional participants and $500,000 to support a pilot program known as "Medication Assisted Treatment" to target heroin or other opiate disorders.

-- Funding is maintained for mental health courts and diversion services.

-- An additional $500,000 is recommended to expand veterans courts.

-- $1.3 million is included to facilitate the work of the Michigan Indigent Defense Commission.

-- $1.1 million is included for the State Appellate Defender Office to help the State comply with the U.S. Supreme Court decision disallowing mandatory life sentences for juveniles. However, the budget does not provide funding to local courts that must handle the cases and possible retrials. MAC will advocate for funding for this issue.

For more information on this issue, contact Dana Gill, gill@micounties.org or 517-372-5374.

Back to top

Department of Military and Veterans Affairs

-- The agency budget is increased $104,000 to $16.2 million.

-- Funding for Veterans Service Grants and for Targeted Grants remains at $3,733,500 and $200,000, respectively.

For more information on this issue, contact Elizabeth Gorz, gorz@micounties.org or 517-372-5374.

Back to top

Department of Corrections

-- The budget includes increased funding for re-entry programs for prisoners and parolees for additional services and programming.

-- $13.6 million is provided for the County Jail Reimbursement Program, which maintains current funding.

-- Community Corrections funding has been maintained at existing levels.

-- Funding for leased jail beds is eliminated, even though the Department of Corrections is asking for more programming and corrective services being offered at the jail level if prisoners are going to be housed there moving forward. This is a significant concern for counties and sheriffs.

For more information on this issue, contact Dana Gill, gill@micounties.org or 517-372-5374.

Back to top

Department of State Police

-- Additional funding is recommended for the State Police school to graduate an additional 85 troopers.

-- $1.3 million would be used to deploy a statewide drug enforcement strategy in support of the recommendations made by the Michigan Prescription Drug and Opioid Abuse Task Force.

-- Funding is maintained for Secondary Road Patrol.

For more information on this issue, contact Dana Gill, gill@micounties.org or 517-372-5374.

Back to top

Department of Environmental Quality

-- The federal drinking water revolving fund loan program is increased $2.95 million to receive the maximum $25 million federal grant.

-- Real-time beach monitoring program is maintained at $500,000. (This funding goes to local health departments to test and monitor county beaches.)

-- Wetlands program is maintained at $1 million. (This funding goes to identify wetlands for new projects and the state's program coordination, education and outreach.)

-- Scrap tire regulatory program is increased $14,500 to $1,334,700. (MAC's policy platform encourages funding and planning for the reuse of tires.)

-- Non-community water grants are maintained at $2 million. (These dollars go toward annual and quarterly testing of non-community water supplies done by local public health departments.)

-- Solid waste management program is increased $100,500 to $5,026,400. (This program aids counties in revising their solid waste management plan and is mentioned in MAC's platform.)

-- Recycling initiative is increased $9,600 to $1,008,700. (MAC's platform supports the recycling initiative and regionalized programs.)

-- Hazardous waste management program is increased $150,600 to $6,946,100. (MAC's platform supports regional funding for hazardous waste collections.)

-- Invasive species prevention and control program is increased $31,000 to $5,028,300. MAC will monitor the progress but not actively engage. (MAC's platform supports the state's program to identify, prevent, reduce and eliminate invasive species in Michigan.)

For more information on this issue, contact Casey Steffee, steffee@micounties.org or 517-372-5374.

Back to top

Department of Natural Resources

-- Conservation districts are maintained at $758,000. (These funds support conservation districts, which are special units of government that deliver federal, state and local natural resources programs.)

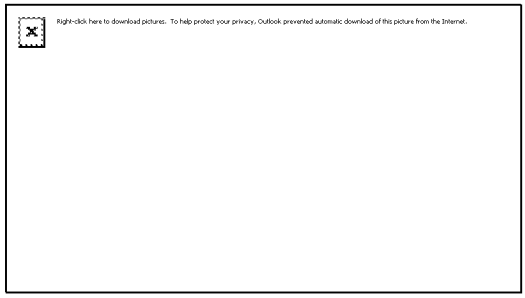
For more information on this issue, contact Casey Steffee, steffee@micounties.org or 517-372-5374.

Back to top

Department of Agriculture and Rural Development

-- Michigan Agriculture Environmental Assurance Program is increased $18,300 to $9,146,800.

-- Farmland and open space preservation is increased $516,900 to $1,422,100.



-- Intercounty drains are increased $10,300 to $484,400. (These funds help facilitate county drain projects.)

-- County Fair Capital Improvement Grants are eliminated.

For more information on this issue, contact Casey Steffee, steffee@micounties.org or 517-372-5374.

Back to top

House committee to vote on 17-year-olds package Tuesday

Legislation to "Raise the Age" in Michigan's correction system, a move that would shift 17-year-old offenders into the juvenile justice system, is expected to be voted on during a Tuesday, Feb. 16 session of the House Criminal Justice Committee.

MAC has opposed this legislation since these changes will carry significant costs and implementation challenges. Many questions and issues need to be addressed before Michigan can consider making this move, as this proposal will require time and resources if it is to take place in a fashion that will actually benefit the juvenile system.

For additional details on this issue, see MAC's Issue Paper on the members section of our website.

You also may contact Dana Gill, gill@micounties.org or 517-372-5374.

States Gear Up for Driverless Cars

Change is commonplace and expected in the auto industry. In recent years, however, talk has been not only about body styles but also about whether or not a body is needed at all—a human body, that is. More than a dozen states introduced legislation related to autonomous vehicles in 2015. Already this year has produced much news about autonomous vehicles, and testing projects have become more prevalent across the country.

President Obama Sends His Final Budget to Congress

America has seen its way through the Great Recession and, through sacrifice and hard work, has turned its economy around. That was President Obama's message when he submitted his proposed budget to Congress Feb. 9, requesting $4.23 trillion in spending authority for the 2017 fiscal year, which starts on Oct. 1.

Lessons and Trends in Product Stewardship Laws

While Americans' recycling of paper goods, cans and bottles is up in recent years, recycling rates for products such as batteries and electronics are lagging behind. But states are ramping up efforts to change that. That's according to Chaz Miller, director of policy and advocacy for the National Association of Waste and Recycling, who discussed emerging issues in product stewardship laws in the states at a Feb. 2 CSG eCademy webcast, "Managing Solid Waste through Product Stewardship Laws."

Leaving Home for the White House

With the election season well underway, all eyes are focused on the road to the White House. Last week, on the anniversary of his presidential campaign announcement, President Obama returned to the Illinois State Capitol to remark, in part, on his journey from the Prairie State to Washington, D.C. On this Presidents Day, CSG takes a look at the states where U.S. presidents lived when they were elected to the country's highest office.

Top Federal Affairs Issues in 2016

Congress finished 2015 on an unusually productive streak by passing a variety of legislation important to state governments, including funding the Highway Trust Fund, reforming the Elementary and Secondary Education Act, reauthorizing the Export-Import Bank and funding the federal government through September 2016. In 2016, state leaders will be closely monitoring congressional and executive actions to ensure they do not preempt individual state laws or add any new unfunded expenses.

SCOTUS Halts Clean Power Plan: What Does this Mean for States?

On Feb. 9, the U.S. Supreme Court granted a stay that stops implementation of the Environmental Protection Agency's Clean Power Plan until the ongoing legal challenges to the rule are resolved by the courts. The 5-4 decision came in response to a request for stay to the Supreme Court by more than two dozen states, utilities and other industry advocates after the U.S. Court of Appeals for the D.C. Circuit denied previous requests to halt implementation of the rule last month.

Amid Water Crisis, Walmart and Comcast Provide Relief for Flint

Like many observers, Comcast and Walmart leaders were stunned by the news of the water crisis in Flint, Mich. With significant numbers of employees in Flint, CSG Associate members Walmart and Comcast were quick to respond, providing bottled water to area students and offering water filtration services to community residents.

February 16, 2016

ASSA ABLOY acquires ADAEZ Pro Line of wire free door openers

Monroe, NC, February 12 - ASSA ABLOY has successfully completed the acquisition of the ADAEZ Pro line of specialty door operators from EDMIT Industries. The ADAEZ Pro line offers unique benefits for rigorous institutional and commercial applications.

The ADAEZ Pro line comprises two heavy-duty low energy operators, both for high traffic environments. The ADAEZ Pro offers a Regenerative Power System that charges an onboard battery pack, eliminating the need for wired electrical power in high use applications. The Pro ships standard with an integral RF receiver and wireless push buttons that make install a breeze. More

Two Baltimore city companies, Think and PivotPoint, partner to take-on cyber risk

Baltimore, MD, February 4 - Think Systems and PivotPoint Risk Analytics have teamed up to provide a combined offering to companies who are serious about addressing cyber risk.

Think has become an authorized reseller of PivotPoint's CyVaR, a new cyber risk analysis application that analyzes a company's risks in terms of their financial impact. Think provides information technology expertise and executive project control, something they call Bare Knuckled Project Management (BKPM). Now, company executives can see their cyber risk as potential financial impacts on their business, prioritize risk mitigation... More

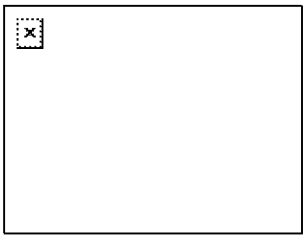
General Services Administration selects CertiPath's TrustMonitor Platform



Reston, VA, February 10 - Driven by the ever-intensifying need for identity security, demand for Public Key Infrastructure (PKI) based credentials has never been higher. While increased reliance on high assurance identity credentials is a major benefit to physical and online security, it shines a light on the resiliency and accuracy of the trust network that underpins the credentials.

CertiPath's TrustMonitor ensures this resiliency by tracking the health and well-being of the federated trust infrastructure used to validate the Internet's highest assurance

transactions. GSA is leveraging TrustMonitor to ensure the health of its own identity issuance systems, and the health of the other participants in the federal trust fabric. Chi Hickey, Director of Testing and Procurement, Identity Assurance and Trusted Access Division, Office of... More

Chemring Group appoints Steven F. Cummings (Col, USA-Ret) Vice President

Dulles, VA, February 10 - Chemring Group announced the appointment of Steven F. Cummings (Colonel, USA-Ret) as Vice President Global Business Development and Strategy. In this new role, Mr. Cummings will be responsible for developing growth strategies that include all of Chemring's business segments.

Steven F. Cummings

In coordination with his non-US counterpart, David McDonald, VP, Global Business Development and Strategy, Mr. Cummings will be responsible for business development initiatives of major sales efforts that support broad Chemring Group objectives. These will include international strategies, offset programs, and research and development investments. More

Certified Security Solutions Inc. Announces Technology Integration Agreement with SAP

Cleveland, OH, February 10 - Certified Security Solutions (CSS) Inc., a global leader in secure digital identity and access solutions, announced it will work together with SAP to integrate CSS' large-scale public key infrastructure (PKI)-based certificate management security solution with SAP HANA® Cloud Platform for the Internet of Things.

As a result of the integration, organizations will be able to use CSS' Verdetto IoT Identity Platform together with SAP HANA Cloud Platform for the Internet of Things. Using the CSS solution will provide these organizations with a secure and scalable cloud-based solution that creates and manages digital identities for device authentication, data encryption, and secure communication. Bensalem, PA, February 5 - Since the announcement of "Filters for Flint", ZeroWater is thankful to have surpassed over $40,000 in donations of both pitchers and filters to the residents of Flint, Michigan. The first shipment of ZeroWater's NSF certified lead reduction pitchers and filters has already been delivered and the second shipment is on its way.

"We are extremely proud our "Filters for Flint" program has been such a success. Getting clean water to Flint residents is why this program was created and thanks to our loyal supporters we are doing just that," stated Doug Kellam, CEO of ZeroWater. "We are committed to being a part of the immediate solution as long as Flint needs us." More

Subject: Watch Today: Flint's Public Health & MSU's Role

View this email in a web page

Michigan State University has had a partnership with Flint, Michigan hospitals to train doctors since 1969. In 2014, with the support of the Charles Stewart Mott Foundation, MSU began expanding our public health programs in Flint, well before the awareness of Flint's water problems. This livestreamed event will explore the evolution of MSU's public health program in Flint, what the program is doing today and why it's relevant to the community, the state and the nation.

Speakers include:

- MSU Provost June Pierce Youatt
- College of Human Medicine Interim Dean Aron Sousa, MD
- College of Human Medicine Assistant Professor and MSU-Hurley Children's Hospital Pediatric Public Health Initiative Director Mona Hanna-Attisha, MD
- Charles Stewart Mott Foundation Vice President Neal Hegarty

Please tune in and help us spread the word on this important and timely event.

Subject: The Gov. Snyder's Budget Proposal

Good morning everyone. I hope everyone had a great holiday weekend.

I had the good fortune to travel to Marquette on Monday with Chad Laidlaw, DTMB's policy and planning analyst, to meet with city, business and university leaders and to address the Economic Club of Marquette. I told them about the many things DTMB does, placing special emphasis on our work in mobility and cybersecurity. Marquette is really developing and making its mark as an innovative and entrepreneurial community.

Now work.

The executive budget Gov. Snyder presented last week outlined his investment plan for Michigan. Yes, the proposal for fiscal year 2017-18 outlined a strategy to address the critical challenges of addressing the Flint water crisis and turning around Detroit's Public Schools, but the $54.9 billion plan also includes investment in four key areas:

- **Education.** The budget increases investment to K-12 schools, community colleges and the state's public universities. Additional funds are proposed to expand career, technical, science, technology, engineering and math programs.
- **Protecting the Public.** The governor's plan expands the Secure Cities program, which has reduced violent crime in four major Michigan cities. Funds also would support an additional trooper recruit school and an academy to train corrections officers, among other initiatives.
- **Putting People First.** The governor recommends continued expansion of the Healthy Kids Dental Program and funding efforts to ensure residents have access to affordable health care. His proposal boosts funds to help cover new higher cost specialty medications to treat conditions such as hepatitis C and cystic fibrosis, among others.
- **Investing in Infrastructure.** The proposal allocates $1.2 billion to maintain and repair Michigan roads, bridges and other critical infrastructure.

The budget proposal also includes FY 2017-18 funding recommendations for DTMB. Gov. Snyder recommends ongoing funding of $1.3 billion for department operations and a one-time allocation of $32.4 million.

A few highlights include:

- $502 million for information technology support for all state agencies and $132.8 million for 14 high-priority IT projects in seven agencies. He recommends increasing the Information Technology Investment Fund by $7 million, from $65 million to $72 million. This fund supports several major multiyear IT projects and upgrades, including the replacement of outdated legacy systems.
- An additional $5 million to support cybersecurity improvements to safeguard citizens' personal information and protect critical infrastructure and government services.
- IT support of $6.5 million to modernize the Office of Retirement Services' systems and enhance customer service for more than 530,000 current and future retirees.

You can see the full executive budget recommendations, which are posted on the Budget Office website. Details of DTMB's proposed budget begin on page B-75.

We can expect to see many changes before the budgets are signed and become effective Oct. 1. The executive budget will be used by the House and Senate Appropriations Committees as they work on their own budgets and hold committee hearings on the proposals. I'll keep you posted as the process moves ahead.

As always, I welcome your notes, whether about the budget process or any other topic. Please send them to me at behend@michigan.gov.

Thank you again for all the good work you do. I hope you have a great week ahead.

David

Subject: City of Flint

Eric – I'm part of a group along with DEQ assigned to the Flint issue. In meetings with Flint, it was discussed that they are currently undertaking a project with UM-Flint to assist with the mapping of their lead lines using the property cards and GIS. This is a heavy lift. At the meeting I suggested that maybe the State could assist and therefore the reason for my phone call on Monday and email today to you. Would you have time yet this week to reach out to Howard Croft, Director of Public Works to discuss this issue? He is working with a Dr. Marty Koffman at UM. Howard can be reached at 810-766-7135 ext 2043 or hcroft@cityofflint.com. It may be that there is not anything the State can do but I thought with your expertise in GIS, it would be at least worth asking. As you may know, this assistance to Flint is a priority for the Governor.

Please don't hesitate to contact me if you have additional questions.

SUBJECT: Request for Overtime Eligibility

Good Afternoon Amy Miller,

I would like to formally request overtime eligibility for the following three staff members:

Joel Locke – Department Analyst 11
Steven Cross – Department Analyst 11
Joshua Ross – Department Manager 14

The necessity for this eligibility is due to the required support of the Michigan State Police State Emergency Operations Center. Specifically, the State Police has a need for mapping backup support due to the Flint Water Crisis.

Please let me know if there are additional steps to be taken on my part and how we can expedite this process as quickly as possible. Your attention in this matter is appreciated.

Cc: Harrington, Anne (MCSC)
Subject: 08-01 Overtime Approval Letter

This is a response to your January 14, 2016 request to pay overtime compensation to the following employee(s):

Joel Locke	144023	Dept. Analyst P11
Steven Cross	1096330	Dept. Analyst P11
Joshua Ross	711003	Dept. Mgr. 14

Under Regulation 5.02, Standard 3. B, 2, b, and based on the justification provided, overtime approval is granted. An expiration date of December 31, 2016 has been added to the employee(s) HRMN record(s) to permit overtime rate calculation beginning on January 3, 2016 in accordance with Civil Service Regulations.

HRMN requires placing the exception (expiration date) on the employee. Therefore, if the employee transfers out of the above classification, you will need to notify this office so we can remove the overtime exception/expiration date. Also, if the employee(s) uses DCDS for time and attendance reporting, these overtime exception hours must be entered under "OTX1, OTX2, or OTX3," depending on shift.

Subject: Volunteer Opportunity in Flint

The State Emergency Operations Center (SEOC) is coordinating a response to the ongoing health and safety issues in the city of Flint's drinking water. Teams from the Michigan State Police, Genesee County Sheriff's Department, Michigan Department of Health and Human Services, and volunteer organizations have been delivering bottled water, water filters, replacement cartridges and water testing kits at homes in the city of Flint since Tuesday.

To help with this critical work, the SEOC is looking for volunteers to expand this effort and continue this distribution during the upcoming holiday weekend. Teams are being assembled for shifts on Saturday, January 16; Sunday, January 17; and Monday, January 18, 2016. If you are interested in volunteering your time for this critical work, please complete the information in one of the attached surveys (depending on which day you are volunteering).

To volunteer on Saturday, January 16, https://www.surveymonkey.com/r/28NVJBL

To volunteer on Sunday, January 17, https://www.surveymonkey.com/r/26NMJKK

To volunteer on Monday, January 18, https://www.surveymonkey.com/r/26P7P5G

Volunteers will begin their assignment at the Local Emergency Operations Center located in the Genesee County Administration Building located at 1101 Beach St, Flint at 9 a.m. and end by 4 p.m. Parking is available at the corner of Beach Street and 8th Street. Lunch will be provided. This is strictly a volunteer effort, as all three days will be unpaid. Volunteers are responsible for their own transportation; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

This opportunity is for state employees and their immediate family members 16 years of age or older only, others looking to assist should volunteer through the American Red Cross in Flint. The volunteer coordination center for the Red Cross is located at 1401 S. Grand Traverse, Flint, MI. They are open from 9 a.m. to 7 p.m.

For more information on the state's response efforts, visit www.michigan.gov/flintwater.

Iraq: Staggering death toll, sexual enslavement, killing of child soldiers: UN report

A UN report released earlier today details the severe and extensive impact on civilians of the ongoing conflict in Iraq, with at least 18,802 civilians killed and another 36,245 wounded between 1 January 2014 and 31 October 2015. Another 3.2 million people have become internally displaced since January 2014, including more than a million children of school age. ISIS is holding estimated 3,500 slaves in Iraq. ISIS has abducted between 800 and 900 children in Mosul for military training children who refused to fight are killed.

Refugees

Canada avoids sex attacks by accepting refugee families over single men

Canada's immigration minister John McCallum said Canada will not suffer from Cologne-style sex attacks because the country "carefully selects" the Syrian refugees it takes in. McCallum said that because Canada has welcomed Syrian refugees "with open hearts and love," Canadians will not be affected by their resettlement as Germany has been. "Most of them are not single men. Most of them are family members. Whereas Germany accepts everybody that comes to its borders," McCallum said.

Cybersecurity

Cloud security reaches silicon

By Larry Hardesty
In the last ten years, computer security researchers have shown that malicious hackers don't need to see your data in order to steal your data. From the pattern in which your computer accesses its memory banks, adversaries can infer a shocking amount about what's stored there. The risk of such attacks is particularly acute in the cloud, where you have no control over whose applications are sharing server space with yours. An antagonist could load up multiple cloud servers with small programs that do nothing but spy on other people's data. System for defending against memory-access attacks is being implemented in chips.

Nuclear detection

New X-ray method could detect nuclear materials

Inspectors need tools to help find nuclear materials hidden behind thick shielding or smuggled inside any of the 100 million-plus cargo containers shipped around the world each year. Uranium is perhaps the easiest nuclear material to obtain and hide. Physicists have demonstrated that their unconventional laser-based X-ray machine could provide a new defense against nuclear terrorism. The scientists used the laser-driven X-ray source to produce an image of a uranium disk no bigger than a stack of three nickels and hidden between 3-inch steel panels.

Snake robots learn to turn by emulating real sidewinders

Researchers who develop snake-like robots have picked up a few tricks from real sidewinder rattlesnakes on how to make rapid and even sharp turns with their undulating, modular device. Working with colleagues at the Georgia Institute of Technology and Zoo Atlanta, they have analyzed the motions of sidewinders and tested their observations on snake robots. They showed how the complex motion of a sidewinder can be described in terms of two wave motions -- vertical and horizontal body waves -- and how changing the phase and amplitude of the waves enables snakes to achieve exceptional maneuverability.

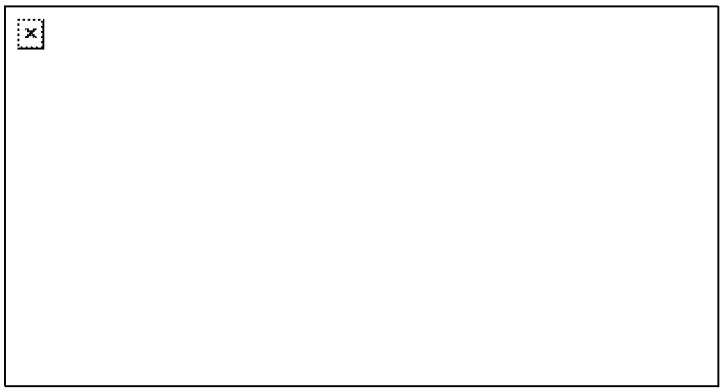
How we are fixing the Flint water crsis

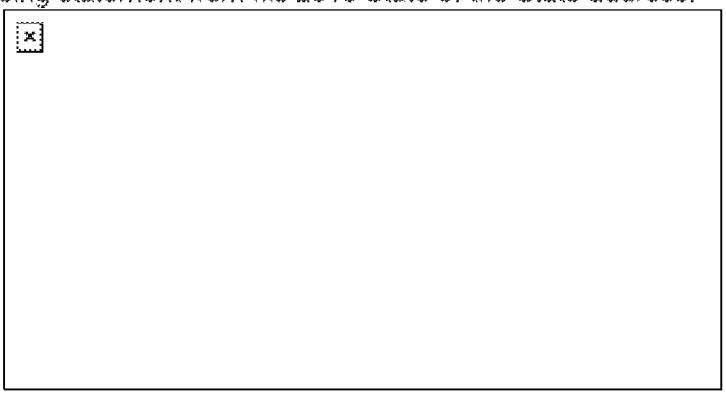
Governor Rick Snyder has committed to spending the rest of his time as Governor to fixing the Flint water crisis. Over the last few days, he has sat down to explain what happened and how we're fixing the Flint water crisis. Watch the interviews below and be sure to read the Governor's Op-Ed in the USA Today.



Governor Snyder on Morning Joe

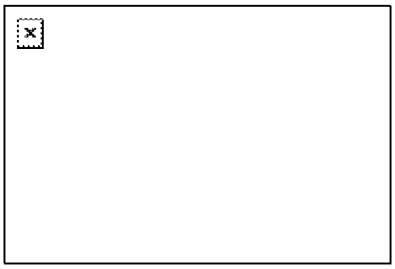
"What is so frustrating and what makes you so angry is you have a handful of experts who were career civil servants that made terrible decisions, in my view. We have to live with the consequences, and they worked for me, so I accept that responsibility. We are going to fix this problem." Watch Governor Snyder address how we are fixing the Flint water crisis on Morning Joe.

Governor Snyder with Charlie LeDuff on Fox 2 Detroit



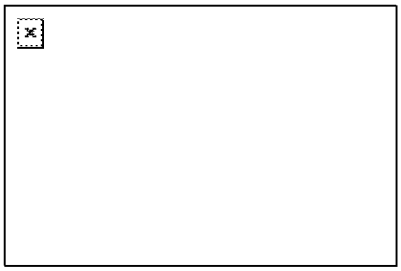
"I feel awful about this. These are people. They've been harmed. You can't feel good about that. The people of Flint have been harmed and a major influence of that harm

came from people who worked for me, and I feel responsible for that. But I am committed to solving the problem and addressing the damage as much as possible for the rest of the time I'm Governor." Watch Governor Snyder address the Flint water crisis with Charlie LeDuff on Fox 2 News.



Governor Snyder's 2016 State of the State

"Michiganders don't quit, we don't give up, instead we will work with even more passion and commitment to truly improve our state. For everyone who's chosen to make Michigan their home, this is more than a promise, this is my commitment." Watch Governor Snyder's full closing statement from his 2016 State of the State address.



Governor in USA Today: "I will fix this, and I mean it."

"Residents in one of Michigan's proud cities cannot drink their water. That's unacceptable. The crisis in Flint arose from missteps at all levels of government — local, state and federal. But as governor, I take responsibility for what these families are going through, and I'm holding people in my administration accountable for their failures." Click here to read the Governor's full op-ed.

Washington Post: "Michigan Gov. Rick Snyder is in a tough spot, but he's his own best spokesman"

Snyder has born the brunt of criticism in the local health crisis that has turned into a national scandal. But unlike many other politicians facing crises of leadership, Snyder may also be his own best counter-programming. Click here to read the full story in the Washington Post.

To: Swanson, Eric (DTMB)
Subject: Contributing time, muscle and money

During this month's Martin Luther King Jr. holiday weekend, some state employees turned their "day off" into a "day on" in Flint. There, they delivered bottled water, water filters, replacement cartridges and water testing kits to families. The volunteers joined other Michiganders, turning Dr. King's birthday observance into a day of service.

Mike Zimmer, director of the Office of Good Government and the Department of Licensing and Regulatory Affairs, has shared a link – www.helpforflint.com – that offers other opportunities to contribute time, muscle and money to bring clean drinking water to the community.Here in DTMB, some of our employees didn't wait for an invitation to lend a hand. Office of Retirement Services staff contributed funds that were used to buy 31 cases and 23 gallons of water, which a local organization transported to Flint.

Autumn Hubbard, Ambrea Mack and Sarah Esquivel, who are in the photo at the left, nearly emptied the shelves at their local grocery store. Thanks for your efforts.

everyone.

Now work.

Last week, I signed a new policy that formalizes the annual employee review process and sets expectations for employees and managers. Administrative Policy 200.37 establishes consistent standards for implementing performance plans and reviews. Some of the standards are practices we have followed for years. Others are new. Some of particular note include:

- The mandatory use of HRMN
- A standard Feb. 1-Jan. 31 rating period for all employees
- An Individual Development Plan that specifies training or development programs for each employee
- Competencies and objectives that align to DTMB goals or scorecard metrics
- Consequences for managers and supervisors who do not complete the review process as required

A fundamental role of each DTMB manager or supervisor is to provide employees with direction and feedback on their performance. Employees also are expected to take an active role in pursuing professional development opportunities and achieving their competencies and objectives. I encourage you to review the new policy and talk with your manager or supervisor if you have questions. Of course, I welcome your questions and input as well. Please send your comments and ideas to me at behend@michigan.gov.

I know these have been busy weeks for many of you as you take on additional responsibilities and work hard to provide resources and services for our customers and citizens across the state. Please know that your hard work has not gone unnoticed. Thank you for everything you do, every day.

Have a great week,

David

CSS has been providing staffing support over the past two week to the State Emergency Operations Center (SEOC) working in conjunction with James Tchorzynski's team at MSP Emergency Management and Homeland Security. CSS has an agreement in place to support SEOC with GIS staff when the SEOC is activated. We have 3 staff members rotating on 12 hours shifts on weekdays and weekends based on a schedule that James provides.

Up until now most of the work that CSS has supported has been in support of geocoding activities, development of maps, digitizing pipelines and structure locations. John Clark was involved yesterday to review additional database sources and may be involved in future data management requests.

Based on your inquiry, CSS believes it would be timely to have a brief phone discussion with key people between DNR and CSS to discuss requests and resource availability to support this endeavor, both short term and long term. Based on our collective resource availability perhaps there are ways we can coordinate our resources to provide the assistance that MSP will continue to need. As we continue to work over at the SEOC, we are working with James on a regular basis to determine their resource needs from CSS.

Would it be okay with you for me to have Mark Holmes reach out to Dave to begin that discussion?

---Rob

Eric, John & Rob

DNR has been tasked with assisting DEQ in the response to the Flint emergency. DNR LED Chief Hagler is leading the team, with that said Dave Forstat's team is taking various forms of data and turning it into georeferenced maps.

In order to not duplicate efforts can you please tell us what your doing for flint in the GIS realm?

Tom

Yes we all need to meet tomorrow and get our roles and assignments hashed out we have to many moving parts to not be working together.

I am at the SEOC now and just met with James Tchorzynski of MSP.

Rob & Mark can you meet tomorrow am at the SEOC and I'll bring Dave Forstat and Peter Gamberg.

Thanks and please advise ASAP.

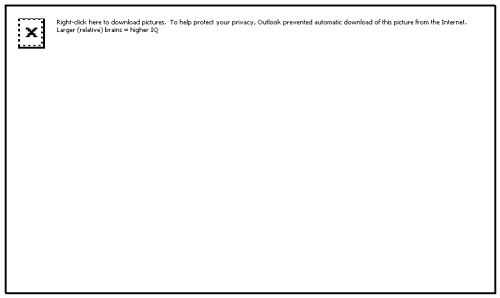
New species of bird discovered in India and China by international team of scientists

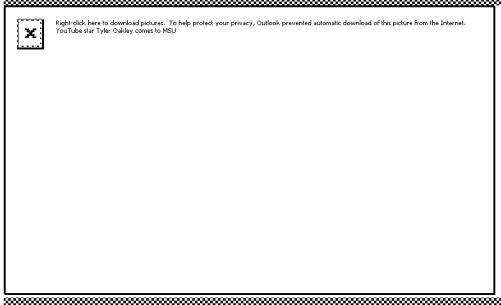
Tweet, tweet! New species of bird discovered



A new species of bird has been discovered in northeastern India and adjacent parts of China by a team of scientists from Sweden, China, the U.S., India and Russia. Pamela Rasmussen, of MSU's Department of Integrative Biology and the MSU Museum, and coordinator of MSU's global bird sounds website AVoCet, was part of the team.

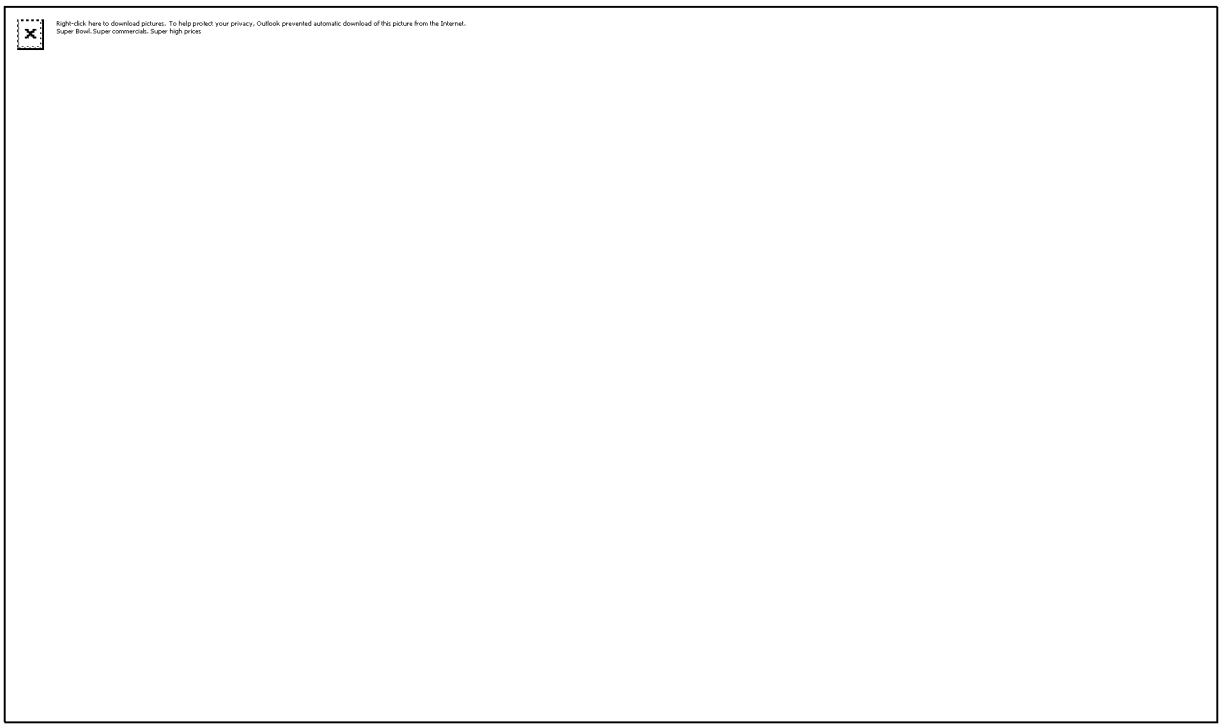
Growing the state's economy

Michigan's University Research Corridor – MSU, the University of Michigan and Wayne State University – continues to be a growing driver of the state's knowledge economy, a new report shows.



Studying IQ, brain size

Why do humans and dolphins evolve large brains relative to the size of their bodies while blue whales and hippos have brains that are relatively puny? While there has been much speculation regarding brain size and intelligence, MSU's Kay Holekamp is a senior author of a new paper that confirms species with brains that are large relative to their body are more intelligent.



Arts

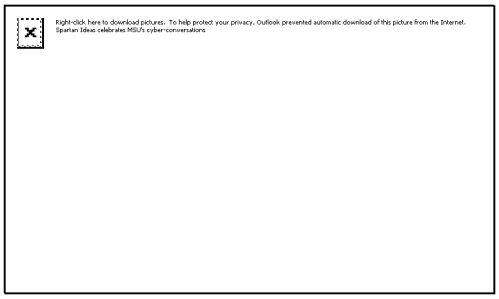
Tyler Oakley returns to MSU

MSU alumnus and YouTube star Tyler Oakley will take part in the Innovate State Speaker Series Feb. 17 at Wharton Center's Pasant Theatre. Established as one of the most influential LGBT vloggers, Oakley is an A-Lister in the digital age.

Business

Super Bowl. Super commercials. Super high prices

When MSU advertising instructor Robert Kolt says the 2016 Super Bowl is going to be a good game, he's not talking football. He's talking the commercials that air during the game.

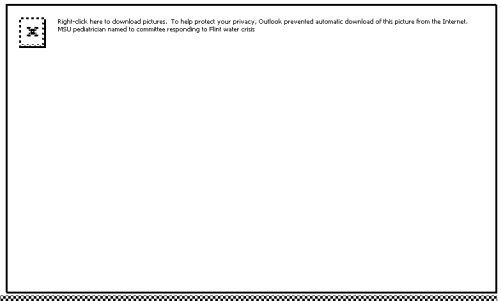


Environment

New CANR dean recommended

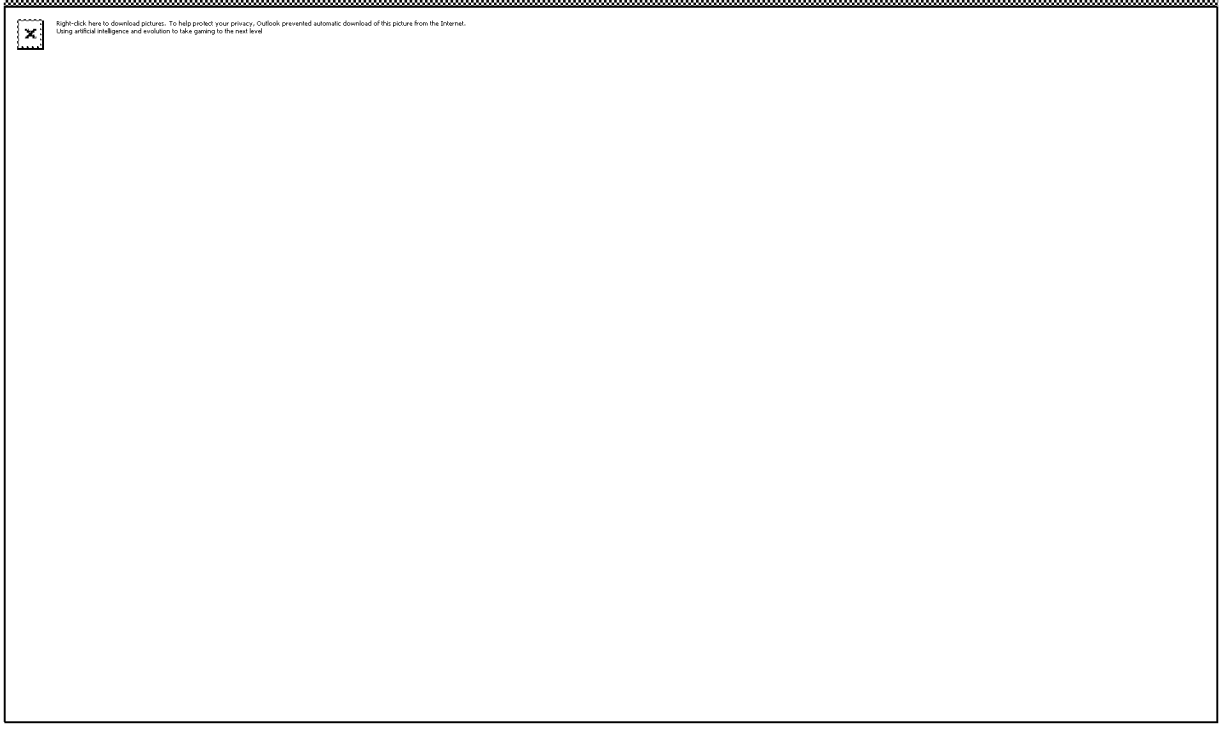
Ronald L. Hendrick will be recommended as dean of MSU's College of Agriculture and Natural Resources. If approved by the MSU Board of Trustees, Hendrick's appointment will be effective July 1.

Life



Celebrating cyber-conversations

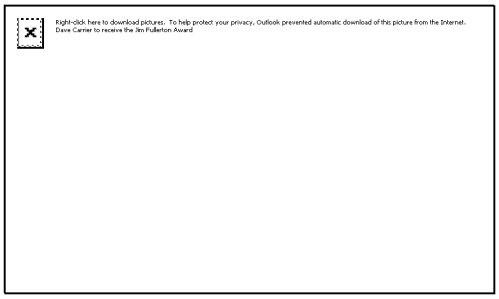
Spartan Ideas, a collection of thoughts, ideas and opinions independently written by members of the MSU community, now boasts more than 2,000 blog posts from some 100 MSU authors. Curated by the MSU Libraries, authors blog on their respective sites giving them the academic freedom to write on various topics and share their personal thoughts.



Health

Responding to Flint water crisis

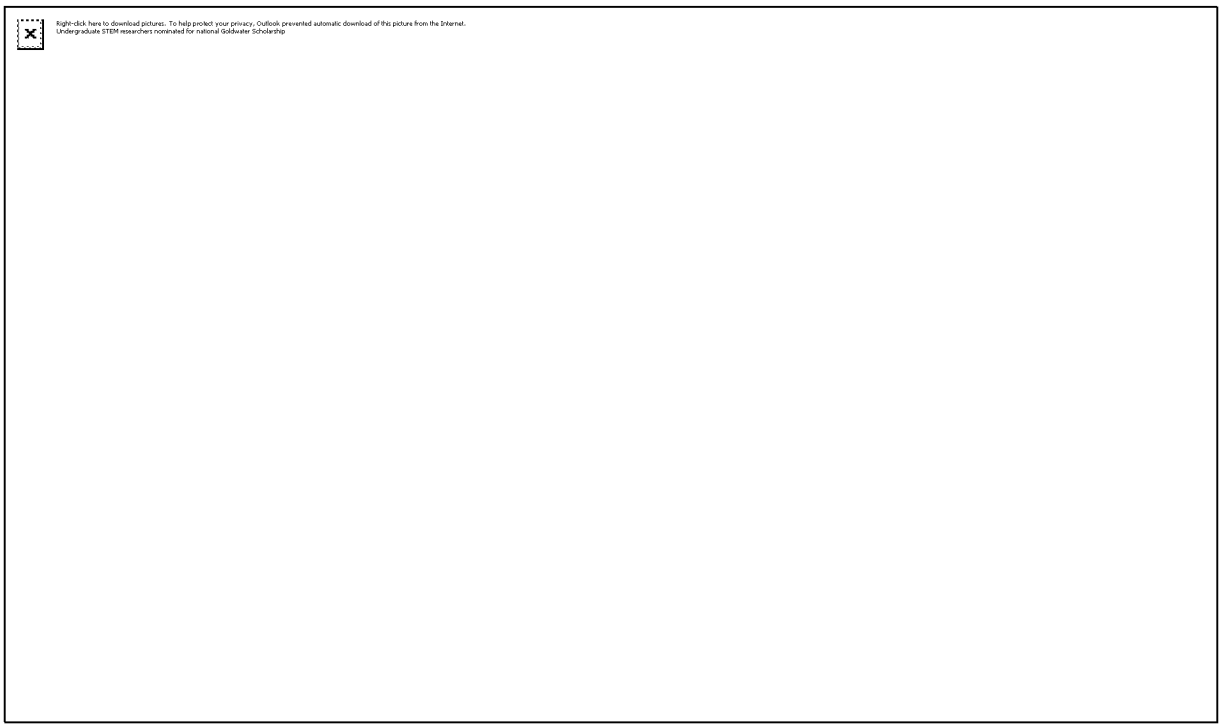
Mona Hanna-Attisha, assistant professor of pediatrics in the College of Human Medicine and director of the pediatric residency program at Hurley Medical Center, has been named a member of Gov. Rick Snyder's Flint Water Interagency Coordinating Committee.



Science and Technology

Applying Darwin and artificial intelligence to video games

MSU assistant professor Arend Hintze developed an artificial intelligence system for video games that adapts to the player's behavior by Darwinian evolution.

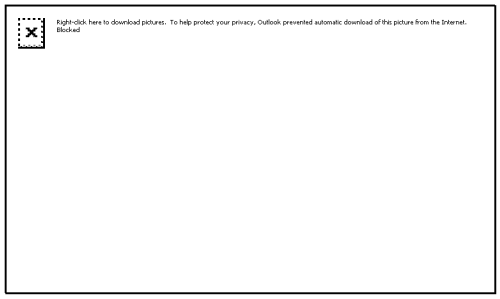


Sports

Supporting MSU athletes

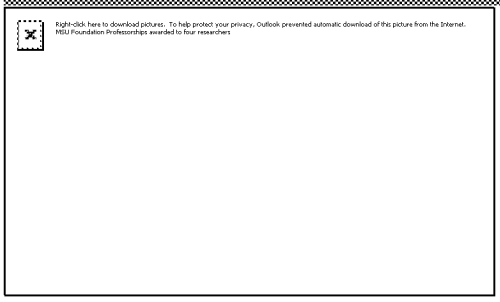
MSU associate head athletic trainer Dave Carrier has been named the recipient of the 2016 Jim Fullerton Award, it has been announced by the American Hockey Coaches Association. Named in honor of the former Brown University hockey coach and AHCA spiritual leader, the Fullerton Award recognizes an individual who loves the purity of hockey.

Campus



STEM students nominated for national award

Four undergraduate researchers studying STEM-related fields have been nominated by MSU for the nationally competitive Barry M. Goldwater Scholarship.



360 Perspective

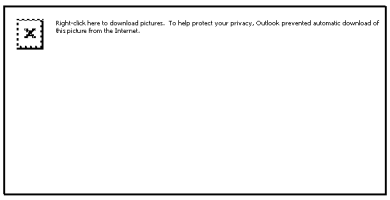
Blocked

In the last hour I've refilled my water glass, gotten a new box of tissues, eaten an orange, texted with my daughter about her hair, washed my hands, put on hand lotion, read some email, monitored my heart rate and stared at my computer screen — a lot. Yep — I've got a serious case of writer's block.

Good Will

MSU Foundation Professorships awarded to four researchers

MSU, with support from the MSU Foundation, will honor four faculty members with the designation of MSU Foundation Professor, in recognition of their exceptional contributions to research and instruction.



GREENING OF THE GREAT LAKES

MSU and News/Talk 760 WJR collaborate on the weekly sustainability-focused Greening of the Great Lakes radio show, heard every Sunday at 7 p.m. on News/Talk 760 WJR and around the state each weekend on the Michigan Talk Network. Learn More »

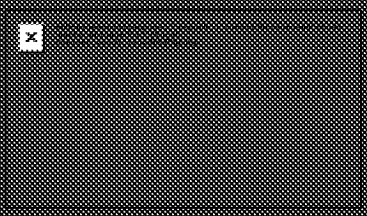
Subject: "Flint residents should not have to pay for water they cannot drink"

Budget recommendation will include $30 million request for Flint water bill repayments

When Governor Rick Snyder presents his budget recommendation next Wednesday, Feb. 10, he will include a $30 million request for the residents of Flint to keep their water service on and eliminate the need to pay for water they cannot completely trust to drink.



Under the governor's ask, the funding would enable the city of Flint to apply credits for customers on future bills. Estimates show water is roughly 47 percent of billing and sewer costs are around 53 percent. The credit would be applied to consumption usage (roughly 65 percent) of a resident's water portion of the bill, such as for bathing, drinking, cooking, and washing your hands. Residents still would be responsible for paying the sewer portion

of their water bills.

Professor Marc Edwards of Virginia Tech said, "This essentially refunds all the money associated with consumption or consumer use. I think it's an amazing gesture of common sense and good will and it corrects an injustice. I don't think there's a precedent for this. I feel so encouraged by the direction this is going."

Click here to learn more about the budget request.

We spoke with Staff Sgt. Thomas Vega about the critical resources they're providing to Flint families every day. He also encouraged residents to pick up and return their water testing kits to Flint fire stations. Test results will be posted online at www.mi.gov/flintwater. **Click here to watch the video.**

Subject: Time Sensitive Request

SMT,

Jean Ingersoll is leading DTMB's effort to comply with document production requests related to freedom of information requests and certain lawsuits against the state.

At some point during the day tomorrow, Jean will share with you a list of standard "search terms" which we will use to compile documents related to this lawsuit.

Within 2 hours of receiving this email from Jean, you need to respond with a list of likely custodians from your work area. Jean may have more information on this tomorrow, but generally speaking a custodian will be a staff member who might reasonably be expected to have documents (electronic or otherwise) that correspond to the issues identified in the search terms.

If you have any questions, please call me or Jean. This is an important issue and I thank you in advance for your attention to this matter.

Senior Management Team,

We just received the search terms for the document production. (See below.) Given the lateness of this email, we are asking you send your list of custodians to Jean Ingersoll **no later than noon on Tuesday, February 16**.

We are not asking you to conduct any searches right now. Further directions will come from Jean.

Search terms:

Legionnaire
Legionella
"boil water order" & "Flint" (anywhere in document)
"coli" & Flint (anywhere in document)
"bacteria" & "Flint" (anywhere in document)
"microb" & "Flint" (anywhere in document)
"TTHM" & "Flint" (anywhere in document)
"Lead" & "Flint" (anywhere in document)
"emergency" & "Flint" (anywhere in document)
Karegnondi
"Genesee County Health Department"
"Flint" (within sentence) "utilities"
"Lead and Copper Rule"
"Detroit Water and Sewerage Department" & "Flint" (anywhere in document)
"DWSD" & "Flint" (anywhere in document)
"Flint River"
"Pb" & "water" (anywhere in document)
"KWA"

Please call me or Jean if you have any questions.

OTP Staff and topics with Flint or Genesee: County
Laura Blastic - FirstNet and IT Director
Paul Harmon - FirstNet and IT Director
Everett Root - MiSAIL

Make sure to include all staff that have been involved with the response.

Check with Laurie and Mark on any DEQ applications that we have built or supported such as MiSWIM and Ground Water.

The MGF staff many have been contacted for data or questions relating to water, hydrography, or rivers.

MGF has several layers for water and would have Flint water in the data.

EPMO staff that support DEQ should also be added to our list.

Hi Walter,

I wanted to follow up from our phone conversation with an email.

The 911 GIS Data Repository does not contain address point information from Genesee County. The road centerline data has not been updated since 2012.

Ken Koleda is our contact Genesee County GIS. This is the same individual that you have been working with to get your data.

Let me know if you need a contact for the PSAP center if Ken cannot provide you with the information.

Please do not hesitate if you have additional questions.

Galaxy Control Systems introduces two mobile apps to enhance facility and user control

Walkersville, MD, February 9 - Galaxy Control Systems has released two new mobile apps that enhance the unique capabilities of the company's powerful System Galaxy access control software solution. Each app is designed to provide users with greater control capabilities for common functions related to facilities and people from anywhere and at any time.

"Given the growth of mobile technologies, users expect to be able to control their facilities and people from wherever they are, without needing to be tied to a desk or terminal," said Robert Laughlin, President, Galaxy Control Systems. More

Salient CRGT to provide IT services to the U.S. Nuclear Regulatory Commission

Fairfax, VA, February 8 - Salient CRGT, Inc., a leading provider of full lifecycle information technology and training services, today announced a task order award from the U.S. Nuclear Regulatory Commission (NRC). Salient CRGT will deliver a Master Data Management (MDM) Solution and Enterprise Data Exchange services that maximize the use of existing technology and minimize manual processes. This two-year award is valued at approximately $1.44 million.

Salient CRGT will build, test, deploy, and implement highly reliable, cost-effective, and secure MDM Solution. Salient CRGT will implement the Solution according to enterprise-wide technology standards using an Agile methodology. Following Agile principles is essential to the success of this fast-paced high priority initiative. More

PennDOT, State Police highlight highway safety laws to increase awareness, safety

Harrisburg, PA, February 18 - Pennsylvania Department of Transportation (PennDOT) SecretaryLeslie S. Richards and State Police Commissioner Tyree Blocker today urged drivers to review and obey driver safety laws that can often be overlooked.

"We look to create awareness surrounding laws that drivers may not pay attention to, but also to provide reminders as to what each law entails," Secretary Richards said. "PennDOT and the Pennsylvania State Police feel it is important to raise awareness through education and outreach, but to also spark conversation via social media." More

Intermap executes US$175 Million Orion Platform® Spatial Data Infrastructure Contract

Denver, CO, February 5 - Intermap Technologies Corporation, a leading provider of geospatial solutions, today announced that it has entered into definitive agreements, pertaining to the previously announced letter of award (see June 22, 2015, September 29, 2015, and December 31, 2015, press releases) for the creation, operation and maintenance of a national spatial data infrastructure ("SDI") program.

Todd Oseth, Intermap

Under the terms of the Contract, the statement of work for the Project's initial three-year implementation phase is valued at US$143 million, earned on a monthly milestone payment basis, with a US$12 million down payment due upon financial close. More

THIS WEEK IN POLITICS

Flint Fallout, Corruption in Court and One State's New Supermajority

BY ALAN GREENBLATT

This was a busy week in politics -- but then, practically every week is. That's why *Governing* is offering this new weekly newsletter.

We won't cover the presidential campaign -- you can find plenty of that elsewhere. Instead, we aim to share with you the most interesting and important developments in state and local politics each week.

You can sign up for a free subscription here.

ADVERTISEMENT ... Content continues below

Flint Curbs Snyder's Future

Although it's premature to call him a lame duck, Michigan Gov. Rick Snyder's political capital has clearly been diminished by the Flint water crisis. During his State of the State address on Tuesday, Snyder offered lots of apologies: "You did not create this crisis;" "Government failed you;" and, "I'm sorry."

Since winning re-election in 2014, Snyder had been mentioned as a potential presidential or vice presidential pick on the Republican side. That kind of talk, however, has abruptly ended. "Even some Michigan Republicans concede that Snyder's national prospects are toast, at least in the short term," reports *Politico*. **KEEP READING >>**

Top Stories

JANUARY 30, 2016

Welcome to a special Saturday edition of GovTech Today, where we recap our best stories of the week — just in case you missed them. Thanks for spending a little bit of your weekend with us.

Anonymous Activates #OpFlint: According to the hacker group, OpFlint promises online attacks directed toward Michigan Gov. Rick Snyder's administration in response to the Flint water emergency, which has dominated national headlines recently. Though Vocativ.com says the video doesn't explain any specifics of Anonymous' attack plan, it does assure to those affected by the water crisis that, "We will amplify your voice where the mainstream media will surely fail you, as it has in the past." See what Michigan officials had to say about the threat.

Speed Up by Slowing Down: It's becoming increasingly difficult to stay current with emerging technologies while mitigating security vulnerabilities. So what can be done to keep up? Surprisingly, it may be best to slow down, look around and catch your breath. That's right — if you want to speed up innovation, many experts suggest slowing down first.

Emerging Tech Affects Jobs: A new study has some worrisome revelations for the future of the global job market: By 2020, more than 5 million jobs could disappear in the wake of advancing technology. And those in the public sector are not immune.

SF's Startup in Residence: Building on a program from 2014, the San Francisco Mayor's Office of Civic Innovation announced during a Jan. 28 press conference the 2016 Startup in Residence program that includes a regional partnership with the neighboring cities of Oakland, San Leandro and West Sacramento. The ultimate goal? To build toward an international program.

Most Popular

Creative Mapping: As government data collection expands, and as more of that data becomes publicly available, more people are looking to maps as a means of expressing the information. Depending on the type of application, a map can be useful for both the government and its constituents. Here are 7 ways local governments have gotten creative in mapping open data.

Editor's Choice

Civic Innovation's Next Phase: The public-sector technology market has evolved to be broader and more robust. Now known as the GovTech market, it has come into its own, emerging as a stand-alone industry composed of hundreds of startup companies even after no fewer than 23 acquisitions, and having attracted $1 billion in private capital investment. Our GovTech100 is a list of the top 100 companies focused on government customers.

Industry Resources from Our Partners

Trouble Managing Cloud Environments?

Looming Tech Bubble? Despite what mainstream headlines say, experts are divided as to whether there's a tech bubble that signals impending doom or a new opportunity for savvy business people. But for those on the ground in the valley, there is a strange sense of optimism, like the lurking clouds might hold a silver lining.

Subject: City of Flint

Eric – I'm part of a group along with DEQ assigned to the Flint issue. In meetings with Flint, it was discussed that they are currently undertaking a project with UM-Flint to assist with the mapping of their lead lines using the property cards and GIS. This is a heavy lift. At the meeting I suggested that maybe the State could assist and therefore the reason for my phone call on Monday and email today to you. Would you have time yet this week to reach out to Howard Croft, Director of Public Works to discuss this issue? He is working with a Dr. Marty Koffman at UM. Howard can be reached at 810-766-7135 ext 2043 or hcroft@cityofflint.com. It may be that there is not anything the State can do but I thought with your expertise in GIS, it would be at least worth asking. As you may know, this assistance to Flint is a priority for the Governor.

Please don't hesitate to contact me if you have additional questions.

Shelly

Subject: Time Sensitive Request

SMT,

Jean Ingersoll is leading DTMB's effort to comply with document production requests related to freedom of information requests and certain lawsuits against the state.

At some point during the day tomorrow, Jean will share with you a list of standard "search terms" which we will use to compile documents related to this lawsuit.

<u>Within 2 hours</u> of receiving this email from Jean, you need to respond with a list of likely custodians from your work area. Jean may have more information on this tomorrow, but generally speaking a custodian will be a staff member who might reasonably be expected to have documents (electronic or otherwise) that correspond to the issues identified in the search terms.

If you have any questions, please call me or Jean. This is an important issue and I thank you in advance for your attention to this matter.

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY
OFFICE OF ENFORCEMENT AND COMPLIANCE ASSURANCE
WASHINGTON, D.C.

IN THE MATTER OF:	:	Proceedings Pursuant To
	:	Section 1431 of the Safe Drinking
City of Flint, Michigan; Michigan	:	Water Act, 42 U.S.C. § 300i
Department of Environmental	:	
Quality; and the State of Michigan,	:	EMERGENCY
	:	ADMINISTRATIVE ORDER
Respondents.	:	

I. INTRODUCTION

1. The Safe Drinking Water Act ("SDWA" or "Act") provides the U.S. Environmental Protection Agency ("EPA" or "Agency") with the authority to order actions when an imminent and substantial endangerment exists and the actions taken by the state and/or local authorities are inadequate to protect public health. EPA has determined that the City of Flint's and the State of Michigan's responses to the drinking water crisis in Flint have been inadequate to protect public health and that these failures continue. As a result, EPA is issuing this SDWA Emergency Order ("Order") to make sure that the necessary actions to protect public health happen immediately. The Order requires that necessary information be provided promptly to the public in a clear and transparent way to assure that accurate, reliable, and trustworthy information is available to inform the public and decisions about next steps. In addition to the issuance of this Order, EPA will promptly begin sampling and analysis of lead levels in tap water in the City of Flint's public water system ("PWS"). EPA will publish these sampling results on its website to provide the public with transparency into the process to abate the public health emergency in the City of

Flint. In the coming weeks, EPA may take additional actions under the SDWA to address the situation in the City of Flint.

II. STATUTORY AUTHORITY

2. This Order is issued under the authority vested in the Administrator of the EPA by Section 1431 of the SDWA, 42. U.S.C. § 300i. This Order is issued for the purpose of protecting the health of persons who are supplied drinking water by a PWS with conditions that may present an imminent and substantial endangerment to human health.

III. FINDINGS OF FACT

3. The City of Flint, Michigan ("City") owns and operates a PWS that provides piped drinking water for human consumption to its nearly 100,000 citizens.
4. From December 2011 through April 2015, an emergency manager was appointed by the State of Michigan ("State") under Public Act 436 to oversee the management of the City during its financial crisis. During that time, the City became a partner with the Karegnondi Water Authority ("KWA") and decided to no longer purchase treated drinking water from the Detroit Water and Sewerage Department ("Detroit").
5. The Michigan Department of Environmental Quality ("MDEQ") has primary responsibility for the implementation and enforcement of the public water system program in Michigan.
6. Before April 2014, the City purchased finished drinking water from Detroit.
7. On or around April 25, 2014, the City ceased purchasing treated drinking water from Detroit and began drawing water from the Flint River as its source water.

8. Between July and December 2014, the City conducted the first of two rounds of six month lead sampling under the Lead and Copper Rule ("LCR"), 40 C.F.R. § 141.80 *et seq.*

9. The City conducted the second of two rounds of six month lead sampling under the LCR between January and June 2015. These rounds of sampling showed that the levels of lead in the City water supply were rapidly rising.

10. On or about April 24, 2015, MDEQ notified EPA that the City did not have corrosion control treatment in place at the Flint Water Treatment Plant.

11. During May and June, 2015, EPA Region 5 staff at all levels expressed concern to MDEQ and the City about increasing concentrations of lead in Flint drinking water and conveyed its concern about lack of corrosion control and recommended that the expertise of EPA's Office of Research and Development should be used to avoid further water quality problems moving forward.

12. On July 21, 2015, EPA Region 5 discussed with MDEQ the City's lead in drinking water issues and implementation of the LCR and MDEQ agreed to require corrosion control as soon as possible.

13. On August 17, 2015, MDEQ sent a letter to the City recommending the City implement corrosion control treatment as soon as possible, but no later than January 1, 2016, and to fully optimize its treatment within six months.

14. On August 31, 2015, EPA Region 5 had a call with MDEQ to discuss outreach to citizens to reduce exposures to high lead levels in Flint drinking water and reiterate EPA's offer of technical assistance in implementing corrosion control treatment.

15. On September 3, 2015, Flint Mayor Dayne Walling announced that the City will implement corrosion control treatment and invited EPA corrosion control experts to join the Flint Technical Advisory Committee ("Flint TAC").

16. On September 27, 2015, EPA Region 5 Administrator Susan Hedman called MDEQ Director Dan Wyant to discuss the need for expedited implementation of corrosion control treatment, the importance of following appropriate testing protocols, urged MDEQ to enlist Michigan Department of Health and Human Services' involvement and discussed options to provide bottled water/premixed formula/filters until corrosion control is optimized.

17. On October 7, 2015, the Flint TAC met about the City's corrosion control and treatment. The Flint TAC recommended returning to Detroit water as the best course of action for the City.

18. On October 16, 2015, EPA established the Flint Safe Drinking Water Task Force ("EPA Flint Task Force") to provide the Agency's technical expertise through regular dialogue with designated officials from MDEQ and the City.

19. On or around October 16, 2015, the City switched back to purchasing finished water from Detroit, now called the Great Lakes Water Authority.

20. On November 25, 2015, the EPA Flint Task Force requested information that would allow EPA to determine the progress being made on corrosion control in the City; this information has not been received by EPA. This information includes water quality parameter measurements (pH, total alkalinity, orthophosphate, chloride, turbidity, iron, calcium, temperature, conductivity) in the distribution system. The EPA Flint Task Force has also made subsequent requests and recommendations.

http://www.epa.gov/mi/flint-drinking-water-documents The City is required by its MDEQ permit to monitor for these parameters at 25 sites quarterly and at 10 of these sites weekly. Because the City has not provided the information requested by the EPA Flint Task Force EPA does not have the information that would provide any assurance that contamination in the City's water system has been controlled.

21. On or around December 9, 2015, the City began feeding additional orthophosphate at the Flint Water Treatment Plant to begin optimizing corrosion control treatment. Notwithstanding the orthophosphate addition, high levels of lead and other contaminants are presumed to persist in the City's water system until LCR optimization process, utilizing sampling and monitoring requirements, have confirmed lead levels have been reduced.

22. On December 14, 2015 the City declared an emergency.

23. On January 14, 2016, the Governor of the State requested a declaration of major disaster and emergency and requested federal aid.

24. On January 16, 2016, the President of the United States declared a federal emergency in the City.

25. The presence of lead in the City water supply is principally due to the lack of corrosion control treatment after the City's switch to the Flint River as a source in April 2014. The river's water was corrosive and removed protective coatings in the system. This allowed lead to leach into the drinking water, which can continue until the system's treatment is optimized.

26. Lead occurs in drinking water from two sources: lead in raw water supplies and corrosion of plumbing materials in the water distribution system (i.e., corrosion

byproducts). Most lead contamination is from corrosion byproducts. The amount of lead in drinking water attributable to corrosion byproducts depends on a number of factors, including the amount and age of lead bearing materials susceptible to corrosion, how long the water is in contact with the lead containing surfaces, and how corrosive the water in the system is toward these materials. *Final Rule: Maximum Contaminant Level Goals and National Primary Drinking Water Regulations for Lead and Copper*, 56 *Fed. Reg.* 26460, 26463 (June 7, 1991).

27. EPA has set the Maximum Contaminant Level Goal ("MCLG") at zero for lead because (1) there is no clear threshold for some non-carcinogenic lead health effects, (2) a substantial portion of the sensitive population already exceeds acceptable blood lead levels, and (3) lead is a probable carcinogen. 56 *Fed. Reg.* at 26467. Pregnant women, unborn children, and children under the age of six are particularly sensitive to lead exposure.

28. The concentration of lead in whole blood has been the most widely used index of total lead exposure. Lead exposure across a broad range of blood lead levels has been associated with a spectrum of patho-physiological effects, including interference with heme synthesis necessary in the formation of red blood cells, anemia, kidney damage, impaired reproductive function, interference with vitamin D metabolism, impaired cognitive performance (as measured by IQ tests, performance in school, and other means), delayed neurological physical development, and elevation in blood pressure. 56 Fed. Reg. 26467-68.

29. EPA finds that consumption of lead in water contributes to increase in blood lead levels. The Centers for Disease Control and Prevention uses a reference level of 5

micrograms per deciliter to identify children with elevated blood lead levels. This new level is based on the U.S. population of children ages 1 – 5 years who are in the highest 2.5% of children when tested for lead in their blood. http://www.cdc.gov/nceh/lead/acclpp/blood_lead_levels.htm

30. Under the LCR, the "action level" for lead is the concentration of lead at which corrective action is required. 40 C.F.R. § 141.2.

31. EPA's LCR includes requirements for corrosion control treatment, source water treatment, lead service line replacement, and public education. These requirements are triggered, in some cases, by lead and copper action levels measured in samples collected at consumers' taps. The action level for lead is exceeded if the concentration of lead in more than 10 percent of tap water samples collected during the monitoring period conducted in accordance with 40 C.F.R. § 141.86 is greater than 0.015mg/L (i.e., if the "90th percentile" is greater than 0.015mg/L). 40 C.F.R. § 141.80(c). When a large system exceeds this action level, the LCR requires the system to: 1) implement public education requirements; 2) implement all applicable source water treatment requirements specified by the primacy agency under 40 C.F.R. § 141.83; and (3) if the system is exceeding the action level after implementation of all applicable corrosion control and source water treatment requirements, then the system must replace lead service lines in accordance with 40 C.F.R. § 141.84.

32. All large systems (over 50,000 persons) are required to either complete corrosion control treatment steps in 40 C.F.R. § 141.91(d) or be deemed to have optimized corrosion control treatment under 40 C.F.R. § 141.81(b)(2) or (b)(3).

33. Based on the foregoing, EPA finds that water provided by the City to residents poses an imminent and substantial endangerment to the health of those persons. Those persons' health is substantially endangered by their ingestion of lead in waters that persons legitimately assume are safe for human consumption. This imminent and substantial endangerment will continue unless preventive actions are taken.

34. The City, MDEQ and the State have failed to take adequate measures to protect public health. Although some progress has been made in addressing the drinking water crisis in the City, there continue to be delays in responding to critical EPA recommendations and in implementing the actions necessary to reduce and minimize the presence of lead and other contaminants in the water supply both now and in the near future. The Respondents have failed and continue to fail to provide the information necessary for EPA, the EPA Flint Task Force and the City's PWS customers to fully understand and respond promptly and adequately to the current deficiencies. EPA remains concerned that the City lacks the professional expertise and resources needed to carry out the recommended actions and to safely manage the City's PWS.

35. In accordance with SDWA Section 1431(a), 42 U.S.C. § 300i(a), to the extent practicable EPA has consulted with state and local authorities regarding the information on which this EPA action is based.

36. This Order and the requirements set forth herein are necessary to ensure adequate protection of public health in the City.

37. As a result of the emergency, EPA will promptly begin sampling and analysis of lead levels and other contaminants in the City to assure that all regulatory authorities and the public have accurate and reliable information.

38. EPA will make its LCR sampling results available to the public on the Agency's website..

IV. CONCLUSIONS OF LAW

39. Section 1431 (a), 42 U.S.C. § 300i(a), specifies that the EPA Administrator, upon receipt of information that a contaminant which is present in or likely to enter a public water system that may present an imminent and substantial endangerment to the health of persons, and that State and local authorities have not acted to protect the health of such persons, may take such actions as she may deem necessary in order to protect the health of such persons.

40. The City owns and operates a "public water system" within the meaning of SDWA Section 1401.

41. MDEQ is an instrumentality of the State.

42. The City, State and MDEQ are "persons" as defined in SDWA Section 1401(c)(12).

43. Respondents' cessation of purchased water from Detroit and switch to the Flint River as its source water triggered a cascade of events that directly resulted in the contribution of lead and other "contaminants" that are within the meaning of SDWA Sections 1401(c)(6) and 1431 of the Act.

44. The contaminants introduced by Respondents are present in or likely to enter a PWS.

45. Based upon the information and evidence, EPA determines that Respondents' actions that resulted in the introduction of contaminants, which entered a public water system

and have been consumed and may continue to be consumed by those served by the public water system, present an imminent and substantial endangerment to the health of persons.

46. The lead and other contaminants will remain present in the PWS and will continue to present an imminent and substantial endangerment to the health of persons until the underlying problems with the corrosion control treatment and fundamental deficiencies in the operation of the PWS are corrected and sampling results confirm the lead and other contaminants are adequately treated.

47. Respondents have failed to take adequate measures to protect public health.

48. The EPA has consulted with the State and local authorities, to the extent practicable, to confirm the correctness of the information upon which this ORDER is based and to ascertain the actions which such authorities are or will be taking. All requisite conditions have been satisfied for the EPA action under SDWA Section 1431(a)(1), 42 U.S.C. § 300i(a)(1).

49. The EPA finds that there is an imminent and substantial endangerment to the people drinking water from the public water system of the City of Flint and that the actions taken by the State and/or the City are inadequate to protect public health. The actions required by this ORDER are necessary to protect the health of persons who are currently consuming or who may consume or use water from the City's PWS.

V. ORDER

Based on the foregoing Findings and Conclusions, and pursuant to Section 1431 of the Act, 42 U.S.C. 300i,

IT IS ORDERED:

Intent to Comply

50. Within one day of the effective date of this Order, Respondents shall notify EPA in writing of their intention to comply with the terms of this Order. For the purposes of this Order, "day" shall mean calendar day.

Reporting Requirements

51. Within five days of the effective date of this Order, the State shall create, and thereafter maintain, a publicly available website. Respondents must post on this website all reports, sampling results, plans, weekly status reports on the progress of all requirements and all other documentation required under this Order. The Respondents shall not publish to this website any personally identifiable information.

Response to EPA Flint Task Force Recommendations, Requests for Information and Sampling Activities

52. The Respondents shall within 10 days of the effective date of this Order respond in writing, in accordance with Paragraph 51, to all of the EPA Flint Task Force's requests and recommendations made on November 25, 2015 and subsequent dates. The response shall include all actions Respondents have taken and intend to take in response to those requests and recommendations. The EPA Flint Task Force's requests and recommendations are publicly available at http://www.epa.gov/mi/flint-drinking-water-documents.

53. Within 10 days of the effective date of the Order the Respondents shall provide the following information in accordance with Paragraph 51:

    a. Water quality parameter measurements (pH, total alkalinity, orthophosphate, chloride, turbidity, iron, calcium, temperature, conductivity) in the distribution

system. The City is required by the MDEQ permit to monitor for these parameters at 25 sites quarterly and at 10 of these sites weekly;

b. All lead in water testing results for the City since January 2013, including those not used for LCR compliance; and

c. Identification of areas (e.g., zip codes, neighborhoods) in the City with elevated blood lead levels.

54. Within 10 days of the effective date of the Order, the Respondents shall provide, without publicly disclosing any personally identifiable information, the following directly to the EPA in accordance with Paragraph 66:

a. Existing inventory of homes with lead service lines in Excel or a similar format;

b. Addresses of homes that have had water service interruptions or street disturbances (e.g., water main breaks, road/sidewalk construction, etc.) within the last year; and

c. Addresses of currently unoccupied homes.

55. Respondents shall cooperate with EPA as the Agency conducts LCR sampling and other diagnostic activities in the City.

Treatment and Source Water

56. To ensure that treated water meets finished water quality goals and is consistently maintained throughout the distribution system, that existing and potential plant operational and mechanical start-up issues are identified and addressed, and that water plant operations staff are proficient in treating the existing and new source water, Respondents shall comply with Paragraphs 57, 58 and 59.

57. Respondents shall maintain chlorine residual in the distribution system in accordance with SDWA and the National Primary Drinking Water Regulations ("NPDWRs").

58. The City shall continue to add corrosion inhibitors (e.g., orthophosphate booster) at levels sufficient to re-optimize corrosion control in the distribution system.

59. To address optimization of corrosion control for the system as operated with its current water source, within 14 days of the effective date of this Order the Respondents shall submit to MDEQ and post in accordance with Paragraph 51:

    a. Submit a plan and schedule to the MDEQ to review and revise as needed designated optimal corrosion control and water quality parameters as well as monitoring plans for LCR compliance and all other monitoring plans developed to ensure that the treatment plant is consistently and reliably meeting plant performance criteria and all other NPDWRs;

    b. Submit a sampling plan for daily monitoring of water quality parameters in the distribution system with results compiled in a weekly report in an approved format; and

    c. Submit an operations plan for the corrosion control equipment (storage day tanks, feed/injection systems), with results compiled in a weekly format, that includes monitoring, calibration, verification (pump catch, etc.) as well as daily monitoring of finished water corrosion control parameters. Results shall be submitted and posted weekly.

60. Respondents shall not effectuate a transition to a new water source for the City's PWS (e.g., from KWA) until such time as they have submitted a written plan, developed through consultation with appropriate experts and after providing adequate

advanced notice and an opportunity for public comment, to MDEQ and in accordance with Paragraph 51, demonstrating that the City has the technical, managerial and financial capacity to operate its PWS in compliance with SDWA and the NPDWRs and that necessary infrastructure upgrades, analysis, and testing have been completed to ensure a safe transition. Such plans shall include, but not be limited to, provisions addressing:

a. The impacts on corrosion control for any new source water and an operations plan for periodic use of existing sources of water;

b. Completion of corrosion control study for any new sources;

c. Implementation of a "performance period" that allows for the demonstration of the adequacy of treatment of the new water source to meet all NPDWRs before it can be distributed to residents; and

d. The City's technical, managerial and financial capacity to meet SDWA's applicable requirements, including the NPDWRs, during and after the transition to any new water source.

Treatment and Distribution System Management

61. Within 15 days of the effective date of this Order, the City must demonstrate, and the MDEQ and State must ensure, the City has the necessary, capable and qualified personnel required to perform the duties and obligations required to ensure the PWS complies with the SDWA and the NPDWRs.

62. To ensure the City's PWS is adequately operated to meet SDWA and all NPDWRs, within 30 days of the effective date of this Order, the Respondents shall submit the steps they will take to develop and implement a distribution system water quality

optimization plan to MDEQ and in accordance with Paragraph 51, to evaluate and improve its programs that affect distribution system water quality, including: evaluating conditions within the distribution system; creating better documentation; and enhancing communication between the various utility functions that impact distribution system water quality. The MDEQ must ensure that this plan is adequate to ensure SDWA compliance and the State must ensure it is executed.

Independent Advisory Panel ("IAP")

63. Within seven days of the effective date of this Order, the MDEQ and State, with the City's input and concurrence, shall engage a panel of independent, nationally-recognized experts on drinking water treatment, sampling, distribution system operation, and members of the affected community to advise and make public recommendations to the City on steps needed to mitigate the imminent and substantial endangerment to the health of persons and general operation of the City's PWS to ensure compliance with SDWA and the NPDWRs.

64. The charge to the IAP will include the following:

    a. Make recommendations to the Respondents, and for consideration by the EPA, to ensure the safe operation of the City's PWS.

    b. Make other recommendations to the Respondents, and for consideration by the EPA, to better serve the community served by the City's PWS.

VI. PARTIES BOUND

65. The provisions of this Order shall apply to and bind Respondents and their officers, employees, agents, successors and assigns.

VII. GENERAL PROVISIONS

66. All submittals and inquiries pursuant to this Order shall be addressed to:

Mark Pollins, Director
Water Enforcement Division
Office of Enforcement and Compliance Assurance
United States Environmental Protection Agency
William Jefferson Clinton South Building
1200 Pennsylvania Avenue NW
Room 3104
Washington, DC 20460
pollins.mark@epa.gov

67. All plans, reports, notices or other documents submitted by Respondents under this Order shall be accompanied by the following statement signed by a responsible official.

"I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering such information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations."

68. Record preservation. Respondents shall retain, during the pendency of this Order, and for a minimum of six years after its termination, all data, records and documents in its possession or control, or which comes into its possession or the possession of its divisions, officers, directors, employees, agents, contractors, successors, and assigns, which relate in any way to this Order. After the above mentioned six year period, Respondents shall provide written notification to EPA 60 calendar days before the destruction of any data, records, or documents that relate in any way to this Order or its implementation. At the EPA's request, Respondents shall then make records available to the EPA for inspection and/or retention, or shall provide copies of any such records to EPA before discarding.

69. Within 10 days of the effective date of this Order, or at the time of retaining any agent, consultant, or contractor for the purpose of carrying out terms of this Order, Respondents shall enter into an agreement with any such agents, consultants, or contractors whereby such agents, consultants, or contractors will be required to provide Respondents a copy of all documents produced under this Order.

70. EPA retains all of its information gathering and inspections authorities and rights, including the right to bring enforcement actions related thereto, under SDWA and any other applicable statutes or regulations.

71. Pursuant to SDWA Section 1431(b), 42 U.S.C. § 300i, in the event Respondents violate, fail or refuse to comply with any of the terms or provisions of this Order, EPA may commence a civil action in U.S. District Court to require compliance with this Order and to assess a civil penalty of up to $21,500 per day of violation under SDWA, as adjusted by the Federal Civil Penalties Inflation Adjustment Act of 1990, amended by the Debt Collection Improvement Act of 1996, and the subsequent Civil Monetary Penalty Inflation Adjustment Rule, 40 C.F.R. Part 19.

72. Compliance with the terms and conditions of this Order shall not in any way be construed to relieve Respondents of their obligations to comply with all applicable provisions of federal, state, or local law, nor shall it be construed to be a determination of any issue related to any federal, state, or local permit. Compliance with this Order shall not be a defense to any actions subsequently commenced for any violation of federal laws and regulations administered by EPA, and it is the responsibility of Respondents to comply with such laws and regulations.

73. EPA may modify this Order to ensure protection of human health and the environment. Such modification shall be in writing and shall be incorporated into this Order.

74. This Order shall constitute final agency action by EPA.

VIII. EFFECTIVE DATE

75. Under SDWA Section 1431, 42 U.S.C. § 300i, this Order shall be effective immediately upon Respondents' receipt of this Order. If modifications are made by the EPA to this Order, such modifications will be effective on the date received by Respondents. This Order shall remain in effect until the provisions identified in the Order have been met in accordance with written EPA approval.

IX. TERMINATION

76. The provisions of this Order shall be deemed satisfied upon Respondents' receipt of written notice from the EPA that Respondents have demonstrated, to the satisfaction of the EPA, that the terms of this Order, including any additional tasks determined by EPA to be required under this Order or any continuing obligation or promises, have been satisfactorily completed.

VIDEO: What Governor Snyder's FY17 budget means for Michigan

Gov. Rick Snyder's FY 2017 budget calls for critical investments for the Flint water crisis, statewide infrastructure and the Detroit Public Schools. The governor's recommendation also addresses the skyrocketing costs of specialty medications that Michigan residents depend on for better health outcomes.

This budget also stays committed to the Governor's core statewide priorities of education, talent and economic development, health and human services, and public safety.

The proposed FY 2017 budget makes key investments to strengthen the state for all of

Michigan's families. Click here to learn more about the top 6 takeaways from the Governor's FY 2017 state budget.

Click a tweet to tweet it out:

The #MIBudget @OneToughNerd proposed yesterday makes key investments to strengthen Michigan for all families --> www.mi.gov/MIBudget

--> @OneToughNerd's #MIBudget includes $72 million a year for Detroit Public Schools. It is time to act now -- > www.mi.gov/MIBudget

--> @onetoughnerd's significant investment in #Flint families is the right thing to do. #FlintFWD #MIBudget www.mi.gov/MIBudget

Subject: The Gov. Snyder's Budget Proposal

Good morning everyone. I hope everyone had a great holiday weekend.

I had the good fortune to travel to Marquette on Monday with Chad Laidlaw, DTMB's policy and planning analyst, to meet with city, business and university leaders and to address the Economic Club of Marquette. I told them about the many things DTMB does, placing special emphasis on our work in mobility and cybersecurity. Marquette is really developing and making its mark as an innovative and entrepreneurial community.

Now work.

The executive budget Gov. Snyder presented last week outlined his investment plan for Michigan. Yes, the proposal for fiscal year 2017-18 outlined a strategy to address the critical challenges of addressing the Flint water crisis and turning around Detroit's Public Schools, but the $54.9 billion plan also includes investment in four key areas:

- **Education.** The budget increases investment to K-12 schools, community colleges and the state's public universities. Additional funds are proposed to expand career, technical, science, technology, engineering and math programs.
- **Protecting the Public.** The governor's plan expands the Secure Cities program, which has reduced violent crime in four major Michigan cities. Funds also would support an additional trooper recruit school and an academy to train corrections officers, among other initiatives.
- **Putting People First.** The governor recommends continued expansion of the Healthy Kids Dental Program and funding efforts to ensure residents have access to affordable health care. His proposal boosts funds to help cover new higher cost specialty medications to treat conditions such as hepatitis C and cystic fibrosis, among others.
- **Investing in Infrastructure.** The proposal allocates $1.2 billion to maintain and repair Michigan roads, bridges and other critical infrastructure.

The budget proposal also includes FY 2017-18 funding recommendations for DTMB. Gov. Snyder recommends ongoing funding of $1.3 billion for department operations and a one-time allocation of $32.4 million.

A few highlights include:

- $502 million for information technology support for all state agencies and $132.8 million for 14 high-priority IT projects in seven agencies. He recommends increasing the Information Technology Investment Fund by $7 million, from $65 million to $72 million. This fund supports several major multiyear IT projects and upgrades, including the replacement of outdated legacy systems.
- An additional $5 million to support cybersecurity improvements to safeguard citizens' personal information and protect critical infrastructure and government services.
- IT support of $6.5 million to modernize the Office of Retirement Services' systems and enhance customer service for more than 530,000 current and future retirees.

You can see the full executive budget recommendations, which are posted on the Budget Office website. Details of DTMB's proposed budget begin on page B-75.

We can expect to see many changes before the budgets are signed and become effective Oct. 1. The executive budget will be used by the House and Senate Appropriations Committees as they work on their own budgets and hold committee hearings on the proposals. I'll keep you posted as the process moves ahead.

As always, I welcome your notes, whether about the budget process or any other topic. Please send them to me at behend@michigan.gov.

Thank you again for all the good work you do. I hope you have a great week ahead.

David

Subject: RE: FTP Environment - DEQ

Hello Laurie,

I have spoken with Susan, this is what she said:

The Gelman Project has nothing to do with the Flint Water Crisis
Currently the Access Database provides PDF output
All the information is Public Knowledge
The public should not be able to change any information provided from the database
When she attempted to have the database placed on the site, http://www.michigan.gov/deq they were told they couldn't place anything out there for more than 24 hours
Ideally, the Agency is looking for a permanent home for the database to be housed

Based on our conversation, it seems that an APP or a link housed on the DEQ site should work just fine. I don't see the need for a portal or login information should be necessary.

Does this provide a better idea? Can your team assist?

Thanks,
Rachelle

Subject: RE: FTP Environment - DEQ

Hello Laurie,

Is this extranet site request in coordination with the Enterprise Information Management initiative? I am not sure what this is; being new to the Client Specialist roles, I have not hear of the initiative as of yet, unless this is what Jennifer Merricle was speaking of when she suggested I track down someone in CSS regarding the extranet site/project.

You said this site needs to be accessible by the public. Does that mean anyone, or your DEQ partners? Can we assume that a login will be required? Yes anyone. The site is highly controversial and could pull more than just the local public and authorities.

What is the timeline for this request? As soon as we are able to get something like this up and going.

*** Sorry for the red letters, I wanted to make sure you could distinguish between your questions and my responses ☺ ***

Thanks,
Rachelle

If it needs to be accessible to the public, it wouldn't be a SharePoint extranet site. We use Live ID's to allow access. We also don't allow secure data right now (waiting for multi-factor).

I've cc'd my manager incase she's heard of anything.

You are probably already aware of this, but the Flint water website has an .xls file with lead testing results for Flint homes by address. It might be interesting to run it through MAR and see if we can visualize neighborhoods. The addresses near the bottom of the file have lots of cells highlighted in red. I understand the challenge of an address that has multiple units on it, but in this case the results could still be visually informative since I assume the same supply lines feed all the units.

Virginia,

I have time later this morning if you are in that I can stop down to discuss a couple of items that came up last week about MAR and Flint.

Mark

Subject: Volunteer Opportunity in Flint

The State Emergency Operations Center (SEOC) is coordinating a response to the ongoing health and safety issues in the city of Flint's drinking water. Teams from the Michigan State Police, Genesee County Sheriff's Department, Michigan Department of Health and Human Services, and volunteer organizations have been delivering bottled water, water filters, replacement cartridges and water testing kits at homes in the city of Flint since Tuesday.

To help with this critical work, the SEOC is looking for volunteers to expand this effort and continue this distribution during the upcoming holiday weekend. Teams are being assembled for shifts on Saturday, January 16; Sunday, January 17; and Monday, January 18, 2016. If you are interested in volunteering your time for this critical work, please complete the information in one of the attached surveys (depending on which day you are volunteering).

To volunteer on Saturday, January 16, https://www.surveymonkey.com/r/28NVJBL

To volunteer on Sunday, January 17, https://www.surveymonkey.com/r/26NMJKK

To volunteer on Monday, January 18, https://www.surveymonkey.com/r/26P7P5G

Volunteers will begin their assignment at the Local Emergency Operations Center located in the Genesee County Administration Building located at 1101 Beach St, Flint at 9 a.m. and end by 4 p.m. Parking is available at the corner of Beach Street and 8th Street. Lunch will be provided. This is strictly a volunteer effort, as all three days will be unpaid. Volunteers are responsible for their own transportation; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

This opportunity is for state employees and their immediate family members 16 years of age or older only, others looking to assist should volunteer through the American Red Cross in Flint. The volunteer coordination center for the Red Cross is located at 1401 S. Grand Traverse, Flint, MI. They are open from 9 a.m. to 7 p.m.

For more information on the state's response efforts, visit www.michigan.gov/flintwater.

Subject: State of the State

Good Morning John,

A few items related to tonight's State of the State that came up in meetings this morning .

- When will the link on the Governors page go live?
  - When it does go live will it link over to the House site or will it link directly the feed?
- Will there be Gov Website on-call/on-site support should there be problems with the stream?
  - If there are problems is there a failover plan?
  - Are you aware of any on-site support on the House side that will be ready to handle issues should they arise during the stream of the State of the State?

Sorry to dump a lot of questions on you but the suspected DoS attacks over the weekend have caused a lot of anxiety over here. In light of the suspected DoS attacks and the Flint water crisis we want to try and ensure the State of the State streams without a hitch.

Thanks,

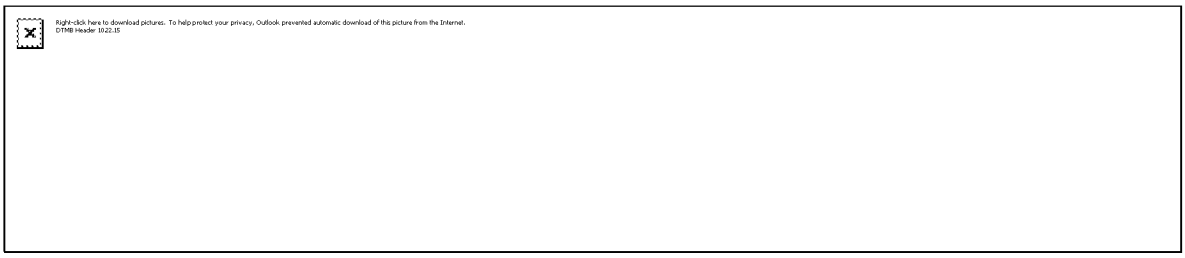
Subject: Flint Volunteer Efforts

Dear State Employees,

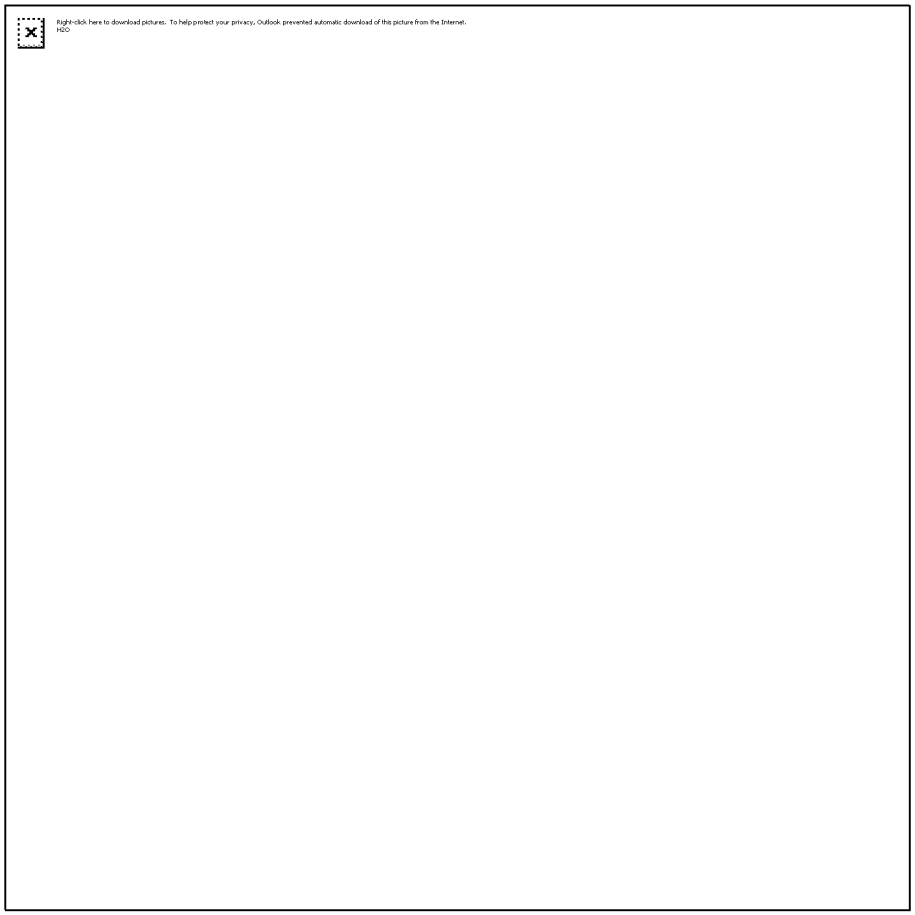
Gov. Rick Snyder and I want to thank everyone who donated their time during the holiday weekend to deliver bottled water, water filters, replacement cartridges and water testing kits to families in the city of Flint. We are working hard to ensure all residents are provided with the safe water resources they need, and each donation and hour of your time volunteered goes a long way.

For employees who would like to help the residents of Flint, there are several opportunities to do so. Please visit www.helpforflint.com to learn how you can help.



For additional information and updates, visit www.michigan.gov/flintwater.

Again, thank you for all your support.



Sincerely, Mike Zimmer
Office of Good Government Director
Dept. of Licensing and Regulatory Affairs Director

Subject: Contributing time, muscle and money

During this month's Martin Luther King Jr. holiday weekend, some state employees turned their "day off" into a "day on" in Flint. There, they delivered bottled water, water filters, replacement cartridges and water testing kits to families. The volunteers joined other Michiganders, turning Dr. King's birthday observance into a day of service.

Mike Zimmer, director of the Office of Good Government and the Department of Licensing and Regulatory Affairs, has shared a link – www.helpforflint.com – that offers other opportunities to contribute time, muscle and money to bring clean drinking water to the community.Here in DTMB, some of our employees didn't wait for an invitation to lend a hand. Office of Retirement Services staff contributed funds that were used to buy 31 cases and 23 gallons of water, which a local organization transported to Flint.

Autumn Hubbard, Ambrea Mack and Sarah Esquivel, who are in the photo at the left, nearly emptied the shelves at their local grocery store. Thanks for your efforts.

everyone.

Now work.

Last week, I signed a new policy that formalizes the annual employee review process and sets expectations for employees and managers. Administrative Policy 200.37 establishes consistent standards for implementing performance plans and reviews. Some of the standards are practices we have followed for years. Others are new. Some of particular note include:

- The mandatory use of HRMN
- A standard Feb. 1-Jan. 31 rating period for all employees
- An Individual Development Plan that specifies training or development programs for each employee
- Competencies and objectives that align to DTMB goals or scorecard metrics
- Consequences for managers and supervisors who do not complete the review process as required

A fundamental role of each DTMB manager or supervisor is to provide employees with direction and feedback on their performance. Employees also are expected to take an active role in pursuing professional development opportunities and achieving their competencies and objectives. I encourage you to review the new policy and talk with your manager or supervisor if you have questions. Of course, I welcome your questions and input as well. Please send your comments and ideas to me at behend@michigan.gov.

I know these have been busy weeks for many of you as you take on additional responsibilities and work hard to provide resources and services for our customers and citizens across the state. Please know that your hard work has not gone unnoticed. Thank you for everything you do, every day.

Have a great week,

David

Subject: Flint addresses

Hi John,

I've been thinking about our conversation at Zoup yesterday when you said that it would have been so great if the MAR PoC were complete and we could geocode the Flint addresses. You are probably already aware of this, but the Flint water website has an .xls file with lead testing results for Flint homes by address. It might be interesting to run it through MAR and see if we can visualize neighborhoods. The addresses near the bottom of the file have lots of cells highlighted in red. I understand the challenge of an address that has multiple units on it, but in this case the results could still be visually informative since I assume the same supply lines feed all the units.

http://michigan.gov/flintwater

Just a thought.

Subject: MDARD content listed as In Progress, not in anyone's workflow
Importance: High

John:

I thought this was just an issue with a single author, but now have a second confirmed cased of MDARD content showing as "In Progress" but not being in anyone's workflow.

Here are the four pieces that I am aware of:

372933 – Created by author Allie Fox last Friday.

372916 – All three of these were created by Lauren Dorland last week, either Thursday or Friday.
372920
372923

All four show a status of "**Currently in workflow:**: Assigned to: MDA_Publisher in workflow project MDA_Navigation" but I do not see them in my workflow and I logged in as both Lauren and Allie and it is not in their workflow either.

As I said in my voicemail, not sure if this is related to that issue we had last week where my MDARD Group of authors, publishers and admins disappeared for a short time, but it might.

At the very least if you can push this content to Live that would help us in the short run.

Hi Bob,

Sorry, he is training this morning but that is not an excuse for him not getting back to you.

I will have Rick look into it to see if he can find a resolution as well as getting the content through workflow.

Thanks,
John

Subject: RE: Sunday Jan. 17 update from the Flint Water Response Team

John, just FYI the mi.gov/flintwater URL wasn't working until I cleared the container cache for just /flintwater, probably due to the fact that it was previously a redirect. Michigan.gov/flintwater was working, however mi.gov was not.

From: Governor's Office
Sent: 1/17/2016 3:08 PM
To: stiffler165@gmail.com
Subject: Sunday Jan. 17 update from the Flint Water Response Team

This daily update is being issued in order to provide the latest information regarding actions and available resources.

WATER RESOURCES DISTRIBUTION
To date, more than 11,300 homes have been visited by the water response teams, comprised of local and state personnel, the American Red Cross and volunteers. Over the course of the holiday weekend, Flint residents and approximately 300 state employees and their family members are volunteering to help increase door to door efforts.

The following resources were distributed from Jan. 9 - Jan. 16 through door to door efforts and at water resource centers:

- 20,876 Cases of bottled water
- 47,935 Water filters
- 167,401 Water filter replacement cartridges
- 3,322 Water testing kits

To help enhance the water testing process, Flint residents can drop-off water samples to the five water resource sites. Samples will only be accepted by using the official water testing kits provided at the water resource sites and by the water response teams.

REMINDERS

- For Flint water assistance, donation, or volunteer information: Dial 211 or visit www.mi.gov/FlintWater
- Residents should install filters to their taps to ensure they have immediate and ongoing access to safe water. Only run cold water through the water filter and use filtered water for drinking and cooking.

WATER RESOURCE LOCATIONS

These sites are open seven days a week from 9 a.m. to 9 p.m. with the following resources:

- Bottled water
- Water filters
- Replacement cartridges for water filters
- Water testing kits pick-up
- Drop-off location for water testing kits

Fire Station #1
310 East 5th St.
Flint, MI 48502

Fire Station #3
1525 Martin Luther King Ave.
Flint, MI 48503

Fire Station #5

Flint, MI 48505

Fire Station #8
202 East Atherton Rd.
Flint, MI 48507

We will continue to work to improve the water situation in Flint. Community members and local officials are working together to make sure we hear and respond to concerns. Governor Snyder will continue to keep you updated on the latest news and information. **If you don't find the resources you need by dialing 211 please call the Governor's office directly at 517-335-7858.**

Subject: RE: State of the State 2016 preview

Greetings Josh,

Looks good. The page is Live but nothing is linking to it so that I can tell. So once 6pm rolls around the cache will clear an the press release will be visible.

Additionally, The speech mentioned the link would be visible from the mi.gov/Snyder so would you like to get a link on there as well?

Let me know your thoughts.

Kind Regards,

Joe Seckelman

Subject: RE: State of the State 2016 preview

Greetings,

Sounds good. We'll send the link to you once we have it. If you get the press release in now. The scheduled cache clear will automatically set things live or you can do a manual cache clear.

You can contact Rick through the on-call number if you need any help and have any questions or concerns.

I will be here until 420p, but after that Rick would be the best to contact.

Kind Regards,

Joe Seckelman

Greetings Josh,

That sounds good. We are thinking of a medium to put the file on as the Gov laptops and bit locker create a built in encryption when using the thumb drives so we would need to be able to decrypt it on our side.

Let me discuss a few options with rick and get back to you asap.

Kind Regards,

Joe Seckelman

Subject: RE: State of the State 2016 preview

Hi Josh,

Can we have you guys break the file up into files that are under 10MB a piece. If we place one 38MB file on the site and a lot of people try downloading it at the same time it will bring the portal to a crawl and the file will eventually become unavailable because too many people are trying to access that one file.

If we break it up into to smaller files it will spread the load across multiple files and lessen the risk.

Thanks,

John Thompson

Hi Joe—

It's a PDF and we'd like to keep it as a PDF just because it's highly anticipated and people should be able to access it easily.

We're still waiting for a couple of pages to be added. It is on the shared drive on the network, so if you can access that, you can grab it off there. I'll let you know when it is finished. We would like it to be an asset on a statement that will be posting to the mi.gov/Snyder site shortly.

Thanks!

Josh

Greetings,

What is the file type? Ideally this would be compressed into a ZIP if possible.

Where is this currently located? On the network where we can get it? OR maybe we can bring a flash drive down to you to get it and then we can manually upload it to the CMA. This is a special case given the file size and the inability to email that size of a file and the fact that because its size we would need to manually upload this to a media server.

Let me know your thoughts.

Kind Regards,

Joe Seckelman

Looks great, Joe!

For the text under "State of the State," can you change it to be:

"At 7 PM on January 19, 2016, Governor Snyder will deliver his sixth State of the State address. Watch the speech live here as the Governor addresses how—together-- Michigan can solve its most significant challenges.

Join the conversation online using the hashtag #MISOTS16."

Then I'm good with making it Live. Thank you!

Josh

Greetings Josh,

That shouldn't be a problem. I am working on some of those changes and going to move the Previiew/dev elements to the live page and when they are all in place I'll clear the cache on that page so that the page is live.

Would you like me to send you a quick email before I do the move and push it live so it can get a final proof? We will naturally be testing it out here to ensure the feed and such look good as well.

Let me know your thoughts.

Kind Regards,

Joe Seckelman

Hey John—

Can we make it live around 1? Or early this afternoon? It won't have all of the content up yet for the pages (that stuff will be added at 7), but it would still be nice for it to be live soon to show the livestream video player.

Above or below the video player, can we also add in small bolded font: "**This video is provided by the Michigan House of Representatives. It is also being broadcasted on public television.**"

Thanks!

Josh

Thanks, Joe!

1) Yes- I will add the pages content between 6 and 7 and then clear the body cache for that page and the three pages.

2) Thanks—we can chat tomorrow when we're ready to embed the YouTube video

3) Thanks!

So what time do you think this updated page will be able to go live today?

Greetings,

1:

That sounds okay. So to confirm then, the three boxes will be links to the pages content Page which you will add between 6 and 7 and then clear the body cache for that page and the three pages that it would be getting linked to.

2:

Okay that sounds good too...for the Youtube there are some things we may wanna add to made sure it looks nice on a smaller device too – similar to how Im making the feed resize nicely with the right proportions.

3:

I will add that bit of text on it as well below the boxes to indicate when the link is active and usable.

Let me know your thoughts – I will be in and out of meetings so my response time to emails maybe delayed but this is the top priority today.

Kind Regards,

Joe Seckelman

Subject: RE: State of the State 2016 preview

Hey Joe—

1) Those three links should go to new pages. All that will be on the new pages is text with a graphic at the top.

2) The key speech page will have tonight just key quotes from the Governor's speech. Tomorrow, we will be adding YouTube videos of key quotes from his speech.

3) Good idea-- aan we add something like "Click here during the Governor's speech for more information." Or something like that?

Thanks

Josh

Subject: RE: State of the State 2016 preview

Greetings Josh,

I am curious about a couple parts.

1: the Detroit Public School link is that meant to be this one... http://www.michigan.gov/snyder/0,4668,7-277-57577_60279-353475--,00.html if not let me know what link you are thinking of.

2: What type of content would the key speech page have on it?

3: I have a method for you to edit those content items in the boxes after 6pm and then once your ready you would clear the cache on that pages body. I would say if this is going to be the plan though – some additional text go up saying the links are not active until 7pm... or something to that effect and then when you are done and ready you can remove that little bit of text and clear the cache on the page.

Let me know your thoughts.

Kind Regards,

Joe Seckelman

Hey Joe--

If those boxes could not be links before 7 PM, that would be great. And then at 7 pm we would turn those into links, which would lead to a DPS page, Flint page, and speech summary.

Would there be a way for me to add our content though before 7 PM, so that at 7 the links would be set to go live?

Best

Josh

Greetings Josh,

Thanks for the updates. I am just getting in this morning and will start looking at the email more in depth.

I may have some quick questions about your updates.

Really quick though, the three boxes below they could not be links if you don't want them to be and then at 7pm we turn them into links? And on that thread the links those would be going to the Flint water page, DPS, and a new page that is the speech summary – does that sound right?

Let me know your thoughts. And talk to you soon.

Kind Regards,

Joe Seckelman

Subject: RE: State of the State 2016 preview

Hey Joe—

Thank you for your help with this site.

It's going to be a little hectic with this site and getting it ready for tomorrow, so I want to apologize in advance if we need last minute changes.

We want the updated site live at 6 PM tomorrow.

We have new graphics for those three boxes. They're attached. The order should be 1) Flint 2) Detroit Schools 3) Key Speech Moments

For the text under those boxes:

1) Flint
    a. We are committed to ensuring every Flint resident has access to clean and safe drinking water. = Click here for more information about improving the water situation in Flint.
2) Detroit schools
    a. Detroit Public Schools are in need of transformational changes to ensure that our students are prepared for a successful and rewarding life. Click here for more information about fixing DPS.
3) Key speech moments
    a. Click here for key moments from Governor Snyder's sixth State of the State address

When visitors click on those boxes, when it takes them to the new page, for the time being, can the new page just say "Check back here at 7 PM tonight after Governor Snyder begins his 2016 State of the State address"?

I'd like to populate our documents and information onto the site between 6 and 7 pm tomorrow, and then when the speech starts at 7 PM, we can make everything live.

Also, we will be directing people to watch the live stream at www.mi.gov/StateOfTheState. So thank you for helping us get the livestream up!

Please let me know if you have questions.

Thank you again for your help!

Josh

Greetings Josh Paciorek,

My name is Joe Seckelman and new with the eMichigan Team. I have set up a Preview page for the State of the state this year with the video feed right in there.

Attached is a screen shot of the look.

Link to the page: http://www.michigan.gov/snyder/0,4668,7-277-74857_75128---,00.html

If you could test the video player from your phone that would be nice.

To note: the house.michigan.gov/htv.asp feed doesn't work with windows phones.

Let me know your thoughts.

Kind Regards,

Joe Seckelman

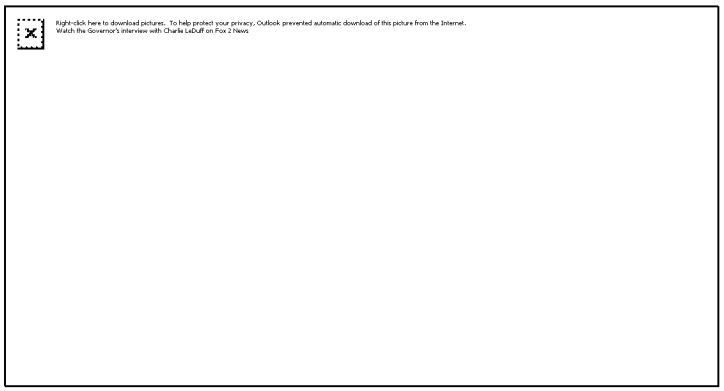
How we are fixing the Flint water crsis

Governor Rick Snyder has committed to spending the rest of his time as Governor to fixing the Flint water crisis. Over the last few days, he has sat down to explain what happened and how we're fixing the Flint water crisis. Watch the interviews below and be sure to read the Governor's Op-Ed in the USA Today.

Governor Snyder on Morning Joe

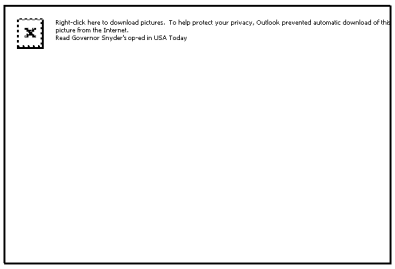


"What is so frustrating and what makes you so angry is you have a handful of experts who were career civil servants that made terrible decisions, in my view. We have to live with the consequences, and they worked for me, so I accept that responsibility. We are going to fix this problem." Watch Governor Snyder address how we are fixing the Flint water crisis on Morning Joe.

Governor Snyder with Charlie LeDuff on Fox 2 Detroit

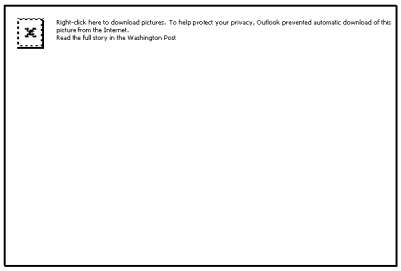
"I feel awful about this. These are people. They've been harmed. You can't feel good about that. The people of Flint have been harmed and a major influence of that harm

came from people who worked for me, and I feel responsible for that. But I am committed to solving the problem and addressing the damage as much as possible for the rest of the time I'm Governor." Watch Governor Snyder address the Flint water crisis with Charlie LeDuff on Fox 2 News.



Governor Snyder's 2016 State of the State

"Michiganders don't quit, we don't give up, instead we will work with even more passion and commitment to truly improve our state. For everyone who's chosen to make Michigan their home, this is more than a promise, this is my commitment." Watch Governor Snyder's full closing statement from his 2016 State of the State address.



Governor in USA Today: "I will fix this, and I mean it."

"Residents in one of Michigan's proud cities cannot drink their water. That's unacceptable. The crisis in Flint arose from missteps at all levels of government — local, state and federal. But as governor, I take responsibility for what these families are going through, and I'm holding people in my administration accountable for their failures." Click here to read the Governor's full op-ed.

Washington Post: "Michigan Gov. Rick Snyder is in a tough spot, but he's his own best spokesman"

Snyder has born the brunt of criticism in the local health crisis that has turned into a national scandal. But unlike many other politicians facing crises of leadership, Snyder may also be his own best counter-programming. Click here to read the full story in the Washington Post.

Hello,

On behalf of the SOM defendants in the civil actions relating to Flint drinking water, I am requesting your participation on this conference call to discuss the collection of electronically stored information (ESI). Several related issues are already in progress. The purpose of this meeting is to discuss what needs to be collected and how DTMB may be able to assist. It is important to hold this meeting asap. I understand some of you may have scheduling conflicts. Please respond to this meeting invitation so that I know who can or cannot attend.

Please contact me or Jennifer Merricle if you have any questions.

Thank you,
Andrew

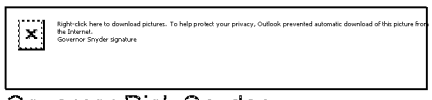
Subject: Thank you for your service

THANK YOU!

Fellow employees,

Each day, more than 46,000 state of Michigan employees come to work with the confidence and commitment to make Michigan a better place to live, work and play. I appreciate the way you care about the citizens we serve, and how it is reflected in the work that you do.

As you have heard from me and the media, our reputation and trust can be severely impacted when people do not make good decisions, or use good judgment in solving problems. That principle is universal, but never more so than when public health is at stake. What happened in Flint can never be allowed to happen again anywhere in our state.



I know that you want to work in a place where employee input is valued, efforts are recognized, and teams are always striving for continuous improvement. That's why we introduced employee surveys, Bureaucracy Busters and other reinvention initiatives. We want and deserve a culture of innovation, continuous improvement and employee engagement at every level. We can never take for granted how important the people are who depend on us to do our jobs, and I am asking you not to let the situation in Flint negatively impact your motivation to excel every day.

Many of you have taken an interest in helping the citizens of Flint on your own time, and I'd like to take this opportunity to recognize and thank those who have volunteered over the last couple of weekends. You have worked tirelessly to deliver cases of bottled water, water filters, replacement cartridges and water testing kits to the families in need. I appreciate you donating your time to help our fellow Michiganders. To date, more than 37,000 homes have been visited by one of our water resource teams.

For employees who would like to further help the people of Flint, please visit www.HelpForFlint.com to learn how you can do so. For additional information and to sign up for daily updates, please visit www.mi.gov/FlintWater. I am committed to ensuring that all residents have access to safe and clean water.

Again, I'd like to express my gratitude for the work you do every day to continuously improve our state and earn the trust of those you serve. You make a real difference.

Thanks,

Governor Rick Snyder

To: Thompson, John (DTMB)
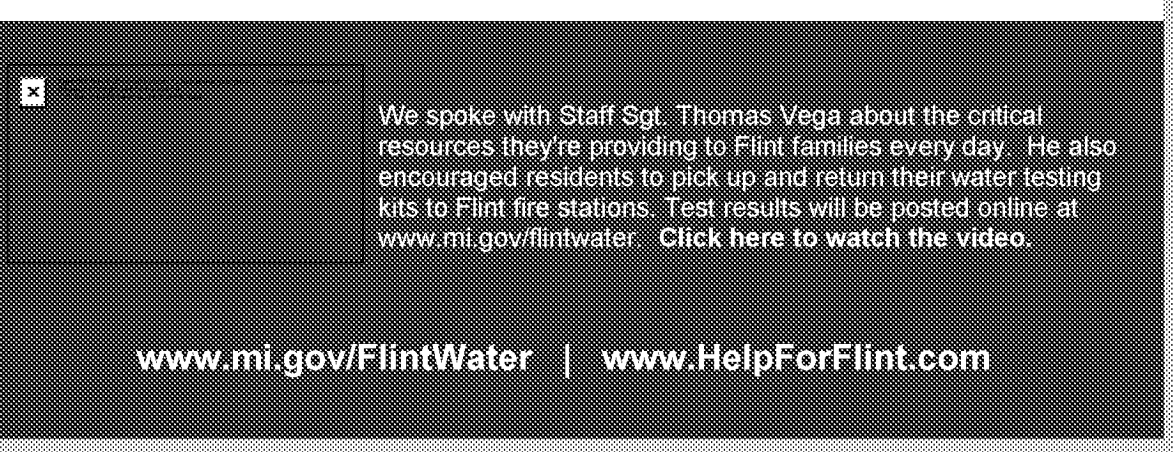
Subject: "Flint residents should not have to pay for water they cannot drink"

Budget recommendation will include $30 million request for Flint water bill repayments

When Governor Rick Snyder presents his budget recommendation next Wednesday, Feb. 10, he will include a $30 million request for the residents of Flint to keep their water service on and eliminate the need to pay for water they cannot completely trust to drink.



Under the governor's ask, the funding would enable the city of Flint to apply credits for customers on future bills. Estimates show water is roughly 47 percent of billing and sewer costs are around 53 percent. The credit would be applied to consumption usage (roughly

65 percent) of a resident's water portion of the bill, such as for bathing, drinking, cooking, and washing your hands. Residents still would be responsible for paying the sewer portion of their water bills.

Professor Marc Edwards of Virginia Tech said, "This essentially refunds all the money associated with consumption or consumer use. I think it's an amazing gesture of common sense and good will and it corrects an injustice. I don't think there's a precedent for this. I feel so encouraged by the direction this is going."

Click here to learn more about the budget request.

Subject: FW: NEW DEADLINE - Time Sensitive Request
Importance: High

Morning all,

We need to supply the director's office a list of names of any staff who would have been a part of the Flint Water response. Anything in the past and current efforts are important to know. In the emails from Brom it is requested that we give this information to them today by noon. To coordinate this effort can you please reply to me your area's list of names so that I can compile one response.

Suzanne, I am including John and Yvonne on this so that they can respond while you are away at training.

Please let me know if you have any questions.
Thank you,
Aimee

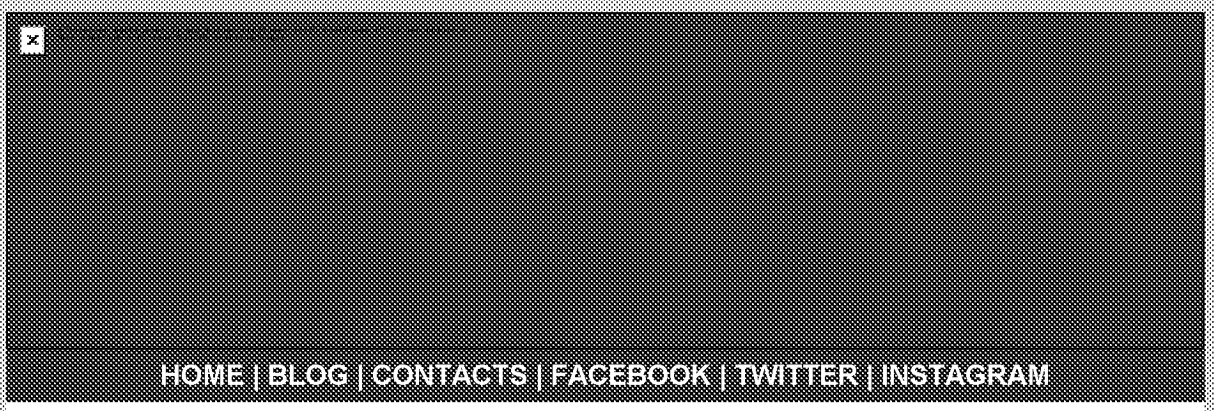
Subject: Time Sensitive Request

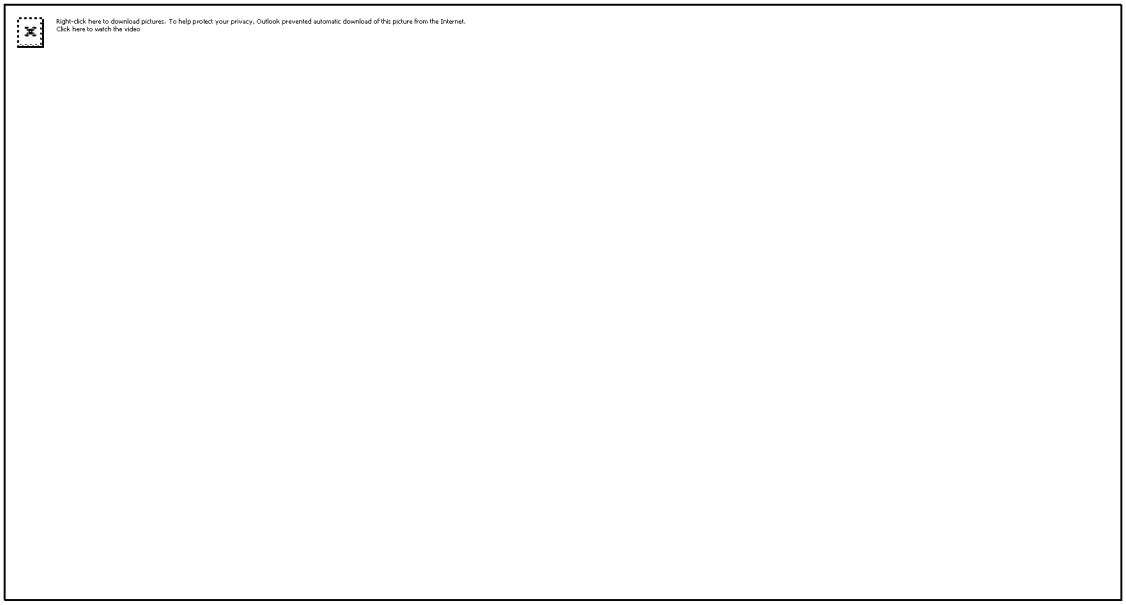
SMT,

Jean Ingersoll is leading DTMB's effort to comply with document production requests related to freedom of information requests and certain lawsuits against the state.



At some point during the day tomorrow, Jean will share with you a list of standard "search terms" which we will use to compile documents related to this lawsuit.

Within 2 hours of receiving this email from Jean, you need to respond with a list of likely custodians from your work area. Jean may have more information on this tomorrow, but generally speaking a custodian will be a staff member who might reasonably be expected to have documents (electronic or otherwise) that correspond to the issues identified in the search terms.



If you have any questions, please call me or Jean. This is an important issue and I thank you in advance for your attention to this matter.

VIDEO: How volunteers are helping Flint

Volunteers at the Food Bank of Eastern Michigan are working hard to collect donations in order to help the families of Flint. Last Thursday, Governor Snyder visited with the many dedicated volunteers and helped sort cans of food.

Good nutrition is critically important for Flint's children. Foods that are high in calcium, vitamin C, and iron can help limit the effects of lead exposure. To donate or volunteer at the Food Bank of Eastern Michigan, visit www.fbem.org.

Subject: State of the State

Good Morning John,

A few items related to tonight's State of the State that came up in meetings this morning .

- When will the link on the Governors page go live?
  - When it does go live will it link over to the House site or will it link directly the feed?
- Will there be Gov Website on-call/on-site support should there be problems with the stream?
  - If there are problems is there a failover plan?
  - Are you aware of any on-site support on the House side that will be ready to handle issues should they arise during the stream of the State of the State?

Sorry to dump a lot of questions on you but the suspected DoS attacks over the weekend have caused a lot of anxiety over here. In light of the suspected DoS attacks and the Flint water crisis we want to try and ensure the State of the State streams without a hitch.

Thanks,

Carl Slemp, MBA

From: DTMB Director and CIO David Behen <dtmb@govsubscriptions.michigan.gov>
Sent: Wednesday, February 17, 2016 10:10 AM
To: Vera, Jason (DTMB)
Subject: The Gov. Snyder's Budget Proposal

Good morning everyone. I hope everyone had a great holiday weekend.

I had the good fortune to travel to Marquette on Monday with Chad Laidlaw, DTMB's policy and planning analyst, to meet with city, business and university leaders and to address the Economic Club of Marquette. I told them about the many things DTMB does, placing special emphasis on our work in mobility and cybersecurity. Marquette is really developing and making its mark as an innovative and entrepreneurial community.

Now work.

The executive budget Gov. Snyder presented last week outlined his investment plan for Michigan. Yes, the proposal for fiscal year 2017-18 outlined a strategy to address the critical challenges of addressing the Flint water crisis and turning around Detroit's Public Schools, but the $54.9 billion plan also includes investment in four key areas:

- **Education.** The budget increases investment to K-12 schools, community colleges and the state's public universities. Additional funds are proposed to expand career, technical, science, technology, engineering and math programs.
- **Protecting the Public.** The governor's plan expands the Secure Cities program, which has reduced violent crime in four major Michigan cities. Funds also would support an additional trooper recruit school and an academy to train corrections officers, among other initiatives.
- **Putting People First.** The governor recommends continued expansion of the Healthy Kids Dental Program and funding efforts to ensure residents have access to affordable health care. His proposal boosts funds to help cover new higher cost specialty medications to treat conditions such as hepatitis C and cystic fibrosis, among others.
- **Investing in Infrastructure.** The proposal allocates $1.2 billion to maintain and repair Michigan roads, bridges and other critical infrastructure.

The budget proposal also includes FY 2017-18 funding recommendations for DTMB. Gov. Snyder recommends ongoing funding of $1.3 billion for department operations and a one-time allocation of $32.4 million.

A few highlights include:

- $502 million for information technology support for all state agencies and $132.8 million for

14 high-priority IT projects in seven agencies. He recommends increasing the Information Technology Investment Fund by $7 million, from $65 million to $72 million. This fund supports several major multiyear IT projects and upgrades, including the replacement of outdated legacy systems.
- An additional $5 million to support cybersecurity improvements to safeguard citizens' personal information and protect critical infrastructure and government services.
- IT support of $6.5 million to modernize the Office of Retirement Services' systems and enhance customer service for more than 530,000 current and future retirees.

You can see the full executive budget recommendations, which are posted on the Budget Office website. Details of DTMB's proposed budget begin on page B-75.

We can expect to see many changes before the budgets are signed and become effective Oct. 1. The executive budget will be used by the House and Senate Appropriations Committees as they work on their own budgets and hold committee hearings on the proposals. I'll keep you posted as the process moves ahead.

As always, I welcome your notes, whether about the budget process or any other topic. Please send them to me at behend@michigan.gov.

Thank you again for all the good work you do. I hope you have a great week ahead.

David

Required Attendees:	Behen, David (DTMB); Donnan, Chanda (DTMB); Buhs, Caleb (DTMB); Davenport, Rodney (DTMB); Gelisse, Ashley (DTMB); Gilliland, Michael (DTMB); Spaniolo, Natalie (DTMB); Wilke, Lacey (DTMB); Stansfield, Marsha (DTMB); Ballard, Denice (DTMB); Hampton, Trisha (DTMB); DeCamp, Greg (DTMB); Gibson, Jennifer (DTMB); Hengesbach, Dane (DTMB); Ingersoll, Jean (DTMB); Jeffery, Phillip (DTMB); Philip, Brandon (DTMB); Kopacsi, Christian (DTMB); Doll, Jeanette (DTMB); McKee, Ryan (DTMB); Pratt, Jeff (DTMB); Knapp, Kathy (DTMB); Bidelman, Craig (DTMB); Bussema, Terry (DTMB); Rokely, Rick (DTMB); Tefft, Niki (DTMB); Schlegel, Nicolle (DTMB); Parker, Alexandrea (DTMB); Keilen, Elizabeth (DTMB); McPherson, Victoria (DTMB); Christensen, Chris (DTMB); Lawson, Michelle (DTMB); Nevai, Tom (DTMB); Evans, Carter (DTMB); Fick, James (DTMB); McKee, Robert (DTMB); Perry, Blane (DTMB); Riddering, Eric (DTMB); Rodgers, Anthony (DTMB); Trial, Larry (DTMB); Thompson, Kyleigh (DTMB); Glomski, Tom (DTMB); Seger, Seth (DTMB); Lee, Timothy (DTMB); Sikkema, Tyler (DTMB); Manning, Kelly (DTMB); McFarlane, James (DTMB); Galeazzi, Tiziana (DTMB); Das, Rajiv (DTMB); Pung, Linda (DTMB); Hogan, James (DTMB); Westfall, Laurie (DTMB); Palmer, Jason (DTMB); Stibitz, Brom (DTMB); Trakul, Pamela (DTMB); Swanson, Eric (DTMB); Blastic, Laura (DTMB); Furseth, Kristen (DTMB); Brancheau, Laura (DTMB); Sebok, Yvonne (DTMB); Stankiewicz, Richard (DTMB); Vera, Jason (DTMB); Jehnsen, Jeremy W (DTMB); Jodway, Kenneth (DTMB); Newman, Jeremy (DTMB); Vijayaveeraraghavan, Anupkumar (DTMB); Harmon, Paul (DTMB); Root, Everett (DTMB); Pauley, Suzanne (DTMB); Thompson, John (DTMB); Nolan, Anne (DTMB); Peterson, Rick (DTMB); Stiffler, Michelle (DTMB); Patke, Sunit (DTMB); Estill, John (DTMB); Seckelman, Joe (DTMB); Martin, Ellen (DTMB); Aprill, Brian (DTMB); Ross, Josh (DTMB); Locke, Joel (DTMB); Cross, Steven (DTMB); Clark, John (DTMB); Olkowski, Tony (DTMB); Noldy, Scott (DTMB); Baer, John (DTMB); Dickinson, Holly (DTMB); Post, Corey (DTMB); Cantin, David (DTMB); Brun, Jeremy (DTMB); Hartsuff, Lisa (DTMB); Kosloski, Joni (DTMB); Jordan, Gerald (DTMB); Sweeney, Matthew (DTMB); Turnquist, Michael (DTMB); Morgan, Dan (DTMB); Droste, Kerri (DTMB); Paasch, Keith (DTMB); Scates, Larry (DTMB); Noonan, Michael (DTMB); Walts, Brian (DTMB); Martin, Ric (DTMB); Burns, Robert (DTMB); Doxie, William (DTMB); Clark, Jim (DTMB); Bailey, Maureen (DTMB); Bos, Troy (DTMB); Phillippo, Jamie (DTMB); Spitzley, Troy (DTMB); Darby, Marchan (DTMB); Hawes, Keith (DTMB); Wright, Seth (DTMB); Rambo, Carolyn (DTMB); Millimaki, Shelly (DTMB); Nelson, Christopher (DTMB); Murphy, Chris (DTMB); Clark, Stephanie (DTMB); Cischke, Roy (DTMB); Hofmeister, David (DTMB); Reynolds, Vince (DTMB); VanCoevering, Joyce (DTMB); Ragla, Beth (DTMB); Shaw, Gary (DTMB); Wonn, Michael (DTMB); Thompson, Kristi (DTMB); Goodine, Tom (DTMB); Armstrong, Mike (DTMB); Doyle, James (DTMB); Hampton, Kristen (DTMB); Miller, Mark (DTMB); Cooley, Tom (DTMB); Waltersdorf, Rex (DTMB); Monroe, Jerry (DTMB); Bergan, Kristin (DTMB); Banks, William (DTMB); Dyson, Mike (DTMB); Stiles, Dan (DTMB); Chipman, Dan (DTMB); Hodgman, Steve (DTMB); Martin, Todd (DTMB); Weston, Jessica (DTMB); Fitton, Scott (DTMB); Sample, Brice (DTMB); Vanden Bosch, Kerrie (DTMB); Wellman, Jeff (DTMB); Brownlee, Jeff (DTMB); Maynard, Sharon (DTMB); Calahan, Heather (DTMB); Cook, Rebecca (DTMB); Hayes, Genevieve (DTMB); Riehle, Jenni (DTMB); Falik, Tom A. (DTMB); Pemble, William (DTMB); Sambiagio, Melissa (DTMB); Cieciwa, Sue (DTMB); Hunter, Lymon (DTMB); Dufour, Yvon (DTMB); Camp, William (DTMB); Hatch, David (DTMB); Troub, Shelby (DTMB); Epps, Stephanie (DTMB); Herman, Christyn (DTMB); Bliss, Mike (DTMB); Guardiola, Jamie (DTMB); 'jfoley@us.ibm.com'
Optional Attendees:	Stanaway, Deb (DTMB); Huhn, Jacqueline (DTMB); McQuaid, John (DTMB); Reasner,

Optional Attendees: Richard (DTMB); Rakowski, Rock (DTMB); Gonzalez, Tonyia (DTMB); Doerr, Stephen (DTMB); Isaacs, Jan (DTMB)

Please note this meeting can be attended in person or via conference call-in. Location and Dial in information are provided below.

All DTMB
Custodians of Co...

***This attachment was updated 2/18/16**

*See agenda below

Requested By:
DTMB Executive Staff

Location:
Ottawa Building
Upper Level – Conference Room 4
611 W. Ottawa Street
Lansing, MI 48933

Call-in: 866-390-1828
Access code: 1842654

Security:
Please have your State Employee ID showing at all times.

Parking:
Metered parking is available along Ottawa and Pine street.

Briefing:
In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. As a custodian, you are required to produce, by a certain date, any documents containing certain search terms. In this meeting we will review instructions for the process of identifying, compiling, scanning, and copying the necessary information.

Agenda

1) Kickoff – Brom Stibitz, Chief Deputy Director
2) Why you are here – Jean Ingersoll, Interim Chief of Staff
3) What you need to do (February 22, 2016 deadline) – Jean
4) What will be done for you – Jean
5) What's next – Jean
6) Public Information Reminder – Caleb Buhs, Public Information Officer
7) Questions and Answers - Group

STATE OF MICHIGAN

RICK SNYDER
GOVERNOR

DEPARTMENT OF TECHNOLOGY, MANAGEMENT & BUDGET
LANSING

DAVID B. BEHEN
DIRECTOR

February 17, 2016

TO: All DTMB Custodians of Correspondence Related to Flint

FROM: Jean Ingersoll, Interim Chief of Staff to David B. Behen, Director and CIO

SUBJECT: Flint Document Production – Search Terms and Guidance

In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. **As a custodian, you are required to produce any documents containing the search terms listed below, no later than Monday, February 22, 2016.** This memorandum contains detailed instructions for the process of identifying, compiling, scanning, and copying the necessary information.

Microsoft 365 – Outlook (*includes emails, calendar items) and OneDrive*

DTMB staff will centrally coordinate the Microsoft 365 search for all of DTMB's custodians. Therefore, DTMB's custodians *do not need to independently search any of their Microsoft 365 applications* for the search terms listed below.

Network Drives

Similar to the approach outlined above, DTMB staff will centrally coordinate the network drive search effort for all DTMB custodians. Custodians do *not* need to independently conduct a network drive search for the search terms below.

Non-Network Drives – *includes hard drives, desktop, and thumb/flash drives*

For all non-network drive types, ***each custodian will need to search every search term listed below in every non-network format, and move all relevant/related documents in to a network drive for collection. In order to move items to the network, you must be connected to the network.***

Start by conducting the search of all non-network drives, filling out the attached search term checklist as you go. If you need guidance as to how to perform this search, a step-by-step guide is included below in Appendix 1.

All relevant/responsive items that are produced as a result of your search need to be moved to a network drive. You can move your relevant/related documents to a network drive in whatever format the document is currently in. After the February 22, 2016, deadline, DTMB staff will access the network drives to collect the files.

Paper Files

Review all applicable paper files. Scan any relevant/related documents, and save them to a network drive, as described above. If this is not possible, you may provide hard copies of documents to Jean Ingersoll in the Director's Office. These documents must be received in the Director's Office by February 22, 2016, and will not be returned to you.

Home Computer

Any relevant e-mails or other documents on a personal computer also are subject to this request. Please check your personal computer for any e-mails or other documents relating to this search. If you discover any relevant/related documents, please include the phrase "personal computer" in the file name, and save them to the aforementioned network drive.

Conclusion

Thank you for your cooperation in complying with this request. Should you have any questions, please contact Jean Ingersoll at 1-8844.

Search Term Checklist

In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. As a custodian, you are required to search and copy all items that you identify to a DTMB network drive, as described above.

Please complete your search no later than close of business on Monday, February 22, 2016. Relevant/related items from the past 10 years should be included.

You should search for *each term exactly as it is shown below, and include quotation marks around each separate word.* For example, "Legionnaire", "Legionella", or "Flint" would all go into search fields. After you complete a search term, check the box beside the term.

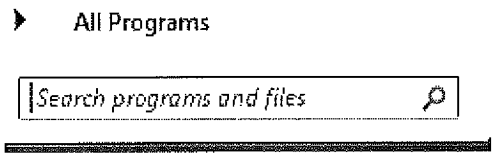
Search Terms:

- ☐ "Legionnaire"
- ☐ "Legionella"
- ☐ "boil water order" & "Flint"
- ☐ "coli" & "Flint"
- ☐ "bacteria" & "Flint"
- ☐ "microb" & "Flint"
- ☐ "TTHM" & "Flint"
- ☐ "Lead" & "Flint"
- ☐ "emergency" & "Flint"
- ☐ "Karegnondi"
- ☐ "Genesee County Health Department"
- ☐ "Flint" & "utilities"
- ☐ "Lead and Copper Rule"
- ☐ "Detroit Water and Sewerage Department" & "Flint"
- ☐ "DWSD" & "Flint"
- ☐ "Flint River"
- ☐ "Pb" & "water"
- ☐ "KWA"

Search conducted on the email account of: _____

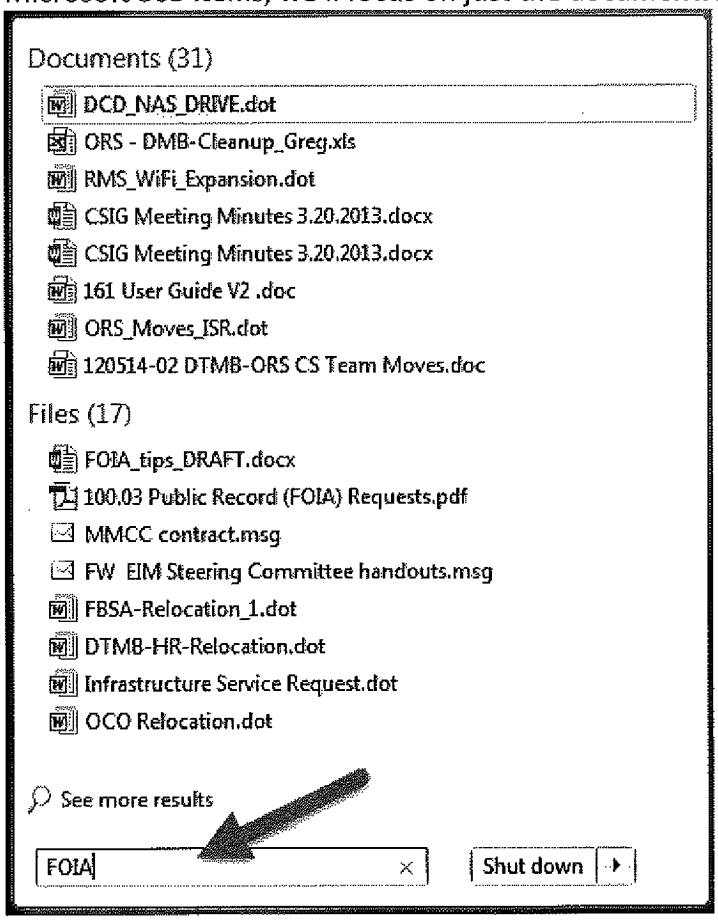
By (your name): _____

Date completed: _____



Please return this completed Checklist to DTMB Director's Office staff by February 22, 2016, at DTMB@michigan.gov, or
Directors Office, Cass Building, Second Floor

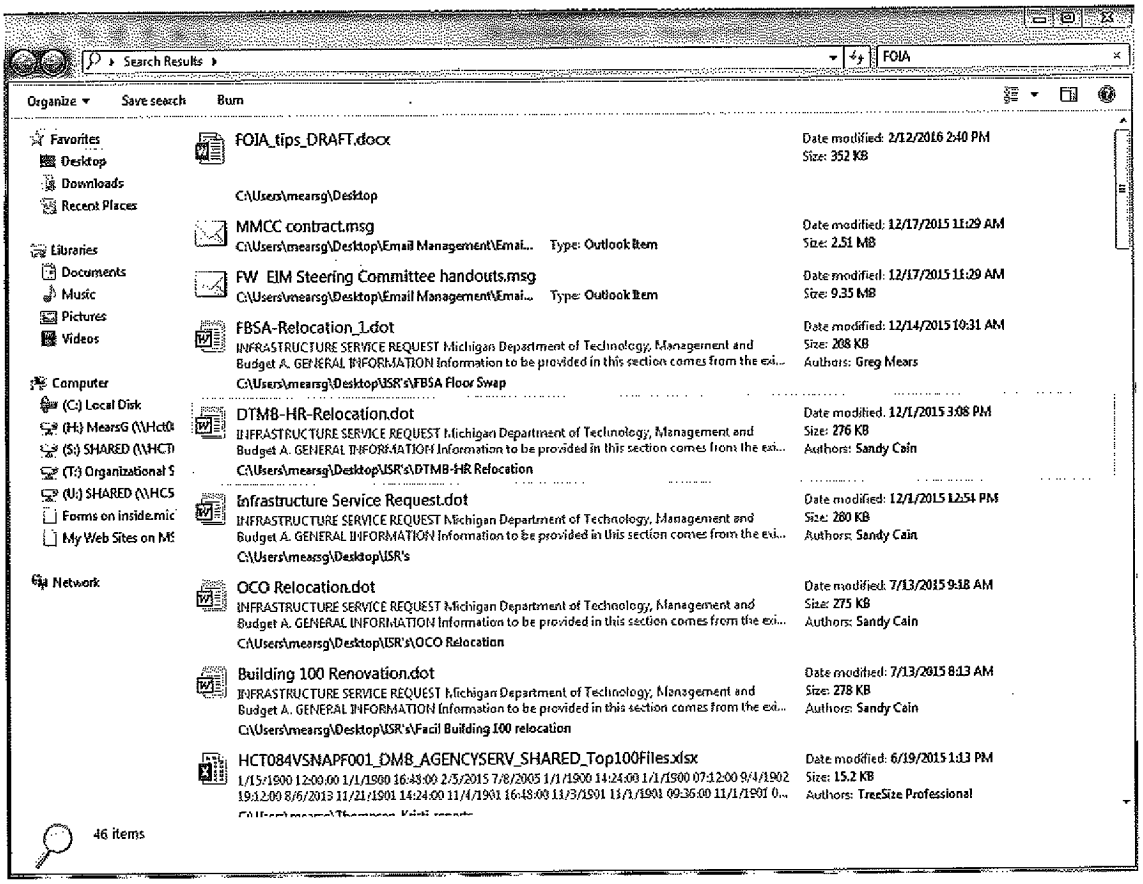
APPENDIX 1 – Search Guidance



Regardless of what version of Windows you're using, each of them has a search feature built in called "Windows Explorer," you see it every time you open up a folder on a network drive, or on your own computer.

Using the search function in windows 7

Since the majority of DTMB is on Windows 7, the examples below are on that operating system. If you click on windows Start button, you'll see the search box right next to it



This example searches for the word FOIA. As you can see, the search yielded numerous documents including emails. Since DTMB is centrally collecting relevant emails and other Microsoft 365 items, we'll focus on just the documents.

You need to open each document to make sure that it's relevant. In this instance, the search brought up a DTMB Move form, but only because it has the word FOIA in the form.
You'll notice that the words "See more results" appears at the bottom of the list. This means that the search turned up a lot more documents than what can easily be displayed. You must

click on the link to open Windows Explorer and reveal a comprehensive list, along with their locations.

As you can see from this example the search found 46 items. We can now select them all using the "Ctrl-A method", and copy them to a network drive.

Hi Anup,

We've had some managerial changes over here this week (please see attached).

As a result, Jim Sygo will now be signing the GCTS Project Charter instead of Liane Shekter Smith. I've spoken with Liane and she agreed this is the appropriate course of action. Please update the charter and send to Jim for review.

Thanks!

Subject: Information on the City of Flint's Drinking Water and Announcement of Interim Chief for ODWMA - Message from Director Dan Wyant

Dear Colleagues:

I know you have all heard a lot lately about the drinking water situation in Flint, and I want to update you on recent developments.

Today, I released a statement announcing Chief Deputy Director Jim Sygo will immediately assume the role of interim chief of the Office of Drinking Water and Municipal Assistance.

As details of the situation have emerged, it has become apparent staff made a mistake while working with the city of Flint. Simply stated, staff employed a federal protocol they believed was appropriate, and it was not. However, I am convinced our program staff believed they were doing their job correctly, and simply did not have the experience with the particular issue of corrosion control in cities of more than 50,000 people.

Today's actions were the result of a long process. In the spring of 2013, the city of Flint announced it would leave the Detroit Water and Sewerage Department (DWSD) in favor of joining the Karegnondi Water Authority, which is constructing a pipeline to bring drinking water from Lake Huron. In the meantime, the city used the Flint River, treated at the Flint Water Treatment Plant, as its full-time drinking water source.

Since then, the system experienced a number of problems, including most recently, elevated lead levels in some homes and schools. To address public health, the Governor led a charge to bring $6 million in state funds, plus an additional $2 million from the city and $4 million from the C.S. Mott Foundation, to fund the city's reconnection with DWSD.

This was a huge first step in fixing the problem. However, while the switch back to Detroit water carried numerous public health benefits, lead in drinking water is largely a function of outdated local infrastructure. For a long-term fix, we are looking at several options to help the city update its infrastructure and remove all lead service lines.

To ensure safe drinking water in the short-term, the state is providing water filters to every resident in the city of Flint. Many local partners, including the United Way, are also stepping up to ensure the city's schools have bottled water available for children as we design a thorough protocol to test all schools.

I know this is a stressful time for many of you, and I appreciate your dedication and hard work. This is a good time to reflect, as a staff, on our purpose as an agency. Our mission is to protect public health and the environment. Whatever the particular protocol or statute you help to implement or uphold, that is our core reason for being. Keep that at the forefront of your mind.

I am proud to lead a staff of such knowledgeable, committed individuals. Thanks, as always, for the work you do.

Sincerely,

Dan Wyant
Director

Subject: FW: Flint Water Drive

Hi Everyone,

I just wanted to let everyone know that my church is doing a **water drive for those in need in Flint**. For those who would like to participate, I figured rather than everyone trudging through the snow bringing jugs of water or cases of bottled water (If you would still like to do that you are welcome to, and I would get it to the right place.) we could just collect money and I would go to the store, buy it all, and deliver it because it would probably be easier for everyone that way. I will have an envelope being circulated around the office so everyone has an opportunity to help. By no means feel obligated to donate, but I definitely think it's a great cause the could impact the residents of Flint in a big way.

I'm sorry it is short notice because the drive is this **Wednesday January 13th**. I was hoping for those who wanted to help I could collect water/money **now through Wednesday**, and then after work Wednesday I could go purchase cases with the money collected.

If there are any questions please feel free to stop by and ask!

Thank you all,

Tony Whalen

Subject: SQL DEV restart

I was working with Devin, Julia, Linda today on a Wildlife app issue on the SQL8WEBDEV instance of our DEV SQL box DD901.

There is a lot of blocking occurring that I cannot clear. I tried to stop the instance service, so I could then re-start it and flush out the problem. However, it won't finish stopping.

I am about to the point of restarting the box DD901, which takes less than 5 minutes. It will disconnect both instances on DD901.

How do you want me to notify staff on the 5th floor that this is going to happen soon?

Subject: FW: Flint Water Drive

Hi Everyone,

I just wanted to let everyone know that my church is doing a **water drive for those in need in Flint**. For those who would like to participate, I figured rather than everyone trudging through the snow bringing jugs of water or cases of bottled water (If you would still like to do that you are welcome to, and I would get it to the right place.) we could just collect money and I would go to the store, buy it all, and deliver it because it would probably be easier for everyone that way. I will have an envelope being circulated around the office so everyone has an opportunity to help. By no means feel obligated to donate, but I definitely think it's a great cause the could impact the residents of Flint in a big way.

I'm sorry it is short notice because the drive is this **Wednesday January 13th**. I was hoping for those who wanted to help I could collect water/money **now through Wednesday**, and then after work Wednesday I could go purchase cases with the money collected.

If there are any questions please feel free to stop by and ask!

Thank you all,

Tony Whalen

Subject: RE: Flint Water Drive

Hey Everyone,

Thanks for all of the generosity with the water drive. We were able to find the money yesterday thank goodness! With all of the donations we were able to buy 25 cases of water from this office alone. All of the water for this drive is going to Flint public schools. The national guard passes out water to people's houses, but the school system gets very limited rations. Out donations will help so that whichever schools it goes to, can have more water to be able to give students.

Thank you all again for your participation in this cause!

-Tony

Sent: Thursday, January 14, 2016 5:33 PM
To: Vijayaveeraraghavan, Anupkumar (DTMB)
Subject: Volunteer Opportunity in Flint

The State Emergency Operations Center (SEOC) is coordinating a response to the ongoing health and safety issues in the city of Flint's drinking water. Teams from the Michigan State Police, Genesee County Sheriff's Department, Michigan Department of Health and Human Services, and volunteer organizations have been delivering bottled water, water filters, replacement cartridges and water testing kits at homes in the city of Flint since Tuesday.

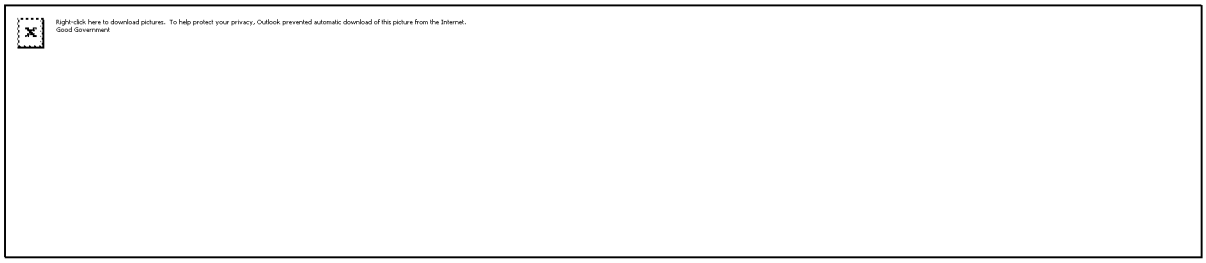
To help with this critical work, the SEOC is looking for volunteers to expand this effort and continue this distribution during the upcoming holiday weekend. Teams are being assembled for shifts on Saturday, January 16; Sunday, January 17; and Monday, January 18, 2016. If you are interested in volunteering your time for this critical work, please complete the information in one of the attached surveys (depending on which day you are volunteering).

To volunteer on Saturday, January 16, https://www.surveymonkey.com/r/28NVJBL

To volunteer on Sunday, January 17, https://www.surveymonkey.com/r/26NMJKK

To volunteer on Monday, January 18, https://www.surveymonkey.com/r/26P7P5G

Volunteers will begin their assignment at the Local Emergency Operations Center located in the Genesee County Administration Building located at 1101 Beach St, Flint at 9 a.m. and end by 4 p.m. Parking is available at the corner of Beach Street and 8th Street. Lunch will be provided. This is strictly a volunteer effort, as all three days will be unpaid. Volunteers are responsible for their own transportation; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.



This opportunity is for state employees and their immediate family members 16 years of age or older only, others looking to assist should volunteer through the American Red Cross in Flint. The volunteer coordination center for the Red Cross is located at 1401 S. Grand Traverse, Flint, MI. They are open from 9 a.m. to 7 p.m.

For more information on the state's response efforts, visit www.michigan.gov/flintwater.

Subject: Flint Volunteer Efforts

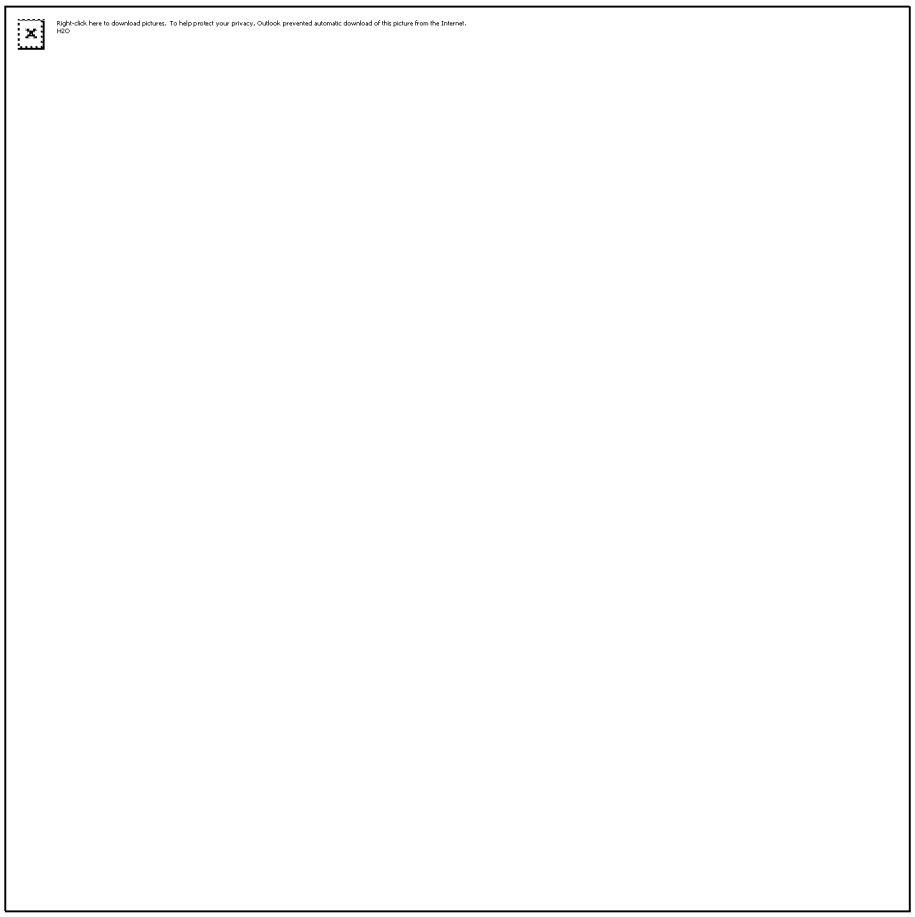
Dear State Employees,

Gov. Rick Snyder and I want to thank everyone who donated their time during the holiday weekend to deliver bottled water, water filters, replacement cartridges and water testing kits to families in the city of Flint. We are working hard to ensure all residents are provided with the safe water resources they need, and each donation and hour of your time volunteered goes a long way.

For employees who would like to help the residents of Flint, there are several opportunities to do so. Please visit www.helpforflint.com to learn how you can help.

For additional information and updates, visit www.michigan.gov/flintwater.

Again, thank you for all your support.



Sincerely, Mike Zimmer
Office of Good Government Director
Dept. of Licensing and Regulatory Affairs Director

Subject: Contributing time, muscle and money

During this month's Martin Luther King Jr. holiday weekend, some state employees turned their "day off" into a "day on" in Flint. There, they delivered bottled water, water filters, replacement cartridges and water testing kits to families. The volunteers joined other Michiganders, turning Dr. King's birthday observance into a day of service.

Mike Zimmer, director of the Office of Good Government and the Department of Licensing and Regulatory Affairs, has shared a link – www.helpforflint.com – that offers other opportunities to contribute time, muscle and money to bring clean drinking water to the community.Here in DTMB, some of our employees didn't wait for an invitation to lend a hand. Office of Retirement Services staff contributed funds that were used to buy 31 cases and 23 gallons of water, which a local organization transported to Flint.

Autumn Hubbard, Ambrea Mack and Sarah Esquivel, who are in the photo at the left, nearly emptied the shelves at their local grocery store. Thanks for your efforts.

everyone.

Now work.

Last week, I signed a new policy that formalizes the annual employee review process and sets expectations for employees and managers. Administrative Policy 200.37 establishes consistent standards for implementing performance plans and reviews. Some of the standards are practices we have followed for years. Others are new. Some of particular note include:

- The mandatory use of HRMN
- A standard Feb. 1-Jan. 31 rating period for all employees
- An Individual Development Plan that specifies training or development programs for each employee
- Competencies and objectives that align to DTMB goals or scorecard metrics
- Consequences for managers and supervisors who do not complete the review process as required

A fundamental role of each DTMB manager or supervisor is to provide employees with direction and feedback on their performance. Employees also are expected to take an active role in pursuing professional development opportunities and achieving their competencies and objectives. I encourage you to review the new policy and talk with your manager or supervisor if you have questions. Of course, I welcome your questions and input as well. Please send your comments and ideas to me at behend@michigan.gov.

I know these have been busy weeks for many of you as you take on additional responsibilities and work hard to provide resources and services for our customers and citizens across the state. Please know that your hard work has not gone unnoticed. Thank you for everything you do, every day.

Have a great week,

David

Good Morning Team,

It's always great to share good news! Please refer to the email below from the acting Chief of DNR. Though our team is not called out specifically, our PC- Jeremy Newman has lead the team working on VMS, MiFi and OLB. This project (VMS 4.0) has been on a long road and has involved prior PMO team members as well (Raj and Raja). The project has been challenging from the start and Jeremy has done a great job of bringing organization and leadership to the project since taking over.

It Is always nice to hear the customer perspective and hear that they feel things are going well and like the results.

So....kudos and nice job to Jeremy! Keep up the great work!

Hi Folks,

Positive "internal" news within DNR on efforts in which DTMB has been involved -- Toughpads, VMS, MiFi, OLB...

Happy to see the positive spin. Sad to see that DTMB was not mentioned anywhere as a partner in the success.

Thanks

Chief's Update

The unexpected, recent chain of events finds me trying to fill my and Bill O'Neill's shoes, while Bill fills his boss' shoes. There is a lot going on!

The department, our division and staff have been called upon to help with the Flint water situation because of our expertise, experience, and our "we can do it" attitude. And we can. We have an Incident Management Team working here in Constitution Hall helping with the Flint situation. We also have a GIS team working to develop a GIS map of water distribution lines in Flint. In addition, Kerry Wieber filled in as a Public Information Officer (PIO) on one of the support teams. We have several other staff filling in for vacancies, working on some great projects, and everyone works day-to-day on our core functions. We make an amazing team!

I'll continue with these monthly newsletters and the division will explore other ways for better communication throughout the division. In the meantime, here are some things that are going on:

Communication Updates

There are some good things happening with our outreach and education efforts, which are helping us to better meet our goals outlined in the strategic plan. Here are a couple of things on the horizon:

- FRD's inaugural promotional video is just about complete. We're waiting on the production company to make a small change, but it should be ready for viewing at our upcoming professional development. We're extremely pleased with the finished product and have heard great feedback from those outside of the division who reviewed it.
- For those of you who aren't aware, FRD is starting collaboration with 98.5 WUPS, a classic rock radio station out of Houghton Lake. The new "Facts from the Forest" segment will include 30-second quick facts about all facets of forestry in Michigan. The facts will run Monday-Friday, every week of the year. They will be short, fun and informative, but will still include DNR messaging. It's a great opportunity that we couldn't let pass us by. Thank you to those of you who took the time to provide forestry facts for the first couple of months of this collaboration. Stay tuned for more on this as we get some samples to share.
- Don't forget that we're always looking for photos and video of what you're working on in the field. If you think what you're doing is interesting, there's a good chance that others will agree! You don't have to be an expert photographer or videographer to participate. Beth Fults recently attended the Council of Western State Foresters communications meeting in Sun River, Oregon, and a marketing professional based out of Colorado was in attendance. He stressed the importance of real-time photo and video, explaining that research shows people find raw video footage more convincing than professionally produced pieces. This doesn't mean that we won't invest in future professional videos, but it does

mean that we have an opportunity to educate people about what we do via our smart phones. Beth is working with the social media coordinator to make it easier for you to be able to submit photo and video files to an online location, but in the meantime feel free to send her anything that you capture that you find interesting (fultsb@michigan.gov). Remember that shorter is better when it comes to videos – 30 seconds or less is perfect.

- Development of the FY15 accomplishments report is on the horizon. We're excited to announce that it will be taking on a new format this year. We're shooting for shorter blurbs to result in quicker impact. If you're asked to provide information, please take deadlines seriously.

Invasive Species Website now Active

The new Michigan Invasive Species website is now available to the public at www.michigan.gov/invasivespecies. Thank you to all who spent time conceptualizing and constructing the site – a major, collaborative effort across all three Quality of Life departments! The website workgroup will continue to add information and update the site on a regular basis.

Foresters for Fish

Water quality issues have been in the news in Michigan lately, and the Forest Resources Division has a new project that seeks to inform the public that good forest management produces clean water for all Michigan citizens to enjoy. Michigan's 20 million acres of forest land provide many goods and services, and clean water should be a benefit that every forester is proud to produce. "Foresters for Fish!" is a new three-year project, coordinated by FRD, to help public and private sector foresters communicate the message that "healthy forests provide abundant clean water." This project is a partnership between FRD, Fisheries Division, Michigan Trout Unlimited, American Tree Farm System, Michigan Association of Consulting Foresters, and Michigan Association of Timbermen. The project will develop educational and marketing materials, and offer workshops about forestry best management practices, clean water, and fish habitat. Mike Smalligan is the project manager for "*Foresters for Fish!*" which is funded by a $255,000 grant from the USFS State and Private Forestry.

New Traverse City Office

Staff at the Traverse City Office is looking forward to a new place to call home; their work home that is! The current facility is cramped and the current rental arrangement is not ideal from a financial standpoint. The search for a new office has been ongoing for several years now so when monies became available and the right location and building was found, the decision was made to move.

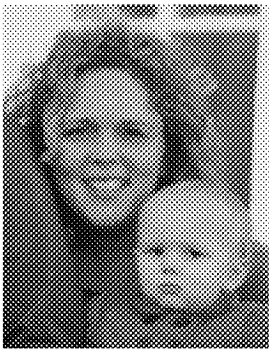
Dan Lord and Steve Gregory (Finance and Operations staff) have been working hard to secure a new location on M-37, just south of what is known in the Traverse City area as Chums Corners. No date has been set for the move, but improvements and modifications are being made so the office will be a "state-of-the-art" DNR facility. When the move is made, the new facility will be named the Traverse City Customer Service Center.

Conversations are ongoing regarding the Newberry and the Sault offices. They are toward the top of the list for solutions to their issues. Also, the Crystal Falls office may be remodeled this year if funding is still available.

Toughpad Rollout

It's been a long road, but the rollout of Toughpads to the majority of field foresters and technicians is slated for February. Jason Stephens is leading a team that will hold a series of training sessions in the NLP and U.P. where staff will receive their Toughpads and get basic instruction on their functionality and use. Tentative training dates and locations are: February 16-18 at the RAM Center for NLP FMUs, and February 23 at the ICC in Marquette for the U.P. FMUs. Additional details will be coming soon!

VMS 4.0/MiFi 3.0 Rollout



The development of VMS 4.0 (Proposal Module) and MiFI 3.0 has been an even longer journey, but thanks to the leadership of Doug Heym, Donovan Asselin, and Dan Heckman the rollout is finally scheduled for this April! This module will greatly streamline the proposal development, review, and approval process, and result

in greater efficiency and productivity for this part of our timber sale program. An announcement for six training courses was sent out by Fran Ryan on January 20. If you have not already done so, please RSVP your preferred course date to Margaret Spagnuolo (spagnuolom2@michigan.gov).

On-line Bidding Update

The release of On-line Bidding to our timber producers is going well, and is a great example of our hard work to improve customer service and satisfaction. We are gradually building up our customer base using this application, currently having nine companies and 16 people registered and using it to bid on timber sales. Customer feedback thus far has been very positive, specifically pointing out its ease of use and convenience, and even going so far to say that "it is the best thing that the state has ever done"! High praise indeed! So far there has only been a limited release. We will be making an announcement to all producers with a full release after the VMS 4.0 rollout.

Employee Spotlight

Lisa Parker

Started at the DNR in: 2002; joined FRD in 2015.
What I do: My responsibility is to oversee the accounting functions for FRD including monitoring fund balances, reconciling revenue and expenditures, preparing financial reports, and ensuring that year end closing functions are performed and completed. I am responsible for setting up account coding for the division and assisting program staff with any accounting related questions or tasks.
In my spare time: In my spare time, my husband and I keep busy with our three kids, Landon (9), Alaina (7), and Mara (1), and all of their activities including football, basketball, lacrosse, soccer and dance. We love going to the movies in our free time and spend summers at our new lake house on Gun Lake.

Beth Webert

Started at the DNR in: 2015; was with MDOT finance before coming to FRD.
What I do: I am the new account tech. I am the liaison for FRD procurement cards, fuel cards and hotel cards. I also enter requisitions, purchase orders, payments and other assigned duties for FRD staff.
In my spare time: I hang out with my family. My husband and I have three boys. We own a Jeep and go to Silver Lake Sand Dunes three times a year.

Employee Spotlight – Submissions Needed

If you haven't yet been featured in the Employee Spotlight section, please email a photo and your answers to the following three questions to Kim Korbecki, (korbeckik@michigan.gov):

1. When did you start at the DNR?
2. What do you do (in one or two sentences)?
3. What do you like to do in your spare time?

This is a fun addition to these notes and it's really nice to be able to put faces with names.

Parting Shots

I was very saddened by the loss of one of our DNR family members, Billy Rollo. I knew Billy a little bit and I know many of you knew him as well. Like most, Billy loved his job and was passionate about managing our natural resources.

I hope you all feel as I do…I never take for granted my job or my families…my DNR family and my family at home.

I look forward to seeing you all at our Professional Development Training beginning on February 9. Last minute information will be sent out next week.

In the meantime, enjoy the beauty of the snow, the ice on the lake for fishing, and all the other parts of winter that make you happy!

Debbie

Good Morning Team,

It's always great to share good news! Please refer to the email below from the acting Chief of DNR. Though our team is not called out specifically, our PC- Jeremy Newman has lead the team working on VMS, MiFi and OLB. This project (VMS 4.0) has been on a long road and has involved prior PMO team members as well (Raj and Raja). The project has been challenging from the start and Jeremy has done a great job of bringing organization and leadership to the project since taking over.

It Is always nice to hear the customer perspective and hear that they feel things are going well and like the results.

So….kudos and nice job to Jeremy! Keep up the great work!

Hi Folks,

Positive "internal" news within DNR on efforts in which DTMB has been involved -- Toughpads, VMS, MiFi, OLB...

Happy to see the positive spin. Sad to see that DTMB was not mentioned anywhere as a partner in the success.

Thanks

Chief's Update

The unexpected, recent chain of events finds me trying to fill my and Bill O'Neill's shoes, while Bill fills his boss' shoes. There is a lot going on!

The department, our division and staff have been called upon to help with the Flint water situation because of our expertise, experience, and our "we can do it" attitude. And we can. We have an Incident Management Team working here in Constitution Hall helping with the Flint situation. We also have a GIS team working to develop a GIS map of water distribution lines in Flint. In addition, Kerry Wieber filled in as a Public Information Officer (PIO) on one of the support teams. We have several other staff filling in for vacancies, working on some great projects, and everyone works day-to-day on our core functions. We make an amazing team!

I'll continue with these monthly newsletters and the division will explore other ways for better communication throughout the division. In the meantime, here are some things that are going on:

Communication Updates

There are some good things happening with our outreach and education efforts, which are helping us to better meet our goals outlined in the strategic plan. Here are a couple of things on the horizon:

- FRD's inaugural promotional video is just about complete. We're waiting on the production company to make a small change, but it should be ready for viewing at our upcoming professional

development. We're extremely pleased with the finished product and have heard great feedback from those outside of the division who reviewed it.

- For those of you who aren't aware, FRD is starting collaboration with 98.5 WUPS, a classic rock radio station out of Houghton Lake. The new "Facts from the Forest" segment will include 30-second quick facts about all facets of forestry in Michigan. The facts will run Monday-Friday, every week of the year. They will be short, fun and informative, but will still include DNR messaging. It's a great opportunity that we couldn't let pass us by. Thank you to those of you who took the time to provide forestry facts for the first couple of months of this collaboration. Stay tuned for more on this as we get some samples to share.
- Don't forget that we're always looking for photos and video of what you're working on in the field. If you think what you're doing is interesting, there's a good chance that others will agree! You don't have to be an expert photographer or videographer to participate. Beth Fults recently attended the Council of Western State Foresters communications meeting in Sun River, Oregon, and a marketing professional based out of Colorado was in attendance. He stressed the importance of real-time photo and video, explaining that research shows people find raw video footage more convincing than professionally produced pieces. This doesn't mean that we won't invest in future professional videos, but it does mean that we have an opportunity to educate people about what we do via our smart phones. Beth is working with the social media coordinator to make it easier for you to be able to submit photo and video files to an online location, but in the meantime feel free to send her anything that you capture that you find interesting (fultsb@michigan.gov). Remember that shorter is better when it comes to videos – 30 seconds or less is perfect.
- Development of the FY15 accomplishments report is on the horizon. We're excited to announce that it will be taking on a new format this year. We're shooting for shorter blurbs to result in quicker impact. If you're asked to provide information, please take deadlines seriously.

Invasive Species Website now Active

The new Michigan Invasive Species website is now available to the public at www.michigan.gov/invasivespecies. Thank you to all who spent time conceptualizing and constructing the site – a major, collaborative effort across all three Quality of Life departments! The website workgroup will continue to add information and update the site on a regular basis.

Foresters for Fish

Water quality issues have been in the news in Michigan lately, and the Forest Resources Division has a new project that seeks to inform the public that good forest management produces clean water for all Michigan citizens to enjoy. Michigan's 20 million acres of forest land provide many goods and services, and clean water should be a benefit that every forester is proud to produce. "Foresters for Fish!" is a new three-year project, coordinated by FRD, to help public and private sector foresters communicate the message that "healthy forests provide abundant clean water." This project is a partnership between FRD, Fisheries Division, Michigan Trout Unlimited, American Tree Farm System, Michigan Association of Consulting Foresters, and Michigan Association of Timbermen. The project will develop educational and marketing materials, and offer workshops about forestry best management practices, clean water, and fish habitat. Mike Smalligan is the project manager for "*Foresters for Fish!*" which is funded by a $255,000 grant from the USFS State and Private Forestry.

What I do: My responsibility is to oversee the accounting functions for FRD including monitoring fund balances, reconciling revenue and expenditures, preparing financial reports, and ensuring that year end closing functions are performed and completed. I am responsible for setting up account coding for the division and assisting program staff with any accounting related questions or tasks.
In my spare time: In my spare time, my husband and I keep busy with our three kids, Landon (9), Alaina (7), and Mara (1), and all of their activities including football,

basketball, lacrosse, soccer and dance. We love going to the movies in our free time and spend summers at our new lake house on Gun Lake.

Beth Webert
Started at the DNR in: 2015; was with MDOT finance before coming to FRD.
What I do: I am the new account tech. I am the liaison for FRD procurement cards, fuel cards and hotel cards. I also enter requisitions, purchase orders, payments and other assigned duties for FRD staff.
In my spare time: I hang out with my family. My husband and I have three boys. We own a Jeep and go to Silver Lake Sand Dunes three times a year.

Employee Spotlight – Submissions Needed

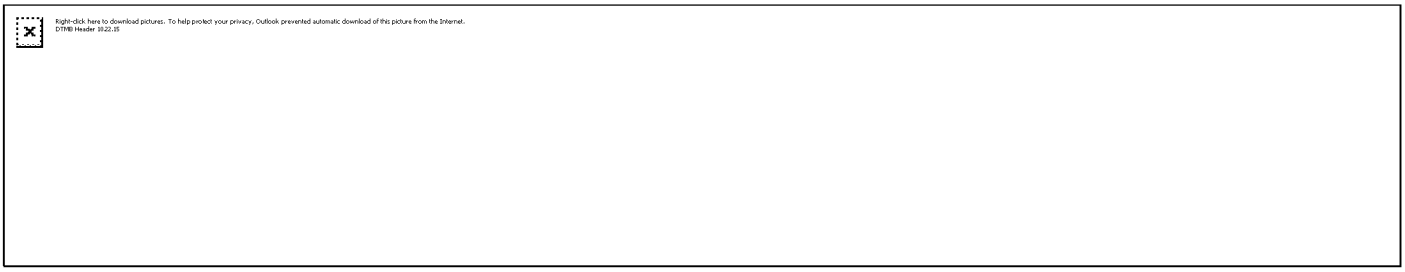
If you haven't yet been featured in the Employee Spotlight section, please email a photo and your answers to the following three questions to Kim Korbecki, (korbeckik@michigan.gov):

1. When did you start at the DNR?
2. What do you do (in one or two sentences)?
3. What do you like to do in your spare time?

This is a fun addition to these notes and it's really nice to be able to put faces with names.

Parting Shots

I was very saddened by the loss of one of our DNR family members, Billy Rollo. I knew Billy a little bit and I know many of you knew him as well. Like most, Billy loved his job and was passionate about managing our natural resources.



I hope you all feel as I do…I never take for granted my job or my families…my DNR family and my family at home.

I look forward to seeing you all at our Professional Development Training beginning on February 9. Last minute information will be sent out next week.

In the meantime, enjoy the beauty of the snow, the ice on the lake for fishing, and all the other parts of winter that make you happy!

Debbie

Subject: The Gov. Snyder's Budget Proposal

Good morning everyone. I hope everyone had a great holiday weekend.

I had the good fortune to travel to Marquette on Monday with Chad Laidlaw, DTMB's policy and planning analyst, to meet with city, business and university leaders and to address the Economic Club of Marquette. I told them about the many things DTMB does, placing special emphasis on our work in mobility and cybersecurity. Marquette is really developing and making its mark as an innovative and entrepreneurial community.

Now work.

The executive budget Gov. Snyder presented last week outlined his investment plan for Michigan. Yes, the proposal for fiscal year 2017-18 outlined a strategy to address the critical challenges of addressing the Flint water crisis and turning around Detroit's Public Schools, but the $54.9 billion plan also includes investment in four key areas:

- **Education.** The budget increases investment to K-12 schools, community colleges and the state's public universities. Additional funds are proposed to expand career, technical, science, technology, engineering and math programs.
- **Protecting the Public.** The governor's plan expands the Secure Cities program, which has reduced violent crime in four major Michigan cities. Funds also would support an additional trooper recruit school and an academy to train corrections officers, among other initiatives.
- **Putting People First.** The governor recommends continued expansion of the Healthy Kids Dental Program and funding efforts to ensure residents have access to affordable health care. His proposal boosts funds to help cover new higher cost specialty medications to treat conditions such as hepatitis C and cystic fibrosis, among others.
- **Investing in Infrastructure.** The proposal allocates $1.2 billion to maintain and repair Michigan roads, bridges and other critical infrastructure.

The budget proposal also includes FY 2017-18 funding recommendations for DTMB. Gov. Snyder recommends ongoing funding of $1.3 billion for department operations and a one-time allocation of $32.4 million.

A few highlights include:

- $502 million for information technology support for all state agencies and $132.8 million for

14 high-priority IT projects in seven agencies. He recommends increasing the Information Technology Investment Fund by $7 million, from $65 million to $72 million. This fund supports several major multiyear IT projects and upgrades, including the replacement of outdated legacy systems.

- An additional $5 million to support cybersecurity improvements to safeguard citizens' personal information and protect critical infrastructure and government services.
- IT support of $6.5 million to modernize the Office of Retirement Services' systems and enhance customer service for more than 530,000 current and future retirees.

You can see the full executive budget recommendations, which are posted on the Budget Office website. Details of DTMB's proposed budget begin on page B-75.

We can expect to see many changes before the budgets are signed and become effective Oct. 1. The executive budget will be used by the House and Senate Appropriations Committees as they work on their own budgets and hold committee hearings on the proposals. I'll keep you posted as the process moves ahead.

As always, I welcome your notes, whether about the budget process or any other topic. Please send them to me at behend@michigan.gov.

Thank you again for all the good work you do. I hope you have a great week ahead.

David

***This attachment was updated 2/18/16**

*See agenda below

Requested By:
DTMB Executive Staff

Location:
Ottawa Building
Upper Level – Conference Room 4
611 W. Ottawa Street
Lansing, MI 48933

Call-in: 866-390-1828
Access code: 1842654

Security:
Please have your State Employee ID showing at all times.

Parking:
Metered parking is available along Ottawa and Pine street.

Briefing:
In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. As a custodian, you are required to produce, by a certain date, any documents containing certain search terms. In this meeting we will review instructions for the process of identifying, compiling, scanning, and copying the necessary information.

Agenda
1) Kickoff – Brom Stibitz, Chief Deputy Director
2) Why you are here – Jean Ingersoll, Interim Chief of Staff
3) What you need to do (February 22, 2016 deadline) – Jean
4) What will be done for you – Jean
5) What's next – Jean
6) Public Information Reminder – Caleb Buhs, Public Information Officer
7) Questions and Answers - Group

STATE OF MICHIGAN

RICK SNYDER
GOVERNOR

DEPARTMENT OF TECHNOLOGY, MANAGEMENT & BUDGET
LANSING

DAVID B. BEHEN
DIRECTOR

February 18, 2016

TO: All DTMB Custodians of Correspondence Related to Flint

FROM: Jean Ingersoll, Interim Chief of Staff to David B. Behen, Director and CIO

SUBJECT: Flint Document Production – Search Terms and Guidance

In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. **As a custodian, you are required to produce any documents containing the search terms listed below, no later than Monday, February 22, 2016.** This memorandum contains detailed instructions for the process of identifying, compiling, scanning, and copying the necessary information.

Microsoft 365 – Outlook (*includes emails, calendar items) and OneDrive*

DTMB staff will centrally coordinate the Microsoft 365 search for all of DTMB's custodians. Therefore, DTMB's custodians *do not need to independently search any of their Microsoft 365 applications* for the search terms listed below.

Network Drives

Similar to the approach outlined above, DTMB staff will centrally coordinate the network drive search effort for all DTMB custodians. Custodians do *not* need to independently conduct a network drive search for the search terms below.

Non-Network Drives – *includes hard drives, desktop, and thumb/flash drives*

For all non-network drive types, ***each custodian will need to search every search term listed below in every non-network format, and move all relevant/related documents in to a network drive for collection. In order to move items to the network, you must be connected to the network.***

Start by conducting the search of all non-network drives, filling out the attached search term checklist as you go. If you need guidance as to how to perform this search, a step-by-step guide is included below in Appendix 1.

All relevant/responsive items that are produced as a result of your search need to be moved to a network drive. You can move your relevant/related documents to a network drive in whatever format the document is currently in. After the February 22, 2016, deadline, DTMB staff will access the network drives to collect the files.

Paper Files

Review all applicable paper files. Scan any relevant/related documents, and save them to a network drive, as described above. If this is not possible, you may provide hard copies of documents to Jean Ingersoll in the Director's Office. These documents must be received in the Director's Office by February 22, 2016, and will not be returned to you.

Home Computer

Any relevant e-mails or other documents on a personal computer also are subject to this request. Please check your personal computer for any e-mails or other documents relating to this search. If you discover any relevant/related documents, please include the phrase "personal computer" in the file name, and save them to the aforementioned network drive.

Conclusion

Thank you for your cooperation in complying with this request. Should you have any questions, please contact Jean Ingersoll at 1-8844.

- FOIA Checklist
- Attachment 1 – Search Guidance

Search Term Checklist

In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. As a custodian, you are required to search and copy all items that you identify to a DTMB network drive, as described above.

Please complete your search no later than close of business on Monday, February 22, 2016. Relevant/related items from the past 10 years should be included.

You should search for *each term exactly as it is shown below, and include quotation marks around each separate word.* For example, "Legionnaire", "Legionella", or "Flint" would all go into search fields. After you complete a search term, check the box beside the term.

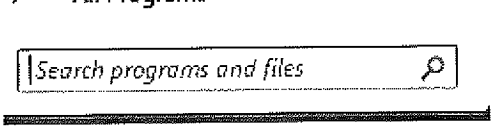
Search Terms:

- ☐ "Legionnaire"
- ☐ "Legionella"
- ☐ "boil water order" & "Flint"
- ☐ "coli" & "Flint"
- ☐ "bacteria" & "Flint"
- ☐ "microb" & "Flint"
- ☐ "TTHM" & "Flint"
- ☐ "Lead" & "Flint"
- ☐ "emergency" & "Flint"
- ☐ "Karegnondi"
- ☐ "Genesee County Health Department"
- ☐ "Flint" & "utilities"
- ☐ "Lead and Copper Rule"
- ☐ "Detroit Water and Sewerage Department" & "Flint"
- ☐ "DWSD" & "Flint"
- ☐ "Flint River"
- ☐ "Pb" & "water"
- ☐ "KWA"
- ☐ "Flint" & "water"

Search conducted on the email account of: _____

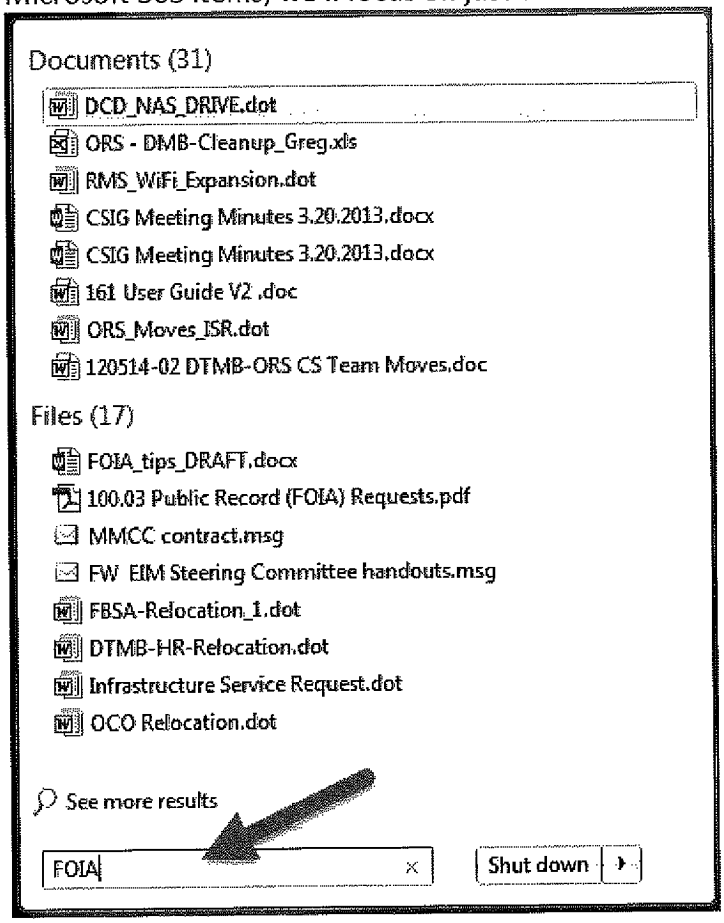
By (your name): _____

Date completed: _____



Please return this completed Checklist to DTMB Director's Office staff by Monday, February 22, 2016, at DTMB@michigan.gov, or Directors Office, Cass Building, Second Floor

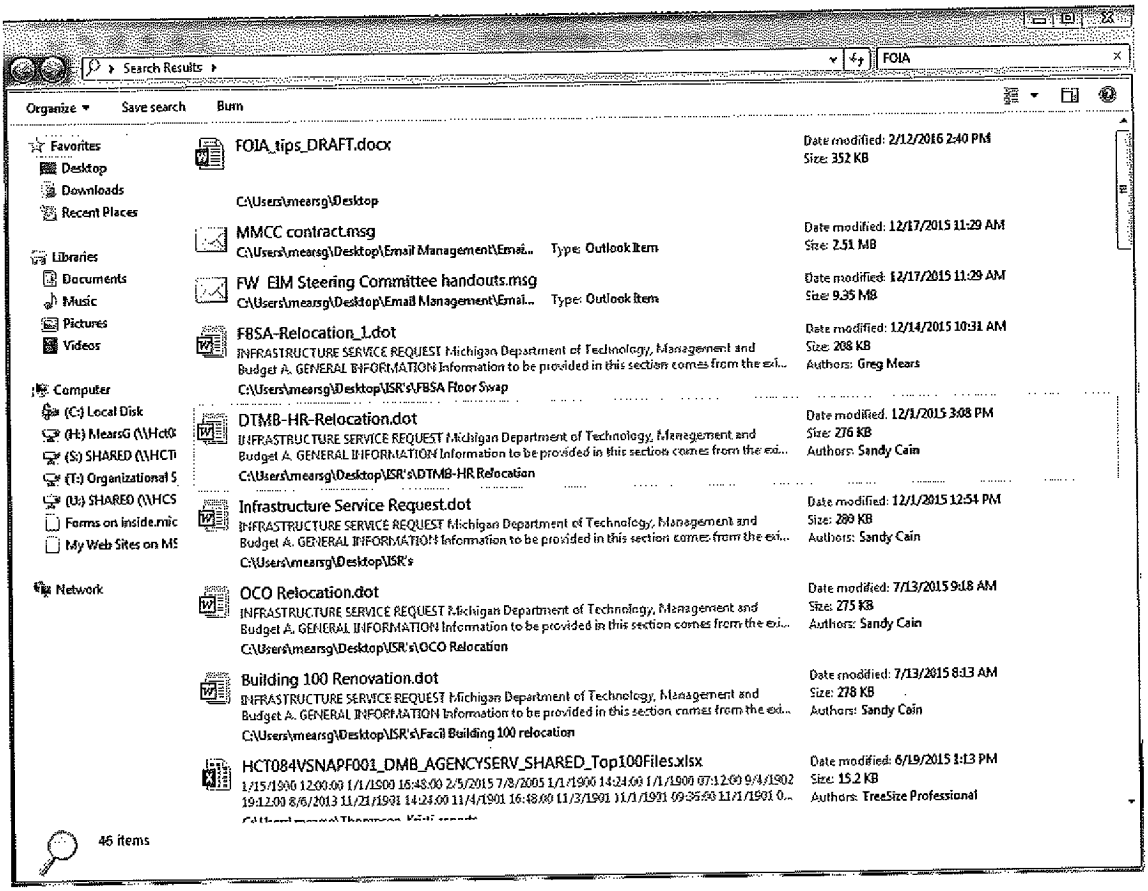
APPENDIX 1 – Search Guidance



Regardless of what version of Windows you're using, each of them has a search feature built in called "Windows Explorer," you see it every time you open up a folder on a network drive, or on your own computer.

Using the search function in windows 7

Since the majority of DTMB is on Windows 7, the examples below are on that operating system. If you click on windows Start button, you'll see the search box right next to it



This example searches for the word FOIA. As you can see, the search yielded numerous documents including emails. Since DTMB is centrally collecting relevant emails and other Microsoft 365 items, we'll focus on just the documents.

You need to open each document to make sure that it's relevant. In this instance, the search brought up a DTMB Move form, but only because it has the word FOIA in the form.
You'll notice that the words "See more results" appears at the bottom of the list. This means that the search turned up a lot more documents than what can easily be displayed. You must

click on the link to open Windows Explorer and reveal a comprehensive list, along with their locations.

As you can see from this example the search found 46 items. We can now select them all using the "Ctrl-A method", and copy them to a network drive.

***This attachment was updated 2/18/16**

*See agenda below

Requested By:
DTMB Executive Staff

Location:
Ottawa Building
Upper Level – Conference Room 4
611 W. Ottawa Street
Lansing, MI 48933

Call-in: 866-390-1828
Access code: 1842654

Security:
Please have your State Employee ID showing at all times.

Parking:
Metered parking is available along Ottawa and Pine street.

Briefing:
In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. As a custodian, you are required to produce, by a certain date, any documents containing certain search terms. In this meeting we will review instructions for the process of identifying, compiling, scanning, and copying the necessary information.

Agenda
1) Kickoff – Brom Stibitz, Chief Deputy Director
2) Why you are here – Jean Ingersoll, Interim Chief of Staff
3) What you need to do (February 22, 2016 deadline) – Jean
4) What will be done for you – Jean
5) What's next – Jean
6) Public Information Reminder – Caleb Buhs, Public Information Officer
7) Questions and Answers - Group

*See agenda below

Requested By:
DTMB Executive Staff

Location:
Ottawa Building
Upper Level – Conference Room 4
611 W. Ottawa Street
Lansing, MI 48933

Call-in: 866-390-1828
Access code: 1842654

Security:
Please have your State Employee ID showing at all times.

Parking:
Metered parking is available along Ottawa and Pine street.

Briefing:
In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. As a custodian, you are required to produce, by a certain date, any documents containing certain search terms. In this meeting we will review instructions for the process of identifying, compiling, scanning, and copying the necessary information.

Agenda

1) Kickoff – Brom Stibitz, Chief Deputy Director
2) Why you are here – Jean Ingersoll, Interim Chief of Staff
3) What you need to do (February 22, 2016 deadline) – Jean
4) What will be done for you – Jean
5) What's next – Jean
6) Public Information Reminder – Caleb Buhs, Public Information Officer
7) Questions and Answers - Group

STATE OF MICHIGAN

RICK SNYDER
GOVERNOR

DEPARTMENT OF TECHNOLOGY, MANAGEMENT & BUDGET
LANSING

DAVID B. BEHEN
DIRECTOR

February 17, 2016

TO: All DTMB Custodians of Correspondence Related to Flint

FROM: Jean Ingersoll, Interim Chief of Staff to David B. Behen, Director and CIO

SUBJECT: Flint Document Production – Search Terms and Guidance

In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. **As a custodian, you are required to produce any documents containing the search terms listed below, no later than Monday, February 22, 2016.** This memorandum contains detailed instructions for the process of identifying, compiling, scanning, and copying the necessary information.

Microsoft 365 – Outlook (*includes emails, calendar items) and OneDrive*

DTMB staff will centrally coordinate the Microsoft 365 search for all of DTMB's custodians. Therefore, DTMB's custodians *do not need to independently search any of their Microsoft 365 applications* for the search terms listed below.

Network Drives

Similar to the approach outlined above, DTMB staff will centrally coordinate the network drive search effort for all DTMB custodians. Custodians do *not* need to independently conduct a network drive search for the search terms below.

Non-Network Drives – *includes hard drives, desktop, and thumb/flash drives*

For all non-network drive types, ***each custodian will need to search every search term listed below in every non-network format, and move all relevant/related documents in to a network drive for collection. In order to move items to the network, you must be connected to the network.***

Start by conducting the search of all non-network drives, filling out the attached search term checklist as you go. If you need guidance as to how to perform this search, a step-by-step guide is included below in Appendix 1.

All relevant/responsive items that are produced as a result of your search need to be moved to a network drive. You can move your relevant/related documents to a network drive in whatever format the document is currently in. After the February 22, 2016, deadline, DTMB staff will access the network drives to collect the files.

Paper Files

Review all applicable paper files. Scan any relevant/related documents, and save them to a network drive, as described above. If this is not possible, you may provide hard copies of documents to Jean Ingersoll in the Director's Office. These documents must be received in the Director's Office by February 22, 2016, and will not be returned to you.

Home Computer

Any relevant e-mails or other documents on a personal computer also are subject to this request. Please check your personal computer for any e-mails or other documents relating to this search. If you discover any relevant/related documents, please include the phrase "personal computer" in the file name, and save them to the aforementioned network drive.

Conclusion

Thank you for your cooperation in complying with this request. Should you have any questions, please contact Jean Ingersoll at 1-8844.

- FOIA Checklist
- Attachment 1 – Search Guidance

Search Term Checklist

In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. As a custodian, you are required to search and copy all items that you identify to a DTMB network drive, as described above.

Please complete your search no later than close of business on Monday, February 22, 2016. Relevant/related items from the past 10 years should be included.

You should search for *each term exactly as it is shown below, and include quotation marks around each separate word.* For example, "Legionnaire", "Legionella", or "Flint" would all go into search fields. After you complete a search term, check the box beside the term.

Search Terms:

- ☐ "Legionnaire"

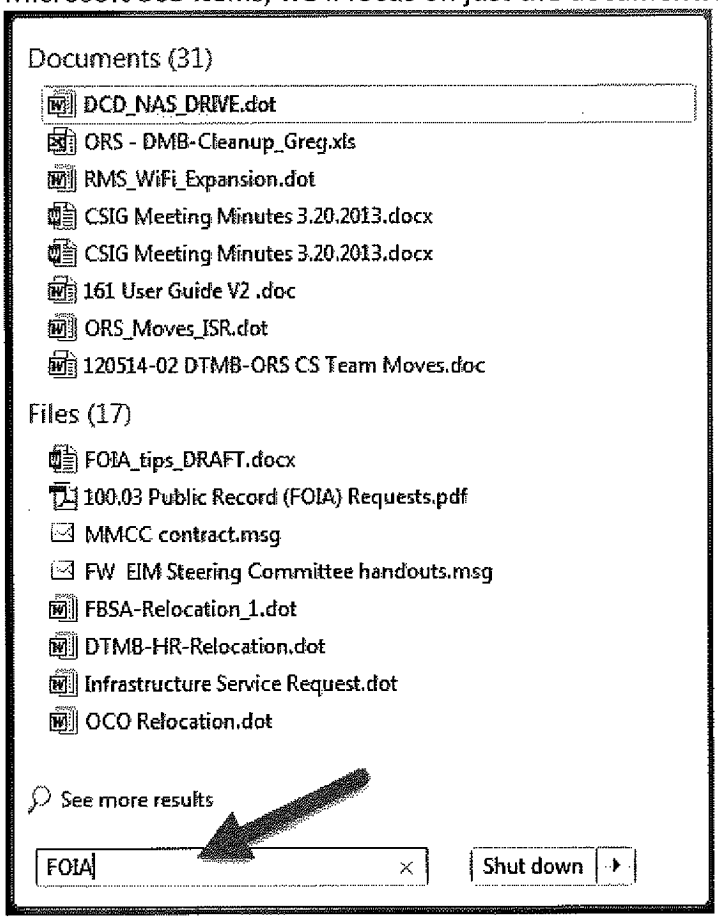
Directors Office, Cass Building, Second Floor

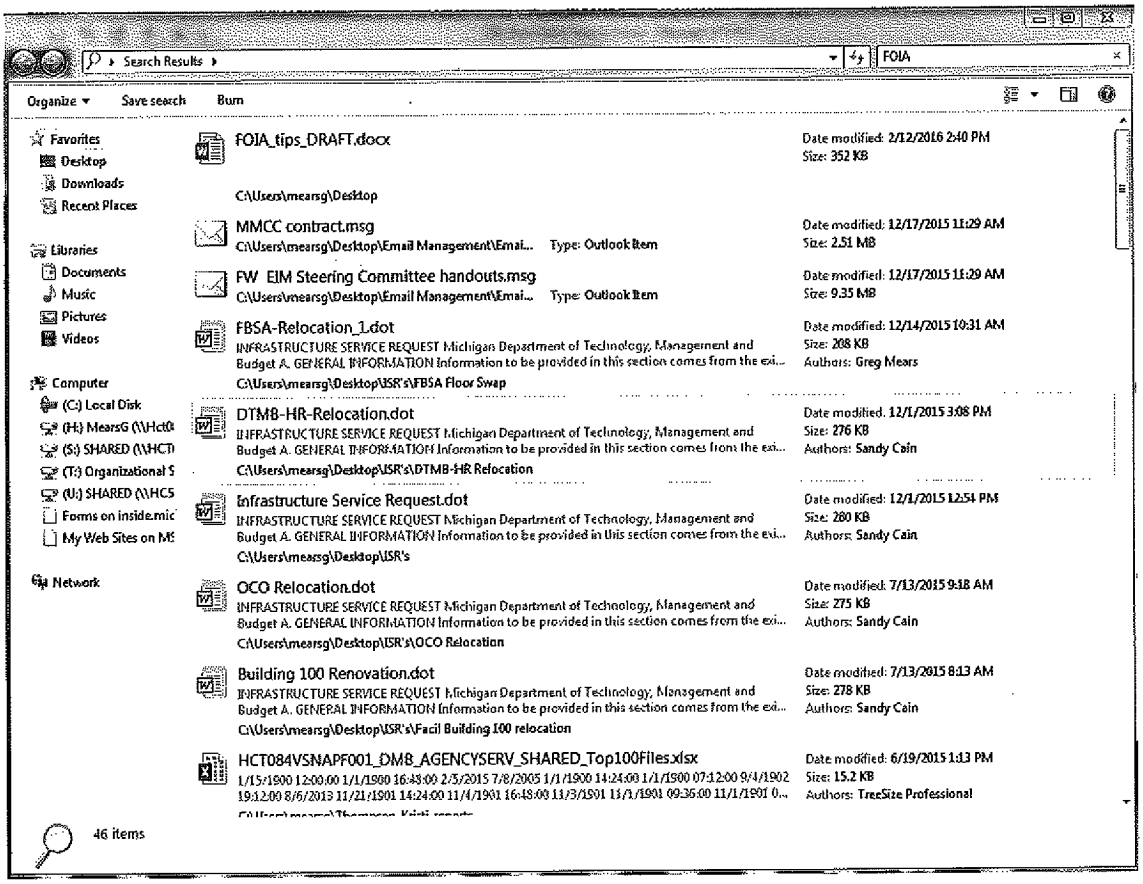
APPENDIX 1 – Search Guidance



Regardless of what version of Windows you're using, each of them has a search feature built in called "Windows Explorer," you see it every time you open up a folder on a network drive, or on your own computer.

Using the search function in windows 7

Since the majority of DTMB is on Windows 7, the examples below are on that operating system. If you click on windows Start button, you'll see the search box right next to it



This example searches for the word FOIA. As you can see, the search yielded numerous documents including emails. Since DTMB is centrally collecting relevant emails and other Microsoft 365 items, we'll focus on just the documents.

You need to open each document to make sure that it's relevant. In this instance, the search brought up a DTMB Move form, but only because it has the word FOIA in the form.
You'll notice that the words "See more results" appears at the bottom of the list. This means that the search turned up a lot more documents than what can easily be displayed. You must

click on the link to open Windows Explorer and reveal a comprehensive list, along with their locations.

As you can see from this example the search found 46 items. We can now select them all using the "Ctrl-A method", and copy them to a network drive.

Good Morning Team,

It's always great to share good news! Please refer to the email below from the acting Chief of DNR. Though our team is not called out specifically, our PC- Jeremy Newman has lead the team working on VMS, MiFi and OLB. This project (VMS 4.0) has been on a long road and has involved prior PMO team members as well (Raj and Raja). The project has been challenging from the start and Jeremy has done a great job of bringing organization and leadership to the project since taking over.

It Is always nice to hear the customer perspective and hear that they feel things are going well and like the results.

So....kudos and nice job to Jeremy! Keep up the great work!

Hi Folks,

Positive "internal" news within DNR on efforts in which DTMB has been involved -- Toughpads, VMS, MiFi, OLB...

Happy to see the positive spin. Sad to see that DTMB was not mentioned anywhere as a partner in the success.

Thanks

Chief's Update

The unexpected, recent chain of events finds me trying to fill my and Bill O'Neill's shoes, while Bill fills his boss' shoes. There is a lot going on!

The department, our division and staff have been called upon to help with the Flint water situation because of our expertise, experience, and our "we can do it" attitude. And we can. We have an Incident Management Team working here in Constitution Hall helping with the Flint situation. We also have a GIS team working to develop a GIS map of water distribution lines in Flint. In addition, Kerry Wieber filled in as a Public Information Officer (PIO) on one of the support teams. We have several other staff filling in for vacancies, working on some great projects, and everyone works day-to-day on our core functions. We make an amazing team!

I'll continue with these monthly newsletters and the division will explore other ways for better communication throughout the division. In the meantime, here are some things that are going on:

Communication Updates

There are some good things happening with our outreach and education efforts, which are helping us to better meet our goals outlined in the strategic plan. Here are a couple of things on the horizon:

- FRD's inaugural promotional video is just about complete. We're waiting on the production company to make a small change, but it should be ready for viewing at our upcoming professional development. We're extremely pleased with the finished product and have heard great feedback from those outside of the division who reviewed it.
- For those of you who aren't aware, FRD is starting collaboration with 98.5 WUPS, a classic rock radio station out of Houghton Lake. The new "Facts from the Forest" segment will include 30-second quick facts about all facets of forestry in Michigan. The facts will run Monday-Friday, every week of the year. They will be short, fun and informative, but will still include DNR messaging. It's a great opportunity that we couldn't let pass us by. Thank you to those of you who took the time to provide forestry facts for the first couple of months of this collaboration. Stay tuned for more on this as we get some samples to share.
- Don't forget that we're always looking for photos and video of what you're working on in the field. If you think what you're doing is interesting, there's a good chance that others will agree! You don't have to be an expert photographer or videographer to participate. Beth Fults recently attended the Council of Western State Foresters communications meeting in Sun River, Oregon, and a marketing professional based out of Colorado was in attendance. He stressed the importance of real-time photo and video, explaining that research shows people find raw video footage more convincing than professionally produced pieces. This doesn't mean that we won't invest in future professional videos, but it does mean that we have an opportunity to educate people about what we do via our smart phones. Beth is working with the social media coordinator to make it easier for you to be able to submit photo and video files to an online location, but in the meantime feel free to send her anything that you capture that you find interesting (fultsb@michigan.gov). Remember that shorter is better when it comes to videos – 30 seconds or less is perfect.
- Development of the FY15 accomplishments report is on the horizon. We're excited to announce that it will be taking on a new format this year. We're shooting for shorter blurbs to result in quicker impact. If you're asked to provide information, please take deadlines seriously.

Invasive Species Website now Active

The new Michigan Invasive Species website is now available to the public at www.michigan.gov/invasivespecies. Thank you to all who spent time conceptualizing and constructing the site – a major, collaborative effort across all three Quality of Life departments! The website workgroup will continue to add information and update the site on a regular basis.

Foresters for Fish

Water quality issues have been in the news in Michigan lately, and the Forest Resources Division has a new project that seeks to inform the public that good forest management produces clean water for all Michigan citizens to enjoy. Michigan's 20 million acres of forest land provide many goods and services, and clean water should be a benefit that every forester is proud to produce. "Foresters for Fish!" is a new three-year project, coordinated by FRD, to help public and private sector foresters communicate the message that "healthy forests provide abundant clean water." This project is a partnership between FRD, Fisheries Division, Michigan Trout Unlimited, American Tree Farm System, Michigan Association of Consulting Foresters, and Michigan Association of Timbermen. The project will develop educational and marketing materials, and offer workshops about forestry best management practices, clean water, and fish habitat. Mike Smalligan is the project manager for "*Foresters for Fish!*" which is funded by a $255,000 grant from the USFS State and Private Forestry.

New Traverse City Office

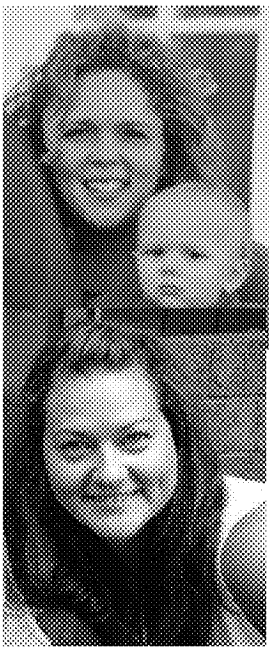
Staff at the Traverse City Office is looking forward to a new place to call home; their work home that is! The current facility is cramped and the current rental arrangement is not ideal from a financial standpoint. The search for a new office has been ongoing for several years now so when monies became available and the right location and building was found, the decision was made to move.

Dan Lord and Steve Gregory (Finance and Operations staff) have been working hard to secure a new location on M-37, just south of what is known in the Traverse City area as Chums Corners. No date has been set for the move, but improvements and modifications are being made so the office will be a "state-of-the-art" DNR facility. When the move is made, the new facility will be named the Traverse City Customer Service Center.

Conversations are ongoing regarding the Newberry and the Sault offices. They are toward the top of the list for solutions to their issues. Also, the Crystal Falls office may be remodeled this year if funding is still available.

Toughpad Rollout

It's been a long road, but the rollout of Toughpads to the majority of field foresters and technicians is slated for February. Jason Stephens is leading a team that will hold a series of training sessions in the NLP and U.P. where staff will receive their Toughpads and get basic instruction on their functionality and use. Tentative training dates and locations are: February 16-18 at the RAM Center for NLP FMUs, and February 23 at the ICC in Marquette for the U.P. FMUs. Additional details will be coming soon!



VMS 4.0/MiFi 3.0 Rollout

The development of VMS 4.0 (Proposal Module) and MiFI 3.0 has been an even longer journey, but thanks to the leadership of Doug Heym, Donovan Asselin, and Dan Heckman the rollout is finally scheduled for this April! This module will greatly streamline the proposal development, review, and approval process, and result in greater efficiency and productivity for this part of our timber sale program. An announcement for six training courses was sent out by Fran Ryan on January 20. If you have not already done so, please RSVP your preferred course date to Margaret Spagnuolo (spagnuolom2@michigan.gov).

On-line Bidding Update

The release of On-line Bidding to our timber producers is going well, and is a great example of our hard work to improve customer service and satisfaction. We are gradually building up our customer base using this application, currently having nine companies and 16 people registered and using it to bid on timber sales. Customer feedback thus far has been very positive, specifically pointing out its ease of use and convenience, and even going so far to say that "it is the best thing that the state has ever done"! High praise indeed! So far there has only been a limited release. We will be making an announcement to all producers with a full release after the VMS 4.0 rollout.

Employee Spotlight

Lisa Parker

Started at the DNR in: 2002; joined FRD in 2015.
What I do: My responsibility is to oversee the accounting functions for FRD including monitoring fund balances, reconciling revenue and expenditures, preparing financial reports, and ensuring that year end closing functions are performed and completed. I am responsible for setting up account coding for the division and assisting program staff with any accounting related questions or tasks.
In my spare time: In my spare time, my husband and I keep busy with our three kids, Landon (9), Alaina (7), and Mara (1), and all of their activities including football, basketball, lacrosse, soccer and dance. We love going to the movies in our free time and spend summers at our new lake house on Gun Lake.

Beth Webert

Started at the DNR in: 2015; was with MDOT finance before coming to FRD.

What I do: I am the new account tech. I am the liaison for FRD procurement cards, fuel cards and hotel cards. I also enter requisitions, purchase orders, payments and other assigned duties for FRD staff.
In my spare time: I hang out with my family. My husband and I have three boys. We own a Jeep and go to Silver Lake Sand Dunes three times a year.

Employee Spotlight – Submissions Needed

If you haven't yet been featured in the Employee Spotlight section, please email a photo and your answers to the following three questions to Kim Korbecki, (korbeckik@michigan.gov):

1. When did you start at the DNR?
2. What do you do (in one or two sentences)?
3. What do you like to do in your spare time?

This is a fun addition to these notes and it's really nice to be able to put faces with names.

Parting Shots

I was very saddened by the loss of one of our DNR family members, Billy Rollo. I knew Billy a little bit and I know many of you knew him as well. Like most, Billy loved his job and was passionate about managing our natural resources.

I hope you all feel as I do…I never take for granted my job or my families…my DNR family and my family at home.

I look forward to seeing you all at our Professional Development Training beginning on February 9. Last minute information will be sent out next week.

In the meantime, enjoy the beauty of the snow, the ice on the lake for fishing, and all the other parts of winter that make you happy!

Flint Special Project RM Train...

The training manual for users is attached; it provides some insight on how this project will work.

This meeting is to demonstrate the standard Records Manager configuration for any state department wishing to use it to store, review and classify records relating to the Flint water situation. Please feel free to extend this meeting invitation to any interested parties.

Please note the change in time to 3 p.m.

Records Management Services 37

Welcome to Records Manager

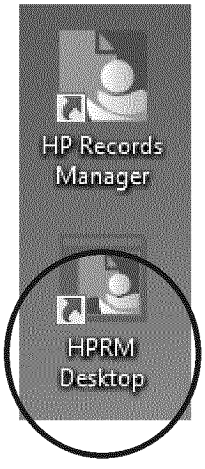
Records Manager is an electronic document management tool that can manage records from the point of creation to final disposition, regardless of Format. This includes scanned documents, Microsoft products, other electronic documents, and e-mail. Records Manager allows for robust searching and the use of favorites, as well as revision and check-out controls. Records Manager works with many Microsoft products. While it may look similar to a Windows environment, it does function differently than Microsoft Windows.

This course is designed to teach basic navigation and functions of Records Manager. More advanced training is available from the Department of Technology, Management & Budget Records Management Services (RMS), which administers Records Manager for the State of Michigan. Records Manager is a shared, enterprise-wide solution for the State of Michigan, used by numerous agencies in different ways that best serve their business process needs.

Flint Special Project 2016

The Flint Special Project of 2016 offers a document storage solution to State of Michigan departments needing to storage and classify records related to the Flint water crisis. All departments using Records Manager for this purpose will operate in the same way.

- Each department will appoint a Local Coordinator and a backup. The Local Coordinator (LC) is in charge of user security for that department. The LC can assign seats to users, granting them access to their department's records, and can grant access to their department's records to other Records Manager users. Users can have view or modify permission to a department's records.



- Each department will be billed separately for users and for document volume.

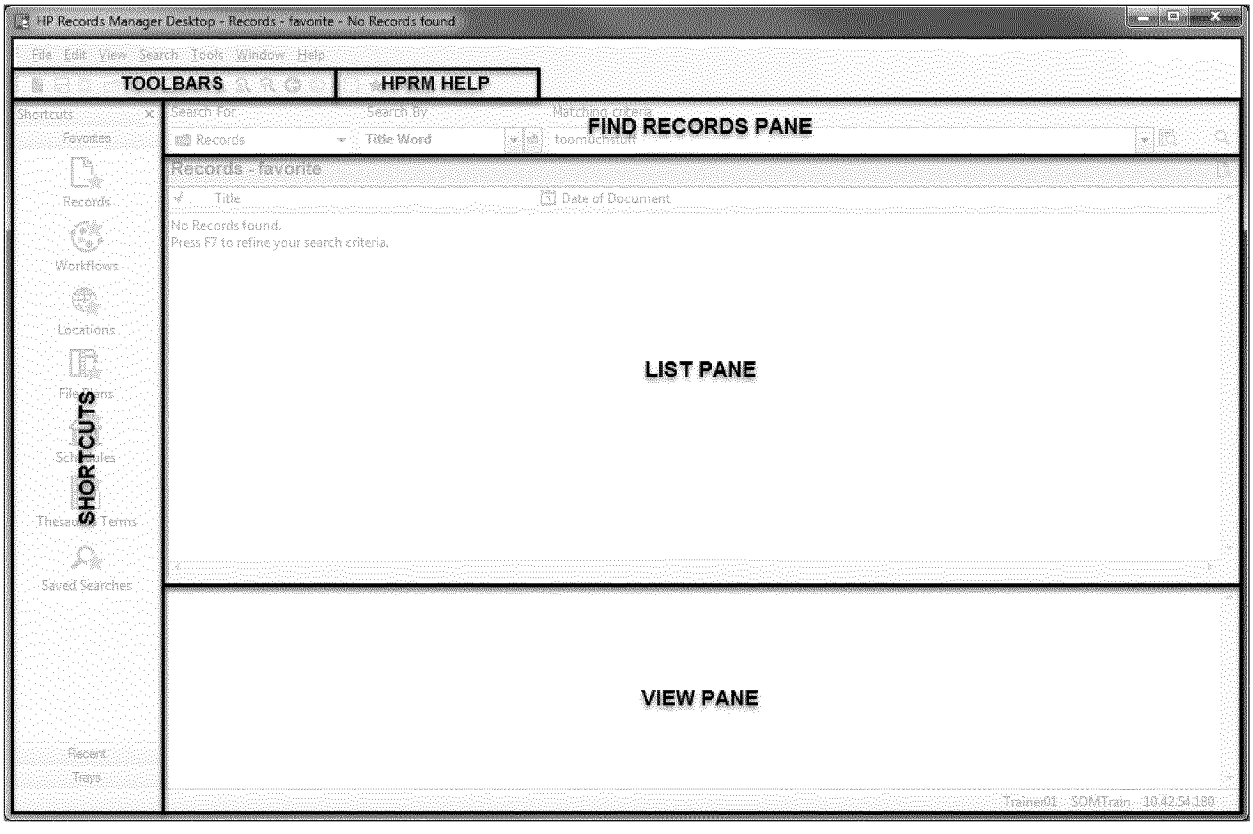
- Records stored in Records Manager for this project should be **copies**. Original records should be retained in their regular business process location.

- No retention and disposal will be applied at this time, or at any time without departmental permission.

Logging On

Double-click on the **Records Manager Desktop** icon to launch Records Manager. You may also have a Records Manager icon; this is not used for the functions described in this manual.

Navigating Records Manager



Tip of the Day

By default, Records Manager will display a **Tip of the Day** when you launch the application. To turn this feature off, unclick **Show Tips at Startup**. Then click **Close**.

Records Manager Panes

Records Manager has a number of panes to help you navigate its functions.

Toolbars: Records Manager has a number of toolbars that contain buttons for a variety of features. You can customize the buttons to meet your individual needs. From the **View** menu, select **Toolbars** to see the various toolbars that are available.

Records Manager Help: The Records Manager Help feature is informative and well indexed. Records Management Services staff uses this frequently. Please refer to it prior to seeking assistance from others.

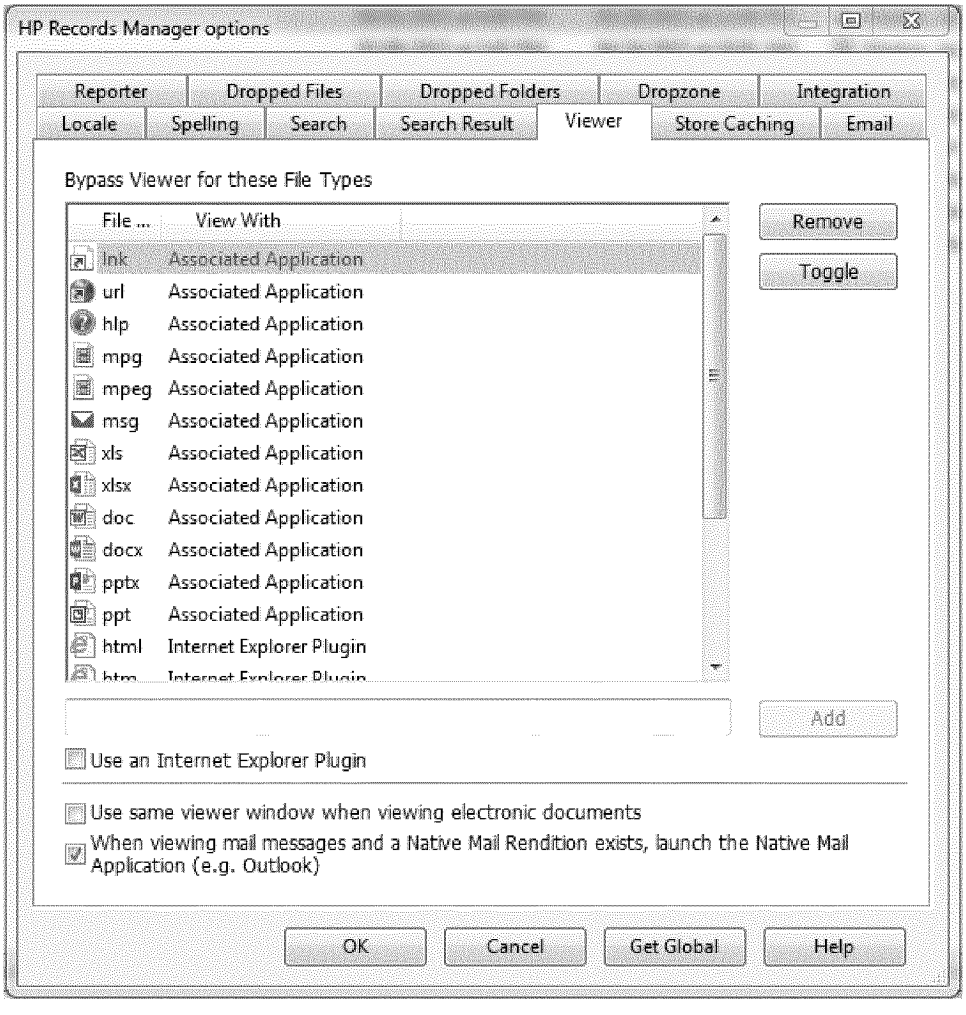
Find Records Pane: You can use the find records pane to conduct one-metadata field searches.

List Pane: The list pane lists the items that you have searched for.

View Pane: The view pane gives you detailed information about the item that is selected in the list pane. You must have found and selected a record first to use the view pane.

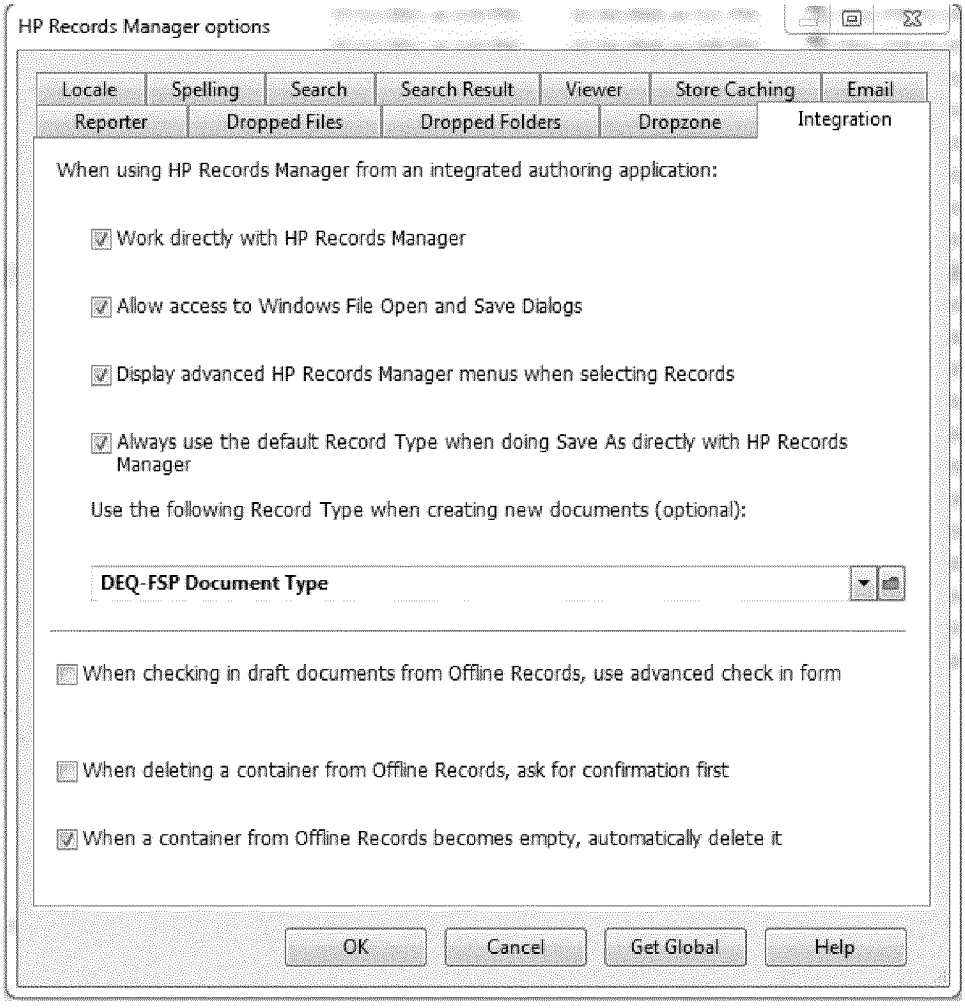
> **Properties Tab:** Allows you to view the properties of the selected item.
>
> **Notes Tab:** Allows you to view notes that have been appended to the selected item.
>
> **Preview tab:** Allows you to preview the selected item without opening it.
>
> **Previous tab:** Allows you to preview the most recent previous revision of the selected item without opening it.

Shortcuts: The shortcut bar gives you quick access to commonly used records. It is divided into three areas.

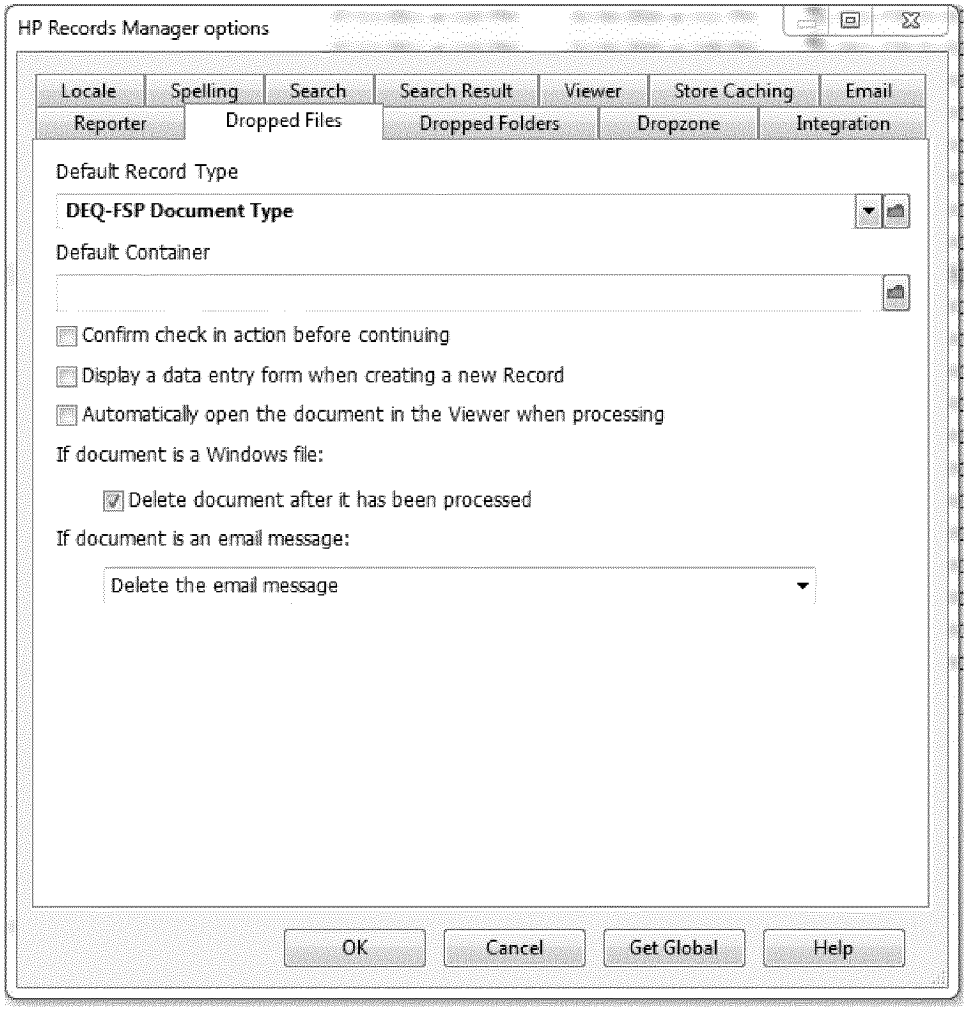


> **Favorites:** This shows favorite records, searches, workflows, etc. selected by the user.
>
> **Recent:** This shows your recently accessed records and containers.
>
> **Trays:** This shows your trays, including your Offline Records and documents checked out to you.

Setting Up



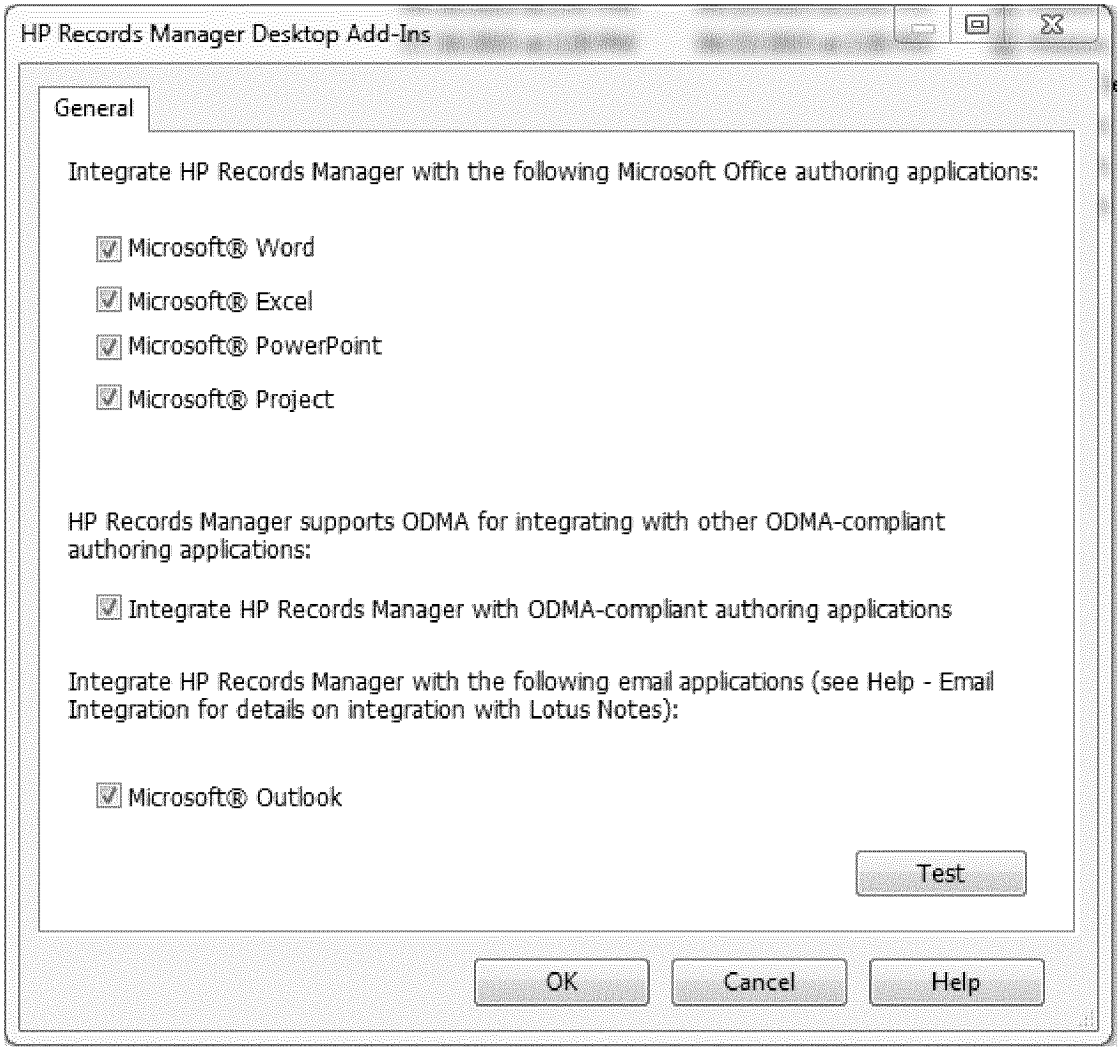
Go to **Tools**, then **Options**.



Make the **Viewer** tab look like this.

Make the **Integration** tab look like this. Use the blue folder icon on the right to select the document type.

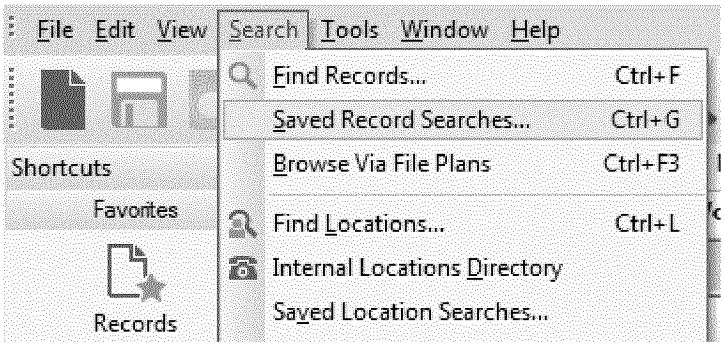
Make the **Dropped Files** tab look like this. Use the blue folder icon on the right to select the document type.



Click **OK**.

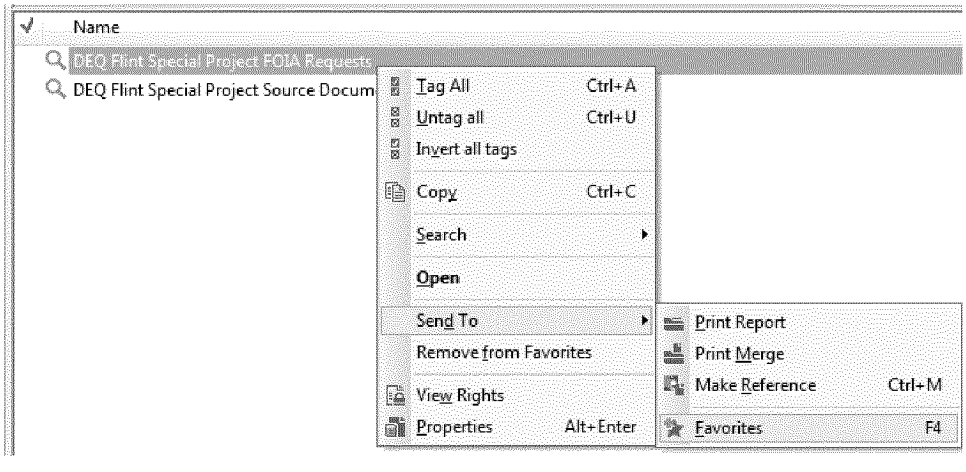
Go to **Tools**, then **Desktop Add-Ins**.

Make **Desktop Add-Ins** look like this.



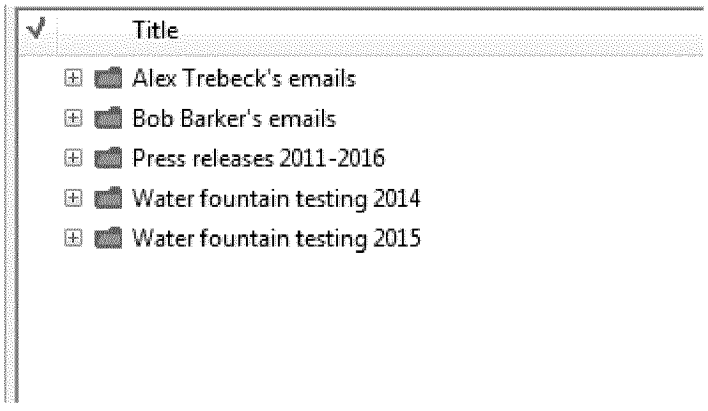
Close Records Manager Desktop and re-open it to apply these settings.

Searching

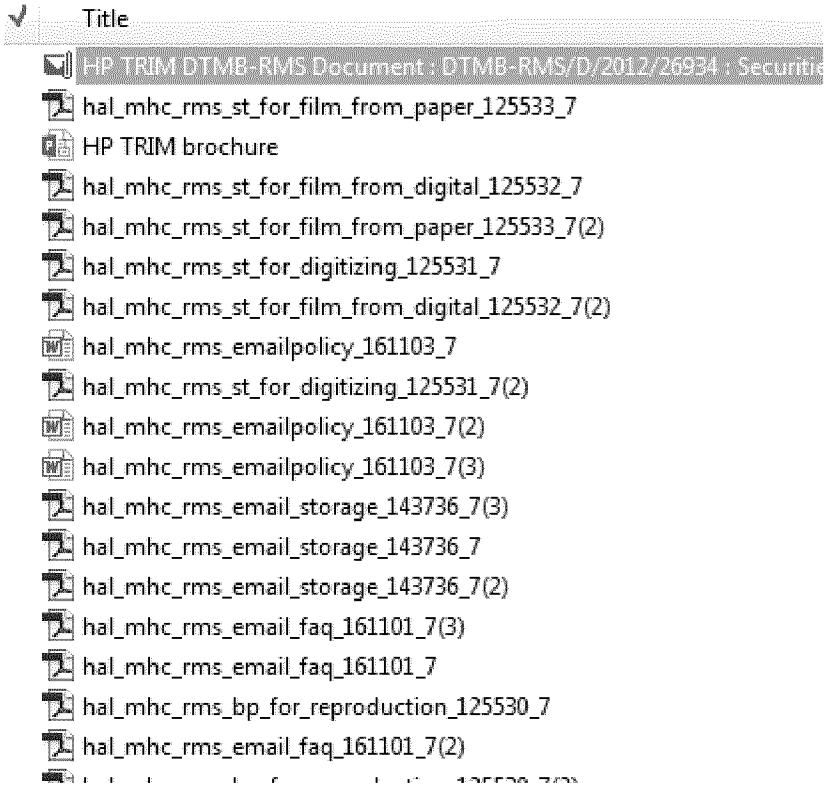


Saved Searches

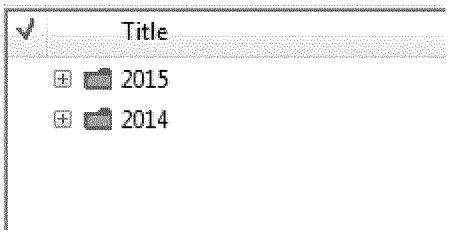
DTMB Records Management Services has created two saved searches for FSP users. Go to **Search**, and then to **Saved Records Searches** to find them.



There should be two saved searches for your department, one for FOIA Requests and one for Source Documents. Double-click a saved search to run it.

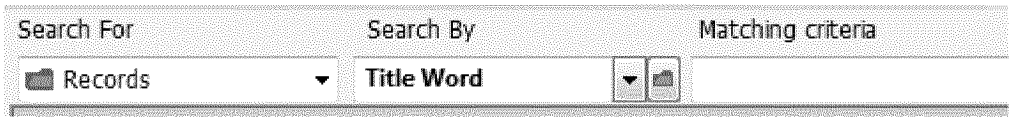


Note: To save these searches to your favorites, right-click and select **Send To**, then **Favorites**. The searches will now appear in your right-hand **Shortcuts** toolbar, under **Favorites**, in **Saved Searches**.

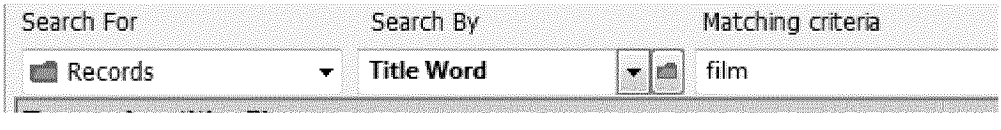


A list of all folders will appear in alphabetical order. Double-click on a folder to open it.

A list of all documents within the folder will appear.

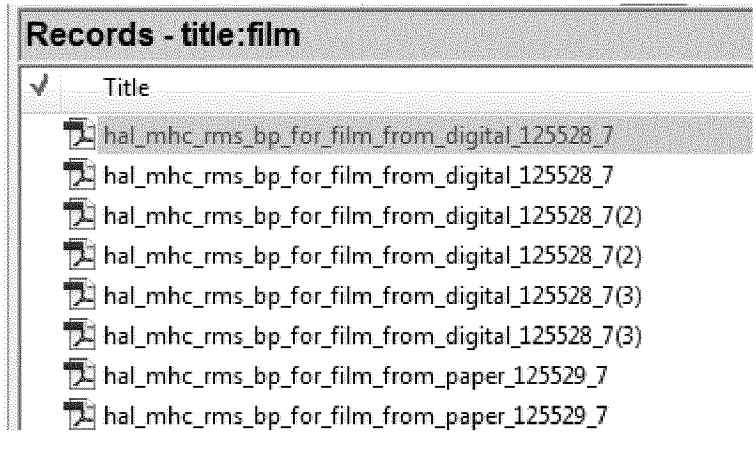


The folder also may have a single layer of secondary folders within it. Double-click a secondary folder to open it.



Double-click on a document to open it. If you have modify permissions, it will open in edit mode. If you have view permissions, it will open in view mode.

Searching by Title Word



You can also search for folders or documents by their title. There is a search bar at the top of your Records Manager window. Think of this like a search engine, such as Google or Bing. By default, the search bar should say **Records** and **Title Word**, followed by a blank field to enter your search term.

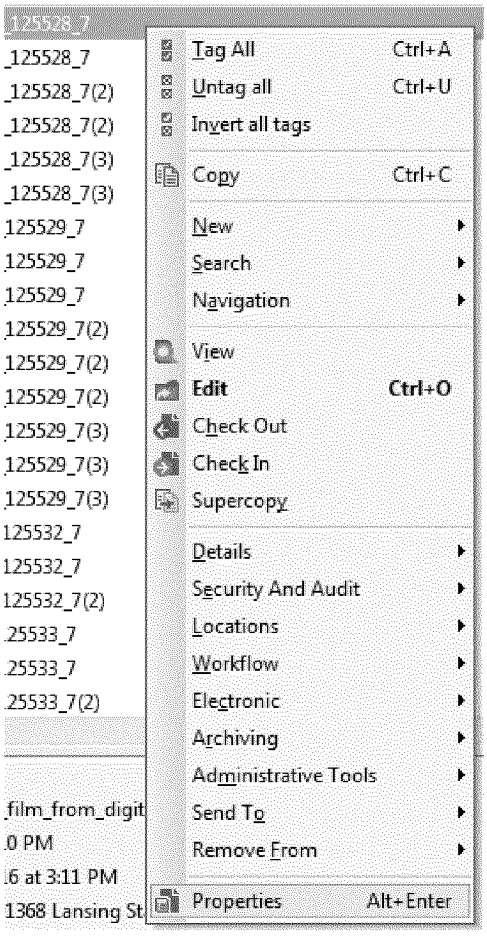
Enter a search term and click **Enter**.

Your results will be displayed. Your results may be documents, folders, or both.

NOTE: You can use the asterick (*) as a wild card seach if you are not certain of the full name. For example, search for “west*” if you are looking for “Weston”, “Westen” or “Westin”.

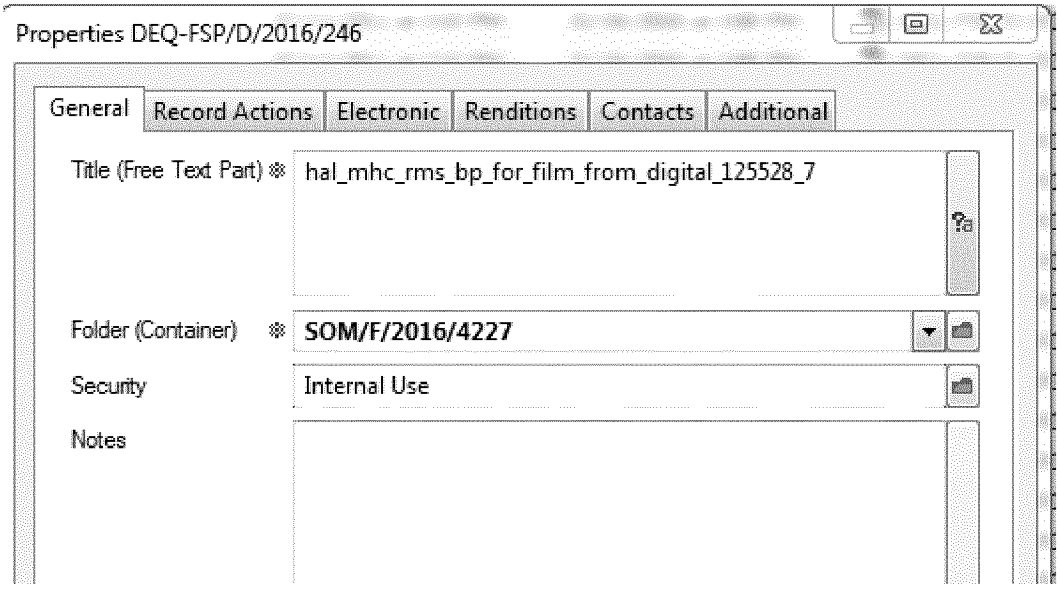
Flint Special Project Records

There are two types of records stored in the Flint Special Projects area of Records Manager, source documents and FOIA requests.



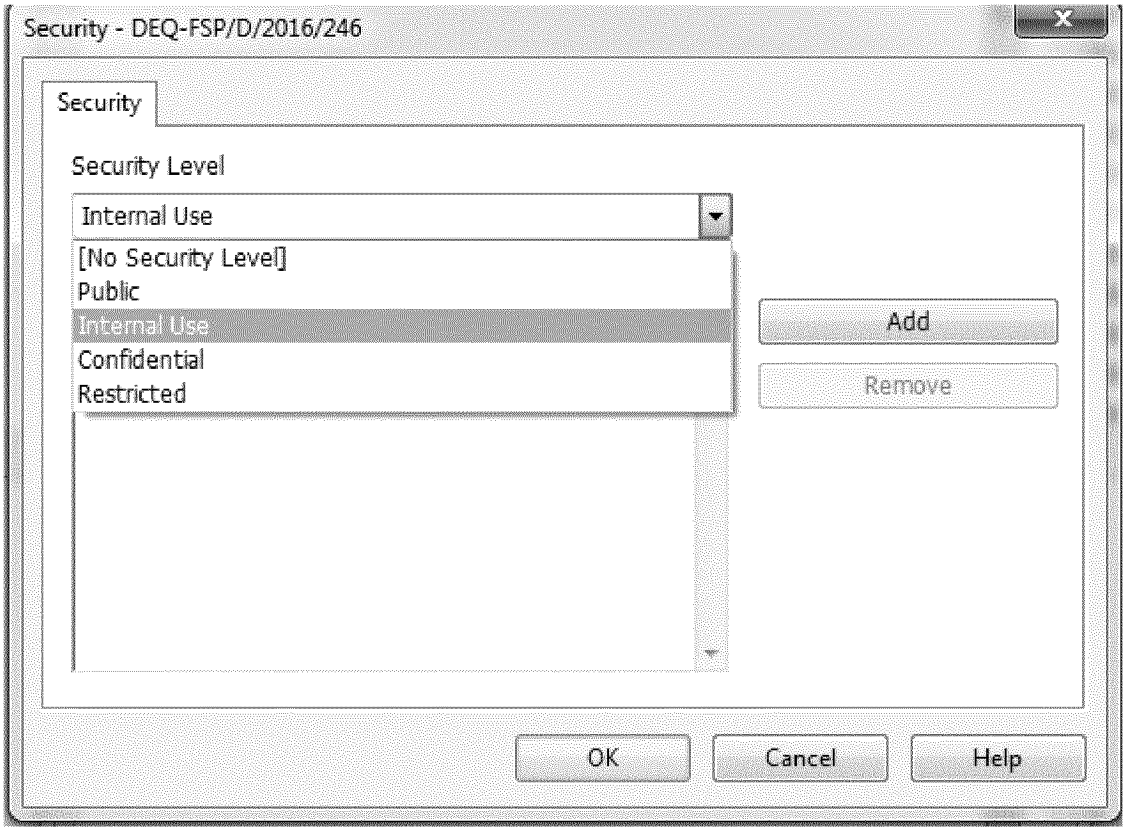
Source documents are copies of documents from a department’s business processes, organized by subject matter in folders. Source documents may have secondary folders within the primary folders to help organize them.

Freedom of Information Act (FOIA) requests should only be handled by FOIA coordinators or their designees, under their instruction. FOIA folders should contain: 1) the FOIA request; 2) the department’s response cover letter; and 3) the materials sent with the response. FOIA folders should be named by FOIA request number and requestor name.

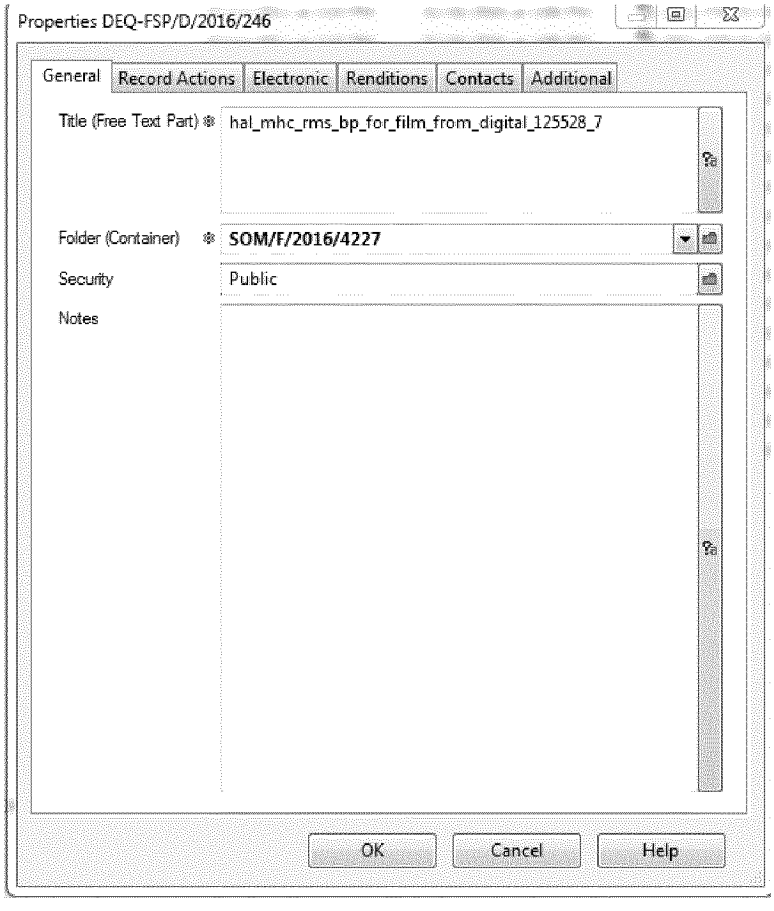


Documents stored as source documents should be copies of departmental documents already stored in paper or digital format with other business process records. Documents stored as FOIA documents should be copies of source documents.

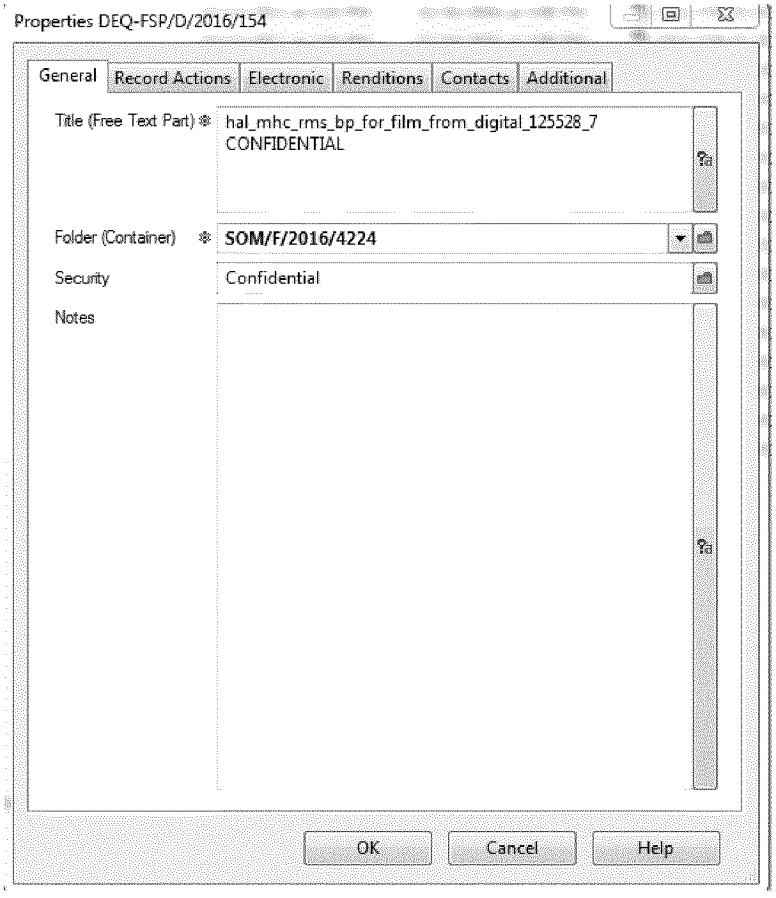
Re-classifying Documents



As you review documents inside of Records Manager, you should re-classify them from Internal (state use) to either Public (ready to be released to the public) or Confidential (contains confidential information and should not be released to the public). All documents are classified Internal by default. Right-click on a document and select **Properties** to see its classification.



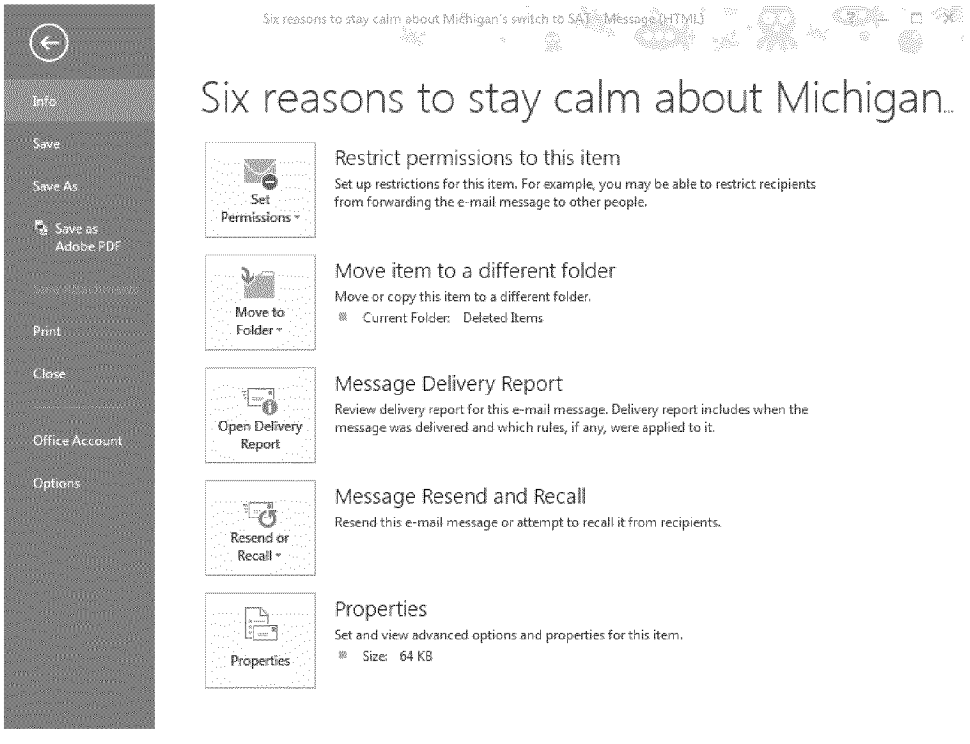
Click on the blue folder icon to the right of **Security** to change a document's classification.



Select the appropriate security level and click **OK**.

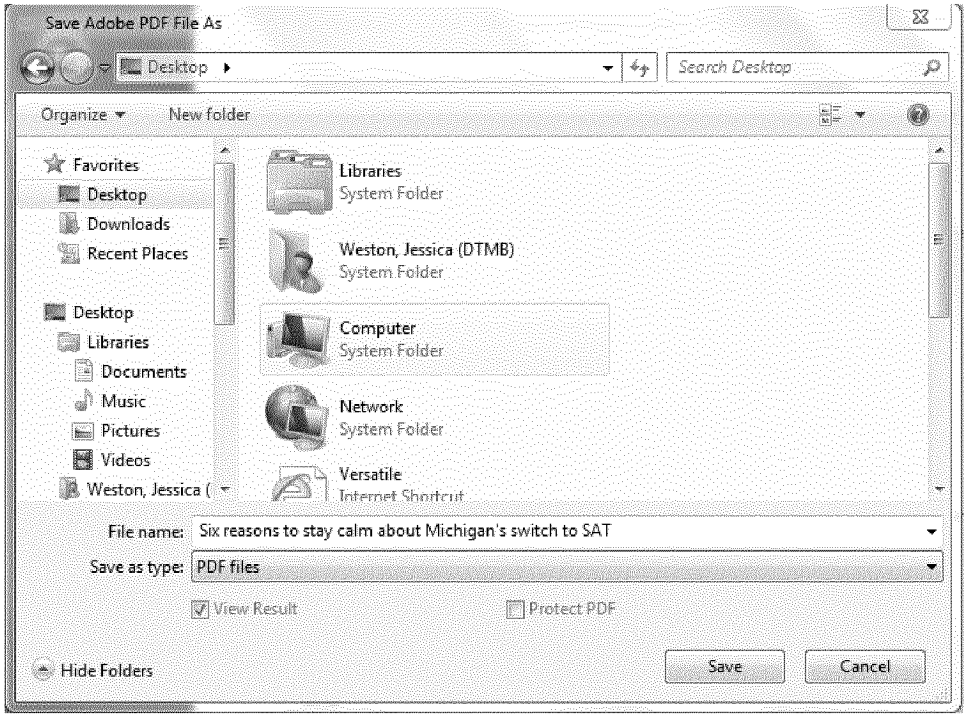
Click **OK** at the bottom of the document properties window to finish re-classifying the document.

If the document is confidential, add the word “CONFIDENTIAL” in all capital letters to the end of the **Title (Free Text Part)** before clicking **OK**.



Creating a Public Version of a Confidential Document

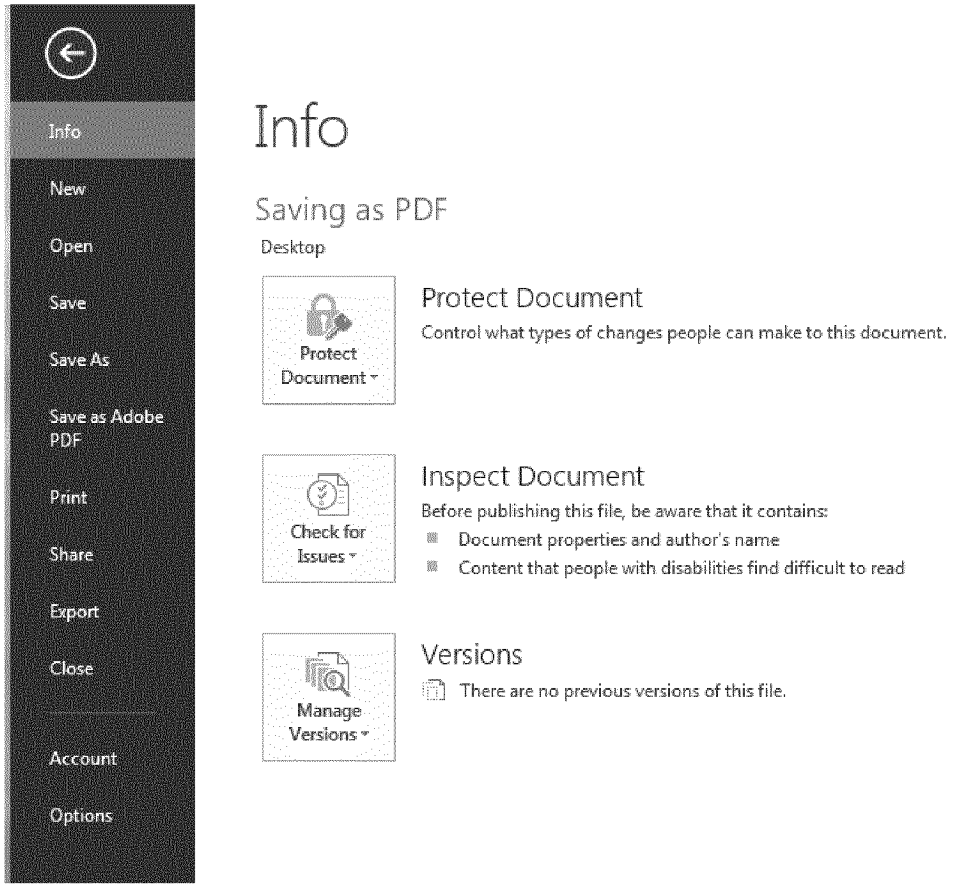
When you encounter a document that has confidential information – such as a Social Security Number – in it, you should re-classify that document as Confidential. You should then make a copy of that document to be redacted and then re-filed in Records Manager as a Public version.



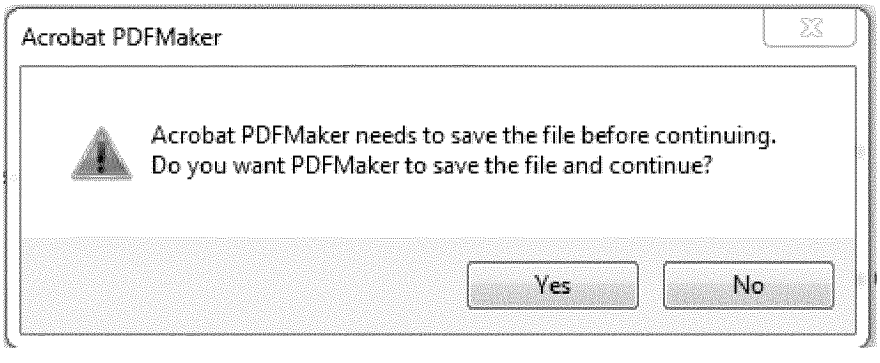
To make a copy of a document, drag and drop it from Records Manager onto your desktop. Then convert it to PDF.

Converting Outlook Emails to PDF

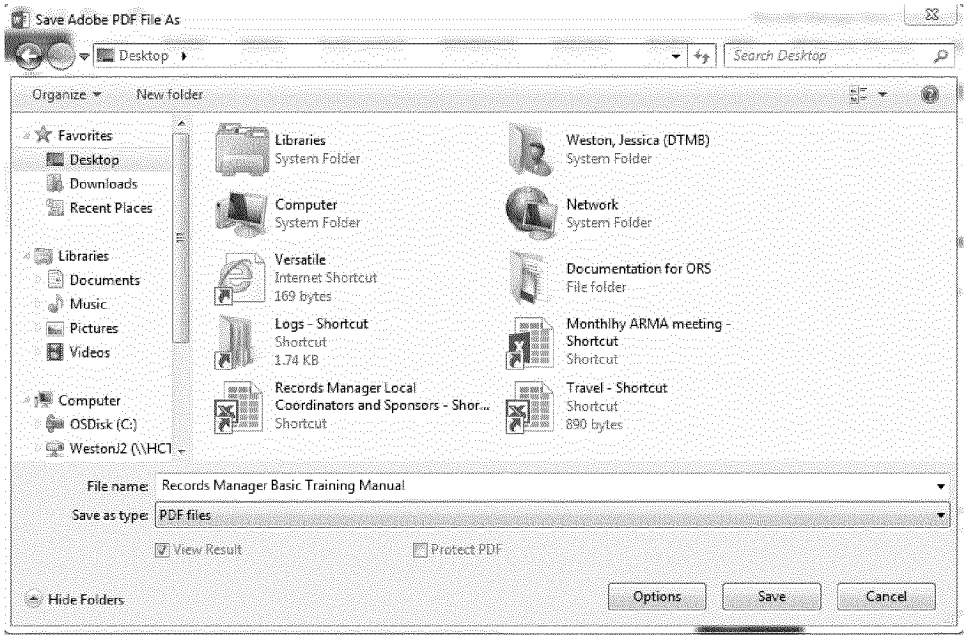
From the email, click **FILE** in the upper left. Click **Save As Adobe PDF** on the left.



Select a location on your computer to save the PDF. Click **Save**.

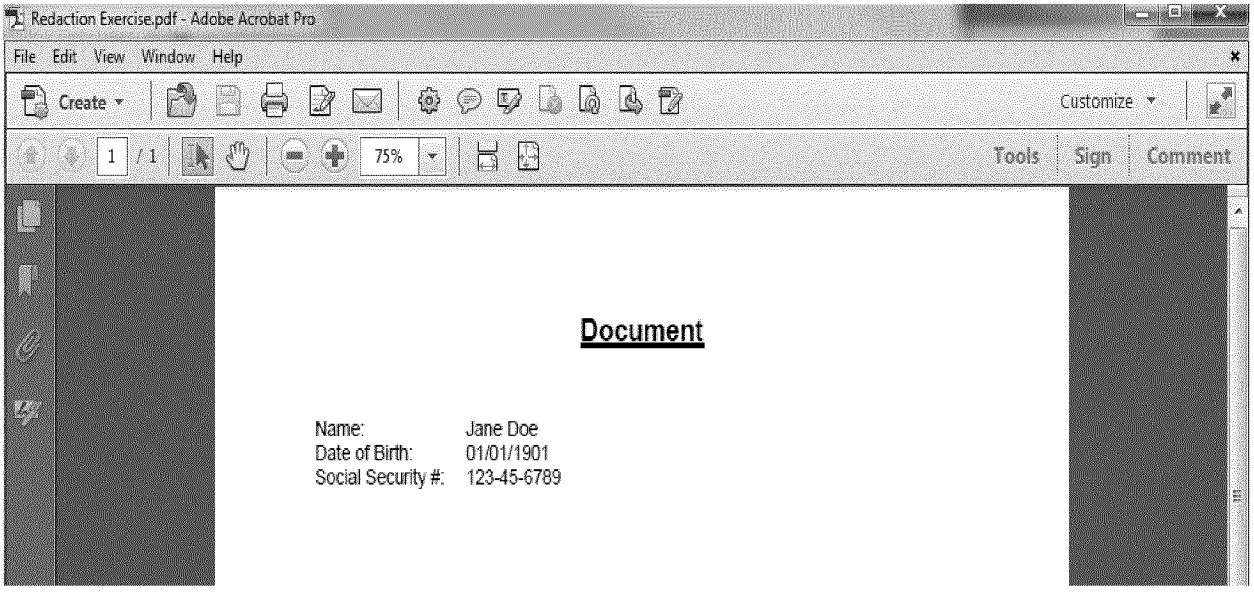


Converting Microsoft Office Suite Documents to PDF

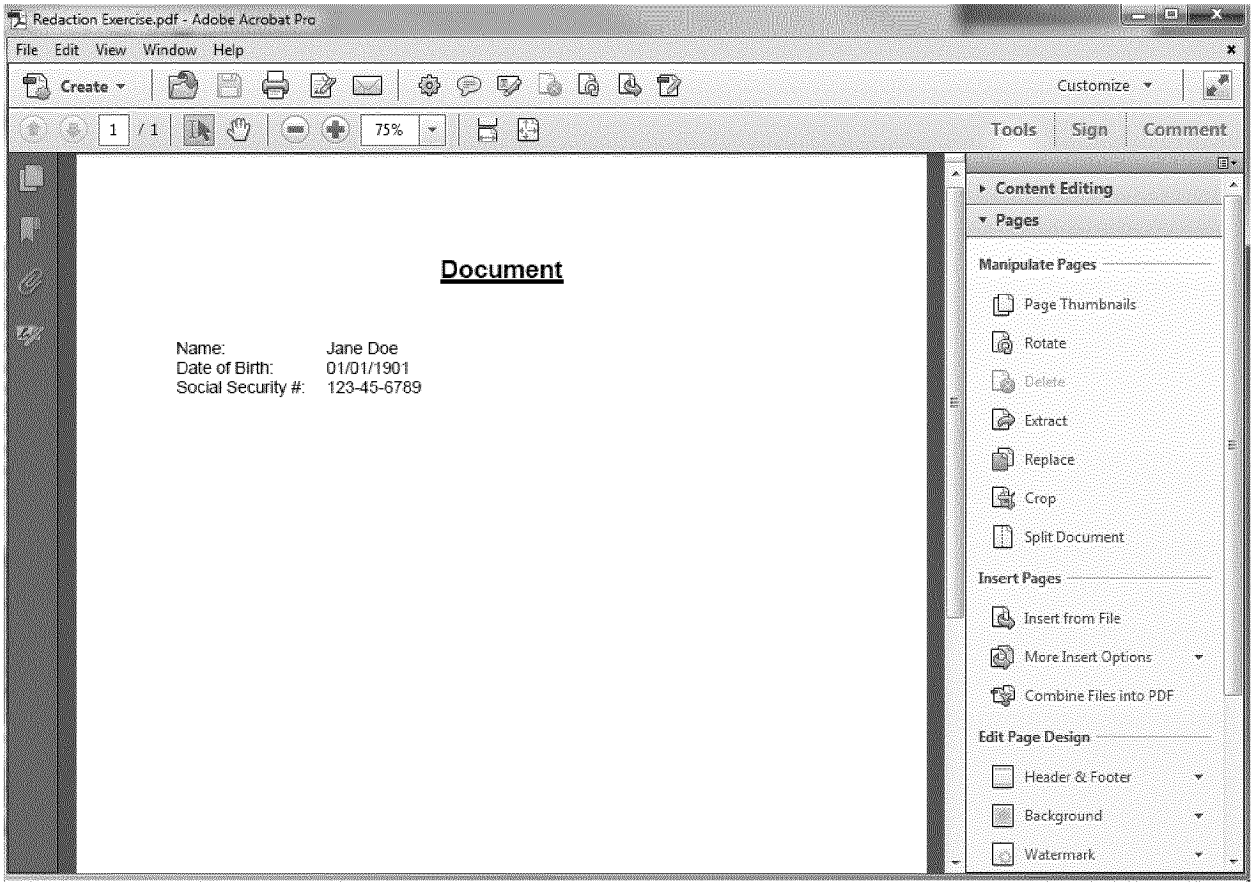


From the document, click **FILE** in the upper left. Click **Save as Adobe PDF** on the left.

Click **Yes** if you receive a pop-up window.

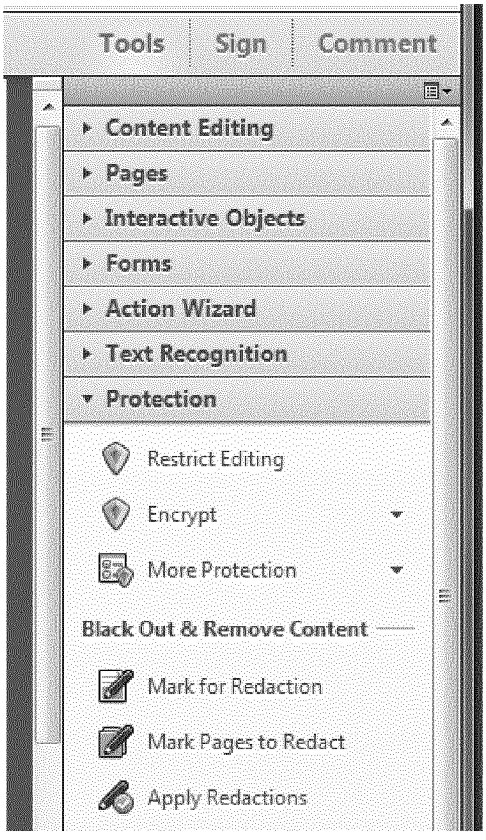


Select a location on your computer to save the PDF. Click **Save**.

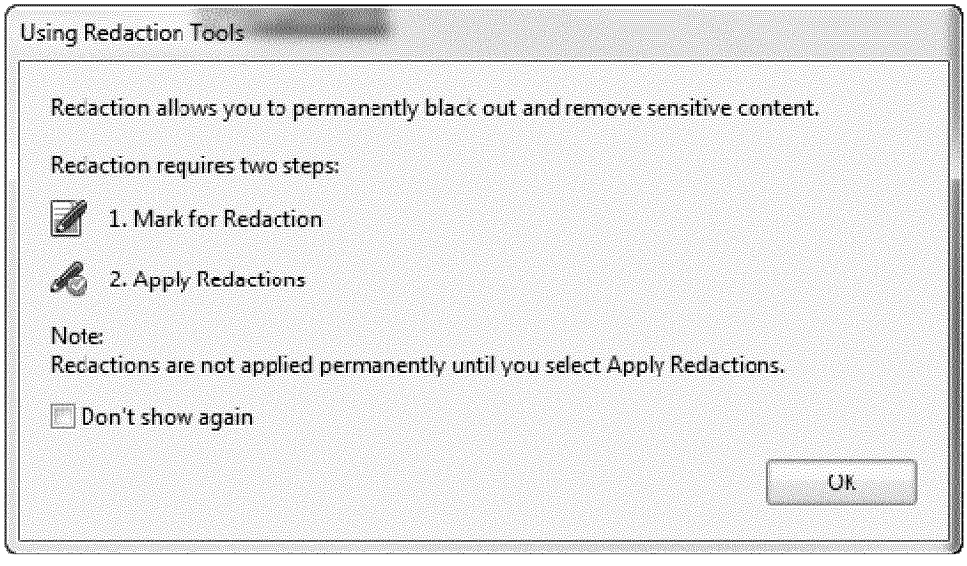


Creating a Redacted Version

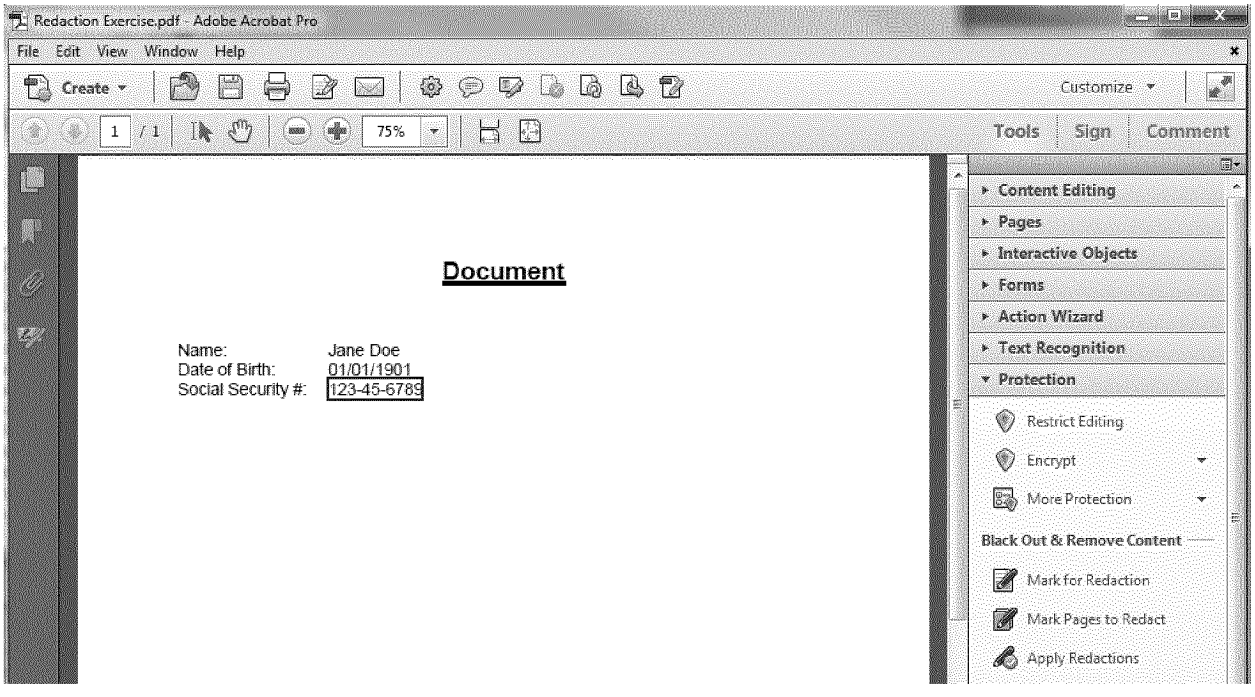
You may now use Adobe Acrobat Pro to create a redacted version of the confidential document that may be released to the public.



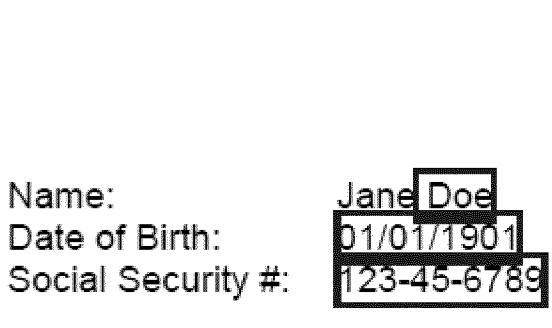
Open the record to which you wish to add redactions.



Click on **Tools** on the right side of the top menu. The window pane will expand to show the tool options available.

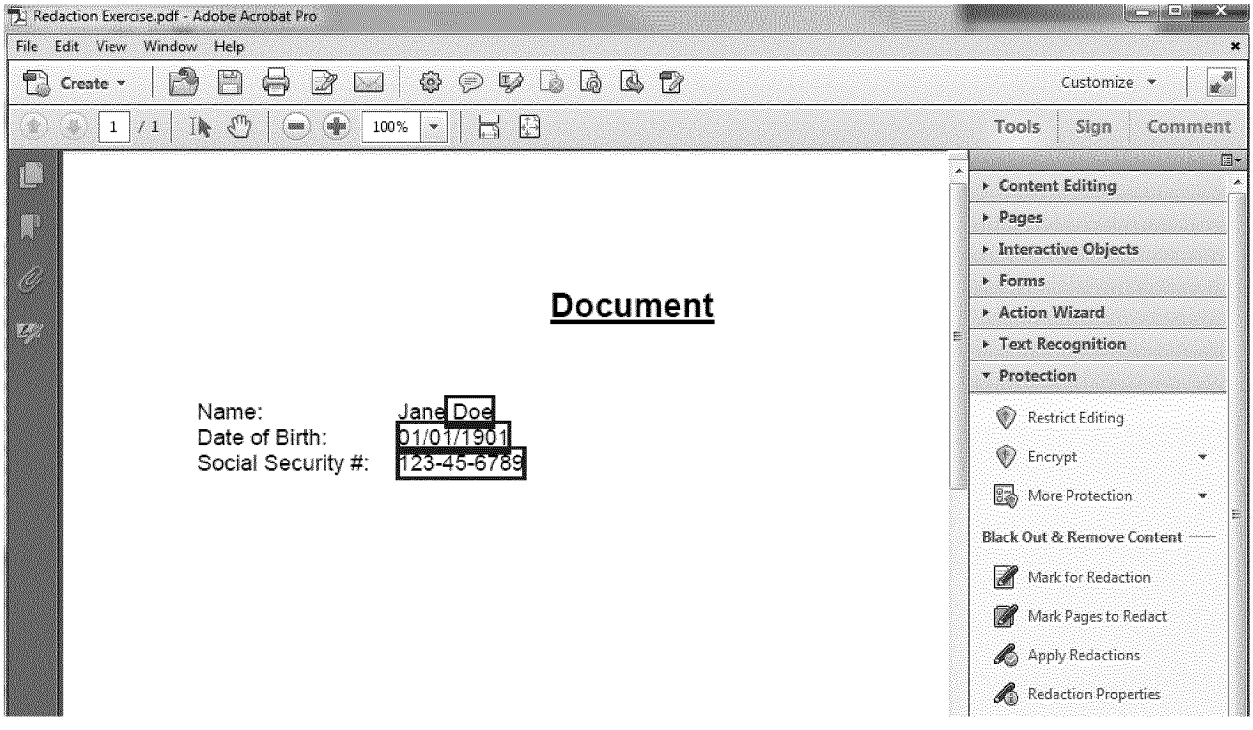


Use the scroll bar on the right side menu to scroll down until you see the **Protection** option. Click on **Protection** to open that set of tools.

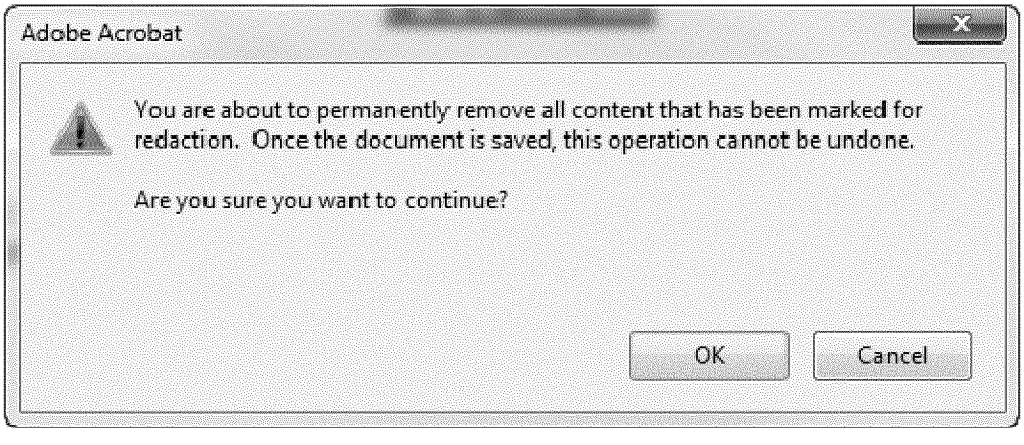


To add a redaction, click on **Mark for Redaction**. A pop-up window will appear showing the steps to apply redactions to a document. If you do not wish to see this window in the future, click the checkbox for **Don't show again**, the click **OK.**

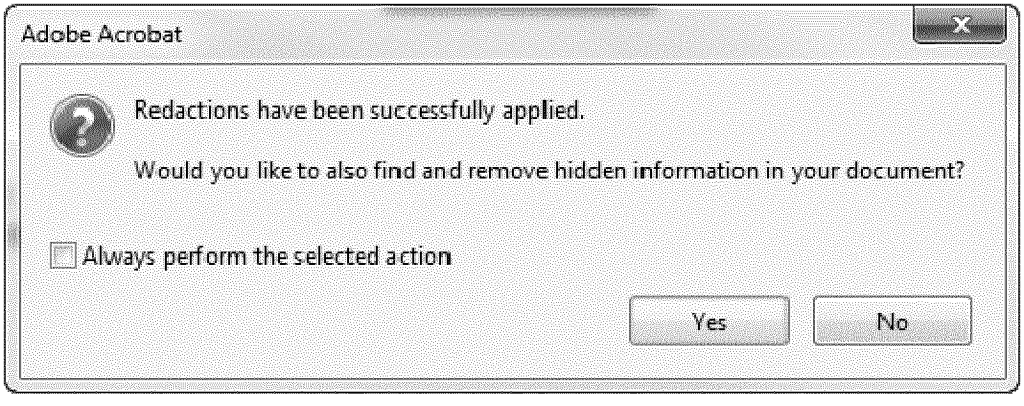
Then, highlight the text on the page you wish to redact by clicking and dragging the cursor over the desired text. After you have selected the text or object, a red box will outline the text or object, signaling the selection to be redacted.



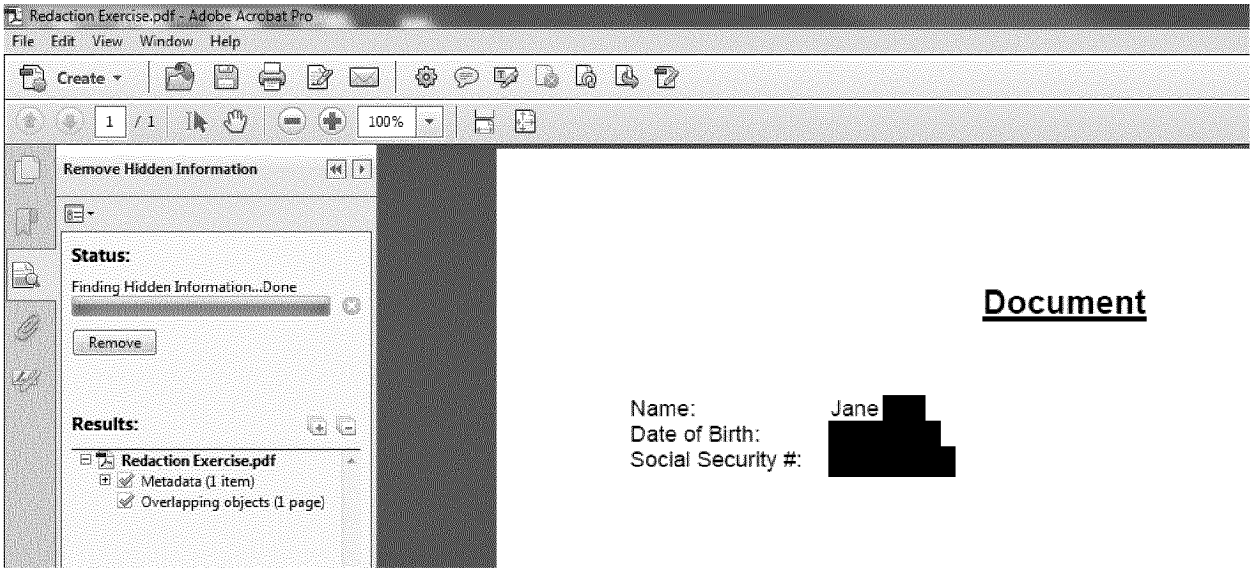
You can select as much or as little text or objects on the document that needs to be redacted by continuing to highlight as necessary.



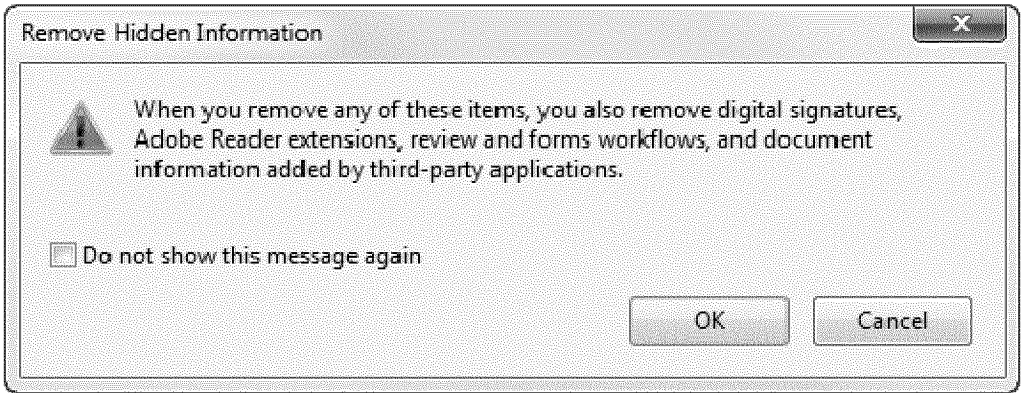
If you select something you do not wish to redact, **right click** on the selection and select **Delete**. This will remove the redaction window from the selection.



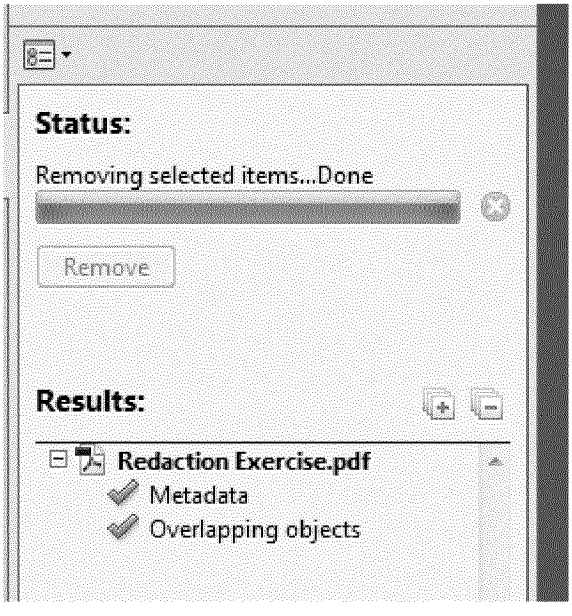
When you have selected all text or objects, click **Apply Redactions** on the right hand menu.



The following window will appear. Click **OK** to continue applying the redactions. **Note:** Applying the redaction is a permanent function and will not be able to be undone once the document is saved.

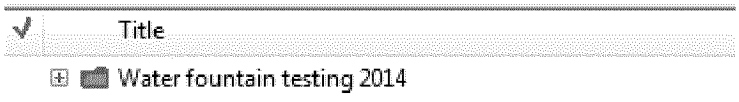


After clicking **OK**, another window will appear to tell you the redactions have been successfully applied. A second option will be presented asking if you wish to **find and remove hidden information** (this can include metadata or background material embedded in the document). Click **Yes** to remove the hidden information in the document.



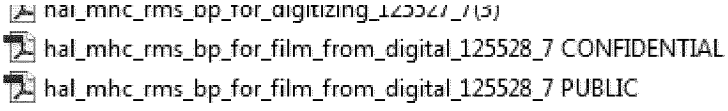
Selected items will now be covered by a black bar. The black bar is not able to be moved, changed, or deleted from the document. On the left side of the screen, a progress bar will appear and inform you of any hidden information in the document. Click **Remove** to get rid of the hidden information found.

A window will appear informing you of potential items you may be removing from the document. Click **OK** to complete the process to remove the hidden information.



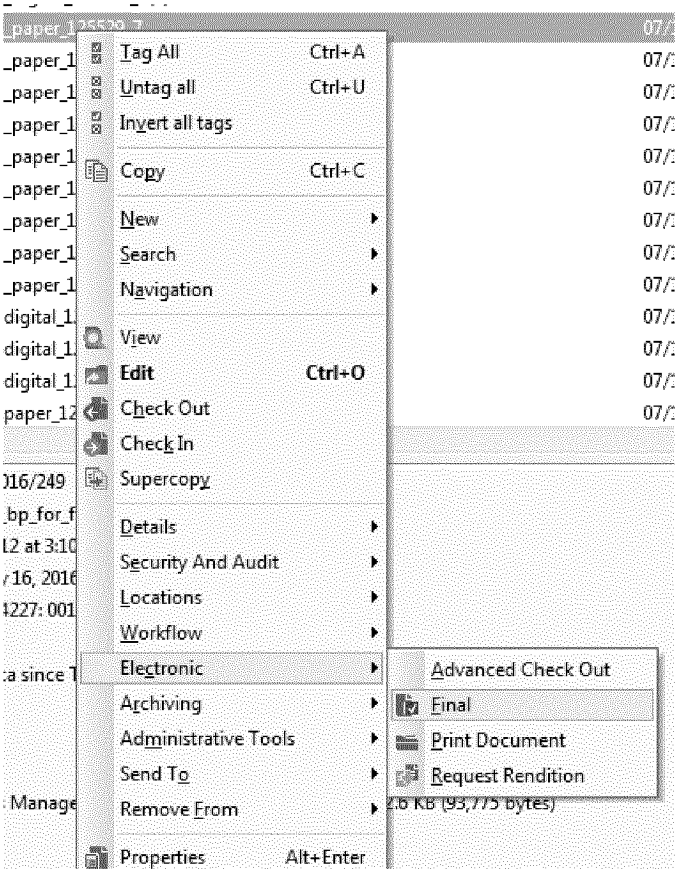
The progress bar on the left side of the screen will show again, informing you of the status of removing the hidden information. When completed, the status will read as **Done.**

Redactions have now been successfully applied to the document. Close the document to save it. Then rename the document in Windows to add the word “PUBLIC” to the end of the title.



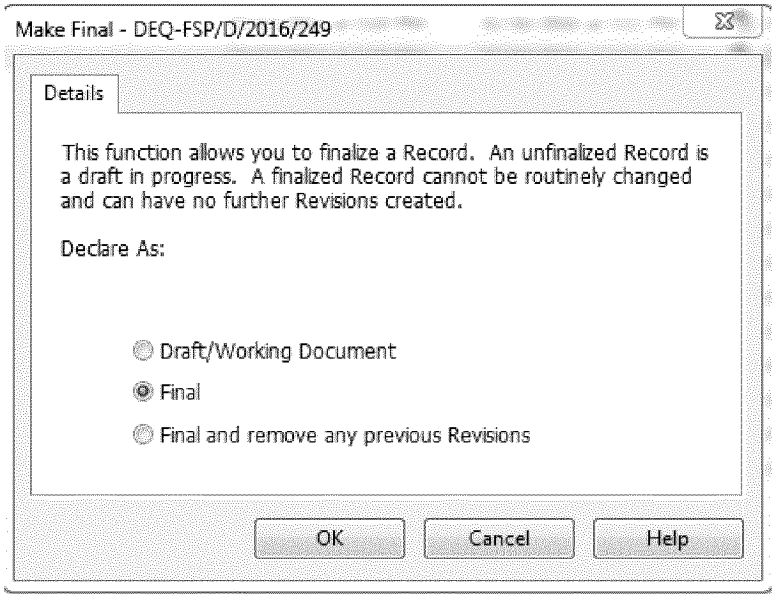
Filing the Redacted Version

To file the redacted version of the document in Records Manager, find the folder the document will go in so that it is visible on your Records Manager window.



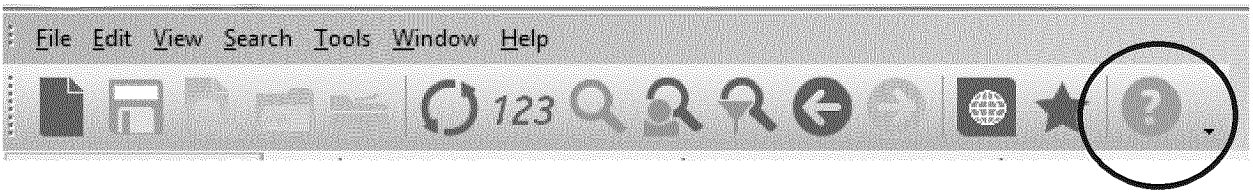
Drag and drop the redacted document from your computer to the folder in Records Manager. The folder will be highlighted when selected.

Both versions of the document will now be in the folder. Re-classify the redacted document to public using the Re-classfying Documents instructions in this manual.

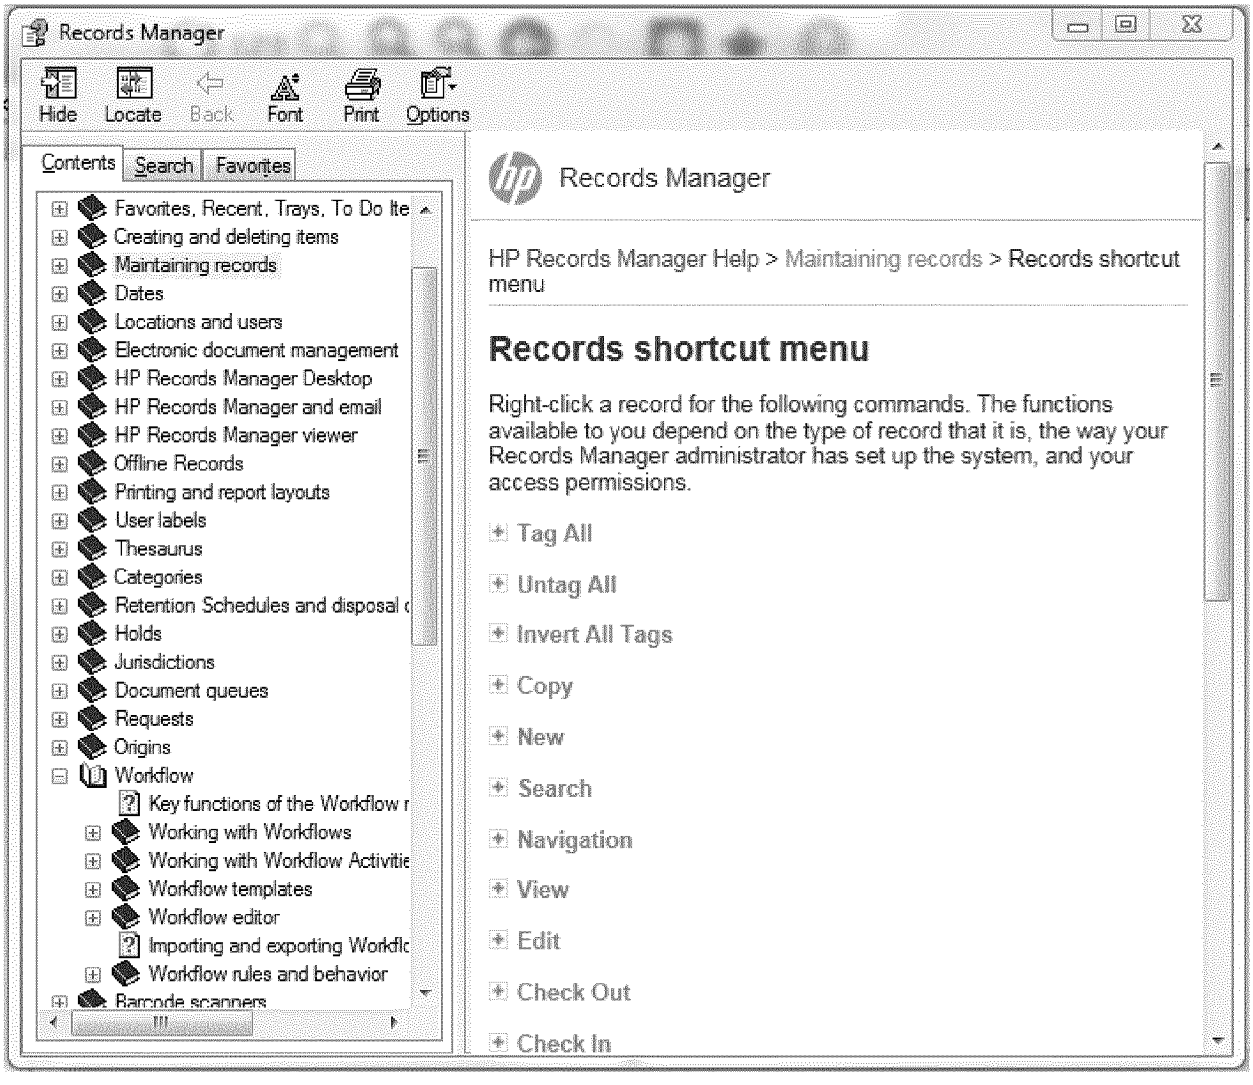


Finalizing a Document

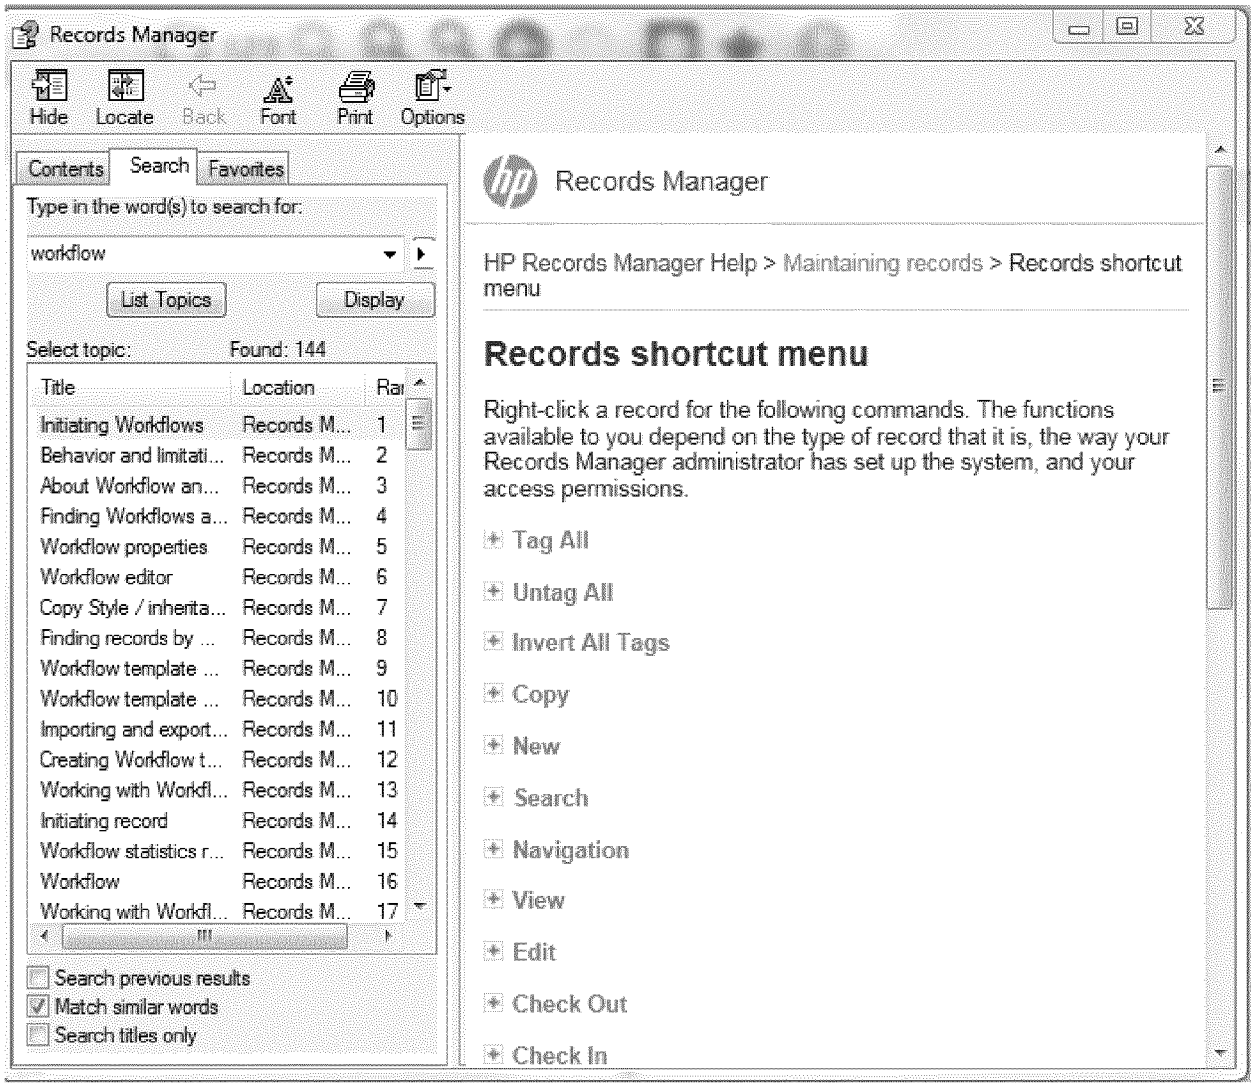
Finalizing a document locks it so that it cannot be edited. To finalize a document, right-click and select **Electronic**, then **Final**.



Click **Final** or **Final and remove any previous Revisions** (see your department for instructions). Click **OK**.



The document is now finalized.



Records Manager Help

The Records Manager Help screen can be launched from the toolbar.

Records Manager Help can be browsed or searched.

Records Manager Help is informative and well indexed. Records Management Services staff frequently uses this function. Please refer to it prior to seeking assistance from others.

Records Management Services

DTMB Records Management Services administers and configures Records Manager for all State of Michigan agencies. Additional Records Manager support, including step-by-step Records Manager cheat sheets, is available at our Intranet site:

http://inside.michigan.gov/wr/records/Pages/DocumentManagementSystems.aspx

You can contact us at 517-335-9132 or at recordscenter@michigan.gov.

To: Fitton, Scott (DTMB);Marshall, Michael (DEQ);Weston, Jessica (DTMB)
Subject: Conversation with Fitton, Scott (DTMB), Marshall, Michael (DEQ)

Marshall, Michael (DEQ) 1:43 PM:

Hey, I saw that there are files moved, but there are a number missing. Are they just not moved yet?

Weston, Jessica (DTMB) 1:43 PM:

I thought Scott moved them all. Hang on, let me grab him.

He's checking

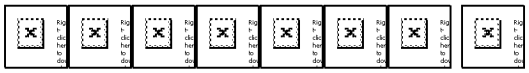
Fitton, Scott (DTMB) 1:45 PM:

Missing from where? The cip flint water area is emptied out. I don't see any folders underneath that area and I didn't remove any documents from any folders.

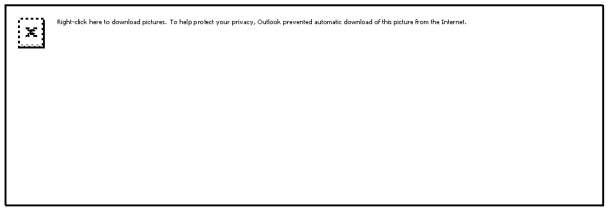
Weston, Jessica (DTMB) 1:46 PM:

Scott jsut said "Oh!"

Fitton, Scott (DTMB) 1:46 PM:



i did move the folders that say "FOIA" in the title to the FOIA file plan



maybe that is the issue

Marshall, Michael (DEQ) 1:46 PM:

I see that now. Sorry I was a little worried. I will let everyone know.

Subject: MIRS: DEQ Takes Blame On Flint Water; Ananich Unforgiving

he Michigan Department of Environmental Quality's (DEQ) top official today admitted his department mishandled the city of Flint's water crisis, pointing to departmental issues with experience and protocol in corrosion control efforts.

Director Dan **WYANT** announced in a statement that staff used a federal protocol they believed was appropriate. Those testing steps "would have been correct for a city less than 50,000 people, but not for a city of nearly 100,000," he said.

In response to that finding, DEQ Chief Deputy Jim **SYGO** was named the interim chief of the department's Office of Drinking Water and Municipal Assistance. Liane Shekter **SMITH**, the former chief of DEQ's Office of Drinking Water and Municipal Assistance, will be reassigned and "given duties as assigned," Wyant said.

The information came to light last week through a combination of an internal review and during the collection of correspondence between the DEQ and the Environmental Protection Agency, Wyant said. The results of that correspondence were first published in *The Detroit News.*

Gov. Rick **SNYDER**'s administration has also called for an independent third party review, plans for which are actively underway, spokesperson Sara **WURFEL** said. Wyant said the department also plans to continue its own internal review, and that more action would come as additional findings come to light.

Public furor over the water quality began shortly after the city switched its water supply from Detroit's water system to the Flint River in 2014, but reached critical mass in recent weeks after a study found lead levels in children's blood have increased since the city switched off of Detroit's water supply.

Today, the Flint lawmaker leading the charge for immediate action on the crisis took a verbal hammer to the state and federal bureaucracy for allowing the problem to occur and continue.

Senate Minority Leader Jim **ANANICH** (D-Flint) said it remains unclear whether the mistakes made by the state were deliberate misapplications of the law, or negligence. Neither of those possibilities is acceptable, he said.

"What is clear from several, now available documents is that certain MDEQ and EPA staff chose to protect their reputations rather than the health of the citizens and children of Flint," Ananich said.

In a follow-up statement, Ananich added that the Legislature should have a robust role in any investigation and in "ensuring those responsible for Flint's water crisis are held accountable."

Wyant said he was convinced the staff involved in the program believed they were doing their job right, and that the state took appropriate steps once it became clear there could be a health threat to Flint residents.

"They were operating under historical protocols they believed to be correct, and they weren't," Wyant said. "We are

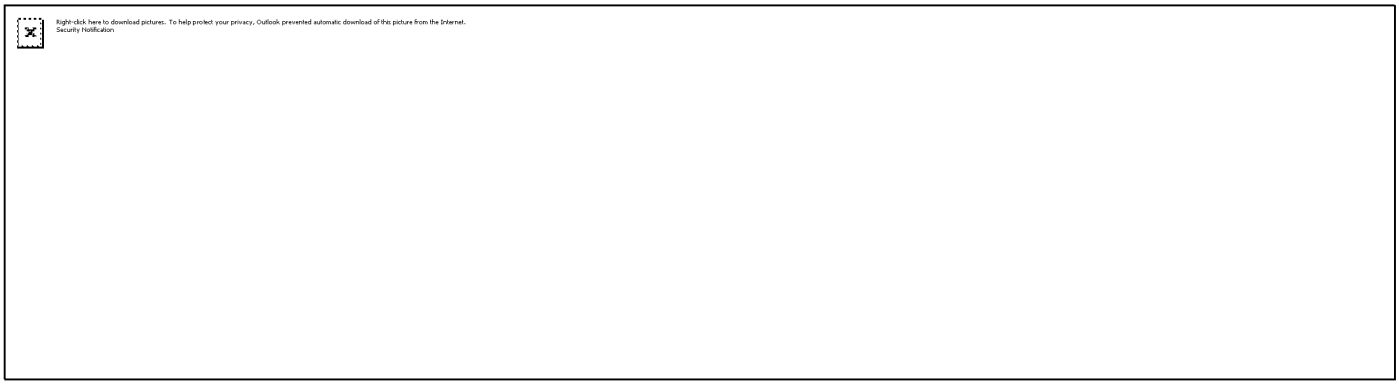
fully committed to a full internal and external review and want to make those findings absolutely transparent."

Wyant's announcement concluded that the department will "learn from this" and that those who brought the issue to light deserve credit. We will make necessary changes to see to it that our program becomes a national leader in public health protection."

"All who brought this issue to the department deserve credit for bringing it forward," he added. "Lead is a serious issue, particularly for young people, and we take it seriously."

Michigan Democratic Party Chair Brandon **DILLON** said the department's botched handling of the situation was less a question of experience and protocol, but rather one of competency and judgment.

Dillon called for Wyant and everyone else involved in the decision making-process regarding Flint's drinking water should be immediately removed, arguing that a pledge to correct procedures moving forward does not negate the negative effects of mistakes already made.



"You may be able to fix the problem of Flint's drinking water going forward, but the damage done to the health of thousands of Flint's children is irreversible," Dillon said in a statement.

"For months, warnings from the EPA about the safety of Flint's water system, sent directly to DEQ, were repeatedly ignored," he added. "That's not just a glitch in the system, it's an institutional failure caused by incompetence and a lack of leadership."

Subject: Volunteer Opportunity in Flint

The State Emergency Operations Center (SEOC) is coordinating a response to the ongoing health and safety issues in the city of Flint's drinking water. Teams from the Michigan State Police, Genesee County Sheriff's Department, Michigan Department of Health and Human Services, and volunteer organizations have been delivering bottled water, water filters, replacement cartridges and water testing kits at homes in the city of Flint since Tuesday.

To help with this critical work, the SEOC is looking for volunteers to expand this effort and continue this distribution during the upcoming holiday weekend. Teams are being assembled for shifts on Saturday, January 16; Sunday, January 17; and Monday, January 18, 2016. If you are interested in volunteering your time for this critical work, please complete the information in one of the attached surveys (depending on which day you are volunteering).

To volunteer on Saturday, January 16, https://www.surveymonkey.com/r/28NVJBL

To volunteer on Sunday, January 17, https://www.surveymonkey.com/r/26NMJKK

To volunteer on Monday, January 18, https://www.surveymonkey.com/r/26P7P5G

Volunteers will begin their assignment at the Local Emergency Operations Center located in the Genesee County Administration Building located at 1101 Beach St, Flint at 9 a.m. and end by 4 p.m. Parking is available at the corner of Beach Street and 8th Street. Lunch will be provided. This is strictly a volunteer effort, as all three days will be unpaid. Volunteers are responsible for their own transportation; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

This opportunity is for state employees and their immediate family members 16 years of age or older only, others looking to assist should volunteer through the American Red Cross in Flint. The volunteer coordination center for the Red Cross is located at 1401 S. Grand Traverse, Flint, MI. They are open from 9 a.m. to 7 p.m.

For more information on the state's response efforts, visit www.michigan.gov/flintwater.

Flint Curbs Snyder's Future

Although it's premature to call him a lame duck, Michigan Gov. Rick Snyder's political capital has clearly been diminished by the Flint water crisis. During his State of the State address on Tuesday, Snyder offered lots of apologies: "You did not create this crisis;" "Government failed you;" and, "I'm sorry."

Since winning re-election in 2014, Snyder had been mentioned as a potential presidential or vice presidential pick on the Republican side. That kind of talk, however, has abruptly ended. "Even some Michigan Republicans concede that Snyder's national prospects are toast, at least in the short term," reports *Politico*. **KEEP READING >>**

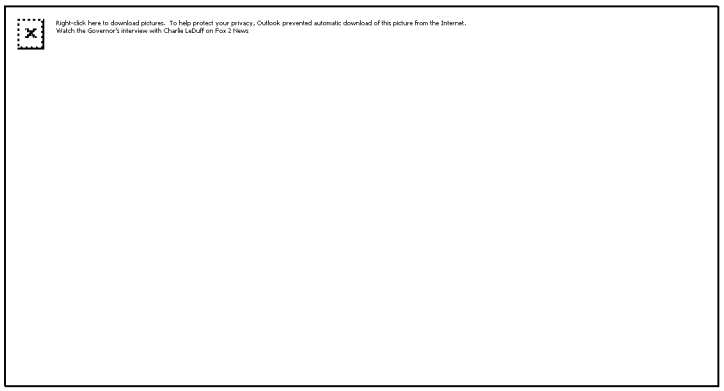
How we are fixing the Flint water crsis

Governor Rick Snyder has committed to spending the rest of his time as Governor to fixing the Flint water crisis. Over the last few days, he has sat down to explain what happened and how we're fixing the Flint water crisis. Watch the interviews below and be sure to read the Governor's Op-Ed in the USA Today.

Governor Snyder on Morning Joe

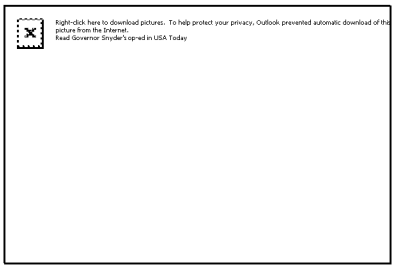


"What is so frustrating and what makes you so angry is you have a handful of experts who were career civil servants that made terrible decisions, in my view. We have to live with the consequences, and they worked for me, so I accept that responsibility. We are going to fix this problem." Watch Governor Snyder address how we are fixing the Flint water crisis on Morning Joe.

Governor Snyder with Charlie LeDuff on Fox 2 Detroit

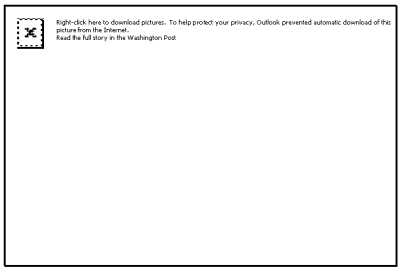
"I feel awful about this. These are people. They've been harmed. You can't feel good about that. The people of Flint have been harmed and a major influence of that harm

came from people who worked for me, and I feel responsible for that. But I am committed to solving the problem and addressing the damage as much as possible for the rest of the time I'm Governor." Watch Governor Snyder address the Flint water crisis with Charlie LeDuff on Fox 2 News.



Governor Snyder's 2016 State of the State

"Michiganders don't quit, we don't give up, instead we will work with even more passion and commitment to truly improve our state. For everyone who's chosen to make Michigan their home, this is more than a promise, this is my commitment." Watch Governor Snyder's full closing statement from his 2016 State of the State address.



Governor in USA Today: "I will fix this, and I mean it."

"Residents in one of Michigan's proud cities cannot drink their water. That's unacceptable. The crisis in Flint arose from missteps at all levels of government — local, state and federal. But as governor, I take responsibility for what these families are going through, and I'm holding people in my administration accountable for their failures." Click here to read the Governor's full op-ed.

Washington Post: "Michigan Gov. Rick Snyder is in a tough spot, but he's his own best spokesman"

Snyder has born the brunt of criticism in the local health crisis that has turned into a national scandal. But unlike many other politicians facing crises of leadership, Snyder may also be his own best counter-programming. Click here to read the full story in the Washington Post.

Subject: Contributing time, muscle and money

During this month's Martin Luther King Jr. holiday weekend, some state employees turned their "day off" into a "day on" in Flint. There, they delivered bottled water, water filters, replacement cartridges and water testing kits to families. The volunteers joined other Michiganders, turning Dr. King's birthday observance into a day of service.

Mike Zimmer, director of the Office of Good Government and the Department of Licensing and Regulatory Affairs, has shared a link – www.helpforflint.com – that offers other opportunities to contribute time, muscle and money to bring clean drinking water to the community.Here in DTMB, some of our employees didn't wait for an invitation to lend a hand. Office of Retirement Services staff contributed funds that were used to buy 31 cases and 23 gallons of water, which a local organization transported to Flint.

Autumn Hubbard, Ambrea Mack and Sarah Esquivel, who are in the photo at the left, nearly emptied the shelves at their local grocery store. Thanks for your efforts.

everyone.

Now work.

Last week, I signed a new policy that formalizes the annual employee review process and sets expectations for employees and managers. Administrative Policy 200.37 establishes consistent standards for implementing performance plans and reviews. Some of the standards are practices we have followed for years. Others are new. Some of particular note include:

- The mandatory use of HRMN
- A standard Feb. 1-Jan. 31 rating period for all employees
- An Individual Development Plan that specifies training or development programs for each employee
- Competencies and objectives that align to DTMB goals or scorecard metrics
- Consequences for managers and supervisors who do not complete the review process as required

A fundamental role of each DTMB manager or supervisor is to provide employees with direction and feedback on their performance. Employees also are expected to take an active role in pursuing professional development opportunities and achieving their competencies and objectives. I encourage you to review the new policy and talk with your manager or supervisor if you have questions. Of course, I welcome your questions and input as well. Please send your comments and ideas to me at behend@michigan.gov.

I know these have been busy weeks for many of you as you take on additional responsibilities and work hard to provide resources and services for our customers and citizens across the state. Please know that your hard work has not gone unnoticed. Thank you for everything you do, every day.

Have a great week,

David

Guide to Cybersecurity as Risk Management for Elected Officials

Too often, elected officials fail to prioritize cybersecurity until after a breach -- when it's too late. Such failure to properly plan for and provide adequate cybersecurity resources can result in the exposure of large numbers of constituent records, potentially damaging the livelihoods

of citizens and businesses, costing millions of dollars in unplanned expenses to remediate, spawning lawsuits and eroding public trust. **DOWNLOAD NOW**

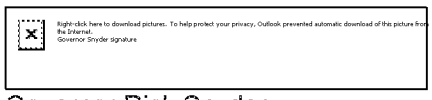
Subject: Thank you for your service

THANK YOU!

Fellow employees,

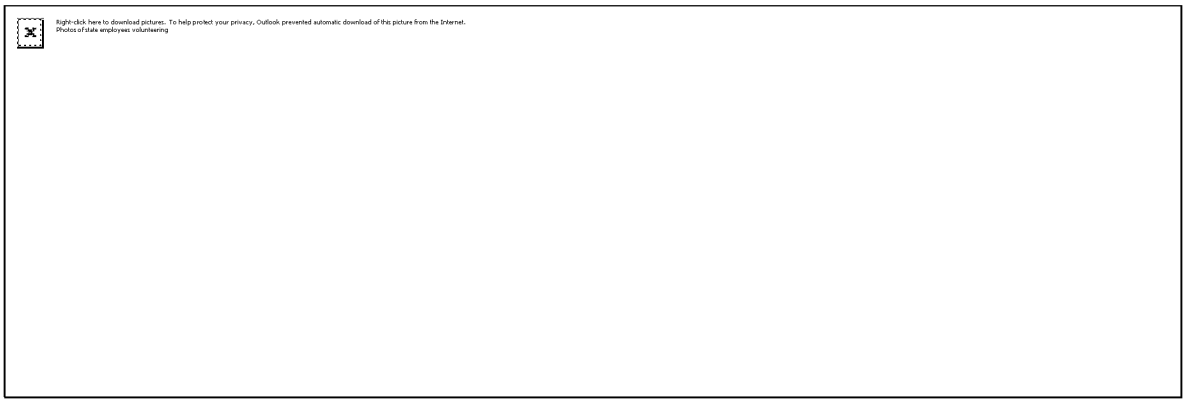
Each day, more than 46,000 state of Michigan employees come to work with the confidence and commitment to make Michigan a better place to live, work and play. I appreciate the way you care about the citizens we serve, and how it is reflected in the work that you do.

As you have heard from me and the media, our reputation and trust can be severely impacted when people do not make good decisions, or use good judgment in solving problems. That principle is universal, but never more so than when public health is at stake. What happened in Flint can never be allowed to happen again anywhere in our state.



I know that you want to work in a place where employee input is valued, efforts are recognized, and teams are always striving for continuous improvement. That's why we introduced employee surveys, Bureaucracy Busters and other reinvention initiatives. We want and deserve a culture of innovation, continuous improvement and employee engagement at every level. We can never take for granted how important the people are who depend on us to do our jobs, and I am asking you not to let the situation in Flint negatively impact your motivation to excel every day.

Many of you have taken an interest in helping the citizens of Flint on your own time, and I'd like to take this opportunity to recognize and thank those who have volunteered over the last couple of weekends. You have worked tirelessly to deliver cases of bottled water, water filters, replacement cartridges and water testing kits to the families in need. I appreciate you donating your time to help our fellow Michiganders. To date, more than 37,000 homes have been visited by one of our water resource teams.



For employees who would like to further help the people of Flint, please visit www.HelpForFlint.com to learn how you can do so. For additional information and to sign up for daily updates, please visit www.mi.gov/FlintWater. I am committed to ensuring that all residents have access to safe and clean water.

Again, I'd like to express my gratitude for the work you do every day to continuously improve our state and earn the trust of those you serve. You make a real difference.

Thanks,

Governor Rick Snyder

JANUARY 30, 2016

Welcome to a special Saturday edition of GovTech Today, where we recap our best stories of the week — just in case you missed them. Thanks for spending a little bit of your weekend with us.

Anonymous Activates #OpFlint: According to the hacker group, OpFlint promises online attacks directed toward Michigan Gov. Rick Snyder's administration in response to the Flint water emergency, which has dominated national headlines recently. Though Vocativ.com says the video doesn't explain any specifics of Anonymous' attack plan, it does assure to those affected by the water crisis that, "We will amplify your voice where the mainstream media will surely fail you, as it has in the past." See what Michigan officials had to say about the threat.

Speed Up by Slowing Down: It's becoming increasingly difficult to stay current with emerging technologies while mitigating security vulnerabilities. So what can be done to keep up? Surprisingly, it may be best to slow down, look around and catch your breath. That's right — if you want to speed up innovation, many experts suggest slowing down first.

Emerging Tech Affects Jobs: A new study has some worrisome revelations for the future of the global job market: By 2020, more than 5 million jobs could disappear in the wake of advancing technology. And those in the public sector are not immune.

SF's Startup in Residence: Building on a program from 2014, the San Francisco Mayor's Office of Civic Innovation announced during a Jan. 28 press conference the 2016 Startup in Residence program that includes a regional partnership with the neighboring cities of Oakland, San Leandro and West Sacramento. The ultimate goal? To build

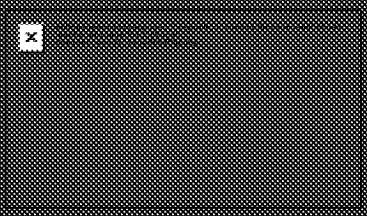
Subject: "Flint residents should not have to pay for water they cannot drink"

Budget recommendation will include $30 million request for Flint water bill repayments

When Governor Rick Snyder presents his budget recommendation next Wednesday, Feb. 10, he will include a $30 million request for the residents of Flint to keep their water service on and eliminate the need to pay for water they cannot completely trust to drink.



Under the governor's ask, the funding would enable the city of Flint to apply credits for customers on future bills. Estimates show water is roughly 47 percent of billing and sewer costs are around 53 percent. The credit would be applied to consumption usage (roughly 65 percent) of a resident's water portion of the bill, such as for bathing, drinking, cooking, and washing your hands. Residents still would be responsible for paying the sewer portion

of their water bills.

Professor Marc Edwards of Virginia Tech said, "This essentially refunds all the money associated with consumption or consumer use. I think it's an amazing gesture of common sense and good will and it corrects an injustice. I don't think there's a precedent for this. I feel so encouraged by the direction this is going."

Click here to learn more about the budget request.

We spoke with Staff Sgt. Thomas Vega about the critical resources they're providing to Flint families every day. He also encouraged residents to pick up and return their water testing kits to Flint fire stations. Test results will be posted online at www.mi.gov/flintwater. **Click here to watch the video.**

We were talking about this today with our manager. Multiple departments are talking about a central place to store everything about Flint water and they might use Records Manager. Can you just hold onto the tickets for now? You can close as usual, do everything else you normally do, just use that Flint checkbox. That way we can help you decide what to do with them after the bigger decisions get made; they might get swept up in that bigger organizational action.

Pam,

My voice is gone and Jessie is teaching classes all day, so we'll try and cover this through email. At least for today.

Is there a retention schedule item for the 6 years you'll need to keep these records? I can think of a couple of possible solutions for this, but I wanted to get a handle on that question first. Let me know if you have that or not and then we will put some possible solutions together.

Jessica,

I'll let you know about the seat for Many Ann after she has another five minutes to chat with me about it. I don't think she knows what having a seat implies (i.e., training, access, etc.). Considering all that's happening with flint (and her current position), I will recommend that she have one (and probably for the Community Water Supply program).

Subject: RE: Records Manager user request

Mike – I'll get you the paperwork for this today. We'll have change orders for each of these programs to assign the new sponsor. Liane never had a seat; you don't need one to be a sponsor. If Mary Ann wants a seat, she'll need to decide which program should own her seat. Then we can get her assigned. One program has to own her seat and pay the monthly fee on it, but she can access any of the programs from that one seat.

Adam is already a user; we will just need the paperwork to make him the sponsor. I'll send everything out this morning.

Subject: RE: Records Manager user request

Brice,

The sponsors for the six program areas are as follows:

DEQ Campgrounds & Pools (CGSP) - Mary Ann Dolehanty
DEQ Community Water Supply (CWS) - Mary Ann Dolehanty
DEQ Contamination Investigation Program (CIP) - Mary Ann Dolehanty
DEQ Drinking Water Operator Training & Certification (DWOTC) - Mary Ann Dolehanty

DEQ Office of Oil, Gas & Minerals (OOGM) – Adam Wygant
DEQ Septage Haulers (SEP) - Mary Ann Dolehanty

Mary Ann Dolehanty, the interim chief for the Office of Drinking Water and Municipal Assistance, has agreed to be the sponsor for the above five ODWMA program areas. Adam Wygant will be the sponsor for OOGM.

Why can't Liane's old seat be transferred to Mary Ann?

Michael Beaulac

Subject: Records Manager user request

Good afternoon Mike,

The attached request will require the addition of a new seat (at additional costs). Liane, was the sponsor for that group and for those listed below. In order to proceed with the request, we will need authorization from someone above these programs. We will also need a new sponsor assigned as soon as practical.

DEQ Campgrounds & Pools (CGSP)	Shekter Smith, Liane
DEQ Community Water Supply (CWS)	Shekter Smith, Liane
DEQ Contamination Invesgitaion Program (CIP)	Shekter Smith, Liane
DEQ Drinking Water Operator Training & Certification (DWOTC)	Shekter Smith, Liane
DEQ Office of Oil, Gas & Minerals (OOGM)	Shekter Smith, Liane
DEQ Septage Haulers (SEP)	Shekter Smith, Liane

From: Weston, Jessica (DTMB)
Sent: Thursday, February 11, 2016 12:59 PM
To: Sample, Brice (DTMB) (sampleb@michigan.gov);Marshall, Michael (DEQ);Fitton, Scott (DTMB)
Subject: Proposed Records Manager structure for Flint special project
Attachments: Flint Special Project RM configuration.docx

Brice – Scott and I met this morning with Mike Marshall from DEQ to discuss how multiple departments could use Records Manager as a centralized solution for gathering information for FOIA and legal requests for the Flint water situation. One of the requirements for this solution is that users from different departments not be able to access records from other departments, but staff working on the whole project be able to access all records.

Under the proposal constructed this morning, a new agency level for Flint Special Project would be created as part of DEQ. This agency level would have centralized staff designated to control user security. All records would be identified as being part of the Flint Special Project. Billing would be centralized under to the Flint Special Project.

Beneath the Flint Special Project Agency level, there would be functional levels for each department. Since user access is determined at the functional level, this would allow the centralized control staff to designate who has access to each department level. Someone from DHHS, for example, might only have access to the DHHS level and not be able to see the other department levels. However, the centralized control staff would be able to access all areas.

Beneath the department functional level would be two file plan levels for two different record collections, FOIAs and Discovery. Discovery records would be foldered by topic (ie Testing Results 2014, or Joe Smith's email). FOIA records would be foldered by FOIA request, identified by FOIA number and requestor name. See the attached document.

The purpose of the discovery folders would be to store records that concern the Flint water crisis by subject matter for review by state workers. Twenty workers have been identified to review and classify records. All documents imported into Records Manager would be designated Internal security. Any document with this designation has not been reviewed by a state worker. Upon completing review of a document, workers will either designate them Public, meaning they contain no material that would exempt them from FOIA or other public requests, or would designate them Confidential, meaning they do contain material that would exempt them from FOIA or other public requests. If a worker designates a document Confidential, the worker will then create a copy of that document, redact information as required, and designate the new document Public. Both copies of the record would remain in the same folder, designated by both security level and title as to which is Public and which is Confidential.

When completing a FOIA request, the FOIA coordinator will make copies of documents stored in the discovery area as needed and place those copies in the folder for that FOIA request. Each FOIA folder should contain the requesting letter, the response letter from the State of Michigan, and all documents sent with the response. These documents should all be finalized when the FOIA is closed so that no further changes are made to them. If there are records in the discovery area pertinent to the FOIA that are still classified as Internal, they must be reviewed before being copied and included in the FOIA.

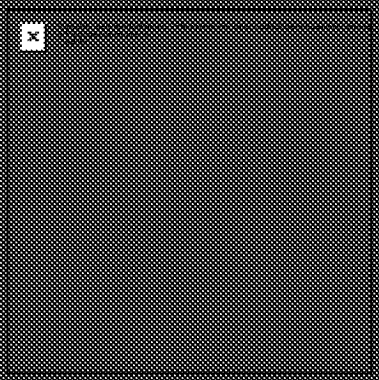
VIDEO: What Governor Snyder's FY17 budget means for Michigan

Gov. Rick Snyder's FY 2017 budget calls for critical investments for the Flint water crisis, statewide infrastructure and the Detroit Public Schools. The governor's recommendation also addresses the skyrocketing costs of specialty medications that Michigan residents depend on for better health outcomes.



This budget also stays committed to the Governor's core statewide priorities of education, talent and economic development, health and human services, and public safety.

The proposed FY 2017 budget makes key investments to strengthen the state for all of Michigan's families. Click here to learn more about the top 6 takeaways from the

Governor's FY 2017 state budget.

Click a tweet to tweet it out:

The #MIBudget @OneToughNerd proposed yesterday makes key investments to strengthen Michigan for all families --> www.mi.gov/MIBudget

--> @OneToughNerd's #MIBudget includes $72 million a year for Detroit Public Schools. It is time to act now --> www.mi.gov/MIBudget

--> @onetoughnerd's significant investment in #Flint families is the right thing to do. #FlintFWD #MIBudget www.mi.gov/MIBudget

Subject: Time Sensitive Request

SMT,

Jean Ingersoll is leading DTMB's effort to comply with document production requests related to freedom of information requests and certain lawsuits against the state.

At some point during the day tomorrow, Jean will share with you a list of standard "search terms" which we will use to compile documents related to this lawsuit.

Within 2 hours of receiving this email from Jean, you need to respond with a list of likely custodians from your work area. Jean may have more information on this tomorrow, but generally speaking a custodian will be a staff member who might reasonably be expected to have documents (electronic or otherwise) that correspond to the issues identified in the search terms.

If you have any questions, please call me or Jean. This is an important issue and I thank you in advance for your attention to this matter.

Subject: The Gov. Snyder's Budget Proposal

Good morning everyone. I hope everyone had a great holiday weekend.

I had the good fortune to travel to Marquette on Monday with Chad Laidlaw, DTMB's policy and planning analyst, to meet with city, business and university leaders and to address the Economic Club of Marquette. I told them about the many things DTMB does, placing special emphasis on our work in mobility and cybersecurity. Marquette is really developing and making its mark as an innovative and entrepreneurial community.

Now work.

The executive budget Gov. Snyder presented last week outlined his investment plan for Michigan. Yes, the proposal for fiscal year 2017-18 outlined a strategy to address the critical challenges of addressing the Flint water crisis and turning around Detroit's Public Schools, but the $54.9 billion plan also includes investment in four key areas:

- **Education.** The budget increases investment to K-12 schools, community colleges and the state's public universities. Additional funds are proposed to expand career, technical, science, technology, engineering and math programs.
- **Protecting the Public.** The governor's plan expands the Secure Cities program, which has reduced violent crime in four major Michigan cities. Funds also would support an additional trooper recruit school and an academy to train corrections officers, among other initiatives.
- **Putting People First.** The governor recommends continued expansion of the Healthy Kids Dental Program and funding efforts to ensure residents have access to affordable health care. His proposal boosts funds to help cover new higher cost specialty medications to treat conditions such as hepatitis C and cystic fibrosis, among others.
- **Investing in Infrastructure.** The proposal allocates $1.2 billion to maintain and repair Michigan roads, bridges and other critical infrastructure.

The budget proposal also includes FY 2017-18 funding recommendations for DTMB. Gov. Snyder recommends ongoing funding of $1.3 billion for department operations and a one-time allocation of $32.4 million.

A few highlights include:

- $502 million for information technology support for all state agencies and $132.8 million for

14 high-priority IT projects in seven agencies. He recommends increasing the Information Technology Investment Fund by $7 million, from $65 million to $72 million. This fund supports several major multiyear IT projects and upgrades, including the replacement of outdated legacy systems.
- An additional $5 million to support cybersecurity improvements to safeguard citizens' personal information and protect critical infrastructure and government services.
- IT support of $6.5 million to modernize the Office of Retirement Services' systems and enhance customer service for more than 530,000 current and future retirees.

You can see the full executive budget recommendations, which are posted on the Budget Office website. Details of DTMB's proposed budget begin on page B-75.

We can expect to see many changes before the budgets are signed and become effective Oct. 1. The executive budget will be used by the House and Senate Appropriations Committees as they work on their own budgets and hold committee hearings on the proposals. I'll keep you posted as the process moves ahead.

As always, I welcome your notes, whether about the budget process or any other topic. Please send them to me at behend@michigan.gov.

Thank you again for all the good work you do. I hope you have a great week ahead.

David

Completion notification:
REQ000000795606 has been completed.
We are pleased to inform you that your request has been completed.

Requested For: Michael Marshall
Requested By: Collin Pike

Summary: Requesting the App_RecordsManager be pushed to the users listed in the Work Detail section
Notes: In the Work Detail is a request for the App_RecordsManager application to be pushed to multiple DEQ machines. These are people who are going to be reviewing records for release concerning the Flint water crisis and need to be processed ASAP.

They are training on Thursday morning and would like to start using RM on Thursday afternoon
Resolution: Software has installed on all but one computer. Sackrider, Sarah is out of the office but the software will install when her computer is online.

For questions or concerns relating to this case, please contact the DTMB Client Service Center at 241-9700 or 1-800-968-2644 and reference REQ000000795606.

Yours sincerely,

DTMB Client Service Center

Subject: RE: Demonstration of Records Manager for Flint records

I apologize for the confusion yesterday, at this point, I don't think it's safe to rule out use of any program until we know all the options. Right now, the FOIA supervisor and I plan to attend this afternoons meeting. I am curious, will there be anyone there who could answer questions about IRMA and how that might work should we discover HP RM isn't going to be a viable option for our agency?

Also, I'm curious if you heard back from Mr. Roach.

Thanks in advance for all your assistance!

Thank you,

Subject: FW: Expanded HPRM Access

Jessica,

As you are aware, Mike Marshall has a new job assignment working to help facilitate FOIA and other information requests relative to the Flint crisis to the AG and others. Accordingly, he needs access to key documents currently in and anticipated for electronic document management. While a list of file owner names would be ideal, we do not know always know the nature of the requests. If possible, it would be desirable for Mike to have quick access to all DEQ electronic file plans to enable prompt response to Governor's office, Attorney General, and FOIA inquiries. Mike does not have any intention of either manipulating or changing any content. We approve of this request.

Is this something that you can help facilitate?

To: silveusj@michigan.gov; Fitton, Scott (DTMB) <FittonS2@michigan.gov>
Subject: MIRS: DEQ Takes Blame On Flint Water; Ananich Unforgiving

he Michigan Department of Environmental Quality's (DEQ) top official today admitted his department mishandled the city of Flint's water crisis, pointing to departmental issues with experience and protocol in corrosion control efforts.

Director Dan **WYANT** announced in a statement that staff used a federal protocol they believed was appropriate. Those testing steps "would have been correct for a city less than 50,000 people, but not for a city of nearly 100,000," he said.

In response to that finding, DEQ Chief Deputy Jim **SYGO** was named the interim chief of the department's Office of Drinking Water and Municipal Assistance. Liane Shekter **SMITH**, the former chief of DEQ's Office of Drinking Water and Municipal Assistance, will be reassigned and "given duties as assigned," Wyant said.

The information came to light last week through a combination of an internal review and during the collection of correspondence between the DEQ and the Environmental Protection Agency, Wyant said. The results of that correspondence were first published in *The Detroit News.*

Gov. Rick **SNYDER**'s administration has also called for an independent third party review, plans for which are actively underway, spokesperson Sara **WURFEL** said. Wyant said the department also plans to continue its own internal review, and that more action would come as additional findings come to light.

Public furor over the water quality began shortly after the city switched its water supply from Detroit's water system to the Flint River in 2014, but reached critical mass in recent weeks after a study found lead levels in children's blood have increased since the city switched off of Detroit's water supply.

Today, the Flint lawmaker leading the charge for immediate action on the crisis took a verbal hammer to the state and federal bureaucracy for allowing the problem to occur and continue.

Senate Minority Leader Jim **ANANICH** (D-Flint) said it remains unclear whether the mistakes made by the state were deliberate misapplications of the law, or negligence. Neither of those possibilities is acceptable, he said.

"What is clear from several, now available documents is that certain MDEQ and EPA staff chose to protect their reputations rather than the health of the citizens and children of Flint," Ananich said.

In a follow-up statement, Ananich added that the Legislature should have a robust role in any investigation and in "ensuring those responsible for Flint's water crisis are held accountable."

Wyant said he was convinced the staff involved in the program believed they were doing their job right, and that the state took appropriate steps once it became clear there could be a health threat to Flint residents.

"They were operating under historical protocols they believed to be correct, and they weren't," Wyant said. "We are fully committed to a full internal and external review and want to make those findings absolutely transparent."

Wyant's announcement concluded that the department will "learn from this" and that those who brought the issue to light deserve credit. We will make necessary changes to see to it that our program becomes a national leader in public health protection."

"All who brought this issue to the department deserve credit for bringing it forward," he added. "Lead is a serious issue, particularly for young people, and we take it seriously."

Michigan Democratic Party Chair Brandon **DILLON** said the department's botched handling of the situation was less a question of experience and protocol, but rather one of competency and judgment.

Dillon called for Wyant and everyone else involved in the decision making-process regarding Flint's drinking water should be immediately removed, arguing that a pledge to correct procedures moving forward does not negate the negative effects of mistakes already made.

"You may be able to fix the problem of Flint's drinking water going forward, but the damage done to the health of thousands of Flint's children is irreversible," Dillon said in a statement.

"For months, warnings from the EPA about the safety of Flint's water system, sent directly to DEQ, were repeatedly ignored," he added. "That's not just a glitch in the system, it's an institutional failure caused by incompetence and a lack of leadership."

Wyant Resigns In Wake Of Flint Water Crisis

Department of Environmental Quality Director Dan Wyant has resigned in response to the water crisis that erupted three months ago in Flint.

"MDEQ Director Dan Wyant has offered his resignation, and I've determined that it's appropriate to accept it. I'm also making other personnel changes at MDEQ to address problems cited by the task force," Governor Rick Snyder said in a statement.

"But changes in leadership and staff are not enough. I understand there can be disagreements within the scientific community. That is why I have directed both the departments of Environmental Quality and Health and Human Services to invite every external scientist who has worked on this issue to be our partners in helping us improve Flint water," Mr. Snyder said. "Let's share research on water and blood lead level testing so we can arrive at accurate and mutually supported conclusions. Together, we should work to affirm that we're using the very best testing protocols to ensure Flint residents have safe drinking water and that we're taking steps to protect their health over the short and long term."

The DEQ has come under major criticism for how it handled testing for lead in Flint drinking water after the city switched to the Flint River as its water source. The water was not properly treated for corrosion, causing lead to leach from service lines into the drinking water.

"I want the Flint community to know how very sorry I am that this has happened. And I want all Michigan citizens to know that we will learn from this experience, because Flint is not the only city that has an aging infrastructure," Mr. Snyder said. "I know many Flint citizens are angry and want more than an apology. That's why I'm taking the actions today to ensure a culture of openness and trust. We've already allocated $10 million to test the water, distribute water filters, and help in other ways. Last week, I called Flint Mayor Karen Weaver, and we're going to meet soon to discuss other ways the state can offer assistance."

Gongwer News Service will have more on this story in today's Michigan Report.

Subject: MIRS: Wyant Resigns As Task Force Slams MDEQ Over Flint Water Contamination

Wyant Resigns As Task Force Slams MDEQ Over Flint Water Contamination

The resignation of the director of the Michigan Department Environmental Quality (MDEQ) came today -- the same day a special task force primarily blamed his department for the contamination of Flint's water supply.

As Gov. Rick SNYDER's administration continues to face criticism over its handling of increased lead levels in Flint's drinking water, Snyder announced this afternoon that he had accepted the resignation of Dan **WYANT**, who had been MDEQ's director since 2011.

The news came the same day that the Flint Water Advisory Task Force, appointed by Snyder, issued a letter to the Governor on department actions that helped lead to water contamination in the city.

In the letter, the task force said the "primary responsibility" for what happened in Flint rested with MDEQ.

Plus, the task force wrote, the department's Office of Drinking Water and Municipal Assistance needs a "culture change."

The letter also flagged the tone of MDEQ's initial public responses to concerns about Flint's water as one of "aggressive dismissal, belittlement and attempts to discredit" those voicing the concerns.

"What is disturbing about MDEQ's responses, however, is their persistent tone of scorn and derision," the task force wrote. "In fact, the MDEQ seems to have been more determined to discredit the work of others -- who ultimately proved to be right -- than to pursue its own oversight responsibility."

The five-member task force, originally appointed in October, delivered the letter of initial findings to Snyder today.

Then, also today, Snyder sent out a lengthy statement announcing Wyant's resignation and vowing that other personnel changes will be made at MDEQ.

Those changes haven't finalized just yet, said Laura **BIEHL**, a Snyder spokesperson. However, later in the day, Brad **WURFEL**, MDEQ's communications director, also announced his resignation.

"I have greatly appreciated my time as communications director at the DEQ, but I am looking forward to pursuing new opportunities in the new year," Wurfel wrote.

Snyder also used his statement today to apologize directly to the people of Flint.

"I want the Flint community to know how very sorry I am that this has happened," Snyder said. "And I want all

Michigan citizens to know that we will learn from this experience, because Flint is not the only city that has an aging infrastructure."

While Flint was under emergency management in 2014, the city switched its water supply from the Detroit water system to the Flint River.

The switch and the way it was handled by officials has led to increased lead levels in the water supply. A study has also found increased lead levels in children's blood in the city since the switch.

The task force says that a federal rule on lead and copper requires corrosion control treatment, but that wasn't required by MDEQ in Flint's switch to the Flint River.

"The decision not to require CCT (corrosion control treatment), made at the direction of the MDEQ, led directly to the contamination of the Flint water system," the task force wrote.

The task force specifically bashed MDEQ's Office of Drinking Water and Municipal Assistance, saying it has a culture in which "technical compliance" is considered sufficient to ensure safe drinking water in the state.

"The minimalist approach to regulatory and oversight responsibility is unacceptable and simply insufficient to the task of public protection," the task force's letter said. "It led to MDEQ's failure to recognize a number of indications that switching the water source in Flint would -- and did -- compromise both water safety and water quality."

The task force's three-page letter sent to Snyder today focuses on areas where things went wrong within MDEQ.

A full report on the Flint water crisis is expected in early 2016. In its letter today, the task force emphasized, "We are not finishing with our work."

"Other individuals and entities made poor decisions, contributing to and prolonging the contamination of the drinking water supply in Flint," the task force wrote.

The letter specifically mentioned the Michigan Department of Health and Human Services, which may have had early knowledge of elevated blood lead levels among Flint children.

The members of the task force are Matthew **DAVIS**, professor of pediatrics and internal medicine at the University of Michigan Health System and professor of public policy at the Gerald R. Ford School at the University of Michigan; Chris **KOLB**, president of the Michigan Environmental Council; Lawrence **REYNOLDS**, a Flint pediatrician; Eric **ROTHSTEIN**, a national water issues consultant; and Ken **SIKKIEMA**, a senior policy fellow at Public Sector Consultants.

The developments today spurred Senate Minority Leader Jim ANANICH (D-Flint) to renew his call for legislative hearings. In the House, Rep. Sheldon NEELEY (D-Flint) said that Wyant "was just one figure in a menagerie of offenders."

"While there is still much cleanup to be done, I am glad Mr. Wyant realized he could no longer continue as the head of the disorganized and flawed DEQ, and I call on Gov. Snyder to take careful effort in repairing this department so that it earns back the trust of the people of Flint and this great state," Neeley said. Brand **DILLON** chair of the Michigan Democratic Party also called on Snyder to remove Detroit Public Schools Emergency Manager Darnell

EARLEY who was the state emergency manager for Flint at the time of the switch to the Flint River.

Wyant, who previously worked in the administrations of two former governors, became MDEQ director when Snyder took office in 2011.

Attorney General Bill SCHUETTE issued a statement today, calling Wyant a hardworking public servant.

"In my 20-plus years of knowing him, Dan has been a hardworking, dedicated public servant," Schuette said. "I am committed to working with all parties, including the legislature and Governor, to ensure the public's health and the well being of Michigan residents."

The administration's work to repair its relationship with Flint is also continuing.

Snyder noted in his own statement that he called Flint Mayor Karen **WEAVER** last week, and the two are going to meet soon to discuss other ways the state can offer assistance.

In addition, Snyder said scientists who've worked on the Flint water issue would be invited "to be our partners in helping us improve Flint water."

"Let's share research on water and blood lead level testing so we can arrive at accurate and mutually supported conclusions," he said. "Together, we should work to affirm that we're using the very best testing protocols to ensure Flint residents have safe drinking water and that we're taking steps to protect their health over the short and long term."

Good Morning All,

I am sure you have all heard about the Flint Water Crisis by now. I am going to start a collection towards helping the people of Flint. I will be collecting water (it does have to be sealed items), water filters, money and pop bottles (that I will take back to the stores myself and purchase water for the crisis). If you are interested in donating please let me know I will set up an area for collecting. Please see me if you have any questions..

Thank you in advance.

Subject: RE: Keeping HP records Manager files

We were talking about this today with our manager. Multiple departments are talking about a central place to store everything about Flint water and they might use Records Manager. Can you just hold onto the tickets for now? You can close as usual, do everything else you normally do, just use that Flint checkbox. That way we can help you decide what to do with them after the bigger decisions get made; they might get swept up in that bigger organizational action.

Pam,

My voice is gone and Jessie is teaching classes all day, so we'll try and cover this through email. At least for today.

Is there a retention schedule item for the 6 years you'll need to keep these records? I can think of a couple of possible solutions for this, but I wanted to get a handle on that question first. Let me know if you have that or not and then we will put some possible solutions together.

Subject: MIRS: Gov Aide Learned Of Legionnaires' Spike In March 2015, DEQ Staff Earlier

Gov Aide Learned Of Legionnaires' Spike In March 2015, DEQ Staff Earlier

A top aide to Gov. Rick SNYDER was informed of the spikes in Legionnaires' disease in Genesee County in March 2015 and its possible connection to Flint's municipal water, according to emails unveiled by Progress Michigan today.

The Department of Environmental Quality (DEQ) was aware of the issue about four months prior.

Snyder and his administration announced Jan. 13 that the county experienced two separate spikes in the disease -- one beginning in June 2014 and another beginning in May 2015. These spikes have been connected to nine fatalities (See "State: Legionnaires' Disease Spiked in Genesee After Flint Water Switch," 1/13/16).

The disease -- essentially severe pneumonia caused by bacteria if breathed in via water vapor -- and the upticks in Genesee County do coincide with when Flint switched over to using Flint River water. And the number of cases reported in 2014 and 2015 far exceeded what had been reported in the county in previous years.

But as it's been pointed out, there is still no scientific connection between the Legionnaires' uptick and the water switch, the countywide numbers encompass more than just Flint residents, and a person can't contract it simply by drinking water with bacteria in it.

Either way, the email chain dug up by Progress Michigan shows Harvey **HOLLINS**, director of urban initiatives for Snyder, was informed by the DEQ about the Legionnaires' outbreak in March 2015.

Snyder, when he made the announcement Jan. 13, said he had just learned of the Legionnaires' spike that week. Also, while the Michigan Department of Health and Human Services (DHHS) had been investigating the spikes in Genesee County, it had not released the results of those investigations to a broader public audience until Jan. 13.

But DEQ staff "became peripherally aware" of the issue in December 2014, according to the email to Hollins sent by former DEQ spokesperson Brad **WURFEL**. Former DEQ Director Dan **WYANT** was also copied on the correspondence.

Wurfel ran the issue up to Hollins after a Genesee County Health Department official wrote state and city officials in March 2015, requesting information on water testing and lab results, concerned about the Legionnaires' disease outbreak.

"The increase of the illnesses closely corresponds with the timeframe of the switch to Flint River water," wrote Jim **HENRY**, environmental health supervisor for the Genesee County Health Department.

Henry had attempted to submit a Freedom of Information Act (FOIA) request to the city but said, "The city's lack of cooperation continues to prevent my office from performing our responsibilities."

Further, Henry implored the DEQ and city to take notice, saying, "I want to make sure, in writing that there are no misunderstandings regarding this significant and urgent public health issue. The trihalomethane issues 'pale in comparison' to the potential public health risks of Legionella."

Henry is referring to the DEQ's monitoring of total trihalomethanes (TTHM), considering the city's water was exceeding federal standards for those at the time (See "DEQ, Flint Focused On Different Health Issue With Flint Water," 1/21/16).

Later in the email chain comes a response to Henry from Stephen **BUSCH**, who was the Lansing and Jackson district supervisor of the DEQ Office of Drinking Water and Municipal Assistance before he was suspended in January (See "Suspended DEQ Official Received Bonus 4 Months Ago," 1/28/16).

Busch wrote Henry and said the DEQ recognizes the public health threat posed by Legionnaires' disease, but with "the understanding that the disease is not contracted by ingestion of potable water and therefore not regulated under the federal Safe Drinking Water Act."

Further, Busch informed Henry that, "Conclusions that legionella is coming from the public water system without the presentation of any substantiating evidence from your epidemiologic investigation appears premature and prejudice toward that end."

Wurfel relayed this to Hollins, saying Henry connecting the Legionnaires' spikes to the water switch "is beyond irresponsible, given that is his department that has failed to do the necessary traceback work to provide any conclusive evidence of where the outbreak is sourced."

Wurfel suggested to Hollins that the administration "bring together all the agencies asap to share what information we have and develop a response."

It's not clear if Hollins ever briefed Snyder or other executive office officials about what he learned from Wurfel.

Negative reaction was swift to the fact that an aide close to Snyder knew of the Legionnaires' spike long before it was announced widely.

"Are we to believe that a top staffer with years of experience would not inform Governor Snyder of a possibly deadly situation?" asked Lonnie **SCOTT**, executive director of Progress Michigan, in a statement that accompanied the release of the email. "Either the Governor is covering up his knowledge of this crisis or his governing culture does not allow for important information to flow from his top advisers to his desk."

Michigan Democratic Party Chair Brandon **DILLON** said Snyder was either a "victim of the culture of secrecy that he created or he's lying."

"If he didn't know, the incompetence is astounding. If he's lying, the betrayal of trust is unforgivable," Dillon said in a statement, calling for Snyder to resign.

"Once again, this administration knew for nearly a year that the lives of people in my community were in danger," Senate Minority Leader Jim ANANICH (D-Flint) said in a statement. "They knew and they did nothing. Where is the moral fiber? At what point do they care that people are dying and take steps to actually address the issues?"

The Michigan Republican Party responded to the attacks on Snyder, releasing a statement from Chair Ronna Romney **McDANIEL** saying, "Michigan Democrats should put aside politics for once and place their focus on helping the people of Flint. While there are investigations underway that will hold those responsible accountable for their actions, everyone else needs to put their focus on finding a way to solve this crisis."

I had someone from MDARD contact me about using Records Manager for this same project. Do you know of anyone else? I want to have a meeting to demo the setup.

Charter
between the
MICHIGAN DEPARTMENT OF TECHNOLOGY, MANAGEMENT & BUDGET
OFFICE OF SUPPORT SERVICES
RECORDS MANAGEMENT SERVICES
and the
MICHIGAN DEPARTMENT OF *ENVIRONMENTAL QUALITY*
Regarding
RECORDS MANAGER IMPLEMENTATION & USE
for
FLINT SPECIAL PROJECT

This Agreement is between the Michigan Department of Technology, Management & Budget, Office of Support Services,Records Management Services(RMS)and the Michigan *Department of Environmental Quality Flint Special Project*, herein referred to as "Agency". The effective date for this agreement is the date of last signature (see section M).

A.Project Representatives

RMS consists of Records Management Services' (DTMB-RMS) staff and Information Technology support staff (DTMB-IT) with specialized knowledge in administering imaging and document management solutions within the State of Michigan's technology infrastructure.RMS is responsible for the governance of Records Manager and other document management tools and services provided by them.

IMPLEMENTATION SPONSORS
RMS:*Brice Sample*
Agency:*Barbara Schaibly*

IMPLEMENTATION TEAM
RMSAnalyst(s):*Jessie Weston*
Agency Implementation Leader(s):*Mike Marshall*
Agency Local Coordinator(s):*Mike Marshall*
Core End Users:*Name*

B.Purpose

The purpose of this Charter is to set forth in writing the terms and conditions under whichRMS shall implement Records Manager as a desktop document management system in the agency specified above.

ThisCharter is intended to:

- Establish mutual accountability and responsibility.
- Describe requirements, processes and procedures.
- Define the scope for the implementation and use.

This agreement provides for the initial implementation and configuration of the Records Manager product for the specified agency and any ongoing maintenance, support, or expansion.

C.Scope

Functions of the Records Manager software include, but may not be limited to:Records Management, Document Management, Image Management, and Workflow. All services are included, as long as business needs can be met using Records Manager "out of the box" (without software coding or programming).Additional rated services are also available.

Users from multiple departments in the State of Michigan will use this configuration as a centralized solution for gathering information for FOIA and legal requests concerning the Flint water crisis. For DEQ, records will be imported to Records Manager by one to two previously trained staff members and then reviewed for content by 20 staff members. Records will be stored for review by subject matter. Copies will be created as needed to respond to FOIA and legal requests.

During the course of this implementation, the following aspects of the system will be addressed, and all necessary tasks will be completed:

- *Configuration*
- *User training*

The following table represents major milestones in the project and roles and responsibilities of key parties throughout the project phases. Each milestone will require approval to move forward.

Major Milestones	RMSAnalyst(s)	Agency Sponsor	Agency Implementation Leader(s)	Agency Local Coordinator(s)	End Users
Charter	*Draft charter*	*Define scope, review and sign charter*	*Identify record collections, review and sign charter*	*Review charter and provide input*	
Configuration	*Draft configuration approval document*		*Review and approve configuration*	*Review and provide input on configuration*	
Production	*Built production environment*		*Review production environment for compliance with configuration approval document*	*Review production environment for compliance with configuration approval document*	
Training	*Install seats, design agency-specific training, conduct training*		*Assist with coordination of seat installation, deliver training materials to users, coordinate training*	*Attend training*	*Attend training*

D.Definition of Roles

Implementation Team

This group consists of RMS resources (as assigned), the Agency Implementation Leader(s), Agency Local Coordinator(s), and Core End Users (as necessary).

RMS

A group made up of individuals with expertise in document management, document imaging, records management, file plan development, legal requirements, and best practices as they relate to government records. This group will assist an agency in identifying and evaluating potential document management implementations, including recommending a solution.

General Responsibilities:

- Coordinate the ongoing maintenance of the various tools for implementing a solution, and any other contractual components managed by RMS
- Procure services provided by DTMB-IT as they relate to hosting and managing the system technology

Agency Sponsor

This person will authorize and approve any expenditure related to the implementation and application of Records Manager. The Agency Sponsor must authorize the purchase of any new seats beyond the purchase identified in this charter, and the relinquishment of any existing seats. The Agency Sponsor has the sole authority to de-commission the agency's Records Manager application or any portion of it.

General Responsibilities:
- Review and approve Charter
- Assign agency resources as necessary

Agency Implementation Leader(s)
This individual is generally a mid-level manager, analyst, or other authority over the unit with knowledge of its business functions. It is critical that the Agency Implementation Leader maintain an environment of cooperation and open communication between the members of the Implementation Team(s) and also with the end users.

General Responsibilities:
- Coordinate an overview meeting for all future end users early in the process
- Assist in review of current business processes, existing infrastructure, resources, etc.
- Assist in preparing documentation (Charter, file plans, training materials, etc.)
- Coordinate activities of the Implementation Team on the agency side
- Facilitate meetings with RMS, End Users and Agency Local Coordinator(s)
- Assign agency resources (as necessary)
- Coordinate testing of the configuration to ensure it meets the functional area's needs
- Review and approve the final configuration document
- Oversee agency resources to ensure assignment deadlines are met so the project stays on schedule
- Assign seats and establish user security for initial implementation
- Coordinate attendance of user training

Agency Local Coordinator(s)
There will be at least one Agency Local Coordinator for each implementation; two Agency Local Coordinators are required for agencies with more than five users.The individual(s) should bring specific process-related expertise to the implementation process and maintain an environment of cooperation and open communication between the members of the Implementation Team and the End Users. Local Coordinators must be users in the agency that they represent.

Agency Local Coordinators should be comfortable with using a computer and using Records Manager, and comfortable helping others with their computer and with Records Manager. They should be able to identify what kind of problems a user is having (Records Manager, local computer, network access, scanner, etc.) and know how to get further assistance in resolving the issue.

General Responsibilities:
- Attend either agency-specific training or Records Manager 101

- Attend the Local Coordinator Records Manager training
- Assist in coordinating an overview meeting for all future end users early in the process
- Assist in review of current business processes, existing infrastructure, resources, etc.
- Assist in review of record retention requirements
- Assist RMSresources with configuration of Records Manager
- Coordinate communication and meetings with agency resources
- Assist in coordinating testing of the configuration to ensure it meets the functional area's needs
- Assist in developing training for end users
- Print and distribute training manuals
- Assist in coordinating attendance of user training
- Serve as the first line of contact for end user questions or support
- Serve as the agency-authorized requestor for all Records Manager security and file plan changes
- Assist RMSresources with ongoing maintenance of Records Manager configuration
- Coordinate the pre-implementation organization, clean-up and de-duplication of records in the agency (email, shared drives, existing storage, etc.)
- Provide on-going assistance to all users and promote best practices of Records Manager

Core End Users

The Core End Users will represent each functional area during the configuration phase.These individuals should be available as needed throughout the configuration phase to provide information about the functional area's document management needs and to assist with decision-making.

General Responsibilities:

- Assist in review of current business processes, existing infrastructure, resources, etc.
- Assist in review of record retention requirements
- Assist RMSresources with configuration of Records Manager
- Testing of the configuration to ensure it meets the functional area's needs
- Provide on-going assistance to all users and promote best practices of Records Manager
- Attend user training

Agency End Users

It is essential that end users are consulted throughout the implementation process, and that they receive sufficient training to use the tools that are provided to them.End user support of the tools and the business process changes that will take place is critical to the success of the implementation.

General Responsibilities:

- Attend orientation and other meetings
- Attend user training

- Communicate configuration, support, technical, or functional issues to Agency Local Coordinator(s)
- Use the software tools for maintaining official records

E.Operational Responsibilities

RMSoperational responsibilities include:

- Establishing a file plan structure for managing content created using desktop applications (regardless of format).
- Providing security of agency content to authorized individuals (as defined by the agency).
- Configuring permissions for agency users, as necessary for implementation.
- Facilitating the disposal of records in accordance with approved Retention and Disposal Schedules.
- TrainingAgency's Implementation Teamat the onset of the project.
- Training End Users at the onset of theinitial implementation.
- Designingtraining tools for users to maximize the benefits and features of the software.

Agency operational responsibilities include:

- Migrating existing content (email, shared drives, paper files, etc.) into Records Manager, which may require a separate charter with DTMB-IT and additional resources.
- Extracting images and related metadata from the agency's legacy document management system and delivery to RMSin the required format. This may require additional DTMB-IT resources and a third party contractor.
- Importing migrated images and metadata from legacy system.
- Importing day-forward images and metadata delivered from vendor.
- Bulk/batch scanning operations and all uploading processes.
- Purchasing, leasing or renting any type of equipment.
- Designing a cost-benefit analysis of Records Manager, compared tothe cost of thecurrent system (actual costs, cost avoidance and efficiency). [RMSwill assist with this analysis.]
- Ensuring that all Records Manager users are M-1 enabled and/or otherwise connected to and managed within the SOM domain.
- Ensuring that all the PCs with Records Manager installed meet the current Records Manager software computer specifications.
- Conducting regular meetings to discuss and implement consistent filing practices, naming conventions, etc. is highly recommended, and will facilitate cultural change.

F.Implementation Plan

1. Records Manager Initial Planning Meeting
    - Prepare, finalize and sign Charter
    - Prepare Records Manager Orientation
    - Initiate software installation for Implementation Team (RMS)

2. Records Manager Orientation (presented by Implementation Team to future end users)
   - Records Manager introductory demonstration
   - Review steps of the implementation process
   - Identify roles and responsibilities

3. Records Manager Configuration
   - Review the agency's Retention and Disposal Schedule (draft initial revisions)
   - Analyze organization (organization charts, functional levels) in order to establish home/owner locations, user roles/profiles
   - Develop file plans (file plan template and agency-specific file plans)
   - Determine document/data security classification levels (Public, Internal Use, Confidential, or Restricted)
   - Analyze existing content (paper, email, share drives, other electronic documents) for potential transition to Records Manager, and make recommendations to the agency
   - Assess the need for non-standard record types
   - Present initial configuration

4. Migration of Content/Systems
   - RMSwill analyze and make recommendations for efficient migration of existing content (email, shared drives, paper files, etc.) into Records Manager if requested.The agency is responsible for the actual work required for content migration, which may require a separate charter with DTMB-IT and additional resources.
   - RMSwill analyze and make recommendations for efficient migration of existing imaging or document management systems into Records Manager.The agency is responsible for the actual work required for system migration, which may require a separate charter with DTMB-IT and additional resources.
   - RMSwill, in consultation with the agency, develop a data map for existing images and metadata, import migrated test images and metadata, and import final data extraction when it is delivered back in the appropriate format from IT/Vendor for production.
   - RMSwill,in consultation with the agency, develop a temporary transitional business process for daily content uploads.

5. Records Manager Testing, Training and Rollout
   - RMSwill assist in themodificationof standard training manuals in accordance with agency-specific needs, if necessary.
   - RMSwill provide end user training to Implementation Team.
   - Implementation Team will test the draft file plan and configuration settings for issues.
   - Implementation Team will develop final configuration for approval.
   - Implementation Team will establish go live date.
   - Agency IT Support will deploy software to end users, with the assistance of RMS.

- RMS, with the assistance of the Agency Local Coordinator(s), will train the end users.
- Agency Local Coordinator(s) will assist end users with the transition to Records Manager.

6.Production Maintenance

- Agency Local Coordinator(s) will contact RMSwhen modification of the configuration is needed.
- Agency Local Coordinator(s) will work with RMSto implement record disposition.
- Implementation team will meet periodically (as necessary) to discuss the status of the transition.

G.Critical Success Factors

Cultural change and end user acceptance of Records Manager is critical to the success of this project.Agency champions are necessary to foster an environment of cooperation and open communication.

It is the agency's responsibility to manage change and the advancement of the technological skill levels of agency staff.The identification of, and catering to, end user's level of technological skill may be required.

The agency must prepare its environment during the course of this project for the transition to Records Manager as an official recordkeeping system.Successful migration of existing documents depends on the agency's ability and willingness to pre-organize and de-duplicate its electronic records.

Additional success factors associated with the implementation of Records Manager should be identified by the agency.These success factorscould include:

- *Consistently organizing records for retrieval.*
- *Centralizing storage of records, regardless of format, so all records for a business process are stored together.*
- *Easier and faster retrieval of information.*
- *Improved compliance with FOIA timelines.*
- *Easier and more secure sharing of records among employees.*
- *Improved compliance with litigation holds.*
- *Improved redaction of confidential information that is released outside of the agency.*

H.Rates&Billing

Estimated Resource Requirements and Costs

RMSSponsor: No costs
RMSAnalyst(s):No costs
Agency Sponsor:*Cost*
Agency Implementation Leader(s):*Cost*

Agency Assigned Business Analyst(s) (if applicable):*Cost*
Agency Local Coordinator(s):*Cost*
Contracted services/existing enterprise solutions (imaging services, scan capture software, scanning devices, multifunction devices, etc.) (if applicable):*Cost*
PCs and or other equipment (if applicable):*Cost*
DTMB-IT Project Management (if applicable):*Cost*
DTMB-IT resources (if applicable):*Cost*

Rate Structure
The attached Records Manager rate sheet shows costs incurred during the initial implementation phase based on the anticipated purchase date of the initial licenses. The initial number of seats/users is anticipated to be *0.*This initial implementation phase is expected to take *0* months. Costs incurred after the initial implementation will be billed in accordance with the current rates, volumes, and users*20*new users +*0*initial implementation users).See attached estimated yearly rate sheet (Attachment A).

RMS will charge for **Initial Implementation** which is calculated by the number of seats (users).

RMS will charge for maintenance and support services based upon the following rate structure:

- **Maintenance rate** is based on the Annual Maintenance Plan (AMP) of Records Manager licenses per seat of active users, and labor for application maintenance and DTMB-IT support (including software upgrades).
- **Storage and hosting rate** is based on the amount of storage space used by the agency, and an allocation for DTMB-IT hosting services.

Inter-Account Billing
RMS shall inter-account bill appropriate charges monthly, based on the established service rates.Rates will be reviewed and published on an annual basis.

Agency Billing Information
Agency:##
Index:##
PCA Code:##
Comptroller:##
Agency Object:##
Financial Contact Person:*Name*

I.Standard Services

Standard services to be provided by RMSinclude the following:

System Usage
The use of any and all functionality provided within the confines of Records Manager, specifically focusing on the use of Document Management, Image Management,

Workflow, Library Services (check-out/check-in, version control, etc.), and Records Management.Other functionality that may be available in Records Manager will be provided at the discretion of RMS, once the functionality has been tested and evaluated.Additional costs and resources may apply.

Analyst Services
RMS will analyze theagency's business functions in order to configure Records Manager in accordance with established application standards.RMS will configure Records Manager with theagency's Retention and Disposal Schedule (including the classification of records), File Plan, Organizational Structure, and Security Model to meet the accessibility needs of the agency.

Training Services
RMS will provide agency-specific training to the implementation team at the onset of the project, and to end users at the onset of the initial implementation.RMS will provide ongoing non-agency-specific training.

Application Support
The Agency Local Coordinator(s) shall provide Level 1 support.Level 1 help desk support may include, but may not be limited to, specific business unit policies, and practices and the functional use of Records Manager.

Level 2 help desk support includes, but may not be limited to, the troubleshooting of functional problems or the identification of technical problems with the software.Level 2 help desk support will be available by calling 517-335-9132.Help desk hours are Monday - Friday, 7:30 am - 4:30 pm (except state holidays).The help desk will attempt to respond to the request for assistance within 1 business day.RMSis responsible for contacting DTMB-IT or HP if additional technical assistance is needed.

Technical Support
Technical Support shall be provided by the various technical support areas of DTMB.RMS will coordinate all technical support as it relates to the core functions of Records Manager including the monitoring and necessary system expansion.

Security/User Authentication Support
RMS will be responsible for establishing all user accounts in the Records Manager system, in accordance with DTMB policies and procedures.

Additional Records ManagerFunctionality
RMSwill evaluate and/or identify additional uses of Records Manager beyond the four core functions.This may include the development of standards, policies, procedures and best practices as they pertain to Record Manager's out-of-the-box functionality.

Additional Document Management Services
RMSwill assist agencies with the expansion of Records Manager usage.Additional document management solutions may include additional Records Manager modules,

scanning solutions, reporting/auditing solutions, and interfaces to line-of-business applications.RMS will leverage existing DTMB services whenever possible in order to improve efficiencies and lower the overall costs of business operations.Specific requests by an agency for additional services may be subject to additional resources and costs.

J.Maintenance and Support

All ongoing support, including the expansion of the system back-end and software upgrades, will be the responsibility of RMS.

K.Modifications and Change Orders

The Agency Sponsor is responsible for authorizing the purchase of additional user seats.The Agency Local Coordinator(s) is responsible for notifying RMS when users need to be added or removed, and when file plan and/or retention schedule changes are needed.

When an employee at the agency needs a seat, the Agency Local Coordinator(s) will request a Records Manager account set up for the user.If an open seat is not available, a new seat will have to be purchased bytheagency.The Agency Sponsor must authorize the purchase of the new seat. The agency will be billed for the seat(s) during the next billing cycle.

If an employee with a Records Managerseat leaves the agency or no longer needs the seat, it must be deactivated.The Agency Local Coordinator(s) will request that theRecords Manager seat for the user be deactivated.The agency can choose to hold the seat for future use and continue to pay the maintenance rate, or release it.The Agency Sponsor must authorize the release of a seat.

If the agency requires modifications to the Records Manager configuration before or after implementation (file plans, record types, security, retention schedules, etc.), the Agency Local Coordinator(s) will contact RMS to discuss, develop and plan implementation of the modifications.Routine modifications to the configuration are expected and fall within the scope of maintenance component of this Charter.However, RMS may determine that significant modifications to the configuration are outside of the scope of thisCharter and require a new Charter or a Change Order to the existing Charter.Examples could be agency splits and merges or additional business functions.

Selection of a new Agency Sponsor will require a Change Order that must be signed by the new Agency Sponsor and their direct supervisor.

L.Duration and Cancelation

This agreement will be effective the date it is signed below. It will be ongoing and canbe reviewed as determined necessary by either party.

Cancelation of Records Manager will require the development of a written migration plan and a decommission charter in order to define a strategy to migrate records and

information from Records Manager to another record keeping system. The agency is responsible for notifying RMS to begin the process. RMS will facilitate the development of the decommission charter.

M.Signatories

The signatories warrant that they are authorized to execute this Charter on behalf of their respective departments.

The signatures of the people below relay an understanding in the purpose and content of this document by those signing it.By signing this document you agree to this as the formal authorization to begin work on the project described within, and commitment of the necessary resources.

Subject: FW: Expanded HPRM Access

Jessica,

As you are aware, Mike Marshall has a new job assignment working to help facilitate FOIA and other information requests relative to the Flint crisis to the AG and others. Accordingly, he needs access to key documents currently in and anticipated for electronic document management. While a list of file owner names would be ideal, we do not know always know the nature of the requests. If possible, it would be desirable for Mike to have quick access to all DEQ electronic file plans to enable prompt response to Governor's office, Attorney General, and FOIA inquiries. Mike does not have any intention of either manipulating or changing any content. We approve of this request.

Is this something that you can help facilitate?

Attachments:	Records Manager User Security Request - MarshallM7.docx

DEQ Records Manager Local Coordinators – DEQ Administration has requested that Mike Marshall be granted view access to all records currently housed in Records Manager. The attached user security request details the access groups affected by this request. Mike Marshall is coordinating DEQ's response to FOIA and legal requests concerning the Flint water situation.

Please notify me no later than noon on Monday if you have any objection to adding this access. If you object, I will forward your objection to DEQ Administration and wait to add access in the area of concern. If I do not hear from you by noon on Monday, I will grant view access to your area.

Thank you and please let me know if you have any questions.

12.8 Electronic Funds Transfer

LEASE

State Lease #**11530**-**2010**

between

Lurvey White Ventures 1, LLC, as Lessor
a Michigan Limited Liability Company

and

THE STATE OF MICHIGAN, as Lessee

THIS LEASE is entered into by **Lurvey White Ventures 1, LLC**, as Lessor, whose address is **503 South Saginaw Street, Suite 1500, Flint, Michigan 48502**, and the State of Michigan by the Department of Technology, Management & Budget for the Department of **Education**, as Lessee.

The parties, for the considerations specified in this Lease, agree to the following terms, conditions, and covenants:

ARTICLE I - DEFINITIONS

1.1 - A.N.S.I.: American National Standards Institute, Inc., a New York corporation that identifies public requirements for national standards and coordinates voluntary standardization activities. A.N.S.I. standards are used in calculating square footage used in this Lease.

1.2 - Cancellation: Ending all rights and obligations of the Lessor and Lessee, except for any rights and obligations that are due and owing.

1.3 - Construction: Assembling of foundation, structural, architectural, electrical, and mechanical systems, on the Leased premises, where none existed prior.

1.4 - Executive: An Executive Order of the Governor pursuant to the Constitution 1963, Article 5, § 2 and 20, or a decision by the Director of the Department of Technology, Management & Budget in conjunction with the head of the principal State department or agency for whose use the Lease was entered.

1.5 - Maintenance: That effort, including repair, replacement, or removal, required to keep the Leased premises and the appearance of said Leased premises functioning or operating as originally designed, constructed, or installed, including but not limited to mechanical, electrical, architectural, or civil systems within the Leased premises, outside the Leased premises, or those systems otherwise attached thereto.

1.6 - Occupancy: Actual physical presence by the Lessee in the Leased premises.

1.7 - **Reserved**

1.8 - Possession: Lawful availability and physical access to install the Lessee's furnishings and compliance with paragraphs 3.1(z) and 3.7.

1.9 - Potable water: Water free from impurities present in amounts sufficient to cause disease or harmful physiological effects and conforming in its bacteriological and chemical quality to the requirements of the Public Health Service Drinking Water Standards or the regulations of the public health authority having jurisdiction.

1.10 - Purpose: The purpose for this Lease is **school and campus** space use for the department or agency mentioned in the Lease in the specific geographic location described in paragraph 2.2 of the Lease.

1.11 - Remodel: Includes alterations, renovations, and any related demolition, and is the rearranging of existing architectural, civil, electrical, and/or mechanical systems within the Leased premises. Remodeling does not include enlarging or decreasing of structural or foundation systems, or new construction.

1.12 - State Government Managed: Property management tasks and responsibilities provided or contracted for and managed by a) the State of Michigan; b) any of the several departments, boards, commissions, offices, or agencies of the executive, legislative or judicial branches of state government; c) any institution of higher learning funded in whole or in part by the State of Michigan; or d) any entity created by act of the Legislature as an instrumentality of Michigan State government.

1.13 - State Government Owned: Real property fee title to which is held by a) the State of Michigan; b) any of the several departments, boards, commissions, offices, or agencies of the executive, legislative or judicial branches of state government; c) the State Building Authority; d) any institution of higher learning funded in whole or in part by the State of Michigan; or e) any entity created by act of the Legislature as an instrumentality of Michigan State government.

1.14 - Substantial Completion: The construction work has been completed in accordance with Enclosure C and C-1, to the extent that the Lessee can use or occupy the Leased premises for the use intended, without any outstanding or concurrent work remaining, except as required to complete minor punch list items. The Lessee has the sole discretion to determine whether punch list items are "minor". Prerequisites for substantial completion include (a) receipt by the Lessee of all required operating and maintenance documentation, (b) all systems have been successfully tested and demonstrated by the Lessor for their intended use, and (c) the Lessee has received all required certifications and/or occupancy approvals from the State and any other political subdivisions having jurisdiction over the work. Receipt of all certificates and/or occupancy approvals in and of itself does not necessarily connote substantial completion.

1.15 - Tenantable: Habitable for the effective conduct of the Lessee's intended business.

1.16 - Tenant Improvements: Remodeling, attachment of fixtures, erection of additions, partitions, structures or signs by the Lessee in and upon the Leased premises after the Lessee has acquired possession.

ARTICLE II - POSSESSION

2.1 - The Lessor leases to the Lessee:

- **66,590 usable square feet (New Fay Hall Building)**
- **6,580 square feet of remodeled area (known as unit 1) attached to Stevens Hall.**
- **36,796 square feet of "as is" dorm room area (known as Stevens Hall) for a total of 43,376 square feet of renovated space.**
- **6,000 square feet of space for a building (known as Living Resource Center)**

For a total of 115,966 usable square feet of school, office and dorm room space. This space shall include seventeen and a half (17.5) acres of land for the exclusive use of Michigan School for the Deaf. These areas shall include an outdoor playground, faculty and visitor parking, bus drop-off area, and football practice field. Shared facilities shall include the existing track and field area, a nature trail located in Happy Hollow, all of which are outlined in the enclosed site plan, referred to as the "Leased premises", which is outlined on a plan attached as Enclosure "A". This square footage is based upon the A.N.S.I. Z65.1 - 1996 method for calculating space.

2.2 - The Leased premises, located on the property described in Enclosure "B" also known as **Michigan School for the Deaf Campus**, in the **City** of **Flint**, County of **Genesee**, State of Michigan.

2.3 - If the Leased premises are available for possession by the Lessee prior to the commencement of the term defined in paragraph 2.4, the Lessee, at its sole option, may possess the Leased premises when the same are available. The Lessor shall provide written notice to the Lessee of such availability. For each day of possession prior to commencement of such term, the Lessee shall pay to the Lessor, at the same time that rent consideration for the first month of the regular term of the Lease is due, 1/365 of the initial annual rent consideration set forth in Article V.

2.4 - The Lessor shall furnish the Leased premises with their appurtenances to the Lessee for a **20-year** initial term of possession beginning upon actual possession or at 12:01 a.m. on **June 1, 2012**, and ending at 11:59 p.m. on **May 31, 2032**, or such later date as provided in paragraph 3.6. If the Leased premises are not ready by the possession date, the beginning and ending dates may be altered by mutual written consent to reflect the correct possession date. If the initial possession date is changed, paragraphs 2.5, 2.6, and Article V shall also be changed accordingly.

2.5 - This Lease may, at the option of the Lessee, be extended beginning at 12:01 a.m. on **June 1, 2032** through **May 31, 2042**.

2.6 - **Deleted, not applicable**

2.7 - **Deleted, not applicable**

2.8 - **Deleted, not applicable**

2.9 - The Lessee may, upon written notice to the Lessor, at least thirty (30) days prior to termination of this Lease or any extension, remain in possession of the Leased premises for the period specified in the notice, not to exceed three months. The Lessee shall pay the Lessor for each month or part of a month a sum equal to 1/12 of the annual rent consideration set forth in Article V.

2.10 - The Lessee may assign this Lease or may sublet the Leased premises in whole or in part, with prior written consent of the Lessor, which shall not be unreasonably withheld. The Lessee, through its Department of Technology, Management & Budget may assign or reassign any or all of the Leased premises to any branch, department, board, agency, commission or other instrumentality of State government without the necessity of obtaining consent of the Lessor. Notwithstanding any assignment or sublease by the Lessee, the Lessee shall remain liable for the payment of all rental payments and the performance of other obligations of the Lessee under the Lease, subject to the terms of this Lease.

2.11 - The Lessee, upon payment of the rental consideration specified in Article V and upon performing all covenants, shall and may peacefully and quietly have, hold, and enjoy the Leased premises for the term of this Lease or any extension.

2.12 - The Lessor or Lessor's agent may enter the Leased premises with reasonable advance notice for the purpose of conducting repairs, preventive maintenance, or providing replacements, as required under Article III.

2.13 - If for any reason relating to ownership of the Leased premises the Lessor is unable to lawfully put and maintain the Lessee in possession of the Leased premises as of the commencement of the term of this Lease or any proper extension thereof, the Lessor shall immediately secure other premises which in the Lessee's sole judgment is substantially equivalent to the Leased premises described herein, at a rental rate to the Lessee which shall not exceed the rental consideration in this Lease.

ARTICLE III - LESSOR OBLIGATIONS

3.1 - The Lessor shall furnish to the Lessee and pay the cost of the following:

a) Heating, mechanical ventilating, cooling, and humidification system capable of providing a temperature range of 68°F to 78°F, measured at 30" above the finished floor, and 12" inside any exterior wall, and a humidification range of 30% to 50%, at all times occupied. Ventilation in restrooms shall be a minimum of 100 cfm, exhausted to the outdoors.

b) Electrical power distribution system throughout the Leased premises, for the operation of all business machinery and equipment.

c) Natural and/or artificial interior illumination that provides a minimum **50** foot-candles, measured at desk level, at all times, throughout the Leased premises. Artificial illumination shall be by incandescent or fluorescent lamps, and shall include tubes, bulbs, starters, ballasts, and fuses used inside the illumination fixture, and the replacement thereof for the Leased premises and common areas.

d) Domestic plumbing system to restrooms and break rooms capable of supplying hot and cold water, and removing sanitary waste water. Hot water delivery shall be not more than 120°F and not less than 110°F, measured at the tap.

e) Potable water shall meet the requirement of the Safe Drinking Water Act, 1976 PA 399, as amended, MCL 325.1001 et.seq.

f) Metered utility costs for electricity, natural gas, water, sewerage, steam, fuel oil, or coal.

g) Adequate roof, vertical, and foundation thermal insulation in accordance with applicable codes.

h) Complete moisture protection from all exterior weather sources, on all sides, floors, and roof of the Leased premises.

i) Sound attenuation between any mechanical system or other tenant in the premises and the Leased premises, which provides not greater than 45dbA sound level readings, under conditions with all Lessee business equipment shut down.

j) Vibration isolation between any mechanical, plumbing, electrical, or other building system attached to and a part of the Leased premises.

k) Any equipment, portable or fixed, including alarm notification systems, required by the local public fire marshal authority.

l) Commercial grade, heavy-duty locking hardware.

Prior to Lessee possession, all doors providing access to the Leased premises shall be rekeyed and **five** (**5**) keys per lock combination shall be provided to the Lessee.

m) Pest control, including but not limited to: insects, rodents, flying animals, etc. Spraying must be performed after business hours or on weekends.

n) Trash removal from office wastebaskets, dumpsters, or equivalent containers.

o) Exterior grounds maintenance, including grass and weed cutting, clippings removal, leaf raking, litter removal, sidewalk surface and parking lot surface maintenance, de-icing, and snow removal. Snow removal is required anytime the accumulated depth is 2" or more, 24 hours after the most recent snowfall, and there shall be a clear path from the handicapper motor vehicle parking spaces to the barrier free entrances.

p) Janitorial supplies, equipment, personnel, and supervision to provide cleaning services as described in Enclosure "**F**".

q) Paved, striped, illuminated, and common motor vehicle parking on the Leased premises, for **100** motor vehicles, including overnight parking for state-owned motor vehicles. The striping on the parking lot shall be repainted **twice per seven year period** during the lease period in the summer by the Lessor. Illumination shall be not less than 2 foot-candles, with a uniformity not greater than 4 to 1, measured on the parking surface. The Lessor shall provide replacement tubes, bulbs, starters, and fuses, i.e., all parts and equipment necessary to provide and maintain this exterior illumination.

r) Leased premises shall comply with the barrier free design requirements of 1966 PA 1, as amended, MCL 125.1351 et seq. (Utilization of Public Facilities by Physically Limited). **This shall apply to all newly constructed and renovated space within the premises as outlined in Enclosure "A".**

s) Complete maintenance of the Leased premises, except for any obligations expressly undertaken by the Lessee set forth in Article IV. The Lessor shall keep the Leased premises in good repair, and able to perform and operate as designed, free from dangerous or defective conditions, and in tenantable condition, and at the Lessor's sole expense, properly and in a manner customarily accepted by the skilled trades, make all repairs and/or replacements, structural or nonstructural, of whatever nature. The Lessor shall provide inspections and preventive maintenance for heating and cooling systems in accordance with manufacturers' standards and any local codes or ordinances. The Lessor shall have a reasonable period of time, not to exceed thirty (30) days after receipt of a detailed written notice from the Lessee, to cure any maintenance defect. Additional time to cure any such maintenance defects may be allowed provided, in the Lessee's discretion, the Lessor proceeds with due diligence both during and after such thirty (30) day period, and the total time period to cure does not exceed ninety (90) days. This provision is cross referenced in paragraphs 4.2, 5.15, 5.17, and 11.3.

t) A listing of all important service or repair contractors to be contacted by telephone by the Lessee for emergency service or maintenance. These emergency telephone numbers shall be used by the Lessee only after attempting contact with the Lessor, given the scope and nature of the emergency. The Lessor shall maintain an updated or otherwise current listing. Lessor's failure to provide the emergency telephone numbers or to notify the Lessee of changes to the current listing shall be considered as authorization for the Lessee to contact an emergency service or maintenance contractor of choice.

u) Full replacement value insurance, for the Leased premises identified in paragraphs 2.1 and 2.2, having only standard exclusions, i.e. for acts of war, nuclear disaster, or civil riots.

v) General premises liability insurance for the Leased premises identified in paragraphs 2.1 and 2.2, which provides full coverage for the Lessor, the Lessee, and their respective agents and employees and which protects against all claims, demands, actions, suits, or causes of action, and judgments, settlements or recoveries, for bodily injury or property damage arising out of a condition of the Leased premises. The Lessor agrees to maintain minimum policy limits in the amount of $500,000.00 per occurrence for property damage, and $1,000,000.00 per occurrence for bodily injury, with a $2,000,000.00 aggregate. The Lessor shall provide to the Lessee a certificate of insurance listing the Lessee, its several departments, boards, agencies, commissions, officers, and employees as additional insureds, within thirty (30) calendar days following execution and delivery of this Lease to the Lessor, and every year thereafter. The insurance policy shall provide that it may not be modified, cancelled, or allowed to expire without thirty (30) days prior written notice given to the Lessee.

w) A written report, not more than sixty (60) days old from the date of first possession, from the local public fire marshal authority, indicating the Leased premises are approved for occupancy. If a renewal option is exercised, the Lessor shall provide the Lessee with an updated report within sixty (60) days from the beginning date of each renewal period.

x) A legible photocopy of the recorded warranty deed, or other instrument conveying current legal possession or title, with right to lease or sublease the Leased premises, as found in paragraphs 2.1 and 2.2, to the Lessor; and copies of all other documents limiting or restricting the use of the Leased premises or affecting title to the lands and Leased premises.

y) A legible photocopy of the current legal entity documents (corporation, partnership, trust, D.B.A., etc.) of the Lessor. This shall include signature authorizations indicating the signatory of this Lease is authorized to act on behalf of the legal entity, in this real estate transaction.

z) A legible photocopy of any certificates of occupancy, as approved by the local public building department or authority, if remodeling or construction is performed in paragraph 3.7.

aa) Legible photocopies of all paid-in-full supporting documents necessary to calculate adjustments to the rental consideration referenced in Article V.

bb) Adequate and easily accessible indoor space in the vicinity of any shipping and receiving docks, areas, or platforms, for the purpose of the placement of holding containers for state-government recyclable materials and supplies, in accordance with 1994 PA 451, as amended, MCL 324.16501 et seq.

cc) New carpeting and ceiling grid pads as needed, during the one hundred eighty (180) days immediately following the start of the tenth (10th) year of possession, and during the one hundred eighty (180) days immediately following the start of the first renewal option, if exercised. The 180-day period is intended as a "window period" only, not as permission to take 180 days to complete the replacement. The carpet and ceiling grid pads shall be of equal or better construction, materials, or grade, as compared to the carpeting and ceiling grid pads used upon initial possession. The Lessor will provide, at Lessor's sole cost, in addition to the carpet, moving or "lifting" of the existing furniture, if necessary; the adhesive for the new carpet, and the replacement of any cove base if damaged.

dd) Security for the Leased space and the scope of security as outlined (please see enclosure "G", schedule) of times the Lessor shall provide security, using and maintaining the same security system currently in place.

ee) Lessor shall deposit Three Hundred Fifty Thousand ($350,000) dollars (for furniture) into an interest bearing account on or before Lessee's occupancy or by June 1, 2011 whichever is earlier. From the Furniture Allowance, Lessor shall pay costs related to (i) consultant fees for design professionals; and (ii) any furnishings costs of any kind or nature, up to the amount of the funds in the Furniture Allowance account upon presentment of invoices by Lessee. The Lessee shall at all times remain the lawful possessor and owner of any items included in (i) and (ii). To the extent that the sum of actual costs associated with items (i) and (ii) of this section is less than the Furniture Allowance, Lessor shall credit the unused portion of Furniture Allowance against the rent consideration installment payments, monthly, beginning June 1, 2011, until the Furniture Allowance account is fully depleted. Any sum in the Furniture Allowance account upon the cancellation of this Lease shall belong to the Lessee.

3.2 - The Lessor warrants that any asbestos contained within the Leased premises has been removed prior to the Lessee taking possession; or if not removed, is present or installed in a manner that will not harm or injure human occupants. The parties agree that the Lessee assumes no liability or responsibility for the presence of asbestos in or on the Leased premises.

3.3 - a) The Lessor covenants that he/she has undertaken an environmental assessment of the Leased premises, satisfactory to and for the benefit of the Lessee, that is adequate to establish the liability exemptions and defenses available in Sections 20126(1)(c) and 20126(3)(h) of the Natural Resources and Environmental Protection Act (NREPA), MCL 324.20126(1)(c) and 324.20126(3)(h) and Section 107(b)(3) of the Comprehensive Environmental Response Compensation Liability Act, 42 USC 9607(b)(3), and that the Leased premises, and property on which the Leased premises is located, do not contain a concentration of any hazardous substance above applicable criteria that applies to a non-liable owner in compliance with part 201 of NREPA and CERCLA.

b) The Lessor covenants that in the event a release or the threat of a release of a hazardous substance is discovered after execution of the Lease, to exist on, in or below the Leased premises, the Lessor shall:

1) Promptly notify both the State, as the Lessee, and the Michigan Department of Natural Resources and Environment (MDNRE) of the release or threatened release.

2) Report, investigate, remediate, and take all other actions consistent with Federal, State and local laws and regulations including, without limitation, Part 201 of the Natural Resources and Environmental Protection Act (NREPA), MCL 324.20101, et seq.

3) Inform the Lessee, the MDNRE, and all other parties required to be notified under Federal, State or local law, of all actions taken under (2) above.

4) Provide the Lessee, the MDNRE, and all other parties required to be notified under Federal, State or local law, with all reports, data, analyses and other documents and information related in any way to the investigation, remediation or other steps taken under (2) above.

c) The Lessor, except as otherwise provided herein, agrees to hold the Lessee harmless and to indemnify the Lessee for any claims brought against the Lessee related to asbestos or the release or threatened release of any hazardous substance on, in or below the Leased premises that may have occurred prior to or after the Lessee's occupancy of the Leased premises. This indemnification and hold harmless provision shall survive the termination of the leasehold interest and the sale of the Leased premises by the Lessor.

d) The Lessor agrees to take no administrative or judicial action against the Lessee including, without limitation, any action for damages, contribution, cost recovery, or injunctive relief to compel the Lessee to investigate or take remedial action, declaratory relief, or any action associated with the Lessor's obligations to comply with Federal, State or local law as a result of asbestos or the release or threat of release of any hazardous substance on, in or below the Leased premises, except if the release or threatened release is caused solely by the Lessee.

e) The Lessor and Lessee mutually agree that they shall not release on, in, or below the Leased premises any hazardous substance. The Lessee assumes responsibility, to the extent provided by law, for a release or threatened release of a hazardous substance caused by the Lessee. The Lessor need not indemnify or defend the Lessee if the release or threatened release is caused solely by the Lessee.

3.4 - The Lessor is responsible for defending the Lessee against any claim whether meritorious or frivolous, by any person challenging the Lessor's right to Lease the Leased premises, and shall at its sole expense satisfy any judgment against the Lessee.

3.5 - The Lessor shall begin the remodeling or construction indicated in paragraph 3.7 within **sixty** (**60**) days **from lease execution**. All work required under paragraph 3.7 shall meet the latest local and state building codes, fire codes, and barrier free regulations. The Lessor shall be responsible for acquisition of and payment for all necessary permits.

a) No later than **sixty** (**60**) days after the effective date of the Lease, the Lessor shall submit to the Lessee a detailed schedule for the design and construction of the Leased premises conforming to the Critical Path Method as outlined in Enclosure "C". Prior to commencement of construction, the Lessor shall submit detailed preliminary plans and specifications consistent with Enclosure "C" and a schedule of all permits and approvals for review by the Lessee.

b) Lessee will endeavor to use its best efforts to complete the review of the preliminary detailed plans and specifications within **two** (**2**) weeks of their submittal.

c) Lessee will either approve the preliminary detailed plans and specifications or make comments on them. The Lessor shall incorporate the Lessee's comments into the final design of the Leased premises. Once the final detailed plans and specifications are complete, they shall be attached to and become part of this Lease as Enclosure "C-1". Lessor shall supply three (3) copies of the final detailed plans and specifications to the Lessee prior to commencement of construction.

d) No modification shall be made to the final detailed plans and specifications without the prior written consent of the Lessee. Lessor, in constructing the Leased premises, shall use quality materials and comply with all federal, state, and municipal laws, rules, and regulations of any governmental agencies having jurisdiction over the Leased premises. All proposals for the necessary substitution of materials because of shortage or lack of specified materials will be immediately submitted to Lessee, and Lessee may thereupon approve these substitutions, provided they do not alter the quality of the Leased premises.

e) Building plan review and approval as described in this paragraph is not for the Lessor's benefit and the Lessee is not responsible for any design error and/or omissions discovered or which could have been discovered during this review. Nor does this review waive or negate any rights of the Lessee for breach of contract and/or default based upon design error and/or omissions.

f) The Lessor shall immediately commence construction as required in paragraph 3.6 upon submission of the final detailed plans and specifications to the Office of Design and Construction.

g) All work required under paragraph 3.6 shall meet the latest local and state building codes, fire codes, and barrier free regulations. The Lessor shall be responsible for acquisition of and payment for all necessary permits.

3.6 - a) The Lessor shall complete construction in accordance with the standards and specifications found in Enclosures "C" and "C-1" by **June 30, 2012**, or **within fifteen (15) months** after Lessor receives a fully executed copy of this Lease whichever is later. Upon completion of construction, Lessor shall submit to the Lessee three (3) copies of the "as-built" detailed plans and specifications.

b) Time extension requests must be submitted in writing to Lessee each month in which the Lessor believes he/she is entitled to more time. Such requests shall detail the length of time extension requested and indicate why the Lessor believes more time is warranted. Lessee will respond to such requests and may extend the timeframe allowed for Substantial Completion. If no time extension is requested in writing, it will be assumed that no additional time is needed and no timeframe extension will be allowed for that month.

c) The work to be performed under Article III of this Lease shall be commenced as provided in paragraph 3.5 and shall be Substantially Completed within the timeframe required in paragraph 3.6(a). Lessor and Lessee agree that Substantial Completion by the time specified is of the essence to this Lease and that the Lessee will suffer injuries and damages if the work is not timely completed. Should the Lessor fail to Substantially Complete the work within the above-referenced timeframe, the sum of $**1,000** per day shall be deducted from the Lease rent payment(s) for each and every calendar day of delay. It is understood and agreed that this deduction from Lease rent payment(s) is not a penalty, but represents liquidated damages suffered by the Lessee, and is so fixed on a per diem basis because of the extreme difficulty of ascertaining the full amount of damages the Lessee will sustain if the work is not timely completed. Liquidated damages are not intended to compensate the Lessee for any other breach of this Lease.

d) See attached Enclosure "C", for construction standards and specifications. Enclosure "C-1" (final detailed construction plans and specifications) shall be incorporated and attached to this Lease upon receipt by the Office of Design and Construction pursuant to paragraph 3.5.

e) The program, design, and construction of the Leased premises shall be executed in compliance with all applicable federal, state, and local laws, permits, approvals, ordinances, standards, and regulations, including but not limited to applicable regulations of the Occupational Safety and Health Act (OSHA), and other professional practices and industry standards.

f) The Lessor expressly warrants and guarantees to the Lessee that all construction work will conform to the Lease, Enclosures "C "and "C-1" and will not be defective. Reasonably prompt notice of defective work of which the Lessee has actual knowledge shall be given to the Lessor, but failure to do so will not void the Lessor's warranty and guarantee obligations unless actual prejudice results from such untimely notice.

The Lessor's obligations for correction of construction work specified herein are in addition to, and not in limitation of, any warranties or guarantees required elsewhere in this Lease, Enclosure "C" and "C-1", or by law. Nothing contained in this paragraph shall be construed as establishing a period of limitations for, or limiting the obligations of, the Lessor to warrant and guarantee that the construction work will not be defective.

3.7 - Lessor agrees that the Lessee or its authorized representative(s) shall, at all times, have access to the Leased premises construction site to determine that the Leased premises are being constructed in accordance with reasonable construction standards and the requirements of Enclosure "C" and "C-1". Lessor agrees that:

a) The Lessee's representative shall receive copies of Lessor's required construction submittals as outlined in Enclosure "C-1", such as shop drawings, product data and samples, to confirm conformance with the design concept of the work and with the information provided in enclosure "C-1" and industry performance standards.

b) The Lessee's representative shall have authority to observe the construction and where non-conformance with Enclosure "C" and/or "C-1" is discovered communicate to the Lessor such non-conformance. The Lessor agrees to take appropriate corrective action to conform the construction work to the requirements of Enclosure "C" and "C-1".

c) The Lessee's right to make observations or otherwise act as set forth in paragraph 3.7(a), 3.7(b), 3.7(d) and 3.7(e) shall not:

1) give rise to or impose any duty or responsibility on Lessee to make those observations or perform those services for the benefit of the Lessor or any of its contractors, subcontractors, agents, or employees;

2) relieve the Lessor from its obligations to perform the construction work in accordance with Enclosure "C" and "C-1"; or

3) represent acceptance of defective construction work.

3.8 - Lessor agrees that the Lessee shall retain an Architect/Engineer at Lessee's expense, who will provide construction inspection services and will periodically visit the site to determine that the Leased premises are being constructed in accordance with reasonable construction standards and relevant specifications and drawings, Lessor agrees that:

a) The Lessee's Architect/Engineer shall at all times have access to the work whenever it is in preparation and progress. Lessor is responsible for providing access to the Lessee's Architect/Engineer so that he/she may properly perform functions under this agreement.

b) The Lessor's Architect/Engineer who is responsible for the preparation of the construction documents will be the final interpreter of the specifications, drawings and standards, and the judge of performance thereunder by the Lessor.

c) The Lessee's Architect/Engineer shall receive copies of Lessor's required construction submittals, such as shop drawings, product data and samples, to confirm conformance with the design concept of the work and with the information provided in the specifications, drawings, and industry performance standards.

d) The Lessee's Architect/Engineer shall have authority to inspect and, where required because of a non-conformance with the relevant contract documents, reject any construction work, or take other appropriate action including recommending action necessary to correct any rejected work. The Lessor shall promptly correct the rejected work according to the Lessee's Architect/Engineer's recommendations.

e) The Lessee's Architect/Engineer's authority to make the required observations or otherwise act as set forth in Section 3.8 (a) - (d), shall not a) give rise to or impose any duty or responsibility on it to make those observations or perform those services for the benefit of the Lessor or any of its contractors, subcontractors, agents or employees, b) relieve the Lessor from its obligations to perform the construction work in accordance with the drawings, specifications and standards, or c) represent acceptance of defective construction work.

f) During the remodeling or construction of the Leased premises, either party may request remodeling or construction changes, for the purposes of economizing, or Lessee program changes. The Lessor shall submit a complete description and cost estimate for prior written approval to the Real Estate Division of the Department of Technology, Management & Budget, prior to the requested change. If the changes, and any resulting cost differences, are mutually agreed upon in writing by the Lessor, Lessee, and Real Estate Division, the Lessee shall make a lump-sum payment with, or lump-sum deduction from, the first month's rental consideration due the Lessor. Failure to include in the complete itemized cost estimate any cost directly or indirectly incurred as a result of the change constitutes Lessor's waiver of entitlement to such costs, except in the event that the Lessor or Lessor's contractor provides a detailed reservation of its right to additional costs which cannot be reasonably calculated as of the date the cost estimate is submitted.

3.9 - Remodeling of the Leased premises required by any existing or future laws, ordinances, or regulations of the city, village, township, county, state, or federal government, or other public building authority, shall be made by the Lessor, at no expense to the Lessee.

3.10 - In the event that less than ten percent (10%) of the replacement value of the Leased premises are damaged or destroyed by any casualty insured under the Lessor's insurance policy, the Lessor shall at its own expense, as speedily as circumstances permit, repair said damage and restore the Leased premises to its prior condition, within thirty (30) days notice after the damage or destruction. In the event that between ten percent (10%) and fifty percent (50%) of the replacement value of the Leased premises are damaged or destroyed by any casualty insured under the Lessor's insurance policy, the Lessor shall at its own expense, as speedily as circumstances permit, repair said damage and restore the Leased premises to its prior condition, within ninety (90) days notice after the damage or destruction. In the event that more than fifty percent (50%) of the replacement value of the Leased premises are damaged or destroyed by any casualty insured under the Lessor's insurance policy, the Lessor shall have the option of repairing or reconstructing, or canceling this Lease, which option shall be exercised within ninety (90) days after the damage or destruction. This covenant is cross referenced in Articles IV, V and XI.

3.11 - The Lessor shall not rent or otherwise occupy any adjoining space which is or becomes vacant on the Leased premises known as **School for the Deaf and Fay Academy and Stevens Hall Campus** during the term of this Lease or any extensions thereof, without first offering for a period of ten (10) days, the space to the Lessee at the same rental proposed for a third party, or if Lessor intends to occupy the space, at the Lessee's current rental rate and under the same terms and conditions found in this Lease.

3.12 - The Lessor shall comply with the Elliott-Larsen Civil Rights Act, 1976 PA 453, as amended, MCL 37.2101 et seq, the Persons with Disabilities Civil Rights Act, 1976 PA 220, as amended, MCL 37.1101 et seq, and all other federal, state and local fair employment practices and equal opportunity laws and covenants that it shall not discriminate against any employee or applicant for employment, to be employed in the performance of this real estate contract, with respect to his or her hire, tenure, terms, conditions, or privileges of employment, or any matter directly or indirectly related to employment, because of his or her race, religion, color, national origin, age, sex, height, weight, marital status, or physical or mental disability that is unrelated to the individual's ability to perform the duties of a particular job or position. The Lessor agrees to include in every subcontract entered into for the performance of this real estate contract this covenant not to discriminate in employment. A breach of this covenant is a material breach of this real estate contract. This covenant is cross referenced in Article XI.

3.13 - The Lessor shall have the right to specify positioning of safes or other concentrated loads, that do not exceed the structural loading capacities, in the floor design layout.

3.14 - The Lessor shall, within forty-five (45) days after transfer of its ownership interest in the Leased premises, provide notice to the Lessee of said transfer so that the Lessee can calculate the amount of the potential increase in real estate taxes as a result of such transfer.

3.15 – **Deleted, not applicable**

3.16 – Time extension requests must be submitted in writing to Lessee each month in which the Lessor believes he/she is entitled to more time. Such requests shall detail the length of time extension requested and indicate why the Lessor believes more time is warranted. Lessee will respond to such requests and may extend the timeframe allowed for substantial completion. If no time extension is requested in writing, it will be assumed that no additional time is needed and no timeframe extension will be allowed for that month.

3.17 – The Lessor shall permit the Lessee to display public notifications of applicable public meetings as required by 1976 PA 267, as amended, MCL 15.261 et seq, in public lobby areas of the building wherein the Leased premises are located, in a manner consistent with the decor of the public lobby areas. Any display cases or other means used to display such public notifications shall be at the Lessee's expense.

3.18 – Lessee requires that all newly constructed buildings leased by the State of Michigan shall be designed and constructed in accordance with the Leadership in Energy and Environmental Design (LEED) Green Building Rating System developed by the United States Green Building Council and complies with Energy Star® designation.

3.19 - In all contracts for the construction or renovation of the Leased Premises, the Lessor must include a provision stating that the rates of wages and fringe benefits to be paid to each class of construction mechanics by the Lessor's General Contractor, all of the General Contractor's Subcontractors, and all lower tier Subcontractors shall not be less than the wage and fringe benefit rates issued by the Michigan Department of Energy, Labor & Economic Growth, Wage and Hour Division in its schedule of occupational classification and wage and fringe benefit rates for the locality in which the work is to be performed. "Construction mechanic" means a skilled or unskilled mechanic, laborer, worker, helper, assistant, or apprentice working on the construction or renovation of the Leased Premises but shall not include executive, administrative, professional, office, or custodial employees. The Lessor or the Lessor's General Contractor must keep posted on the construction or renovation site, in a conspicuous place, a copy of all prevailing wage and fringe benefit rates and the address and telephone number of the Michigan Department of Energy, Labor & Economic Growth's Wage and Hour Division, currently 6546 Mercantile Way, Suite 5, P.O. Box 30476, Lansing, Michigan 48909-7976, Phone: (517) 335-0400 and a notice that as the intended beneficiaries of 1965 PS 166, as amended, MCL 408.551, et seq., construction mechanics who have not been paid in accordance with the Act may file a claim with the Department of Energy, Labor & Economic Growth. The Lessor or the Lessor's General Contractor must keep an accurate record showing the name and classification of each person performing work on the site, the dates on which work was performed, the hours each person worked on the site, and the actual hourly wages and benefits paid to each person. This record must be made available for inspection by the Department of Technology, Management & Budget and/or the Michigan Department of Energy, Labor & Economic Growth, at any time, upon request.

ARTICLE IV - LESSEE OBLIGATIONS, DUTIES, and OPTIONS

4.1 - The Lessee shall furnish:

a) **Deleted, Not Applicable.**

b) **Deleted, Not Applicable.**

c) **Deleted, Not Applicable.**

d) **Deleted, Not Applicable.**

e) **Deleted, Not Applicable.**

f) **Deleted, Not Applicable.**

g) Telecommunications system and equipment.

h) **Deleted, Not Applicable.**

i) Reimbursement to the Lessor, for any repairs to the Leased premises, from damage that exceeds the normal wear and tear expected from the lawful and proper use of the Leased premises, and the sole cause of which was the negligent acts or omissions of the Lessee's employees, agents, wards, clients, or customers.

j) Maintenance of: **None**.

k) Deleted, not applicable

4.2 - The Lessee shall give detailed written notice to the Lessor, and if applicable, to the Lessor's mortgagee, of the need for any maintenance which is the obligation of the Lessor pursuant to Article III. This provision is cross referenced in paragraphs 3.1(s), 5.15, and 5.17.

4.3 - a) The Lessee shall have the option to add tenant improvements to the Leased premises during this Lease or any extension at the Lessee's expense. The tenant improvements to the Leased premises shall be and remain the property of the Lessee, and may be removed by the Lessee prior to cancellation or termination of this Lease. In the event the Lessee exercises its option to remove any tenant improvements to the Leased premises under this paragraph upon cancellation or termination of this Lease, the Lessee shall restore or otherwise return the Leased premises to the Lessor in an "as found" condition, except for normal wear and tear, unless otherwise agreed upon in writing.

b) In the event the Lessee removes any fixtures, finishes, additions, or structures owned by the Lessor, placed in or attached to the Leased premises, upon termination or cancellation of this Lease, the Lessee shall restore or otherwise return the Leased premises to the Lessor in an "as found" condition, except for normal wear and tear, unless otherwise agreed upon in writing.

4.4 - All tenant improvements by the Lessee, made pursuant to paragraph 4.3, shall be performed in a manner customarily accepted by the skilled trades, and in accordance with all federal, state, and local rules, ordinances, laws, codes, or nationally recognized standards of good construction practice.

4.5 - Upon cancellation or termination of this Lease, the Lessee shall clean the Leased premises to "broom-clean condition", and shall remove all furnishings **supplied by the State** from the Leased premises. Furnishings remaining in or on the Leased premises after the cancellation or termination effective date shall be considered abandoned property, and the Lessee shall be obligated to pay the Lessor for all reasonable removal costs.

4.6 - The Lessee shall be responsible to request and obtain any local government sign ordinance variances and the payment of any related fees.

4.7 - In the event the Lessor fails to proceed with repairs necessitated by damage or destruction that is fifty percent (50%) or less, as referenced in paragraph 3.10, the Lessee may proceed, after affording insurance surveyors or adjusters opportunity to inspect the damages, with repairs for the account of and at the expense of the Lessor.

4.8 - If the Lessee records this Lease with the county register of deeds, the Lessee shall record a discharge or notice of cancellation or termination of Lease within thirty (30) days after the cancellation or termination of this Lease is effective. The discharge from the public record shall include any recorded amendments to this Lease.

4.9 - The Lessee shall close all open windows, skylights, doors, or other exterior openings to the Leased premises, within the control of the Lessee, to avoid possible damage from fire, storms, rain, or freezing, when leaving the Leased premises at the close of the business day, or prior to any times when the Leased premises shall be unoccupied.

4.10 - The Lessee shall not permit:

a) Bicycles, mopeds, or other vehicles used for personal transportation, to be stored within the Leased premises or other common areas, unless otherwise specifically authorized elsewhere in this Lease, or agreed upon in writing with the Lessor.

b) Any items to be attached to suspended acoustical ceiling grids.

c) Access to any roof or overhang structure, except as under emergencies to maintain the roof moisture barrier or any rooftop mechanical system affecting the Leased premises.

ARTICLE V - RENT CONSIDERATION

5.1 - Rent consideration installment payments shall be made during the month for which the installment applies.

5.2 - If the Leased premises are not ready for possession by the date established in paragraphs 2.4 and 3.6, the Lessee shall not be responsible for rent until taking possession, nor shall the Lessee waive any claims to damages which the Lessee may have suffered.

5.4 – The Lessee shall pay to the Lessor as annual rent consideration for the Leased premises from 12:01 a.m. **June 1, 2017**, through 11:59 p.m. **May 31, 2022**, at the rate of **Two Million One Hundred Eighty Three Thousand Six Hundred and 00**/100 dollars ($**2,183,600.00**) per year, payable in installments of **One Hundred Eighty One Thousand Nine Hundred Sixty Seven and 00**/100 dollars ($**181,967.00**) per month.

The Lessee shall pay to the Lessor as annual rent consideration for the Leased premises from 12:01 a.m. **June 1, 2022**, through 11:59 p.m. **May 31, 2027**, at the rate of **Two Million Three Hundred Fourteen Thousand Six Hundred Twenty and 00**/100 dollars ($**2,314,620.00**) per year, payable in installments of **One Hundred Ninety Two Thousand Eight Hundred Eighty Five and 00**/100 dollars ($**192,885.00**) per month.

The Lessee shall pay to the Lessor as annual rent consideration for the Leased premises from 12:01 a.m. **June 1, 2027**, through 11:59 p.m. **May 31, 2032**, at the rate of **Two Million Four Hundred Fifty Three Thousand Four Hundred Ninety Seven and 00**/100 dollars ($**2,453,497.00**) per year, payable in installments of **Two Hundred Four Thousand Four Hundred Fifty Eight and 00**/100 dollars ($**204,458.00**) per month.

5.5 - In the event the Lessee exercises the renewal option pursuant to Article II, paragraph 2.5, the Lessee shall pay to the Lessor as rent consideration for the Leased premises from 12:01 **June 1, 2032** through 11:59 p.m. **May 31, 2042 at the rate of Five Hundred Thousand and 00/100** dollars **($500,000.00)** per year, payable in installments of **Forty One Thousand Six Hundred Sixty Seven** and **00/100** dollars **(41,667.00)** per month**, plus all operational, and utility and property taxes, insurance and maintenance expenses which are to be included in the rent and to be substantiated by invoice for this and any future renewal options.**

5.10 - **Deleted, Not Applicable**

5.11 - **Deleted, Not Applicable**

5.12 - **Deleted, Not Applicable**

5.13 - **Reserved**

5.14 - **Reserved**

5.15 - If the Lessor fails to provide maintenance or complete the remodeling or construction, as referenced in Article III, the Lessee may provide the required maintenance, or complete the required remodeling or construction, and deduct the costs from future rent consideration payments due the Lessor.

5.16 - If the Lessor fails to provide supporting documentation or warranties, as required by Article III, four percent (4%) of the monthly rent consideration shall be held by the Lessee, until the required documentation is provided to the Lessee.

5.17 - The Lessee shall be entitled to an abatement of rent consideration for the period during which the Leased premises are rendered untenantable or incapable of the use for which the premises were leased as described in paragraph 1.10. In the event that only a part of the Leased premises are untenantable or incapable of such use, the rent shall be reduced in proportion to the entire area rented by the Lessee. This covenant is cross referenced in Articles III, IV and XI.

5.18 - Any rent consideration prepaid in advance to the Lessor, shall, upon damage or destruction as identified in paragraph 3.10, be repaid by the Lessor to the Lessee, within thirty (30) days of cancellation.

ARTICLE VI - LESSEE OPTION TO PURCHASE

6.1 - For purposes of this Article VI only, the Lessor shall be defined as the "Seller" and the Lessee shall be defined as the "State".

6.2 - The Seller hereby grants to the State the exclusive right and option to purchase the Leased premises described in paragraphs 2.1 and 2.2 (for purposes of Article VI, referred to as the "Premises"), and all rights, title, and interest presently held and subsequently acquired therein.

(Legal Description)

6.3 - This option to purchase may be exercised by the State only:

a) Anytime after the **seventh** full year of possession.

6.4 - Written notice of the exercise of this option to purchase shall be made by the State, as found in paragraph 12.1.

6.5 - The total purchase price shall be the fair market value of the land, structures and improvements thereto, as described in paragraphs 2.1 and 2.2 **as long as the fair market value is not less than the debt owed**.

6.6 - Fair market value shall be determined by an independent fee appraiser who is licensed by the State of Michigan as a State Certified Real Estate Appraiser, under the authority of 1980 PA 299, as amended, MCL 339.101 et seq. (Occupational Code).

6.7 - The State shall contract and pay for an independent fee appraisal to determine fair market value. However, if the Seller does not agree with the fair market value established by the State's appraisal, the Seller shall, at the Seller's expense, contract for a second fair market value appraisal by an independent fee appraiser who is licensed by the State of Michigan as a State Certified Real Estate Appraiser, under the authority of 1980 PA 299, as amended, MCL 339.101 et seq (Occupational Code). The State and the Seller shall promptly notify each other of the estimated time to obtain an appraisal. The State and the Seller shall promptly submit their respective appraisals to each other, but in no event later than thirty (30) days after receipt of the appraisal. If there is a difference between the first and second appraisal of ten percent (10%) or less, the State and the Seller shall split the difference in value. If there is a difference between the first and second appraisals of more than ten percent (10%), the State shall contract for a review appraisal, of the first and second appraisals. The review appraisal determination shall be binding upon the State and the Seller. The cost of the review appraisal shall be split equally by the State and the Seller.

6.8 – Fair Market Value shall be determined with a market appraisal, by the income method, by an independent fee appraiser. The income stream could exclude the lower than market rent, set forth for the option period.

6.9 - If the State exercises its option to purchase the Premises, the Seller shall, within ten (10) days thereafter, furnish and deliver to the State's attorney a commitment for title insurance with coverage in an amount at least equal to the amount of the taxable value. The commitment for title insurance shall evidence good and marketable title in fee simple absolute to the Premises to be vested in the State and shall be conditioned only upon delivery of a sufficient warranty deed from the Seller to the State. The Seller shall take all actions required by such commitment for title insurance to remove exceptions to coverage for liens, mortgages, and all other similar encumbrances prior to closing. The commitment can include easements for utilities and such other permitted encumbrances that are of record at the date of possession and approved by the State. The Seller shall update the amount of coverage to the fair market value as determined in paragraph 6.7 prior to closing.

6.10 - If objection to the title is made, based upon a written opinion of the State's attorney that the title is not in the condition as required for performance hereunder, the Seller shall have thirty (30) days from the date they are notified in writing of the particular defects claimed to remedy the title to the satisfaction of the State's attorney. If the Seller fails to remedy the defect within said thirty (30) days, this option, in the discretion of the State, may be considered null and void and the parties relieved from any and all liability thereunder or the State may proceed to have such defect remedied or removed. The Seller shall use its best efforts and shall cooperate with the State to remove any and all title defects so identified.

6.11 - In the event that examination of the title by the State's attorney discloses any easements or restrictions on use of the Premises which would prevent the State from using the Premises for the purposes for which they were to be acquired, the State may at its sole discretion terminate this option and the parties will be thereupon relieved from any and all liability hereunder or the State may proceed to have any easements or restrictions on the use of the Premises removed. If the State is unsuccessful in removing such easements or restrictions, the State may, at its option, terminate this option and the parties will be thereupon relieved from any and all liability hereunder. The Seller shall use its best efforts and shall cooperate with the State to remove any and all restrictions on the use of the Premises.

6.12 - If the Premises are not free and clear of and from all defects, liens and encumbrances, the Seller shall remove all defects, liens and encumbrances on or before the date that the warranty deed is to be delivered. The documents referred to above shall collectively demonstrate no unpaid delinquent taxes assessed against the Premises in question or against the Seller. The Seller shall also furnish to the State's attorney, if the Premises are being sold on a land contract, a copy of the land contract, or assignment of land contract, with payment record showing all interest and principal paid to date with a clearly stated outstanding principal balance thereon.

6.13 - Transfer of title to the Premises described in paragraphs 2.1 and 2.2 shall be effected by warranty deed conveying a good and marketable title in fee simple absolute to the Premises, including title to all fluid, mineral and gas rights, buildings, structures, trees and other improvements thereon. The title is to be free and clear from all liens and encumbrances. The warranty deed shall be delivered to the State upon payment of the full purchase price.

6.14 - Unless instructed to do otherwise by the Seller, the State shall deliver to the Seller, at the time set for delivery of the warranty deed, a State warrant payable to the Seller.

6.15 - If this option is exercised, the Seller shall deliver possession of the Premises in vacant condition and free of all possessory interests (except this Lease), including tenancies, licenses, and others lawfully or unlawfully upon the Premises, in as good condition as it now is, reasonable wear and tear excepted, upon execution and delivery of the warranty deed. Warranties for structural systems, materials, and equipment received by the Seller, whether expressed or implied, including but not limited to warranties of merchantability and fitness for a particular purpose, shall be assigned to the State by the Seller upon delivery of possession to the State.

6.16 - The Seller acknowledges responsibility for payment of any state or local real estate transfer taxes. Such obligation shall be discharged no later than the time of delivery of the warranty deed to the State. The warranty deed shall be delivered to the State of Michigan either with stamps affixed or accompanied by a check(s) payable to the County Register of Deeds in the amount of such taxes.

6.17 - The Seller shall be responsible for paying the cost of recording discharges of mortgages, documents terminating liens, quit-claim deeds, or other documents required by law or requested by the State's attorney to clear defects in the title. The State shall be responsible for paying the cost of recording the warranty deed delivered by the Seller.

6.18 - Real property taxes shall be pro-rated as provided in 1893 PA 206, as amended, MCL 211.2 et seq. (General Property Tax Act). The Seller shall further be responsible for any other real property taxes, which become a lien upon the property in any year prior to the calendar year in which title passes to the State. Should any special assessments be made against the property, the Seller shall be responsible for the payment of all assessments or installments of assessments which become due before the day title passes to the State.

6.19 - The Seller agrees not to do, or suffer others to do, any act by which the value or title to the Premises may be diminished or encumbered. The Seller further covenants and binds itself, its successors, and assigns to carry out the terms of this option.

6.20 - **Reserved**

6.21 - If this option is exercised, the State may, at its sole discretion, require the Seller to undertake an environmental assessment of the Leased premises, satisfactory to and for the benefit of the State, that is adequate to establish the liability exemption and defenses available in Sections 20126 (1)(c) and 20126 (3)(h) of the Natural Resources and Environmental Protection Act (NREPA), MCL 324.20126(1)(c) and 324.20126(3)(h) and Section 107(b)(3) of the Comprehensive Environmental Response Compensation Liability Act, 42 USC 9607(b)(3), that the Leased premises, and the property on which the Leased premises is located, do not contain a concentration of any hazardous substance above applicable criteria. The environmental assessment shall be in addition to the environmental assessment referenced in paragraph 3.3(a) of this Lease. If, based upon the environmental assessment undertaken as a part of this option, a release or threat of a release is discovered, the State may, at its sole discretion, terminate this option and be relieved of any liability under Article VI. Nothing in this paragraph shall relieve the Lessor/Seller of its obligations under paragraph 3.3 of this Lease.

ARTICLE VII - EMINENT DOMAIN/CONDEMNATION

7.1 - The Lessor shall notify the Lessee within ten (10) days of the commencement of eminent domain/condemnation proceedings against the Leased premises described in paragraphs 2.1 and 2.2 by a public agency authorized by law to condemn property. The Lessor shall timely notify the Lessee of the Lessor's intent to contest eminent domain/condemnation

proceedings. The Lessor shall notify the Lessee within ten (10) days of acquisition by eminent domain/condemnation of the Leased premises described in paragraphs 2.1 and 2.2 by a public agency.

7.2 - If a total taking of the Leased premises by any public authority under the power of eminent domain/condemnation occurs, then the term of this Lease shall cease as of the day of possession and the rent shall be paid up to that day with a proportionate refund by the Lessor of such rent as may have been paid in advance for a period subsequent to the date of the taking. This covenant is cross referenced in Article XI.

7.3 - If a partial taking of the Leased premises by any public authority under eminent domain/condemnation occurs, the Lessee shall have the right either to terminate this Lease and declare same null and void, or, subject to the Lessor's right of termination as set forth below, to continue in possession of the remainder of the Leased premises, and shall notify the Lessor in writing within ten (10) days after such taking of the Lessee's intention. In the event the Lessee elects to remain in possession, all of the terms herein provided shall continue in effect, except that the fixed annual rental shall be reduced in proportion to the amount of the Leased premises taken and the Lessor shall, at its own cost and expense, make all the necessary repairs or alterations to the building, as originally installed by the Lessor, so as to constitute the remaining Leased premises a complete architectural unit.

7.4 - If more than fifty (50%) percent of the Leased premises are taken under the power of eminent domain/condemnation, the Lessor may, by written notice to the Lessee delivered on or before the date of surrendering possession to the public authority, terminate this Lease.

7.5 - All damages awarded for either a total or partial taking under the power of eminent domain/condemnation, of the Leased premises, including fee title, described in paragraphs 2.1 and 2.2 shall belong to and be the property of the Lessor, except damages awarded as compensation for diminution in value to the leasehold interest which shall belong to and be the property of the Lessee. The Lessee shall be entitled to all damages and costs flowing from its loss of the leasehold interest including, but not limited to, loss of the value of the remaining terms of the Lease, the economic value of the Lease, depreciation and cost of removal of the Lessee's supplies and fixtures, and relocation cost.

ARTICLE VIII - ESTOPPEL

8.1 - The Lessee shall, within fourteen (14) days of receipt of a request by the Lessor, pursuant to paragraph 12.1, certify, to the extent the Lessee believes the information to be true and deliver to the Lessor an executed estoppel certificate (Enclosure "D"). The Lessee's failure to deliver such statement shall be conclusive upon the Lessee that:

a) This Lease is in full force and effect without modification except as may be represented by the Lessor,

b) There are no uncured defaults in the Lessor's performance,

c) Not more than one (1) month's rent has been paid in advance.

ARTICLE IX - Deleted, Not Applicable

ARTICLE X - LESSOR'S MORTGAGEE

10.1 - For purposes of this Article, the term "Lessor's mortgagee" means any party of record holding a mortgage or deed of trust on the Leased premises described in paragraphs 2.1 and 2.2, or any part thereof. The Lessor shall give the Lessee written notice that such party holds such lien or deed of trust, and written evidence of the date the mortgage or deed of trust was executed, together with notice of the address of Lessor's mortgagee. A lien held by a Lessor's mortgagee on the Leased premises, or any portion thereof, is herein referred to as a "Lessor's mortgage".

10.2 - Pursuant to paragraph 10.1, the Lessor has disclosed all mortgages or deeds of trust affecting the Leased premises set forth in paragraphs 2.1 and 2.2 which exist as of the execution date of this Lease. If a mortgage or deed of trust exists or existed, as of the execution date of the original Lease, the Lessor shall cause each mortgagee to execute in favor of the Lessee the Nondisturbance Agreement, attached as Enclosure "E", whereby said mortgage agrees that it will not disturb the Lessee's tenancy in the event of foreclosure or other succession to the interest of the Lessor. Enclosure "E" shall be executed before this Lease becomes effective. Any mortgage is to be subordinate to this Lease, and any future amendment thereto unless specifically provided otherwise in writing.

10.3 - If the Leased premises are at any time during the term of this Lease subject to a Lessor's mortgage, then, whenever the Lessee gives notice to the Lessor alleging default by the Lessor in performance of any covenant or obligation under this Lease, the Lessee shall simultaneously give a copy of such notice to the Lessor's mortgagee (at the address of the Lessor's mortgagee provided pursuant to paragraph 10.1). Lessor's mortgagee shall have the right (but not the obligation) to cure or remedy Lessor's default during the same time period that is permitted to the Lessor hereunder for the remedying or curing of such default. Lessee will accept such curative or remedial action taken by a Lessor's mortgagee with the same effect as if such action had been taken by the Lessor. Any claims for damages by the Lessee shall not be waived by the Lessor's mortgagee's corrective or remedial action.

10.4 - In the event that the Lessor's mortgagee of record (or any other party) shall acquire title to the Leased premises or shall succeed to the Lessor's interest in this Lease, whether through foreclosure of the Lessor's mortgage, conveyance in lieu of foreclosure, or otherwise (collectively, a "foreclosure"), the Lessor's mortgagee (or other such party) shall thereupon, and without the necessity of attornment or other act or agreement, be substituted as the Lessee's landlord under this Lease, and shall be subject to the obligations thereof. The rights acquired by the Lessor's mortgagee are subordinate to this Lease and all of the Lessee's rights under the Lease continue undisturbed.

ARTICLE XI - CANCELLATION

11.1 – **This Lease may be cancelled by the Lessee if the Lessor is notified in writing at least ninety (90) days prior to the effective date of cancellation and any one of the following occur:**

a) - There is a specific prohibition arising out of the appropriation process against using funds for this Lease; or

b) - The Legislature fails to appropriate funds for the purpose of paying rent under this Lease.

c) - The parties expressly acknowledge that the State can only commit funds in the fiscal year that they are available and that commitment of funds for future fiscal years is contingent upon enactment of legislative appropriations. The parties further acknowledge that the State has no continuing legal or moral obligation to appropriate money for the payments to be made, or other obligations to be performed, under this Lease.

11.2 - **This Lease may be cancelled by the Lessee during any subsequent renewal option periods beginning June 1, 2032 if:**

a) The Lessor is notified in writing at least ninety (90) days prior to the effective date of cancellation.

11.3 - This Lease may be cancelled by the Lessee provided the Lessor is notified in writing at least thirty (30) days prior to the effective date of cancellation and any one of the following occur:

a) The Lessor or any subcontractor, manufacturer or supplier of the Lessor appears in the register compiled by the Michigan Department of Labor pursuant to 1980 PA 278, as amended, MCL 423.321 et seq. (Employers Engaging in Unfair Labor Practices Act).

b) The Lessor or any subcontractor, manufacturer or supplier of the Lessor is found guilty of discrimination, pursuant to 1976 PA 453, as amended, MCL 37.2101 et seq. (Elliott-Larsen Civil Rights Act); or 1976 PA 220, as amended, MCL 37.1101 et seq. (Persons with Disabilities Civil Rights Act). This covenant is cross referenced in Article III.

c) The Leased premises do not comply with the barrier free design requirements of 1966 PA 1, as amended, MCL 125.1351 et seq. (Utilization of Public Facilities by Physically Limited). This covenant is cross referenced in Article III.

d) The Leased premises are taken for a public purpose by eminent domain/condemnation proceedings by a governmental unit. This covenant is cross referenced in Article VII.

e) The Lessee's use of the Leased premises is in violation of local adopted ordinance, or recorded deed restrictions.

f) The Lessee acquires fee title to the Leased premises in paragraphs 2.1 and 2.2. This covenant is cross referenced in Article VI.

g) The Lessor fails to maintain the Leased premises in a tenantable condition, described in and subject to the notice provision in paragraph 3.1(s). The Lessee shall provide detailed written notice to the Lessor, of not less than thirty (30) days, to correct defaults.

h) The Lessor fails to repair or restore the Leased premises for damage specified in paragraph 3.10. This covenant is cross referenced in Articles III, IV, and V.

i) The Lessor fails to deliver the Leased premises, according to the plans, specifications, and timeframe for remodeling or construction, found in paragraph 3.6.

j) Damage or destruction, specified in paragraph 3.10, is so extensive as to constitute a total destruction of the Leased premises. This covenant is cross referenced in Articles III, IV and V.

11.4 - This Lease may be cancelled by the Lessor if the Lessee is notified in writing at least sixty (60) days prior to the effective date of cancellation and any one of the following occur:

a) Damage or destruction to the Leased premises exceeds fifty percent (50%) of the replacement value of the Leased premises, as referenced in paragraph 3.10. This covenant is cross referenced in Articles III, IV and V.

b) The Leased premises are taken by eminent domain/condemnation proceedings, as referenced in Article VII.

ARTICLE XII - NOTICE, APPLICATION, AND APPROVALS

12.1 - Any notice to Lessee required by this Lease shall be complete if submitted in writing and transmitted by personal delivery (with signed delivery receipt), or certified or registered mail return receipt requested. Unless either party notifies the other in writing of a different mailing address, notice to the Lessor and/or Lessee shall be transmitted to:

The notice shall be deemed effective as of Noon, Eastern Time on the third business day following the date of mailing, if transmitted by mail. Business day is defined as any day other than a Saturday, Sunday, legal holiday, or day preceding a legal holiday. A receipt from a U.S. Postal Service, or successor agency, performing such function shall be conclusive evidence of the date of mailing.

12.2 - This Lease shall be interpreted in accordance with the laws of the State of Michigan.

12.3 - This Lease shall be binding upon and to the benefit of the heirs, executors, administrators, and assigns of the Lessor; and upon and to the benefit of the assignees and sublessees of the Lessee.

12.4 - This Lease shall not be binding or effective on either party until approved (and notarized as necessary) by the Lessor, Lessee, Department of the Attorney General, Department of Technology, Management & Budget, Building Committee of the State Administrative Board, and the State Administrative Board. If this Lease or any subsequent amendments to it fall within the requirements of 1984 PA 431, as amended, MCL 18.1101 et

seq. (Management and Budget Act), this Lease and any subsequent amendments to it shall also require approval of the Joint Capital Outlay Subcommittee of the Legislature.

12.5 – **Deleted, no applicable**

12.6 - Should any provision of this Lease or any addenda thereto be found to be illegal or otherwise unenforceable by a court of law, such provision shall be severed from the remainder of the Lease, and such action shall not affect the enforceability of the remaining provisions of the Lease.

12.7 - This Lease, with all enclosures and attachments as listed below, constitutes the entire agreement between the parties with regard to this transaction and may be amended only in writing and executed in the same manner as this Lease was originally executed, as under paragraph 12.4.

12.8 - Electronic Funds Transfer (EFT): Public Act 533 of 2004 requires that payments under this Lease be processed by electronic funds transfer (EFT). Lessor is required to register to receive payments by EFT at the Contract & Payment Express website (www.cpexpress.state.mi.us).

SAMPLE ESTOPPEL CERTIFICATE

Date

Lessor Name/Mailing Address

Attn: Name of Lessor

Subject: Department of Xxxxxxxxxxx, Located at 1445 Xxxxxxxxxxx Avenue, Anytown, Michigan (#1234)

A review of the lease between Xxxxxxxxxxxxxxxxxxx and the State of Michigan for the above facility has been requested. Information obtained from this review might be used in negotiations for a possible change in ownership or financing of the facility.

The undersigned [is/is not] in possession as a tenant of certain rental space situated at [address of premises], Michigan, consisting of x,xxx square feet of [office/ warehouse/ residential/ (other)] space with a monthly rental of $xx,xxx.xx. In connection therewith, the undersigned represents as follows:

The Leased premises [are/ will be] occupied pursuant to a certain written Lease dated [month/ day/ year] between the State of Michigan, as Lessee and [Lessor's name], a [corporation/ partnership/ trust/ estate etc.] as Lessor. Such Lease is presently in full force and effect [and has been amended "x" times].

The term of possession provided in the Lease [commenced/ commences] on [month/ day/ year] and expires on [month/ day/ year]. Renewal options are provided which can be exercised to extend possession to [month/ day/ year]. [Actual possession took place on [month/ day/ year] at which time rental payments started]. [An agreement [was/ was not] written to change the Lease dates to coincide with the date of possession].

This Lease [may] contain(s) a [lump-sum/ rental rate] adjustment clause for [liability insurance/ real property taxes/ other].

The undersigned [has/ has not] accepted possession of the Leased premises. Obligations or improvements required by the terms of said Lease, to be furnished or made by the Lessor to the premises, have been completed to date to the satisfaction of the undersigned with the exception of the following items:

1. [items listed here], 2. etc., and 3., etc.

The most recent rent paid to the Lessor or Lessor's agent was for the month of Xxxxxx; no rent has been paid more than thirty days in advance of its due date. There is no security deposit. The last payment of its proportionate share of real property taxes and insurance was made by the undersigned to the Lessor on [month/ day/ year] as a part of the regular monthly rental payment; no such payment has been made more than thirty days in advance of its due date.

The State [pays utilities directly with the exception of water and sewer service; proportional payment for water and sewer service made directly to the Lessor upon presentation of a billing document from the city. Common area expenses are paid as a part of the monthly rental].

The undersigned knows of no default or breach of the Lease by either the Lessor or State except obligations or improvements listed above - if any. The Lessor holds no deposit or other property of the State. There are no offsets, claims, or rent deductions except those which might be made by the State by its Department of Xxxxxxxxxx. The Lessor should contact [name of State agency contact person] for information about rent deductions. The Lease (as amended) represents the entire agreement between the parties as to the Leased premises.

Sincerely,
Terri L. Fitzpatrick
Director, Real Estate Division

Enclosure "E" to Lease #**11530-2010** by and between **Lurvey White Ventures 1, LLC**, as Lessor and the State of Michigan for the Department of **Education**

SAMPLE NONDISTURBANCE AGREEMENT

This Agreement between , hereinafter called "Mortgagee," the State of Michigan by the Department of Technology, Management & Budget for the Department of , hereinafter called "Lessee," and , hereinafter called "Lessor," which terms "Lessor," "Lessee," and "Mortgagee" shall include the successors and assigns of the respective parties.

THE FOLLOWING is a recital of facts underlying this Agreement:

By State Lease #*****, [as amended], which is by reference made a part of this Agreement (hereinafter the Lease), Lessor in consideration of the rents reserved therein, and of the terms, covenants, conditions, and agreements set forth in the Lease, has demised and let to Lessee, and Lessee has leased from Lessor, certain premises described in Lease paragraphs 2.1 and 2.2, located in _____, for an original term extending until (date), and for any exercised extensions.

Mortgagee is the holder of a mortgage made by (name of Lessor), dated _____ which mortgage covers the real property described in Lease paragraphs 2.1 and 2.2 and buildings thereon, and other property, rights, franchises and privileges more particularly described in the Mortgage (which collectively are herein called the "Mortgaged Property").

Lessor is the owner and holder of title to the Mortgaged Property.

Mortgagee shall recognize Lessee's rights under the Lease in the event of a foreclosure of Mortgagee's lien.

The parties agree as follow:

So long as Lessee is not in default (beyond any period given Lessee to cure such default) in the payment of rent or additional rent, or the performance of any other terms, covenants, or conditions of the Lease, Lessee's possession under the Lease and Lessee's rights and privileges thereunder, or under any extensions or renewals thereof that may be affected in accordance with any option contained in the Lease, shall not be diminished or interfered with by Mortgagee. (The term "Mortgagee" shall include any purchaser at a foreclosure sale). Lessee's occupancy shall not be disturbed by Mortgagee during the term of this Lease or any extensions or renewals thereof.

As indicated in Lease Article X, when Mortgagee is substituted as the Lessee's Lessor, Mortgagee is subject to the obligation of the Lease including any amendments to the Lease. It is the intention of the parties hereto to incorporate the Lease into this Agreement by reference with the same force and effect as if set forth fully verbatim herein.

IN WITNESS WHEREOF, the parties hereto have executed this Agreement the day and year first above written.

LEASE

State Lease #**11530**-2010

between

Lurvey White Ventures 1, LLC, as Lessor
a Michigan Limited Liability Company

and

THE STATE OF MICHIGAN, as Lessee

THIS LEASE is entered into by **Lurvey White Ventures 1, LLC**, as Lessor, whose address is **503 South Saginaw Street, Suite 1500, Flint, Michigan 48502**, and the State of Michigan by the Department of Technology, Management & Budget for the Department of **Education**, as Lessee.

The parties, for the considerations specified in this Lease, agree to the following terms, conditions, and covenants:

ARTICLE I - DEFINITIONS

1.1 - A.N.S.I.: American National Standards Institute, Inc., a New York corporation that identifies public requirements for national standards and coordinates voluntary standardization activities. A.N.S.I. standards are used in calculating square footage used in this Lease.

1.2 - Cancellation: Ending all rights and obligations of the Lessor and Lessee, except for any rights and obligations that are due and owing.

1.3 - Construction: Assembling of foundation, structural, architectural, electrical, and mechanical systems, on the Leased premises, where none existed prior.

1.4 - Executive: An Executive Order of the Governor pursuant to the Constitution 1963, Article 5, § 2 and 20, or a decision by the Director of the Department of Technology, Management & Budget in conjunction with the head of the principal State department or agency for whose use the Lease was entered.

1.5 - Maintenance: That effort, including repair, replacement, or removal, required to keep the Leased premises and the appearance of said Leased premises functioning or operating as originally designed, constructed, or installed, including but not limited to mechanical, electrical, architectural, or civil systems within the Leased premises, outside the Leased premises, or those systems otherwise attached thereto.

1.6 - Occupancy: Actual physical presence by the Lessee in the Leased premises.

1.7 - **Reserved**

1.8 - Possession: Lawful availability and physical access to install the Lessee's furnishings and compliance with paragraphs 3.1(z) and 3.7.

1.9 - Potable water: Water free from impurities present in amounts sufficient to cause disease or harmful physiological effects and conforming in its bacteriological and chemical quality to the requirements of the Public Health Service Drinking Water Standards or the regulations of the public health authority having jurisdiction.

1.10 - Purpose: The purpose for this Lease is **school and campus** space use for the department or agency mentioned in the Lease in the specific geographic location described in paragraph 2.2 of the Lease.

1.11 - Remodel: Includes alterations, renovations, and any related demolition, and is the rearranging of existing architectural, civil, electrical, and/or mechanical systems within the Leased premises. Remodeling does not include enlarging or decreasing of structural or foundation systems, or new construction.

1.12 - State Government Managed: Property management tasks and responsibilities provided or contracted for and managed by a) the State of Michigan; b) any of the several departments, boards, commissions, offices, or agencies of the executive, legislative or judicial branches of state government; c) any institution of higher learning funded in whole or in part by the State of Michigan; or d) any entity created by act of the Legislature as an instrumentality of Michigan State government.

1.13 - State Government Owned: Real property fee title to which is held by a) the State of Michigan; b) any of the several departments, boards, commissions, offices, or agencies of the executive, legislative or judicial branches of state government; c) the State Building Authority; d) any institution of higher learning funded in whole or in part by the State of Michigan; or e) any entity created by act of the Legislature as an instrumentality of Michigan State government.

1.14 - Substantial Completion: The construction work has been completed in accordance with Enclosure C and C-1, to the extent that the Lessee can use or occupy the Leased premises for the use intended, without any outstanding or concurrent work remaining, except as required to complete minor punch list items. The Lessee has the sole discretion to determine whether punch list items are "minor". Prerequisites for substantial completion include (a) receipt by the Lessee of all required operating and maintenance documentation, (b) all systems have been successfully tested and demonstrated by the Lessor for their intended use, and (c) the Lessee has received all required certifications and/or occupancy approvals from the State and any other political subdivisions having jurisdiction over the work. Receipt of all certificates and/or occupancy approvals in and of itself does not necessarily connote substantial completion.

1.15 - Tenantable: Habitable for the effective conduct of the Lessee's intended business.

1.16 - Tenant Improvements: Remodeling, attachment of fixtures, erection of additions, partitions, structures or signs by the Lessee in and upon the Leased premises after the Lessee has acquired possession.

ARTICLE II - POSSESSION

2.1 - The Lessor leases to the Lessee:

- **66,590 usable square feet (New Fay Academy)**
- **6,580 square feet of remodeled area (known as unit 1) attached to Stevens Hall.**
- **36,796 square feet of "as is" dorm room area (known as Stevens Hall) for a total of 43,376 square feet of renovated space.**
- **6,000 square feet of space for a building (known as Living Resource Center)**

For a total of 115,966 usable square feet of school, office and dorm room space. This space shall include seventeen and one half (17.5) acres of land for the exclusive use of Michigan School for the Deaf. These areas shall include an outdoor playground, faculty and visitor parking, bus drop-off area, and football practice field. Shared facilities shall include the existing track and field area, a nature trail located in Happy Hollow, all of which are outlined in the enclosed site plan, referred to as the "Leased premises", which is outlined on a plan attached as Enclosure "A". This square footage is based upon the A.N.S.I. Z65.1 - 1996 method for calculating space.

2.2 - The Leased premises, located on the property described in Enclosure "B" also known as **Michigan School for the Deaf Campus**, in the **City** of **Flint**, County of **Genesee**, State of Michigan.

2.3 - If the Leased premises are available for possession by the Lessee prior to the commencement of the term defined in paragraph 2.4, the Lessee, at its sole option, may possess the Leased premises when the same are available. The Lessor shall provide written notice to the Lessee of such availability. For each day of possession prior to commencement of such term, the Lessee shall pay to the Lessor, at the same time that rent consideration for the first month of the regular term of the Lease is due, 1/365 of the initial annual rent consideration set forth in Article V.

2.4 - The Lessor shall furnish the Leased premises with their appurtenances to the Lessee for a **20-year** initial term of possession beginning upon actual possession or at 12:01 a.m. on **July 1, 2012**, and ending at 11:59 p.m. on **June 30, 2032**, or such later date as provided in paragraph 3.6. If the Leased premises are not ready by the possession date, the beginning and ending dates may be altered by mutual written consent to reflect the correct possession date. If the initial possession date is changed, paragraphs 2.5, 2.6, and Article V shall also be changed accordingly.

2.5 - This Lease may, at the option of the Lessee, be extended beginning at 12:01 a.m. on **July 1, 2032** through **June 30, 2042**.

2.6 - **Deleted, not applicable**

2.7 - **Deleted, not applicable**

2.8 - **Deleted, not applicable**

2.9 - The Lessee may, upon written notice to the Lessor, at least thirty (30) days prior to termination of this Lease or any extension, remain in possession of the Leased premises for the period specified in the notice, not to exceed three months. The Lessee shall pay the Lessor for each month or part of a month a sum equal to 1/12 of the annual rent consideration set forth in Article V.

2.10 - The Lessee may assign this Lease or may sublet the Leased premises in whole or in part, with prior written consent of the Lessor, which shall not be unreasonably withheld. The Lessee, through its Department of Technology, Management & Budget may assign or reassign any or all of the Leased premises to any branch, department, board, agency, commission or other instrumentality of State government without the necessity of obtaining consent of the Lessor. Notwithstanding any assignment or sublease by the Lessee, the Lessee shall remain liable for the payment of all rental payments and the performance of other obligations of the Lessee under the Lease, subject to the terms of this Lease.

2.11 - The Lessee, upon payment of the rental consideration specified in Article V and upon performing all covenants, shall and may peacefully and quietly have, hold, and enjoy the Leased premises for the term of this Lease or any extension.

2.12 - The Lessor or Lessor's agent may enter the Leased premises with reasonable advance notice for the purpose of conducting repairs, preventive maintenance, or providing replacements, as required under Article III.

2.13 - If for any reason relating to ownership of the Leased premises the Lessor is unable to lawfully put and maintain the Lessee in possession of the Leased premises as of the commencement of the term of this Lease or any proper extension thereof, the Lessor shall immediately secure other premises which in the Lessee's sole judgment is substantially equivalent to the Leased premises described herein, at a rental rate to the Lessee which shall not exceed the rental consideration in this Lease.

ARTICLE III - LESSOR OBLIGATIONS

3.1 - The Lessor shall furnish to the Lessee and pay the cost of the following:

a) Heating, mechanical ventilating, cooling, and humidification system capable of providing a temperature range of 68°F to 78°F, measured at 30" above the finished floor, and 12" inside any exterior wall, and a humidification range of 30% to 50%, at all times occupied. Ventilation in restrooms shall be a minimum of 100 cfm, exhausted to the outdoors.

b) Electrical power distribution system throughout the Leased premises, for the operation of all business machinery and equipment.

c) Natural and/or artificial interior illumination that provides a minimum **50** foot-candles, measured at desk level, at all times, throughout the Leased premises. Artificial illumination shall be by incandescent or fluorescent lamps, and shall include tubes, bulbs, starters, ballasts, and fuses used inside the illumination fixture, and the replacement thereof for the Leased premises and common areas.

d) Domestic plumbing system to restrooms and break rooms capable of supplying hot and cold water, and removing sanitary waste water. Hot water delivery shall be not more than 120°F and not less than 110°F, measured at the tap.

e) Potable water shall meet the requirement of the Safe Drinking Water Act, 1976 PA 399, as amended, MCL 325.1001 et.seq.

f) Metered utility costs for electricity, natural gas, water, sewerage, steam, fuel oil, or coal.

g) Adequate roof, vertical, and foundation thermal insulation in accordance with applicable codes.

h) Complete moisture protection from all exterior weather sources, on all sides, floors, and roof of the Leased premises.

i) Sound attenuation between any mechanical system or other tenant in the premises and the Leased premises, which provides not greater than 45dbA sound level readings, under conditions with all Lessee business equipment shut down.

j) Vibration isolation between any mechanical, plumbing, electrical, or other building system attached to and a part of the Leased premises.

k) Any equipment, portable or fixed, including alarm notification systems, required by the local public fire marshal authority.

l) Commercial grade, heavy-duty locking hardware.

Prior to Lessee possession, all doors providing access to the Leased premises shall be rekeyed and **five** (**5**) keys per lock combination shall be provided to the Lessee.

m) Pest control, including but not limited to: insects, rodents, flying animals, etc. Spraying must be performed after business hours or on weekends.

n) Trash removal from office wastebaskets, dumpsters, or equivalent containers.

o) Exterior grounds maintenance, including grass and weed cutting, clippings removal, leaf raking, litter removal, sidewalk surface and parking lot surface maintenance, de-icing, and snow removal. Snow removal is required anytime the accumulated depth is 2" or more, 24 hours after the most recent snowfall, and there shall be a clear path from the handicapper motor vehicle parking spaces to the barrier free entrances.

p) Janitorial supplies, equipment, personnel, and supervision to provide cleaning services as described in Enclosure "**F**".

q) Paved, striped, illuminated, and common motor vehicle parking on the Leased premises, for **100** motor vehicles, including overnight parking for state-owned motor vehicles. The striping on the parking lot shall be repainted **twice per seven year period** during the lease period in the summer by the Lessor. Illumination shall be not less than 2 foot-candles, with a uniformity not greater than 4 to 1, measured on the parking surface. The Lessor shall provide replacement tubes, bulbs, starters, and fuses, i.e., all parts and equipment necessary to provide and maintain this exterior illumination.

r) Leased premises shall comply with the barrier free design requirements of 1966 PA 1, as amended, MCL 125.1351 et seq. (Utilization of Public Facilities by Physically Limited). **This shall apply to all newly constructed and renovated space within the premises as outlined in Enclosure "A".**

s) Complete maintenance of the Leased premises, except for any obligations expressly undertaken by the Lessee set forth in Article IV. The Lessor shall keep the Leased premises in good repair, and able to perform and operate as designed, free from dangerous or defective conditions, and in tenantable condition, and at the Lessor's sole expense, properly and in a manner customarily accepted by the skilled trades, make all repairs and/or replacements, structural or nonstructural, of whatever nature. The Lessor shall provide inspections and preventive maintenance for heating and cooling systems in accordance with manufacturers' standards and any local codes or ordinances. The Lessor shall have a reasonable period of time, not to exceed thirty (30) days after receipt of a detailed written notice from the Lessee, to cure any maintenance defect. Additional time to cure any such maintenance defects may be allowed provided, in the Lessee's discretion, the Lessor proceeds with due diligence both during and after such thirty (30) day period, and the total time period to cure does not exceed ninety (90) days. This provision is cross referenced in paragraphs 4.2, 5.15, 5.17, and 11.3.

t) A listing of all important service or repair contractors to be contacted by telephone by the Lessee for emergency service or maintenance. These emergency telephone numbers shall be used by the Lessee only after attempting contact with the Lessor, given the scope and nature of the emergency. The Lessor shall maintain an updated or otherwise current listing. Lessor's failure to provide the emergency telephone numbers or to notify the Lessee of changes to the current listing shall be considered as authorization for the Lessee to contact an emergency service or maintenance contractor of choice.

u) Full replacement value insurance, for the Leased premises identified in paragraphs 2.1 and 2.2, having only standard exclusions, i.e. for acts of war, nuclear disaster, or civil riots.

v) General premises liability insurance for the Leased premises identified in paragraphs 2.1 and 2.2, which provides full coverage for the Lessor, the Lessee, and their respective agents and employees and which protects against all claims, demands, actions, suits, or causes of action, and judgments, settlements or recoveries, for bodily injury or property damage arising out of a condition of the Leased premises. The Lessor agrees to maintain minimum policy limits in the amount of $500,000.00 per occurrence for property damage, and $1,000,000.00 per occurrence for bodily injury, with a $2,000,000.00 aggregate. The Lessor shall provide to the Lessee a certificate of insurance listing the Lessee, its several departments, boards, agencies, commissions, officers, and employees as additional insureds, within thirty (30) calendar days following execution and delivery of this Lease to the Lessor, and every year thereafter. The insurance policy shall provide that it may not be modified, cancelled, or allowed to expire without thirty (30) days prior written notice given to the Lessee.

w) A written report, not more than sixty (60) days old from the date of first possession, from the local public fire marshal authority, indicating the Leased premises are approved for occupancy. If a renewal option is exercised, the Lessor shall provide the Lessee with an updated report within sixty (60) days from the beginning date of each renewal period.

x) A legible photocopy of the recorded warranty deed, or other instrument conveying current legal possession or title, with right to lease or sublease the Leased premises, as found in paragraphs 2.1 and 2.2, to the Lessor; and copies of all other documents limiting or restricting the use of the Leased premises or affecting title to the lands and Leased premises.

y) A legible photocopy of the current legal entity documents (corporation, partnership, trust, D.B.A., etc.) of the Lessor. This shall include signature authorizations indicating the signatory of this Lease is authorized to act on behalf of the legal entity, in this real estate transaction.

z) A legible photocopy of any certificates of occupancy, as approved by the local public building department or authority, if remodeling or construction is performed in paragraph 3.7.

aa) Legible photocopies of all paid-in-full supporting documents necessary to calculate adjustments to the rental consideration referenced in Article V.

bb) Adequate and easily accessible indoor space in the vicinity of any shipping and receiving docks, areas, or platforms, for the purpose of the placement of holding containers for state-government recyclable materials and supplies, in accordance with 1994 PA 451, as amended, MCL 324.16501 et seq.

cc) New carpeting and ceiling grid pads as needed, during the one hundred eighty (180) days immediately following the start of the tenth (10th) year of possession, and during the one hundred eighty (180) days immediately following the start of the first renewal option, if exercised. The 180-day period is intended as a "window period" only, not as permission to take 180 days to complete the replacement. The carpet and ceiling grid pads shall be of equal or better construction, materials, or grade, as compared to the carpeting and ceiling grid pads used upon initial possession. The Lessor will provide, at Lessor's sole cost, in addition to the carpet, moving or "lifting" of the existing furniture, if necessary; the adhesive for the new carpet, and the replacement of any cove base if damaged.

dd) Security for the Leased space and the scope of security as outlined (please see enclosure "G", schedule) of times the Lessor shall provide security, using and maintaining the same security system currently in place.

ee) Lessor shall deposit Seven Hundred Thousand ($700,000) dollars for the Furniture and IT Allowance as described in "Enclosure H" into an interest bearing account on or before Lessee's occupancy or by June 1, 2012 whichever is earlier. From this allowance the Lessor shall pay the costs related to (i) consultant fees for design and IT professionals; and (ii) equipment and furnishings costs of any kind or nature, up to the amount of the funds in the allowance account upon presentment of invoices by Lessee. The Lessee shall at all times remain the lawful possessor and owner of any items included in (i) and (ii). To the extent that the sum of actual costs associated with items (i) and (ii) of this section is less than this allowance, Lessor shall credit the unused portion of this allowance against the operating expense rent consideration installment payments, monthly, beginning June 1, 2013, until the IT and Furniture Allowance account is fully depleted. Any sum in this Allowance account upon the cancellation of this Lease shall belong to the Lessee.

3.2 - The Lessor warrants that any asbestos contained within the Leased premises has been removed prior to the Lessee taking possession; or if not removed, is present or installed in a manner that will not harm or injure human occupants. The parties agree that the Lessee assumes no liability or responsibility for the presence of asbestos in or on the Leased premises.

3.3 - a) The Lessor covenants that he/she has undertaken an environmental assessment of the Leased premises, satisfactory to and for the benefit of the Lessee, that is adequate to establish the liability exemptions and defenses available in Sections 20126(1)(c) and 20126(3)(h) of the Natural Resources and Environmental Protection Act (NREPA), MCL 324.20126(1)(c) and 324.20126(3)(h) and Section 107(b)(3) of the Comprehensive Environmental Response Compensation Liability Act, 42 USC 9607(b)(3), and that the Leased premises, and property on which the Leased premises is located, do not contain a concentration of any hazardous substance above applicable criteria that applies to a non-liable owner in compliance with part 201 of NREPA and CERCLA.

b) The Lessor covenants that in the event a release or the threat of a release of a hazardous substance is discovered after execution of the Lease, to exist on, in or below the Leased premises, the Lessor shall:

1) Promptly notify both the State, as the Lessee, and the Michigan Department of Natural Resources and Environment (MDNRE) of the release or threatened release.

2) Report, investigate, remediate, and take all other actions consistent with Federal, State and local laws and regulations including, without limitation, Part 201 of the Natural Resources and Environmental Protection Act (NREPA), MCL 324.20101, et seq.

3) Inform the Lessee, the MDNRE, and all other parties required to be notified under Federal, State or local law, of all actions taken under (2) above.

4) Provide the Lessee, the MDNRE, and all other parties required to be notified under Federal, State or local law, with all reports, data, analyses and other documents and information related in any way to the investigation, remediation or other steps taken under (2) above.

c) The Lessor, except as otherwise provided herein, agrees to hold the Lessee harmless and to indemnify the Lessee for any claims brought against the Lessee related to asbestos or the release or threatened release of any hazardous substance on, in or below the Leased premises that may have occurred prior to or after the Lessee's occupancy of the Leased premises. This indemnification and hold harmless provision shall survive the termination of the leasehold interest and the sale of the Leased premises by the Lessor.

d) The Lessor agrees to take no administrative or judicial action against the Lessee including, without limitation, any action for damages, contribution, cost recovery, or injunctive relief to compel the Lessee to investigate or take remedial action, declaratory relief, or any action associated with the Lessor's obligations to comply with Federal, State or local law as a result of asbestos or the release or threat of release of any hazardous substance on, in or below the Leased premises, except if the release or threatened release is caused solely by the Lessee.

e) The Lessor and Lessee mutually agree that they shall not release on, in, or below the Leased premises any hazardous substance. The Lessee assumes responsibility, to the extent provided by law, for a release or threatened release of a hazardous substance caused by the Lessee. The Lessor need not indemnify or defend the Lessee if the release or threatened release is caused solely by the Lessee.

3.4 - The Lessor is responsible for defending the Lessee against any claim whether meritorious or frivolous, by any person challenging the Lessor's right to Lease the Leased premises, and shall at its sole expense satisfy any judgment against the Lessee.

3.5 - The Lessor shall begin the remodeling or construction indicated in paragraph 3.7 within **sixty** (**60**) days **from lease execution**. All work required under paragraph 3.7 shall meet the latest local and state building codes, fire codes, and barrier free regulations. The Lessor shall be responsible for acquisition of and payment for all necessary permits.

a) No later than **sixty** (**60**) days after the effective date of the Lease, the Lessor shall submit to the Lessee a detailed schedule for the design and construction of the Leased premises conforming to the Critical Path Method as outlined in Enclosure "C". Prior to commencement of construction, the Lessor shall submit detailed preliminary plans and specifications consistent with Enclosure "C" and a schedule of all permits and approvals for review by the Lessee.

b) Lessee will endeavor to use its best efforts to complete the review of the preliminary detailed plans and specifications within **two** (**2**) weeks of their submittal.

c) Lessee will either approve the preliminary detailed plans and specifications or make comments on them. The Lessor shall incorporate the Lessee's comments into the final design of the Leased premises. Once the final detailed plans and specifications are complete, they shall be attached to and become part of this Lease as Enclosure "C-1". Lessor shall supply three (3) copies of the final detailed plans and specifications to the Lessee prior to commencement of construction.

d) No modification shall be made to the final detailed plans and specifications without the prior written consent of the Lessee. Lessor, in constructing the Leased premises, shall use quality materials and comply with all federal, state, and municipal laws, rules, and regulations of any governmental agencies having jurisdiction over the Leased premises. All proposals for the necessary substitution of materials because of shortage or lack of specified materials will be immediately submitted to Lessee, and Lessee may thereupon approve these substitutions, provided they do not alter the quality of the Leased premises.

e) Building plan review and approval as described in this paragraph is not for the Lessor's benefit and the Lessee is not responsible for any design error and/or omissions discovered or which could have been discovered during this review. Nor does this review waive or negate any rights of the Lessee for breach of contract and/or default based upon design error and/or omissions.

f) The Lessor shall immediately commence construction as required in paragraph 3.6 upon submission of the final detailed plans and specifications to the Office of Design and Construction.

g) All work required under paragraph 3.6 shall meet the latest local and state building codes, fire codes, and barrier free regulations. The Lessor shall be responsible for acquisition of and payment for all necessary permits.

3.6 - a) The Lessor shall complete construction in accordance with the standards and specifications found in Enclosures "C" and "C-1" by **June 30, 2012**, or **within fifteen (15) months** after Lessor receives a fully executed copy of this Lease whichever is later. Upon completion of construction, Lessor shall submit to the Lessee three (3) copies of the "as-built" detailed plans and specifications.

b) Time extension requests must be submitted in writing to Lessee each month in which the Lessor believes he/she is entitled to more time. Such requests shall detail the length of time extension requested and indicate why the Lessor believes more time is warranted. Lessee will respond to such requests and may extend the timeframe allowed for Substantial Completion. If no time extension is requested in writing, it will be assumed that no additional time is needed and no timeframe extension will be allowed for that month.

c) The work to be performed under Article III of this Lease shall be commenced as provided in paragraph 3.5 and shall be Substantially Completed within the timeframe required in paragraph 3.6(a). Lessor and Lessee agree that Substantial Completion by the time specified is of the essence to this Lease and that the Lessee will suffer injuries and damages if the work is not timely completed. Should the Lessor fail to Substantially Complete the work within the above-referenced timeframe, the sum of $**1,000** per day shall be deducted from the Lease rent payment(s) for each and every calendar day of delay. It is understood and agreed that this deduction from Lease rent payment(s) is not a penalty, but represents liquidated damages suffered by the Lessee, and is so fixed on a per diem basis because of the extreme difficulty of ascertaining the full amount of damages the Lessee will sustain if the work is not timely completed. Liquidated damages are not intended to compensate the Lessee for any other breach of this Lease.

d) See attached Enclosure "C", for construction standards and specifications. Enclosure "C-1" (final detailed construction plans and specifications) shall be incorporated and attached to this Lease upon receipt by the Office of Design and Construction pursuant to paragraph 3.5.

e) The program, design, and construction of the Leased premises shall be executed in compliance with all applicable federal, state, and local laws, permits, approvals, ordinances, standards, and regulations, including but not limited to applicable regulations of the Occupational Safety and Health Act (OSHA), and other professional practices and industry standards.

f) The Lessor expressly warrants and guarantees to the Lessee that all construction work will conform to the Lease, Enclosures "C "and "C-1" and will not be defective. Reasonably prompt notice of defective work of which the Lessee has actual knowledge shall be given to the Lessor, but failure to do so will not void the Lessor's warranty and guarantee obligations unless actual prejudice results from such untimely notice.

The Lessor's obligations for correction of construction work specified herein are in addition to, and not in limitation of, any warranties or guarantees required elsewhere in this Lease, Enclosure "C" and "C-1", or by law. Nothing contained in this paragraph shall be construed as establishing a period of limitations for, or limiting the obligations of, the Lessor to warrant and guarantee that the construction work will not be defective.

3.7 - Lessor agrees that the Lessee or its authorized representative(s) shall, at all times, have access to the Leased premises construction site to determine that the Leased premises are being constructed in accordance with reasonable construction standards and the requirements of Enclosure "C" and "C-1". Lessor agrees that:

a) The Lessee's representative shall receive copies of Lessor's required construction submittals as outlined in Enclosure "C-1", such as shop drawings, product data and samples, to confirm conformance with the design concept of the work and with the information provided in enclosure "C-1" and industry performance standards.

b) The Lessee's representative shall have authority to observe the construction and where non-conformance with Enclosure "C" and/or "C-1" is discovered communicate to the Lessor such non-conformance. The Lessor agrees to take appropriate corrective action to conform the construction work to the requirements of Enclosure "C" and "C-1".

c) The Lessee's right to make observations or otherwise act as set forth in paragraph 3.7(a), 3.7(b), 3.7(d) and 3.7(e) shall not:

1) give rise to or impose any duty or responsibility on Lessee to make those observations or perform those services for the benefit of the Lessor or any of its contractors, subcontractors, agents, or employees;

2) relieve the Lessor from its obligations to perform the construction work in accordance with Enclosure "C" and "C-1"; or

3) represent acceptance of defective construction work.

3.8 - Lessor agrees that the Lessee shall retain an Architect/Engineer at Lessee's expense, who will provide construction inspection services and will periodically visit the site to determine that the Leased premises are being constructed in accordance with reasonable construction standards and relevant specifications and drawings, Lessor agrees that:

a) The Lessee's Architect/Engineer shall at all times have access to the work whenever it is in preparation and progress. Lessor is responsible for providing access to the Lessee's Architect/Engineer so that he/she may properly perform functions under this agreement.

b) The Lessor's Architect/Engineer who is responsible for the preparation of the construction documents will be the final interpreter of the specifications, drawings and standards, and the judge of performance thereunder by the Lessor.

c) The Lessee's Architect/Engineer shall receive copies of Lessor's required construction submittals, such as shop drawings, product data and samples, to confirm conformance with the design concept of the work and with the information provided in the specifications, drawings, and industry performance standards.

d) The Lessee's Architect/Engineer shall have authority to inspect and, where required because of a non-conformance with the relevant contract documents, reject any construction work, or take other appropriate action including recommending action necessary to correct any rejected work. The Lessor shall promptly correct the rejected work according to the Lessee's Architect/Engineer's recommendations.

e) The Lessee's Architect/Engineer's authority to make the required observations or otherwise act as set forth in Section 3.8 (a) - (d), shall not a) give rise to or impose any duty or responsibility on it to make those observations or perform those services for the benefit of the Lessor or any of its contractors, subcontractors, agents or employees, b) relieve the Lessor from its obligations to perform the construction work in accordance with the drawings, specifications and standards, or c) represent acceptance of defective construction work.

f) During the remodeling or construction of the Leased premises, either party may request remodeling or construction changes, for the purposes of economizing, or Lessee program changes. The Lessor shall submit a complete description and cost estimate for prior written approval to the Real Estate Division of the Department of Technology, Management & Budget, prior to the requested change. If the changes, and any resulting cost differences, are mutually agreed upon in writing by the Lessor, Lessee, and Real Estate Division, the Lessee shall make a lump-sum payment with, or lump-sum deduction from, the first month's rental consideration due the Lessor. Failure to include in the complete itemized cost estimate any cost directly or indirectly incurred as a result of the change constitutes Lessor's waiver of entitlement to such costs, except in the event that the Lessor or Lessor's contractor provides a detailed reservation of its right to additional costs which cannot be reasonably calculated as of the date the cost estimate is submitted.

3.9 - Remodeling of the Leased premises required by any existing or future laws, ordinances, or regulations of the city, village, township, county, state, or federal government, or other public building authority, shall be made by the Lessor, at no expense to the Lessee.

3.10 - In the event that less than ten percent (10%) of the replacement value of the Leased premises are damaged or destroyed by any casualty insured under the Lessor's insurance policy, the Lessor shall at its own expense, as speedily as circumstances permit, repair said damage and restore the Leased premises to its prior condition, within thirty (30) days notice after the damage or destruction. In the event that between ten percent (10%) and fifty percent (50%) of the replacement value of the Leased premises are damaged or destroyed by any casualty insured under the Lessor's insurance policy, the Lessor shall at its own expense, as speedily as circumstances permit, repair said damage and restore the Leased premises to its prior condition, within ninety (90) days notice after the damage or destruction. In the event that more than fifty percent (50%) of the replacement value of the Leased premises are damaged or destroyed by any casualty insured under the Lessor's insurance policy, the Lessor shall have the option of repairing or reconstructing, or canceling this Lease, which option shall be exercised within ninety (90) days after the damage or destruction. This covenant is cross referenced in Articles IV, V and XI.

3.11 - The Lessor shall not rent or otherwise occupy any adjoining space which is or becomes vacant on the Leased premises known as **School for the Deaf and Fay Academy and Stevens Hall Campus** during the term of this Lease or any extensions thereof, without first offering for a period of ten (10) days, the space to the Lessee at the same rental proposed for a third party, or if Lessor intends to occupy the space, at the Lessee's current rental rate and under the same terms and conditions found in this Lease.

3.12 - The Lessor shall comply with the Elliott-Larsen Civil Rights Act, 1976 PA 453, as amended, MCL 37.2101 et seq, the Persons with Disabilities Civil Rights Act, 1976 PA 220, as amended, MCL 37.1101 et seq, and all other federal, state and local fair employment practices and equal opportunity laws and covenants that it shall not discriminate against any employee or applicant for employment, to be employed in the performance of this real estate contract, with respect to his or her hire, tenure, terms, conditions, or privileges of employment, or any matter directly or indirectly related to employment, because of his or her race, religion, color, national origin, age, sex, height, weight, marital status, or physical or mental disability that is unrelated to the individual's ability to perform the duties of a particular job or position. The Lessor agrees to include in every subcontract entered into for the performance of this real estate contract this covenant not to discriminate in employment. A breach of this covenant is a material breach of this real estate contract. This covenant is cross referenced in Article XI.

3.13 - The Lessor shall have the right to specify positioning of safes or other concentrated loads, that do not exceed the structural loading capacities, in the floor design layout.

3.14 - The Lessor shall, within forty-five (45) days after transfer of its ownership interest in the Leased premises, provide notice to the Lessee of said transfer so that the Lessee can calculate the amount of the potential increase in real estate taxes as a result of such transfer.

3.15 – **Deleted, not applicable**

3.16 – Time extension requests must be submitted in writing to Lessee each month in which the Lessor believes he/she is entitled to more time. Such requests shall detail the length of time extension requested and indicate why the Lessor believes more time is warranted. Lessee will respond to such requests and may extend the timeframe allowed for substantial completion. If no time extension is requested in writing, it will be assumed that no additional time is needed and no timeframe extension will be allowed for that month.

3.17 – The Lessor shall permit the Lessee to display public notifications of applicable public meetings as required by 1976 PA 267, as amended, MCL 15.261 et seq, in public lobby areas of the building wherein the Leased premises are located, in a manner consistent with the decor of the public lobby areas. Any display cases or other means used to display such public notifications shall be at the Lessee's expense.

3.18 – Lessee requires that all newly constructed buildings leased by the State of Michigan shall be designed and constructed in accordance with the Leadership in Energy and Environmental Design (LEED) Green Building Rating System developed by the United States Green Building Council and complies with Energy Star® designation.

3.19 - In all contracts for the construction or renovation of the Leased Premises, the Lessor must include a provision stating that the rates of wages and fringe benefits to be paid to each class of construction mechanics by the Lessor's General Contractor, all of the General Contractor's Subcontractors, and all lower tier Subcontractors shall not be less than the wage and fringe benefit rates issued by the Michigan Department of Energy, Labor & Economic Growth, Wage and Hour Division in its schedule of occupational classification and wage and fringe benefit rates for the locality in which the work is to be performed. "Construction mechanic" means a skilled or unskilled mechanic, laborer, worker, helper, assistant, or apprentice working on the construction or renovation of the Leased Premises but shall not include executive, administrative, professional, office, or custodial employees. The Lessor or the Lessor's General Contractor must keep posted on the construction or renovation site, in a conspicuous place, a copy of all prevailing wage and fringe benefit rates and the address and telephone number of the Michigan Department of Energy, Labor & Economic Growth's Wage and Hour Division, currently 6546 Mercantile Way, Suite 5, P.O. Box 30476, Lansing, Michigan 48909-7976, Phone: (517) 335-0400 and a notice that as the intended beneficiaries of 1965 PS 166, as amended, MCL 408.551, et seq., construction mechanics who have not been paid in accordance with the Act may file a claim with the Department of Energy, Labor & Economic Growth. The Lessor or the Lessor's General Contractor must keep an accurate record showing the name and classification of each person performing work on the site, the dates on which work was performed, the hours each person worked on the site, and the actual hourly wages and benefits paid to each person. This record must be made available for inspection by the Department of Technology, Management & Budget and/or the Michigan Department of Energy, Labor & Economic Growth, at any time, upon request.

ARTICLE IV - LESSEE OBLIGATIONS, DUTIES, and OPTIONS

4.1 - The Lessee shall furnish:

a) **Deleted, Not Applicable.**

b) **Deleted, Not Applicable.**

c) **Deleted, Not Applicable.**

d) **Deleted, Not Applicable.**

e) **Deleted, Not Applicable.**

f) **Deleted, Not Applicable.**

g) Telecommunications system and equipment.

h) **Deleted, Not Applicable.**

i) Reimbursement to the Lessor, for any repairs to the Leased premises, from damage that exceeds the normal wear and tear expected from the lawful and proper use of the Leased premises, and the sole cause of which was the negligent acts or omissions of the Lessee's employees, agents, wards, clients, or customers.

j) Maintenance of: **None**.

k) Deleted, not applicable

4.2 - The Lessee shall give detailed written notice to the Lessor, and if applicable, to the Lessor's mortgagee, of the need for any maintenance which is the obligation of the Lessor pursuant to Article III. This provision is cross referenced in paragraphs 3.1(s), 5.15, and 5.17.

4.3 - a) The Lessee shall have the option to add tenant improvements to the Leased premises during this Lease or any extension at the Lessee's expense. The tenant improvements to the Leased premises shall be and remain the property of the Lessee, and may be removed by the Lessee prior to cancellation or termination of this Lease. In the event the Lessee exercises its option to remove any tenant improvements to the Leased premises under this paragraph upon cancellation or termination of this Lease, the Lessee shall restore or otherwise return the Leased premises to the Lessor in an "as found" condition, except for normal wear and tear, unless otherwise agreed upon in writing.

b) In the event the Lessee removes any fixtures, finishes, additions, or structures owned by the Lessor, placed in or attached to the Leased premises, upon termination or cancellation of this Lease, the Lessee shall restore or otherwise return the Leased premises to the Lessor in an "as found" condition, except for normal wear and tear, unless otherwise agreed upon in writing.

4.4 - All tenant improvements by the Lessee, made pursuant to paragraph 4.3, shall be performed in a manner customarily accepted by the skilled trades, and in accordance with all federal, state, and local rules, ordinances, laws, codes, or nationally recognized standards of good construction practice.

4.5 - Upon cancellation or termination of this Lease, the Lessee shall clean the Leased premises to "broom-clean condition", and shall remove all furnishings **supplied and owned by the State** from the Leased premises. Furnishings remaining in or on the Leased premises after the cancellation or termination effective date shall be considered abandoned property, and the Lessee shall be obligated to pay the Lessor for all reasonable removal costs.

4.6 - The Lessee shall be responsible to request and obtain any local government sign ordinance variances and the payment of any related fees.

4.7 - In the event the Lessor fails to proceed with repairs necessitated by damage or destruction that is fifty percent (50%) or less, as referenced in paragraph 3.10, the Lessee may proceed, after affording insurance surveyors or adjusters opportunity to inspect the damages, with repairs for the account of and at the expense of the Lessor.

4.8 - If the Lessee records this Lease with the county register of deeds, the Lessee shall record a discharge or notice of cancellation or termination of Lease within thirty (30) days after the cancellation or termination of this Lease is effective. The discharge from the public record shall include any recorded amendments to this Lease.

4.9 - The Lessee shall close all open windows, skylights, doors, or other exterior openings to the Leased premises, within the control of the Lessee, to avoid possible damage from fire, storms, rain, or freezing, when leaving the Leased premises at the close of the business day, or prior to any times when the Leased premises shall be unoccupied.

4.10 - The Lessee shall not permit:

a) Bicycles, mopeds, or other vehicles used for personal transportation, to be stored within the Leased premises or other common areas, unless otherwise specifically authorized elsewhere in this Lease, or agreed upon in writing with the Lessor.

b) Any items to be attached to suspended acoustical ceiling grids.

c) Access to any roof or overhang structure, except as under emergencies to maintain the roof moisture barrier or any rooftop mechanical system affecting the Leased premises.

ARTICLE V - RENT CONSIDERATION

5.1 - Rent consideration installment payments shall be made during the month for which the installment applies.

5.2 - If the Leased premises are not ready for Possession by the date established in paragraphs 2.4 and 3.6, the Lessee shall not be responsible for rent until taking possession, nor shall the Lessee waive any claims to damages which the Lessee may have suffered.

5.3- - The Lessee shall pay to the Lessor as annual rent consideration for the Leased premises from 12:01 a.m. **July 1, 2012**, through 11:59 p.m. **June 30, 2017**, at the rate of Two Million Sixty Thousand and 00/100 dollars ($2,060,000.00) per year, payable in installments of One Hundred Seventy One Thousand Six Hundred Sixty Seven and 00/100 dollars ($171,666.00) per month. **Of this amount, $940,000.00 per year ($78,333.33 per month) shall be Base Rent, and $1,120,000.00 per year ($93,333.33 per month) shall be Operational Rent.**

5.3A - Deleted, Not Applicable

5.4 – The Lessee shall pay to the Lessor as annual rent consideration for the Leased premises from 12:01 a.m. **July 1, 2017**, through 11:59 p.m. **June 30, 2022**, at the rate of Two Million One Hundred Eighty Three Thousand Six Hundred and 00/100 dollars ($2,183,600.00) per year, payable in installments of One Hundred Eighty One Thousand Nine Hundred Sixty Seven and 00/100 dollars ($181,967.00) per month. **Of this amount, $940,000.00 per year ($78,333.33 per month) shall be Base Rent, and $1,243,600 per year ($103,633.67 per month) shall be Operational Rent.**

The Lessee shall pay to the Lessor as annual rent consideration for the Leased premises from 12:01 a.m. **July 1, 2022**, through 11:59 p.m. **June 30, 2027**, at the rate of Two Million Three Hundred Fourteen Thousand Six Hundred Twenty and 00/100 dollars ($2,314,620.00) per year, payable in installments of One Hundred Ninety Two Thousand Eight Hundred Eighty Five and 00/100 dollars ($192,885.00) per month. **Of this amount, $940,000.00 per year ($78,333.33 per month) shall be Base Rent, and $1,374,620.00 per year ($114,551.67 per month) shall be Operational Rent.**

The Lessee shall pay to the Lessor as annual rent consideration for the Leased premises from 12:01 a.m. **July 1, 2027**, through 11:59 p.m. **June 30, 2032**, at the rate of Two Million Four Hundred Fifty Three Thousand Four Hundred Ninety Seven and 00/100 dollars ($2,453,497.00) per year, payable in installments of Two Hundred Four Thousand Four Hundred Fifty Eight and 00/100 dollars ($204,458.00) per month. **Of this amount, $940,000.00 per year ($78,333.33 per month) shall be Base Rent, and $1,513,497.00 per year ($126,124.75 per month) shall be Operational Rent.**

5.5 - In the event the Lessee exercises the renewal option pursuant to Article II, paragraph 2.5, the Lessee shall pay to the Lessor as rent consideration for the Leased premises from 12:01 **July 1, 2032** through 11:59 p.m. **June 30, 2042** at the rate **of Five Hundred Thousand and 00/100 dollars ($500,000.00)** per year, payable in installments **of Forty One Thousand Six Hundred Sixty Seven and 00/100 dollars ($41,667.00)** per month, plus all operational, and utility and property taxes, insurance and maintenance expenses which are to be included in the rent and to be substantiated by invoice for this and any future renewal options.

5.6 - Deleted, Not Applicable

5.7 - Deleted, Not Applicable

5.8 - Deleted, Not Applicable

5.9 - Deleted, Not Applicable

5.10 - Deleted, Not Applicable

5.11 - Deleted, Not Applicable

5.12 - Deleted, Not Applicable

5.13 - Reserved

5.14 - Reserved

5.15 - If the Lessor fails to provide maintenance or complete the remodeling or construction, as referenced in Article III, the Lessee may provide the required maintenance, or complete the required remodeling or construction, and deduct the costs from **future Operational Rent only**.

ARTICLE VI - LESSEE OPTION TO PURCHASE

6.1 - For purposes of this Article VI only, the Lessor shall be defined as the "Seller" and the Lessee shall be defined as the "State".

6.2 - The Seller hereby grants to the State the exclusive right and option to purchase the Leased premises described in paragraphs 2.1 and 2.2 (for purposes of Article VI, referred to as the "Premises"), and all rights, title, and interest presently held and subsequently acquired therein.

(Legal Description, **please see Enclosure "B"**)

6.3 - This option to purchase may be exercised by the State only:

a) Anytime after the **seventh** full year of possession.

6.4 - Written notice of the exercise of this option to purchase shall be made by the State, as found in paragraph 12.1.

6.5 - The total purchase price shall be the fair market value of the land, structures and improvements thereto, as described in paragraphs 2.1 and 2.2 **as long as the fair market value is not less than the debt owed**.

6.6 - Fair market value shall be determined **with a market appraisal, by using the income method, by an independent fee appraiser who is licensed by the State of Michigan as a State Certified Real Estate Appraiser, under the authority of 1980 PA 299, as amended, MCL 339.101 et seq. (Occupational Code). The income stream may exclude the lower than market rent, set forth for the option period.**

6.7 - The State shall contract and pay for an independent fee appraisal to determine fair market value. However, if the Seller does not agree with the fair market value established by the State's appraisal, the Seller shall, at the Seller's expense, contract for a second fair market value appraisal by an independent fee appraiser who is licensed by the State of Michigan as a State Certified Real Estate Appraiser, under the authority of 1980 PA 299, as amended, MCL 339.101 et seq (Occupational Code). The State and the Seller shall promptly notify each other of the estimated time to obtain an appraisal. The State and the Seller shall promptly submit their respective appraisals to each other, but in no event later than thirty (30) days after receipt of the appraisal. If there is a difference between the first and second appraisal of ten percent (10%) or less, the State and the Seller shall split the difference in value. If there is a difference between the first and second appraisals of more than ten percent (10%), the State shall contract for a review appraisal, of the first and second appraisals. The review appraisal determination shall be binding upon the State and the Seller. The cost of the review appraisal shall be split equally by the State and the Seller.

6.8 – **Deleted, Not Applicable.**

6.9 - If the State exercises its option to purchase the Premises, the Seller shall, within ten (10) days thereafter, furnish and deliver to the State's attorney a commitment for title insurance with coverage in an amount at least equal to the amount of the taxable value. The commitment for title insurance shall evidence good and marketable title in fee simple absolute to the Premises to be vested in the State and shall be conditioned only upon delivery of a sufficient warranty deed from the Seller to the State. The Seller shall take all actions required by such commitment for title insurance to remove exceptions to coverage for liens, mortgages, and all other similar encumbrances prior to closing. The commitment can include easements for utilities and such other permitted encumbrances that are of record at the date of possession and approved by the State. The Seller shall update the amount of coverage to the fair market value as determined in paragraph 6.7 prior to closing.

6.10 - If objection to the title is made, based upon a written opinion of the State's attorney that the title is not in the condition as required for performance hereunder, the Seller shall have thirty (30) days from the date they are notified in writing of the particular defects claimed to remedy the title to the satisfaction of the State's attorney. If the Seller fails to remedy the defect within said thirty (30) days, this option, in the discretion of the State, may be considered null and void and the parties relieved from any and all liability thereunder or the State may proceed to have such defect remedied or removed. The Seller shall use its best efforts and shall cooperate with the State to remove any and all title defects so identified.

6.11 - In the event that examination of the title by the State's attorney discloses any easements or restrictions on use of the Premises which would prevent the State from using the Premises for the purposes for which they were to be acquired, the State may at its sole discretion terminate this option and the parties will be thereupon relieved from any and all liability hereunder or the State may proceed to have any easements or restrictions on the use of the Premises removed. If the State is unsuccessful in removing such easements or restrictions, the State may, at its option, terminate this option and the parties will be thereupon relieved from any and all liability hereunder. The Seller shall use its best efforts and shall cooperate with the State to remove any and all restrictions on the use of the Premises.

6.12 - If the Premises are not free and clear of and from all defects, liens and encumbrances, the Seller shall remove all defects, liens and encumbrances on or before the date that the warranty deed is to be delivered. The documents referred to above shall collectively demonstrate no unpaid delinquent taxes assessed against the Premises in question or against the Seller. The Seller shall also furnish to the State's attorney, if the Premises are being sold on a land contract, a copy of the land contract, or assignment of land contract, with payment record showing all interest and principal paid to date with a clearly stated outstanding principal balance thereon.

6.13 - Transfer of title to the Premises described in paragraphs 2.1 and 2.2 shall be effected by warranty deed conveying a good and marketable title in fee simple absolute to the Premises, including title to all fluid, mineral and gas rights, buildings, structures, trees and other improvements thereon. The title is to be free and clear from all liens and encumbrances. The warranty deed shall be delivered to the State upon payment of the full purchase price.

6.14 - Unless instructed to do otherwise by the Seller, the State shall deliver to the Seller, at the time set for delivery of the warranty deed, a State warrant payable to the Seller.

6.15 - If this option is exercised, the Seller shall deliver possession of the Premises in vacant condition and free of all possessory interests (except this Lease), including tenancies, licenses, and others lawfully or unlawfully upon the Premises, in as good condition as it now is,

reasonable wear and tear excepted, upon execution and delivery of the warranty deed. Warranties for structural systems, materials, and equipment received by the Seller, whether expressed or implied, including but not limited to warranties of merchantability and fitness for a particular purpose, shall be assigned to the State by the Seller upon delivery of possession to the State.

6.16 - The Seller acknowledges responsibility for payment of any state or local real estate transfer taxes. Such obligation shall be discharged no later than the time of delivery of the warranty deed to the State. The warranty deed shall be delivered to the State of Michigan either with stamps affixed or accompanied by a check(s) payable to the County Register of Deeds in the amount of such taxes.

6.17 - The Seller shall be responsible for paying the cost of recording discharges of mortgages, documents terminating liens, quit-claim deeds, or other documents required by law or requested by the State's attorney to clear defects in the title. The State shall be responsible for paying the cost of recording the warranty deed delivered by the Seller.

6.18 - Real property taxes shall be pro-rated as provided in 1893 PA 206, as amended, MCL 211.2 et seq. (General Property Tax Act). The Seller shall further be responsible for any other real property taxes, which become a lien upon the property in any year prior to the calendar year in which title passes to the State. Should any special assessments be made against the property, the Seller shall be responsible for the payment of all assessments or installments of assessments which become due before the day title passes to the State. **Lessee is entitled to a setoff equal to any amounts paid to Lessor that are duplicative of property taxes owed pursuant to MCL 211.2. Lessor is not entitled to be reimbursed more than once for the same property taxes.**

6.19 - The Seller agrees not to do, or suffer others to do, any act by which the value or title to the Premises may be diminished or encumbered. The Seller further covenants and binds itself, its successors, and assigns to carry out the terms of this option.

6.20 - **Reserved**

6.21 - If this option is exercised, the State may, at its sole discretion, require the Seller to undertake an environmental assessment of the Leased premises, satisfactory to and for the benefit of the State, that is adequate to establish the liability exemption and defenses available in Sections 20126 (1)(c) and 20126 (3)(h) of the Natural Resources and Environmental Protection Act (NREPA), MCL 324.20126(1)(c) and 324.20126(3)(h) and Section 107(b)(3) of the Comprehensive Environmental Response Compensation Liability Act, 42 USC 9607(b)(3), that the Leased premises, and the property on which the Leased premises is located, do not contain a concentration of any hazardous substance above applicable criteria. The environmental assessment shall be in addition to the environmental assessment referenced in paragraph 3.3(a) of this Lease. If, based upon the environmental assessment undertaken as a part of this option, a release or threat of a release is discovered, the State may, at its sole discretion, terminate this option and be relieved of any liability under Article VI. Nothing in this paragraph shall relieve the Lessor/Seller of its obligations under paragraph 3.3 of this Lease.

ARTICLE VII - EMINENT DOMAIN/CONDEMNATION

7.1 - The Lessor shall notify the Lessee within ten (10) days of the commencement of eminent domain/condemnation proceedings against the Leased premises described in paragraphs 2.1 and 2.2 by a public agency authorized by law to condemn property. The Lessor
